

Celebrating 99 Years of Community, Growth & Transformation

Welcome to the 2024-25 Academic Year!

On behalf of our entire San Bernardino Valley College team, it is my honor to welcome you to SBVC! At SBVC, we have been helping students achieve their educational goals for nearly a century. You are part of a long-standing tradition of academic excellence, innovation, and a lifelong commitment to inspire positive change in this world.

For our first-time students, welcome home to the pride of San Bernardino! We hope your experiences at SBVC are enriched by our stellar faculty and staff, inside the classroom, online, and in every aspect of your college experience. Always remember, at SBVC, we are here to support you!

If you are a student continuing on your college journey, welcome back! We hope you are making yourself right at home at SBVC as you work toward completing a degree or certificate. Remember to get involved! Your journey to an exciting career and/or transfer will be enhanced by becoming actively involved on campus. We encourage you to connect with fellow students who are sharing in the journey by joining a club, getting involved with student government, or simply by attending arts, theater, athletics, dance, or music performances by inspired SBVC students who are led by talented faculty and staff.

For over 99 years, SBVC's faculty, classified professionals, and management team have reflected our community and taken pride in providing you with a world-class education and a culture of care. When you reach your goals at SBVC and continue on your journey beyond Mt. Vernon, you will have the knowledge and experience that will help you tackle the real-world challenges you will face in your career and in life.

Thank you for selecting San Bernardino Valley College. We can't wait to connect with you and work alongside you throughout your educational journey!

Sincerely,
Dr. Gilbert J. Contreras, President

!Bienvenidos al Curso Académico 2024-25!

En nombre de todo el equipo de San Bernardino Valley College, es un honor para mí darles la bienvenida a SBVC. En SBVC, hemos estado ayudando a los estudiantes a alcanzar sus metas educativas durante casi un siglo. Ustedes son parte de una tradición de excelencia académica, innovación y un compromiso duradero para inspirar cambios positivos en este mundo.

Para nuestros estudiantes de nuevo ingreso, ¡bienvenidos al orgullo de San Bernardino! Esperamos que sus experiencias en SBVC se enriquezcan gracias a nuestra excelente facultad y personal, dentro del aula, en línea y en todos los aspectos de su experiencia universitaria. Recuerden siempre que en SBVC, estamos para apoyarlos.

Si eres un estudiante que continúa su viaje universitario, ¡bienvenido de nuevo! Esperamos que te sientas como en casa en SBVC mientras trabajas para completar un título o certificado. Recuerda, ¡involúcrate! Tu camino hacia una carrera emocionante y/o transferencia se verá enriquecido al participar activamente en el campus. Te animamos a conectarte con otros estudiantes que comparten este viaje uniéndote a un club, participando en el gobierno estudiantil o simplemente asistiendo a eventos de arte, teatro, atletismo, danza o música presentados por estudiantes inspirados de SBVC que son dirigidos por nuestra talentosa facultad y personal.

Durante más de 99 años, la facultad, los profesionales clasificados y el equipo directivo de SBVC han reflejado nuestra comunidad y se han enorgullecido de ofrecerles una educación de clase mundial y un ambiente atento. Cuando alcancen sus metas en SBVC y continúen su viaje más allá de Mt. Vernon, tendrán el conocimiento y la experiencia que les ayudarán a enfrentar los desafíos del mundo real que encontrarán en su carrera y en la vida.

Gracias por elegir San Bernardino Valley College. ¡Estamos ansiosos por conectarnos con ustedes y trabajar junto a ustedes a lo largo de su viaje educativo!

Sinceramente,
Dr. Gilbert J. Contreras, Presidente

COLLEGE GENERAL

The College

San Bernardino Valley College is a comprehensive community college that serves the residents of the Inland Empire. The college is one of 116 locally governed California Community Colleges, and as such, is regulated by the California Education Code and is subject to the directions of the California Legislature and the California Community College Board of Governors. The college is responsible to its local constituency through an elected Board of Trustees, which is the primary policy-making body for the college. Students of the college are drawn, for the most part, from the local community. In addition, specific programs at the college attract students from throughout the state and world. Students range in age from under 18 to over 80 years, and reflect the ethnic and cultural diversity of the region.

History

San Bernardino Valley College was established in 1926, and originally served only the San Bernardino and Colton Unified School Districts. The population served has now expanded to include communities throughout the Inland Empire. Over the years, the original four-building campus has grown to one of 43 buildings grouped around a central, park-like open space, giving easy access to the numerous special purpose classrooms, lecture halls, laboratories, studios, shops and practice rooms. A faculty of 16 has grown to a teaching staff of more than 180 full-time and 480 adjunct faculty, and student body of 140 has grown to over 17,000. San Bernardino Valley College is proud of its long tradition of service to our community, and the faculty and staff is gratified to know they have played an important part in improving the lives of so many.

Mission Statement

San Bernardino Valley College provides innovative instructional programs and cohesive student services to support the educational goals of a culturally diverse community of learners by engaging in continuous improvement and actively working towards an antiracist culture to foster an environment of meaningful learning and belonging for our students, employees, and the community.

Vision Statement

Through offering a variety of degrees, certificates, skill-building courses, and opportunities for personal and professional enrichment, San Bernardino Valley College strives to be the institution of choice for the region. Our inclusive culture, quality education, and comprehensive support services will create leaders dedicated to promoting social justice and community advocacy on a local and national level.

Values

San Bernardino Valley College's commitment to its mission is expressed through its values.

As a community, the college values:

Diversity, Equity, Inclusion, and Anti-Racism: Our strength as an institution is enhanced by the cultural diversity, and varied lived experiences of our students, faculty, staff, and external community. Policies, plans, and decisions must be data-informed, utilize an equity lens, and be based on thoughtful consideration of what will best serve our students and the community at large.

Student Success: Quality education and training supports students in improving their lives and the lives of their families, while uplifting the

community. Students will enhance their ability to think critically, to communicate clearly, and to grow personally and professionally within an enriched learning environment that promotes creativity, self-expression, and the development of critical thinking skills. We strive to identify and address equity gaps through evidence-based research to ensure that each student has the opportunity to succeed.

Open Access: We are committed to providing quality programs and services for every member of our community regardless of their level of preparedness; socioeconomic status; gender and gender expression; sexual orientation; cultural, religion, ethnic background; and abilities. Additionally, we must provide students with access to the resources, services, and technological tools that will enable them to achieve their educational goals.

Campus Climate: We value a campus-wide climate that is student-focused, fosters mutual respect between all constituencies, values multiple perspectives, and appreciates diverse cultures and human experiences. We must hold ourselves and our students to the highest ethical and intellectual standards.

Participatory Governance: As part of the collegial consultation process, all levels of the college must openly engage in sharing ideas and suggestions to develop innovative ways to improve our programs and services. We value equitable, inclusive, collaborative, and transparent governance processes grounded in open, honest, and reflective discourse.

Strategic Initiatives

San Bernardino Valley College's Institutional Guiding Principle: *We are committed to quality and excellence in all of our efforts.*

Our Strategic Initiatives are as follows:

- Increase Access
- Promote Student Success
- Improve Communication, Culture, and Climate
- Maintain Leadership and Promote Professional Development
- Effective Evaluation and Accountability
- Provide Exceptional Facilities

Campus Safety

To Report A Life-Threatening Emergency, Call 911

Campus Safety Mission Statement

The San Bernardino Community College District Police, in concert with the Board of Trustees, is committed to providing a safe and secure learning and working environment for all students and employees. This will be accomplished through a cooperative and coordinated effort involving all departments and the San Bernardino Community College District employees, law enforcement agencies and community.

It is a policy of the Board of Trustees for the San Bernardino Community College District to protect members of the entire college community and the property of the District. In accordance with this policy, the District maintains a Police Department 24 hours a day, 7 days a week. The officers are sworn and duly Commissioned Police Officers of the State of California as defined in section 830.32 of the Penal Code and 72330 of the California Education Code and authority extends to anywhere within the state.

For Non-Emergencies

Contact the San Bernardino Community College District Police Department (SBCCD PD) at (909) 384-4491. Our business office is located in the Campus Center Building, Room 100. Call this number to locate and/or turn in lost articles or to relay concerns for personal safety along with parking rules and regulations. The main office at the SBCCD PD is open for business Monday – Friday from 8:00 am – 4:30 pm (except for holidays and SBCCD academic breaks). The SBCCD PD contracts with California State University, San Bernardino (CSUSB) PD to provide 24-hour dispatch services for each of the two campuses, as well as the SBCCD District Support Operations. CSUSB dispatchers are POST-certified professionals who answer calls for each of the campuses' direct phone lines, 9-1-1, and the emergency blue phones located on SBVC campus.

In 1990, the U.S. Congress enacted the "Crime Awareness and Campus Security Act of 1990," which requires colleges and universities to disclose information about crime on and around their campuses. This law was renamed in 1992 to the "Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act". The San Bernardino Community College District provides this information in the Annual Security Report that is available to all campus community members and the public. This report provides statistical, policy, and procedural information required by the Clery Act. The full text of this report can be accessed from our website at: <https://sbccd.edu/district-services/police-department/>

In addition to being available at various offices on campus or at the police office in Campus Center room 100. For prevention and survival tips on active shooter situations, sexual assault, personal safety, and thefts, go to <https://sbccd.edu/district-services/police-department/>. View past presentations, schedule a presentation for your class or department meeting, access local and state websites for additional resources, and print/download numerous safety resources. Students may also view the Campus Information and Safety Awareness Orientation presentation by going to: <https://sbccd.edu/district-services/police-department/>

Student Health Services: (909) 384-4495

Institutional Learning Outcomes

The five (5) Institutional Learning Outcomes listed below describe the skills and abilities the student should be able to demonstrate after completing the requirements for an Associate Degree at San Bernardino Valley College. These Institutional Learning Outcomes are embedded in our established pattern of general education courses, in our more advanced major-preparation courses, and in the student service learning experiences we provide over the span of a student's enrollment at the college. In addition, assignments that lead to the acquisition of these core skill sets are embedded in the coursework required for vocational certificates. The Institutional Learning Outcomes are:

- a. **Communication Skills:** Comprehend content and communicate in written, spoken, signed, or artistic formats.
- b. **Quantitative Reasoning Skills:** Apply mathematical or analytical skills to identify and solve problems and synthesize and evaluate ideas.
- c. **Critical Thinking Skills and Information Literacy:** Critically evaluate qualitative and quantitative hypotheses, sources, and conclusions.
- d. **Personal, Academic, and Career Responsibilities:** Develop goals for personal, academic, and career environments.
- e. **Social and Global Awareness:** Recognize the impact of one's actions on the environment and one's role in society with respect to diversity, equity, inclusion, and anti-racism.

For additional information on SBVC's Institutional Learning Outcomes, please visit the website (<https://www.valleycollege.edu/about-sbvc/campus-committees/outcomes/ilo/>).

San Bernardino Valley College Foundation

In 1973, the San Bernardino Valley College Foundation (SBVC Foundation) was founded on the belief that college strengthens the individual and the community. The SBVC Foundation is an independent, nonprofit, 509(a)(3) organization whose purpose is to raise and administer funds for the benefit of San Bernardino Valley College.

As students earn degrees and certificates, together the San Bernardino Valley College Foundation and San Bernardino Valley College foster economic growth and improve quality of life in the Inland Empire and beyond.

Mission

The San Bernardino Valley College Foundation's mission is to serve as a fundraising organization that is committed both to the stewardship, sound management and effective utilization of the Foundation's financial assets and to supporting San Bernardino Valley College's ongoing commitment to provide high-quality education, innovative instruction, and services to a diverse community of learners.

Use of Image, Likeness or Voice Captured at Public Events

The various sites of the San Bernardino Community College District (including San Bernardino Valley College) often host events that are open to the public such as, but not limited to, graduation, athletic competitions, job fairs, speakers, and various activities held on campus or district property. Those events are considered news events. Such an event may be photographed, videotaped or webcast for purposes of archiving the event, educational use, or publicity. Students, staff, faculty and the public who attend those events may have their image or voice captured on video, webcast or photograph(s). Due to the nature of these events, the San Bernardino Community College District, and its various sites, has no means by which to prevent such photographs, videotaping or webcastings from including a specific attendee's image or voice. By attending the event, such person is granting the site and the SBCCD the right to use any such still or motion images or voice recordings in future publicity or publications, including web postings as needed and without compensation. No release shall be required by the SBCCD or its sites to utilize in an appropriate manner any images captured during a public event, even if the subject is a minor.

For additional information, please contact the Campus Director of Marketing, Creative Services & Public Affairs at (909) 384-8978 or by email at pbratulin@valleycollege.edu (pbratulin@sbccd.edu).

ACADEMIC STANDARDS AND POLICIES

- Attendance (p. 11)
- Classification of Student Load (p. 11)
- Alternative Sources of Credit (p. 11)
- Final Exams and Grades (p. 19)
- Grades and Grade Points (p. 19)
- Pass/No Pass (p. 20)
- Probation and Dismissal (p. 20)
- Academic Renewal (p. 20)
- Non-Discrimination Policy (p. 21)
- Open Enrollment Policy (p. 21)
- Sexual Harassment Policy (p. 21)
- Academic Freedom (p. 21)
- Course Information (p. 21)

Attendance

All students are expected to attend classes regularly. Each instructor will inform students at the beginning of each term exactly what is to be expected regarding attendance in class, and the instructor's decision is final. In the event an absence is unavoidable, students are responsible for notifying instructors.

A student's failure to attend class meeting(s) during the first week of a term may result in the student being dropped from the class. After the first week of classes during any term, an instructor may drop a student from any class in which the student has:

- Violated the instructor's stated attendance requirements
- Accrued more than two absences per unit, or
- Attended so irregularly that the instructor feels it is unwise for the student to continue.

Instructors may not drop students after the 11th week of instruction (for full semester classes) or after 60 percent of instruction (for short-term classes).

Class Attendance

Students who are not in attendance at the first class meeting are considered "no-shows." Instructors may choose to drop no-shows in order to give their seats to non-registered students seeking entrance to the course. In this case, students are still responsible for the student fees.

Withdrawal from Classes

If a student stops attending class, it is their responsibility to officially drop the class. A student who wishes to drop one or more classes but continue enrollment in other classes should drop the course online prior to the end of the second week (or 20% of a term, whichever is sooner). No entry will be made on the student's record for dropping a class prior to the 20% deadline. A student who withdraws or is dropped from a course before 60% of the class has been completed will not receive a letter grade. Instead, a W (Withdrawal) will be recorded on the student's transcript. This symbol carries no evaluation of the student's work, but is a clerical notation that the student was enrolled in the course and withdrew or dropped without grade or unit credit. W's are used in probation and dismissal procedures

as well as in determining satisfactory academic progress for financial aid. Students will receive a letter grade if they continue any course after 60 percent of a class has been completed. Student may receive no more than three (3) "W" grades for any one course (Title 5, section 55024). A student activated for military service may receive a military withdrawal (MW) at any time during the semester. Military withdrawals will not factor into progress probation and disqualification. Students who are members of the military (active or reserve) or National Guard should present their military orders to Admissions and Records in order to have the MW assigned.

Classification of Student Load

Students are defined as full-time when enrolled in 12 or more units in either the Fall or Spring semesters. A part-time student is one who is enrolled in fewer than 12 units in either the Fall or Spring semesters. During the summer session, a full-time student is enrolled in 6 or more units and a part-time student is enrolled in fewer than 6 units. (Please note that for financial aid purposes, 12 units is considered full-time during the summer session, as well). An overload of units requires a counselor's signature for registration. Overloads are considered to be anything over 18 units for the Fall or Spring semesters and anything over 8 units for the Summer term.

Credit Hours (Units)

One credit is awarded for each 16-18 lecture hours of instruction, or for 48-54 laboratory hours, or for appropriate combinations of lecture and laboratory hours. For each one hour of lecture, students are expected to fulfill at least two hours of work outside of class in reading, preparing assignments or other activities related to the course.

Class hours are defined as 50 minutes. Classes scheduled for more than an hour follow formulas to stay close to this definition. For example, a class schedule from 6:00 to 7:30 p.m. (90 minutes) actually meets for 80 minutes, allowing for a 10-minute passing period. Longer class meeting patterns have required breaks. San Bernardino Valley College follows these time patterns.

Alternative Sources of Credit

- Credit by Examination (p. 12)
- Credit for Advanced Placement (AP) Examinations (p. 13)
- Credit for Courses From Other College and Universities (p. 14)
- Credit for DSST/DANTES (Defense Activity for Non-Traditional Education Support) (p. 14)
- Credit for Military Service (p. 15)
- Credit for the College Level Examination (CLEP) Program (p. 15)
- Credit for the International Baccalaureate (IB) (p. 17)
- Transfer of Credit (p. 15)

Credit by Examination

(BP/AP4235 Credit for Prior Learning)

Students may demonstrate proficiency in a course eligible for Credit for Prior Learning and receive college credit through the approved alternative methods for awarding credit listed below:

- Achievement of a score of 3 or higher on an Advanced Placement Examination administered by the College Entrance Examination Board.
- Achievement of a score that qualifies for credit by examination in the College Level Examination Program (CLEP).
- Evaluation of joint service transcript (JST) that considers the credit recommendations of the American Council on Education pursuant to Education Code 66025.71.
- Evaluation of industry-recognized credential documentation.
- Evaluation of student-created portfolios.
- Credit by satisfactory completion of an examination administered by the college in lieu of completion of a course listed in the college catalog.
- Achievement of an examination administered by other agencies approved by the college.
- Assessment approved or conducted by proper authorities of the college.

Determination of Eligibility for Credit for Prior Learning:

- The student must be currently registered in the college and in good standing.
- The student must have previously earned credit or noncredit from the college or be currently registered in the college.
- Current students must have an education plan on file.
- The student is not currently enrolled in the course to be challenged.
- Credit by Examination: The student is registered in the college and not currently enrolled in nor received credit for a more advanced course in the same subject (may be waived by discipline faculty). The determination to offer credit by examination rests solely on the discretion of the discipline faculty.

Credits acquired by examination shall not be counted in determining the 12 semester hours of credit in residence required for an associate's degree.

- A fee may be charged for administering an examination provided that the fee does not exceed the enrollment fee which would be associated with enrollment in the course for which the student seeks credit by examination.
- The student's academic record shall be clearly annotated to reflect that credit was earned by assessment of prior learning.

Upon a student's demonstration of sufficient mastery through an examination or assessment, an award of credit should be made, if possible, to:

- California Intersegmental General Education Transfer Curriculum (IGETC),
- California State University General Education (CSUGE) Breadth,
- The college's general education requirements or requirements for a student's chosen program, or
- Electives for students who do not require additional general education or program credits to meet their goals.

Grading shall be according to the regular grading system approved by the governing board, except that students shall be offered a "pass-no pass" option if that option is ordinarily available for the course.

The SBCCD Board of Trustees will review the credit for prior learning policy every three years and report the findings to the California Community College Chancellor's Office that include the following:

- The number of students who received credit for prior learning,
- The number of credits awarded per student,
- Retention and persistence rates of students earning credit for prior learning,
- Completion data (for certificate, degree, and transfer) for students earning credit for prior learning, and
- Qualitative assessments by students of the policies and procedures.

An application for Credit-By-Examination is available in the Admissions and Records Office (AD/SS 100). In addition to paying an enrollment fee based on the number of units in the course that is being challenged, there is an additional \$20 processing fee, which is applied to all credit-by-examination applications. (Note: all students, including those with the Board of Governor fee waivers, must pay the processing fee and enrollment fee based on units when applying for credit-by-examination.)

Once the application has been approved by the administrator and the necessary fees have been paid, the instructor may administer the examination and submit the grade earned. Grades will be consistent with the grading systems established by the college and will be submitted by the Division to the Admissions and Records Office by the end of the semester in which the examination is completed. The student's transcript will contain a notation that indicates that the credit was earned by examination. Any grades earned through credit-by-examination will not be counted in determining the twelve (12)

semester units of credit in residence required for graduation from the college. Upon completion, a notification will be sent to your Valley College email. Financial aid is not available for credit by examination.

Credit for Advanced Placement (AP) Examinations

Students who have completed Advanced Placement (AP) examinations of the College Entrance Examination Board with scores of 3, 4, or 5 may receive credit at San Bernardino Valley College as indicated in the table below (in accordance with Title 5, §55052). A grade of Pass (P) will be assigned on the transcript. Credit awarded through advanced placement may be used to satisfy graduation requirements toward the associate degree, IGETC and CSU General Education-Breadth requirements. Transfer universities re-evaluate AP. The units earned from AP credit will not apply toward financial aid nor can they be used to satisfy the 12-unit residence requirement for graduation. Students must be enrolled at San Bernardino Valley College to receive credit for Advanced Placement Exams. To request credit for AP examinations, visit the Admissions and Records Office, AD/SS 100 (909) 384-4401.

CCC Title 5 §55052.5 AP Exam Notes

Review the International Baccalaureate (IB), College-Level Examinations Placement (CLEP) Examinations, and Advanced Placement (AP) Examination Chart Annual Updates (http://catalog.valleycollege.edu/academic-standards-policies/alternative-sources-credit/credit-advanced-placement-ap-examinations/ESS-23-20-Annual_Updated_Examination_Charts_for_IB_CLEP_and_AP.pdf) memo from the California Community Colleges Chancellor's Office for the complete CCC Title 5, §55052.5 AP Exam Passing Score Chart.

CSU GE AP Exam Notes

- If a student passes more than one AP exam in Calculus or Computer Science, only one exam may be applied to the baccalaureate
- Students who pass AP Environmental Science earn 4 units of credit. Tests prior to Fall 2009 may apply to either B1+B3 or B2+B3 of CSU GE. **Fall of 2009 or later, those credits may only apply to B1+B3.**
- If a student passes more than one AP exam in Physics, only six units of credit may be applied to the baccalaureate and only four units of credit may be applied to a certification in GE Breadth
- For complete CSU AP Policy information, visit: <https://calstate.policystat.com/policy/10711339/latest> (<https://calstate.policystat.com/policy/10711339/latest/>)

IGETC AP Exam Notes

- AP exams in Biology, Chemistry, or Physics 1 allow California community college campuses to apply 4 semester or 5 quarter units to IGETC certification
- AP exams in Environmental Science, Physics C: Mechanics and Physics C: Electricity/Magnetism, 3 semester or 4 quarter units are applied for IGETC certification; therefore, students who complete these exams will be required to complete at least 4 semester or 5 quarter units to satisfy the minimum required units for Area 5.
- For complete IGETC AP policy information, visit: <http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/index.html> (<http://admission.universityofcalifornia.edu/counselors/exam-credit/ap-credits/>)

Credit for Courses From Other College and Universities

Academic credits earned at other regionally accredited institutions can be evaluated for students with a completion of 12-degree applicable units at SBVC. It is therefore important that the student request official transcripts from all colleges previously attended. These transcripts should be sent to the Admissions and Records Office (AD/ SS 100). All religious courses taken at a denominational college need to be equated with courses at San Bernardino Valley College; otherwise, the religious courses are not allowed. A student who has taken coursework at institutions of higher learning outside of the United States and who wishes to have that coursework considered toward his/her educational goal at San Bernardino Valley College must have the academic credentials evaluated by a bonafide independent evaluating agency. A list of recommended agencies is available in the Records Office (AD/ SS 100).

Note: Only SBVC RN Applicants are excluded from the 12-unit Residence Requirement.

Credit for DSST/DANTES (Defense Activity for Non-Traditional Education Support)

A student must be enrolled at San Bernardino Valley College to receive course credit for DANTES/DSST Examinations. Credit will not be granted for examinations in which equivalent or more advanced course work has been completed. Examinations listed on the table have been reviewed by SBVC faculty. Students should be aware of the following:

- University of California does not accept DANTES/DSST credit.
- DANTES/DSST Examinations are not accepted toward CSU GE-Breadth.

- c. Acceptance of DANTES/DSST Examinations varies among transfer universities and other community colleges. Students should be advised that the DANTES/DSST Examinations get re-evaluated.
- d. DANTES/DSST Examinations may be under review; therefore, the table below may not be inclusive of all examinations.

Any questions may be directed to the Articulation Officer in the Counseling Center (AD/SS 103).

DANTES/DSST Examination	SBVC Required Score	SBVC Units	SBVC Equivalent Course (to clear prerequisite requirements)	SBVC Graduation Requirement	CSU GE-Breadth Area
Ethics in America	46/400	3	None	Area 3A	No credit
Introduction to Business	46/400	3	BUSAD 100	No credit	No credit
Fundamentals of College Algebra	None	None	None	No credit	No credit
Introduction to World Religions	48/400	3	RELIG 101	Area 3B	No credit
Lifespan Developmental Psychology	46	3	None	Area 3B or Area 5	No credit
Principles of Statistics	None	None	None	No credit	No credit

Credit for Military Service

Currently enrolled students who have had a minimum of one year active duty military service will receive three (3) units of credit toward CSU GE-Breadth Area E and Associate Degree: Option #2 requirements for Category V: Lifelong Learning and Self-Development. To obtain this credit, students need to provide a copy of their DD-214 (Service 2 or Member 4) or other official evidence of U.S. military service while on active duty. A Petition for Military Service Credit may be obtained from the Admissions and Records Office (AD/SS 100).

Students who completed coursework at other accredited colleges or universities while using veteran benefits, must submit official transcripts to the Admissions and Records Office, and request an official evaluation within two (2) semesters. To obtain credit for military coursework, students must provide a copy of their AARTS (Army/American Council on Education Registry Transcript System) or SMART (Sailor-Marine American Council on Education Registry Transcript System) Transcript. The American Council on Education makes recommendations for college credit directly on the AARTS or SMART Transcript. It is advisable to meet with a counselor to determine if the military coursework will apply toward the selected degree major and/or general education requirements. If a determination is made to award credit towards a major, then a Modification of Major form needs to be completed by the appropriate department chair. The Credit for Military Training or DANTES form is available from the Articulation Officer located in the Counseling Center, AD/SS 103.

Transfer of Credit

Transfer Credit Evaluations are only completed upon the student earning San Bernardino Valley College Residency. In order to achieve residency, twelve (12) degree applicable semester units must be earned at San Bernardino Valley College. Transfer Credit Evaluations may take up to fifteen (15) business days to complete and up to thirty (30) business days to complete during peak periods. It is the student's responsibility to provide course descriptions and/or course outlines if requested and this process may be delayed until the student has submitted all supporting documentation as requested by the office of Admissions and Records. The student understands that all official San Bernardino Valley College communication regarding this request will be sent to the student's SBVC College electronic mail account and it is the student's responsibility to maintain this account.

Credit for the College Level Examination (CLEP) Program

A student must be enrolled at San Bernardino Valley College to receive credit for CLEP Examinations. Credit will not be granted for which equivalent or more advanced course work has been completed. Students will receive appropriate credit for CLEP examinations, as indicated in the table below (in accordance with Title 5, §55052.5). SBVC faculty have determined equivalencies to SBVC courses. Students should be aware of the following:

- University of California does not accept CLEP Examinations.
- Acceptance of CLEP varies at campuses of the CSU.
- At SBVC, credit for CLEP Examinations is on a pass/no pass basis only; no letter grades are assigned.
- Some CLEP Examinations may be under review at SBVC. CLEP scores for examinations no longer offered are evaluated on an individual basis.
- Students request credit for CLEP through the Admissions and Records Office, AD/SS 100, or by calling (909) 384-4401.

CCC Title 5 §55052.5 CLEP Exam Notes

Review the International Baccalaureate (IB), College-Level Examinations Placement (CLEP) Examinations, and Advanced Placement (AP) Examination Chart Annual Updates (http://catalog.valleycollege.edu/academic-standards-policies/alternative-sources-credit/credit-college-level-examination-clep-program/ESS-23-20-Annual_Updated_Examination_Charts_for_IB_CLEP_and_AP.pdf) memo from the California Community Colleges Chancellor's Office for the complete CCC Title 5, §55052.5 CLEP Exam Passing Score Chart.

Credit for the International Baccalaureate (IB)

A student must be enrolled at San Bernardino Valley College to receive course credit for the International Baccalaureate (IB) diploma or certificates. A score below 4 for Mathematics (HL) will require that students complete the self-guided placement at SBVC. Please refer to the table below for IB credit (in accordance with Title 5, §55052.5). Students who have earned credit from an IB exam should not take a comparable college course because transfer credit will not be granted for both. The International Baccalaureate is re-evaluated by the UC, CSU, independent universities, and other community colleges. Individual campuses of the UC, CSU may grant more credit. Any questions may be directed to the Articulation Officer in the Counseling Center, AD/SS 103.

IB Examination	Minimum Score	Units	SBVC Equivalent	SBVC Graduation	CSU GE-Breadth	IGETC
Biology (HL)	5	3	BIOL 205	Area 4B (lab)	B2 (no lab)	Area 5B (no lab)

CCC Title 5 §55052.5 IB Exam Notes

Review the International Baccalaureate (IB), College-Level Examinations Placement (CLEP) Examinations, and Advanced Placement (AP) Examination Chart Annual Updates (http://catalog.valleycollege.edu/academic-standards-policies/alternative-sources-credit/credit-international-baccalaureate/ESS-23-20-Annual_Updated_Examination_Charts_for_IB_CLEP_and_AP.pdf) memo from the California Community Colleges Chancellor's Office for the complete CCC Title 5, §55052.5 IB Exam Passing Score Chart.

Final Exams and Grades

Final Examinations

Final examinations are given at the close of each semester. Students are required to take scheduled final examinations in order to receive credit. Any student who is purposely absent from an examination at any time during a semester forfeits the right to make up work by re-examination.

Final Grades and Transcripts

Final grades are accessible via the Internet as soon as they are submitted by the instructor. To access visit San Bernardino Valley College's Self-Service (<https://colss-prod.ec.sbccd.edu/Student/Account/Login/>) website.

Note: Transcripts will not be released if a student has holds, an outstanding financial obligation, or other academic or probationary issues. Requests for transcripts online by logging onto: www.valleycollege.edu/transcripts (<http://www.valleycollege.edu/transcripts/>). Requests will be filled within the legally prescribed timeframe, assuming there are no outstanding obligations to the college, or other holds on the students' record. The first two transcripts are provided at no charge. After two, there is a charge for each additional request.

Incomplete Grades

An incomplete or "I" symbol will be awarded to the student who, in the judgment of the instructor, is unable to complete a course due to a verified emergency. An *Incomplete* form will be completed by the instructor for each student and submitted to the Admissions and Records Office. This form will cover the conditions for the removal of the "I" and the grade that will be recorded if the work is not completed within one year from the end of the semester in which the "I" was assigned. The student cannot register for the same course until the "I" has been removed.

Grades and Grade Points

The system of grades and grade points at San Bernardino Valley College is as follows:

Grade	Description	Grade Numeric Value
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, Less Than Satisfactory	1
F	Failing	0
P ¹	Pass	0
NP ²	No Pass	0
I ³	Incomplete	–
W ³	Withdrawal	–
MW	Military Withdrawal	–
IP ³	In Progress	–
RD	Report Delay	–

¹ Pass (P) grade units are not counted in GPA however, credit is earned.

² No Pass (NP) units are not counted in GPA; NP units are used in calculating units attempted for progress, probation and dismissal.

³ Non-evaluative symbols; no units or credit earned.

Only instructors may assign grades, and the grades given are final except in cases of mistake, fraud, bad faith, or incompetence. No grade will be changed for any reason or any circumstances after three years from the end of the term in which the grade was assigned.

How to Calculate your GPA

A GPA or Grade Point Average is the average of student grades. One can calculate their GPA for one semester or for their cumulative, overall GPA. The GPA is unweighted.

Example:

Course	Units Attempted	X	Grade (Numerical Value)	=	Grade Points
ENGL 101	4	X	B (3)	=	12
MATH 102	4	X	A (4)	=	16
SOC 100	3	X	B (3)	=	9
POLIT 100	3	X	C (2)	=	6
HIST 101	3	X	D (1)	=	3
KINF 105A	(1)	X	W (0)	=	0
KINF 108A	1	X	F (0)	=	0
Totals:	18				46

- a. Grades are assigned a numerical value:

A = 4.0

B = 3.0

C = 2.0

D = 1.0

F = 0.0

Note: Units attempted that result in P/NP, CR/NC, W, IP, RD or I grade are not used to calculate the GPA.

- b. Multiply the units attempted by the numerical value of the grade to get the grade points:**Example:** 4 (units attempted) X B(3) (grade) = 12 (grade points)
- c. Total the units attempted and the grade points.
- d. The GPA is determined by dividing the total grade points by the number of attempted units:
Example: 46 (grade points) ÷ 18 (units attempted) = 2.56 (grade point average)

Grade Scale

4.0 = A average

3.0 = B average

2.0 = C average

1.0 = D average

0.0 = F average

Converting Quarter Unit to Semester Units

Quarter units are converted to semester units by multiplying the quarter units by 0.667:

Example: 4 (quarter units) X 0.667 = 2.67 (semester units)

Converting Semester Units to Quarter Units

Semester units are converted to quarter units by multiplying the semester units by 1.5:

Example: 4 (semester units) X 1.5 = 6 (quarter units)

Pass/No Pass

Students who wish to be graded in any class on a Pass/No Pass basis must complete the appropriate form, which is available in the Admissions and Records Office (AD/SS 100) or on the college website. The paperwork must be submitted no later than the end of the first 30 percent of the course. Credit will be granted only when the work is of a quality equivalent to a grade of "C" or better. A maximum of fifteen (15) units of credit (P) courses may apply toward graduation requirements. Pass/No Pass grading is not permitted in a course within a student's major area of study. This rule may be waived for students who complete courses for credit and who later declare a major in that field of study. Once Pass/No Pass has been selected as a grading option, a letter grade (A-F) cannot be issued.

Probation and Dismissal

Academic Disqualification

Students on academic and/or progress probation shall be dismissed for one semester when one or more of the following conditions exist:

- The student has earned a cumulative grade point average of less than 2.00 in all units attempted in each of the three consecutive semesters. (For purposes of this section, semesters shall be considered consecutive based on the student's enrollment.)
- The student has received course completion symbols of F, NP, I and/or W in fifty (50) percent or more of the units for which he/she was enrolled in each of three consecutive semesters.
- The student has received a combination of the two patterns listed above in each of three consecutive semesters.

As with probation, a student will be informed of dismissal by email and/or letter. In addition, students may appeal their probation status by making an appointment with a program counselor and completing the required paperwork.

Academic Probation

Students will be placed on academic probation when their cumulative grade point average in 12 or more units fall below 2.00 in all units attempted which were assigned based on the college grading scale. Students will be informed that they are on academic probation by email and/or letter. The letter will list common causes of unsatisfactory progress and will recommend services for improving academic achievement. A student on academic probation will not be allowed to register for additional courses until meeting with a counselor. A student will be released from academic probation when their cumulative grade point average reaches 2.00 or higher. In addition, students may appeal their probation status by making an appointment with a program counselor and completing the required paperwork.

Progress Probation

Students will be placed on progress probation when they have attempted at least 12 units and have received course completion symbols of F, W, I

and/or NP in 50 percent or more of these units. Students will be informed they are on progress probation by email and/or letter. The letter will list common causes of unsatisfactory progress and will recommend services for improving academic achievement. If the student on progress probation also has a grade point average of less than 2.00, they will not be allowed to register for additional courses until meeting with a counselor. Students will be released from progress probation status whenever more than fifty percent of all the units taken at the college have been completed with an assigned letter or P grade. In addition, students may appeal their probation status by making an appointment with a program counselor and completing the required paperwork.

Readmission After Disqualification

Students may be reinstated one semester after the date of dismissal. Students enrolled following dismissal shall be on probationary status for one semester. If, after this semester, the scholastic achievement of the readmitted student continues at a probationary level, the student may be dismissed for one year. Students must see a counselor and complete readmissions documents. Counseling can be reached in AD/SS 103 or at (909) 384-4404.

Academic Renewal

Students may petition to have their academic record reviewed for academic renewal of substandard academic performance, which is not reflective of their demonstrated ability under the following conditions:

- Students may petition to have eliminated from the computation of the total grade point average any units and credits taken during not more than two consecutive terms of attendance, excluding Summer Session, at any college within the San Bernardino Community College District.
- Students must have achieved a minimum grade point average of 2.0 in all coursework completed subsequent to the semester(s) requested in the petition.
- Students must complete a minimum of twenty-four semester units subsequent to the semester(s) requested in the petition, at any accredited college.
- At least two-semester must have elapsed from the time the course work to be removed was completed.
- A student may not petition for academic renewal under this procedure more than one time per college.
- Up to thirty units of course work may be eliminated from consideration in the cumulative grade point average per college.

Academic renewal actions are irreversible. Institutional action taken under this procedure will not remove the courses, units, grades, or any other information from the student's permanent record. When academic renewal procedures permit previously recorded substandard course work to be disregarded in the computation of grade point averages, the permanent academic record shall be annotated in such a manner that all work remains legible, insuring a true and complete academic history.

Academic renewal procedures will not prevent the student from retaking the course in a subsequent semester, if necessary, in accordance with course repeat policies or alter records of previous attempts of the same course.

Academic renewal procedures may not conflict with the District's obligation to retain and destroy records or with the instructor's ability to determine a student's final grade.

Students must file the Petition for Academic Renewal in the Admissions & Records Office at the respective college where the units were completed after meeting with a counselor. The determination of eligibility will be decided by the Director of Admissions & Records, or their designee.

In accordance with Title IV, all units approved or denied for Academic Renewal shall be included in the Satisfactory Academic Progress (SAP) calculation and shall be considered when determining financial aid eligibility.

Non-Discrimination Policy

San Bernardino Community College District and its two colleges, San Bernardino Valley College and Crafton Hills College, are committed to non-discrimination. Our goal is to provide equal opportunities for all community members in all areas of the college including admission, student financing, student support facilities and activities, and employment. Federal laws and District policies strictly prohibit all types of discrimination, including sexual harassment and inequities based on race, color, religion, sex, age, marital status, physical disabilities, mental impairments, or sexual orientation. The District's non-discrimination policies are supported by the requirements of Titles VI and VII of the Civil Rights Act of 1964, as amended; Title IX of the education amendments of 1972; the Age Discrimination in Employment Act of 1975; and sections 503 and 504 of the Rehabilitation Act of 1972, as amended, and the Americans with Disabilities Act. San Bernardino Valley College is further committed to overcoming sex discrimination and sex stereotyping in vocational education programs. In addition, the lack of English language skills will not be a barrier to admission and participation in vocational education programs. Students, job applicants, and employees may complain of any action, which they believe discriminates against them on the above-cited grounds. For information regarding the college's non-discrimination policy or to file a complaint, contact:

Vice Chancellor of Human Resources
District Building, SBCCD
550 E. Hospitality Lane, Suite 200
San Bernardino, CA 92408.

You may also call (909) 382-4040. For information regarding the requirements of Section 503 and 504 of the Rehabilitation Act of 1973 or to file a complaint, contact the Vice President of Student Services, San Bernardino Valley College, in AD/SS 200, or call (909) 384-4473.

Open Enrollment Policy

The policy of San Bernardino Community College District is that, unless specifically exempted by statute or regulation, every course, or class offered by the college is open to enrollment and participation by a person who has been admitted to the college and who meets the prerequisites approved for a given course.

Sexual Harassment Policy

Sexual harassment of students or employees in the academic and work environments violates both federal and state law and district policy, and it will not be tolerated. It also violates law and policy to retaliate against any individuals for filing a complaint of sexual harassment, or for participation in the investigation or resolution of a formal or informal, written or oral complaint of sexual harassment. Unlawful harassment based on sex includes, but is not limited to, classroom conditions, grades, academic standing, scholarships, recommendations, employment opportunities, disciplinary action, or any other aspect of college life within the control of the District. Complaints of sexual harassment may be

registered by calling the Vice President of Student Services at (909) 384-4473.

Academic Freedom

The San Bernardino Community College District is committed to the principle that the free expression of ideas is essential to the education of its students and to the effective governance of its colleges. The District further subscribes to the principle that the free expression of ideas should be limited only by the responsibility to express ideas with fairness, and in a manner that respects the differing ideas of others and distinguishes between established fact and theories and one's own opinion.

No special limitations shall be placed upon study, investigation, presentation, and interpretation of facts and ideas concerning human society, the physical and biological world, and other branches of learning, subject to accepted standards of professional responsibility. Students shall have the opportunity to study controversial issues and divergent views, and to arrive at their own conclusions. Academic employees have an obligation to protect the student's right to freedom of inquiry even when the student's conclusions differ from those of the academic employees. While students may represent without penalty any opinion in or out of class, they may be required to demonstrate knowledge of views contrary to their own in order to fulfill course requirements. (SBCCD Board Policy 4030)

Course Information

Course Descriptions

Each course entry in this catalog includes the course number, title, prerequisite, a brief description, the number of semester units, and the number of hours the course meets based on a 17-week semester. The course entries also include information about how the course credit applies to associate degrees and transfer to The California State University and University of California systems.

- Courses numbered from 600 through 699 are noncredit and do not receive any type of college credit.
- Courses numbered from 001 through 099 are generally applicable to certificate and associate degree programs.
- Courses numbered from 100 through 299 are generally applicable for associate degrees and baccalaureate degrees conferred by universities.
 - Courses that are designated CSU transfer to CSU campuses system wide.
 - Courses designated UC are approved by the UC Office of the President as comparable to courses offered at UC. Courses with *UC notation indicate that some credit limitation applies. UC limits credit on courses that are similar in nature or taken after a higher-level course(s). To access information on SBVC courses that transfer to UC, go to www.assist.org.
 - Although courses may be indicated in the catalog as transferable to UC and/or CSU, they may or may not meet general education or major preparation. Students who plan to transfer to UC or CSU should consult with a counselor and research the following websites: www.calstate.edu/apply uctransfer.universityofcalifornia.edu www.assist.org
- Courses numbered from 900-999 are not applicable to associate degrees and generally do not transfer to four-year institutions.
- Certain course entries include a symbol X and a number following the symbol, such as MUS 141X2. This symbol (X) indicates that this is a skill-based course and may be taken for credit more than once; the

number following the symbol (X) indicates the number of times the course may be taken for credit.

Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM-110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM-110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org (<http://www.assist.org/>) to confirm how each college's course will be accepted at a particular four-year college or university for transfer credit.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Course requirements may change, and courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Prerequisites, Corequisites, and Departmental Advisories

When registering for classes, students are required to adhere to enrollment policies that relate to prerequisites, corequisites, and departmental recommendations.

- A **prerequisite** is a course or skill that must be met before a course is taken. Students registered in a class without having completed the prerequisite(s) may be dropped from the class. Prerequisite courses must be completed with a grade of C or higher. Prerequisite courses completed with a grade of D or F indicate unsatisfactory performance in the course and do not satisfy the prerequisite;
- A **corequisite** is a course that must be taken during the same semester as another course in which the student would like to enroll;
- A **departmental advisory** is a suggested course that would be helpful for a student to have completed prior to enrolling. A departmental advisory is a suggestion, not a requirement.

Students may challenge a prerequisite or corequisite on one or more of the following grounds:

- The student can demonstrate they have the knowledge or ability to succeed in the course or program despite not having satisfied the prerequisite or corequisite;
- The student will be subject to undue delay in attaining their educational goal as outlined in their Student Education Plan (SEP) because the prerequisite or corequisite course has not been made reasonably available;
- The prerequisite or corequisite is discriminatory or is being applied in a discriminatory manner;
- The prerequisite or corequisite has not been established in accordance with the District's process for establishing prerequisites and corequisites or was established in violation of Title 5.

It is the student's responsibility to provide information to support the challenge. Challenges must be filed in the Division Office within the first week of class. The college will process the challenge within five (5) working days. For information on challenging a prerequisite, contact the Division Office at (909) 384-4404.

Course Repetition in a Non-Repeatable Course

Course repetition allows students to repeat classes under the following circumstances: (Title 5, Section 58161)

- The student is repeating the course to alleviate substandard work, which has been recorded on the student's record (D, F, or NP). Courses in which a substandard evaluative symbol has been assigned may be repeated two times for a total of three enrollments. Students may attempt a course more than three times only upon approval through the college's petition process (Title 5, section 55024).
- The course outline of record has been officially changed and demonstrates significant curricular changes. A *Petition for Academic Exception* is required.
- Repetition of courses where substandard work has not been recorded is permitted when such repetition is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment.
- Significant lapse of time exception if the following conditions are met:
 - At least 36 months, or more if required be district policy, has elapsed since the student previously was assigned or awarded a grade in the course;
 - The student's prior grade was a satisfactory grade (55000(w)); and either
 - The course is required by the district as a properly established recency prerequisite (5503); or
 - Another institution or higher education to which the student is seeking to transfer requires the student to have taken the course more recently than the student's last enrollment.

Non-Degree Applicable Courses

Courses numbered in the 900s do not apply toward a degree, and are designed to provide the fundamental skills necessary for successful completion of other college courses. These include pre-collegiate courses in reading, writing, computation, learning skills, study skills, and English as a second-language. Non-degree applicable courses, including basic skills courses, are indicated in this catalog by numbers from 900 to 999.

In accordance with Title 5, Section 55758.5 (b), grades earned in non-degree applicable courses are not included when calculating a student's degree applicable grade point average. Students will not receive credit for more than thirty (30) units of basic skills course work taken in the San Bernardino Community College District. Basic skills coursework earned in another community college district will not be counted toward the 30-unit limit. Students enrolled in English as a second-language courses and students identified by the District for learning disabled programs are exempt from this 30-unit limit. Other students may apply for a waiver of the 30-unit limit. Please contact a counselor in the Counseling Center, (909)384-4404 and press zero ("0") for more information about the waiver process.

ADMISSIONS AND REGISTRATION

Admissions and Records

Location: AD/SS 100

Phone Number: (909) 384-4401

Website (<https://www.valleycollege.edu/admissions-financial-aid/admissions-records/>)

Admission to San Bernardino Valley College is governed by the laws of the State of California and by supplementary regulations established by the San Bernardino Community College District Board of Trustees. Every course, whether offered on the main campus, online, or at a satellite location, is open to any person who is eligible for admission to San Bernardino Valley College and who meets any prerequisites as have been established in accordance with Title 5 of the California Administrative Code.

Admission Requirements

The following groups are eligible for admission to San Bernardino Valley College:

- Any individual, age 18 or above, who can reasonably profit from instruction.
- Any individual who has graduated from high school or who has been awarded a California Certificate of Proficiency, who has successfully completed the GED, or has been awarded a certificate of completion from a high school.

Admission Regulations and Residency

AB 540/SB 68/SB 1141

San Bernardino Valley College, in compliance with California law, welcomes non-resident students, and will charge them the same fees as California residents, for tuition purposes, if they meet all of the following criteria:

- Have attended a combination of California High Schools, Adult Schools, and Community College for the equivalent of three (3) years or more.
- Have a high school diploma (or equivalent)
- In the case of non-immigrant aliens, you have applied for legal status – or will sign an affidavit stating your intent to do so.

Please visit the Admissions and Records Office for further information.

Deferred Action for Childhood Arrivals (DACA) Renewal Only

You are eligible for DACA if you:

- Were under the age of 31 as of June 15, 2012;
- Came to the United States before reaching your 16th birthday;
- Have continuously resided in the United States since June 15, 2007, up to the present time;
- Were physically present in the United States on June 15, 2012, and at the time of making your request for consideration of deferred action with USCIS;
- Entered without inspection before June 15, 2012, or your lawful immigration status expired as of June 15, 2012;

- Are currently in school, have graduated or obtained a certificate of completion from high school, have obtained a general education development (GED) certificate, or are an honorably discharged veteran of the Coast Guard or Armed Forces of the United States and Have not been convicted of a felony, significant misdemeanor, three or more other misdemeanors, and do not otherwise pose a threat to national security or public safety.

Individuals can call USCIS at 1 (800) 375-5283 with questions or to request more information on the deferred action for childhood arrivals process.

Discharged Members of the Armed Forces

A student who was a member of the Armed Forces of the United States stationed in California on active duty for more than one year immediately prior to being discharged shall be exempt from paying nonresident tuition for up to one year if he or she files an affidavit with the community college stating they intend to establish residency in California as soon as possible. This one-year exemption shall be used while the student lives in this state and within two years of being discharged (effective January 1, 2013, AB 2478 amended Education Code Section 68075.5 to give the student two years to start the one-year exemption period as the student may need to temporarily to return to their home state after discharge and may not be able to immediately start their education in California). A former member of the armed forces of the United States who received a dishonorable or bad conduct discharge shall not be eligible for this exemption.

High School Students

Students who are currently attending high school, and are seeking advanced scholastic or vocational work may apply for admission to San Bernardino Valley College as a specially admitted, concurrently enrolled high school student.

Each student's application and records are reviewed individually, and not all students who apply will be admitted. The over-arching concern of the admission review process is that the high school student is adequately prepared to engage in the rigors of college-level work, and has a high probability of success.

To be eligible for dual enrollment, high school students must demonstrate that they are prepared for the rigor of college courses through one of the following methods:

- A recommendation from the student's high school principal or designee.
- Demonstrated academic success.

High school students wishing to attend SBVC must complete and submit the following items, at least two weeks prior to the beginning of instruction:

- Regular application for admission to SBVC
- Concurrent Enrollment Petition form
- Confidential Youth Emergency Card

The Concurrent Enrollment Petition form requires the signature of the high school principal (or designee), certifying the student is academically qualified, and recommending the student for an advanced academic or vocational experience. All forms are available online at the Admissions and Records website. The courses requested at SBVC must not duplicate courses currently available at the high school.

All concurrently enrolled high school students must participate in the college assessment and orientation prior to approval to enroll. High school

students are limited to 11 units per term, unless they are participating in the Middle College High School or CCAP program.

In addition, dual enrollment students must complete a mid-semester check in with an SBVC Counselor. Students who fail to fulfill this requirement will be limited to a maximum of one (1) course per semester for the following semester.

Visit the ValleyNow! page (<https://www.valleycollege.edu/academics/specialized-programs/valley-now/>) for more information.

International Students

San Bernardino Valley College is approved by the U.S. Citizenship and Immigration Services (USCIS) to admit non-immigrant international students who are taking lower division coursework for transfer to four-year institutions or who are taking coursework leading to a vocational training certificate or an associate degree. San Bernardino Valley College requires international students to submit a complete application via email to the International Student Counselor/Designated School Official, Rema Ghazaleh, at rghazaleh@valleycollege.edu or mail to the Counseling Center (AD/SS 103) with ATTN to: International Student Counselor. A complete international application includes the following items:

COMPLETE application package should include the following documents (all documents need to be **original/official**):

- High school diploma, or the proof of high school graduation
- International Student Application for Admissions (<https://www.valleycollege.edu/student-services/specialized-counseling-services/international-students/documents/sbvc-application-for-admission.pdf>). (complete the form, print it out, sign and date)
 - Students who are already in the US on an F1 visa must also submit the Transfer In form
- Complete California Department of Health Tuberculosis Risk Assessment (<https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/TBCB-CA-TB-Risk-Assessment-and-Fact-Sheet.pdf>). Submit TB Risk Assessment and TB test result (dated within the past 6 months) or get tested at San Bernardino Valley College's Student Health Services for \$15. Health insurance must also be purchased prior to the beginning of the semester.
- Nonrefundable application fee of \$25.00 (cashier's check or money order,) payable to San Bernardino Valley College. A personal check from a U.S. bank is also acceptable.
- TOEFL (Test of English as a Foreign Language) score. The minimum score required for admissions is 45-46/iBT (Internet-based test.) Information regarding test dates and locations can be found at www.ets.org (<https://www.ets.org/>). San Bernardino Valley College's Institution Code is 04679. The college also accepts IELTS minimum score of 4.5.
 - If you think you may be eligible for a TOEFL/IELTS waiver, please complete TOEFL/IELTS Waiver Request Form (<https://www.valleycollege.edu/student-services/specialized-counseling-services/international-students/documents/toefl-or-ielts-waiver-request-form.pdf>) and submit it with supporting documentation. For further information, please contact International Student Counselors rghazaleh@valleycollege.edu.
- Official transcript(s) or official academic records from high school and college/university attended, accompanied by a notarized translation if the originals are not in English. Applicants with higher education need to have a minimum of C grade average from college/university in order to be considered for admissions to our college.
- Financial documents. Proof of available funds to cover your educational cost and living expenses for the duration of your studies in San Bernardino Valley College. The estimated annual cost is \$31,602 U.S. dollars or higher.
- Affidavit of Support Form (<https://www.valleycollege.edu/student-services/specialized-counseling-services/international-students/documents/2024-affidavit-of-support.pdf>) (for sponsors outside of the US to complete) (open the link, print out the form and complete the form)
- I-134/Affidavit of Support (<https://www.uscis.gov/sites/default/files/files/form/i-134.pdf>) and Instructions for Form I-134 (<https://www.uscis.gov/sites/default/files/files/form/i-134instr.pdf>) (for sponsors in the US to complete)
- Photocopy of the applicant's passport, providing information on applicant's name, date of birth and the expiration date of the passport.
- Photocopy of the applicant's current I-94, I-20 and visa (if the applicant is currently studying in the U.S.)

In addition to submitting your complete application package to the college, please also complete San Bernardino Valley College (general) Application (<https://www.opencccapply.net/gateway/apply/?cccMisCode=982>) online.

If an applicant is admitted to the college, a letter of acceptance and an I-20 Form (used to apply for a student visa in an American embassy if not already on an F1 visa) will be emailed to the applicant.

Please email your complete application package to rghazaleh@valleycollege.edu or if mailing, please write on the envelope: ATTN To: International Student Counselor

The international application deadlines are May 1 for the Fall semester, October 1 for the Spring semester, and March 1 for the Summer sessions. International applicants living outside of the U.S. at the time of their applying to the college are strongly recommended to apply at least six months before the term starts. After submitting international application packages, applicants need to complete the General College Application online and reach out to the international student counselor. Information about the international application can be found at the college's website (https://www.valleycollege.edu/student-services/specialized-counseling-services/international-students/admission_requirements.php).

If an applicant is admitted to the college, students will receive a letter of acceptance, along with an I-20 Form (Certificate of Eligibility) issued by the college. Per USCIS regulations, international students must maintain full-time student status and enroll in at least 12 units per semester. International students are also required to purchase health insurance to cover the time they are residing in the U.S.

For more information, please visit the International Student website: <https://valleycollege.edu/sbvc-international-admission> (<https://valleycollege.edu/sbvc-international-admission/>)

Non-Resident Veterans AB13

In August 2014, the Veterans Access, Choice, and Accountability Act of 2014 (VACA Act) was signed into law. Please see the Admissions and Records Office for more details. (VACA is only applicable for students who are using CH. 30, 33, & 33TR GI Bill® benefits). A student who is a full-time employee of a public institution of higher learning, or whose parent or spouse is a full-time employee, will be entitled to resident classification until they have resided in the state the minimum time necessary to become

a resident. Any student may make a written appeal to the Director of Admissions and Records within 30 calendar days of notification of a final decision by the college regarding classification.

Out-of-State Students

Out-of-state applicants who are currently residing in California are admitted to the college on the same basis as California residents except that they are required to pay non-resident tuition fees and Capital Outlay Fee in addition to other fees required by the college. After a student has been present in California for one year and has manifested clear intent to become a California resident, they may apply for reclassification as a California resident.

SARA – the State Authorization Reciprocity Agreement – is an agreement between member states, territories and districts of the United States of America. As of July 2019, 49 states (all but California), the District of Columbia, Puerto Rico and the U.S. Virgin Islands have joined SARA.

Because California is not participating in SARA, students who are not physically located in California are not permitted to take distance education classes (fully online or online with required on-site meetings) at San Bernardino Valley College.

Federal regulation requires institutions offering distance education to acquire authorization from any U.S. state in which it “operates.” SBVC does not have the required permission for students from other states to take classes at SBVC. This permission is required to maintain eligibility for students of that state to receive Federal Financial Aid.

Until further notice, SBVC is not filing for authorization to operate in other states. We recommend that students outside of California seeking community college courses look for courses offered by an institution in their own state.

Residence Requirements

Residence determination must be made each semester for nonresident tuition purposes. The college application and, if necessary, other evidence furnished by the student are used in making residency determination. All documentation must be submitted within 2 weeks of start of term or submission of admissions applications. Residency will not be changed once the semester has ended. Any adult who is physically present in the state while, at the same time, intending to make California their permanent home, may establish legal residence. The resident determination date is the day immediately preceding the opening day of instruction for each semester or term.

Steps must be taken at least one year prior to the residence determination date to establish the intent to make California one’s permanent home with concurrent relinquishment of the prior legal residence. Some indications of intention to establish and maintain California residence include, but are not limited to:

- Payment of California state income tax as a resident;
- Registering to vote and voting in California;
- Possessing California motor vehicle license plates;
- Possessing a valid California driver’s license;
- Maintaining a permanent military address or home of record in California while in the armed services;
- Establishing and maintaining active California bank accounts;
- Being a petitioner for a divorce in California.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from the parent or parents with whom he/she lives. The student who is within the state only for educational purposes does not gain the status of resident regardless of the length of his/her stay in California.

Exceptions to the Residence Requirements are as Follows:

- a. Persons below the age of 19 whose parents were residents of California but who left the state while the student who remained was still a minor. When the minor reaches 18, the exception continues for one year to enable the student to qualify as a resident.
- b. Persons below the age of 19 who have been present in California for more than a year before the residence determination date and who have been entirely self-supporting for that period of time.
- c. Persons below the age of 19 who have lived with and have been under the continuous direct care and control of an adult, not a parent, for the two years immediately preceding the residence determination date. Said adult must have been a California resident for the most recent year.
- d. Active Duty Military Students EC 68075; T5 54042; LEGAL OPINION 10-05: Students who are members of the armed forces of the United States domiciled or stationed in California on active duty are entitled to resident classification for purposes of determining the amount of tuition and fees for the duration of their attendance at a community college as long as they remain on active duty as of the residence determination date. If that member of the armed forces of the United States who is in attendance at an institution is thereafter transferred on military orders to a place outside this state where the member continues to serve in the Armed Forces of the United States, he or she shall not lose his or her resident classification so long as he or she remains continuously enrolled at that community college. Please note that exclusions or limitations from residency classification for active military duty students related to students “seeking a graduate degree” or “members of the armed forces who were assigned for educational purposes to state-supported institutions of higher education” are no longer applicable under the current statute and federal law. ***(The Chancellor’s Office has concluded that service in the California National Guard does not constitute being a member of the Armed Forces of the United States for Education Code sections 68074 and 68075.)***

Transcripts

The San Bernardino Valley College transcript includes coursework completed at only San Bernardino Valley College. Students completing coursework prior to 1981 will also have a legacy transcript. Students may order official transcripts and view un-official transcripts at the Admissions and Records website (<https://www.valleycollege.edu/admissions-records/records/transcripts.php>).

Prior College Transcripts

The Admissions and Records Office will accept Official Transcripts from other previously attended colleges at the following.

- Electronic transcripts - admissions@valleycollege.edu
- Paper transcripts – San Bernardino Valley College – Admissions and Records Office, 701 S. Mt. Vernon Ave, San Bernardino CA 92410

Transcripts submitted become the property of the San Bernardino Valley College and cannot be returned to the student, nor be officiated and forwarded to another institution. Students planning apply to an Allied Health Program or to graduate from San Bernardino Valley College, or who have attended other colleges/universities, must submit all official

transcripts prior to posted deadline dates (See Evaluation of Prior Credits Earned and Applying for Graduation in this catalog for further information).

Unofficial copies of transcripts may be used to clear for registration prerequisite course requirements only.

For additional information on transcripts, visit the Admissions and Records website (<https://www.valleycollege.edu/admissions-records/records/transcripts.php>).

Registration

The schedule of classes provides detailed instructions on the procedures involved in registering for classes. Students may register online in accordance with the dates identified in the Class Schedule. **Attending courses without being formally enrolled is considered auditing. In order to audit a course, the student must complete the auditing process.**

Students who have an incomplete application, dismissal or probationary issues, an outstanding financial obligation or have not completed orientation and assessment will not be allowed to register for classes until the issue is resolved. Examples of obligations falling under this policy include but are not limited to: returned checks, unpaid loans, equipment breakage, unpaid library fines, and registration fees.

The college reserves the right to cancel any class that does not meet the minimum size requirements established by the district. In some cases, cancellation may take place before the first class meeting. Students will automatically be mailed a refund of the enrollment fees for any class cancelled by the college.

Late Registration

Applicants who do not enroll during the registration period may enroll online using a *Web Authorization* sticker, which is received from the instructor, once classes begin. Keep in mind that an instructor may refuse to admit a late registrant when the work missed cannot reasonably be made up, when the class is full, or when normal progress in the course would be impossible or unsafe. Students will not be enrolled into a class if the deadline date for admissions has passed. Do not attend class on or after census date.

Waitlist

Waitlisting gives students the opportunity to be first in line to register for sections that are already full. For example, if a person drops from a course, then the individual at the top of the waitlist will have the first opportunity to register and fill that empty seat. Waitlisting is available on most classes. Students will be notified through Valley College student email.

Enrollment Fees and Refunds

Required Fees

Fee	Amount
Enrollment Fee	\$46 per unit
Enrollment Fee -Non-California Resident (Non-residents must pay all fees required of residents plus non-resident tuition). Exemption if enrolled in 6 or fewer units.	\$414 per unit
All Non-California Resident Applicants- Capital Outlay	\$46 per unit
Campus Center Fee	\$1 per unit (\$10 max annually)

Health & Accident Fee	\$24.50
Transportation Fee (GO Smart)	\$8 (\$9 for 6 units or more)
Student Representation Fee	\$2

Enrollment fees are subject to change as directed by the California Legislature. All other fees are subject to change as directed either by the California Legislature or by the San Bernardino Community College District College Board of Trustees in accordance with Title 5 of the California Code of Regulations.

Payment of Fees

Payment is due at the time of registration.

- Payment can be made online through Self-Service (<https://colss-prod.ec.sbccd.edu/Student/Account/Login/>), or,
- Drop the payment (check or money order) WRITE STUDENT ID NUMBER ON CHECK/MONEY ORDER in the Admissions and Records drop box located outside the Admissions and records office. (ADSS-100).
- As the student, you are responsible for dropping classes by the stated deadlines. If you register for a class and later change your mind, it is your responsibility to drop the class. You may be responsible for some or all of the fees for dropped courses as per the District Refund Policy (noted below).
- If you are a financial aid recipient, your award will not cover all of your fees. You are responsible to submit payment for any balance due.
- Fees are subject to change as directed by the California Legislature. All other fees are subject to change as directed either by the California Legislature or by the San Bernardino Community College District Board of Trustees in accordance with Title 5 of the California Code of Regulations.

Outstanding Balances

An outstanding balance will result in a HOLD placed on your account.

A hold is placed on all student accounts with past due fees. The hold prevents students from registering for courses, and receiving certificates and diplomas. Additionally, students may not be able to participate in additional school activities, such as, field trips, while account is on a financial hold. The Financial/Outstanding Balance Hold will be released upon receipt of full payment.

Refunds

- Designated fees include:**
 - Enrollment
 - Non-Resident Tuition
 - Parking
 - Health
 - Accident Insurance
 - Student Center
 - SBVC Student Representation
 - Transportation
- Military service exception:**
 - If a student who is a member of an active or reserve military service receives orders compelling a withdrawal from courses, the District shall, upon petition of the affected student, refund the entire enrollment fee unless academic credit is awarded.
- Refund schedule:**

This refund schedule applies to all fees listed in Section A:

 - Fees are collected in error – Fees collected in error will be refunded in their entirety.

- Class cancelled by the college – If a class is cancelled by the college, enrollment and/or non-resident tuition fees will be refunded in their entirety. If that cancellation results in a student's withdrawal from the college, refunds of the appropriate fees listed in Paragraph A will apply.

d. **Withdrawal from the college:**

- Enrollment Fee/Non-Resident Tuition – If a student withdraws during the first two weeks of a full-term class or during the first 10% of a short-term class, enrollment fees and non-resident tuition fees will be refunded;
- Parking fee, Health fee, Accident Insurance fee, Student Services Card fee, Student Center fee, Student Representation fee, and Capital Outlay Fee – In order to be eligible for a refund, a student must withdraw prior to the first day of the term and attach decal/proof to refund request within 30 days of instruction.
- Unit Reduction – If a change of program within the first two weeks of a full-term class or during the first 10% of a short-term class results in a reduction in the number of units taken, the enrollment fee or non-resident fee will be refunded at the per unit cost of the reduction.
- A student who withdraws from a class or the college after the second week of instruction for a full-term class or the first 10% of a short-term class is not eligible for any refund.
- It is the student's responsibility to drop classes and pay all fees incurred.

e. **Refund processing fee:**

A charge of \$10.00 will be collected for each refund transaction not to exceed \$10.00 per student per semester, except for cancelled classes or over-payment. Students must drop a class before it begins in order to not incur fees.

It takes approximately six to eight weeks to process a refund check. If a student wishes to apply the refund credit toward registration in another class, he/she must submit the drop and add at the same time.

Adding a Class

Registered students may add a class during a designated period at the beginning of each semester. Once the web registration period has passed, a *Web Authorization* code, obtained from the instructor, is needed to change a schedule. If a schedule is revised in such a way as to change the total number of units taken, the amount of enrollment fees will also change. All fees are due at the time the change is made.

Veterans

San Bernardino Valley College offers courses approved for Veterans Administration benefits under Title 38, Chapters 30, 31, 33, 35, and 1606 of the U.S. Code. An enrollment certification will be returned when a veteran or an eligible dependent has completed the following:

- Filed an official transcript of all previous work taken at other colleges or universities with the Records Office (These records have to be evaluated and appropriate credit granted);
- Student must see a counselor to have their program approved and to develop an education plan¹. The program must be listed in the College Catalog;
- To be certified, students must enroll only in the classes listed on an education plan¹.

¹ Veterans and their eligible dependents are responsible for notifying the department of any changes.

Auditing Courses

Students who have been admitted to SBVC are eligible to apply to audit courses at the college. Students must meet all course prerequisites. It is the responsibility of the student to provide documentation that the prerequisite(s) has been satisfied. Auditing enrollment is permitted only on a space available basis. A student may enroll in a course for audit only if they have not enrolled in that course for credit during the same semester.

Students shall complete an audit application. Any instructor may refuse auditing without explanation. Credit students will always receive registration priority and space in the classroom over student(s) that are auditing the course. Once audit enrollment is completed, no student will be permitted to change their enrollment from audit to receive credit nor is a student permitted to change enrollment from credit to audit. The course audited cannot be used as a prerequisite.

The fee for auditing is \$15 per unit. A student enrolled for credit in ten (10) or more semester credit units will not be charged a fee to audit three (3) or fewer units per semester. Students must also pay all mandatory student fees. Audited classes do not count towards units for financial aid, veteran's benefits, full-time student status, or any other purpose. No refund will be permitted after enrollment per BP/AP 5033. Classroom attendance of students auditing a course shall not be included in computing the apportionment due to the District.

ENROLLMENT AND ORIENTATION/ASSESSMENT PROCESS

AB 705

Assembly Bill 705, which took effect on January 1, 2018, requires a community college district or college to maximize the probability that the student will enter and complete transfer-level coursework in English and Math within a one-year time frame. Colleges are required to use high school coursework, high school grades, and high school grade point averages as a means of placement into English and Math courses. Please consult with a counselor for additional information. See AB-705 website (<https://www.valleycollege.edu/student-services/ab-705/>) for additional information.

Application Procedures

- All new and returning students must apply online at:** www.valleycollege.edu (<http://www.valleycollege.edu/>).
- Transcripts of prior work:**
Students must have official transcripts of all college work not completed at San Bernardino Valley College sent to the Admissions and Records Office if planning to attend. **If the student does not submit an application, the transcript will be destroyed.**
- Orientation/Guided Self-Placement/Assessment/Advisement:**
All new students are required to participate in Orientation and Assessment unless specifically exempted from this process. When submitting an application for admission, applicants will receive an SBVC student ID number and will need to complete a Student Orientation Session and the Guided Self-Placement Process.

Student Orientation Session

College is quite unfamiliar to first semester college students. Orientation to college will dispel most of these unfamiliarity's about SBVC. Through orientation, students will understand course offerings and services including expectations, college life and responsibilities, as well as, the college culture.

The Student Orientation Session can be completed online or on campus during peak registration.

- For online session, visit the Self-Service (<https://colss-prod.ec.sbccd.edu/Student/Account/Login/>) website or
- Make an onsite appointment for group session in the Assessment Center (AD/SS 101).

Guided Self-Placement Process

Students completing the Matriculation Process can now receive both math and English placement in about 10 minutes using the Guided Self Placement (GSP) Tool. Clicking on the link below will direct you to your WebAdvisor Student Portal where you can complete a short questionnaire for initial Math and English placement. Once you log into WebAdvisor, you will need to click the (Online Placement SBVC) link in order to complete the Guided Self-Placement questionnaire.

Direct Link: Self-Service (<https://colss-prod.ec.sbccd.edu/Student/Account/Login/>)

Average completion time for GSP is about 5 - 10 minutes.

SBVC uses an online Guided Self-Placement questionnaire in place of assessment. The questionnaire is primarily used to assist students in the following:

- Identify skill levels in English, Reading, and Math.
- Meet class prerequisite requirements.
- Choose appropriate classes.
- Develop student educational plan.

New students are required to meet with a counselor for an education plan prior to registering for classes. Visit the Counseling Center for more information.

Student Exemption

Students may be exempt from the Guided Self-Placement questionnaire/assessment if they:

- Received a grade of "C" or better in a prerequisite English course at the college level.
- Received a grade of "C" or better in a prerequisite Math course at the college level.

Students may be exempt from completing the Guided Self-Placement questionnaire/assessment if they meet at least one of the following criteria:

- Associate Degree or higher from a regionally accredited college or university;
- Earned a score of 3.0 or higher in Advanced Placement Tests in English and math;
- Enroll in courses to achieve or maintain certificate or license requirements which do not require math, reading, or English prerequisites;
- Enroll in courses for personal enrichment, which do not require Math, Reading, or English prerequisites. A maximum of 12 units may be taken prior to Assessment.

For the determination of your exemption, please speak with a Counselor.

Policy on the Guided Self-Placement Process/Assessment

All students entering San Bernardino Valley College are required to complete the Guided Self-Placement questionnaire/ESL assessment process unless exempted. Students may NOT retake the Guided Self-Placement questionnaire unless recommended by the department chair or division dean or recommended by the Student Policy and Scholastic Standards Committee in accordance with the exemption permitted by the SBVC Policy on the Guided Self-Placement/ESL Assessment. Students who retake the Guided Self-Placement will be advised that the most current results will supersede all other results.

Students may satisfy the prerequisite for English, math, and reading through: Completing the Guided Self-Placement questionnaire/ESL assessment process. Satisfactory completion of the prerequisite course. Previously enrolled high school students can retake the Guided Self-Placement questionnaire after they have graduated.

Here are questions students most often ask about the guided self-placement questionnaire/assessment:

Q. Why complete the Guided Self-Placement questionnaire/assessment?

A. The Guided Self-Placement questionnaire is designed to assist in the process of guiding students in proper English, Reading, and Math transfer level courses. During the Orientation/Advisement session following the completion of the Guided Self-Placement questionnaire, students will be introduced to the college's services. After the Guided Self-Placement questionnaire is processed, the counselor will assist in selecting appropriate courses for the semester.

Q. If I do not do well with the Guided Self-Placement questionnaire/assessment, will I still be able to attend San Bernardino Valley College?

A. Yes. This is not a pass/fail exam. It is a tool to help students and counselors make appropriate educational plans.

Q. How long will it take to complete the Guided Self-Placement questionnaire/assessment?

A. Approximately five to ten minutes.

Q. What if I need disability-related accommodations to complete the Guided Self-Placement questionnaire/assessment?

A. If a student has a learning or physical disability that requires reasonable accommodation to complete the questionnaire, please contact Student Accessibility Services (SAS) in AD/SS 105.

Q. Do other colleges require students to complete a Guided Self-Placement Process?

A. Yes. Every community college in California is required to allow all new students to self-select what level of English, Reading, and Math they begin with.

Q. Does a counselor discuss my Guided Self-Placement results?

A. Yes. Counselors are the best resource to tell students how to interpret placement skills.

STUDENT SUPPORT PROGRAMS AND SERVICES

Services for Students (p. 30)

Financial Aid Programs (p. 36)

Student Rights and Responsibilities (p. 38)

Student Success and Support Program (SSSP) (p. 52)

Services for Students

Art Gallery

Phone Number: (909) 384-4432

Website (<https://www.valleycollege.edu/about-sbvc/facilities/art-gallery/>)

The Gresham Gallery is a learning lab featuring temporary exhibitions of innovative art throughout the year. Exhibitions and programming are organized with our students in mind, augmenting their academic experience by complementing the college's curricula and broadening their understanding of art. We strive to foster critical thinking and encourage innovation and investigation through art. The Gresham Gallery advances the mission of San Bernardino Valley College by providing a dynamic, supportive, and engaging environment where our diverse students learn and benefit.

Athletics

Phone Number: (909) 384-8516

San Bernardino Valley College is proud of the success of its athletic teams. Men's sports include football, basketball, baseball, track, cross-country, and soccer. Women's sports include basketball, volleyball, soccer, softball, track, and cross-country. Students interested in competing on an inter-collegiate team should contact the Director of Athletics.

CalWORKs

Location: Campus Center (CC) 208

Phone Number: 909-384-4465

Website

The San Bernardino Valley College CalWORKs Program aims to aid students receiving County CalWORKs in achieving their educational and employment-related goals. Students who qualify may receive vouchers for books and supplies, access to a computer lab, free printing services, a parking permit decal, gas cards, support with childcare, educational counseling, nutrition cards, a gift card for professional apparel, and employment assistance. Call us at 909-384-4429 or visit the CalWORKs & Workforce Development Department in Room 208 of the Campus Center for more information or to enroll in the CalWORKs Program.

Campus Business Office

Location: AD/SS 206

Hours: 8:15 a.m. to 4:45 p.m., Monday - Thursday and 8:15 a.m. to 4:15 p.m. on Fridays

Phone Number: (909) 384-4453

Website

The Campus Business Office coordinates the on-line sale of parking permits, processes pay-in-person parking permits, receives payments for college functions; and, distributes financial aid, scholarship, care and loan checks to students. In addition, the staff supports accounting services and processes deposits for the ASB, clubs and trust accounts.

Campus Child Development Center

Hours: 7:00 a.m. to 4:00 p.m., Monday-Friday

Phone Number: (909) 384-4440

Website

The SBVC Child Development Center is a licensed facility designed to meet the developmental needs of children from birth through pre-Kindergarten. Our environment nurtures the child and embraces the family. We have an open door policy and encourage all families to participate in the Center. Fees are assessed on a sliding scale (according to state guidelines), and can range from \$0 to \$595.00 per month, depending on income of the parent(s). Call for a tour of the Center and further eligibility and enrollment information.

Campus Store

Hours:

Monday - Thursday: 8:00 a.m. to 4:00 p.m.

Fridays: 8:00 a.m. to 3:00 p.m.

Saturday and Sunday: Closed

Phone Number: (909) 384-4435

Website

The Campus Store, located in the Campus Center, sells textbooks, general books, electronics and a wide variety of supplies, apparel, sportswear, accessories, snacks, beverages and college logo and imprinted items.

Campus Technology Services

24/7 Technical Support

SBCCD Technical Assistance Center (STAC)

Phone Number: (909) 384-4357

Website

Students are invited to join one of the various campus clubs – or start one of their own! For more information about campus clubs, please stop by the Office of Student Life or contact us via email or phone. For a list of available clubs and upcoming events, visit our website.

Counseling Center

Location: AD/SS 103

Phone Number: (909) 384-4404

Website

The Counseling Department is committed to ensuring a safe and supportive environment and valuing individual lived experiences. Counselors are essential in providing student-centered counseling services and ensuring equitable access and empowerment to a diverse community of learners.

The Counseling Center serves as advocates and allies to all students. Counseling faculty are available to assist students in making informed decisions about their academic, career, and life goals and to provide appropriate information and guidance to ensure that courses selected in an educational plan meet the requirements for associate and associate-transfer degrees, certificates, university transfer, and/or career advancement. Additionally, counseling faculty build a connection with students by utilizing a student-centered approach, as we understand that life happens and pathways change, but we are here to help them to stay on the right path to be successful.

The Counseling Center is committed to working towards student equity and inclusion by increasing student success and completion. As well as being advocates for our students by being up-to-date on the latest initiatives including within the framework of Student Success Act of 2012, AB 705, and Guided Pathways. By virtue of these laws, students are required to undergo the following:

- College orientation
- Guided-Self Placement
- Academic advising for basic skills as applicable
- Identification of a course of study (commonly called a major)
- Initial education planning leading to a comprehensive education plan
- Follow-up services to complete their academic goals within a reasonable time

Services that are available through the Counseling Center that include but not limited to the following:

- Educational and career planning including the development of students abbreviated and comprehensive education plans for students

- Assistance with appointments for abbreviated education plans for one to two semesters to accommodate immediate scheduling needs for registration are scheduled during the entire academic year

Note: Due to the influx of students during peak registration periods, it is highly recommended that appointments for a comprehensive education plan be made during non-peak registration periods from September until mid-October, February, and March. The comprehensive education plan covers all semesters required for the achievement of a student's educational goal/s.

- Personal counseling to meet the short-term needs of students with personal concerns which impact their academic life
- International student counseling to meet specialized enrollment and counseling needs of students with F-1 Visas
- Comprehensive counseling for various special populations/learning communities, such as Puente, veterans, and athletes

Counseling services are provided to prospective, new, and continuing students on an individual and/or group basis as well as online. Students may be assisted by appointment via in-person, virtually, or through the virtual Drop-in Lobby. To make an appointment, please call or view the Counseling website. For additional information, visit our website (<https://www.valleycollege.edu/student-services/counseling/>).

Dedicated Engagement to Empower Part-Timers (D.E.E.P)

Location: Liberal Arts (LA) 132

Phone Number: (909) 384-8988

Website

Support for Part-Time and Re-Entry Students As You Transition to College

San Bernardino Valley College's D.E.E.P program is committed to successfully transitioning part-time, first-year and returning students into college. It is the aim of the program to assist in removing barriers through various support services to effectively promote college integration, retention, graduation, and transfer for underserved students. We understand how challenging college can be and we are here to support you while you are navigating this journey.

Dreamers and Dreamers Resource Center (DRC)

Location: Liberal Arts (LA) 121

Phone Number: (909) 384-8915

Email (dreamers@valleycollege.edu)

Website

Instagram: @sbvc_drc

San Bernardino Valley College's Dreamers Resource Center (DRC) is designed to improve student success and help to successfully transition undocumented students, AB540 students, DACA students, Dreamer students and those from mixed status families into college. The center provides academic advising, counseling, referrals to student services programs and community legal resources in a welcoming and safe environment where Dreamers can connect with campus and community resources. Dreamers visiting the DRC are provided resources intended to assist students in completing their educational and career goals. Bilingual services are available (English and Spanish) Hablamos Español.

The center is part of the First-Year Experience program. Staffing the DRC are a full-time counselor, adjunct counselors, Dreamer's liaison, and student ambassadors. We also have designated Dreamer's Liaisons on different departments throughout campus that support Dreamer students with completing financial aid applications and additional paperwork required. Students who are part of our program will receive textbook assistance, financial aid information and have access to our computer lab where they will be able to print for free. Some of the requirements to be part of our program are to meet with one of our counselors, participate in 2 workshops and complete a progress report each semester.

EOPS/CARE/NextUp Programs

Location: AD/SS 202

Phone Number: (909) 384-4412

Website

Extended Opportunity Programs & Services (EOPS) is a state-funded student services program designed to provide academic counseling and specialized support services to students who are both economically and educationally disadvantaged. The EOPS Program promotes student success by way of extended counseling support, priority registration, and textbook purchase assistance - just to name a few. Participation in this program is open to California residents and to AB540 students who are eligible for the California College Promise Grant (formerly known as Board of Governor's Fee Waiver) A or B, have completed less than 70 degree-applicable units, are enrolled or plan to enroll full-time each fall and spring semester, and are considered educationally disadvantaged based on responses to questions on the EOPS application.

EOPS-eligible students who are also single-head of household, have at least one dependent child under age 18, and currently receiving County CalWORKs benefits for themselves and/or for their dependents may also be eligible to participate in Cooperative Agencies Resources for Education or the CARE Program. In addition to the EOPS services mentioned above, the CARE Program provides grants, single-parent conferences and seminars, meal cards, gas cards, and school supplies.

The NextUp Program is a supplemental program of EOPS designed to support eligible current and former foster youth. Students enrolled in NextUp receive all services provided to EOPS students in addition "over and above" services exclusive to NextUp students such as access to a NextUp counselor, need-based grants, school supplies, textbook purchase assistance, transportation assistance, and meal cards.

All EOPS, CARE and NextUp support services are contingent upon funding. Fall applications are accepted as early as April every year, and Spring applications are accepted as early as October.

Food Service/Snack Bar

Locations:

- **Cafeteria** (https://www.valleycollege.edu/about-sbvc/offices/office-vp-admin-services/food_service/): Main floor of the Campus Center
- **Sunroom** (<https://www.valleycollege.edu/about-sbvc/facilities/sunroom-restaurant/>): Main floor of the Campus Center

The Campus Cafeteria is available year round for hot meals fresh off our grill. During the fall and spring semesters, our Snack Bar provides a selection of pre-packaged sandwiches, salads, snacks, and hot and cold beverages. Food and drink items can also be obtained from the vending machines located throughout the campus. During the fall and spring semesters, the college's award-winning Culinary Arts program operates

an on-campus restaurant, The Sunroom. The Sunroom offers a variety of sandwiches, salads, and daily specials at a nominal price.

Fresh Success

Location: Campus Center (CC) 208

Phone Number: (909) 384-4429

Fresh Success is a CalFresh employment and training program that encourages participants to gain education and skills that will lead to better employment and a path to financial independence. In order to be eligible for the Fresh Success program, students must receive CalFresh benefits, as well as be enrolled in career education training courses, English as a second language courses or basic skills courses. Students in Fresh Success may be eligible for the following benefits: textbook services, meal cards, gas cards, school supplies, parking permits and emergency/temporary housing. For additional information about the Fresh Success or to enroll, please call 909-384-4429 or visit the CalWORKs & Workforce Development Department in Room 208 of the Campus Center.

Guardian Scholars/Foster Youth Services

Location: Liberal Arts (LA) 128

Phone Number: (909) 384-8287

Email (guardianscholars@valleycollege.edu)

Website

The Guardian Scholars Program provides supportive services to current and former foster youth between the ages of 17 and 26 years of age who have experienced foster care and helps them to excel in higher education. Our program is designed to provide assistance and support to students with educational goals and practical day-to-day needs to ensure that full advantage is taken of college life, both inside and outside the classroom. Our program is a safe place where students can come and create a community with the staff and their fellow students to help them achieve their academic goals.

The Huddle (Student Athlete Academic Center)

Location: Computer Technology Services (CTS) 107

Phone Number: (909) 384-4427

Website

The Huddle supports and enables student athletes to utilize and integrate the academic resources provided by The Huddle, SBVC Athletics, and Counseling to promote academic success and increase retention, graduation, and transfer rates. The Huddle assists prospective, current, and former SBVC student athletes with their matriculation to SBVC, their academic success at SBVC and their transfer from SBVC to a four-year university.

Services Provided by The Huddle include:

- Academic Counseling and Advisement
- Computer Lab Access
- Free Tutoring (Individual or Group)
- Printing Access
- Registration Assistance
- Study Space

Parking Regulations

Parking decals or daily permits are required to park in all college streets and lots. Follow all parking restrictions and regulations as noted by posted signs and colored curbs. All parking decals are purchased online. Login to Self-Service and click on "SB Valley Student Parking Decals." Daily permits may be purchased from dispensers located in Student Parking Lots 3, 8, and 11.

Parking Decal Fees

Fee	Amount
One Semester (Fall or Spring)	\$35.00
with BOG Waiver	\$20.00
Summer Session	\$20.00
Daily Permit	\$ 3.00

Individuals with disabilities must display a valid DMV Handicap Permit placard and a valid college parking decal/permit to park in designated disabled parking spaces. The Board of Trustees of the San Bernardino Community College District, its administration, or other employees are not and shall not be liable under any circumstances for loss or damage to vehicles or contents thereof parked or stored on District property by fire, theft, or any other cause whatsoever.

Puente Project

Phone Number: (909) 384-8255

Website

The Puente Project is a national award-winning program that helps tens of thousands of educationally underserved students who enroll in four-year colleges and universities, earn degrees, and return to the community as leaders and mentors for future generations. Puente has been at SBVC since 1984 and is a successful statewide transfer program sponsored by the University of California and California Community Colleges. Puente consists of three components: Writing, Counseling, and Mentoring.

Students take three writing classes: ENGL 101 and ENGL 087 in the fall and ENGL 102 in the spring. Students build confidence in their writing skills through an exploration of Mexican American/Chicano/Latino literature. The English courses are linked with a one-unit class, SDEV 015, in the fall, and a three-unit class, SDEV 102, in the spring.

Puente is open to all students.

- Puente students attend the Puente Motivational Conference in the fall semester and are exposed to cultural activities year-round.
- Puente students complete their English course sequence requirement to transfer to a CSU or UC in one year.
- Students have the option to receive resources such as a Google Chromebook, assigned textbooks for Puente classes, and visits to four-year universities while they are a part of Puente.

Scholarships and Awards

Location: Campus Center (CC) 226

Phone Number: (909) 384-4471

Website

Scholarships are offered each year to students enrolled at San Bernardino Valley College and detailed information is available to students year-round at the SBVC Scholarship Website. There are two types of scholarships

available to students, *Inside Scholarships and Outside Scholarships*. Most scholarships are funded through businesses, associations and college organizations; however, some are funded through individual donations to the SBVC Foundation. Scholarship recipients are selected based on a wide variety of criteria including, in some cases, academic achievement, financial need, community service and barriers or obstacles to their education.

The Scholarships Office administers the program in conjunction with the SBVC Scholarship Committee, which is composed of faculty and staff from across the campus. Students who have completed 12 units or more at SBVC may apply for the Inside Scholarship, which includes over 100 individual scholarships by completing the online application between October and January each year.

Outside Scholarship information is available 12 months out of the year, and scholarship workshops are available to assist students with the process. Scholarship workshops are especially helpful for first time applicants and specialized populations such as AB540, disabled students, foster youth, transfer students, re-entry students and other students facing challenges to funding their education. Students are advised to check the website monthly for workshop schedules, updates and new scholarship postings.

STAR Program

Location: AD/SS 201

Phone Number: (909) 384-4433

Website

The STAR (Success Through Achievement and Retention) Program is a federal Student Support Services TRIO program designed to increase the graduation and transfer rate of students who qualify (based on academic need, U.S. citizenship or legal residency status, first-generation college student status, and/or physical or learning disability). The purpose of STAR is to provide a counseling, learning, and overall support community that will empower students to complete their educational degree and/or certificate requirements and obtain an A.A., A.S., or Certificate and/or transfer to a four-year university. Participants receive academic and personal counseling, academic workshops, transfer advising, tutoring, financial aid counseling, field trips to four-year universities, computer lab and limited free printing, and an opportunity to attend cultural enrichment activities.

Student Accessibility Services (SAS)

Location: AD/SS 105

Phone Number: (909) 384-4443

Website

Email

The mission of Student Accessibility Services (SAS) for San Bernardino Valley College (SBVC) is that all students will have the tools necessary to compete globally by strategically utilizing the skills learned from their individual collegiate experiences at SBVC. SAS team members will facilitate growth, inclusion, and critical thinking to develop leadership and address the diverse learning abilities of students. As a result, students will cultivate strategic ways of navigating their academic, social, and personal goals through self-advocacy, campus involvement, and community awareness that will propel them to continue their educational and career opportunities. The vision of SAS is that staff members are here to support students and their academic endeavors. As students utilize the services they need, it is our intention to encourage students with the skills

necessary for them to advocate for the equitable educational opportunities they deserve.

Academic adjustments and auxiliary aids include alternate media, assistive technology, American Sign Language interpreters, assistive listening devices, spell checkers, tape recorders, magnification devices, specialized keyboards, and computer-assisted real time transcription. Services include SAS intake and orientation, learning disabilities assessment, academic counseling/advising, education planning, disability-related counseling, personal counseling, vocational counseling, vocational plans, referral to campus and community resources, note takers, campus orientation, priority registration, registration assistance, assistive technology assessment and training, scribes, e-text, and test-facilitation. Educational assistance courses provide specialized instruction and tutoring in math, reading, and spelling.

Students with permanent or temporary disabilities may apply for SAS. Decisions regarding eligibility are made on an individual basis. For more information, contact SAS by phone at (909)384-4443, by email (sbvcsas@valleycollege.edu), or visit the SAS Office in the Administration/ Student Services Building, Room 105.

Student Health Services

Location: Parking Lot 8, South of the Track and Football Field

Phone Number: (909) 384-4495

Website

Student Health Services provides services to keep students healthy so they can achieve their academic goals. Our integrated facility offers both physical and mental health services provided by a variety of skilled counselors and practitioners. Educational experiences are also provided to support students in developing and maintaining optimal levels of health and quality of life. There is no charge for office visits, however a nominal fee is charged for medication, lab tests, and immunizations. A Health fee is paid at the time of registration to support Student Health Services. The amount of this fee is posted in the *Class Schedule*. In addition to the health fee, International Students attending SBVC on a student visa must purchase international insurance through the Counseling Center, which covers repatriation and medical evacuation expenses in addition to medical coverage. They must also provide a negative tuberculin skin test or a chest X-ray.

Students are not charged the health fee if they qualify for one of the following exemptions:

- Apprentices attending college under an approved training program;
- Students attending college classes on high school campuses;
- Students enrolled only in community services classes;
- Students who depend exclusively upon prayer for healing in accordance with the teachings of a bonafide religious sect, denomination or organization (documentation required).

Those students who do not attend classes on campus, or who are registered only for Distributed Education classes, will pay only an accident insurance premium of \$1.50 per term. This is a secondary insurance and requires a \$50 deductible.

Student Life & Associated Student Government (ASG)

Location: Campus Center (CC) 128

Phone Number: (909) 384-4474

Email

Website

The Office of Student Life assumes a leadership role in creating a campus environment that integrates the learning experience, which complements the academic curriculum. Programs and services are provided to enhance students' ability to learn and develop the life skills necessary to become productive and caring members of our global society. Student participation in the design and implementation of campus wide programs provides opportunities to develop and enhance characteristics of leadership, interpersonal skills, and personal growth. The office provides structured activities, programs, services, resources and facilities to accomplish this mission.

Associated Student Government

Location: Campus Center (CC) 128

Phone Number: (909) 387-1611

Website

The Associated Student Government (ASG) is the official student government organization of San Bernardino Valley College. The ASG represents all SBVC students. The primary responsibility of ASG members is to represent student interests on college, district and statewide committees. In addition, they plan and manage various ASG accounts, including the Student Body Center Fee Account, the Student Representation Fee Account and the General Account. Funds from these accounts are used to support various activities, advocating efforts and Campus Center services and programs. Students can become active in ASG either by running for office during the spring semester or by applying to be appointed to any vacant positions during the fall semester. Appointments are at the discretion of the ASG President with Board of Senators ratification.

Transfer and Career Services

Location: AD/SS 203

Phone Number: (909) 384-4410

Website

The Transfer Center is open to students planning to transfer to any four-year college or university and/or seeking career counseling and information. The center provides the following transfer services and annual events:

- Transfer and Career Counseling by appointment or walk-in
- One-on-one appointments with a four-year college or university representative in the Transfer Center
- A variety of university representatives in the Library Walkway during the spring, summer, and fall semesters
- Transfer requirements relative to four-year college or universities.
- Transfer orientation sessions
- Assistance with major selection
- Credit evaluations
- Transfer agreements
- Information about special programs such as TAP, TAG and Cross Enrollment
- Field trips to four-year institutions
- A monthly calendar of events
- A monthly newsletter

Annual Events:

- TAG, UC, and CSU University Application Workshops in the fall semester
- Transfer/College Fairs in the spring and fall semesters
- Transfer Celebration and Reception in the spring semester
- Transfer 101 Conference in the spring semester

Career counseling is available to assist students with career development and planning process, and resources that assist students with identifying career goals that will prepare students to meet the demands of the global job market. Multiple career assessments are available. The various assessments focus on personality, interest, abilities and skills. The Career Counselor provides assistance with resume writing, mock interviews and cover letters.

Transfer materials can be requested from the Transfer Center.

Please call, stop by the Transfer Center, or check the above website to schedule an appointment on-line.

Umoja-Tumaini Program

Location: AD/SS 203 and Physical Science (PS) 138

Phone Number: (909) 384-8950 or (909) 384-8651

Website

Umoja-Tumaini is a statewide program designed to increase academic and personal success, and promote transfer to four-year colleges and universities. Umoja-Tumaini targets students who are interested in learning about African American history, literature, and culture. Umoja-Tumaini instructors and counselors use collaborative and other community building strategies to enhance students' learning potential in and out of the classroom. The Program is a learning community and combines elements of counseling and other courses (Student Development, Math and African American History) to assist students with the rigors of college life. The mission of Umoja-Tumaini is to retain students at the community college level, assist students in grading with an associate degree or certificate, and increase transfer readiness to a four-year college or university.

The benefits from Umoja-Tumaini include:

- Fostering high self-confidence and pride in one's cultural heritage;
- Developing critical thinking, reading, and writing skills that are needed for college and future career success;
- Researching occupational interest through various sources;
- Individual and group access to counselors, college workshops, guest speakers, professional mentors, and college tours. Umoja-Tumaini is open to all students.

Valley 360 Resource Center (The Pantry)

Location: Left Side of the Library

Email

Website

The Valley 360° Resource Center provides food, clothing, hygiene, and baby items (subject to availability) for hundreds of San Bernardino Valley College students, allowing them to focus more time on their academics and pursuing their professional and personal goals. Students can pick up pre-packaged food and/or hygiene bags with their student ID card or number. Limit one (1) visit per week. The Valley 360° Resource Center is located on the left side of the Library, facing AutoZone. For more information and current hours, visit our website or email us.

Veteran's Resource Center (VRC)

Location: Campus Center (CC) 133

Phone Number: (909) 384-4411

Website

School Certifying Official: veterans@valleycollege.edu

San Bernardino Valley College (SBVC) Veteran's Resource Center assists veterans for the following benefit programs:

- Chapter 30 – Active Duty Educational Assistance Program
- Chapter 31 – Veteran's Administration Vocational Rehabilitation
- Chapter 33 – Post-9/11 GI Bill®
- Chapter 33TR – Post-9/11 GI Bill® Transfer to VA Dependents
- Chapter 35 – Survivors and Dependents Educational Assistance Program
- Chapter 1606 – Selected Reserve Educational Assistance Program

Veterans and/or dependents seeking to use VA Educational Benefits should apply online at www.va.gov (<http://www.va.gov>). If eligible for VA educational benefits, the student will receive two copies of the Certificate of Eligibility (COE). One copy of the COE must be submitted to the Veteran's Services office at the student's home college location and the other copy should be kept by the student for his/her personal records. All Veteran and/or dependent students must follow San Bernardino Valley College's enrollment policies and procedures in order to register into classes.

VRC Resources Include:

- Counseling-Academic & Wellness
- Free Printing/Computer Lab
- GI Bill® Certification/VA Liaison
- Graduation Sashes
- Lounge
- Networking
- Scantrons/Green Books/Stationary Supplies
- Tutoring
- Vet Club
- Veteran Work Study

Students must apply online to San Bernardino Valley College and complete any required assessment testing and online orientation. Veterans and/or dependent students are also required to agree and submit a Veteran's Statement of Responsibility every semester to request a benefits certification to the School Certifying Official (veterans@valleycollege.edu). Students may also be eligible for other types of financial assistance are encouraged to submit the Free Application for Federal Student Aid (FAFSA) online (<https://studentaid.gov/h/apply-for-aid/fafsa/>).

Students must set up an appointment with a VA Educational Counselor to complete our VA Student Education Plan (SEP). Once the VA-SEP has been completed, Veteran's Services will verify that the classes are included on the VA-SEP and certification will be submitted to the VA for benefit processing. If you have questions regarding benefit payments or how to retrieve a copy of your *Certificate of Eligibility*, please contact the VA at (888) GIBILL-1 or visit the website <https://www.ebenefits.va.gov/>. Veteran students may be eligible for priority registration at SBVC. It is the students' responsibility to submit a copy of their DD214 (Service 2 or Member 4 Copy) to the Veteran's Services office to verify eligibility.

Dependent students must complete the admissions process but are not eligible for priority registration. For additional assistance, you may contact

the SBVC Veteran's Resource Center or the School Certifying Official (veterans@valleycollege.edu).

Welcome Center

Location: AD/SS 102

Phone Number: 909-384-8766

Website

The Welcome Center is a one-stop location where new and prospective students can find information about the college's academic programs, access to computers, and directions to various student support services on campus. Students can also get quick access to class schedules, registration information, and a variety of campus publications such as the student handbook, maps and the college catalog.

WorkAbility III

Location: Campus Center (CC) 208

Phone Number: 909-384-4465

Website

WorkAbility III (WAIII) is a collaboration between San Bernardino Valley College and the Department of Rehabilitation of the State of California (DOR). The program seeks to help DOR clients/students build employability skills and self-assurance. The clients/students will be provided with assistance in attaining meaningful employment possibilities. The ultimate objective is "Self-Sufficiency." For additional information about the WorkAbility III Program or to enroll, please call 909-384-4429 or visit the CalWORKs & Workforce Development Department in Room 208 of the Campus Center.

Workforce Innovation & Opportunity Act (WIOA)/ Employment Development Department (EDD)

Location: Campus Center (CC) 208

Phone Number: 909-384-4429

Website

Workforce Innovation & Opportunity Act (WIOA) and the Employment Development Department (EDD) provide educational support services and occupational skills to San Bernardino Valley College students to help them enter or re-enter the workforce. Call us at 909-384-4429 or visit the CalWORKs & Workforce Development Department in Room 208 of the Campus Center.

Financial Aid Programs

Financial Aid

Location: AD/SS 106

Phone Number: (909) 384-4403

Website

The Financial Aid Office provides help in obtaining financial assistance from various federal and state programs. Please see the section on Financial Aid, call, or visit the Financial Aid website for more information.

If a student needs financial assistance to pay for the costs of attending San Bernardino Valley College, the Financial Aid Office can help. While the primary responsibility for meeting college costs rests with the student and

the student's family, the college recognizes that many students are not able to meet the full cost of a college education. Therefore, San Bernardino Valley College offers programs to provide assistance for students with documented need who might not otherwise be able to attend.

It is important that students apply for the Free Application for Federal Student Aid (FAFSA) or California Dream Act Application (CADAA) by the priority deadline of March 2nd of each year. The average application can take eight weeks or longer to completely process. Financial aid awards are limited to availability of funds and are awarded on a first-come, first-served basis with priority given to students with the greatest need who apply by the priority deadline of March 2nd. Students may still apply after March 2nd; however processing of the financial aid applications may take significantly longer the later the application is submitted.

More information about Financial Aid programs is available on the Financial Aid website. After reading through this information, if you still have questions, visit the Financial Aid Office in AD/SS 106. The Financial Aid Office may not give information about your financial aid application status over the phone, in accordance with FERPA regulations. To check the status of your financial aid application you must visit Self-Service or come in to speak to a Financial Aid representative.

Eligibility Requirements

Effective July 1, 2012 students must possess either a high school diploma or a GED in order to receive financial assistance. In addition, a student receiving aid must have a stated qualifying educational objective and maintain satisfactory academic progress towards that objective. Federal programs require students to be U.S. citizens or eligible non-citizens. In addition, California grant programs require recipients to be residents of the State of California.

Effective January 1, 2013 AB540 students are eligible to apply for California Financial Aid. AB540 students will need to complete the CA Dream Act Application to determine BOG and/or Cal Grant eligibility. Additionally, AB540 students need to be confirmed AB540 status through the Admissions and Records Office. Please visit the office for additional information regarding eligibility requirements.

Application Procedure

For most student aid programs described in this section, students must complete the Free Application for Federal Student Aid (FAFSA) or California Dream Act Application (CADAA). This FAFSA application is available online at <https://studentaid.gov/h/apply-for-aid/fafsa> (<https://studentaid.gov/h/apply-for-aid/fafsa/>) and the CADAA is available at <https://dream.csac.ca.gov> (<https://dream.csac.ca.gov/>). The Financial Aid Office recommends that students apply online, which can expedite the process by as much as two weeks. Students may use computers in any of the computer labs on campus to access the FAFSA or CADAA if they do not have access to the Internet at home. Make sure you list San Bernardino Valley College, federal code # **001272** on your FAFSA or CADAA to ensure your financial aid information is sent to the SBVC Financial Aid Office. We cannot process applications that do not list the correct federal school code.

Applications for each new academic year will be available in October. Financial aid is not continued from one year to the next, therefore students must complete the FAFSA or CADAA each school year to apply for financial aid. Deadlines for the various programs may vary; therefore, students are encouraged to visit the Financial Aid website early each January for updated information and changes in regulations, policies or procedures.

Financial Aid Programs

San Bernardino Valley College participates in various financial aid programs, which are summarized below. Additional information regarding each of the programs is available on the Financial Aid website.

California College Promise Grant (CCPG)

Formerly The Board of Governors Fee Waiver (BOG)

The California College Promise Grant program is available to qualifying California residents. The California Promise Grant waives mandatory enrollment fees and a portion of the parking permit fee. The California College Promise Grant does not apply to class material fees or College Service fees. Students are responsible for making sure all fees have been paid. To apply for the California College Promise Grant, fill out the FAFSA application (Dream Act application, if applicable) online. The Financial Aid Office will receive the results of the FAFSA and Dream Act Applications and award the California College Promise Grant automatically to eligible students. Receipt of the FAFSA application results will also determine eligibility of other types of financial assistance. Students may be eligible for a fee waiver, even when determined not eligible for other types of financial aid. Applicants only need to apply once to have fees waived for the entire academic award year.

New California College Promise Grant Changes – Effective Fall 2016

New regulations from the California Community College Chancellor's Office will affect the student CA College Promise Grant program and Priority Enrollment.

- Loss of Promise Grant/Priority Enrollment will occur if a student has two consecutive semesters (excludes Summer session) of not meeting Academic (2.0 GPA or above) or Progress standards (more than 50% Completion Rate) and placed on Academic Dismissal.
- Students will have the right to appeal the loss of their Promise Grant and Priority Enrollment.
- Students will have their Promise Grant/Priority Enrollment reinstated if one of the following applies:
 - Meeting Academic Progress Standards
 - Successful Appeal
 - Sitting out two consecutive primary terms

Meet with your program counselor to review your academic standing!

Cal Grant

The Cal Grants are state funds awarded to selected eligible students. Cal Grant recipients are selected by the California Student Aid Commission (CSAC). To apply for the Cal Grant Program, a student must submit their FAFSA or Dream Act Application, and a Cal Grant GPA Verification form to CSAC by the March 2nd priority deadline. Valley College participates in the Cal Grant B and C awards. To find out more information, visit www.csac.ca.gov (<http://www.csac.ca.gov>).

California Chafee Grant

The California Chafee Grant provides up to \$5,000 per year for eligible students who are current or former foster youth to use for career and technical training or college courses. For more information on the CHAFEE grant program, visit: <https://chafee.csac.ca.gov/>

Federal Pell Grant

The Federal Pell Grant is need-based and awarded to eligible undergraduate students. In most cases, this grant does not need to be paid back. You are

automatically considered for the Pell Grant when you apply and file your FAFSA application. The Federal Pell Grant may be used for tuition, fees, books, transportation, and living expenses. Initial awards are estimated based on the results of the FAFSA application. Actual disbursement of the Federal Pell Grant will not be determined until your file is completed and enrollment status has been verified.

Federal Supplemental Education Opportunity Grant (FSEOG)

The FSEOG program provides federal grants to supplement the Federal Pell Grant. The average grant for San Bernardino Valley College students is \$1,000. Students must be eligible for a Pell Grant and have exceptional need.

Federal Work-Study

Federal Work-Study offers students the opportunity to earn funds to help cover their educational expenses through part-time employment during the school year. The average maximum award is \$3,000 per year. Federal Work Study awards are determined by financial need and are available to students enrolled in six (6) or more units per semester.

Student Success Completion Grant (SSCG)

The SSCG is awarded to students who have been awarded a Cal Grant B or Cal Grant C award and who are enrolled in 12 or more units. The intent of the program is to support student persistence, retention and success by providing students enrolled in a minimum of 12 units per term additional assistance in order to complete their programs in the "scheduled timeframes" appropriate to the chosen area of study. Due to limited funding, the Student Success Completion Grant (SSCG) is awarded on a first, come first serve basis. To be eligible for the Student Success Completion Grant (SSCG), a student must be a Cal Grant B or C recipient in the fall and/or spring semester, be enrolled in at least 12 units per term, maintain a cumulative Grade Point Average (GPA) of at least a 2.0 and maintain pace, adhere to their qualifying comprehensive Student Education Plan, and demonstrate financial need in their yearly financial aid budget. In addition to the Cal Grant B or C award, the Student Success Completion Grant pays full-time Cal Grant B or C recipients a maximum of \$2,596 annually (\$1,298 per semester for eligible students who enroll and attend 12 through 14.99 units per term) and a maximum of \$8,000 annually (\$4,000 per semester for eligible students who enroll and attend 15 units or more per term). Beginning 2023-2024 award year, the Student Success Completion Grant pays Current or Former Foster Youth Cal Grant recipients enrolled full time up to \$5250 per semester (\$10,500 annually).

Financial Aid Refund Policy (R2T4)

San Bernardino Valley College will determine the amount of federal financial aid that a student has "earned" in accordance with federal regulations. The Financial Aid Office uses a federal formula to determine how much aid a student earned based on his/her last day of attendance. Students who receive federal financial aid and do not begin attendance in any of their classes will be required to repay all of the funds they received. Students who withdraw from classes will have their financial aid eligibility recalculated based on the percentage of the semester completed, and will be required to repay any "unearned" financial aid they received. At San Bernardino Valley College, a student's withdrawal date is:

- The date the student officially notified the Admissions Office of his or her intent to withdraw;
- The midpoint of the semester for a student who leaves without notifying the college;

- The student's last date of attendance at a documented academically related activity.

Satisfactory Academic Progress Requirements

All students receiving financial aid are required to maintain satisfactory academic progress. Satisfactory Academic progress will be monitored at the end of each semester, beginning Fall 2015, for all Financial Aid students based on the SBVC Satisfactory Academic Policy. Per federal regulations, this policy must apply to all students whether or not they were recipients of financial aid previously at SBVC or any other college or university. If a student was awarded financial aid and is later determined ineligible based on not meeting Satisfactory Academic Progress, all previously awarded aid will be withdrawn. The Satisfactory Academic Progress policy can be found on the Financial Aid website.

Student Rights and Responsibilities Academic Records

Student academic records are treated in a confidential and responsible manner as required by the Family Educational Rights and Privacy Act of 1974 (FERPA). Students have:

- The right to inspect and review their education records within 45 days of the day the College receives a request for access.**

A student should submit to the Director of Admissions and Records, a written request that identifies the record(s) they wish to inspect. The Director will arrange for access and will notify the student of the time and place where the record(s) may be inspected. If the records are not maintained by the Admissions and Records Office, the Associate Dean will advise the student of the correct official to whom the request should be addressed.

- The right to request the amendment of the portions of their education records that they believe are inaccurate or misleading.**

Students should write to the Director clearly identifying the part of the record they want changed, and specifying why it is inaccurate or misleading. If the college decides not to amend the record as requested by the student, the college will notify the student of the decision and will advise the student of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.**

One exception that permits release of student records without written consent is disclosure to school officials with legitimate educational interests. A "school official" is defined as a person employed by the college in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the college has contracted (such as an attorney, auditor, or collection agent); a member of the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a "legitimate educational interest" if the official needs to review an education record in order to fulfill professional responsibility.

- Students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by San Bernardino Valley College to comply with the requirements of FERPA.**

The name and address of the Office that administers FERPA:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-8520

Academic Dishonesty

It is the belief at San Bernardino Valley College that students share a responsibility with their instructors for assuring that their education is honestly attained. In keeping with this belief, every instructor has the responsibility and authority to deal with any instances of plagiarism, cheating and/or fabrication that occur in the classroom. This policy on Academic Dishonesty applies to all students, including students taking online and hybrid classes. Examples of academic dishonesty include (but are not limited to) the following:

Plagiarism

Plagiarism is the act of presenting someone else's work as one's own.

Examples include:

- Copying and pasting text from websites or other electronic sources and presenting it in an assignment as your own original work;
- Copying and pasting text from printed sources (including books, magazines, encyclopedias or newspapers) and presenting it in an assignment as your own original work;
- Using another student's work and claiming it as your own original work (even if you have the permission of the other student).

Cheating

Cheating is the act of pretending (or helping others to pretend) to have mastered course material through misrepresentation.

Examples include:

- Copying from another student's test or assignment.
- Allowing another student to copy from your test or assignment;
- Using the textbook, course handouts, or notes during a test without instructor permission;
- Stealing, buying or otherwise obtaining all or part of a test before it is administered;
- Selling or giving away all or part of a test before it is administered;
- Having someone else attend a course or take a test in your place;
- Attending a course or taking a test for someone else;
- Failing to follow test-taking procedures, including talking during the test, ignoring starting and stopping times, or other disruptive activity.

Fabrication

Fabrication is the intentional use of invented information. Examples include:

- Signing a roll sheet for another student;
- Giving false information to college personnel;
- Answering verbal or written questions in an untruthful manner;
- Inventing data or sources of information for research papers or other assignments.

As members of the San Bernardino Valley College learning community, students are not to engage in any form of academic dishonesty. Any act of academic dishonesty will be considered a very serious offense that is subject to disciplinary action. The consequences of academic dishonesty may include receiving a grade of "F" for a class or possible expulsion from the college.

Substance Abuse

The San Bernardino Community College District strives to maintain a workplace free from the illegal use, possession or distribution of controlled substances as defined in the Controlled Substances Act. Students, employees and visitors are subject to applicable legal sanctions under local, state or federal law for the unlawful possession or distribution of illicit drugs and alcohol. Disciplinary action will be imposed on a student for misconduct for the following infractions while attending college classes or college-sponsored events:

- The use, sale or possession of illegal drugs;
- The presence on campus of anyone under the influence of drugs or alcohol;
- The use or possession of alcoholic beverages on college property or at any college-sponsored event.

Animals on Campus

The college does not permit staff or students to bring animals on campus, with the exception of "seeing eye" and "hearing ear" and "seizure" dogs and animals used for instructional purposes. At no time should dogs be left in vehicles.

Children on Campus and in the Classroom

All children (with the exception of high school students who have been admitted to the Middle College program) must be accompanied by an adult while on campus. Children are not allowed in the classroom under any conditions and are not to be left unattended in any campus facility. Should this occur, the District Police will be notified immediately.

Computer Use Policy

The San Bernardino Community College District has a Computer Use Policy (AP 3720) that all students and employees are expected to follow. These documents set the foundation for the following items: Ownership Rights, Privacy Interests, District Rights, System Abuse, Misrepresentation, Liability, Harassment, Commercial Use, Fair Use, Software Licensing, Exceptions, Network Access, Media, Social Networking, PDA, and Smartphone. These documents can be found on the District website at: www.sbccd.org (<http://www.sbccd.org>) under Board Policies and Administrative Procedures.

Financial Obligations

Students who have an outstanding financial obligation will not be allowed to register for classes, receive grades, transcripts, diplomas or certificates, obtain enrollment verification or receive any other services normally afforded students in good standing. Examples of obligations falling under this policy include (but are not limited to) returned checks, unpaid loans, equipment breakage, and unpaid library fines. An item or service withheld shall be released when the student satisfactorily meets the financial obligation.

Speech: Time, Place, and Manner

Designated Public Forum (DPF) Areas have been identified throughout the campus. Individuals or organizations wishing to use a DPF must notify the Campus Business Office or the Office of Student Life at least one hour prior to use and fill out a *Free Speech Application*.

In accordance with Education Code Section 76120, the use of Free Speech Areas is subject to the following:

- Persons using the DPF area(s) and/or distributing material in the DPF area(s) shall not impede the progress of passersby, nor shall they force passersby to take material;
- No person using the DPF area(s) shall touch, strike or impede the progress of passersby, except for incidental or accidental contact, or contact initiated by a passerby;
- Persons using a DPF area shall not use any means of amplification that creates a noise or diversion that disturbs or tends to disturb the orderly conduct of the campus or classes taking place at that time;

- No persons using the DPF area(s) shall solicit donations of money, through direct requests for funds, sales of tickets or otherwise, except where he or she is using the DPF area(s) on behalf of and collecting funds for an organization that is registered with the Secretary of State as a nonprofit corporation or is an approved by Associated Student Government or club;
- All persons using the DPF area(s) of the college shall be allowed to distribute petitions, circulars, leaflets, newspapers, and other printed matter. Such distribution shall take place only within the DPF area(s). Material distributed in the DPF area(s) that is discarded or dropped in or around the DPF area(s) other than in an appropriate receptacle must be retrieved and removed or properly discarded by those persons distributing the material prior to their departure from the DPF area(s) that day.

Posting

Students shall be provided with bulletin boards for use in posting student materials at campus locations convenient for student use. Materials displayed shall be removed after the passage of specified days.

Standards of Conduct

In the classroom: Students and instructors are expected to take responsibility for helping to create a quality classroom environment. Students are expected to show respect for the instructor and their fellow students. This includes arriving on time, staying for the entire class period, completing assignments, bringing textbooks and other appropriate materials to class, refraining from talking while the instructors or classmates are presenting, leaving cell phones and other electronic devices off that may be distracting, using a moderate, mature, and respectful tone when participating in group discussions, and refraining from inappropriate language and behavior, including, physical, mental, and verbal harassment while on campus.

An instructor has the right to remove a student from a class period if a student's behavior interferes with instruction. Prior to removal, the faculty member is responsible to identify the behavior and inform the student that failure to correct the issue may result in removal from the class. If the behavior persists, the faculty member may remove, for good cause, any student from their class for up to two (2) class sessions. The student shall not return to the class during the period of the removal without permission of the instructor. Nothing herein will prevent the college president or designee from recommending further discipline in accordance with these procedures based on facts that led to the removal. As used in this rule, "good cause" includes those offenses listed in the Student Code of Conduct. In instances of online courses, students access to course content will be removed for a period of time comparable to two class sessions.

On the campus: Creating a proper campus environment is also very important for academic and individual success. The Board of Trustees of the San Bernardino Community College District has established district-wide standards of student conduct, which will be enforced at all times. These rules of conduct are particularly important in large common areas such as the cafeteria, bookstore, vending areas, campus quads, and other highly frequented areas.

Grounds for Disciplinary Action

The Chancellor shall be responsible for procedures that impose discipline on students in accordance with due process outlined in federal and state law and regulations. The following behaviors are subject to disciplinary

action ranging from verbal reprimand through removal, suspension or expulsion of a student:

- **Academic Misconduct.** All forms of academic misconduct including, but not limited to, cheating, fabrication, plagiarism, or facilitating academic dishonesty.
- **Alcohol.** Manufacture, distribution, dispensing, possession, use, consumption or sale of, or the attempted manufacture, distribution, dispensing, distribution, consumption or sale of alcohol that is unlawful or otherwise prohibited by, or not in compliance with, District policy, administrative procedures, or campus regulations.
- **Assault/Battery.** Assault, battery, or any threat of force or violence upon a Student or upon any Member of the District Community. This includes, but is not limited to:
 - Inflicting bodily harm upon any Member of the District Community;
 - taking any action for the purpose of inflicting bodily harm upon any Member of the District Community;
 - taking any reckless, but not accidental action, from which bodily harm could result to any Member of the District Community;
 - Causing a Member of the District Community to believe that the offender or their agent may cause bodily harm to that person or any member of their family or any other Member of the District Community;
 - Inflicting or attempting to inflict bodily harm on oneself.
- **Bias.** Bias-related incidents are behavior that constitutes an expression of hostility against a person or property or another due to the targeted person's race, religion, sexual orientation, ethnicity, national origin, gender, age, marital status, political affiliation, or disability. These acts or behaviors may not rise to the level of a crime, or a violation of state or federal law, but may constitute to creating an unsafe, negative, or unwelcome environment for the targeted person.
- **Continued Misconduct or Repeat Violation.** Repeated misconduct or violations of this Policy, when other means of correction have failed to bring about proper conduct.
- **Dating Violence.** Violence committed by a member of the District Community who is, or has been, in a social relationship of a romantic or intimate nature with the victim.
- **Destruction of Property.** The damaging, destroying, defacing, or tampering with District Property or the property of any person or business on District Property or at a District function, including but not limited to, taking down, defacing, or otherwise damaging District authorized posters, handbills and/or notices posted on District property.
- **Discrimination.** Unlawful discrimination against a person on the basis of race, ethnicity, color, religion, national origin, sex, age, disability, military or veteran status, gender identification, gender expression, marital status; sexual orientation, or genetic information, except where such distinction is authorized by law.
- **Dishonesty.** All forms of dishonesty including but not limited to fabricating information, furnishing false information, or reporting a false emergency to the District.
- **Disorderly or lewd conduct.** Engaging in disorderly or lewd, indecent or obscene behavior on District Property or at a District function.
- **Disruption of Educational Process.** Destruction or disruption on or off District Property of the District educational process(es), including but not limited to interrupting, impeding, obstructing or causing the interruption or impediment of any class (regardless of modality), lab, administrative office, teaching, research, administration, disciplinary procedures, District activity or District authorized Student activity or

administrative process or other District function; or disturbing the peace on District Property or at any District function.

- Disruptive Behavior. Disruptive behavior, disobedience, profanity, vulgarity, or the open defiance of the authority of or abuse of District personnel, or which adversely effects the delivery of educational services to Students and the District Community.
- Disturbing the Peace. Disturbing the peace and good order of the District by, among other things, fighting, quarreling, disruptive behavior, or participation in a disturbance of the peace or unlawful assembly.
- Drugs. Unlawful or attempted manufacture, distribution, dispensing, possession, use, distribution or sale of, controlled substances, dangerous drugs, restricted dangerous drugs or narcotics, as those terms are used in state or federal statutes on District Property or at any District function. Possession of medicinal marijuana on District premises is prohibited.
- Endangering Welfare of Others. Violation of any state or federal law relating to the placing at risk of physical or emotional harm of a member of the District Community.
- Failure to Appear. Failure to appear before a District official when directed to do so.
- Failure to Comply or Identify. Failure to identify oneself to, or comply with the directions of, a District employee when requested.
- Failure to Repay Debts or Return District Property. Failure to (a) repay debts to the District; (b) return District property; (c) return property of any member of the District Community.
- False Report of Emergency. Knowingly and purposefully, causing, making, and/or circulating a false report or warning of a fire, explosion, crime, or other catastrophe.
- Forgery. Any forgery alteration, or misuse of any District document, record, key, electronic device, or identification, or knowingly furnishing false information to a District official.
- Fraud. Any attempt to steal, take, carry, lead, or take away the personal property of another, or who fraudulently appropriated property which has been entrusted to him or her, or who shall knowingly and designedly, by any false or fraudulent representation or pretense, defraud any other person of money, labor or property, or who causes or procures or obtains credit and thereby, or fraudulently gets or obtains possession of money, or property, or obtains the labor or service of another, is guilty of theft.
- Gambling. Unauthorized gambling on District Property or at any District function.
- Harassment/Bullying. A specific act, or series or acts, of a verbal or physical nature, including threats, intended to annoy, intimidate, pester, aggravate, irritate, dominate, ridicule, or cause fear to a member of the District Community, occurring within the jurisdiction of the District as set forth in Section 1.4.
- Hateful Behavior. Hateful behavior aimed at a specific person or group of people.
- Hazing. Participation in hazing or any method of initiation or pre-initiation into a campus organization or other activity engaged in by the organization or members of the organization at any time that causes, or is likely to cause, physical injury or personal degradation or disgrace which can inflict psychological or emotional harm to any Student or other person.
- Infliction of Mental Harm. (a) Inflicting mental harm upon any member of the District Community; (b) taking any action for the purpose of inflicting mental harm upon any Member of the District Community; (c) taking any reckless, but not accidental action, from which mental harm to Member of the District Community could result; (d) causing a

Member of the District Community to believe that the Student or their agent may cause mental harm to that person or any member of their family or any other member of the District Community; (e) any act which purposefully demeans, degrades, or disgraces any person.

- Library Materials. Cutting, defacing, or otherwise damaging or theft of college library or bookstore materials or property.
- Misrepresentation. A false statement or representation based upon the intentional disregard of false or possibly false information, or knowingly entering into a transaction based upon false information, or misrepresenting oneself to be an agent, employee, or representative of the District or its colleges.
- Misuse of Identification. Transferring, lending, borrowing, altering or unauthorized creation of identification.
- Possession of Stolen Property. Possession of District Property, or the property of any other person, when the Student knows or reasonably should know, that the property was stolen.
- Possession of Weapons. Unauthorized possession, use, storage, or manufacture of explosives, dangerous chemicals, firebombs, firearms, or other destructive devices or weapons as defined in Section K of Appendix A.
- Public Intoxication. Public intoxication or being under the influence of alcoholic beverages, any illegal narcotics, or any substance that causes impairment on District/College Property or at any District/College function.
- Sexual Harassment. Sexual harassment against a member of the District Community. Sexual harassment is defined as (a) unwelcome verbal harassment, e.g., epithets, derogatory comments, or slurs; (b) physical harassment, e.g., assault, impeding or blocking movement, or any physical interference with normal work or movement when directed at an individual; (c) visual forms of harassment, e.g., derogatory posters, cartoons, or drawings; (d) unwelcome sexual advances, requests for sexual favors; or (e) an intimidating, hostile, or offensive environment. "Unwelcome conduct" is defined as conduct which the member of the District Community does not solicit or initiate, and which the person regards as undesirable or offensive.
- Sexual Misconduct comprises a broad range of unwelcome behaviors focused on sex and/or gender that may or may not be sexual in nature. Any intercourse or other intentional sexual touching or activity without the other person's consent is sexual assault, is a form of Sexual Misconduct under this Procedure. Sexual Misconduct is any form of gender-based harassment, including, but not limited to, sexual harassment, sexual assault, and sexual exploitation, as well as harassment based on gender identity, gender expression, and non-conformity with gender stereotypes. Sexual misconduct may also include acts of a sexual nature, including acts of stalking, domestic violence, and dating violence, intimidation, or for retaliation following an incident where alleged Sexual Misconduct or has occurred. Sexual Misconduct can occur between strangers or acquaintances, or people who know each other well, including between people involved in an intimate or sexual relationship, can be committed by anyone regardless of gender identity and can occur between people of the same or different sex or gender.
- Serious Injury or Death. Any intentional, unintentional or reckless action or conduct which results in serious injury or death to a Member of the District Community or their family.
- Smoking. Smoking in an area where smoking has been prohibited by law or regulation of the District.
- Stalking. Stalking behavior in which a Student repeatedly engages in the course of conduct directed at another person and makes a credible threat with the intent to place that person in reasonable fear

for his or her safety, or the safety of his or her family; where the threat is reasonably determined by the College Conduct Officer to create substantial emotional distress, torment, create fear, or to terrorize the person.

- Sexual Stalking. The course of conduct directed at a specific person that would cause a reasonable person to feel fear or suffer substantial emotional distress due to another's sexual interest or gender-based stalking. Stalking involves repeated and continued harassment of a sexual or gender-based nature, against the expressed consent of another individual, which causes the targeted individual to feel emotional distress, including fear or apprehension. Such stalking behaviors may include: pursuing or following; unwanted communication or contact—including face-to-face encounters, telephone calls, voice messages, electronic messages, web-based messages, text messages, unwanted gifts, etc.; trespassing; and surveillance or other types of observation.
- Theft or Abuse of District's Computers or Electronic Resources. Theft or abuse of District computers and other District electronic resources such as computer and electronic communications facilities, systems, and services. Abuses include (but are not limited to) unauthorized entry, use, transfer, or tampering with the communications of others, and interference with the work of others, and with the operation of a computer and electronic communications facilities, systems, and services. Theft or attempted theft of any kind, including seizing, receiving, or concealing property with knowledge that is has been stolen, is prohibited. Sale, possession, or misappropriation of any property or services without the owner's permission is also prohibited.
- Theft or Conversion of Property. Theft or conversion of District Property or services, or the property of any person or business on District Property or at a District function, or possession of any property when the Student had the knowledge or reasonably should have had knowledge that it was stolen.
- Trespass and Unauthorized Possession. Unauthorized or forcible trespass on, entry to, possession of, receipt of, or use of any District services, grounds, equipment, resources, properties, structures, vehicles, boats, water craft or facility, including the unauthorized use of District's name, insignia, or seal without permission or authorization.
- Unauthorized Recording. Recording any person on District Property or at any District function without that person's knowledge or consent. This definition shall not apply to recordings conducted in public, in a commonly recognized public forum.
- Unauthorized Use of Course or Copyrighted Materials. Students of the District will abide by all aspects of United States copyright law, Title 17 of the United States Code, to the extent possible, under the authoritative interpretation of the law. Students shall not reproduce copyrighted materials without prior permission of the copyright owner, except as allowed by the "fair use" doctrine. In addition, Students shall not sell, prepare, or distribute for any commercial purpose any course lecture notes or video or audio recordings of any course unless authorized by the District in advance and explicitly permitted by the course instructor in writing. The unauthorized sale or commercial distribution of course notes or recordings by a Student is a violation of these Policies whether or not it was the Student or someone else who prepared the notes or recordings. Copying for any commercial purpose handouts, readers or other course materials provided by an instructor as part of a District course unless authorized by the District in advance and explicitly permitted by the course instructor or the copyright holder in writing (if the instructor is not the copyright holder).
- Unauthorized Use of District Keys. Unauthorized use, distribution, duplication or possession of any keys issued for any building, laboratory, facility, room, or other District Property.
- Unauthorized Use of Electronic Devices. Unauthorized use of an electronic device on District property or at any District function, including but not limited to, classes, lectures, labs, and field trips.
- Unauthorized Use of Property or Services. Unauthorized use of property or services or unauthorized possession of District Property or the property of any other person or business.
- Unreasonable Demands. Placing repeated, hostile, or unreasonable demands on District staff.
- Unwelcome Conduct: conduct of a sexual, gender-based, or harassing nature, which is considered unwelcome if a person did not request or invite it, and considered the conduct to be unwelcome, undesirable, or offensive. Unwelcome conduct may take various forms, including name-calling, graphic or written statements (including the use of cell phones or the Internet), hazing, bullying, or other conduct that may be physically or psychologically threatening, harmful, or humiliating. Unwelcome conduct does not have to include intent to harm, or directed at a specific target, or involve repeated incidents. Unwelcome conduct can involve persons of the same or opposite sex.
- Violation of Driving Regulations. Driving unsafely on District property or while taking part in any District function, or repeated violation of District parking regulations.
- Violation of Health & Safety Regulations. Violation of any health, safety or related regulations, rule or ordinance on District property or at any District function.
- Violation of Law. Violation of any federal, state or local law on District property, at a District function or involving a member of the District Community.
- Violation of Posted District Rules. Violation of any rule or regulation posted on District property by the District or the College, or printed in any District publication.
- Violation of Published Computer/Network Usage Policy(s), Procedures, or Guidelines.
 - Accessing and/or without permission altering, damaging, deleting, destroying, or otherwise using any data, computer, computer system, or computer network belonging to or used by the District or any Member of the District Community.
 - Accessing and/or without permission taking, copying, or making use of any data from a computer, computer system, or computer network, or taking or copying any supporting documentation, whether existing or residing internal or external to a computer, computer system, or computer network belonging to or used by the District or any Member of the District Community.
 - Using or causing to be used District computer services without permission.
 - Accessing and/or without permission adding, altering, damaging, deleting, or destroying any data, computer software, or computer programs which reside or exist internal or external to a computer, computer systems, or computer network belonging to or used by the District or any Member of the District Community.
 - Disrupting or causing the disruption of computer services or denying or causing the denial of computer services to an authorized user of a computer, computer system, or computer network belonging to or used by the District or any Member of the District Community.
 - Providing or assisting in providing a means of accessing, without permission, a computer, computer, system, or computer network

belonging to or used by the District or any Member of the District Community.

- Accessing or causing to be accessed without authorization any computer, computer system, or computer network belonging to or used by the District or any Member of the District Community.
- Introducing any computer contaminant or virus into any computer, computer system, or computer network belonging to or used by the District or any Member of the District Community.
- Sending any message using any computer system or network without authorization or sending any message in the name of another person or entity.
- Using any account or password without authorization.
- Allowing or causing to be used an account number or password by any other person without authorization.
- Accessing or causing to be accessed, downloading or causing to be downloaded, pornographic or obscene materials except when accessing a pornographic website which is part of the instructional process or assignment for a class the Student is currently enrolled in.
- Use the District's systems or networks for commercial purposes; for example, by performing work for profit with District resources in a manner not authorized by the district.

SBCCD AP 5500

Disciplinary Action

Students enrolled in the San Bernardino Community College District shall refrain from disruptive conduct which significantly interferes with the instructional program, college activities, or which endangers the health or safety of members of the college, including visitors to the campus. Disruptive conduct on the part of students shall be cause for disciplinary action in accordance with policies adopted by the San Bernardino Community College District Board of Trustees and pursuant to appropriate sections of the Education Code, the Business and Professions Code, the Health and Safety Code, and the Penal Code of California.

Types of Disciplinary Action

Disciplinary action may be imposed upon a student who is found responsible for violating the Standards of Conduct

Disciplinary action includes:

- a. **Reprimand:** a verbal or written reprimand regarding the misconduct.
- b. **Probation:** Student conduct probation may include, but is not limited to, ineligibility to participate in extra-curricular activities and certain other student privileges.
- c. **Suspension:** Exclusion from the colleges and college-sponsored activities for a specified time.
- d. **Expulsion:** Exclusion by the District Board of Trustees from the college and all college-sponsored activities.

Student Discipline Procedures

Section I

A. INTRODUCTION

This Administrative Procedure (AP 5520) is intended to effectively administer Board Policy 5500 and Administrative Procedure 5500 title "Standards of Student Conduct," and as such, this Administrative Procedure shall constitute the Standards of Student Discipline for all District Students. This Standards of Student Discipline provides District

Students with prior notice of behavior deemed unacceptable by the District's Board of Trustees. This Standards of Student Conduct includes a defined process for the fair and impartial review and determination of alleged improper Student behavior. This Standards of Student Conduct also specifies the various sanctions that may be imposed on District Students for violations of this Standards of Student Conduct. Students are expected to be familiar with the terms of the San Bernardino Community College District's published Board Policy 5500 and this Administrative Procedure 5500 Standards of Student Conduct.

This Standards of Student Discipline provides for the orderly administration of the Standards of Student Conduct consistent with the principles of due process of law. Reasonable deviations from the Standards of Student Conduct will not invalidate a decision or proceeding.

This process does not supersede standards for specific programs which may have a have different process for program eligibility and retention e.g., Fire Academy, Police Academy, Nursing Program, etc.

The District/campus will strive to follow the timelines outlined in this Administrative Procedure barring unexpected delays or campus closures

B. THE USE OF "WILL" AND "SHALL"

In this Standards of Student Discipline, and throughout the District's Board Policies and Administrative Procedures, the use of the terms "will" and "shall" are used in the mandatory sense.

C. NOTICE - PROCESS FOR NOTIFICATION

San Bernardino Community College District's primary correspondence and notification mechanism with Students shall be through the Student's District assigned e-mail account. At the District's discretion, Students may be notified via U.S. mail, delivery in person, via SMS text message, by an alternate email on record from the Student, or by other authorized communication platforms. San Bernardino Community College District reserves the right to notify parents/legal guardians/emergency contacts when it determines that any Student, regardless of age, is in a situation that is threatening to their own health and safety, or that Student has placed another person in a situation that is threatening to their health and safety.

D. JURISDICTION

Pursuant to Board Policy 5500, the District's jurisdiction concerning alleged Standards of Student Conduct violations extends to the District, its colleges, and for all activities occurring on District property. This jurisdiction includes, but is not limited to, its main and satellite campuses, and to any non-District property used by the District or its colleges where District Students are present. This also applies to online courses/services and District sponsored/College sponsored programs, activities, and travel.

This jurisdiction shall also apply to Student-to-Student or Student-to-employee off-campus conduct and/or actions, and electronic activity (such as e-mail, texting, telephone contact, social media), when the College Conduct Officer, or designee, determines that the off-campus conduct affects, disrupts, or interferes with the educational mission of the college.

This Standards of Student Conduct also applies to off-campus conduct when the effects of the off-campus conduct create a Hostile Environment or impact a substantial District/College interest. A substantial District/College interest may include:

- a. Any action that constitutes a criminal offense as defined by law. This includes, but is not limited to, a single or repeated violations of any local, state, or federal criminal statute or ordinance;
- b. Any situation where it appears that a Student may present a danger or threat to the health or safety of themselves or others;

- c. Any situation that significantly impinges upon the rights, property, or achievements of self or others, or that significantly breaches the peace or causes significant disruption; and
- d. Any situation that is detrimental to the educational interest of the District/College. The Student Code of Conduct may apply to online activity and communication that occur outside of the District's/College's control when those online behaviors can be shown to create a Hostile Environment on campus or cause a substantial disruption

E. ANTI-DISCRIMINATION STATEMENT

The San Bernardino Community College District does not unlawfully discriminate based upon age, race, ethnicity, sexual orientation or preference, gender, national origin, veteran's status, gender identification, or genetic information in administering District educational policies and procedures. The District complies with the American Disabilities Act of 1990 (ADA) and Section 504 of the Rehabilitation Act of 1973 and Title IX. See Board Policy 3410 Nondiscrimination.

F. PARALLEL STUDENT DISCIPLINE PROCEEDINGS

Student Discipline Code proceedings are administrative in nature and are independent from court or other administrative proceedings. Discipline may be instituted against a Student also charged in civil or criminal courts based on the same facts that constitute the alleged violation of the Standards of Student Conduct. The District may elect to proceed before, concurrently with, or after any judicial or other administrative proceedings.

G. PARALLEL TITLE IX INVESTIGATION PROCEEDINGS

The District's Title IX Policy and Procedure, BP/AP 3540 Sexual and Other Assaults on Campus, addressing the investigation of allegations of sexual misconduct incorporate the sanctions and general procedures set forth in this Standards of Student Conduct, but are not restricted by this Procedure. Title IX investigations and processes are independent from court or other administrative proceedings. Student discipline may be instituted against a Student also charged in civil or criminal courts based on the same facts that constitute the alleged violation of Title IX or other law applicable to sexual misconduct. The District may elect to proceed before, concurrently with, or after any judicial or other proceedings.

Section II - Student Rights & Responsibilities

A. DUE PROCESS

Students are entitled to a fundamentally fair process, including reasonable notice of allegations of violations of the Standards of Student Conduct, the opportunity for the Student to be heard and to afford the Student the opportunity to present evidence prior to the administrative determination of the alleged violations. The District reserves the right to make immediate interim suspensions or restrictions when such actions are deemed necessary by the College Conduct Officer or designee pending an investigation and determination of the matter. Any sanction(s) imposed under the Standards of Student Conduct shall be appropriate to the nature of the violation(s). See Section III below.

B. STUDENT RIGHTS

- To be treated with respect by District officials
- To take advantage of campus support resources, such as Counseling, Special Services, Health Services, and other available resources.
- To experience a safe educational environment.
- To not be subjected to retaliation for reporting violations.
- To have complaints heard in substantial accordance with established procedures.

- To fully participate in any process whether the injured individual is serving as the Complainant or the institution is serving as Complainant.
- A complainant may and Respondent shall be informed in writing of the outcome/resolution, any sanctions imposed, and the rationale for the outcome, to the extent permissible under applicable law and Board Policies.

C. SPECIAL REQUESTS/ACCOMMODATIONS - STUDENTS WITH DISABILITIES

Any special requests and/or accommodations by any Party (for example, sign language, the use of assistive technology, service animals, and other accommodations approved by the Office of Disabled Student Programs & Services) must be made at least five (5) calendar days prior to the Administrative Conference. Special requests and accommodations shall also be applicable to Appeal Hearings as set forth in Section 4.2 of this Standards of Student Discipline.

D. ROLE OF LEGAL COUNSEL

An attorney licensed to practice in California may accompany the Student to the hearing. The attorney's role is to provide counsel to the Student without disruption to the hearing process.

The attorney may not make any statements or presentations to the College Conduct Officer, Hearing Panel, or Appeal Committee, examine or cross-examine any witnesses, or present evidence or any written material to the College Conduct Officer or Hearing Panel or Appeal Committee set forth in Section 4.4. The attorney may not, in any way, disrupt or interfere with the hearing process. Any violation of this section shall result in the removal of the attorney. The attorney shall provide the College Conduct Office with a retention letter confirming that they have been retained by the Student at least seven (7) calendar days before the hearing so that the necessary arrangements can be made for a District attorney to be present at the hearing. The attorney's retention letter shall include the attorney's State Bar number and a telephone number. The requirements of this section shall also be applicable to Appeal Hearings as set forth in Section 4.2 of this Standards of Student Discipline.

E. STUDENT RIGHT TO REVIEW RECORDS

Students seeking to review records relating to their investigation or to the outcome should refer to San Bernardino Community College District Board Policy 5040 Student Records Directory Information and Privacy. The District is not obligated to provide copies of student records unless not doing so would prevent the student from their right to inspect the record in question.

F. RECORDING AND PRESENTING WITNESSES

Audio/Video Recordings – No audio, video or other recording of any investigation, interview, or meeting is permitted by the student. The student has the right to audio record hearings at their own expense.

Witness Rules and Limitations – only witnesses presenting relevant testimony or information directly related to the alleged violations are permitted. Witness statements relating to the alleged violations may be accepted by the College Conduct Officer at their sole discretion if such statements are deemed to be material and relevant to the proceeding.

The College Conduct Officer or designee shall be responsible for contacting witnesses for all meetings other than the appeal hearing, subject to the Student notifying the college no less than five (5) calendar days prior to the proceeding. The College Conduct Officer reserves the right to exclude redundant testimony from witnesses, or redundancy in witnesses.

G. CONFIDENTIALITY

Any information provided to District employees may be shared with other District employees, law enforcement, or other parties, consistent with law, and only on a "need to know" basis. District employees shall endeavor to honor any Complainant or victim's request for confidentiality; however, confidentiality cannot always be assured. The District may weigh requests for confidentiality against its duty to provide a safe and nondiscriminatory environment for all members of the District Community.

Investigative or hearing proceedings are considered private and confidential so as to protect the Parties involved. Hearings or meetings shall not be conducted in public, and are not open to the public. The Parties involved are expected to maintain the privacy of the proceedings.

Section III - Student Discipline Process**A. FACULTY INITIATED REMOVAL**

Prior to removal, the faculty member is responsible to identify the behavior and inform the student that failure to correct the issue may result in removal from the class. If the behavior persists, the faculty member may remove, for good cause, any student from their class for up to two (2) class sessions. The student shall not return to the class during the period of the removal without permission of the instructor. Nothing herein will prevent the college president or designee from recommending further discipline in accordance with these procedures based on facts that led to the removal. As used in this rule, "good cause" includes those offenses listed in the Student Code of Conduct. In instances of online courses, students access to course content will be removed for a period of time comparable to two class sessions.

B. COMPLAINT FILED/INCIDENT REPORTED

San Bernardino Community College District, through its College Conduct Officers, will investigate all reports of alleged violations of the Standards of Student Conduct. Anyone who believes a section of the Code of Conduct has been violated should contact any College Conduct Officers identified at each District campus. Reports of allegations are entered into a District-wide system where it is assigned to the appropriate College Conduct Officers.

C. NOTICE TO STUDENT

In all cases, the College Conduct Officer, or designee, will provide notice to the Parties, providing them with the following information, pursuant to Section 1.3:

- A description of the alleged violation(s).
- A description of the applicable policies.
- A statement of the potential sanctions/responsive actions that could result.
- A required date and time, for the Student, to contact the College Conduct Officer within seven (7) calendar days from the date of initial notification to schedule a hearing/meeting, superseding all other campus and work activities. The Student's failure to contact the College Conduct Officer within this seven (7) calendar day period shall constitute the Student's waiver of their ability to provide a response to the alleged violation(s), and the proceeding shall take place as if the Student has not responded.

D. INTERIM ACTIONS: Interim actions are those temporary sanctions deemed necessary by the College Conduct Officer to protect the safety and security of the District Community pending an investigation into the alleged violations of the Standards of Student Conduct.

- a. The College Conduct Officer may take any interim actions deemed necessary to:

- Protect the District Community from potential threats to health and safety;
 - Protect any particular member of the community;
 - Protect against the risk of substantial disruption to the normal operations of the campus.
- b. The College Conduct Officer or designee will inform the Respondent involved of any interim action/restrictions implemented against them pending investigation.
 - c. Interim Action/Restrictions are effective immediately. There shall be no request to delay the imposition of interim actions. These actions may include:
 - i. Interim Suspension – A Student who is suspended on an interim basis is subject to all of the same restrictions as if they had been suspended as a final sanction. The College Conduct Officer, or designee, may impose an interim restriction of up to fourteen (14) calendar days following notice from the College Conduct Officer.
 - ii. Interim Restriction – These restrictions may include, but are not limited to:
 - Any other restrictions deemed by the College Conduct Officer or designee necessary to achieve the goals stated above.
 - No-contact orders with specific individuals;
 - District events;
 - Restricted access to District facilities;
 - iii. The College Conduct Officer, or designee, may impose an interim restriction of up to fourteen (14) calendar days following notice from the College Conduct Officer.
 - d. Interim Suspensions and Request to Stay. Upon notice of an Interim Suspension by the College Conduct Officer, Title IX Coordinator, or designee, the Student has five (5) calendar days (from the date of the notice) to submit reason(s) for a Request to Stay to the Vice President of Student Services or their designee. The Vice President of Student Services or their designee will render a decision on providing a stay, with or without modifications to the Student's request. The Vice President of Student Services or their designee will provide the Student with a decision within three (3) calendar days of the received Request to Stay. The Interim Suspension remains in effect until a decision from the Vice President of Student Services or designee is rendered.

E. INVESTIGATION PROCESS:

The College Conduct Officer will conduct interviews to determine the accuracy of statements or other evidence.

The College Conduct Officer's primary communication to all Parties involved in the investigation shall be through District assigned email addresses, with supplemental forms of communication used as needed as referenced in section 1.3 above.

The College Conduct Officer will investigate each complaint submitted to determine whether it is appropriate to charge a Student with a violation of the Student Conduct Code.

Investigations should generally result in resolution within sixty (60) calendar days after a complaint has been made, barring unexpected delays or campus closures. If circumstances warrant, the College Conduct Officer will provide notice to the Student(s) of any delays or extensions necessary to complete any investigation.

Investigations may comprise of an interview with the reporting Party(s), person(s) alleged to have violated the policy(s), witnesses, and other persons having knowledge.

The College Conduct Officer shall make reasonable efforts to give the Student(s) an opportunity to rebut the accusation or otherwise provide relevant information to the College Conduct Officer or designee regarding the incident(s) which led to the belief by the College Conduct Officer or designee that the Student violated the Standards of Student Conduct in an Administrative Conference.

Should a Student fail to appear for any meeting, that Student may be considered as having waived their right to be present for the meeting and, the investigation may proceed without the Student's input.

F. FINDINGS AND DETERMINATION: Conferences/Hearings for possible violations that occur near or after the academic terms will be held as soon as is practicable, to try to meet the resolution timeline followed by the District. The College Conduct Officer has the discretion to elect any of the following methods for resolution:

- Administrative Resolution – The Respondent admits to the allegations and accepts the recommended sanctions of the College Conduct Officer or designee.
- Formal Finding by the College Conduct Officer – The College Conduct Officer, after completing an investigation, which includes an opportunity for the Respondent's due process, makes a finding and, if appropriate, issues sanctions.
- Formal Finding with Hearing Panel – The College Conduct Officer may elect, at their sole discretion, to refer the findings from their investigation, which includes the Respondent's due process, to a Hearing Panel for recommendation. The Hearing Panel is a panel convened to weigh the evidence presented following an investigation into alleged violations of the Standards of Student Conduct. The Hearing Panel shall be formed pursuant to Section 4.4 herein.

G. TYPES OF FINDINGS AFTER INVESTIGATION:

- a. Not Responsible – In these cases, College Conduct Officer or designee has determined that insufficient evidence exists, by the Preponderance of Evidence standard, for a finding of Responsible for the alleged violation(s). The case is closed, and a record is retained.
- b. Responsible – The College Conduct Officer or designee determines that sufficient evidence exists, by the Preponderance of Evidence standard, for a finding that the Respondent is Responsible for the alleged violation(s). This determination may also be rendered through the Administrative Resolution, where the Respondent has admitted culpability for the alleged violation(s). The College Conduct Officer may close the case.

After the investigation, meetings, and/or hearing, and considering all information relevant to the issue, the College Conduct Officer, or Hearing Chair and their Panel shall then decide whether or not to impose sanctions.

The College Conduct Officer will notify the Student charged with violations of the decision of the College Conduct Officer or Hearing Panel, and of any sanctions imposed. Such Notice shall be in writing from the College Conduct Officer and communicated to the Student pursuant the notice requirements set forth in Section 1.3.

H. IMPOSING SANCTIONS:

If a Student is found Responsible, sanctions will be imposed by the College Conduct Officer, as they deem reasonable and appropriate, pursuant to the available sanctions set forth in Appendix C. The Respondent may elect to

appeal the findings and sanctions subject to the limitations for grounds for appeal set forth herein.

I. STANDARD OF PROOF FOR FINDINGS:

In all cases involving alleged violations of the Standards of Student Conduct, the standard of proof for determining whether a Respondent is Not Responsible or Responsible is the Preponderance of Evidence standard (e.g., more likely than not), as defined in Appendix A herein.

Section IV - Appeal Process and Grounds for Appeal

An appeal is not intended to be a full review of the allegation(s) and reweighing of the evidence. There is a presumption that the College Conduct Officer has weighed all information following the investigation, and has reached the appropriate determination regarding the finding of Responsibility or Non-Responsibility. Students may appeal determinations or appealable sanctions only once based solely upon any of the following grounds for appeal:

- Excessive sanctions in relation to the violation(s) the Respondent was found Responsible for committing.
- A substantive procedural error which materially and significantly affected the weighing of evidence by the College Conduct Officer.
- New evidence has become available which is sufficient to alter the decision, and which the student was not aware of or could not have been reasonably obtained at the time of the initial review.

The Student must request an appeal in writing by e-mail, U.S. Mail, or by personal delivery of correspondence to the College Conduct Officer's office within seven (7) calendar days of notification of the outcome of the finding and sanctions. The Student must specifically identify which of the above-bulleted grounds their appeal is based on. Student failure to specify the basis for appeal with detailed information shall constitute the dismissal of the appeal without further proceedings.

Any request for an appeal that is not received within seven (7) calendar days of notification of the outcome/determination shall be deemed untimely and shall constitute a waiver of the Student's right to an appeal.

In all cases, the College Conduct Officer, or designee, will send a notice, pursuant to Section 1.3, to the Parties with the following information:

- A description of the violation(s), a description of the provisions of the Standards of Student Conduct determined to have been violated, and a statement of the sanctions/responsive actions.
- A required date, time, and location of the hearing superseding in priority all other campus and work activities. If a Party does not appear at the scheduled hearing, the hearing will be held in their absence. For compelling reasons, the College Conduct Officer, or designee, may reschedule the hearing; proof may be asked by the College Conduct Officer. Appeal hearings that occur near or after the academic terms will be held as soon as practicable to meet the resolution timeline generally followed by the District. If deemed appropriate by the College Conduct Officer, or designee, interim actions/restrictions and other stipulations that ensure the safety and/or well-being of the campus community will be administered or maintained.
- The College Conduct Officer, or designee, shall use reasonable efforts to schedule the appeal hearing promptly, generally no sooner than fourteen (14) calendar days after, and not later than thirty (30) calendar days after, the date of the submitted written request for appeal. However, the scheduling of an appeal hearing may be delayed due to events beyond the College Conduct Officer's control. In such circumstances, the College Conduct Officer shall schedule the appeal hearing as promptly as is reasonably possible.

- The notice of hearing may be amended by the College Conduct Officer at any time, and the College Conduct Officer, or designee, may (but is not required to) postpone the appeal hearing for a reasonable period of time.

A. ROLE OF ADVISORS AND LEGAL COUNSEL DURING APPEAL

Student discipline proceedings are not formal court proceedings, but instead, are administrative proceedings conducted by the District. Although District-related sanctions may be imposed, the process is intended to provide an opportunity for learning and to promote a safe educational environment.

If the Student wishes to have an advisor accompany them to the hearing, the Student must provide the College Conduct Office with the name of the individual they have chosen to act as their appeal advisor no less than seven (7) calendar days prior to the appeal hearing. Advisors must maintain confidentiality and will not be permitted to participate or respond on behalf of the Student during the hearing.

If the Student chooses to have their attorney accompany them to the hearing, the name, address and telephone number of the Student's attorney must be submitted to the College Conduct Office no later than seven (7) calendar days prior to the hearing. In addition, no later than seven (7) calendar days prior to the hearing, the Student's attorney must deliver a retention letter, including their State Bar number and telephone number, to the College Conduct Office.

B. THE APPEAL HEARING

Appeal hearings are closed to all persons except:

- College Conduct Officer, or designee;
- The Student Hearing Appeal Chair;
- The Student Hearing Appeal Panel;
- Student;
- Advisor;
- an attorney, retained by the District or a Student;
- a court-certified interpreter paid for at the Student's own expense;
- selected members of the Student Hearing Appeal Panel when their determination of findings is at issue; and
- any person needed to assist the hearing officer.
- In some cases, a campus security/police officer may be present to ensure safety and security during the hearing.
- Witnesses, but not for the duration of the hearing.

C. STANDARD OF PROOF FOR AN APPEAL

In all cases involving appeal, the burden of proof is on the Student to establish, to the standard of Clear and Convincing Evidence (as defined herein), that the College Conduct Officer's determination following investigation was erroneous due to any of the following:

- Excessive sanctions in relation to the violation(s) the Respondent was found Responsible for committing.
- A substantive procedural error which materially and significantly affected the weighing of evidence by the College Conduct Officer.
- New evidence has become available which is sufficient to alter the decision, and which the student was not aware of or could not have been reasonably obtained at the time of the initial review.

D. APPEAL HEARING PROCEDURES

Evidence—The Appeal Hearing need not be conducted according to technical rules relating to evidence and witnesses. Only relevant and

material evidence shall be presented to and considered by the Hearing Appeal Committee. Irrelevant, immaterial, and/or unduly repetitious evidence shall be excluded. No evidence other than that received and weighed at the initial determination of findings shall be considered by the Hearing Appeal Committee. This limitation on admissible evidence shall not exclude the Student from presenting relevant, material evidence excluded by the College Conduct Officer at the initial hearing. The determination of relevancy or the material nature of the Student's offered evidence shall be made by the Hearing Appeal Committee.

- At the beginning of each school year, each college president or designee shall establish a standing panel from which one or more Hearing Appeal Committees may be appointed. The panel shall be made up of:
 - A minimum of five (5) faculty members whose names are obtained from the Academic Senate.
 - A minimum of five (5) students whose names are obtained from the Student Senate.
 - A minimum of five (5) administrators/supervisors appointed by the College President or designee.
- The College President or designee will appoint from the panel listed above a Hearing Appeal Committee consisting of a maximum of:
 - Two faculty members
 - Two students
 - One administrator/manager
 - A committee chair
- The Hearing
 - The Chair will call the hearing to order, explain the procedures of the hearing, and have all Parties introduce themselves. Should an advisor be present, they may not make a presentation or represent the Respondent or the Complainant during the hearing. The Parties to the hearing are expected to ask and respond to questions on their own behalf, without representation of their advisors. The advisor may not speak on behalf of the Student to the College Conduct Officer or to the Hearing Appeal Committee hearing the case.
 - The Chair will present the rules governing the hearing. The Chair shall guarantee control of the hearing, making certain that all participants respect the right of others to make statements, and ensure confidentiality of such statements.
 - The College Conduct Officer, and if applicable their witness(es), shall have up to thirty (30) minutes total, if necessary, to present relevant evidence to support the determination that violation(s) of the Standards of Student Conduct has occurred.
 - The Student charged may question any witnesses presented by the College Conduct Officer. Members of the Hearing Appeal Committee may also question any witness presented by the College Conduct Officer. Questioning by the Student or the Hearing Appeal Committee shall not be considered part of the time allotted for presentation of the College Conduct Officer's evidence. Total witness questioning by the College Conduct Officer and the Student shall not exceed a total of thirty (30) minutes of witness testimony for each side. It is within the discretion of the Hearing Appeal Committee Chair to impose a timeline on questioning or to add additional time if warranted.
 - The Student charged, and if applicable their witness(es), shall have up to thirty (30) minutes in total time, if necessary, to present relevant evidence demonstrating the basis for why College Conduct Officer's decision should be overturned. The College Conduct Officer may question any witnesses presented by the Student.

Members of the Hearing Appeal Committee may also question witnesses. Questioning by the Hearing Appeal Committee shall not be considered part of the time allotted for presentation of the Student's evidence. Witness(es) shall provide testimony only on an individual basis, outside of the presence of other witness(es). It is within the discretion of the Hearing Appeal Committee Chair to impose a timeline on questioning or to add additional time if warranted.

- vi. The College Conduct Officer, and then the Student appealing, may each make a closing statement to the Hearing Appeal Committee. These closing statements shall be limited to a maximum of three (3) minutes each. The Hearing Appeal Committee Chair shall have the authority to extend the time limits if deemed necessary.
- vii. Once all information has been collected, the Chair, or designee, will:
 - Reiterate the alleged policy violation(s);
 - Remind all Parties and participants involved of the Standard of Proof (Clear and Convincing), as further defined in Appendix A.
 - Remind all parties and participants of confidentiality and of all imposed sanctions that are active and must be adhered to;
 - Remind all Parties and participants to review the San Bernardino Community College District's Standards of Student Conduct Board Policy 5500, Administrative Procedures 5500 and 5520, and to understand their Student rights and responsibilities;
 - Inform all Parties and participants of the deliberation process and the projected timeline for notification; and
 - Remind the Student charged and the Complainant, if applicable, that notification and all communication will be via District email accounts.

Following the Hearing Appeal Committee Chair's closing statements, all persons will be dismissed from the hearing except for the Committee Chair and the members of the Hearing Appeal Committee for deliberation.

E. FAILURE TO APPEAR

A Student who fails to appear before the Hearing Appeal Committee after having been notified of an appeal hearing is deemed to have waived their rights to participate in the appeal. The appeal hearing shall be terminated, and the Hearing Appeal Committee shall be dismissed. Initial sanctions will take effect immediately.

F. DELIBERATION AND DECISION

- a. The Hearing Appeal Committee shall make its findings for the appeal hearing based on the Clear and Convincing Evidence standard, as further defined in Appendix A, which demonstrates whether or not the College Conduct Officer:
 - i. Issued disproportionate or excessive sanctions in relation to the violation(s) the Respondent was found Responsible for committing.
 - ii. Demonstrated unlawful discrimination during the determination of Responsibility, and/or,
 - iii. Made a substantive procedural error which materially and significantly affected the weighing of evidence.
- b. Following the presentation of evidence, the Hearing Appeal Committee shall privately consider the evidence and shall prepare a written report of its findings and deliver it to the College Conduct Officer, which shall ordinarily be submitted within seven (7) calendar days of the date of the appeal hearing. This report shall include the following:
 - i. A brief summary of the facts as found by the Hearing Appeal Committee, and a determination of evidence indicating whether the College Conduct Officer's findings should or should not be overturned;
 - ii. A finding indicating the appropriateness of the disciplinary sanction imposed on the Student by the College Conduct Officer. This finding may state:
 - A finding that the Student is Responsible and that the disciplinary action proposed is appropriate; or
 - A finding that the Student is Responsible, but that the disciplinary action imposed by the College Conduct Officer was excessive to the violation, and as such, a recommendation be made for a lessened sanction;
 - A finding that the College Conduct Officer committed a substantive procedural error during the investigation or finding which would unduly taint the legitimacy of the finding of Responsibility, resulting in the finding to be set aside.
 - c. The report of the Hearing Appeal Committee shall be sent by the Hearing Appeal Committee Chair to the Respondent. If the Committee has made a finding evidencing substantive procedural error, the Committee shall provide a copy of the report to the Vice President of Student Services. The College Conduct Office shall copy the Vice President of Student Services on written notification to the Student(s) involved.
 - d. No finding by the Hearing Appeal Committee recommending the setting aside of a finding of Responsibility due to procedural error by the College Conduct Officer shall act as a bar to a subsequent investigation by another College Conduct Officer from within the District of the underlying facts and evidence of the matter appealed and making a finding and determination of Responsibility.

G. RECOMMENDATION FOR EXPULSION

If, after hearing, the Hearing Appeal Committee recommends expulsion to the College President, the College President shall deliver a written recommendation for the Student's expulsion to the Chancellor. A copy of the President's recommendation shall be provided to the Student, or if the Student is a dependent minor to their parent or guardian, by the Office of the President.

The College President's recommendation for expulsion shall contain a statement of the charges against the Student that provides the basis for their request that the Student be expelled, including a factual description of the conduct upon which the charges are based, and the action(s) taken by the Hearing Appeal Committee.

H. REVIEW BY THE CHANCELLOR

- a. The Student may appeal the College President's recommendation for expulsion, but not for other sanctions, by submitting a letter of appeal via personal delivery, delivery by a professional process server, or by certified mail to the Chancellor's office within ten (10) calendar days of their receipt of the College President's recommendation for expulsion. It is the student's responsibility to ensure the letter of appeal is delivered.
- b. The letter of appeal to the Chancellor shall state the reasons why the Student should not be expelled and shall not exceed fifteen (15) pages in length. The Student or any representative of the student does not have the right to meet personally with the Chancellor under this procedure.
 - i. Chancellor's Recommendation to the Board. If the Chancellor has decided to recommend the Student's expulsion, they shall

cause to be placed on a Board agenda for action at the next board meeting, their recommendation that the Student be expelled.

Minor deviations in the timeline for placement of the Chancellor's recommendation on the Board agenda shall be permitted. The Chancellor shall notify the Student or the Student's parent or guardian if the Student is a dependent minor of their decision to seek expulsion. The Chancellor's notice shall be in writing, setting forth the Board meeting date, time, and location where the Board will consider the recommended expulsion.

- ii. Appeal to the Board of Trustees. The Student may submit a Letter of Opposition to Expulsion to the Board of Trustees, through the Chancellors Office, via personal delivery, delivery by a professional process server, or by certified mail setting forth the Student's basis for opposition to the recommended expulsion. The Student's letter must be received no less than seven (7) calendar days prior to the scheduled Board meeting date.
- c. The Student's Letter of Opposition shall not exceed ten (10) pages in length, explaining to the Board why they should not be expelled. The Student may attach to their letter any documents they wish the Board to consider.
- d. The Chancellor shall submit the following documents to the Board prior to the Board acting on their recommendation for expulsion:
 - i. A copy of the correspondence provided to the Student informing the Student of the alleged violations of the Standards of Student Conduct;
 - ii. A copy of the investigative findings of the College Conduct Officer, including any relevant evidence collected and assessed.
 - iii. A copy of the report, if any, of the Hearing Appeal Committee;
 - iv. A copy of the President's recommendation for expulsion;
 - v. A copy of any letters or documents submitted by the Student; and
 - vi. The Chancellor's recommendation regarding expulsion of the Student.
- e. The Board's Decision Regarding Expulsion
The Board's decision shall be final and shall end the Student's appeal process relating to expulsion.
- f. Notification to College Conduct Officer
The Executive Assistant to the Chancellor's Office shall notify the College Conduct Officer in writing of the Board's decision regarding the Student's expulsion and shall provide the College Conduct Officer with a copy of the meeting minutes evidencing the Board's action.
- g. Notification to Student
The Chancellor's Office shall notify the Student in writing of the Board's decision regarding their status as a Student in the District

I. READMISSION AFTER A SUSPENSION

- The following procedures shall apply to a Student's request for readmission.
 - A Student who has been suspended is eligible to apply for readmission if:
 - The term of the Student's long term suspension will expire within thirty (30) calendar days.
 - The Student has complied with all the terms and conditions of their suspension; and
 - During the course of the Student's suspension, the Student has not engaged in any behavior or activity that would be cause for discipline under the Standards of Student Conduct if the individual were a District Student.
- a. Procedure for Re-admission Following Long-Term Suspension
 - The Student seeking readmission must make a written request for readmission to the College Conduct Office.
 - The College Conduct Officer may request a meeting with the Student seeking readmission to ascertain their eligibility for readmission.
 - Ordinarily, within thirty (30) calendar days of the date of their receipt of a written request for readmission, the College Conduct Officer shall decide whether the request should be granted or denied.
 - The College Conduct Officer shall notify the Student of their decision in writing and shall, in case of denial, include the reasons for such denial.
 - A Student, whose application for readmission has been denied, may not apply for readmission until the next registration cycle after denial of their application.

SBCCD Administrative Procedure 5520

Student Complaints

Students are encouraged to resolve differences and disagreements at the appropriate level of the dispute. However, should this initial approach be inappropriate, students may submit a written complaint at valleycollege.edu/reporting. Once received, the complaint will be forwarded to the appropriate college official for review, and the complaint will receive a response as soon as possible.

Student Grievance and Due Process

It is the stated policy of the Board of Trustees of the San Bernardino Community College District that, "the relationship between students and college personnel is of vital importance to the learning process." With this principle comes the recognition that there may be many divergent viewpoints and that a process by which these viewpoints can be aired and resolved must be established.

Cause and Filing

Student grievance proceedings may be initiated against a District employee or another student for any of the following reasons:

- Any act or threat of intimidation;
- Any act or threat of physical aggression;
- Any arbitrary action or imposition of sanctions without a proper regard to due process as specified in college procedures.

Notice:

- a. Grades are not grievable (see **notation** at end of policy);
- b. Sexual Harassment complaints are filed in accordance with Board Regulation 3430 and are not covered under Student Grievances;
- c. Discrimination complaints are filed in accordance with Board Regulation 3430 and are not covered under Student Grievances.

Who to File a Grievance With?

A student may submit a grievance to any manager or employee in any area for delivery to the Vice President of Student Services who will assess which manager or vice president is to oversee the grievance process.

Student grievances should be filed with the appropriate college administrator for resolution. Examples are:

- Classroom or teacher-related issues should be submitted to the Vice President of Instruction, or designee;

- Student service or counseling-related issues should be submitted to the Vice President of Student Services, or designee;
- Building, grounds, cashiering, mailroom, switchboard, food services or police-related issues should be submitted to the Vice President of Administrative Services, or designee.

Time for Filing a Grievance Notice

The appropriate vice president, district manager, or designee will accept a formal written student grievance when submitted within 180 calendar days of the event's occurrence and under the provisions specified. A grievance may be denied if the events occurred more than 180 calendar days prior to the date in which the grievance was filed in writing.

Student Status for Filing a Grievance

Only registered students may file a student grievance. Non-student grievances may be considered by the designated vice president or manager if the grievance is a result of a dispute arising out of the registration or enrollment process and the grievance is filed within thirty calendar days of the alleged incident.

Group Grievance

If more than one student files a grievance against an individual on the same issue or situation, members of the group shall select one person to serve as spokesperson/representative for the entire group.

Informal Student Complaint Resolution Process (Non-Written)

Step 1: Every effort shall be made to resolve a student complaint at the lowest level possible. A student must first attempt to resolve the issue directly. If this is not practical or possible, or due to the nature of the problem, or failing a resolution the grievance progresses to Step 2.

Step 2: A student who is not satisfied with the Step 1 outcome may next attempt to resolve the alleged problem by conferring with the immediate supervisor of the employee with whom the initial conference was held. If the grievance is alleged against another student, Step 2 would be taken to the Disciplinary Officer. Upon such a request, the administrator shall inform and confer with any employee or student named by the student. In turn, the administrator shall schedule a meeting with the grievant and if requested, all involved parties, not more than ten (10) school days from the date of the initial request.

Formal Procedures

If the alleged problem is not resolved at the Informal Level, the student may request a formal hearing in writing with the appropriate vice president or designee. This written notice shall state the conditions, practice, alleged act, or injustice that is being grieved, the date(s) of the alleged occurrence and should, if possible, include a proposed remedy or resolution to the problem.

Step 1: Within three (3) working days of receipt of the written student grievance notice, the appropriate Vice President or designee shall determine if the allegations were filed in a timely manner and meet the criteria outlined. If the student grievance notice fails to meet the above criterion, the Vice President shall notify the student of this determination and the grievance shall be terminated. If the student grievance notice is not terminated, the Vice President shall appoint a Student Grievance Hearing Committee within five (5) working days.

Step 2: Any employee who has conferred with a student who requests a hearing shall prepare a written account of the discussion, which shall be forwarded, to the appropriate Vice President or designee.

Step 3: The student and any college personnel or student involved in the allegations shall be notified of a hearing and the time and place of the hearing in writing. The notice shall include the names of the Hearing Committee and all documentation relating to the allegation(s).

Step 4: The Hearing Committee shall consist of either a maximum of two faculty or two classified staff members, based on the nature of the classification of staff involved, two students, and one administrator to hear the grievance. The administrator where the issue relates shall serve as chairperson of the hearing committee.

Hearing Procedures

- The hearing shall convene within ten (10) working days of the receipt of the student grievance notice unless mutually agreed upon for a delay.
- The hearing shall be closed unless the District employee or student against whom the grievance is brought requests that it be open.
- The following persons should be present:
 - The Hearing Committee
 - The student grievant and non-legal representative/advocate if any
 - The college employee or student against whom the grievance is brought and a representative of the appropriate bargaining unit, if any
 - Witnesses, while presenting testimony.
- Both parties shall notify the appropriate Vice President or designee, in writing within three (3) working days of the hearing if he/she will be accompanied by a representative/advocate. Such notification shall include the name and title of the representative. The Committee Chairperson shall be obligated to immediately notify the parties directly involved.
- Although minutes will be taken at the hearing to provide a written record, if all parties agree the hearing may also be tape-recorded.
- All participants in a hearing shall be advised by the Committee Chairperson that the proceedings are confidential.
- Witnesses shall not be required to testify under oath; however, witnesses shall be advised that false testimony will constitute grounds for college disciplinary action.
- The proceedings will not be bound by formal rules of evidence nor trial-like procedures. Rather, the procedures will be those upon which reasonable persons would rely in the conduct of serious affairs. The Committee Chairperson shall rule on all procedural issues. If substantive or procedural issues arise during the hearing that require external assistance for resolution, the Hearing Committee Chairperson should recess the hearing and submit the issue to the college president for resolution.
 - Evidence and/or testimony, which may be irrelevant or unduly repetitious, may be so noted by the Committee Chairperson.
 - The burden of proof to sustain a grievance rests with the student.
 - If the grievant fails to appear at the time and place scheduled for the hearing, and fails to notify the committee of the circumstances the grievance will be considered to have been withdrawn and procedures will be terminated. Depending on the nature of the circumstances, the committee shall determine if the hearing should be rescheduled within a reasonable time period. It is recommended that the defendant participate in the hearing.

- l. Upon conclusion of the hearing, within five (5) working days, the Committee Chairperson shall submit to the Vice President a written report. The report shall include:
 - A brief summary of evidence submitted;
 - A finding of facts, supported by a preponderance of the evidence;
 - A recommendation that the grievance be sustained or denied; and
 - In the event the recommendation is to sustain the grievance, a recommendation of appropriate corrective action.
- m. Upon review of the Hearing Committee's report, the Vice President or designee shall make a final determination.

Notification

Within five (5) working days following receipt of the report of the Hearing Committee chairperson, the Vice President or designee shall provide a written notification to the student/s and to the employee/s directly involved in the issues as to the final determination.

Appeal to President

If either the complainant or accused is not satisfied with the final college-level disposition of the grievance, the party may, within ten (10) working days, appeal the decision to the College President. The basis of appeals are:

- All parties shall be notified by the President of the appeal.
- The President shall provide written notification to the student and to other parties directly involved in the issues as to his/her recommendation within five (5) working days.

Appeal to the Chancellor

If either party is not satisfied with the final college-level disposition of the grievance, he/she may, within ten (10) working days, appeal (state the basis of the appeal again) the decision to the Board of Trustees through the District Chancellor. All parties shall be notified by the Chancellor of the appeal. The Chancellor shall report the grievance in closed session to the Board of Trustees for final determination. The Chancellor shall provide written notification to the student and to other parties directly involved in the issues as to his/her recommendation within five (5) working days. The determination of the Board of Trustees is final.

General Provisions

- a. The time limits specified in this procedure may be shortened or extended if there is mutual written concurrence between the parties.
- b. At any step of the grievance procedure, the college President may designate a substitute for the designated college officials.
- c. Failure of the student grievant to appeal a grievance determination at any step to another step within the specified time limits shall be deemed as acceptance of the last determination rendered.
- d. It is the intent of this policy that the confidentiality of the discussions, including any documents or written records, be maintained by the participants.
- e. It will not be mandatory for any staff member to attend the student grievance meetings nor will the student grievance procedure supersede staff member's contractual rights.

Grade Appeal Process

Any student complaint about a grade should first be made to the instructor involved. All attempts should be made to resolve the grade dispute at the lowest level. (Please see Student Complaints section for additional information).

By law, the instructor is solely responsible for the grades assigned in courses; no instructor may be directed to change a grade except in cases of mistake, fraud, bad faith, or incompetence as authorized by the California Education Code, Section 76224 (a).

To appeal a grade, the student must provide evidence that the instructor issued a grade in:

- a. Mistake – unintentional error on part of the instructor
- b. Fraud – intentional misrepresentation of any or all facts, which lead to a negative outcome
- c. Bad faith – any other intentional act of the instructor, which negatively impacts the grade of the student
- d. Incompetency – there is evidence that the instructor does not have the knowledge, skills, and/or abilities to conduct and fairly grade the course. Incompetence is usually pervasive, and not restricted to one student or one incident.

Grade appeals with supporting documentation must be submitted with the Student Grade Appeal form to the Director of Admissions and Records. The student must provide evidence that one of the four conditions listed above (mistake, fraud, bad faith, or incompetency) resulted in the assignment of the grade in question. The burden of proof in this process lies with the student. The Director of Admissions and Records, in consultation with the Vice President of Instruction, will make a thorough review of the grade appeals documentation provided by the student within 30 working days. If warranted, the student's appeal will be forwarded to a hearing committee for review.

Student Success and Support Program (SSSP)

Student Success and Support Program is a process designed to assist students in accomplishing their educational goals. The process brings the college and the student into an agreement for the purpose of realizing the student's educational goal. The primary purpose of SSSP is student success.

The college agrees to provide:

- Admissions application process.
- Orientation to the college's programs and services,
- Assessment of the student's study skills, English language proficiency, computational skills, goals, career aspirations, academic performance, and need for special services,
- Counseling and advisement to develop a Student Education Plan (SEP) and follow-up evaluation of each student's progress in achieving an educational goal.

The student agrees to:

- Express at least a broad educational intent upon admission,
- Declare an educational goal by the time the student has completed 15 units,
- Attend class,
- Work diligently to complete course assignments,
- Demonstrate an effort to attain an educational goal,
- Meet with a counselor to develop a Student Education Plan (SEP) that will meet his/her unique needs.

SSSP goals are partially fulfilled through the SDEV 001 class. Students who intend to graduate from San Bernardino Valley College are encouraged to complete SDEV 001 during the first two semesters in which they are enrolled in nine (9) or more units.

Students may be exempt from this requirement upon completion of 30 plus units of college credit or AA/AS, and/or AA-T /AS-T degree. Additionally, career track students with vocational disciplines may apply for an exemption through the Department Chair or Division Dean of the area of study.

GENERAL EDUCATION AND GRADUATION REQUIREMENTS

- Associate Degree Graduation Requirements (p. 53)
- Vocational Certificate Programs (p. 60)
- Transfer Information (p. 60)

Philosophy of General Education (GE)

General Education provides students the means to comprehend the modern world. Toward that end, General Education provides students learning experiences meant to develop such abilities as being able to think critically, communicate clearly, use science and technology, and possess the basic principles, concepts, and methodologies both unique to, and shared by, various disciplines. General Education prepares students from diverse communities to live in and contribute to a complex, changing, multicultural, and diverse world. Most importantly, General Education creates a strong foundation in both breadth and depth upon which students can continue to develop an understanding of their specific interests, environments, and disciplines through productive lifelong learning.

Successful completion of approved programs at San Bernardino Valley College may lead to:

- Completion of lower division (freshman and sophomore) requirements for transfer to upper division (junior) standing at a four-year college or university;
- An *Associate of Arts* or *Associate of Science* degree;
- A *Certificate of Completion* in a specific occupational field.

Even though these objectives are listed separately, it is possible to achieve all three concurrently during the first two years of college. For example, it is possible to use the coursework completed for a certificate program as a major for an associate degree. Similarly, students completing lower division requirements for transfer to a four-year college or university will find it possible to meet the requirements for an associate degree from San Bernardino Valley College.

Students are encouraged to work with a counselor to develop an **educational plan** to meet educational goals in a time-effective manner. See Student Success and Support Program (SSSP) (<https://catalog.valleycollege.edu/student-support-programs-services/student-success-support-program-sssp/>) for details.

Graduation Catalog Rights

A student may elect to meet graduation requirements in any one of the following ways:

- Catalog Rights at the time the student begins at SBVC without interruption, or
- The student who drops out for two or more consecutive semesters is subject to the requirements in the catalog at the time of reentry, or
- The catalog in effect at the time the graduation petition is submitted.

Note: Summer session course requirements are included in the catalog of the previous academic year.

Graduation Requirement Exceptions

When a student has a deficiency in one or more of the areas required for graduation, he/she has the option of filing a *Petition for Academic Exception*, which is available in the Admissions and Records Office (AD/SS 100). The

Scholastic Standards Committee will consider each petition based on its overall individual merit.

Associate Degree Graduation Requirements

Graduates from San Bernardino Valley College (SBVC) receive an Associate of Arts degree or an Associate of Science degree. To earn an Associate degree, students must complete general education breadth requirements as specified in Option #1 or Option #2 below, as well as additional units of electives and/or lower division requirements for a major.

Students must file a Graduation Application in the Records Office by the deadlines listed below:

Graduation	Application Deadline
Fall Graduation	October 1
Spring Graduation	March 1
Summer Graduation	July 1

When printed deadlines fall on either Saturday or Sunday, the filing period will be extended to the Monday following the deadline date.

Associate Degree: Option #1

The Option 1 associate degrees are general degrees designed for students who plan to attend a four-year college or university.

Associate Degree: Option 1A

The general education breadth requirements are the same as the requirements for the *Intersegmental General Education Transfer Curriculum* (IGETC). Refer to section of the catalog for the IGETC requirements (p. 67). In the process of completing this coursework, the student must fulfill these general requirements:

- Complete a minimum of 60 transferable semester units of college coursework, with at least 12-degree applicable semester units in residence at SBVC.
- Earn a letter grade of C or higher in each course.

Associate Degree: Option 1B

The general education breadth requirements for this degree are the same as the requirements for the *California State University General Education Breadth Requirements* (CSU GE-Breadth). Refer to section of the catalog for the CSU GE-Breadth requirements (p. 62). In the process of completing this coursework, the student must fulfill these general requirements:

- Complete a minimum of 60 transferable semester units of college coursework, with at least 12-degree applicable semester units in residence at SBVC.
- Earn at least a 2.0 grade point average for the CSU GE coursework. Earn a grade of C- or better for each course in the Oral Communication, Written Communication, Critical Thinking and Mathematics/ Quantitative Reasoning categories.

Associate Degree: Option #2

To earn an Associate Degree and graduate from SBVC students must complete general education breadth requirements specified below. Note: additional requirements such as lower division major courses, 60 degree-

applicable units, and a minimum overall grade point average must also be completed (refer to detailed information listed below).

- a. SDEV 001 is required of all students taking nine (9) or more units per semester. This course must be completed within a student's first two semesters of coursework.
 - i. Exempt from this requirement upon completion of 30+ units of college credit or AA/AS degree or BA/BS degree.
 - ii. Career-track students with vocational disciplines, which have articulated programs with four-year colleges or universities, apply for an exemption through the Department Chair or Division Dean of the area of study.
- b. Complete a minimum of 60 semester units of college coursework, with at least 12-degree applicable semester units in residence at SBVC.
- c. Earn a minimum cumulative grade point average of 2.0 in the degree-applicable courses.
- d. Complete coursework for an AA or an AS major as listed in Part IV of the San Bernardino Valley College Catalog. Note: Satisfactory completion of each course counted toward the major or area of emphasis requirement with a grade of "C" or better, or of "P" if the course is taken on a "pass-no pass" basis.
- e. Complete 27 to 33 of the 60 semester units needed for graduation from the six subject categories as listed below:

Area 1: English Composition, Oral Communication, and Critical Thinking

(Minimum: 7 - 8 semester units)

Complete one course from both 1A and 1B categories.

Code	Title	Units
1A: English Composition		
ENGL 101	College Composition	4
ENGL 101H	College Composition - Honors	4
1B: Oral Communication or Critical Thinking		
ENGL 102	Intermediate Composition and Critical Thinking	4
ENGL 102H	Intermediate Composition and Critical Thinking - Honors	4
COMMST 100	Elements of Public Speaking	3
COMMST 100H	Elements of Public Speaking - Honors	3
COMMST 111	Interpersonal Communication	3
COMMST 111H	Interpersonal Communication - Honors	3
COMMST 125	Critical Thinking Through Argumentation and Debate	3
COMMST 140	Small Group Communication	3
PHIL 102	Critical Thinking and Writing	3
PHIL 103	Introduction to Logic: Argument and Evidence	3
READ 100	College Academic Reading	3
READ 102	Critical Reading as Critical Thinking	3
READ 104	Critical Reading, Thinking and Literacy	3

Area 2: Mathematical Concepts and Quantitative Reasoning

(Minimum: 4 - 5 semester units)

Complete a Mathematical Concept or Quantitative Reasoning course from 2A.

Code	Title	Units
2A: Mathematical Concepts or Quantitative Reasoning		
ECON 208	Business and Economic Statistics	4
MATH 102	College Algebra	4
MATH 103	Plane Trigonometry	4
MATH 106	Mathematical Concepts for Elementary School Teachers	3
MATH 108	Introduction to Probability and Statistics	4
MATH 108H	Introduction to Probability and Statistics - Honors	4
MATH 115	Ideas of Mathematics	3
MATH 120	Mathematical Financial Planning	4
MATH 141	Business Calculus	4
MATH 151	Precalculus	4
MATH 180	Introduction to Data Science	4
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5
MATH 265	Linear Algebra	4
MATH 266	Ordinary Differential Equations	4
PSYCH 105	Statistics for the Behavioral Sciences ¹	4

¹ Completed Fall 2009 or later.

Area 3: Arts & Humanities and Social & Behavioral Science

(Minimum: 7 - 9 semester units)

Complete one course from both 3A and 3B categories.

Code	Title	Units
3A: Arts & Humanities		
ANTHRO 108 or ETHS 108	Introduction to Native American Studies	3
ANTHRO 109	Visual Culture and Art	3
ANTHRO 111	The Anthropology of Magic, Witchcraft, and Religion	3
ANTHRO 111H	The Anthropology of Magic, Witchcraft, and Religion - Honors	3
ARAB 101	College Arabic I	5
ARAB 102	College Arabic II	5

Graduation Information:

- A single course cannot be used in more than one general education area, even if the course is approved in multiple general education areas. Consult with a counselor for more information.

- b. Students may receive credit for knowledge or skills acquired through a district's procedures for awarding credit for prior learning.
- c. Students who have been awarded a bachelor's degree from an institutionally accredited institution shall be deemed to have fulfilled the general education course requirements for the associate degree.
- d. Students file a graduation and/or certificate application at the A&R Office, AD/SS 100. An education plan or graduation check must be attached to the graduation/certificate application. Check the school calendar in the Schedule of Classes or the college catalog for deadline filing dates.
- e. Official transcripts from other colleges must be on file at the Records Office. Transcripts are evaluated for equivalency to SBVC courses for general education, and students request an official evaluation from the Records Office.
- f. In order for course work completed at other colleges to be applied toward a major, a Modification of Major form must be approved.

Catalog Rights: A student who is not in attendance for two or more consecutive semesters is subject to the requirements in the catalog at the time of reentry or at the time the graduation petition is submitted. Refer to Graduation Catalog Rights policy in SBVC catalog.

Vocational Certificate Programs

San Bernardino Valley College offers certificates of occupational proficiency in many fields. Certificates enable the student to gain marketable skills relatively quickly and at less expense than would be required for an associate degree. Students working toward a certificate are not typically required to take advanced academic courses in such fields as philosophy, foreign languages or history. Nonetheless, they must have a sufficient background in mathematics, reading and writing in order to complete their coursework and to succeed in the occupations they select. Students must also complete all requirements for a certificate with a grade of C or higher.

Refer to Degree and Certificate Program Index (p. 77) page for a complete list of certificates. The length of the certificate program may vary. Students interested in enrolling in certificate programs should speak with a counselor and talk with representatives of the departments that offer the desired program. In some instances, courses completed in high school may be used to satisfy some of the requirements for a certificate. In addition, training programs such as military courses, apprenticeships or other training may be credited toward a certificate program. San Bernardino Valley College offers four types of certificates:

- Certificates of Achievement (state-approved)** - Certificate programs consisting of 12 or more units of degree-applicable coursework. These certificates appear by name on student's transcripts.
- Certificates of Career Preparation (locally-approved)** - Certificate programs consisting of fewer than 18 units of degree-applicable coursework. These certificates do not appear on student's transcripts.
- Certificates of Competency (noncredit, state-approved)** - Certificates with a sequence of noncredit courses in a recognized career field articulated with degree-applicable coursework, completion of an associate degree, or transfer to a baccalaureate institution.
- Certificates of Completion (noncredit, state-approved)** - Certificates with a sequence of noncredit courses that culminate in a Certificate of Completion or a certificate leading to improved employability or job opportunities.

For Locally approved certificate programs consisting of fewer than 16 units of degree-applicable coursework. At the beginning of the student's final semester, they should obtain a Graduation and/or Certificate Application either from the Counseling Office, Records Office or the division office of the certificate program being completed. The student will then submit the application to the Records Office for a final check by the deadline date for the semester in question. Those dates are as follows:

Fall - October 1
Spring - March 1
Summer - July 1

When printed deadlines fall either Saturday or Sunday, the filing period will be extended to the Monday following the deadline date. Twelve units, or 50 percent of the coursework required for a certificate, whichever is the lesser, must be completed at San Bernardino Valley College. This residency requirement may be waived in the case of extenuating circumstances with the permission of the program coordinator or Faculty Chair.

The certificate will be prepared by the Admissions and Records Office and will be available to the student by the start of each new semester following the semester of submission.

Transfer Information

Associate Degrees for Transfer (p. 61)

Intersegmental General Education Transfer Curriculum (IGETC) (p. 67)

California State University General Education - Breadth (p. 62)

The California State University (CSU)

The California State University system consists of 23 campuses, ranging in location from San Diego to Arcata. The admission cycle for the fall term of each year begins on October 1 of the preceding year. Eligible students may also be accepted during the winter and/or spring terms. Check with the Transfer Center to determine the acceptance dates for each CSU campus. A maximum of 70 transfer-level semester units (or 105 quarter units) earned in a community college will be accepted for transfer. Although courses may be indicated in the catalog as transferable to UC and/or CSU, they may or may not meet general education or major preparation.

Students who plan to transfer to UC or CSU should consult with a counselor and the following websites:

www.valleycollege.edu/student-services/counseling/counseling-services/
[\(http://www.valleycollege.edu/student-services/counseling/counseling-services/\)](http://www.valleycollege.edu/student-services/counseling/counseling-services/)

www.calstate.edu/apply (<http://www.calstate.edu/apply/>)

uctransfer.universityofcalifornia.edu (<http://uctransfer.universityofcalifornia.edu/>)

www.assist.org (<http://www.assist.org/>)

Students transferring to the California State University should check both the general education and major requirements as early as possible by referring to the current catalogs for the colleges of their choice. A Dual Admissions Program is available to smooth the transition between San Bernardino Valley College and California State University, San Bernardino. Consult with the Transfer Center for details on this agreement.

The University of California (UC)

The University of California has nine major campuses: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara, and Santa Cruz. A tenth campus in San Francisco offers graduate and professional programs in the Health Sciences. With the exception of Berkeley and Merced, these campuses are on a quarter-unit basis. When converting semester units to quarter units, the number of semester units should be divided by two-thirds. When converting from quarter units to semester units, the number of quarter units should be multiplied by two-thirds. Students who plan to transfer to the University of California may complete all of the required lower division courses at San Bernardino Valley College. Although courses may be indicated in the catalog as transferable to UC and/or CSU, they may or may not meet general education or major preparation. Students who plan to transfer to UC or CSU should consult with a counselor and the following websites:

www.calstate.edu/apply (<http://www.calstate.edu/apply/>)

uctransfer.universityofcalifornia.edu (<http://uctransfer.universityofcalifornia.edu/>)

www.assist.org (<http://www.assist.org/>)

While the UC campuses have similar general breadth lower division requirements and will accept a maximum of 70 transferable semester units (or 105 quarter units) of transfer work, there are some subject differences among the campuses. Consult the catalog of the desired UC campus to identify these differences.

It is also possible to transfer to a University of California campus upon completion of the Intersegmental General Education Transfer Curriculum (IGETC), as discussed in the following section of this catalog.

The admission cycle for the fall term of the University of California begins each year on November 1 of the preceding year. Each campus will accept for consideration all applications filed during the month of November. Since enrollment ceilings have been established at each campus, students may be accepted only at their second or third choice campus.

Students should enroll in the transfer courses that meet the following requirements:

- Complete 60 semester units or 90 quarter units of transferable college credit with a grade point average of 2.4 (no more than 14 semester/21 quarter units may be taken Pass/Not Pass), and;
- Completed the following course pattern requirement, earning a grade of C or better in each course:
 - Two transferable college courses (3 semester or 4-5 quarter units each) in English composition, and;
 - One transferable college course (3 semester or 4-5 quarter units) in mathematical concepts and quantitative reasoning, and;
 - Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral science and physical and biological sciences.

Students who satisfy the Intersegmental General Education Transfer Curriculum (IGETC) prior to transferring to UC may satisfy transfer admission requirements.

Two programs are available to smooth the transition from San Bernardino Valley College to a University of California campus:

- a. **Transfer Admission Guarantee Program (TAG):**
An agreement between the University of California and San Bernardino Valley College. Consult with the Transfer Center for details of this admissions agreement. They can be found at AD/SS 203 or call (909) 384-4410;
- b. **Transfer Alliance Program (TAP):**
An agreement between the University of California, Los Angeles, and the Honors Program at San Bernardino Valley College. Consult with the Honors Program Coordinator or the Honors Program Counselor for details of this admissions agreement. Call (909) 384-8612 for additional information.

Catalogs for each of the UC campuses may be available in the Transfer Center. Also, in the Transfer Center, (AD/SS 203 or call (909) 384-4410) there is further information available that provide a summary of the unique requirements of each University of California campus: *Introducing the University and Answers for Transfers*.

Requirements for Transfer to Independent California Colleges and Universities

California's fully accredited independent colleges and universities provide a host of options at undergraduate, graduate and professional levels for

students planning to continue their education beyond community college. Students who transfer to independent colleges often find that they are given academic credit for most, if not all, of their community college studies. Virtually all institutions give full credit for general education courses and usually for other courses designated for transfer by the community college. Additional information is available in the Transfer Center.

Associate Degrees for Transfer

The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer", a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

In order to earn one of these degrees, students must complete 60 semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated "high-unit" major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

To earn an AA-T or AS-T degree, students must complete the following requirements:

- a. Completion of 60 semester units that are eligible for transfer to a California State University, including certified completion of one of the following:
 - i. California State University General Education-Breadth pattern (CSU GE)
 - ii. Intersegmental General Education Transfer Curriculum (IGETC).
- b. Completion of a minimum of 18 semester units in an "AA-T" or "AS-T" major
- c. Obtainment of a minimum grade point average of 2.0. While a minimum of 2.0 is required for admission, some majors may require a higher GPA.
 - A "P" (Pass) grade is not an acceptable grade for courses in the major.
- d. Students preparing for a major in science, technology, engineering, or mathematics (STEM) are eligible to complete CSU GE Breadth for STEM or IGETC (Intersegmental General Education Transfer Curriculum) for STEM
 - Students completing CSU GE Breadth for STEM majors (AS-T Biology, AS-T Chemistry, AS-T Environmental Science) are only required to complete 33 semester units for lower-division GE certification for transfer. This pattern allows students to defer completion of one course from CSU GE Area C and one course from CSU GE Area D until after transfer.

Requirements of the CSU GE Breadth for STEM are:
Area A: All courses in English Language Communication and Critical Thinking.

Area B: All courses in Scientific Inquiry and Quantitative Reasoning.

Area C: One course in Area C1 Arts and One course in Area C2 Humanities.

Area D: One course in any discipline in the Social Sciences.

Area E: All courses in Lifelong Learning and Self-Development

Area F: All courses in Ethnic Studies

- e. Students completing IGETC for STEM majors (AS-T Biology, AS-T Chemistry, AS-T Environmental Science) are allowed to defer completion of one course from IGETC Area 3, one course from IGETC Area 4, and one course in Area 6 (Language Other Than English/LOTE -- for students who have not previously satisfied LOTE through proficiency) until after transfer.

Requirements of the IGETC for STEM are:

- All courses in Areas 1, 2, 5, and 7 of the traditional IGETC; and
- One course in Area 3A; one course in Area 3B; and one course in Area 4.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU GE or IGETC before transferring to a CSU.

Benefits of the AA-T and AS-T Degrees

Besides the benefit of completing community college coursework with an associate degree in hand, this program also provides students with the necessary preparation to transfer to the CSU system and complete a baccalaureate degree with no more than 60 additional units. Students with an AA-T or AS-T degree will be guaranteed admission to a CSU campus with junior standing. While not guaranteed admission to their campus of choice, students will be given priority consideration for admission to their local CSU campus and to any CSU campus that offers a program that has been designated as "similar" by CSU.

Associate Degrees for Transfer by Discipline

Administration of Justice AS-T
 Anthropology AA-T
 Biology AS-T
 Business Administration 2.0 AS-T
 Chemistry AS-T
 Child and Adolescent Development AS-T
 Communication Studies 2.0 AA-T
 Computer Science AS-T
 Early Childhood Education AS-T
 Economics AA-T
 English AA-T

 Physics AS-T
 Political Science AA-T
 Psychology AA-T
 Public Health Science AS-T

Social Justice: Ethnic Studies AA-T
 Social Work and Human Services AA-T
 Sociology AA-T
 Spanish AA-T
 Studio Arts AA-T
 Theatre Arts AA-T

California State University General Education - Breadth

San Bernardino Valley College may certify that a student has satisfied the minimum general education requirements of 39 lower division transfer units in accordance with CSU Executive Order 1100. Students completing the IGETC or CSUGE transfer breadth requirements will receive a notation on their San Bernardino Valley College transcript (See Admissions & Records website for application).

CSU GE-Breadth Certificate of Achievement

The CSU GE-Breadth certificate of achievement is intended for students who are planning to transfer their lower-division transferable general education and major preparation courses from SBVC to a campus in the California State University (CSU) system. It may also be accepted by some private/independent or out of state universities. Successful completion of the CSU GE-Breadth certificate requires an overall grade point average (GPA) of at least a 2.0. Students are strongly advised to meet with a counselor early to discuss their transfer plans, as completion of the CSU GE-Breadth does not guarantee admission to a specific campus within the CSU system, nor does it guarantee admission to a specific major. Students are required to have a minimum total of 60 transferable units that include a combination of general education and major preparation courses.

Area A: English Language Communication and Critical Thinking

9 semester units / 12-quarter units, one (1) course from each group. A minimum grade of "C-" is required in each course.

Code	Title	Units
A1 Oral Communication		
Select one of the following:		3
COMMST 100	Elements of Public Speaking	3
	or COMMST 100H Elements of Public Speaking - Honors	
COMMST 111	Interpersonal Communication	3
	or COMMST 111 Interpersonal Communication - Honors	
COMMST 140	Small Group Communication	3
A2 Written Communication		
ENGL 101	College Composition	4
	or ENGL 101H College Composition - Honors	
A3 Critical Thinking		
Select one of the following:		3
COMMST 125	Critical Thinking Through Argumentation and Debate	3
ENGL 102	Intermediate Composition and Critical Thinking	4
	or ENGL 102H Intermediate Composition and Critical Thinking - Honors	
PHIL 102	Critical Thinking and Writing	3
PHIL 103	Introduction to Logic: Argument and Evidence	3

READ 102	Critical Reading as Critical Thinking	3
READ 104	Critical Reading, Thinking and Literacy	3

Area B: Scientific Inquiry and Quantitative Reasoning

Minimum of 9 semester units / 12-quarter units. One course from B1 (Physical Science), one course from B2 (Life Science), one course from B4 (Mathematics / Quantitative Reasoning). One of the three courses taken must be a laboratory course.

Code	Title	Units
B1 Physical Science		
Select one of the following:		3-6
ASTRON 120	Introduction to Astronomy	3
ASTRON 125	Astronomy Laboratory ¹	1
CHEM 101	Introductory Chemistry ¹	4
CHEM 104	Introduction to Organic Chemistry and Biochemistry ¹	4
CHEM 105	Introduction to General, Organic and Biochemistry ¹	5
CHEM 150	General Chemistry I ¹	5
CHEM 151	General Chemistry II ¹	5
CHEM 212	Organic Chemistry I ¹	5
CHEM 213	Organic Chemistry II ¹	5
ENVSCI 100	Introduction to Environmental Science	3
GEOG 110	Physical Geography	3
GEOG 111	Physical Geography Laboratory ¹	1
or GEOG 111H	Physical Geography Laboratory - Honors	
GEOG 114	Weather and Climate ¹	4
GEOL 101	Introduction to Physical Geology	3
GEOL 111	Introduction to Physical Geology Laboratory ¹	1
GEOL 112	Historical Geology ¹	4
GEOL 122	Environmental Geology	3
GEOL 140	Earth Science	3
GEOL 141	Earth Science Laboratory ¹	1
GEOL 250	Geology of California	3
GEOL 251	Geology of the National Parks and Monuments	3
OCEAN 101	Elements of Oceanography	3
OCEAN 111	Elements of Oceanography Laboratory ¹	1
PHYSIC 101	Introductory Physics ¹	4
PHYSIC 151	General Physics for the Life Sciences I	4
PHYSIC 152	General Physics for the Life Sciences II	4
PHYSIC 202	Physics I	4
PHYSIC 203	Physics II	4
PHYSIC 204	Physics III	4
B2 Life Science		
Select one of the following:		3-5
ANTHRO 106	Biological Anthropology	3
or ANTHRO 106H	Biological Anthropology - Honors	
ANTHRO 106L	Biological Anthropology Laboratory ¹	1
BIOL 100	General Biology ¹	4
BIOL 104	Human Ecology	3
BIOL 141	Genetics	3
BIOL 155	Introductory Anatomy and Physiology ¹	4
BIOL 205	Cell and Molecular Biology ¹	4

BIOL 206	Organismal Biology ¹	4
BIOL 207	Evolutionary Ecology ¹	4
BIOL 250	Human Anatomy and Physiology I ¹	4
BIOL 251	Human Anatomy and Physiology II ¹	4
BIOL 260	Human Anatomy ¹	4
BIOL 261	Human Physiology ¹	4
BIOL 270	Microbiology ¹	5
PSYCH 141	Introduction to Biological Psychology	3

B3 Laboratory Activity

The requirement is satisfied by completion of any course in B1 or B2 with a laboratory.

B4 Mathematics/Quantitative Reasoning

A minimum grade of "C-" is required.

Select one of the following:		3-5
ECON 208	Business and Economic Statistics	4
MATH 102	College Algebra	4
MATH 103	Plane Trigonometry	4
MATH 106	Mathematical Concepts for Elementary School Teachers	3
MATH 108	Introduction to Probability and Statistics	4
MATH 108H	Introduction to Probability and Statistics - Honors	4
MATH 115	Ideas of Mathematics	3
MATH 120	Mathematical Financial Planning	4
MATH 141	Business Calculus	4
MATH 151	Precalculus	4
MATH 180	Introduction to Data Science	4
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5
MATH 265	Linear Algebra	4
MATH 266	Ordinary Differential Equations	4
PSYCH 105	Statistics for the Behavioral Sciences (completed Fall 2009 and later)	4

¹ Laboratory course.

Area C: Arts and Humanities

Minimum of 9 semester / 12 quarter units, with at least one course in the Arts and one from Humanities.

Code	Title	Units
C1 Arts (Art, Cinema, Dance, Music, Theater)		
Select at least one of the following:		
ANTHRO 109	Visual Culture and Art	3
ARCH 145	History of Architecture: Early Design Through Gothic	3
or ARCH 145H	History of Architecture: Early Design Through Gothic - Honors	
ARCH 146	History of Architecture: Renaissance Through Modern	3
or ARCH 146H	Architecture History: Renaissance to Modern - Honors

or ENGL 163	Chicana/o Literature	
ETHS 165	African-American Literature	3
or ENGL 165	African-American Literature	

U.S. History and American Ideals Requirement

Not part of CSU GE Certification, but can be completed prior to transfer. Courses may also be applied toward areas C and D. Any combination of one selection from **each** of the following lists of history and politics courses will normally fulfill this requirement.

Code	Title	Units
Group 1		
HIST 100	United States History to 1877	3
or HIST 100H	United States History to 1877 - Honors	
HIST 101	United States History: 1865 to Present	3
or HIST 101H	United States History: 1865 to Present - Honors	
HIST 137	Experiences of Racial and Ethnic Groups in U.S. History	3
Group 2		
POLIT 100	American Politics	3
POLIT 100H	American Politics - Honors	3
POLIT 173	California Government	3

Note:

- Students with AP Examinations will receive appropriate CSU GE-Breadth credit according to the CSU Office of the Chancellor guidelines.

- b. Students are encouraged to complete Areas A and B4 early. CSU will not admit students until the grades are recorded for courses in Areas A and B4.
- c. Upon transfer, students will be required to complete at least nine units of upper-division general education courses at the CSU.
- d. For CSU GE-Breadth certification purposes, students may use the catalog of entry or any catalog thereafter as long as continuous enrollment is maintained until transfer to CSU. CSU defines continuous enrollment as one semester or two quarters in each calendar year.
- e. Students may request official certification of CSU GE-Breadth requirements at the SBVC Records Office.
- f. Although SBVC will certify Areas A through F individually, the CSU encourages students to complete all areas prior to transfer. Upper division transfer students are required to complete a minimum of 30 units of CSU GE-Breadth courses with a minimum grade of C in each course.
- g. Course work from other California Community Colleges will be evaluated according to the CSU GE-Breadth pattern of those respective colleges. For out-of-state coursework, the SBVC Records Office will determine equivalency to SBVC courses. Courses from foreign institutions may not be certified. Official transcripts must be on file in the Records Office.
- h. A single course may not be certified as meeting more than one category.
 - i. Some majors at the CSU have required general education courses and/or do not allow double counting of courses toward major requirements. Students are encouraged to consult with a counselor and the catalog of the CSU to which they want to transfer.
 - j. The courses on this list are approved by the CSU Chancellor's office for Fall 2024 and beyond. **SBVC courses not on this list may not be used for CSU GE-Breadth requirements, except for courses that were on the CSU GE-Breadth list for the year in which they were completed.**

Intersegmental General Education Transfer Curriculum (IGETC)

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the University of California (UC) or the California State University (CSU) without the need to complete additional lower-division general education courses. The IGETC is not an admission requirement for transfer to UC or CSU, nor is it the only way to fulfill prior to transfer, the lower-division, general education requirements of UC or CSU. Students pursuing majors that require extensive lower-division preparation may not find the IGETC option to be advantageous. Students with Advanced Placement (AP) Examinations, will receive credit for the appropriate IGETC area as documented in the "IGETC Standards, Policies, and Procedures (<http://icas-ca.org/igetc/>)". A minimum grade of "C" is required in each course.

IGETC Certificate of Achievement

The Intersegmental General Education Transfer Curriculum (IGETC) certificate of achievement is intended for students who are planning to transfer their lower-division transferable general education and major preparation courses from SBVC to a campus in the California State University (CSU) or University of California (UC) system. It may also be accepted by some private/independent or out of state universities. The course requirements for all areas in IGETC must be completed with a grade of "C" or higher. Students are strongly advised to meet with a counselor

early to discuss their transfer plans, as completion of the IGETC certificate does not guarantee admission to a specific campus within the CSU or UC system, nor does it guarantee acceptance into a specific major. Students are required to have a minimum total of 60 transferable units that include a combination of general education and major preparation courses.

Note:

- a. Courses may be counted in one area only, with the exception of Area 6A: Language Other than English (LOTE) requirement for UC's.
- b. Students should request official IGETC certification from the SBVC Records Office. For students who have completed coursework at multiple campuses, the campus of last attendance prior to transfer to UC or CSU will usually certify the IGETC. SBVC will certify coursework from other campuses according to the IGETC list of the originating campus. Official transcripts from high school and other colleges and universities must be on file at the SBVC Records Office.
- c. Courses completed at colleges and universities outside of the U.S.A. will not be permitted for IGETC certification, except for the Language Other than English requirement.
- d. Courses on this list are approved for Fall 2024 and beyond. SBVC courses not listed above may not be used for IGETC, except for courses that were on the IGETC list for the year in which they were completed.
- e. Students completing the IGETC or CSUGE transfer breadth requirements will receive a notation on their San Bernardino Valley College transcript (See Admissions & Records website for application).

Area 1: English Communication

CSU: Three (3) courses required, one from each group below.

UC: Two (2) courses required, one each from 1A and 1B.

Code	Title	Units
1A: English Composition		
One course, 3 semester units / 4-5 quarter units.		
ENGL 101	College Composition	4
	or ENGL 101H College Composition - Honors	
1B: Critical Thinking - English Composition		
One course, 3 semester units / 4-5 quarter units.		
Select one of the following:		
ENGL 102	Intermediate Composition and Critical Thinking	4
ENGL 102H	Intermediate Composition and Critical Thinking - Honors	4
PHIL 102	Critical Thinking and Writing	3
1C: Oral Communication (CSU only)		
One course, 3 semester units / 4-5 quarter units.		
Select one of the following:		
COMMST 100	Elements of Public Speaking	3
COMMST 100H	Elements of Public Speaking - Honors	3
COMMST 111	Interpersonal Communication	3
COMMST 111H	Interpersonal Communication - Honors	3
COMMST 140	Small Group Communication	3

Area 2: Mathematical Concepts and Quantitative Reasoning

One course, 3 semester units / 4-5 quarter units.

Code	Title	Units
Select one of the following:		3
ECON 208	Business and Economic Statistics	4
MATH 102	College Algebra	4
MATH 108	Introduction to Probability and Statistics	4
MATH 108H	Introduction to Probability and Statistics - Honors	4
MATH 115	Ideas of Mathematics	3
MATH 141	Business Calculus	4
MATH 151	Precalculus	4
MATH 180	Introduction to Data Science	4
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5
MATH 265	Linear Algebra	4
MATH 266	Ordinary Differential Equations	4
PSYCH 105	Statistics for the Behavioral Sciences (completed Fall 2009 or later)	4

Area 3: Arts and Humanities

At least three (3) courses, with at least one from the Arts and one from the Humanities, 9 semester units / 12-15 quarter units.

Code	Title	Units
3A: Arts		
Select at least one of the following:		
ANTHRO 109	Visual Culture and Art	3
ARCH 145	History of Architecture: Early Design Through Gothic	3
or ARCH 145H	History of Architecture: Early Design Through Gothic - Honors	
ARCH 146	History of Architecture: Renaissance Through Modern	3
or ARCH 146H	Architecture History: Renaissance to Modern - Honors	
ART 100	Art History: The Stone Age to the Middle Ages	3

LEARNING RESOURCES

Academic Success Centers

Hours: Varies by semester. Please see our website for current hours and tutor schedules.

Locations: Tutoring Center (TC) LA 206

Phone Numbers: 909-384-8589 (TC)

Website (<https://www.valleycollege.edu/student-services/tutoring-academic-support/student-success-center/>)

The services provided by the Academic Success Center is here to help you succeed at San Bernardino Valley College by providing academic support, tutoring, and Supplemental Instruction (SI) in multiple subjects to a diverse group of learners. We take special care to empower students with learning strategies and skills needed to become independent learners on the path towards academic success!

Distance Education - Online Learning

Website (<https://www.valleycollege.edu/online-classes/>)

San Bernardino Valley College is one of the top online Community Colleges to attend in California. With a robust variety of classes to take online, within a broad spectrum of offered degrees and certificates, students have more access to achieve their goals. Courses are offered in a variety of different formats including exclusively online (both asynchronous and synchronous), hybrid, and hyflex models. Online courses require access to a computer system with an internet connection, and may have meetings on campus. Students taking an online course should refer to the schedule for individual course format, as well as the Universal Access Point (UAP) for specific course requirements. Fees and academic credits are the same as equivalent traditional classroom courses.

Guided Pathways

Every California Community College is implementing “Guided Pathways”, an equity-focused framework that allows us to forge clear paths for students and remove systemic obstacles to their success. Guided Pathways is a structure to provide all students with clear enrollment avenues, course-taking patterns, and support services. This framework centers the student experience in system-wide decision making and helps us meet the goals of the Vision for Success and Call to Action. At San Bernardino Valley College, our Guided Pathways means our students should be able to enroll with confidence and move through their educational experience with clear pathways and few obstacles.

Library

Phone Number: (909) 384-4448

Website (<https://library.valleycollege.edu/>)

The SBVC Library provides resources that equitably serve students, faculty, and staff in a safe environment, both in-person and online.

The library houses a collection of over 70,000 books and magazines to support the curricular and research needs of students.

The library’s databases can be accessed via the OneSearch bar on the library homepage (<https://library.valleycollege.edu/>) and on the Databases & Research Guides (<https://valleycollege.libguides.com/databases-research-guides/>) page. The library has a large online collection of ebooks, articles (scholarly, academic, peer-reviewed), magazines, newspapers, film and video, reference books, dissertations, and more. The OneSearch bar searches many of the databases at one time, while the Databases and Research Guides page provides direct access to databases

based on subject and type of resource. There are links to a short video and search tips to help students jump into research.

Faculty librarians provide research assistance on campus and online. Students, faculty, and staff can visit the library reference desk or use 24/7 Chat (from the library homepage (<https://library.valleycollege.edu/>)) to work one-on-one with a librarian. The library also offers regular workshops and orientations tailored for classes and student groups.

The library also houses a large computer lab for currently enrolled students. Printers and photocopiers are available at a minimal charge. Computer Technicians are available to provide basic technical support, and friendly Library staff assist patrons at the Circulation Desks. Individual and small group study areas are located throughout the building.

Hours of operation and additional information about the services offered are located at library.valleycollege.edu.

Mathematics, Engineering, and Science Achievement (MESA) Program

Location: Physical Science (PS) 121

Phone Number: (909) 384-4463

Website (<https://www.sbvstem.org/mesa/>)

The Mathematics, Engineering, and Science Achievement (MESA) program supports students pursuing science, engineering, and mathematics degrees requiring the completion of calculus or higher math courses. It is a rigorous academic program that builds an academic peer community to increase student support and motivation. MESA produces a diverse population of transfer-ready students who will continue their educational journeys in four-year institutions and successfully attain math, engineering, and science degrees. MESA members benefit from academic and career counseling throughout the year, academic and leadership workshops, field trips, transfer preparation, scholarship application support, opportunities to develop professional relationships with faculty and peers, and help finding and applying to summer research and internship opportunities.

Middle College High School Program

Location of High School: 1260 W Esperanza St, San Bernardino, CA 92410

Middle College High School: (909) 888-4041

Location of Program Office at SBVC: North Hall (NH) 139

SBVC Phone Number: (909) 384-4431

Website (<https://www.valleycollege.edu/academic-career-programs/specialized-programs/middle-college-high-school/>)

Middle College High School is one of the top-performing schools in the Inland Empire and California. Middle College made its debut in San Bernardino in 2001 as an alternative educational experience for students who were not working to their full potential. The program serves many students who are first in their families to go to college or are considered underserved minorities. Located adjacent to San Bernardino Valley College, students take high school courses in the morning and college courses during the day and/or evenings. Students have the opportunity to work towards a goal of achieving their high school diploma alongside obtaining credits to apply towards their Intersegmental General Education Transfer Curriculum (IGETC) as well as achieving an associate degree. The school serves up to 300 students in 9th through 12th grade, all who are selected from the San Bernardino City Unified School District. The students engage in application and lottery process in order to be selected to the program. The program itself is designed to create an environment where students thrive academically and develop a keen sense of responsibility as both college and high school students.

Noncredit Programs

Location: Liberal Arts (LA) 204E

Phone Number: (909) 387-1644

The noncredit program offers noncredit courses and certificates that are tuition free but may have some cost associated with fees, cost of textbooks or materials. These courses often serve as an entry point for students who are learning to navigate higher education, as well as a transition point to prepare students for credit instruction and the workforce. Courses focus on skill attainment, not grades or units. Courses and certificates are currently offered in ESL, Math, and Career Technical Education.

STEM Program

Location: Physical Science (PS) 138 and 140

Phone Number: (909) 384-4463

Website (<http://www.sbvstem.org/>)

The STEM (Science, Technology, Engineering and Mathematics) Program is housed under the Student Success Center. The program is designed to assist low income and other traditionally underrepresented students and prepare them to pursue diverse careers in various STEM fields. It assists students in Math and Science courses and prepares them to transfer to four-year universities. The benefits of this program include: scholarships, specialized workshops, STEM events, field trips, and mentoring.

The benefits of the program include:

- Petition-Granted Accelerated Math Cohort Courses (095-102, 103-151)
- S-STEM Scholarships to CSUSB
- Specialized Workshops, Events, and Fieldtrips
- Instructor led Ted-Talks and Math and Science Mentors
- Dedicated Counseling for STEM Majors
- Mid-term and Final Pizza Study Jams

Supplemental Instruction (SI) Across the Disciplines

Website (<https://www.valleycollege.edu/student-services/tutoring-academic-support/student-success-center/>)

Supplemental Instruction (SI) is an academic assistance program that utilizes peer-assisted study sessions. SI sessions are regularly scheduled, informal review sessions in which students compare notes, discuss readings, develop organizational tools, and predict test items. Students learn how to integrate course content and study skills while working together. The sessions are facilitated by SI Leaders. SI Leaders are students who have previously done well in the course and who attend all class lectures, take notes, and act as model students.

SI sessions may be held in person and/or online.

Students should:

- Check with your instructor to confirm that you have an SI Leader in your class.
- Consult the associated class Canvas page for SI Session Zoom link information.

Visit the department website (<https://www.valleycollege.edu/student-services/tutoring-academic-support/student-success-center/>) for additional information on the SI program.

Valley Now!

The Valley Now! Program is a dual enrollment program that allows students from participating local high schools take college-level courses and accelerate their educational achievement. Valley Now! students earn credit towards high school graduation, while at the same time earning college credits. In most cases, college fees and textbook costs are either waived by San Bernardino Valley College or paid by the student's high school – which means that students can participate at absolutely no cost to them. All services available to regular college students, such as use of the Library and Student Success Center, are also available to Valley Now! students.

In order to increase accessibility for our high school population, most Valley Now! courses are conveniently offered online or at participating high school campus (unless otherwise noted). Students must meet the eligibility requirements for dual enrollment students as outlined by the Admissions and Records Office.

Courses offered through the Valley Now! program vary by semester.

For more information, contact the Valley Now! Program office at (909) 384-4467 or at valleynow@valleycollege.edu.

Writing Center

Location: Liberal Arts (LA) 201

Phone Number: (909) 384-4464

Website

The Writing Center helps students at all levels and from all disciplines to improve their writing skills. The center houses an experienced staff of writing tutors who are available for one-on-one writing conferences with students in person or online. In addition, the Writing Center offers workshops through the year for both mainstream and English language learners that focus on various aspects of the writing process. Visit the Writing Center webpage to learn more about the services that the Writing Center offers.

Zero Textbook Cost Degree Program (Z Degree)

Location: Physical Science (PS) 116

Phone Number: (909) 384-8653

Website (<https://www.valleycollege.edu/open-education-resources/students/zero-cost-textbook-classes.php>)

Zero Textbook Cost Degree Program (Z Degree) is one of the Open Educational Resources (OER) initiatives to improve teaching, learning and accessibility for all learners at California Higher Education institutions. San Bernardino Valley College is one of 20 California Community Colleges to be awarded the Implementation Phase II RFA for 2017/2018. The Z Degree Pathway is earned entirely by completing courses that eliminate conventional textbook costs by using alternative instructional materials and methodologies, including open educational resources (OER) (Definition by CA Education Code Section 78052(a)).

This program is designed to improve student success by providing students access to a textbook-free Associate of Arts (AA) degree in Liberal Arts with an emphasis in Social and Behavioral Sciences. The course sections in this AA degree exclusively use digital or other instructional materials that are free of charge. However, low-cost options for print versions may also be available, based on student preference. In addition, a dedicated counselor will provide academic support and resources to assist students in successful degree completion. Please refer to the Liberal Arts - Social and Behavioral Science Associate of Arts Degree (p. 293) for program requirements.

Student Awards and Honors

Academic Recognition Programs

Recognition for outstanding academic achievement is given in the following ways:

Dean's List

Outstanding scholastic achievement by San Bernardino Valley College students is recognized through the *Dean's Honors List*. The *Dean's List* is generated twice in each academic year, once during the Fall semester and once during the Spring semester. This scholastic recognition is based on GPA earned during the prior semester as opposed to a cumulative GPA. To qualify for the *Dean's List*, students must complete 12 units of college-level courses during the prior semester. (Units earned through credit-by-examination will be counted when determining eligibility.) Courses taken on a "Pass/No Pass" basis and/or courses numbered in the 900s that do not apply toward a degree are not included when evaluating whether a student has met the 12-unit requirement. Qualifying students will be included on the *Dean's List* in the following categories:

- **Highest honors** for students earning GPAs between 3.90 and 4.00.
- **Honors** for students earning GPAs between 3.70 and 3.89.
- **Distinction** for students earning GPAs between 3.50 and 3.69.

Graduating with Honors

Students who complete 60 units and who graduate with cumulative GPAs in the above three categories will be honored at graduation with special mention in the graduation program. No more than 15 units of course work graded on a Pass/No Pass basis will be included in this 60-unit requirement.

Students completing their associate degrees with an overall GPA of 3.0 are eligible to wear a gold cord at graduation. Students completing their vocational certificates with an overall GPA of 3.0 or above are eligible to wear a gold cord at graduation. Cords can be picked up in the Bookstore prior to graduation.

Alpha Gamma Sigma

Students who have a cumulative grade point average of 3.00 or higher may join Alpha Gamma Sigma, the California Community College Honor Scholarship Society.

For information, please see our website at: www.valleycollege.edu/current-students/clubs/alpha-gamma-sigma (<http://www.valleycollege.edu/current-students/clubs/alpha-gamma-sigma/>)

Honors Program

The mission of the Honors Program is to provide students with a rigorous learning experience that encourages independent and creative thought, to enhance students' critical reading, writing and thinking abilities as tools for achieving further academic success, and to prepare students for transfer to four-year institutions and to remain in the academic honors track.

Students involved in the Honors Program have the opportunity to develop unique links with UCLA, UC Irvine, UC Riverside, Cal Poly Pomona, Pepperdine University, UC Santa Cruz, and Chapman University including:

- Priority admission consideration,
- Priority scholarship consideration,
- Privileges such as use of the libraries,

- Opportunities to attend academic, cultural, and athletic events, campus tours, and the Honors Transfer Day.

Admission to the Honors Program is open to all students. Students who complete the Honors Program will receive a special seal on their transcripts and diploma, and an Honors Program medallion. To complete the program, a student admitted to the Honors program must:

- Complete a minimum of 15 units of honors classes;
- Maintain and graduate with an overall 3.5 GPA in all college coursework.

The honors courses range from one to five units. Most courses are accepted by the University of California and California State University systems, and most can be used to satisfy general education requirements. Students who qualify for the Honors Program may register for any of the following honors courses:

Code	Title	Units
ANTHRO 102H	Cultural Anthropology - Honors	3
ANTHRO 106H	Biological Anthropology - Honors	3
ANTHRO 111H	The Anthropology of Magic, Witchcraft, and Religion - Honors	3
ARCH 145H	History of Architecture: Early Design Through Gothic - Honors	3
ARCH 146H	Architecture History: Renaissance to Modern - Honors	3
ART 102H	Art History: Renaissance to Present - Honors	3
CD 105H	Child Growth and Development - Honors	3
COMMST 100H	Elements of Public Speaking - Honors	3
COMMST 111H	Interpersonal Communication - Honors	3
ECON 200H	Principles of Macroeconomics - Honors	3
ECON 201H	Principles of Microeconomics - Honors	3
ENGL 101H	College Composition - Honors	4
ENGL 102H	Intermediate Composition and Critical Thinking - Honors	4
ENGL 151H	Freshman Composition and Literature - Honors	3
ENGL 270H	English Literature: Middle Ages to 18th Century - Honors	3
ENGL 271H	English Literature: 18th Century to Present - Honors	3
GEOG 111H	Physical Geography Laboratory - Honors	1
ETHS 107H	Native American Experiences in U.S. History - Honors	3
ETHS 141H	Race and Ethnic Relations - Honors	3
HIST 100H	United States History to 1877 - Honors	3
HIST 101H	United States History: 1865 to Present - Honors	3
HIST 107H	Native American Experiences in U.S. History - Honors	3
HIST 140H	Chicano Experiences in U.S. History - Honors	3
HIST 145H	History of California - Honors	3
MUS 121H	Music History and Literature - Middle Ages through Baroque - Honors	3
MUS 122H	Music History and Literature - Classic through Contemporary - Honors	3
PHIL 101H	Introduction to Philosophy - Honors	3
POLIT 110H	Introduction to Political Theory - Honors	3

POLIT 138H	Service Learning: Student Leadership - Honors	3
POLIT 139H	Service Learning: Community Leadership - Honors	3
POLIT 141H	Introduction to World Politics - Honors	3
PSYCH 100H	General Psychology - Honors	3
RELIG 100H	Introduction to Religious Studies - Honors	3
SOC 100H	Introduction to Sociology - Honors	3
SOC 110H	Social Problems - Honors	3
SOC 141H	Race and Ethnic Relations - Honors	3
SPAN 101H	College Spanish I - Honors	5
SPAN 102H	College Spanish II - Honors	5
SPAN 103H	College Spanish III - Honors	4

For a complete course description of any of these courses, refer to the specific department listing in this catalog.

Students who would like to take a single honors course without fully participating in the Honors Program may enroll after satisfactorily demonstrating skill or aptitude in the discipline covered by that honors course. The prerequisite(s) for each course must be met by the individual student. Visit the Honors Program website (<https://www.valleycollege.edu/academic-career-programs/specialized-programs/honors-program/>) for additional information.

DEGREE AND CERTIFICATE PROGRAMS

Associate Degree Majors

San Bernardino Valley College offers associate degree majors in most departments listed in this catalog. Refer to the chart below for a complete list of associate degree majors. Refer to the particular department for course descriptions and a complete list of the courses required for that major.

Program Length

San Bernardino Valley College offers a wide variety of associate degrees and certificate programs. The amount of time it will take a student to complete an associate degree depends on whether one is attending full-time or part-time, on the student's level of preparation, and on the number of prerequisite courses required. Typically, a student attending full-time with few prerequisite requirements may complete an associate degree in two years. Students attending part-time could take as long as four or five years, or more.

The amount of time it will take to complete a certificate program will depend on whether the student is attending full-time or part-time, the number of units required for the certificate, the rotation of courses over a one- or two-year sequence, and the number of prerequisite courses the student is required to take. A very limited number of certificate programs can be completed in one semester. The majority will take one or two years if the student attends full-time however, the length of the certificate program may vary. Consult with a counselor for more information.

Degree and Certificate Program Index

These are the Associate Degree major/areas of emphasis and Certificates currently available at San Bernardino Valley College. The courses to fulfill the requirements for each listed program are detailed in the following pages. All courses are used to fulfill Associate Degree majors and state or locally approved Certificates must be completed with a minimum grade of C. All programs are subject to change; students should consult with a counselor for further information.

Degree and Certificate Program Index (p. 77)

Accounting

Accounting, as the language of business, is concerned with how businesses report their transactions and how they interpret the summaries of those transactions. Accountants record and summarize the economic events within a business. In addition, they interpret financial information and conduct solvency and profitability analyses to serve as a basis for sound business decisions.

Within the mission of the college, the Accounting Department has several objectives:

- Provide high quality accounting and business programs, which will prepare our students for successful careers in business and government.

- Provide students with a broad-base understanding of the concepts of accounting, business and management.
- Provide transfer preparation for universities.

Students planning to transfer to a four-year institution and major in accounting should consult with a counselor regarding the transfer process and lower division requirements.

ACCT 010 3 Units

Bookkeeping

Lecture: 54 contact hours

This is an introductory course for students interested in the accounting field. The focus is basic bookkeeping and accounting principles for small business enterprises. Emphasis is on the development of skills used to record business transactions, as well as the procedures to prepare financial statements and complete the accounting cycle. The course is designed for occupational students and for those who wish preparatory training before entering ACCT 200.

Associate Degree Applicable

ACCT 030 4 Units

Federal and State Individual Income Taxation

Lecture: 72 contact hours

This course is an introduction to the basic concepts of federal and state individual income taxation amongst a diverse population. Topics include history and objectives of the income taxes system, analysis of current income taxes issues, and the tax treatment of various types of income, deductions, and credits. Tax planning strategies are discussed. Actual tax forms are studied. Comprehensive individual tax returns are prepared.

Associate Degree Applicable

ACCT 047 3 Units

Computerized Accounting

Lecture: 54 contact hours

This course provides a comprehensive overview of accounting software. Topics covered include the analysis of source documents and the use of accounting software to prepare, understand, and interpret financial statements for a variety of management purposes. It also includes creation and use of spreadsheets to find the solutions to accounting problems within diverse companies.

Associate Degree Applicable

ACCT 090 3 Units

Payroll Accounting

Lecture: 54 contact hours

This course is designed to introduce various types of diverse employee compensations and the current federal and state payroll taxes system. Withholding requirements from employees' compensations as well as payroll taxes reporting are studied. Various types of payroll taxes forms are discussed and prepared. This course will focus on the records and control requirements of payroll accounting.

Associate Degree Applicable

ACCT 200 4 Units

Financial Accounting

Lecture: 72 contact hours

Advisory: ENGL 101 or ENGL 101H and MATH 102

This introductory financial accounting course is designed for students interested in business and/or accounting fields. This course is an introduction to the basic concepts and standards underlying financial accounting systems. Students learn to record accounting data and to prepare financial statements. Several important concepts will be studied in detail, including business ethics, the accounting cycle, revenue/expenses recognition, inventory, long-lived assets, liabilities, and equities.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: ACCT 110

ACCT 201 4 Units

Managerial Accounting

Lecture: 72 contact hours

Prerequisite: ACCT 200

This course studies the use of accounting information in decision-making, planning, directing operations and controlling within the diverse business field. It focuses on cost terms and concepts, cost behavior, cost structure and cost-volume-profit analysis. Issues relating to ethics, cost systems, cost control, profit planning, and performance analysis in manufacturing and service environments are also examined.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: ACCT 120

Accounting Associate of Arts Degree

The Associate of Arts (AA) - in accounting - is designed to provide fundamental skills for individuals planning to enter the field of accounting. Possible entry-level jobs for this program include accounting clerk, accounts payable/receivable clerk, claims clerk, payroll clerk, credit clerk, bookkeeper, accounting intern, tax preparer or comparable positions. This AA program focuses on entry-level accounting skills including communication and ethics needed in today's professional environment. The program provides a fundamental understanding of not only essential practitioner skills but also addresses the unique skills needed by an entry-level accountant. Accounting topics include - financial accounting, managerial accounting, federal taxation, payroll, bookkeeping and the use of business application and accounting software.

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Measure and recognize assets, liabilities, and owner's equity using the fundamental concepts inherent in Generally Accepted Accounting Principles (GAAP).
- Analyze and record transactions using a journal and a ledger, including adjusting, and closing entries.

- Identify and execute the various steps in the accounting cycle.
- Prepare, interpret, and analyze basic financial statements using manual and computerized systems for service, merchandising, and manufacturing businesses.
- Describe the legal, ethical, and social implications of business decisions and their impact on various individuals, groups, and societies.
- Analyze, decode, and evaluate the ethics of an accounting scenario.
- Recognize the value of diversity in opinions, values, abilities, and cultures in all business environments.

Accounting Certificate of Achievement

The Accounting Certificate is designed to prepare students for entry-level positions, updating and maintaining accounting records, calculating disbursements and receipts, tracking accounts payable and receivable, and determining profit and loss.

CIT 114	Spreadsheets: Excel	3

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Organize, analyze, and interpret measurable business transactions.
- Prepare financial statements by applying Generally Accepted Accounting Principles.
- Communicate financial and managerial accounting information applying common methods of business communication.

- d. Recognize the value of diversity in opinions, values, abilities, and cultures in all business environments.
- e. Identify ethical and social responsibility issues facing today's business.

Bookkeeping Certificate of Career Preparation

Bookkeeping clerks along with accounting and auditing clerks are an organization's financial recordkeepers. They update and maintain one or more accounting records. All of these clerks make numerous computations each day. In small businesses, bookkeeping clerks handle all financial transactions and recordkeeping. In large offices and accounting departments, the clerks have more specialized tasks, such as accounts payable or accounts receivable. The responsibilities vary by level of experience.

Code	Title	Units
Required Courses:		
ACCT 010	Bookkeeping	3
ACCT 090	Payroll Accounting	3
ACCT 047 or CIT 114	Computerized Accounting Spreadsheets: Excel	3
Total Units		9

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Understand the role and the duties of a bookkeeper within the framework of the required accounting activities in a business setting.
- b. Explain and apply the concepts of cash vs. accrual basis accounting, double entry bookkeeping as well as the debits and credits.
- c. Prepare basic payroll transactions ranging from paying wages to depositing and reporting payroll taxes.
- d. Make appropriate and accurate accounting entries for a variety of financial records.

Administration of Justice

The Administration of Justice Department strives to provide our students with the legal, ethical and educational background necessary to pursue a career in a criminal justice-related field and to successfully transition into a 4-year academic program.

The Administration of Justice discipline involves the study of the theory and practice of law, law enforcement, the courts, and corrections systems. Law enforcement specializes in police activities including effective investigation and patrol services to the public. The courts specialize in responsibilities to the public through the trial system. The corrections systems specialize in the punishment and incarceration process as well as rehabilitation of the offender. Private security services explore private protection through private agencies.

Administration of Justice offers a wide range of career opportunities. Students interested in careers as peace officers should refer to the Department of Police Science in this catalog. Students planning to transfer to a four-year institution and major in Administration of Justice should consult with a counselor regarding the transfer process and lower division requirements. The Administration of Justice courses listed may not be offered every semester due to instructor availability. Please refer to the college semester class schedule offerings.

Any felony or domestic violence conviction, or any significant prior or current drug use will disqualify most people seeking jobs in law enforcement, corrections, probation/parole, or forensics.

Transfers to both UC/CSU

C-ID: AJ 110

ADJUS 102 3 Units

Principles and Procedures of the Justice System

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course provides an examination and analysis of due process in criminal proceedings, from pre-arrest through trial and appeal, utilizing statutory, state and constitutional precedents.

Associate Degree Applicable

Transfers to CSU only

C-ID: AJ 122

ADJUS 103 3 Units

Concepts of Criminal Law

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course is an introduction to common law, legal concepts, codes and their history, and the philosophy and development of U.S. criminal law.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: AJ 120

ADJUS 104 3 Units

Legal Aspects of Evidence

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course examines the origin, development, philosophy, and constitutional basis of the use of evidence. It also incorporates constitutional and procedural considerations affecting arrest, search and seizure, types of evidence, and rules governing admissibility, judicial decisions, and interpretation of individual rights. Case studies will also be covered in this class.

Associate Degree Applicable

Transfers to CSU only

C-ID: AJ 124

ADJUS 105 3 Units

Community Relations

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course examines the complex and dynamic relationship between communities and the justice system in addressing crime and conflict with an emphasis on the challenges of administering justice within a diverse multicultural population. Topics include the consensus and conflicting values in culture, religion, and the law.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: AJ 160

ADJUS 106 3 Units**Principles of Investigation****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course covers the principles of various types of investigations utilized in the criminal justice system, including concepts of investigation, and the analysis, evaluation, preservation and documentation of evidence. The course will also include dealing with the public, techniques for handling crime scenes, interviews, evidence, surveillance, follow-up, technical resources, and case preparation.

Associate Degree Applicable**Transfers to CSU only****C-ID:** AJ 140**ADJUS 107 3 Units****Concepts of Enforcement Services****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course examines the theories, philosophies, and concepts related to the role expectations of line enforcement officers. The emphasis is focused on patrol, traffic and public service responsibilities and their relationships to the administration of justice.

Associate Degree Applicable**Transfers to CSU only****ADJUS 108 3 Units****Juvenile Procedures****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an examination of the origin, development, and organization of the Juvenile Justice System as it evolved in the American Justice System. The course explores the theories that focuses on juvenile law, courts and processes, and the constitutional protections extended to juveniles administered by the American Justice System.

Associate Degree Applicable**Transfers to CSU only****C-ID:** AJ 220**ADJUS 151 3 Units****Introduction to Corrections****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided Self-Placement process.

This course provides a history and critical analysis of punishment, the various types of punishment, alternatives to punishment, and the impact of punishment on the criminal justice system and corrections. A critical examination of the types of correctional institutions and the clients housed in each institution as well as contemporary correctional issues are evaluated with consideration for diversity factors. (Formerly CORREC 101)

Associate Degree Applicable**Transfers to CSU only****C-ID:** AJ 200**ADJUS 152 3 Units****Correctional Interviewing and Counseling****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided Self-Placement process.

This course examines appropriate interviewing and counseling techniques in the correctional setting, including application with inmates, perpetrators, victims, family members, and witnesses. Varying strategies are evaluated for use with client sidetracking, aversion, hostility, defensiveness, and crisis intervention with a lens for diverse client identities and needs. (Formerly CORREC 102)

Associate Degree Applicable**Transfers to CSU only****ADJUS 153 3 Units****Gangs and Corrections****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided Self-Placement process.

This course explores the history and development of some of the earliest and most well-known gangs in the prison setting and in the community. The types of gangs, history, criminal activities, and motivational theories for joining prison gangs are evaluated. Diversity characteristics, such as race, ethnicity, gender, religion, and socioeconomic class will be examined as they relate to gang membership (Formerly CORREC 103)

Associate Degree Applicable**Transfers to CSU only****ADJUS 154 3 Units****Control and Supervision in Corrections****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided Self-Placement process.

This course provides an overview of the operational procedure and policies for inmate and client custody and supervision within local, state, and federal correctional and detention facilities. Discussion and analysis of the relationships between and among correctional officers and staff, administration, inmates, clients, victims, and communities are investigated with special emphasis on impact of diversity issues. (Formerly CORREC 104)

Associate Degree Applicable**Transfers to CSU only****ADJUS 155 3 Units****Legal Aspects of Corrections****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided Self-Placement process.

This course is the study of the historical framework, concepts, and precedents that guide correctional practice. Course material will present a broader perspective of the correctional environment such as the civil rights of prisoners, responsibilities and liabilities of correctional officials, the courts, and police. Modern considerations related to diversity, equity, and inclusion are applied to current practices. (Formerly CORREC 105)

Associate Degree Applicable**Transfers to CSU only**

ADJUS 156 3 Units

Probation and Parole

Lecture: 54 contact hours

Advisory: Eligibility for college level English based on the SBVC Guided Self-Placement process.

This course is a study of the historical and contemporary view of the application of probation and parole procedures in the criminal justice system. The impact of SB 823, abolishing the Division of Juvenile Justice (DJJ), and in SB 92 which institutes county realignment for previous DJJ youth is examined. This course material will broaden the student concept of community corrections and the rights and liabilities of a person on probation or parole. (Formerly CORREC 106)

Associate Degree Applicable

Transfers to CSU only

Administration of Justice - Corrections Associate of Science Degree

The Administration of Justice – Corrections Associate of Science Degree provides students with an understanding of the correctional systems utilized by local, state, and federal levels of government. Students will explore the various career paths and hiring practices associated with jobs in the Correctional field. It provides a comprehensive overview of correctional facilities, community-based facilities/programs, probation, and parole utilized in the United States. This degree will prepare students for a career in corrections.

Code	Title	Units
Required Courses:		
ADJUS 151	Introduction to Corrections	3
ADJUS 152	Correctional Interviewing and Counseling	3
ADJUS 153	Gangs and Corrections	3
ADJUS 154	Control and Supervision in Corrections	3
ADJUS 155	Legal Aspects of Corrections	3
ADJUS 156	Probation and Parole	3
Total Units		18

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Provide a comprehensive overview of employment options in the corrections profession at the local, state, and federal levels of public safety.
- Describe the various federal, state, and local legal frameworks, concepts and precedents that guide Correctional Professionals.

- Compare and contrast the adult correctional system and the juvenile correctional system at the local, state, and federal levels.

Administration of Justice - Corrections Certificate of Achievement

The Administration of Justice – Corrections certificate is designed for students considering a career as a Correctional Officer, Youth Correctional Counselor, Jailer, or those already employed seeking advancement in their career. The corrections systems specialize in the punishment and incarceration process as well as rehabilitation of the offender. Students will learn the fundamentals of the corrections systems, the legal aspects of corrections, control and supervision in corrections, correctional interviewing and counseling, and the probation and parole concepts in corrections.

Code	Title	Units
Required Courses:

ADJUS 155	Legal Aspects of Corrections	3
ADJUS 156	Probation and Parole	3
Total Units		18

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply knowledge and skills required in securing and maintaining employment.
- Compare and contrast the differences between probation and parole.
- Differentiate and identify control techniques in crisis situations within the correctional setting.
- Distinguish the responsibilities and liabilities of the laws governing a correctional officer.
- Assess the legal framework within the incarceration process.
- Compare prison gang membership both inside and outside the facility.
- Choose to further personal interests by completing the requirements for an Administration of Justice degree or developing skills as a crime scene investigator.

Administration of Justice Associate of Arts Degree

To graduate with a specialization in Administration of Justice, students must complete all requirements for the certificate plus the general breadth requirements for the Associate Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
ADJUS 101	Introduction to Administration of Justice	3

ADJUS 102	Principles and Procedures of the Justice System	3
ADJUS 103	Concepts of Criminal Law	3

ADJUS 156	Probation and Parole	3

Total Units 21

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply knowledge and skills required in securing and maintaining employment.
- Analyze the interrelations between the courts, law enforcement, and corrections.
- Demonstrate the sequence of events necessary in determining admissibility or suppression of evidence.
- Demonstrate analysis of basic legal definitions of criminal law.
- Develop a world view that values why law enforcement is necessary in diverse populations and societies.

Administration of Justice Associate in Science for Transfer Degree

Administration of Justice is the study of the causes, consequences and control of crime. The program leading to the Associate in Science in Administration of Justice for Transfer (AS-T) is designed to acquaint pre-service and in-service students with the principles and practices of criminal justice systems in America. The goal of this program is to familiarize students with a foundation in the Criminal Justice sub-systems: Law Enforcement, Correctional Science, Criminology, Forensics, Investigations, and the Judicial /Court's role. The program is both academic and professional in that it is an interdisciplinary attempt to relate intellectual issues and practitioner perspectives to the challenge of crime in a free society. Consequently, the program provides preparation for employment with a related agency and /or transfer to a college or university.

Students will be prepared to work in a variety of fields, including: public law enforcement agencies such as municipal police, CHP, probation

officers, county deputy sheriffs, correctional officers, game wardens, state park rangers, and private security. Students completing the AS-T in Administration of Justice degree will be able to transfer to the California State University systems and be prepared to study in the following areas: Administration of Justice, Law Enforcement, Correctional Science, Social Science/Criminology, Forensics, and Pre- Law.

To earn this AS-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Administration of Justice should consult with a counselor regarding the transfer process and lower division requirements.

ADJUS 153	Gangs and Corrections	3
ADJUS 154	Control and Supervision in Corrections	3
ADJUS 155	Legal Aspects of Corrections	3
ADJUS 156	Probation and Parole	3
CIT 101	Introduction to Computer Literacy	3
ENGL 102	Intermediate Composition and Critical Thinking	4
	or ENGL 102H Intermediate Composition and Critical Thinking - Honors	
	or PHIL 102 Critical Thinking and Writing	
PHIL 103	Introduction to Logic: Argument and Evidence	3
POLIT 100	American Politics	3
	or POLIT 100H American Politics - Honors	
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
PSYCH 105	Statistics for the Behavioral Sciences	4
	or MATH 108 Introduction to Probability and Statistics	
	or MATH 108H Introduction to Probability and Statistics - Honors	
	or ECON 208 Business and Economic Statistics	

SOC 100	Introduction to Sociology	3
or SOC 100H	Introduction to Sociology - Honors	

Code	Title	Units
Major Total		18-20
Total Units that may be Double-Counted		6
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		7-11
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Critically analyze and evaluate the admissibility or exclusion of evidence based upon fourth and fifth amendment protections; evaluate and describe the various types of evidence.
- Critically analyze and evaluate the proper procedures in conducting a criminal investigation involving crimes against persons, property, sex crimes, crimes against children, bombs and explosives, and vice and narcotics.
- Critically analyze and describe the role and responsibilities of Forensic criminalists in conducting a criminal investigation.
- Critically evaluate the challenges and strategies of the Criminal Justice System within a diverse and multicultural society.
- Critically analyze and describe the development of the penal institutions in the United States; describing the goals, challenges, responsibilities and strategies of the correctional institutions.
- Critically analyze and describe the development of the Juvenile Justice System in the United States; explaining the juvenile court procedures and Constitutional protections prescribed by United States Supreme Court decisions.

Administration of Justice Certificate of Achievement

The Administration of Justice certificate is designed to prepare students for entry-level positions in a wide range of law enforcement services, including the courts, corrections, law enforcement, and private security.

Code	Title	Units
Required Courses:		
ADJUS 101	Introduction to Administration of Justice	3
ADJUS 102	Principles and Procedures of the Justice System	3
ADJUS 103	Concepts of Criminal Law	3
ADJUS 104	Legal Aspects of Evidence	3
ADJUS 105	Community Relations	3
Two elective courses from the following: (6 units)		6
ADJUS 106	Principles of Investigation	3
ADJUS 107	Concepts of Enforcement Services	3
ADJUS 108	Juvenile Procedures	3
ADJUS 151	Introduction to Corrections	3
ADJUS 152	Correctional Interviewing and Counseling	3
ADJUS 153	Gangs and Corrections	3
ADJUS 154	Control and Supervision in Corrections	3
ADJUS 155	Legal Aspects of Corrections	3
ADJUS 156	Probation and Parole	3
Total Units		21

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply knowledge and skills required in securing and maintaining employment.
- Analyze the interrelations between the courts, law enforcement, and corrections.
- Demonstrate the sequence of events necessary in determining admissibility or suppression of evidence.
- Demonstrate analysis of basic legal definitions of criminal law.
- Develop a world view that values why law enforcement is necessary in diverse populations and societies.

Aeronautics

The Aeronautics Department curriculum offers students several ways to qualify for employment in the aviation industry. Students may pursue an Associate of Science degree or certificates in Airframe and Powerplant Technology. Students desiring specific ratings or licenses should consult with faculty in the Aeronautics Department and/or the Federal Aviation Administration (FAA). Students planning to transfer to a four-year institution and major in aeronautics should consult with a counselor regarding the transfer process and lower division requirements.

Airframe and Powerplant Technicians are employed by airlines and Aviation Maintenance providers. The Aviation Maintenance Technician program at San Bernardino Valley College is fully approved by the FAA to provide the training required to become Airframe and Powerplant Technicians.

Students planning to obtain an FAA A&P certification with prior military or industry experience should consult with the Department Chair.

Division: Applied Technology, Transportation, and Culinary Arts

Division Phone Number: (909) 384-4451

Faculty Chair: Francisco Gonzalez (fgonzalez@sbccd.edu), M.Ed., A&P

Counselor Liaisons: Debbie Orozco (dorozco@sbccd.edu), M.A. and Patricia Jones (pjones@sbccd.edu), M.A.

- Airframe Maintenance Technician Certificate of Achievement (p. 103)
- Aviation Maintenance Technician Associate of Science Degree (p. 104)
- Aviation Maintenance Technician Certificate of Achievement (p. 104)
- Flight Operations and Management Associate of Science Degree (p. 105)
- Flight Operations Certificate of Achievement (p. 105)
- Flight Operations Certificate of Completion (p. 106)
- Powerplant Maintenance Technician Certificate of Achievement (p. 106)

AERO 015 2 Units

Nano Composite Technology

Lecture: 18 contact hours

Lab: 54 contact hours

This course is an introduction to Nano Composite Structures including the manufacturing, uniqueness, strength and repair methods in the aviation field and any related fields using composites technology.

Associate Degree Applicable

AERO 021 3 Units

Aviation Fundamentals

Lecture: 54 contact hours

This course is an introduction to the basic principles of aeronautics, aircraft structure and operations including space, rocketry and aeronautical occupations.

Associate Degree Applicable

AERO 022 6 Units

Private Pilot Ground School

Lecture: 108 contact hours

This course offers complete preparation for the Federal Aviation Administration (FAA) private pilot written examination including aerodynamics, weight and balance, airports and airspace, meteorology, using aviation services, flight information publications, federal air regulations, navigation, radio navigation aids, cross-country flight planning, physiology of flight, and airborne emergencies.

Associate Degree Applicable

AERO 022L 1 Unit

Private Pilot Flight Lab

Lab: 54 contact hours

Prerequisite/Corequisite: AERO 022

This course provides students with the opportunity to accumulate flight hours essential for obtaining certification and licensing as a commercial instrument pilot. It focuses on training in specific areas to develop proficiency in essential pilot operations required for various certificates and ratings. All instruction follows the guidelines set forth by the Federal Aviation Regulations (FAR) Part 61 and Part 141. Flight training labs adhere to an approved FAR Part 141 curriculum.

Associate Degree Applicable

AERO 024 3 Units

Aircraft Powerplants

Lecture: 54 contact hours

This course is designed to familiarize the student with the operating principles and construction highlights of both reciprocating and jet aircraft engines including internal combustion engines, jet propulsion engines, aircraft fuels and fuel systems, electrical and ignition systems, lubricants and lubrication systems, propellers, engine instrument and control systems, engine inspection, operation and troubleshooting.

Associate Degree Applicable

AERO 025 2 Units

Flight Safety

Lecture: 36 contact hours

This course is an in-depth study of flight safety including: organizations contributing to flight safety, Pilot and passenger responsibilities, emergency radio procedures, pilot resources, ground safety, mid-air collisions, weather and night flight hazards and precautions, emergency procedures, medical factors, human factors, and crash investigation and liability.

Associate Degree Applicable

AERO 026 3 Units

Airframe Structures

Lecture: 54 contact hours

This course is designed to familiarize the aviator or prospective pilot with the fundamentals of aircraft design and construction including: aircraft structural components, fundamentals of aerodynamics and flight, materials and hardware, ice and rain protection, hydraulic and pneumatic systems, landing gear systems, fire protection systems, electrical systems, instrument systems, weight and balance control, and blue print reading.

Associate Degree Applicable

AERO 027 2 Units**Airport Certification and Operations****Lecture:** 36 contact hours

This course covers airport certification and operations including applicability, definitions, certificate requirements, and process, Airport Certification Manual (ACM), record keeping, personnel requirements, markings, signs, and lighting, airport emergency plan, wildlife hazard management, and unmanned aerospace vehicles (UAV)(drones) issues.

Associate Degree Applicable**AERO 034 3 Units****Civil Aviation Management and Laws****Lecture:** 54 contact hours

This course covers the history of civil aviation in the United States including: federal legislation on civil aviation, international treaties and agreements relevant to civil aviation, and regulations pertaining to the management of airports, air carriers, general aviation, international air transport, and the air cargo industry.

Associate Degree Applicable**AERO 040 4 Units****Instrument Ground School****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course examines the fundamentals of instrument flight in the Air Traffic Control (ATC) system and factors that can affect the operation including aerodynamics, navigation, flight planning, and communication. The subject matter is reinforced by flying various procedures in flight simulators. This course can be used as a method to meet the Federal Aviation Administration (FAA) requirements for the ground instruction portion of a Biennial Flight Review (BFR) as specified in Federal Aviation Regulations (FAR) 61.56.

Associate Degree Applicable**AERO 041L 1 Unit****Instrument Pilot Flight Lab****Lab:** 54 contact hours**Prerequisite/Corequisite:** AERO 040

Limitation on Enrollment: Students must receive approval to enroll in this course from an Aeronautics faculty member.

Students taking this course will receive training in the maneuvers and procedures necessary to meet the standards contained in the FAA Instrument Rating Practical Test Standards. Additionally, students will receive training in safety awareness, crew resource management, and aeronautical decision-making. At the successful completion of this course, students will have gained the aeronautical experience necessary to attain the addition of an Instrument Rating for the Private Pilot Certificate. This course is offered as pass/no-pass basis only.

Associate Degree Applicable**AERO 046 3 Units****Aviation Weather****Lecture:** 54 contact hours

This course covers the aspects of weather as they relate to aircraft operation and safety. Includes: Basic and hazardous weather, atmospheric winds, pressure systems as associated with weather, cloud formation, air masses and fronts, thunderstorms, turbulence and icing, fog, haze and smoke, high altitude, arctic and tropical weather, interpretation of weather reports, forecast, charts and maps.

Associate Degree Applicable**AERO 050 5 Units****General/Calculations and Basic Electricity Airframe and Powerplant Technologies****Lecture:** 90 contact hours**Corequisite:** AERO 050L

This course provides training for the General requirements of the Aviation Maintenance Technician Certificate. Areas of study include familiarization of basic hand tools, applications of mathematics, basic physics, certain Federal Aviation Regulations (FARs), basic electricity including application of Ohm's Law, electrical terms, units of measure, types of electrical circuits, reading and interpreting electrical diagrams, and electrical components familiarization.

Associate Degree Applicable**AERO 050L 2 Units****General Laboratory/Calculations And Basic Electricity Airframe and Powerplant Technologies****Lab:** 108 contact hours**Corequisite:** AERO 050

This course provides training for the General requirements of the Aviation Maintenance Technician Certificate. The content includes the use of basic hand tools, applications of mathematics, basic physics, certain Federal Aviation Regulations (FARs), basic electricity including application of Ohm's Law, use of a volt/ohm meter, interpret electrical circuit diagrams, service and inspection of batteries.

Associate Degree Applicable**AERO 051 5 Units****General/Materials and Servicing Airframe and Powerplant Technologies****Lecture:** 90 contact hours**Corequisite:** AERO 051L

This course provides training for the General requirements of the Aviation Maintenance Technician Certificate. Areas of instruction include aircraft weight and balance control, basic drafting, aircraft fluid lines and fittings, aircraft hardware, materials, non-destructive testing processes, corrosion control, aircraft cleaning and ground operations and handling.

Associate Degree Applicable**AERO 051L 2 Units****General Laboratory/Materials and Servicing Airframe and Powerplant Technologies****Lab:** 108 contact hours**Corequisite:** AERO 051

This course provides training for the General requirements of the Aviation Maintenance Technician Certificate. Areas of instruction include aircraft weight and balance control, basic drafting, aircraft fluid lines, fittings, aircraft hardware, materials, non-destructive testing processes, corrosion control, aircraft cleaning, and ground operations and handling.

Associate Degree Applicable**AERO 052 6 Units****Airframe Maintenance - Structures****Lecture:** 108 contact hours**Corequisite:** AERO 052L

This course provides training for the Airframe requirements of the Airframe Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Areas of instruction include airframe structures, aircraft covering, aircraft finishing, theory of flight, assembly and rigging, structural repair, aircraft inspection, and aircraft fuel systems.

Associate Degree Applicable

AERO 052L 5 Units**Airframe Maintenance Laboratory - Structures****Lab:** 270 contact hours**Corequisite:** AERO 052

This course provides training for the Airframe requirements of the Airframe Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Areas of instruction include airframe structures, aircraft covering, aircraft finishing, theory of flight, assembly and rigging, structural repair, aircraft inspection, and aircraft fuel systems.

Associate Degree Applicable**AERO 053 6 Units****Airframe Maintenance - Systems and Components****Lecture:** 108 contact hours**Corequisite:** AERO 053L

This course provides training for the Airframe requirements of the Airframe Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Topics of study include aircraft welding, electrical circuits, and basic aircraft systems for power, landing, brakes warning instrumentation, autopilot, cabin atmosphere control, ice and rain control, fire protection and communications.

Associate Degree Applicable**AERO 053L 5 Units****Airframe Maintenance Laboratory - Systems and Components****Lab:** 270 contact hours**Corequisite:** AERO 053

This course provides training for the Airframe requirements of the Airframe Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Topics of instruction include aircraft welding, electrical circuits, and basic aircraft systems for power, landing, brakes warning instrumentation, auto pilot, cabin atmosphere control, ice and rain control, fire protection and communications.

Associate Degree Applicable**AERO 054 6 Units****Powerplant Maintenance - Reciprocating Engine Overhaul****Lecture:** 108 contact hours**Corequisite:** AERO 054L

This course provides training for the Powerplant requirements of the Powerplant Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Topics of study include reciprocating engine theory, overhaul, inspections, lubricating systems, indicating systems, fire protection systems, and engine fuel systems.

Associate Degree Applicable**AERO 054L 5 Units****Powerplant Maintenance Laboratory - Reciprocating Engine Overhaul****Lab:** 270 contact hours**Corequisite:** AERO 054

This course provides training for the Powerplant requirements of the Powerplant Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Topics of study include reciprocating engine theory, overhaul, inspections, lubricating systems, indicating systems, fire protection systems, and engine fuel systems.

Associate Degree Applicable**AERO 055 6 Units****Powerplant Maintenance - Accessory Overhaul****Lecture:** 108 contact hours**Corequisite:** AERO 055L

This course provides training for the Powerplant requirements of the Powerplant Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Topics of study include electricity, ignition, fuel, fuel metering, induction, cooling, exhaust, propellers, turbine engines and auxiliary power units.

Associate Degree Applicable**AERO 055L 5 Units****Powerplant Maintenance Laboratory - Accessory Overhaul****Lab:** 270 contact hours**Corequisite:** AERO 055

This course provides training for the Powerplant requirements of the Powerplant Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Areas of instruction include electrical power generation, ignition, fuel and fuel metering, induction, cooling, exhaust, propeller systems, turbine engines and auxiliary power units.

Associate Degree Applicable**AERO 070 3 Units****Introduction to Air Traffic Control (ATC)****Lecture:** 54 contact hours

This course is an introductory course in air traffic control and is a requirement for all students in the Flight Operations - ATC Pathway (degree) sequence. The course material covers a broad range of topics specific to the air traffic control system and its application to the aviation profession. Topics included are the history of air traffic control (ATC), National Airspace System (NAS), navigation systems, ATC systems and airspace, ATC communications, ATC procedures and organization, tower, TRACON and en route operations, NextGen and the future of the national airspace system.

Associate Degree Applicable**AERO 071 2 Units****Civil Aircraft Recognition and Performance****Lecture:** 36 contact hours

This course is designed for students who want to become air traffic controllers for the Federal Aviation Administration (FAA). Students will learn to recognize the distinctive features of aircraft, identify types of aircraft, classify aircraft as to FAA category and class, and analyze aircraft for performance characteristics required for air traffic control separation.

Associate Degree Applicable**AERO 098 1-4 Units****Aeronautics Work Experience****WRKEX:** 300 contact hours

This course involves supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**AERO 600 Noncredit****Introduction to Aviation Technology****Lecture:** 16 contact hours**Lab:** 48 contact hours

This noncredit introductory course gives students hands-on experience with airframe and powerplant aviation technology. It will focus on aviation principles, maintenance practices, and careers.

AERO 611 Noncredit**General Maintenance Test Preparation****Lecture:** 8 contact hours**Lab:** 6 contact hours

This noncredit course prepares students for the FAA Aviation Mechanic Certification - General oral and practical test. Students will be given extra instruction in practice in the FAA test subjects.

AERO 612 Noncredit**Airframe Maintenance Test Preparation****Lecture:** 8 contact hours**Lab:** 8 contact hours

This noncredit course prepares the students for the FAA Aviation Mechanic Certification. Airframe written, oral and practical test. Students will review subjects as determined by latest FAA performance statistics.

AERO 613 Noncredit**Powerplant Maintenance Test Preparation****Lecture:** 8 contact hours**Lab:** 6 contact hours

This noncredit course prepares students for the FAA Aviation Mechanic Certification - Powerplant oral and practical test. Students will be given extra instruction in practice in the FAA test subjects.

AERO 621 Noncredit**Aviation Fundamentals****Lecture:** 54 contact hours

This noncredit course is an introduction to the basic principles of aeronautics, aircraft structure and operations including space, rocketry and aeronautical occupations.

AERO 622 Noncredit**Private Pilot Ground School****Lecture:** 108 contact hours

This noncredit course offers complete preparation for the Federal Aviation Administration (FAA) private pilot written examination including aerodynamics, weight and balance, airports and airspace, meteorology, using aviation services, flight information publications, federal air regulations, navigation, radio navigation aids, cross-country flight planning, physiology of flight, and airborne emergencies.

AERO 624 Noncredit**Aircraft Powerplants****Lecture:** 54 contact hours

This course is designed to familiarize the student with the operating principles and construction highlights of both reciprocating and jet aircraft engines including: internal combustion engines, jet propulsion engines, aircraft fuels and fuel systems, electrical and ignition systems, lubricants and lubrication systems, propellers, engine instrument and control systems, engine inspection, operation and troubleshooting.

AERO 625 Noncredit**Flight Safety****Lecture:** 36 contact hours

This noncredit course is an in-depth study of flight safety including: organizations contributing to flight safety, pilot and passenger responsibilities, emergency radio procedures, pilot resources, ground safety, mid-air collisions, weather and night flight hazards and precautions, emergency procedures, medical factors, human factors, and crash investigation and liability.

AERO 626 Noncredit**Airframe Structures****Lecture:** 54 contact hours

This noncredit course is designed to familiarize the aviator or prospective pilot with the fundamentals of aircraft design and construction including: aircraft structural components, fundamentals of aerodynamics and flight, materials and hardware, ice and rain protection, hydraulic and pneumatic systems, landing gear systems, fire protection systems, electrical systems, instrument systems, weight and balance control, and blueprint reading.

AERO 640 Noncredit**Instrumental Ground School****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course examines the fundamentals of instrument flight in the Air Traffic Control (ATC) system and factors that can affect the operation including aerodynamics, navigation, flight planning, and communication. The subject matter is reinforced by flying various procedures in flight simulators. This course can be used as a method to meet the Federal Aviation Administration (FAA) requirements for the ground instruction portion of a Biennial Flight Review (BFR) as specified in Federal Aviation Regulations (FAR) 61.56.

AERO 646 Noncredit**Aviation Weather****Lecture:** 54 contact hours

This noncredit course covers the aspects of weather as they relate to aircraft operation and safety. It includes basic and hazardous weather, atmospheric winds, pressure systems as associated with weather, cloud formation, air masses and fronts, thunder storms, turbulence and icing, fog, haze and smoke, high altitude, arctic and tropical weather, interpretation of weather reports, forecast, charts and maps.

AERO 650L Noncredit**General Laboratory/Calculations and Basic Electricity Airframe and Powerplant Technologies****Lab:** 45 contact hours

This noncredit course provides additional training and lab hours for the Airframe Maintenance Technician Certificate as required by the FAA. The content includes the use of basic hand tools, applications of mathematics, basic physics, certain Federal Aviation Regulations (FARs), basic electricity including application of Ohm's Law, use of a volt/ohm meter, interpret electrical circuit diagrams, service and inspection of batteries.

AERO 651L Noncredit**General Laboratory/Materials and Servicing Airframe and Powerplant Technologies****Lab:** 45 contact hours

This noncredit course provides training for the General requirements of the Aviation Maintenance Technician Certificate. Areas of instruction include aircraft weight and balance control, basic drafting, aircraft fluid lines, fittings, aircraft hardware, materials, non-destructive testing processes, corrosion control, aircraft cleaning, and ground operations and handling.

AERO 652L Noncredit**Airframe Maintenance Laboratory - Structures****Lab:** 54 contact hours

This noncredit course provides training for the Airframe requirements of the Airframe Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Areas of instruction include airframe structures, aircraft covering, aircraft finishing, theory of flight, assembly and rigging, structural repair, aircraft inspection, and aircraft fuel systems.

AERO 653L Noncredit**Airframe Maintenance Laboratory System and Components****Lab:** 54 contact hours

This noncredit course provides additional training and lab hours for the Airframe Maintenance Technician Certificate as required by the FAA. Topics of instruction include aircraft welding, electrical circuits, and basic aircraft systems for power, landing, brakes warning instrumentation, autopilot, cabin atmosphere control, ice and rain control, fire protection and communications.

AERO 654L Noncredit**Powerplant Maintenance Laboratory - Reciprocating Engine Overhaul****Lab:** 54 contact hours

This noncredit course provides training for the Powerplant requirements of the Powerplant Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Topics of study include reciprocating engine theory, overhaul, inspections, lubricating systems, indicating systems, fire protection systems, and engine fuel systems.

AERO 655L Noncredit**Powerplant Maintenance Laboratory - Accessory Overhaul****Lab:** 54 contact hours

This noncredit course provides training for the Powerplant requirements of the Powerplant Maintenance Technician Certificate and the Aviation Maintenance Technician Certificate. Areas of instruction include electrical power generation, ignition, fuel and fuel metering, induction, cooling, exhaust, propeller systems, turbine engines and auxiliary power units.

AERO 900 1 Unit**Lab Studies in Aviation Maintenance Technology****Lab:** 54 contact hours**Prerequisite/Corequisite:** AERO 050L and AERO 051L

This course provides additional laboratory instruction for students lacking mandated hours or projects to complete a training certificate.

Airframe Maintenance Technician Certificate of Achievement

This certificate is designed to prepare students to qualify for the Airframe Certificate issued by the Federal Aviation Administration (FAA), which enables the holder to perform 100 hours and annual inspections on aircraft ranging from small aircraft used in general aviation to jets utilized by commercial airlines. The written examinations are administered by the FAA at computer testing centers.

Code	Title	Units
Required Courses:		
AERO 050	General/Calculations and Basic Electricity Airframe and Powerplant Technologies	5
AERO 050L	General Laboratory/Calculations And Basic Electricity Airframe and Powerplant Technologies	2
AERO 051	General/Materials and Servicing Airframe and Powerplant Technologies	5
AERO 051L	General Laboratory/Materials and Servicing Airframe and Powerplant Technologies	2
AERO 052	Airframe Maintenance - Structures	6
AERO 052L	Airframe Maintenance Laboratory - Structures	5
AERO 053	Airframe Maintenance - Systems and Components	6
AERO 053L	Airframe Maintenance Laboratory - Systems and Components	5
Total Units		36

Code	Title	Units
Recommended Courses		
AERO 015	Nano Composite Technology	2

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply general calculations and basic electricity of aviation as required by the Federal Aviation Administration (FAA).
- Apply general materials and servicing of aviation as required by the FAA.
- Read and Interpret airframe manuals.
- Perform required inspections, maintenance, and repairs on aircraft Airframes.
- Evaluate and troubleshoot aircraft airframe systems and components.
- Evaluate and service aircraft airframe systems.
- Assess the serviceability of aircraft airframe parts and components.
- Write descriptive and concise discrepancy reports.

Aviation Maintenance Technician Associate of Science Degree

To graduate with a specialization in Aviation Maintenance Technician, students must complete the following requirements with a grade of C or better plus the general breadth requirements for the Associate Degree (minimum total = 60 units). This degree enables the holder to perform 100 hours and annual inspections on aircraft ranging from small aircraft used in general aviation to jets utilized by commercial airlines.

Code	Title	Units
Required Courses:		
AERO 050	General/Calculations and Basic Electricity Airframe and Powerplant Technologies	5
AERO 050L	General Laboratory/Calculations And Basic Electricity Airframe and Powerplant Technologies	2
AERO 051	General/Materials and Servicing Airframe and Powerplant Technologies	5
AERO 051L	General Laboratory/Materials and Servicing Airframe and Powerplant Technologies	2

AERO 054	Powerplant Maintenance - Reciprocating Engine Overhaul	6
AERO 054L	Powerplant Maintenance Laboratory - Reciprocating Engine Overhaul	5
AERO 055	Powerplant Maintenance - Accessory Overhaul	6
AERO 055L	Powerplant Maintenance Laboratory - Accessory Overhaul	5
Total Units		58

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Interpret airframe and powerplant manuals.
- Perform required inspections on an aircraft.
- Troubleshoot aircraft airframe and powerplant systems.
- Service and repair aircraft airframe and powerplant systems.
- Assess the serviceability of parts.
- Write descriptive discrepancy reports.
- Broaden their possibilities for advancement in their career fields.

- Further their education at a four-year university to complete a bachelor degree.

Aviation Maintenance Technician Certificate of Achievement

This certificate is designed to prepare students to qualify for the airframe and powerplant certificates issued by the Federal Aviation Administration (FAA), after passing the FAA testing students are able to work on airliners as well as general aviation. The written examinations are administered by the FAA at computer testing centers.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply general calculations and basic electricity of aviation as required by the Federal Aviation Administration (FAA).
- Apply general materials and servicing of aviation as required by the FAA.
- Read and interpret aircraft airframe, and powerplant manuals.
- Perform required inspections on an aircraft.
- Use practical application skills to troubleshoot, service, and repair aircraft airframe and powerplant systems.
- Assess the serviceability of aircraft airframe, and powerplant system parts and components.
- Write descriptive and concise discrepancy reports.

Flight Operations and Management Associate of Science Degree

To graduate with a specialization in Flight Operations and Management students must complete the following requirements with a grade of C or better plus the general breadth requirements for the Associate Degree (minimum total = 60 units). This degree is for students who are interested in a career as a commercial pilot either in general aviation, the airlines, or in the area of aviation management.

Code	Title	Units
Required Courses:		
AERO 021	Aviation Fundamentals	3
AERO 022	Private Pilot Ground School ¹	6
AERO 024	Aircraft Powerplants	3
AERO 025	Flight Safety	2
AERO 026	Airframe Structures	3
AERO 027	Airport Certification and Operations	2
AERO 034	Civil Aviation Management and Laws	3
AERO 040	Instrument Ground School	4
AERO 046	Aviation Weather	3
Total Units		29

Recommended Courses:		
AERO 022L	Private Pilot Flight Lab	1
AERO 041L	Instrument Pilot Flight Lab	1
AERO 070	Introduction to Air Traffic Control (ATC)	3
AERO 071	Civil Aircraft Recognition and Performance	2

¹ AERO 022 may be waived if students have taken an equivalent course; students are encouraged to see the Department Chair to determine whether course is equivalent to AERO 022.

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Relate the basic principles of aircraft flight, airport layout, airplane construction, and types of airspace.
- Relate the major aircraft structural components, and the aircraft systems and components and their relevance to aircraft operation.
- Discuss the factors involved in aircraft flight safety.
- Compare the different types of aircraft powerplants and discuss the advantages and disadvantages of each.
- Decipher the different types of weather reports and forecast and determine if aircraft flight is safe.

- Explain the basic principles of aircraft flight.
- Outline how the different types of weather affect aircraft flight safety.
- Explain the relevance of Federal Regulations and laws to aircraft flight safety.
- Contrast the differences in requirements between general aviation, air carriers, and the air cargo industry.
- Examine the different business aspects involved in aviation management.

Flight Operations Certificate of Achievement

This certificate program in Flight Operations is designed for students interested in careers as a pilot in general aviation, commercial aviation, or military aviation. This certificate prepares students for employment or transfer to other colleges, and includes Federal Aviation Administration approved curricula in basic ground school, advanced ground school, and instrument ground school. Through the San Bernardino Valley College Flying Club students have the opportunity to gain flight experience at a nominal cost as they prepare for the private pilot, commercial pilot, or instrument pilot ratings.

Code	Title	Units
Required Courses:		
AERO 021	Aviation Fundamentals	3
AERO 022	Private Pilot Ground School ¹	6
AERO 024	Aircraft Powerplants	3
AERO 025	Flight Safety	2
AERO 026	Airframe Structures	3
AERO 040	Instrument Ground School	4
AERO 046	Aviation Weather	3
Total Units		24

¹ AERO 022 may be waived if students have taken an equivalent course; students are encouraged to see the Department Chair to determine whether course is equivalent to AERO 022.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Relate the basic principles of aircraft flight, airport layout, airplane construction, and types of airspace.
- Relate the major aircraft structural components, and the aircraft systems and components and their relevance to aircraft operation.
- Discuss the factors involved in aircraft flight safety.
- Compare the different types of aircraft powerplants and discuss the advantages and disadvantages of each.
- Decipher the different types of weather reports and forecast and determine if aircraft flight is safe.
- Explain the basic principles of aircraft flight.
- Outline how the different types of weather affect aircraft flight safety.

Flight Operations Certificate of Completion

This noncredit certificate program in Flight Operations is designed for students interested in careers as a pilot in general aviation, commercial aviation, or military aviation. This certificate prepares students for employment or transfer to other colleges, and includes Federal Aviation Administration approved curricula in basic ground school, advanced ground school, and instrument ground school. Through the San Bernardino Valley College Flying Club students have the opportunity to gain flight experience at a nominal cost as they prepare for the private pilot, commercial pilot, or instrument pilot ratings. Students working for certificates must have a basic knowledge of arithmetic, reading, and writing in order to learn and work in the occupations they select.

AERO 621	Aviation Fundamentals	0
AERO 622	Private Pilot Ground School	0
AERO 624	Aircraft Powerplants	0
AERO 625	Flight Safety	0
AERO 626	Airframe Structures	0
AERO 640	Instrumental Ground School	0
AERO 646	Aviation Weather	0
Total Hours		416-468

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Relate the basic principles of aircraft flight, airport layout, airplane construction, and types of airspace.
- Relate the major aircraft structural components, and the aircraft systems and components and their relevance to aircraft operation.
- Discuss the factors involved in aircraft flight safety.
- Compare the different types of aircraft powerplants and discuss the advantages and disadvantages of each.
- Decipher the different types of weather reports and forecast and determine if aircraft flight is safe.
- Explain the basic principles of aircraft flight.
- Outline how the different types of weather affect aircraft flight safety.

Powerplant Maintenance Technician Certificate of Achievement

This certificate is designed to prepare students to qualify for the Powerplant Certificate issued by the Federal Aviation Administration (FAA), which enables the holder to maintain and repair aircrafts ranging from small aircraft used in general aviation to jets utilized by commercial airlines. The written examinations are administered by the FAA at computer testing centers.

Code	Title	Units
Required Courses:		
AERO 050	General/Calculations and Basic Electricity Airframe and Powerplant Technologies	5
AERO 050L	General Laboratory/Calculations And Basic Electricity Airframe and Powerplant Technologies	2
AERO 051	General/Materials and Servicing Airframe and Powerplant Technologies	5
AERO 051L	General Laboratory/Materials and Servicing Airframe and Powerplant Technologies	2
AERO 054	Powerplant Maintenance - Reciprocating Engine Overhaul	6
AERO 054L	Powerplant Maintenance Laboratory - Reciprocating Engine Overhaul	5
AERO 055	Powerplant Maintenance - Accessory Overhaul	6
AERO 055L	Powerplant Maintenance Laboratory - Accessory Overhaul	5
Total Units		36

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply general calculations and basic electricity of aviation as required by the Federal Aviation Administration (FAA).
- Apply general materials and servicing of aviation as required by the FAA.
- Read and interpret powerplant manuals, charts, and task sheets.
- Perform required inspections, maintenance, and repairs on aircraft powerplants.
- Evaluate and troubleshoot aircraft powerplant systems and components.
- Use practical application skills to overhaul aircraft powerplants.
- Read and interpret powerplant overhaul manuals to measure and determine the serviceability of parts.
- Write descriptive and concise discrepancy reports.

Anthropology

Anthropology is the study of what it means to be human. It has been called the most scientific of the humanities and the most humanistic of the sciences as it takes a broad approach to the study of humanity, integrating biological, archaeological, cultural, and linguistic perspectives.

Coursework in anthropology develops skills of critical thinking and enriches understanding of human diversity. Anthropologists often aim for their work to aid in understanding and solving real-world issues faced by humans today. Anthropology majors may find careers in teaching, cultural resource management, advocacy, marketing, or conflict resolution although anthropological insights can be useful in a vast range of occupations. Students planning to transfer to a four-year institution and major in anthropology should consult with a counselor regarding the transfer process and lower division requirements.

-
- Anthropology Associate in Arts for Transfer Degree (p. 109)

ANTHRO 100 3 Units
Introduction to Archaeology
Lecture: 54 contact hours
Advisory: READ 100

This course introduces archaeology, its methods and contributions, in an anthropological context. Topics in this course include cultural resource management, seriation, interpretation of finds, and selected case studies.

Associate Degree Applicable
Transfers to both UC/CSU
C-ID: ANTH 150

ANTHRO 102 3 Units
Cultural Anthropology
Lecture: 54 contact hours
Advisory: READ 100

This course is an introduction to the anthropological study of human diversity and culture. Cultural anthropologists study human organization, expression, subsistence, communication, belief, and identity, in relation to social inequalities and culture change.

Associate Degree Applicable
Transfers to both UC/CSU
C-ID: ANTH 120

ANTHRO 102H 3 Units
Cultural Anthropology - Honors

Lecture: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H

This course is an introduction to the anthropological study of human diversity and culture. Cultural anthropologists study human organization, expression, subsistence, communication, belief, and identity, in relation to social inequalities and culture change. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable
Transfers to both UC/CSU
C-ID: ANTH 120

ANTHRO 103 3 Units
Anthropology of Food

Lecture: 54 contact hours

Advisory: READ 100

This course studies food from a holistic anthropological perspective. It examines production and consumption of food around the world and across time, and it investigates the variability of the cultural meanings and ecological roles of particular food resources and practices.

Associate Degree Applicable
Transfers to both UC/CSU

ANTHRO 106 3 Units
Biological Anthropology

Lecture: 54 contact hours

Advisory: READ 100

This course introduces concepts and methods used to study the human species in a scientific, evolutionary framework. Topics covered include evolutionary theory, genetics, the fossil record of human ancestors, comparative primatology, human variation, and interactions between biology and culture.

Associate Degree Applicable
Transfers to both UC/CSU
C-ID: ANTH 110

ANTHRO 106H 3 Units
Biological Anthropology - Honors

Lecture: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H

This course introduces concepts and methods used to study the human species in a scientific, evolutionary framework. Topics covered include evolutionary theory, genetics, the fossil record of human ancestors, comparative primatology, human variation, and interactions between biology and culture. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable
Transfers to both UC/CSU
C-ID: ANTH 110

ANTHRO 106L 1 Unit**Biological Anthropology Laboratory****Lab:** 54 contact hours**Prerequisite/Corequisite:** ANTHRO 106 or ANTHRO 106H**Advisory:** READ 100

This laboratory course is offered as a supplement to Biological Anthropology (ANTHRO 106 or ANTHRO 106H) either taken concurrently or in a subsequent term. Laboratory exercises are designed to introduce students to the scientific method and explore genetics, human variation, human and non-human primate anatomy and behavior, the primate and hominin fossil record, and other resources to investigate processes that affect human evolution.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ANTH 115L**ANTHRO 108 3 Units****Introduction to Native American Studies****Lecture:** 54 contact hours

This course provides an introduction to the field of Native American Studies. It emphasizes the agency, struggles, and social justice efforts of Native Americans in the United States. Topics covered include Native cultural and intellectual traditions; racialization and intersectionality; antiracism and decolonization; and the relationship between Western scientific practices and Native American experiences. (This course is also offered as ETHS 108)

Associate Degree Applicable**Transfers to both UC/CSU****ANTHRO 109 3 Units****Visual Culture and Art****Lecture:** 54 contact hours**Advisory:** READ 100

This course explores approaches to visual culture and art in the discipline of anthropology. Included in the course is a survey of diverse visual and artistic practices, study of the relations between power and sight, and introduction to the methods of visual anthropology.

Associate Degree Applicable**Transfers to both UC/CSU****ANTHRO 111 3 Units****The Anthropology of Magic, Witchcraft, and Religion****Lecture:** 54 contact hours**Advisory:** READ 100

This course introduces the study of beliefs and practices, past and present, associated with magic, witchcraft, and religion. Topics examined include ritual, symbolism, altered states of consciousness, and healing, as well as syncretism, change, and the social roles of these beliefs and practices. (Formerly ANTHRO 110)

Associate Degree Applicable**Transfers to both UC/CSU****ANTHRO 111H 3 Units****The Anthropology of Magic, Witchcraft, and Religion - Honors****Lecture:** 54 contact hours**Advisory:** READ 100

This course introduces the study of beliefs and practices, past and present, associated with magic, witchcraft, and religion. Topics examined include ritual, symbolism, altered states of consciousness, and healing, as well as syncretism, change, and the social roles of these beliefs and practices. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****ANTHRO 125 3 Units****Language and Culture****Lecture:** 54 contact hours**Advisory:** READ 100

This course provides a foundation for the study of language from an anthropological perspective. Topics studied fall into two main categories: the structure of language and the use of language in cultural contexts. Topics include language ideologies, speech communities, and the relation between culture and language.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ANTH 130**ANTHRO 222 1-3 Units****Independent Study in Anthropology****DIR:** 162 contact hours**Advisory:** READ 100

Students with previous coursework in anthropology may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of anthropology. Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only****ANTHRO 223 1-3 Units****Independent Study in Anthropology - Guided Research****DIR:** 162 contact hours**Prerequisite:** ANTHRO 222

Students with previous coursework in anthropology may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of anthropological research and analysis. Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only**

Anthropology Associate in Arts for Transfer Degree

Anthropology is the study of what it means to be human. It has been called the most scientific of the humanities and the most humanistic of the sciences as it takes a broad approach to the study of humanity, integrating biological, archaeological, cultural, and linguistic perspectives. Anthropologists often aim for their work to aid in understanding and solving real-world issues faced by humans today. The courses within this program are designed to provide students with applicable skills useful in a vast range of occupations.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Anthropology AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Anthropology should consult with a counselor regarding the transfer process and lower division requirements.

Students planning to transfer to a four-year institution and major in Anthropology should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses: (9 units)		
ANTHRO 100	Introduction to Archaeology	3
ANTHRO 102	Cultural Anthropology	3
	or ANTHRO 102H Cultural Anthropology - Honors	
ANTHRO 106	Biological Anthropology	3
	or ANTHRO 106H Biological Anthropology - Honors	
List A - One course from the following: (3 units minimum)		
ANTHRO 125	Language and Culture	3
ENGL 102	Intermediate Composition and Critical Thinking	4
	or ENGL 102H Intermediate Composition and Critical Thinking - Honors	
MATH 108	Introduction to Probability and Statistics	4
	or MATH 108H Introduction to Probability and Statistics - Honors	
PSYCH 105	Statistics for the Behavioral Sciences	4
List B - One to two courses from the following: (4 units maximum)		
BIOL 260	Human Anatomy	4
GEOL 101 & GEOL 111	Introduction to Physical Geology and Introduction to Physical Geology Laboratory	4
GEOL 122	Environmental Geology	3

GEOL 140 & GEOL 141	Earth Science and Earth Science Laboratory	4
GIS 130	Introduction to Geographic Information Systems (GIS)	3
PSYCH 201	Research Methods for the Behavioral Sciences	4

List C - One of the following or any course from List A or B not already used: (3 units minimum)

ANTHRO 103	Anthropology of Food	3
ANTHRO 106L	Biological Anthropology Laboratory	1
ANTHRO 108	Introduction to Native American Studies	3
	or ETHS 108 Introduction to Native American Studies	
ANTHRO 109	Visual Culture and Art	3
ANTHRO 111	The Anthropology of Magic, Witchcraft, and Religion	3
	or ANTHRO 111H The Anthropology of Magic, Witchcraft, and Religion - Honors	
ART 108	Art of Mexico and Mesoamerica	3
COMMST 174	Intercultural Communication	3
ENGL 163	Chicana/o Literature	3
	or ETHS 163 Chicana/o Literature	
ENGL 165	African-American Literature	3
	or ETHS 165 African-American Literature	
HIST 107	Native American Experiences in U.S. History	3
	or HIST 107H Native American Experiences in U.S. History - Honors	
	or ETHS 107 Native American Experiences in U.S. History	
	or ETHS 107H Native American Experiences in U.S. History - Honors	
HIST 137	Experiences of Racial and Ethnic Groups in U.S. History	3
HIST 139	The African American Experience in U.S. History From 1877	3
HIST 140	Chicano Experiences in U.S. History	3
	or HIST 140H Chicano Experiences in U.S. History - Honors	
HIST 150	Introduction to Latin American History	3
HIST 170	World History to 1500	3
HIST 171	World History Since 1500	3
MUS 107	Music Cultures of the World	3
POLIT 141	Introduction to World Politics	3
	or POLIT 141H Introduction to World Politics - Honors	
RELIG 101	Introduction to World Religions	3
SOC 100	Introduction to Sociology	3
	or SOC 100H Introduction to Sociology - Honors	
SOC 141	Race and Ethnic Relations	3
	or SOC 141H Race and Ethnic Relations - Honors	
	or ETHS 141 Race and Ethnic Relations	
	or ETHS 141H Race and Ethnic Relations - Honors	

Code	Title	Units
Major Total		18-21
Total Units That May Be Double Counted		12-19
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		15-24
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Express an understanding of the conceptual and methodological framework that guides anthropological work.
- b. Apply a relativist perspective in addressing issues facing humans and specific human groups, with a focus on the role of culture.

Architecture and Environmental Design

The Architecture and Environmental Design program offers a foundational knowledge for designing sustainable spaces and communities. This area of study allows students to explore a number of fields and build on more specialized knowledge that includes sustainability, housing, material explorations and construction methods, urban planning and issues of environmental justice, and emerging trends in digital design and fabrication. A learning-by-doing approach is stressed in preparation for design-related careers or for transfer to a four-year university for further study in architecture, urban planning, landscape architecture, or civil engineering.

The **Associate of Science Degree** prepares students for a career in design-related disciplines and for transfer to professional degree programs at four-year institutions.

The **Certificate of Achievement** prepares students for entry-level positions in a wide range of design professions, and also serves as a foundation for specializing in a design-related focus.

Many of our students transfer onto a variety of top-tier universities offering accredited architecture programs such as USC and Cal Poly Pomona.

ARCH 102 3 Units

Digital Design Media Level I

Lecture: 18 contact hours

Lab: 108 contact hours

This course introduces students to the fundamentals of representing architectural design. The class focuses on architectural drawing conventions, and uses standard architectural software to draft, document, and represent a three-dimensional design through two-dimensional drawings. Attention is drawn to the relationship between technical and presentation drawings, and the course explores and analyzes architectural presentation principles and techniques.

Associate Degree Applicable

Transfers to both UC/CSU

ARCH 103 3 Units

Architectural Rendering and Visual Communication

Lecture: 18 contact hours

Lab: 108 contact hours

This course serves as an introduction to three-dimensional digital modeling using three-dimensional software, and focuses on how to visually communicate design intent through a series of architectural drawings and diagrams. Different types of renderings and three-dimensional views are introduced, and resulting projects are presented using layout software.

Associate Degree Applicable

Transfers to both UC/CSU

ARCH 104 3 Units

The Built Environment: Culture, Profession, and Urbanization

Lecture: 18 contact hours

Lab: 108 contact hours

This course surveys the built environment throughout history and across different cultures and geographies worldwide. Emphasis is on the role of architecture, and allied disciplines such as urban design and planning, in enabling colonial expansion and domination of non-western cultures. This historical survey ends with an assessment and understanding of contemporary architectural practice, along with licensing pathways and academic and professional trajectories.

Associate Degree Applicable

Transfers to both UC/CSU

ARCH 105 3 Units

Design Theories, Methods, and Visualizations

Lecture: 36 contact hours

Lab: 54 contact hours

This course introduces students to the process of architectural design, exploring the built environment through different media and activities that address distinct design approaches. It includes studies of various representation techniques, media, and processes to express different design philosophies, and an introduction to the tools, techniques, and methods relevant to the design process. The course introduces students to the various scales of architectural intervention, from the dimensions of the human body all the way to the territory of the city.

Associate Degree Applicable

Transfers to both UC/CSU

ARCH 106 3 Units

Sustainability in the Built Environment

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course provides an overview of key areas of sustainability theory and practice, with a focus on how they are expressed in the built environment. Since sustainability is a cross-disciplinary field of study, the course draws from an intellectual breadth of natural and social disciplines spanning the humanities and sciences. In this course we will study how sustainability principles have guided the built environment throughout history, and how sustainability strategies have been taken up by cultures from distinct eras, geographies, and climatic regions in different ways. We will also study how sustainability is measured, valued, and understood by non-Western societies, including Indigenous ones. Specific topics across this spectrum include energy, infrastructure, environmental economics and policy, ethics, and cultural history.

Associate Degree Applicable

Transfers to both UC/CSU

ARCH 112 4 Units**Design Studio I****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** ARCH 105**Advisory:** ARCH 102

This introductory architecture design studio course focuses on design process, including the perceptual and physical study of space from conceptualization and form-making to visualization and presentation. Emphasis on design process includes site analysis of environmental, contextual, and cultural aspects of space, design, and the urban environment. Design investigations will focus on a small residential building for a single client that challenges students to consider the environmental and social impact of their design.

Associate Degree Applicable**Transfers to both UC/CSU****ARCH 113 4 Units****Design Studio II****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** ARCH 112**Advisory:** ENGL 101 or ENGL 101H and ARCH 103

This is a second-level architectural design studio with a focus on site analysis, design conceptualization and form-making, program development, and deep considerations of environmental and cultural contexts. Emphasis is on critical thinking and problem-solving through design, integrating an understanding and articulation of the role of architecture in addressing environmental, social, and climatic inequalities. Design investigations will focus on a public/cultural institution and will utilize digital software to focus on overall design strategies, structural systems, materials, space, light, and a corresponding set of project representations and physical models.

Associate Degree Applicable**Transfers to both UC/CSU****ARCH 145 3 Units****History of Architecture: Early Design Through Gothic****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a survey of Western architectural history from the early Egyptians through the Gothic period, in addition to the eastern architecture of India, Japan and China. The course includes a comparative study of architecture and architects with emphasis on the people, locations, structures, materials, and methods of construction and additional influences on the built environment.

Associate Degree Applicable**Transfers to both UC/CSU****ARCH 145H 3 Units****History of Architecture: Early Design Through Gothic - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a survey of Western architectural history from the early Egyptians through the Gothic period, in addition to the eastern architecture of India, Japan and China. The course includes a comparative study of architecture and architects with emphasis on the people, locations, structures, materials, and methods of construction and additional influences on the built environment. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****ARCH 146 3 Units****History of Architecture: Renaissance Through Modern****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This is a survey course that covers the indigenous architecture in the Pre-Columbian Americas and the Western architectural history Renaissance period to modern times. This course includes a comparative study of architecture and architects with an emphasis on people, locations, structures, materials, and methods of construction.

Associate Degree Applicable**Transfers to both UC/CSU****ARCH 146H 3 Units****Architecture History: Renaissance to Modern - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This is a survey course that covers the indigenous architecture in the Pre-Columbian Americas and the Western architectural history Renaissance period to modern times. This course includes a comparative study of architecture and architects with an emphasis on people, locations, structures, materials, and methods of construction. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****ARCH 202 3 Units****Digital Design Media Level II****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** ARCH 103

Building Information Modeling (BIM) is examined relative to Integrated Project Delivery methods as pertains to collaboration and communication in the design and construction of buildings and building systems. Building construction methods and materials are examined through case studies to explore the means and techniques applied to the material execution of buildings and BIM. Focus on an understanding of the organization of the design and construction process and awareness of building and zoning codes, material systems and types.

Associate Degree Applicable**Transfers to CSU only****ARCH 203 3 Units****Advanced Digital Media and Algorithmic Design****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** ARCH 103

Tools that are available to model design parametrically will be introduced in this class to illustrate the construction of geometrical relationships among complex shapes. Focus is on hands-on techniques that can be applied to the design process, to extend the efficiency and productivity of design work. Using design mathematics and computational definitions, students will develop digital models that they will translated into physical models.

Associate Degree Applicable**Transfers to both UC/CSU**

ARCH 212 4 Units**Design Studio III****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite/Corequisite:** ARCH 202**Prerequisite:** ARCH 113

This upper-level architectural design studio focuses on the principles and applications of environmental design in relationship to architecture, landscape architecture, and urban design and planning. The course emphasizes how sustainability and environmental considerations can be an integral part of the design process, and teaches the applicability and relevance of those considerations for questions of climate justice and equity. Design investigations will focus on a series of a multi-unit housing complex or mixed-use building on an urban site in the San Bernardino or Los Angeles region.

Associate Degree Applicable**Transfers to both UC/CSU****ARCH 213 4 Units****Design Studio IV****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite/Corequisite:** ARCH 203**Prerequisite:** ARCH 212

This upper-level architectural design studio integrates regulatory, site, and social considerations into a sustainable design response that addresses/mitigates climate risks. The focus is on sustainability and energy-efficiency, with a reflection on the environmental and social impact of an architectural design proposal on a given site and surrounding context. Emphasis is on multiple scales of design, from the detailed wall section and building envelope to the structural, energy, and spatial organizational system guiding the design process. Investigations will stress logical organization, craftsmanship, technical skills, vocabulary, and physical object-making through the design of complex building types. Design investigations will focus on a public building complex in a given neighborhood in the Southern California region that is facing social, environmental, and climate risks.

Associate Degree Applicable**Transfers to CSU only**

3D Modeling and Design Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in the fields of architecture, civil engineering, structural engineering, mechanical engineering, electrical engineering, urban planning, interior design, landscape design, manufacturing, and related fields. Computer Aided Drafting (CAD), Rhino, and Grasshopper are the primary tools used to produce and present designs in these fields. The built environment reflects society, and it impacts how people live. Therefore, this certificate incorporates contributions from historically underrepresented architects, engineers, urban planners, interior designers, and accessibility advocates. This certificate further reflects on the impact of design on underrepresented and historically excluded populations and focuses on how design processes can mitigate those impacts.

Code	Title	Units
Required Courses:		
ARCH 105	Design Theories, Methods, and Visualizations	3
ARCH 112	Design Studio I	4
ARCH 102	Digital Design Media Level I	3
ARCH 113	Design Studio II	4
ARCH 103	Architectural Rendering and Visual Communication	3
Total Units		17

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Produce, read, and interpret two and three-dimensional design drawings, documents, and project specifications to gain meaningful information.
- Select and generate appropriate drawing types at relevant scales, and utilizing industry conventions, for a given design problem.
- Construct three-dimensional models using a variety of software and design techniques, and construct a range of views able to communicate design intent.
- Analyze the impact of a design on historically underrepresented populations and on the environment and climate, and offer design variations to mitigate those impacts.

Architecture and Environmental Design Associate of Science Degree

To graduate with a specialization in Architecture and Environmental Design, a student must complete the following courses in addition to the general breadth requirements for an Associate's Degree. For transfer students, these courses will provide students with the tools needed to construct a portfolio that will be required to transfer into Architecture Programs at 4-year institutions. Along with a successful portfolio, these courses should also constitute the first two years of an Architecture Program. In addition, these courses should help students interested in transferring to 4-year institutions in Environmental Design fields, and as Landscape Architecture, Interior Design, and Urban Planning majors. Historically, the built environment has not always incorporated marginalized voices, sustainability, and environmental justice. In the US and globally, there is a long history of the built environment erasing and subjugating disenfranchised populations. This is one of many forms of structural racism. Within this degree, students will be exposed to contributions from underrepresented architects, planners, designers, and engineers that prioritize environmental sustainability, justice, equity, and accessibility. Students will also consider the impact of design on underrepresented populations and will develop tools and strategies for mitigating those impacts.

Code	Title	Units
Required Courses:		
ARCH 104	The Built Environment: Culture, Profession, and Urbanization	3
ARCH 105	Design Theories, Methods, and Visualizations	3
ARCH 112	Design Studio I	4
ARCH 113	Design Studio II	4
ARCH 102	Digital Design Media Level I	3
ARCH 103	Architectural Rendering and Visual Communication	3
ARCH 146	History of Architecture: Renaissance Through Modern	3
	or ARCH 146H Architecture History: Renaissance to Modern - Honors	
ARCH 212	Design Studio III	4
ARCH 213	Design Studio IV	4
ARCH 202	Digital Design Media Level II	3
ARCH 203	Advanced Digital Media and Algorithmic Design	3
Total Units		37

Code	Title	Units
Recommended Courses:		
ARCH 145	History of Architecture: Early Design Through Gothic	3
	or ARCH 145H History of Architecture: Early Design Through Gothic - Honors	

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Express a general breadth of architectural and environmental knowledge using verbal, written and a variety of graphic techniques.
- Apply design principles to the analysis or development of two- and three-dimensional design.
- Present two- and three-dimensional design project solutions explaining their problem-solving procedure utilizing a variety of verbal and graphic techniques, paying particular attention to the potential impact of design on historically underrepresented populations and offering design solutions to mitigate those impacts.
- Relate the impact of various influences to the development of architectural characteristics and styles.
- Possess an awareness of relationships among allied fields.
- Analyze the US and global history of building and urban designs that benefitted some populations at the expense of others. Contrast this with more recent building and urban designs that incorporate previously marginalized voices, environmental sustainability, environmental justice, and accessibility.

Building Information and 3D Modeling Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in the fields of architecture, civil engineering, structural engineering, mechanical engineering, electrical engineering, urban planning, interior design, landscape design, manufacturing, construction, and related fields. Computer Aided Drafting (CAD), Rhino, Grasshopper, and REVIT are the primary tools used to produce and present documents in these fields. The built environment reflects society, and it impacts how people live. Therefore, this certificate incorporates contributions from historically underrepresented architects, engineers, urban planners, interior designers, and accessibility advocates.

Code	Title	Units
Required Courses:		
ARCH 105	Design Theories, Methods, and Visualizations	3
ARCH 112	Design Studio I	4
ARCH 102	Digital Design Media Level I	3
ARCH 103	Architectural Rendering and Visual Communication	3
ARCH 202	Digital Design Media Level II	3
Total Units		16

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Produce, read, and interpret two and three-dimensional design drawings, documents, and project specifications to gain meaningful information.
- Select and generate appropriate drawing types at relevant scales, and utilizing industry conventions, for a given design problem.

- c. Demonstrate the ability to mechanically construct a variety of drawings at appropriate scales utilizing Building Information Management (BIM) and modeling techniques.
- d. Construct three-dimensional models using a variety of software and design techniques, and construct a range of views able to communicate design intent.
- e. Analyze the impact of a design on historically underrepresented populations and on the environment and climate, and offer design variations to mitigate those impacts.

Building Information Management (BIM) Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in the fields of architecture, civil engineering, structural engineering, mechanical engineering, electrical engineering, urban planning, interior design, landscape design, manufacturing, construction management, and related fields. Computer Aided Drafting (CAD) and Building Information Management (BIM) are the primary tools used to produce and present documents in these fields. The built environment reflects society, and it impacts how people live. Therefore, this certificate incorporates contributions from historically underrepresented architects, engineers, urban planners, interior designers, and accessibility advocates. This certificate further reflects on the impact of design on underrepresented and historically excluded populations and focuses on how design processes can mitigate those impacts.

Code	Title	Units
Required Courses:		
ARCH 105	Design Theories, Methods, and Visualizations	3
ARCH 112	Design Studio I	4
ARCH 102	Digital Design Media Level I	3
ARCH 103	Architectural Rendering and Visual Communication	3
ARCH 202	Digital Design Media Level II	3
ARCH 203	Advanced Digital Media and Algorithmic Design	3
Total Units		19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Produce, read, and interpret two and three-dimensional design drawings, documents, and project specifications to gain meaningful information.
- b. Select and generate appropriate drawing types at relevant scales, and utilizing industry conventions, for a given design problem.
- c. Demonstrate the ability to mechanically construct a variety of drawings at appropriate scales utilizing Building Information Management (BIM) and modeling techniques.
- d. Analyze the impact of a design on historically underrepresented populations and on the environment and climate, and offer design variations to mitigate those impacts.

Art

The study of art involves both an appreciation of the cultural heritage of art and the development of skills. Consequently, the Art Department offers courses in art history as well as studio courses in drawing, design, ceramics, painting, life drawing, computer graphics, graphic design, computer animation, web and multimedia design, digital photography, sculpture, and glassblowing. In addition to associate degrees in art and graphic design, the department offers two certificates in graphic design and web and multimedia design, designed for students seeking employment in the design, advertising, and entertainment fields. A baccalaureate degree in art qualifies students for employment in the fine arts, industry, and education. Students planning to transfer to a four-year institution and major in art should consult with a counselor regarding the transfer process and lower division requirements.

ART 098 1-4 Units

Art Work Experience

WRKEX: 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable

ART 100 3 Units

Art History: The Stone Age to the Middle Ages

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

The course is a survey of western art from the Stone Age to the Middle Ages. The course provides an overview of the art and architecture of the following periods: the Stone Age, Ancient Near East, Egypt, the Aegean, the Greek and Roman Empires, the Etruscans, the Byzantine Empire, the Medieval periods in Europe, Romanesque, and Gothic.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: ARTH 110

ART 102 3 Units**Art History: Renaissance to Present****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course is a survey of western art from the Renaissance through the 21st Century. Topics covered include 15th and 16th century Italian art; Renaissance and Baroque art; the Rococo movement; Romanticism; Realism; Impressionism; Cubism; Surrealism and other styles of the 19th, 20th, and 21st centuries.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTH 120**ART 102H 3 Units****Art History: Renaissance to Present - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

The course is a survey of western art from the Renaissance through the 21st Century. Topics covered include 15th and 16th century Italian art; Renaissance and Baroque art; the Rococo movement; Romanticism; Realism; Impressionism; Cubism; Surrealism and other styles of the 19th, 20th, and 21st centuries. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTH 120**ART 103 3 Units****Art Appreciation****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course is an introduction to two- and three-dimensional art from a multicultural perspective. Art in a historical and worldwide context, the function of art in society, art processes, and visual vocabulary are examined. Students will develop an increased appreciation of the differences and similarities among the styles, content, and expression of world art.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTH 110**ART 105 3 Units****History of Modern Art****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a survey of the major stylistic movements, ideologies, and artists that comprise the Modern period in art from the 19th century through the 20th century. Traditional art forms and newer media are discussed, especially in relation to technological, cultural, political, racial and social histories.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTH 150**ART 107 3 Units****Art History: Africa, Oceania and the Americas****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course provides a survey of art from Africa, Oceania and the Americas. This includes an examination of the religious and social factors influencing art, artifacts, and architecture.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTH 140**ART 108 3 Units****Art of Mexico and Mesoamerica****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course is a survey of Mexican and Mesoamerican art from Precolumbian times through the 21st century. Art will be evaluated and critiqued on historical content, subject matter, and aesthetics.

Associate Degree Applicable**Transfers to both UC/CSU****ART 120 3 Units****Two-Dimensional Design****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course is an introduction to basic principles, components, and terminology of two-dimensional design common in the visual arts. Course topics include the principles of design, elements of design, color theory, and an exploration of the creative process.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTS 100**ART 121 3 Units****Three-Dimensional Design****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ART 120 and ENGL 101 or ENGL 101H

This course is a study in the elements and principles of three-dimensional design. The focus is on concepts and their application with regards to spatial relationships and composition. Experimentation is in natural and synthetic materials such as but not limited to paper, clay, wood, plaster, and metal.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTS 101**ART 124A 3 Units****Beginning Drawing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course is a progressive study of form, space, and concept employing a wide range of subject matter and traditional drawing media. Instruction focuses on perceptually based drawing, observational abilities and creative responses to traditional drawing materials and subject matter. Topics include the theory and analysis of perspective in two- and three-dimensional composition such as the various means of representing three-dimensional forms in space through aerial and linear perspective.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTS 110

ART 124B 3 Units**Intermediate Drawing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 124A**Advisory:** ENGL 101 or ENGL 101H

This course is a review of essential concepts of drawing and the development of intermediate-level drawing skills. The focus of instruction will be on the development of an individual thematic approach to drawing and study of complex subject matter, advanced compositional concerns, advanced color theory, traditional and experimental drawing media and surfaces.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTS 205**ART 124C 3 Units****Advanced Drawing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 124B**Advisory:** ENGL 101 or ENGL 101H

This class focuses on how to develop an original body of drawings in various subjects, media and surfaces that reflects knowledge of advanced drawing techniques with a focus on preparing their portfolio for upper division courses at the university and college level and display in the gallery environment. Typical subjects covered in this class will include developing a body of original artwork that expresses the students personal style, portfolio development for upper division coursework, gallery preparation, presentation of finished artwork with appropriate matting and framing, and writing a formal artist statement.

Associate Degree Applicable**Transfers to both UC/CSU****ART 126A 3 Units****Beginning Painting****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course is a progressive study of the fundamentals of painting and painting materials including techniques of composition, color theory, brushwork, and technique, as well as creative responses to materials and subject matter. Topics include the appropriate use of traditional color theory with artistic brush application on prepared surfaces.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTS 210**ART 126B 3 Units****Intermediate Painting****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 126A**Advisory:** ENGL 101 or ENGL 101H

This course is a review of essential concepts and skills of painting and the development of intermediate-level painting skills. Development of original concepts for painting and the study of complex subject matter, advanced compositional concerns, using alternative and experimental surfaces and media.

Associate Degree Applicable**Transfers to both UC/CSU****ART 126C 3 Units****Advanced Painting****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 126B**Advisory:** ENGL 101 or ENGL 101H

This course will focus on the development of an original body of paintings in various subjects, media and surfaces that reflects the student's knowledge of advanced painting techniques with an emphasis on preparing their portfolio for upper division courses at the university and college level and display in the gallery environment.

Associate Degree Applicable**Transfers to both UC/CSU****ART 132A 3 Units****Beginning Life Drawing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

The course is an introduction to drawing the human figure and anatomy from observation using a wide variety of drawing media and techniques. Topics include an introduction to human anatomy, contour, proportions, gesture, and the historical and contemporary roles of figure drawing in the visual arts. Students in this course will learn both descriptive and interpretive approaches to drawing the figure. Drawings are based on a live nude model.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTS 200**ART 132B 3 Units****Intermediate Life Drawing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 132A**Advisory:** ENGL 101 or ENGL 101H

This course is a review of essential concepts of figure drawing and development of intermediate-level figure drawing skills with an emphasis on accurate analysis of anatomy, essential structure and further use of traditional and non-traditional drawing materials and surfaces. The student will develop a portfolio of completed figure drawings with an emphasis on the study of advanced compositional concerns. Drawings are based on a live nude model.

Associate Degree Applicable**Transfers to both UC/CSU**

ART 132C 3 Units**Advanced Life Drawing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 132B**Advisory:** ENGL 101 or ENGL 101H

This course is a continuation of Art 132B. In this class students will develop an original body of life drawings in various media and surfaces that reflect their knowledge of advanced life drawing techniques with a focus on preparing their portfolio for upper division courses at the university and college level and display in the gallery environment. Typical subjects covered in this class will include developing a body of original artwork that expresses the students personal style, portfolio development for upper division coursework, gallery preparation, presentation of finished artwork with appropriate matting and framing, and writing a formal artist statement. Drawings are based on a live nude model.

Associate Degree Applicable**Transfers to both UC/CSU****ART 144 3 Units****Typography and Visual Communication****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ART 148

This course is an introduction to the study of letter forms and fundamental typographic principles and vocabulary with an emphasis on the application to visual communication artifacts. Students investigate typographical structure, format, legibility, and meaning-making through traditional and digital projects, and explore the evolution and classification of letter forms from an historical perspective, including the importance of emerging technology in their development.

Associate Degree Applicable**Transfers to both UC/CSU****ART 145 3 Units****Introduction to Digital Applications for Graphic Design****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course focuses on the fundamental use of computer technology and design software in the production of visual communication and image-based solutions. Students learn to design, analyze, discuss, and present work in a professional digital environment.

Associate Degree Applicable**Transfers to both UC/CSU****ART 148 3 Units****Fundamental Graphic Design Principles and Digital Practices****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to the fundamental concepts, principles, practices, and theories applied to the creation of compositional space. Students will explore the integration of design elements and principles, color theory, composition, typography, visual communication, and visual logic, as they relate to design disciplines and professional practices.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ARTS 250**ART 149 3 Units****Design Thinking in Visual Communication****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 148

This course applies design and production techniques in the development of ideas and user-centered concept visualizations with an emphasis on utilizing more advanced software. Students will explore complex problems utilizing the Design Thinking methodology, including empathy, define, point of view, ideate, rapid prototype, and test, in the creation of 2D and 3D artifacts.

Associate Degree Applicable**Transfers to both UC/CSU****ART 161 3 Units****Digital Photography****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This introductory course focuses on photography as a creative medium. Emphasis in the course is on aesthetics, composition, content, technical and creative skills required to make effective images using digital cameras and computer software. Students also critically evaluate photographic images according to the principles of photographic theory. Students will supply their own camera.

Associate Degree Applicable**Transfers to both UC/CSU****ART 175A 3 Units****Beginning Sculpture****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to three-dimensional sculptural principles, techniques, and concepts utilizing a wide range of materials and practices. Various sculpture methods are practiced with attention to creative self-expression and historical context.

Associate Degree Applicable**Transfers to both UC/CSU****ART 175B 3 Units****Intermediate Sculpture****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 175A**Advisory:** ENGL 101 or ENGL 101H

This course is the study of intermediate level sculpture techniques relating to three dimensional composition, spatial relationships, and imagery, with a focus on modeling techniques in clay and mixed media construction. A continued focus of attention to creative self-expression within both a historical and contemporary context is emphasized.

Associate Degree Applicable**Transfers to both UC/CSU**

ART 175C 3 Units**Advanced Sculpture****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 175B**Advisory:** ENGL 101 or ENGL 101H

This course focuses on how to develop an original body of sculptural objects that reflects knowledge of advanced sculptural techniques. Students prepare their portfolio for upper division courses at the university and college level and display in the gallery environment. Typical subjects covered in this class will include developing a body of original artwork that expresses the students' personal style, portfolio development for upper division coursework, gallery preparation, and writing a formal artist statement.

Associate Degree Applicable**Transfers to both UC/CSU****ART 185 3 Units****Beginning Website Design****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course focuses on the elements of website production, including eXtensible HyperText Markup Language (XHTML) and Cascading Style Sheets (CSS). The course emphasizes preparing web content and designing website layouts in Adobe DreamWeaver. Practical and theoretical understanding of problems related to digital technologies are presented.

Associate Degree Applicable**Transfers to CSU only****ART 186 3 Units****Interactive Web Design****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 185

This course focuses on designing and creating websites and mobile apps for multiple screen devices while highlighting the user experience. Emphasis is on design concepts, user-interaction, understanding of structure, memory management, web media impact and social media marketing.

Associate Degree Applicable**Transfers to CSU only****ART 212A 3 Units****Beginning Ceramics****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to ceramics materials, concepts, and processes including basic design principles, creative development, hand-building, throwing, glaze techniques, firing and ceramic terminology. The course covers aesthetics and creative development of clay objects examining historical, contemporary, and personal modes of expression across cultures.

Associate Degree Applicable**Transfers to both UC/CSU****ART 212B 3 Units****Intermediate Ceramics****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 212A**Advisory:** ENGL 101 or ENGL 101H

This course builds on and extends skills and abilities students gain from the introduction course. Emphasis is placed on projects that require students to collaborate and explore a wide variety of topics. Students will use methods and fabrication techniques that are focused on production and have commercial applications.

Associate Degree Applicable**Transfers to both UC/CSU****ART 212C 3 Units****Intermediate/Advanced Ceramics****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 212B**Advisory:** ENGL 101 or ENGL 101H

This course focuses on the science of ceramic art. Students will study, classify, and understand information/data related to the history and chemistry of clay and glazes. They will learn classic methods of compounding glazes by mathematical and chemical calculation; deducing facts and basic principles essential to glaze analysis of constituent materials. Under supervision students will experiment, assess and gain knowledge that applies to the maintenance, operation, and controlled results of firing kilns.

Associate Degree Applicable**Transfers to both UC/CSU****ART 212D 3 Units****Advanced Ceramics****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 212C**Advisory:** ENGL 101 or ENGL 101H

This course examines ideas, activities, and circumstances that lead to pre-professional ends with an emphasis on developing a personal style and artistic vision. Demonstrations of advanced levels with a focus on portfolio development along with studio operations will be explored. This course is designed for the advanced student who is motivated to pursue a professional path. A written analysis of a current ceramic exhibition is required.

Associate Degree Applicable**Transfers to both UC/CSU****ART 240A 3 Units****Beginning Glassblowing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a beginning study of glass working techniques, including designing and producing vessel and sculptural forms in hot glass. Emphasis is on exploration of color, hot applications, team work, repeatable forms, sandblasting, cold working/fabrications, and non-conventional methods.

Associate Degree Applicable**Transfers to both UC/CSU**

ART 240B 3 Units**Intermediate Glassblowing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 240A**Advisory:** ENGL 101 or ENGL 101H

This course is an intermediate study of hot glass working techniques with an emphasis on developing and refining skills based on design and form. Demonstrations of intermediate techniques include team glassblowing, use of molds and repeatable forms, geared towards acquiring competence in studio management and production.

Associate Degree Applicable**Transfers to both UC/CSU****ART 240C 3 Units****Intermediate/Advanced Glassblowing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 240B**Advisory:** ENGL 101 or ENGL 101H

This course is an intermediate/advanced study of glass working techniques with an emphasis on the exploration of color design. Demonstrations of advanced color techniques will include graal, encalmo, cone work (Filigrana, Zanfirico) and murrin.

Associate Degree Applicable**Transfers to both UC/CSU****ART 240D 3 Units****Advanced Glassblowing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 240C**Advisory:** ENGL 101 or ENGL 101H

This course is an advanced study of glassblowing techniques. This class uses glass as an integral part of the artistic vision. Students will observe demonstrations and work both individually and within groups to develop a body of work. Emphasis is on exploration, personal narrative, both traditional and non-conventional glassblowing methods, installations, etc.

Associate Degree Applicable**Transfers to both UC/CSU****ART 270A 3 Units****Beginning Design in Glass****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a study of beginning glass-working techniques. Topics include producing functional, decorative, and sculptural forms in kiln-fired glass; composition in two dimensions using fusion/lamination of colored glass elements; and lampworked beads.

Associate Degree Applicable**Transfers to both UC/CSU****ART 270B 3 Units****Intermediate Design in Glass****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 270A**Advisory:** ENGL 101 or ENGL 101H

This course is a study of intermediate glass-working techniques. Topics include designing and producing increasingly complex projects, techniques in fused glass, kiln controls, forming lost wax molds, and increasing complex soldering and lampworking.

Associate Degree Applicable**Transfers to both UC/CSU****ART 270C 3 Units****Intermediate/Advanced Design in Glass****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 270B**Advisory:** ENGL 101 or ENGL 101H

This course is a study of intermediate/advanced glass-working techniques. Topics include designing and producing increasingly complex projects, using different compatible materials, experimental techniques, monitoring live slumping of glass and cold-working glass.

Associate Degree Applicable**Transfers to both UC/CSU****ART 270D 3 Units****Advanced Design in Glass****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ART 270C**Advisory:** ENGL 101 or ENGL 101H

This course is a study of advanced glass-working techniques. Topics include advanced mold making, casting glass, communication of creative ideas, demonstration of critical thinking skills, establishing theme and applying appropriate finishing techniques.

Associate Degree Applicable**Transfers to both UC/CSU****ART 280 3 Units****Beginning 3D Digital Animation and Visualization****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ART 145 and ART 148 and ART 149

This course focuses on beginning techniques in storytelling in the 3D environment. Students apply research, planning, scripting and storyboarding techniques, 3D design, rendering, key frame animation, and lighting utilizing industry-standard applications (software). (Formerly ART 180)

Associate Degree Applicable**Transfers to CSU only**

Art Associate of Arts Degree

The Associate of Arts Degree in Art offers a focused approach towards artistic practice and critical thinking through a variety of studio arts and art history courses, including two- and three-dimensional design, ceramics, glass blowing, design in glass, digital art and design, drawing and painting, life drawing, photography and sculpture. Emphasis throughout the curriculum will be placed on individual creativity, aesthetic awareness, and an understanding of the visual arts in societies past and present.

Code	Title	Units
Required Courses:		
ART 100	Art History: The Stone Age to the Middle Ages	3
ART 120	Two-Dimensional Design	3
ART 124A	Beginning Drawing	3
ART 148	Fundamental Graphic Design Principles and Digital Practices	3
ART 161	Digital Photography	3
ART 126A	Beginning Painting	3
or ART 132A	Beginning Life Drawing	
One of the following Art History courses:		3
ART 102	Art History: Renaissance to Present	
or ART 102H	Art History: Renaissance to Present - Honors	
ART 105	History of Modern Art	
ART 107	Art History: Africa, Oceania and the Americas	
ART 108	Art of Mexico and Mesoamerica	
One of the following Design courses:		3
ART 121	Three-Dimensional Design (One of the following Design courses:)	
ART 175A	Beginning Sculpture	
ART 212A	Beginning Ceramics	
Total Units		24

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Integrate drawing and design skills into their aesthetic sensibility.
- Describe the evolution of art history.
- Demonstrate skill in the use of basic tools, techniques, and processes to work from concept to finished product.
- Use basic materials and procedures in 2D and 3D media.

Graphic Design Associate of Arts Degree

The Graphic Design Associate of Arts Degree emphasizes skills for entry level employment in advertising agencies, print houses, design studios, freelance work, and related businesses. It also prepares students to apply to a four-year institution leading to a baccalaureate degree or into a professional art school with a graphic design emphasis.

Code	Title	Units

Code	Title	Units
Recommended Courses:		
ART 120	Two-Dimensional Design	3
ART 121	Three-Dimensional Design	3
ART 124A	Beginning Drawing	3
ART 126A	Beginning Painting	3
ART 132A	Beginning Life Drawing	3
ART 185	Beginning Website Design	3
BUSAD 100	Introduction to Business	3

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Integrate drawing and design skills into their aesthetic sensibility.
- Describe how art history impacts design solutions.
- Analyze a design problem and develop a solution.

- d. Use basic concepts, tools, and techniques of digital media to produce art works concept to finished product.
- e. Apply technical and design standards for digital media.
- f. Evaluate and edit a portfolio that demonstrates preparation for work as an entry-level production artist or graphic designer.

Graphic Design Certificate of Achievement

The Graphic Design Certificate prepares students for entry-level jobs as graphic designers and for those who are looking for experience with industry level design programs.

Code	Title	Units
Required Courses:		
ENGL 101	College Composition	4
or ENGL 101H	College Composition - Honors

ART 185	Beginning Website Design	3
BUSAD 100	Introduction to Business	3

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Integrate design skills into their aesthetic sensibility.
- b. Describe how art history impacts design solutions.

- c. Use basic concepts, tools, and techniques of digital media to produce art works concept to finished product.
- d. Apply technical and design standards for digital media.
- e. Assemble a portfolio that demonstrates preparation for work as an entry-level production artist or graphic designer.

Studio Arts Associate in Arts for Transfer Degree

The Associate of Arts for Transfer (AA-T) in Studio Arts develops a well-rounded artist. Students who pursue this degree will have guaranteed admission to a California State University (CSU) campus upon successful completion of the specified program requirements. This degree provides students with transfer preparation and pre-professional training. Students should consult with a counselor to determine whether this degree is the best option for their transfer goals.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a Studio Arts AA-T degree, students must complete the following Associate Degree for Transfer requirements:

- completion of the following major requirements with grades of C (or 'P');
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a baccalaureate institution and major in Studio Arts should consult with a counselor regarding the transfer process and lower division requirements.

Major Total		24
Total Units That May Be Double Counted		6
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		3-5
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Articulate ideas utilizing art terminology for critical discussion.
- Demonstrate proficient technical and creative skills with a variety of art materials.
- Effectively develop concepts into physical form.
- Describe and discuss art in its aesthetic, cultural and historical context.

Web and Multimedia Design Certificate of Achievement

The Web and Multimedia Design Certificate provides students with a strong foundation in digital media allowing them to adapt and respond to dynamic trends in web technologies. In this certificate program students engage in practical, hands-on, realistic projects. The program provides students with the entry level competencies for employment as a Web Developer or other position which requires knowledge to produce a variety of computer, Web, and/or multimedia graphics.

ART 108	Art of Mexico and Mesoamerica	
Total Units		25

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Integrate design skills into their aesthetic sensibility.
- Describe how art history trends affect web design today.
- Use basic concepts, tools, and techniques of digital media to produce art works concept to finished product.
- Choose the appropriate technical standards for design, typography and animation on the web.
- Develop an online portfolio that demonstrates preparation for work as an entry-level web designer.

Astronomy

Astronomy is the study of the vast universe around us. We start with the earth and sweep outward past the moon to the planets of the solar system and our sun, one of the billions of stars in our galaxy. On our journey through the universe, we explore an exciting realm populated by black holes, quasars, red giants, white dwarfs, and more. Astronomy is taught in a modern planetarium, which accurately simulates the nighttime sky, showing the positions and motions of the stars and planets. The real sky can be viewed through the sixteen-inch reflector telescope in the N. A. Richardson Astronomical Observatory. Students planning to transfer to a four-year institution and major in astronomy should consult with a counselor regarding the transfer process and lower division requirements.

Contact Information

Division: Science (PS - 148)

Division Phone Number: (909) 384-8645

Faculty Chair: Anna Tolstova (atolstov@sbccd.edu), M.S.

Counselor Liaisons: Elizabeth Banuelos (ebanuelos@sbccd.edu), M.S. and Erica Begg (ebegg@sbccd.edu), M.S.

-
- Astronomy Associate of Science Degree (p. 124)

ASTRON 120 3 Units

Introduction to Astronomy

Lecture: 54 contact hours

Advisory: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This is an introduction to astronomy, the ultimate adventure. Our very big universe can be described by a small set of knowable rules through a logical method called science, where the excitement of an evolving and sometimes violent universe of stars and galaxies is explored. Topics include the night sky, motions of the Sun, the Moon, and the planets, light, properties and life-cycles of stars with a detailed look at our Sun, galaxies, and the origin of the universe.

Associate Degree Applicable

Transfers to both UC/CSU

ASTRON 125 1 Unit

Astronomy Laboratory

Lab: 54 contact hours

Prerequisite/Corequisite: ASTRON 120

This course is the companion course to ASTRON 120 Introduction to Astronomy. Laboratory work provides a hands-on enrichment and deeper understanding of topics discussed in the astronomy lecture. Topics include use of star maps, identification of constellations, determination of orbits, rotation rate, and mass of celestial objects using astronomical methods of observation and analysis. Students will also perform 3-D modeling of the solar system and constellations, study the nature of light, lenses and telescopes, make some direct observations with telescopes, and utilize astronomical software.

Associate Degree Applicable

Transfers to both UC/CSU

ASTRON 222 1-3 Units

Independent Study in Astronomy

DIR: 54 contact hours

Prerequisite: ASTRON 120

Advisory: Eligibility for college level English based on the SBVC Guided-Self Placement process.

Students with previous course work in Astronomy may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Astronomy. Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable

Transfers to CSU only

Astronomy Associate of Science Degree

To graduate with a specialization in Astronomy, students must complete the following required courses plus the general breadth requirements for the Associate Degree (minimum 60 semester units).

Code	Title	Units
Required Courses:		
ASTRON 120	Introduction to Astronomy	3
ASTRON 125	Astronomy Laboratory	1
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5
PHYSIC 202	Physics I	4
Total Units		21

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Describe how models of the Universe evolve based on observations.
- Demonstrate general knowledge of physical and astronomical concepts and principles that govern the behavior, properties and evolution of planets, stars, galaxies, and the universe.
- Demonstrate skills in analyzing and interpreting observation data in astronomy.

Automotive Collision and Repair

The Collision Department offers courses designed to provide the skills and knowledge required for immediate employment as well as for students with a personal interest in collision.

Contact Information

ACR 020 6 Units

Non-Structural Body Repair

Lecture: 90 contact hours

Lab: 54 contact hours

This course covers theory and practical experience in automotive collision damage repair and shop safety with a focus on automotive construction, regulations, oxyacetylene and Metal Inert Gas (MIG) welding, surface preparation, basic spray painting, and detailing. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test B-3. (Formerly AUTO 020)

Associate Degree Applicable

ACR 022 6 Units

Non-Structural Collision Repair and Estimating

Lecture: 90 contact hours

Lab: 54 contact hours

This course covers theory and practical experience in automotive collision damage repair and shop safety with a focus on laws and regulations, refinishing techniques, Metal Inert Gas (MIG) welding and steering, suspension and vehicle alignment, damage analysis and estimating, and Hybrid and electric vehicle safety procedures. This course may be used in preparation for the Automotive Service Excellence (ASE) National B3 Test. (Formerly AUTO 022)

Associate Degree Applicable

ACR 024 6 Units

Structural Analysis and Damage Repair

Lecture: 90 contact hours

Lab: 54 contact hours

Advisory: ACR 020 or ACR 022

This course covers theory and practical experience in auto collision repair and shop safety, with a focus on Metal Inert Gas (MIG) welding, panel replacement, theory and practical experience in minor uni-body frame measuring and repair, basic hybrid body repair, and hybrid and electric vehicle safety procedures. This course may be used in preparation for the Automotive Service Excellence (ASE) National B4 Test. (Formerly AUTO 024)

Associate Degree Applicable

ACR 026 6 Units

Auto Collision Refinishing

Lecture: 90 contact hours

Lab: 54 contact hours

Advisory: ACR 020 or ACR 022

This course covers theory and practical experience in automotive collision repair and refinishing, shop safety practices, personal safety, and health protection as outlined by Environmental Protection Agency (EPA) and South Coast Air Quality Management District (SCAQMD). Topics include Sheet Molded Compound (SMC) panel replacement; heat reshaping plastic parts; electrical and electronic systems; single-, two-, and three-stage refinishing systems; spot repairing/blending; polishing; detailing; estimating; and custom painting. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test B2. (Formerly AUTO 026)

Associate Degree Applicable

ACR 030 5 Units

Mechanical Technology for the Collision Specialist

Lecture: 72 contact hours

Lab: 54 contact hours

Advisory: ACR 020 or ACR 022

This course is an intense overview of the mechanical aspects of a vehicle as it pertains to Collision industry. Subjects covered are A/C, Electrical, SRS (Safety Restraint Systems), front end geometry and hybrid and electrical vehicle safety. (Formerly AUTO 030)

Associate Degree Applicable

ACR 040 3.5 Units

Basic Auto Upholstery

Lecture: 36 contact hours

Lab: 81 contact hours

This course offers students basic theory and practical experience in creating custom automotive interiors. Safe work practices and the use of tools to develop, cut, sew and fit are emphasized. This course may also be offered for noncredit as ACR 640. (Formerly AUTOIN 010)

Associate Degree Applicable

ACR 041 3.5 Units

Advanced Custom Auto Interiors

Lecture: 36 contact hours

Lab: 81 contact hours

This course offers advanced level instruction on theory and installation of custom and hot rod automotive interiors. Safe work practices and the use of tools to design, cut, sew, and fit complex interiors are emphasized. This course may also be offered for noncredit as ACR 641. (Formerly AUTOIN 012)

Associate Degree Applicable

ACR 050 4 Units**Basic Vehicle Restoration****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** ACR 020 or ACR 022

The course includes basic vehicle restoration theory and practical experience as well as safe work practices, disassembly, cleaning, body repair, welding, and assembly. This course may also be offered for noncredit as ACR 650. (Formerly AUTORS 010)

Associate Degree Applicable**ACR 060 4 Units****Beginning Street Rod Construction****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** ACR 020 or ACR 022

This course covers theory and practical experience in building a street rod vehicle. Topics include shop safety, design and construction of frame and chassis systems and components, body repair, paint preparation, refinishing, and welding. This course may also be offered for noncredit as ACR 660. (Formerly AUTOST 010)

Associate Degree Applicable**ACR 620 Noncredit****Non-Structural Body Repair****Lecture:** 90 contact hours**Lab:** 54 contact hours

This noncredit course covers theory and practical experience in automotive collision damage repair and shop safety with a focus on automotive construction, regulations, oxyacetylene and Metal Inert Gas (MIG) welding, surface preparation, basic spray painting, and detailing. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test B-3. (Formerly AUTO 620)

ACR 640 Noncredit**Basic Auto Upholstery****Lecture:** 36 contact hours**Lab:** 81 contact hours

This noncredit course offers students basic theory and practical experience in creating custom automotive interiors. Safe work practices and the use of tools to develop, cut, sew and fit are emphasized. This course may also be offered for credit as ACR 040. (Formerly AUTOIN 610)

ACR 641 Noncredit**Advanced Custom Auto Interiors****Lecture:** 36 contact hours**Lab:** 81 contact hours

This noncredit course offers advanced level instruction on theory and installation of custom and hot rod automotive interiors. Safe work practices and the use of tools to design, cut, sew, and fit complex interiors are emphasized. This course may also be offered for credit as ACR 041. (Formerly AUTOIN 612)

ACR 650 Noncredit**Basic Vehicle Restoration****Lecture:** 54 contact hours**Lab:** 54 contact hours

The noncredit course includes basic vehicle restoration theory and practical experience as well as safe work practices, disassembly, cleaning, body repair, welding, and assembly. This course may also be offered for credit as ACR 050. (Formerly AUTORS 610)

ACR 660 Noncredit**Beginning Street Rod Construction****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course covers theory and practical experience in building a street rod vehicle. Topics include shop safety, design and construction of frame and chassis systems and components, body repair, paint preparation, refinishing, and welding. This course may also be offered for credit as ACR 060. (Formerly AUTOST 610)

Advanced Automotive Collision Repair and Refinishing Associate of Science Degree

This degree is designed to prepare students for entry-level work as an auto collision repair technician and/or painter apprentice beyond the Basic Automotive Collision Repair and Refinishing Certificate.

To graduate with a specialization in Advanced Automotive Collision Repair and Refinishing, students must complete the following courses plus the general breadth requirements for the associate of science degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
ACR 020	Non-Structural Body Repair	6
ACR 022	Non-Structural Collision Repair and Estimating	6
ACR 024	Structural Analysis and Damage Repair	6
ACR 026	Auto Collision Refinishing	6
ACR 030	Mechanical Technology for the Collision Specialist	5
ACR 050	Basic Vehicle Restoration	4
or ACR 060	Beginning Street Rod Construction	
Total Units		33

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Estimate damage and make an appraisal.
- Assess damage sustained by each of the three sections of the vehicle.
- Use common resources to identify the damage sustained by the vehicle.
- Measure and evaluate structural damage.
- Identify and analyze types of damage to a vehicle.
- Determine whether or not a vehicle is a total loss or a repairable vehicle.
- Interpret computer-assisted and manually written estimates; verify the information is current.

Advanced Automotive Collision Repair and Refinishing Certificate of Achievement

This certificate is designed to prepare students for entry-level work as an auto collision repair technician and/or painter apprentice beyond the Basic Automotive Collision Repair and Refinishing Certificate and to prepare students for the Automotive Service Excellence (ASE) certification test.

Code	Title	Units
Required Courses:		
ACR 020	Non-Structural Body Repair	6
ACR 022	Non-Structural Collision Repair and Estimating	6
ACR 024	Structural Analysis and Damage Repair	6
ACR 026	Auto Collision Refinishing	6
ACR 030	Mechanical Technology for the Collision Specialist	5
ACR 050	Basic Vehicle Restoration	4
or ACR 060	Beginning Street Rod Construction	
Total Units		33

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Repair doors, glasses, and leaks.
- Diagnose and repair vehicle damage on full frame and unibody vehicles.
- Perform multiple refinishing techniques.
- Repair urethane plastics.
- Measure and evaluate structural damage.
- Estimate a damage vehicle and make an appraisal.

Automotive Interiors Certificate of Achievement

This certificate is designed to prepare students for entry-level work/employment as an automotive interiors technician.

Code	Title	Units
Required Courses:		
ACR 020	Non-Structural Body Repair	6
ACR 040	Basic Auto Upholstery	3.5
ACR 041	Advanced Custom Auto Interiors	3.5
ACR 060	Beginning Street Rod Construction	4
Total Units		17

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify automotive interior component integrity.
- Identify and utilize materials, tools and equipment essential to the automotive interior sector.
- Dismantle, remove and install automotive interior components.
- Restore automotive interior components.

Automotive Interiors Certificate of Completion

This noncredit certificate is designed to prepare students for entry-level work/employment as an automotive interiors technician.

Code	Title	Units
Required Courses:		
ACR 620	Non-Structural Body Repair	0
ACR 640	Basic Auto Upholstery	0
ACR 641	Advanced Custom Auto Interiors	0
ACR 660	Beginning Street Rod Construction	0
Total Hours		432-486

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify automotive interior component integrity.
- Identify and utilize materials, tools and equipment essential to the automotive interior sector.
- Dismantle, remove and install automotive interior components.
- Restore automotive interior components.

Basic Automotive Collision Repair and Refinishing Associate of Science Degree

This degree prepares students for entry-level work as an automotive collision repair technician, structural repair technician, or painter apprentice. Upon completion of this degree, students can work in areas, such as automotive dealerships, auto collision repair facilities, frame repair, or as a parts counter clerk. To graduate with a specialization in Basic Automotive Collision Repair and Refinishing, students must complete all requirements for the certificate with a grade of C or better plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
ACR 020	Non-Structural Body Repair	6
ACR 022	Non-Structural Collision Repair and Estimating	6
ACR 024	Structural Analysis and Damage Repair	6
ACR 026	Auto Collision Refinishing	6
Total Units		24

¹ ACR 020 may be waived through the Articulation 2+2 program with prior agreement with the auto collision and refinishing instructor.

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Recognize damage sustained by each of the three sections of the vehicle.
- Use common resources to identify the damage sustained by the vehicle.
- Measure and evaluate structural damage.
- Identify and analyze types of damage to a vehicle.

Basic Automotive Collision Repair and Refinishing Certificate of Achievement

This certificate is designed to prepare students for entry-level work as an auto collision repair and painter apprentice, or in related areas of an automotive dealership or shop, such as chassis, front end, or frame repair, and parts counter clerk.

Code	Title	Units
Required Courses:		
ACR 020	Non-Structural Body Repair	6
ACR 022	Non-Structural Collision Repair and Estimating	6
ACR 024	Structural Analysis and Damage Repair	6
ACR 026	Auto Collision Refinishing	6
Total Units		24

¹ ACR 020 may be waived through the Articulation 2+2+2 program with prior agreement with the auto collision and refinishing instructor.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Recognize damage sustained by each of the three sections of the vehicle.
- Use common resources to identify the damage sustained by the vehicle.
- Measure and evaluate structural damage.
- Identify and analyze types of damage to a vehicle.

Street Rod Construction Certificate of Achievement

This certificate is designed to prepare students for entry level work as a street rod builder apprentice or related areas of the auto related industry.

Code	Title	Units
Required Courses:		
ACR 060	Beginning Street Rod Construction	4
ACR 050	Basic Vehicle Restoration	4
ACR 020	Non-Structural Body Repair	6
Total Units		14

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Estimate damage on a street rod and make a repair plan.
- Use common resources to identify the damage sustained by the vehicle.
- Measure and evaluate structural and sheet metal damage.
- Determine whether or not a vehicle is a total loss or a repairable vehicle.
- Restore damaged sheet metal to original shape.

Street Rod Construction Certificate of Completion

This noncredit certificate is designed to prepare students for entry level work as a street rod builder apprentice or related areas of the auto related industry.

Code	Title	Units
Required Courses:		
ACR 660	Beginning Street Rod Construction	0
ACR 650	Basic Vehicle Restoration	0
ACR 620	Non-Structural Body Repair	0
Total Hours		320-360

Program Learning Outcomes

At the completion of this program, students will be able to:

- Estimate damage on a street rod and make a repair plan.
- Use common resources to identify the damage sustained by the vehicle.
- Measure and evaluate structural and sheet metal damage.
- Determine whether or not a vehicle is a total loss or a repairable vehicle.
- Restore damaged sheet metal to original shape.

Automotive Technology

The Automotive Technology Department offers courses designed to provide the skills and knowledge required for immediate employment as well as for students with a personal interest in automotive technology. The course of study in automotive technology may lead to an Associate of Science Degree or a vocational certificate.

AUTO 010 4 Units

Introduction to Hybrid and Electric Vehicle Technology

Lecture: 54 contact hours

Lab: 54 contact hours

This course explores the use of hybrid and electric battery power for vehicle transportation. Topics will include safety when using high voltage, maintenance, drivability, inverter, AC/DC power transfer and battery technology, physics of battery storage and hybrid generation systems. Electric vehicle applications and their integrated systems from many manufacturers will be discussed.

Associate Degree Applicable

AUTO 011 3 Units

Electric Vehicle (EV) and Alternative Fuel Vehicle

Lecture: 54 contact hours

Prerequisite: AUTO 010 and AUTO 065

Corequisite: AUTO 011L

This course explores the use of electric vehicle, hydrogen fuel cell and electric battery power for vehicle transportation. Topics will include safety when using high voltage, maintenance, drivability, inverter, AC/DC power transfer and battery technology, physics of battery storage and hydrogen fuel systems. Electric and fuel cell vehicle applications and their integrated systems from many manufacturers will be discussed.

Associate Degree Applicable

AUTO 011L 1 Unit

Electric Vehicle (EV) and Alternative Fuel Vehicle - Laboratory

Lab: 54 contact hours

Prerequisite/Corequisite: AUTO 011

This laboratory course explores the use of electric vehicle, hydrogen fuel cell and electric battery power for vehicle transportation. Topics will include safety when using high voltage, maintenance, drivability, inverter, AC/DC power transfer and battery technology, physics of battery storage and hydrogen fuel systems. Electric and fuel cell vehicle applications and their integrated systems from many manufacturers will be discussed.

Associate Degree Applicable

AUTO 050 3 Units

Automotive Brakes

Lecture: 54 contact hours

Corequisite: AUTO 050L

This course is designed for students and current technicians to gain knowledge and skills in automotive brake systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the brake system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test A-5.

Associate Degree Applicable

AUTO 050L 1 Unit

Automotive Brakes - Laboratory

Lab: 54 contact hours

Corequisite: AUTO 050

This laboratory course is designed for students and current technicians to gain knowledge and skills in automotive brake systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the brake system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test A-5.

Associate Degree Applicable

AUTO 052 3 Units

Automotive Suspension and Steering

Lecture: 54 contact hours

Corequisite: AUTO 052L

This course is designed for students and current technicians to gain knowledge and skills in automotive suspension and steering systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of suspension and steering systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable

AUTO 052L 1 Unit**Automotive Suspension and Steering - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 052

This laboratory course is designed for students and current technicians to gain hands-on knowledge and skills in automotive suspension and steering systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of suspension and steering systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**AUTO 056 4 Units****Automotive Heating and Air Conditioning****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course is an in-depth study of the design and operation of contemporary, domestic and import vehicle air conditioning/heating systems. Air conditioning and heating related parts will be disassembled, inspected and a determination made of the serviceability of existing parts. Emphasis is placed on problem diagnosis of and repair procedures for these systems. This course also offers an introduction to Automatic A/C and Comfort Control Systems, and recovery and recycling of refrigerants.

Associate Degree Applicable**AUTO 062 3 Units****Engine Performance****Lecture:** 54 contact hours**Corequisite:** AUTO 062L

This course provides an in-depth study of the design and operation of domestic and import ignition and fuel systems, emissions systems, as well as Hybrid and electric vehicle safety procedures. Major areas of study include electronic, and computer control ignition and fuel injection systems. Emphasis is placed on the correct diagnosis of and repair procedures for these systems. This course covers the diagnosis and repair/replacement of major components: all sensors, injectors, fuel pumps, and interpretation of computer related malfunctions. The use of current diagnostic test equipment used in today's industry and strategies necessary to determine needed repairs are covered.

Associate Degree Applicable**AUTO 062L 1 Unit****Engine Performance - Laboratory****Lab:** 54 contact hours**Prerequisite/Corequisite:** AUTO 062

This laboratory course provides an in-depth study of the design and operation of domestic and import ignition and fuel systems, emissions systems, as well as Hybrid and electric vehicle safety procedures. Major areas of study include electronic, and computer control ignition and fuel injection systems. Emphasis is placed on the correct diagnosis of and repair procedures for these systems. This course covers the diagnosis and repair/replacement of major components: all sensors, injectors, fuel pumps, and interpretation of computer related malfunctions. The use of current diagnostic test equipment used in today's industry and strategies necessary to determine needed repairs are covered.

Associate Degree Applicable**AUTO 064 4 Units****Auto/Truck Electrical Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course covers basic electrical theory, use of meters, test equipment, wiring diagrams, diagnosis and repair/replacement of major electrical components of automobiles and trucks. Emphasis is placed on diagnosis of starting systems, charging systems, and electrical circuits such as lights and batteries. (This course is also offered as HMDT 064)

Associate Degree Applicable**AUTO 065 4 Units****Electrical Systems Diagnosis and Repair****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course provides students with the knowledge necessary to diagnose and repair automotive electrical malfunctions. Topics include lighting systems, electrical instruments and accessories, electrical door components, air bags, wiring diagrams, and alarm systems. Emphasis is placed on problem diagnosis of and repair procedures for these systems.

Associate Degree Applicable**AUTO 075 3 Units****Automatic Transmissions and Transaxles****Lecture:** 54 contact hours**Corequisite:** AUTO 075L

This course is designed for students and current technicians to gain knowledge and skills in automotive transmissions and transaxle systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on operation, inspection, diagnosis, and servicing of the transmissions and transaxles system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**AUTO 075L 1 Unit****Automotive Transmissions and Transaxles - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 075

This laboratory course is designed for students and current technicians to gain knowledge and skills in automotive transmission and transaxle systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on operation, inspection, diagnosis, and servicing of the transmission and transaxle systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**AUTO 077 3 Units****Manual Transmissions and Transaxles****Lecture:** 54 contact hours**Corequisite:** AUTO 077L

This course is designed for students and current technicians to gain knowledge and skills in automotive manual transmissions and differential systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the manual transmission and differential systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable

AUTO 077L 1 Unit**Manual Transmissions and Transaxles - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 077

This course is designed for students and current technicians to gain knowledge and skills in automotive manual transmission and differential systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the manual transmission and differential systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**AUTO 084 3 Units****General Automotive Technology****Lecture:** 54 contact hours**Corequisite:** AUTO 084L

This course is designed for students and current technicians to gain knowledge and skills in automotive systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the automotive systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**AUTO 084L 1 Unit****General Automotive Technology - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 084

This laboratory course is designed for students and current technicians to gain knowledge and skills in automotive systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on identification, inspection, diagnosis, and servicing of the automotive systems.

Associate Degree Applicable**AUTO 090 3 Units****Engine Repair****Lecture:** 54 contact hours**Corequisite:** AUTO 090L

This course is designed for students and current technicians to gain knowledge and skills in automotive engine repair system. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on operation, inspection, diagnosis, and servicing of the engine repair system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**AUTO 090L 1 Unit****Engine Repair - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 090

This laboratory course is designed for students and current technicians to gain knowledge and skills in automotive engine repair systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the engine repair system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**AUTO 098 1-4 Units****Automotive Technology Work Experience Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**AUTO 650 Noncredit****Automotive Brakes****Lecture:** 54 contact hours**Corequisite:** AUTO 650L

This noncredit course is designed for students and current technicians to gain knowledge and skills in automotive brake systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the brake system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test A-5. This course may also be for credit as AUTO 050.

AUTO 650L Noncredit**Automotive Brakes - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 650

This noncredit laboratory course is designed for students and current technicians to gain knowledge and skills in automotive brake systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the brake system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test A-5. This course may also be offered for credit as AUTO 050L.

AUTO 652 Noncredit**Automotive Suspension and Steering****Lecture:** 54 contact hours**Corequisite:** AUTO 652L

This noncredit course is designed for students and current technicians to gain knowledge and skills in automotive suspension and steering systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of suspension and steering systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test. This course may also be offered for credit as AUTO 052.

AUTO 652L Noncredit**Automotive Suspension and Steering - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 652

This noncredit laboratory course is designed for students and current technicians to gain hands-on knowledge and skills in automotive suspension and steering systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of suspension and steering systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test. This course may also be offered for credit as AUTO 052L.

AUTO 675 Noncredit**Automatic Transmissions and Transaxles****Lecture:** 54 contact hours**Corequisite:** AUTO 075L

This noncredit course is designed for students and current technicians to gain knowledge and skills in automotive transmissions and transaxle systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on operation, inspection, diagnosis, and servicing of the transmissions and transaxles system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test. This course may also be offered for credit as AUTO 075.

AUTO 675L Noncredit**Automotive Transmissions and Transaxles - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 675

This noncredit laboratory course is designed for students and current technicians to gain knowledge and skills in automotive transmission and transaxle systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on operation, inspection, diagnosis, and servicing of the transmission and transaxle systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test. This course may also be offered for credit as AUTO 075L.

AUTO 684 Noncredit**General Automotive Technology****Lecture:** 54 contact hours**Corequisite:** AUTO 684L

This noncredit course is designed for students and current technicians to gain knowledge and skills in automotive systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the automotive systems. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test. This course may also be offered for credit as AUTO 084.

AUTO 684L Noncredit**General Automotive Technology - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 684

This noncredit laboratory course is designed for students and current technicians to gain knowledge and skills in automotive systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on identification, inspection, diagnosis, and servicing of the automotive systems. This course may also be offered for credit as AUTO 084L.

AUTO 685L Noncredit**Auto Shop Practices****Lab:** 108 contact hours

This noncredit course is designed for students and current technicians to gain knowledge and skills in automotive systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the automotive systems. This course provides the student with additional work experience and gives them the opportunity to complete unfinished tasks from other automotive mechanical courses.

AUTO 690 Noncredit**Engine Repair****Lecture:** 54 contact hours**Corequisite:** AUTO 690L

This noncredit course is designed for students and current technicians to gain knowledge and skills in automotive engine repair system. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on operation, inspection, diagnosis, and servicing of the engine repair system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test. This course may also be offered for credit as AUTO 090.

AUTO 690L Noncredit**Engine Repair - Laboratory****Lab:** 54 contact hours**Corequisite:** AUTO 690

This noncredit laboratory course is designed for students and current technicians to gain knowledge and skills in automotive engine repair systems. This course covers the safety procedures, ethics, and diversity in the automotive industry while focusing on inspection, diagnosis, and servicing of the engine repair system. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test. This course may also be offered for credit as AUTO 090L.

Automatic and Manual Transmission Associate of Science Degree

This degree prepares students to gain entry-level employment in maintenance and repair of automotive and hybrid vehicle transmissions. Transmission technicians work with some of the most advanced technology in the auto service industry, including computer command control on electronic gear trains, couplings, hydraulic pumps and other transmission components. To graduate with a specialization in Automatic and Manual Transmissions, students must complete all requirements for the certificate with a grade of C or better plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
AUTO 064	Auto/Truck Electrical Systems	4
or HMDT 064	Auto/Truck Electrical Systems	
AUTO 075	Automatic Transmissions and Transaxles	3
AUTO 075L	Automotive Transmissions and Transaxles - Laboratory	1
AUTO 077	Manual Transmissions and Transaxles	3
AUTO 077L	Manual Transmissions and Transaxles - Laboratory	1
AUTO 084	General Automotive Technology	3
AUTO 084L	General Automotive Technology - Laboratory	1
AUTO 090	Engine Repair	3
AUTO 090L	Engine Repair - Laboratory	1
Total Units		20

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify auto shop safety practices.
- Explain the utilization of automotive tools.
- Summarize the theory and concepts of automotive powertrain and electrical systems.
- Practice auto shop safety.
- Apply the proper use of hand tools used in automotive powertrain and electrical systems.
- Perform the service and repairs of automotive powertrain and electrical systems.

Automatic and Manual Transmission Certificate of Achievement

This certificate prepares students to gain entry-level employment in maintenance and repair of automotive and hybrid vehicle transmissions. Transmission technicians work with some of the most advanced technology in the auto service industry, including computer command control on electronic gear trains, couplings, hydraulic pumps and other transmission components.

Code	Title	Units
Required Courses:		
AUTO 064 or HMDT 064	Auto/Truck Electrical Systems	4
AUTO 075	Automatic Transmissions and Transaxles	3
AUTO 075L	Automotive Transmissions and Transaxles - Laboratory	1
AUTO 077	Manual Transmissions and Transaxles	3
AUTO 077L	Manual Transmissions and Transaxles - Laboratory	1
AUTO 084	General Automotive Technology	3
AUTO 084L	General Automotive Technology - Laboratory	1
AUTO 090	Engine Repair	3
AUTO 090L	Engine Repair - Laboratory	1
Complete the following or place into a transfer-level MATH course:		0-4
TECALC 087	Technical Calculations	4
Total Units		20-24

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify auto shop safety practices.
- Explain the utilization of automotive tools.

- Summarize the theory and concepts of automotive powertrain and electrical systems.
- Practice auto shop safety.
- Apply the proper use of hand tools used in automotive powertrain and electrical systems.
- Perform the service and repairs of automotive powertrain and electrical systems.

Automotive Clean Vehicle Technology Associate of Science Degree

This degree is designed to provide students with the fundamentals of alternative fuel and electric vehicle technology as it applies to the automotive industry. The curriculum prepares students for entry-level positions in alternative fuel/hybrid/electric vehicle maintenance, service and repair, including alternative fuel and electric power technology.

Code	Title	Units
Required Courses:		
AUTO 010	Introduction to Hybrid and Electric Vehicle Technology	4
AUTO 011	Electric Vehicle (EV) and Alternative Fuel Vehicle	3
AUTO 011L	Electric Vehicle (EV) and Alternative Fuel Vehicle - Laboratory	1
AUTO 064 or HMDT 064	Auto/Truck Electrical Systems	4
AUTO 065	Electrical Systems Diagnosis and Repair	4
AUTO 050	Automotive Brakes	3
AUTO 050L	Automotive Brakes - Laboratory	1
AUTO 052	Automotive Suspension and Steering	3
AUTO 052L	Automotive Suspension and Steering - Laboratory	1
Total Units		24

Code	Title	Units
Recommended Courses:		
ELECTR 110	Direct Current Circuit Analysis	3
ELECTR 111	Direct Current Circuit Laboratory	1
ELECTR 115	Alternating Current Circuit Analysis	3
ELECTR 116	Alternating Current Circuit Laboratory	1

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Diagnose and make minor repairs to 12 volt starting and charging systems using electrical schematics.

- b. Demonstrate appropriate personal and shop safety procedures needed to safely work with high voltage and hydrogen fuel systems.
- c. Evaluate system conditions by entering self-diagnostic mode of a given system, correctly interpret diagnostic trouble codes, and diagnose electronic control system faults using appropriate procedures and strategies.
- d. Perform basic maintenance, diagnostic and repair related to electric, hybrid and hydrogen fuel cell vehicles.

Automotive Clean Vehicle Technology Certificate of Achievement

This certificate is designed to provide students with the fundamentals of alternative fuel and electric vehicle technology as it applies to the automotive industry. The curriculum prepares students for entry-level positions in alternative fuel/hybrid/electric vehicle maintenance, service and repair. Including alternative fuel and electric power technology.

Code	Title	Units
Required Courses:		
AUTO 010	Introduction to Hybrid and Electric Vehicle Technology	4
AUTO 011	Electric Vehicle (EV) and Alternative Fuel Vehicle	3
AUTO 011L	Electric Vehicle (EV) and Alternative Fuel Vehicle - Laboratory	1
AUTO 064 or HMDT 064	Auto/Truck Electrical Systems	4
AUTO 065	Electrical Systems Diagnosis and Repair	4
Total Units		16

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Diagnose and make minor repairs to 12 volt starting and charging systems using schematics, as-well-as demonstrate safety precautions used on electric, hybrid, and hydrogen fuel cell vehicles.
- b. Demonstrate appropriate personal and shop safety procedures needed to safely work with high voltage and hydrogen fuel systems.
- c. Evaluate system conditions by entering self-diagnostic mode of a given system, correctly interpret diagnostic trouble codes, and diagnose electronic control system faults using appropriate procedures and strategies.
- d. Perform basic maintenance, diagnostic and repair related to electric, hybrid and hydrogen fuel cell vehicles.

Automotive Technician Associate of Science Degree

The Automotive Technology curriculum is designed to concentrate on technically related courses in the repair of today's high-tech computerized automobile. Upon completion of the program, the degree holder will be able to seek employment as an entry level automobile repair technician in a dealership or the aftermarket service area, and can move into advanced automotive opportunities such as service advising and manufacturer corporate positions.

Code	Title	Units
Required Courses:		
AUTO 050	Automotive Brakes	3
AUTO 050L	Automotive Brakes - Laboratory	1
AUTO 052	Automotive Suspension and Steering	3
AUTO 052L	Automotive Suspension and Steering - Laboratory	1
AUTO 056	Automotive Heating and Air Conditioning	4
AUTO 062	Engine Performance	3
AUTO 062L	Engine Performance - Laboratory	1
AUTO 064 or HMDT 064	Auto/Truck Electrical Systems	4
AUTO 065	Electrical Systems Diagnosis and Repair	4
AUTO 075	Automatic Transmissions and Transaxles	3
AUTO 075L	Automotive Transmissions and Transaxles - Laboratory	1
AUTO 077	Manual Transmissions and Transaxles	3
AUTO 077L	Manual Transmissions and Transaxles - Laboratory	1
AUTO 084	General Automotive Technology	3
AUTO 084L	General Automotive Technology - Laboratory	1
AUTO 090	Engine Repair	3
AUTO 090L	Engine Repair - Laboratory	1
Total Units		40

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Identify auto shop safety practices.
- b. Explain the utilization of automotive system tools.
- c. Summarize the theory and concepts of the automotive systems.
- d. Practice auto shop safety.
- e. Apply the proper use of hand tools used on the automotive systems.
- f. Perform the service and repair of automotive systems.

Automotive Technician Certificate of Achievement

This certificate is designed to prepare students for entry-level work as automotive technicians working in areas such as general automotive and hybrid repair and service.

Code	Title	Units
Required Courses:		
AUTO 050	Automotive Brakes	3
AUTO 050L	Automotive Brakes - Laboratory	1
AUTO 052	Automotive Suspension and Steering	3
AUTO 052L	Automotive Suspension and Steering - Laboratory	1
AUTO 056	Automotive Heating and Air Conditioning	4
AUTO 062	Engine Performance	3
AUTO 062L	Engine Performance - Laboratory	1
AUTO 064	Auto/Truck Electrical Systems	4
or HMDT 064	Auto/Truck Electrical Systems	
AUTO 065	Electrical Systems Diagnosis and Repair	4
AUTO 075	Automatic Transmissions and Transaxles	3
AUTO 075L	Automotive Transmissions and Transaxles - Laboratory	1
AUTO 077	Manual Transmissions and Transaxles	3
AUTO 077L	Manual Transmissions and Transaxles - Laboratory	1
AUTO 084	General Automotive Technology	3
AUTO 084L	General Automotive Technology - Laboratory	1
AUTO 090	Engine Repair	3
AUTO 090L	Engine Repair - Laboratory	1
Complete the following or place into a transfer-level MATH course:		0-4
TECALC 087	Technical Calculations	4
Total Units		40-44

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify auto shop safety practices.
- Explain the utilization of automotive system tools.
- Summarize the theory and concepts of the automotive systems.
- Practice auto shop safety.
- Apply the proper use of hand tools used on the automotive systems.
- Perform the service and repair of automotive systems.

Automotive Engine Performance Associate of Science Degree

This degree is designed to prepare students for entry-level work as an engine performance specialist, diagnostic technician, or a state certified Smog check and repair technician. Students will become familiar with computer systems, hybrid and electrical systems, basic engine diagnosis, emissions repair, and the Smog certification test. To graduate with a specialization in Engine Performance, students must complete all requirements for the certificate with a grade of C or better plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
AUTO 062	Engine Performance	3
AUTO 062L	Engine Performance - Laboratory	1
AUTO 064	Auto/Truck Electrical Systems	4
or HMDT 064	Auto/Truck Electrical Systems	
AUTO 065	Electrical Systems Diagnosis and Repair	4
AUTO 090	Engine Repair	3
AUTO 090L	Engine Repair - Laboratory	1
TECALC 087	Technical Calculations	4
Total Units		20

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Interpret automotive service manuals
- Write accurate repair orders, requests, reports and estimates
- Diagnose and repair engine performance systems
- Diagnose and repair automotive electrical systems
- Diagnose and repair emission systems
- Diagnose and repair ignition systems
- Diagnose and repair fuel systems
- Prepare students for A.S.E. tests A-6; A-8 and L-1
- Perform basic maintenance related to hybrid and electric vehicles

Automotive Engine Performance Certificate of Achievement

This certificate is designed to prepare students for entry level work as an engine performance specialist, diagnostic technician, or a state certified Smog check and repair technician. Students will become familiar with computer systems, hybrid and electrical systems, basic engine diagnosis, emissions repair, and the Smog certification test.

Code	Title	Units
Required Courses:		
AUTO 062	Engine Performance	3
AUTO 062L	Engine Performance - Laboratory	1
AUTO 064 or HMDT 064	Auto/Truck Electrical Systems	4
AUTO 065	Electrical Systems Diagnosis and Repair	4
AUTO 090	Engine Repair	3
AUTO 090L	Engine Repair - Laboratory	1
Complete the following or place into a transfer-level MATH course: 0-4		
TECALC 087	Technical Calculations	4
Total Units		16-20

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Diagnose and repair engine performance related repairs to automobiles.
- Diagnose and repair automotive electrical systems.
- Diagnose and repair emission systems.
- Diagnose and repair ignition systems.
- Diagnose and repair fuel systems.
- Prepare students for A.S.E. tests A-6; A-8 and L-1.
- Perform basic maintenance related to hybrid and electric vehicles.

Automotive Preventative Maintenance Technician Certificate of Achievement

This certificate is designed to prepare students for employment as technicians performing entry-level preventative maintenance and minor repairs. Typical duties include new car preparation, vehicle inspections and assisting master technicians.

Code	Title	Units
Required Courses:		
AUTO 050	Automotive Brakes	3
AUTO 050L	Automotive Brakes - Laboratory	1
AUTO 052	Automotive Suspension and Steering	3
AUTO 052L	Automotive Suspension and Steering - Laboratory	1
AUTO 064 or HMDT 064	Auto/Truck Electrical Systems	4
AUTO 084	General Automotive Technology	3
AUTO 084L	General Automotive Technology - Laboratory	1
Total Units		16

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify auto shop safety practices.
- Explain the utilization of automotive preventative maintenance service and repair tools including brake, suspension, and electrical systems.
- Summarize the theory and concepts of automotive preventive maintenance service repair including, brake, suspension, and electrical systems.
- Demonstrate and practice auto shop safety.
- Apply the proper use of hand tools used in automotive preventive maintenance service and repair systems including, brake, suspension, and electrical systems.
- Perform the preventive maintenance service and repairs of automotive systems including, brake, suspension, and electrical systems.

Automotive Wheel Alignment and Brakes Associate of Science Degree

The degree prepares students for entry-level work in front wheel and four-wheel alignment and brake repair. The technician can move into advanced automotive opportunities such as service advising and manufacturer corporate positions.

Code	Title	Units
Required Courses:		
AUTO 050	Automotive Brakes	3
AUTO 050L	Automotive Brakes - Laboratory	1
AUTO 052	Automotive Suspension and Steering	3
AUTO 052L	Automotive Suspension and Steering - Laboratory	1
AUTO 064	Auto/Truck Electrical Systems	4
or HMDT 064	Auto/Truck Electrical Systems	
AUTO 084	General Automotive Technology	3
AUTO 084L	General Automotive Technology - Laboratory	1
MATH 102	College Algebra	4
Total Units		20

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify auto shop safety practices.
- Explain the utilization of automotive brake, suspension, electrical, and preventative maintenance systems tools.
- Summarize the theory and concepts of the automotive brake, suspension, electrical and preventative maintenance systems.
- Demonstrate and practice auto shop safety.
- Apply the proper use of hand tools used on the automotive brake, suspension, electrical and preventative maintenance systems.
- Perform the service and repair of automotive brake, suspension, electrical and preventative maintenance systems.

Automotive Wheel Alignment and Brakes Certificate of Achievement

This certificate is designed to prepare students for entry-level work as an automotive technician working in the area of wheel alignment and brake repair.

Code	Title	Units
Required Courses:		
AUTO 050	Automotive Brakes	3
AUTO 050L	Automotive Brakes - Laboratory	1
AUTO 052	Automotive Suspension and Steering	3
AUTO 052L	Automotive Suspension and Steering - Laboratory	1
AUTO 064	Auto/Truck Electrical Systems	4
or HMDT 064	Auto/Truck Electrical Systems	
AUTO 084	General Automotive Technology	3
AUTO 084L	General Automotive Technology - Laboratory	1
Complete one of the following or Place into Transfer-Level MATH Course:		
TECALC 087	Technical Calculations	4
Total Units		16-20

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify auto shop safety practices.
- Explain the utilization of automotive brake, suspension, electrical, and preventative maintenance systems tools.
- Summarize the theory and concepts of the automotive brake, suspension, electrical and preventative maintenance systems.
- Practice auto shop safety.
- Apply the proper use of hand tools used on the automotive brake, suspension, electrical and preventative maintenance systems.
- Perform the service and repair of automotive brake, suspension, electrical and preventative maintenance systems.

Biology

The courses offered in the Biology Department are designed to meet the demands of allied health majors, science majors, and non-science majors.

For non-majors, the department's goal is to educate students so they can make informed choices about key socio-biological issues while having the options to take courses with or without a laboratory.

For majors and allied health, the courses provide a strong background in the biological sciences for students transferring to four-year institutions who are interested in careers such as teaching, research, environmental science, or allied health.

Students planning to transfer to a four-year institution in Biology or a related field should consult a counselor at the earliest.

Science Courses for Biology Majors

Students may be eligible to enroll in introductory courses depending on their results of the SBVC assessment process. Contact a Counselor to plan your transfer to a University and to discuss graduation requirements towards an AS-T or AS Biology degree. Counselors experienced with STEM fields are available in the Physical Sciences (PS) Building. Consult the Science Division or visit the Biology Department website for more information.

Code	Title	Units
Chemistry		
CHEM 101	Introductory Chemistry	4-5
or CHEM 105	Introduction to General, Organic and Biochemistry	
CHEM 150	General Chemistry I	5
CHEM 151	General Chemistry II	5

Note: CHEM 150 must be taken concurrently or previously before entering into BIOL 205.

Code	Title	Units
Biology		
BIOL 205	Cell and Molecular Biology	4
BIOL 206	Organismal Biology	4
BIOL 207	Evolutionary Ecology	4

Note: BIOL 206 and BIOL 207 may be taken out of sequence as long as BIOL 205 was taken with a passing grade. BIOL 207 is only offered in the Spring semester.

Code	Title	Units
Physics		
PHYSIC 151	General Physics for the Life Sciences I	4
PHYSIC 152	General Physics for the Life Sciences II	4

Note: PHYSIC 202 and PHYSIC 203 may be taken in lieu of PHYSIC 151 and PHYSIC 152. Consult a counselor to identify transfer programs requiring the 200 series.

To waive CHEM 101, students must:

- Complete credit-by-examination form along with other College policies and conditions provided by the Admissions and Records Office (AD/SS 100) and the Science Division (PS 148).
- Complete and pass a Chemistry examination.

Consult a **STEM Counselor for additional information:** <http://www.sbvstem.org/stem-counseling.php>

Faculty Chairs: Lorrie Burnham (lburnham@sbccd.edu), M.S., and Melissa Romero (melromero@sbccd.edu), M.S.

Counselor Liaisons: Elizabeth Banuelos (ebanuelos@sbccd.edu), M.S. and Erica Begg (ebegg@sbccd.edu), M.S.

STEM Counselors: Daniele Smith-Morton (dasmith@sbccd.edu), Ed.D. and Abena Weber (awahab@sbccd.edu), Ed.D.

- Biology Associate in Science for Transfer Degree (p. 141)
- Biology Associate of Science Degree (p. 140)

Note: The Biology Associate of Science Transfer Degree is intended for students who wish to transfer to a CSU.

BIOL 100 4 Units

General Biology

Lecture: 54 contact hours

Lab: 54 contact hours

This is an introductory course that explores biological concepts in our everyday lives as they are closely connected to racial, sociocultural, health, and environmental issues.

Associate Degree Applicable

Transfers to both UC/CSU

BIOL 104 3 Units

Human Ecology

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

The course presents the ecological consequences of human resource use and population growth. Emphasis is placed on earth's life support systems and current environmental problems threatening human health and species survival.

Associate Degree Applicable

Transfers to both UC/CSU

BIOL 141 3 Units

Genetics

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course is a general introduction to the fundamentals of human heredity. Topics include patterns of inheritance, the structure of DNA and its function, the role mutations play in genetic diseases and cancer, the interaction between genes and the environment, and recent advances in biotechnology and its impact on society.

Associate Degree Applicable

Transfers to both UC/CSU

BIOL 155 4 Units**Introductory Anatomy and Physiology****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided-Self Placement process.

This course is a one-semester introduction to human anatomy and physiology. The course is intended to meet the prerequisite for students entering allied health technician programs or general education requirements of a life science course with a laboratory.

Associate Degree Applicable**Transfers to CSU only****BIOL 205 4 Units****Cell and Molecular Biology****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course is an introduction to cellular and molecular aspects of biology emphasizing principles of scientific process, evolution by natural selection, prokaryotic and eukaryotic cell structure and function, classic and modern genetics, and concepts that integrate cellular with organismal activities. Experimental design concepts and application are emphasized in the laboratory. This is the first semester of three introductory biology courses for the pre-professional, biology major, environmental science or others interested in an in-depth study of biology.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BIOL 190/135S**BIOL 206 4 Units****Organismal Biology****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** BIOL 205 and eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course is an introduction to the diversity of organisms, their structure, function, and adaptations to the environment. The course requires participation in field trips and outdoor classroom (Living Lab Garden and Oak Garden) activities. This course is part of three introductory biology courses for the pre-professional, biology major, environmental science or others interested in an in-depth study of biology.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** B 140/130S/135S**BIOL 207 4 Units****Evolutionary Ecology****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** BIOL 205 and eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course is an introduction to the principles of evolution and the ecological processes governing organisms and populations. The course requires participation in and completion of a field project and participation in weekend field trips and outdoor classroom (Living Lab Garden and Oak Garden) activities. This course is part of three introductory biology courses for the pre-professional, biology major, environmental science or others interested in an in-depth study of biology.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BIOL 130S/135S**BIOL 222 1-3 Units****Independent Study in Biology****DIR:** 54 contact hours

Students with previous course work in biology may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Biology. Prior to registration, a contract must be prepared. See instructor for details.

Associate Degree Applicable**Transfers to CSU only****BIOL 250 4 Units****Human Anatomy and Physiology I****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** BIOL 100 and ENGL 101 or ENGL 101H

This is the first semester of a two-semester sequence that introduces students to the basic concepts and principles of human anatomy and physiology. This course provides a foundation for pre-allied professional majors or others interested in the advanced study of human biology. Topics include inorganic and organic chemistry, body orientation and organization, cytology, histology, fluid and electrolyte balances, and the following systems: nervous, skeletal, muscular, nervous, digestive system, and metabolism. Course includes dissections of preserved specimens. C-ID Note: BIOL 250 + BIOL 251=C-ID BIOL 115S sequence. Upon transfer the sequence is equivalent to the completion of both BIOL 260 (C-ID 110B) + BIOL 261 (C-ID 120B) and considered duplication of credit; maximum credit awarded are 2 courses only.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BIOL 115S**BIOL 251 4 Units****Human Anatomy and Physiology II****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** BIOL 250**Advisory:** BIOL 100 and CHEM 101 or CHEM 105

This is the second semester of a two-semester sequence that introduces students to the basic concepts and principles of human anatomy and physiology. This course provides a foundation for pre-professional majors or others interested in the advanced study of human biology. Topics include fluid and electrolyte balance and the following body system: integumentary, cardiovascular, lymphatic, respiratory, urinary, endocrine, and reproductive. The course includes dissections of preserved specimens. C-ID Note: BIOL 250 + BIOL 251=C-ID BIOL 115S sequence. Upon transfer the sequence is equivalent to the completion of both BIOL 260 (C-ID 110B) + BIOL 261 (C-ID 120B) and considered duplication of credit; maximum credit awarded are 2 courses only.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BIOL 115S

BIOL 260 4 Units**Human Anatomy****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** BIOL 155

This is a comprehensive lecture/laboratory course in human anatomy. It is organized to explore the body both regionally and systemically. The course studies gross anatomy with an extensive dissection of the cat and other significant organs. Relevant comparisons to human systems and structures are emphasized in the laboratory portion of the course. Histological and cellular anatomy are included as they apply to various structures and systems.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BIOL 110B**BIOL 261 4 Units****Human Physiology****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** BIOL 260 and CHEM 105 or CHEM 101**Advisory:** BIOL 100

This course is the second semester of a two-semester sequence. It builds on an understanding of structure to explain the dynamic functions of the human body to a cellular level. Topics include physiology of the following systems: muscular, skeletal, nervous, endocrine, cardiovascular, respiratory, digestive, urinary, and reproductive. Homeostatic mechanisms and the interrelationships of body organ systems are emphasized and enhanced with clinical illustrations. C-ID Note: BIOL 250 + BIOL 251=C-ID BIOL 115S sequence. Upon transfer the sequence is equivalent to the completion of both BIOL 260 (C-ID 110B) + BIOL 261 (C-ID 120B) and considered duplication of credit; maximum credit awarded are 2 courses only.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BIOL 120B**BIOL 270 5 Units****Microbiology****Lecture:** 54 contact hours**Lab:** 108 contact hours**Prerequisite:** CHEM 101 or CHEM 105**Advisory:** Eligibility for college level English based on the SBVC Guided-Self Placement process.

This course is a formal introduction to and exciting exploration of the fundamental principles and techniques of microbiology and immunology. Attention is given to the morphology, control, metabolism, and genetics of microorganisms. Emphasis is placed on the pathogenesis of and immunity to infectious diseases.

Associate Degree Applicable**Transfers to both UC/CSU**

Biology Associate of Science Degree

The Associate of Science degree in Biology is intended to provide breadth in the aspects of biology that investigate the living world including cellular physiology, genetics, ecology, and evolutionary biology. Majors in Biology prepare for a wide variety of occupations in education, government, medicine, research, and biotechnology. This degree prepares students to transfer to four-year universities to pursue a Bachelor's degree. At the four-year institutions, students may choose to specialize in one particular field of Biology. To graduate with the A.S degree in Biology, students must complete the following required courses plus the general breadth requirements for the Associate's Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
BIOL 205	Cell and Molecular Biology	4
BIOL 206	Organismal Biology	4
BIOL 207	Evolutionary Ecology	4
CHEM 150	General Chemistry I	5
CHEM 151	General Chemistry II	5
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
Total Units		30

Code	Title	Units
Recommended Courses:		
CHEM 212	Organic Chemistry I	5
CHEM 213	Organic Chemistry II	5
PHYSIC 151	General Physics for the Life Sciences I	4
PHYSIC 152	General Physics for the Life Sciences II	4

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Evaluate biodiversity at the evolutionary, molecular, cellular, organismal, and ecosystem levels and examine this content knowledge under aspects of social inequities in our local and global human communities.
- Practice scientific thinking and hands-on contemporary methodologies by creating and performing semester-long independent biological studies in laboratory and outdoor settings.
- Utilize biological and scientific information literacy to analyze science from pseudoscience or non-science and distinguish scientific misinformation and disinformation in the global media sphere.
- Present scientific information through various modes of communication, including written and oral presentations.

Biology Associate in Science for Transfer Degree

The Associate in Science in Biology for Transfer (AS-T) is intended for students who plan to transfer and complete a Bachelor's degree in Biology, or a similar major at a CSU campus. It serves the diverse needs of students who wish to obtain a broad and an in-depth understanding of the field. The Biology Department offers comprehensive and integrative studies in each of the introductory courses of Biology. Courses in Biology prepare students interested in careers in cell biology, genetics, physiology, developmental biology, biotechnology, zoology, botany, microbiology, evolution, ecology, behavior, environmental studies, and the health sciences. The objective of this degree is to delineate a successful career path for our community college students entering the Biology program and to provide opportunities that explore the Biology major. Upon successful completion of the AS-T in Biology, students may be able to enter majors for any of these Biology subfields. Students should consult with a counselor to determine whether this degree is the best option for their transfer goals.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a Biology AS-T degree, students must meet the following requirements:

- completion of the following major requirements with grades of C or better;
- completion of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) for STEM or Intersegmental General Education Transfer Curriculum (IGETC-CSU) for STEM which requires a minimum of 31-33 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Biology should consult with a STEM counselor or general counselor regarding the transfer process and lower division requirements. Completion of CSU GE-Breadth for STEM or (IGETC-CSU) for STEM is required in addition to the major requirements.

Code	Title	Units
Required Courses:		
BIOL 205	Cell and Molecular Biology	4
BIOL 206	Organismal Biology	4
BIOL 207	Evolutionary Ecology	4
List A:		
CHEM 150	General Chemistry I	5
CHEM 151	General Chemistry II	5
MATH 250	Single Variable Calculus I	4
PHYSIC 151	General Physics for the Life Sciences I	4
PHYSIC 152	General Physics for the Life Sciences II	4

Code	Title	Units
Major Total		34
Total Units That May Be Double Counted		9-10
General Education (CSU-GE or IGETC for STEM)		31-33
Elective (CSU Transferable) Units		0-3
Total Units		60

Use of CSU GE-Breadth for STEM or IGETC for STEM is presumed.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- In writing, evaluate a claim or research to determine whether it has a basis in non-science, pseudoscience, or science.
- In a written scientific report for a metabolic experiment, introduce the testable hypothesis, articulate the procedures applied, report the appropriate statistical analyses, interpret the results, and discuss uncontrolled variables.
- From a primary scientific article identify a research question, and write a 2-4 page proposal in scientific format introducing research question, background information, and methodologies that test the study question.
- In writing, demonstrate knowledge of organismal biology by relating key evolutionary characteristics of an organism (prokaryote, protist, animal or plant) to the environmental selection pressures encountered at the time of their evolution.
- Demonstrate knowledge of organismal biodiversity by identifying a group of organisms (from lab or field collections) using a combination of taxonomic keys and anatomical observations and organizing them into an appropriate taxonomic classification scheme and reporting the results in a written report.
- In writing, demonstrate knowledge of evolutionary theory by evaluating and justifying whether a claim or statement is biologically valid under the principles of evolution.
- Design and execute an experimental or observational field project. Prepare a scientific written report that includes a working hypothesis, clear description of methodology, narrative of the statistical analyses, and interpretation of the results in relationship to the working hypothesis including a discussion of uncontrolled variables.

Business Administration

The Business Administration Department offers courses in the fundamentals of business organization and management as well as in marketing and business law.

For non-business majors, these courses offer a general view of the world of business and finance. For business majors, these courses provide a solid foundation in preparation for transfer to a four-year institution. Students planning to transfer to a four-year institution and major in business administration or a related field should consult with a counselor regarding the transfer process and lower division requirements.

BUSAD 039 3 Units

Strategies for Successful Employment

Lecture: 54 contact hours

Advisory: CIT 010

This course is designed to help students develop the skills needed to successfully seek employment by using strategies to identify skills and search for a job, interview for a job, and acquire a job, while preparing to become a member of a diverse workforce.

Associate Degree Applicable

BUSAD 050 3 Units

Business Math

Lecture: 54 contact hours

This course covers fundamental mathematical calculations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business.

Associate Degree Applicable

BUSAD 098 1-4 Units

Business Administration Work Experience

WRKEX: 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable

BUSAD 100 3 Units

Introduction to Business

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course introduces the trends and opportunities in today's dynamic business environment as they relate to economics, global markets, ethics and social responsibility, business ownership forms, entrepreneurship, management responsibility, human resources management, marketing, operations, accounting, and financial management. Students gain important business context and discover business careers and educational opportunities.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: BUS 110

BUSAD 103 3 Units

Marketing Principles

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course studies the strategic marketing process, which creates value for consumers and organizations through integrated production and distribution of products. It examines the marketing process in the context of the global, cultural, economic, legal/regulatory environment. It also examines ethical and socially-responsible marketing and the impact of information technology.

Associate Degree Applicable

Transfers to CSU only

BUSAD 105 3 Units

Small Business Management/Entrepreneurship

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This is a course on how to start and operate a small business. Topics include facts about small business, essential management skills, how to prepare a business plan, financial needs, marketing strategies, and legal issues. This is a comprehensive examination of establishing and operating a small business in today's dynamic business environment.

Associate Degree Applicable

Transfers to CSU only

BUSAD 106 3 Units

Principles of Selling

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course covers the problems of analyzing the sales talk, making an adequate approach, meeting objectives, excuses, and techniques of closing the sale, and the psychology involved in selling services, goods, ideas and one's own personality.

Associate Degree Applicable

Transfers to CSU only

BUSAD 108 3 Units**Personal Finance, Investments and Estate Planning****Lecture:** 54 contact hours**Prerequisite:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course is an integrated approach to personal finance focusing on practical financial decision making as well as the social, psychological, and physiological contexts in which those decisions are made. The student will examine the preparation for managing one's personal finances and the opportunities and costs with making financial decisions.

Associate Degree Applicable**Transfers to both UC/CSU****BUSAD 110 3 Units****Human Resource Management****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a survey of the objectives, functions, and practices in the management of employee relations, and the impact of employee relations on the effective achievement of the organization's goals. Students will also analyze the steps needed to develop practices in creating a diverse and inclusive work environment.

Associate Degree Applicable**Transfers to CSU only****BUSAD 112 3 Units****Principles of Retailing****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course will cover the role of retailing in serving and connecting the needs of diverse communities. The topics will include analysis of consumer needs, store locations, financial requirements, and legal processes of starting a retail operation, planning for store layout, merchandise mix, vendor negotiation, pricing, displaying, advertising, selling, and controlling of merchandise.

Associate Degree Applicable**Transfers to CSU only****BUSAD 120 3 Units****Business Management/Leadership****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is designed for business majors and examines the primary dimensions of the management process including planning, organizing, decision-making and controlling organizational activity within a diverse work force.

Associate Degree Applicable**Transfers to CSU only****BUSAD 127 3 Units****Business Communication****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a study of the principles and role of business communication and the need for communication skills in interacting with diverse populations in a global marketplace. Emphasis is placed on written communications, including business letters, proposals, resumes and other business documents.

Associate Degree Applicable**Transfers to CSU only****C-ID:** BUS 115**BUSAD 151 3 Units****Human Relations****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course covers the business concepts of individual, group, and organizational human behavior as they affect human relations, performance, and productivity within the workplace. Strategies and techniques that influence communications, employee leadership and interactions among people—including cultural diversity and its impact—are explored.

Associate Degree Applicable**Transfers to CSU only****BUSAD 210 3 Units****Business Law****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course explores the legal environment in which business operates. It includes an introduction to law and legal reasoning, ethics, torts, strict and products liability, criminal law and contracts.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BUS 125**BUSAD 222 1-3 Units****Independent Study in Business Administration****DIR:** 54 contact hours

Students with previous course work in Business Administration may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Business Administration. Prior to registration, a written contract must be prepared jointly by the instructor and the student. See instructor for details.

Associate Degree Applicable**Transfers to CSU only****BUSAD 600 Noncredit****Empowering Yourself in Pursuit of a Career in the Business World****Lecture:** 18 contact hours

This noncredit course is designed to help students identify their unique personal characteristics applicable in order to be competitive in today's business world. Students will be able to discover their job skills, personality types, core values, and fit for different organizational cultures while learning how to develop confidence and resilience during a job search process within the career fields of accounting, human resources, finance, marketing, information technology, operations management, or any other business-related field.

BUSAD 601 Noncredit**Essential Writing Skills for Employment in the Business World****Lecture:** 18 contact hours

This noncredit course is designed to improve a job seeker's success rate by teaching students how to update their job application skills in preparation to enter the business world. Topics include creating and or updating resumes, cover letters, and responding to the desired selection criteria within the identified business field to assure a higher success rate.

BUSAD 602 Noncredit**Interview Skills for the Business World****Lecture:** 18 contact hours

This noncredit course provides essential job interview skills and helps students learn how to prepare for interviews in the business field, both in person and online. In this course, students will learn about how to prepare for, and be successful during a job interview by learning how to research into a company before practicing answering interview questions in both in-person and video format.

BUSAD 603 Noncredit**Understanding the Hidden Job Market in the Business World****Lecture:** 16 contact hours

This noncredit course teaches students the key strategies for tapping into this hidden job market through networking. Many jobs in the business field are typically not advertised. Students will start to build an online network, learning the tips to become a successful networker, and putting their value proposition to work. We are already more connected than they might think and this course teaches the skills needed to unlock the hidden job market.

BUSAD 604 Noncredit**Starting Work and Staying Employed in the Business World****Lecture:** 36 contact hours

This noncredit course is designed to help job seekers prepare for their first days and weeks at work. The business recruitment journey isn't quite over after being offered a job and this course will help students understand the salary, benefits, and working conditions within a position in a company in order to create a solid foundation for career growth within the business field. Topics include reviewing dress codes, arrival tips, workplace behaviors, creating and maintaining positive workplace relationships, tips for remembering names, when to leave for the day, and how to ultimately keep a job.

BUSAD 611 Noncredit**Skills for Leaders/Managers****Lecture:** 18 contact hours

This noncredit course will provide survival skills for new supervisors and those who aspire to move to managerial positions. Necessary skills of time management, leadership, planning, motivation, conducting meetings, communication, handling stress, conflict, and performance appraisals will be discussed. Students will be involved in a variety of management exercises, discussions, current trends in management, and real-world scenarios.

BUSAD 612 Noncredit**Time Management Skills****Lecture:** 18 contact hours

This noncredit course will give students practical tips and tools to manage time in academic and business-related situations. Students will learn how to set short-term and long-term goals, prioritize goals and activities, develop plans, and overall organizing a workplace. Topics included will also help identify typical time wasters/time leaks (including procrastination), and ways of overcoming them.

BUSAD 613 Noncredit**Dealing With Difficult People****Lecture:** 18 contact hours

This noncredit provides students with the practical techniques for resolving and preventing interpersonal conflicts in the workplace. Whether it's a manager who keeps moving the goal posts, an uncooperative colleague, negative friend, or critical family member, some people are difficult to get along with and this course gives students the strategies to successfully work with them.

BUSAD 614 Noncredit**Listening Skills****Lecture:** 18 contact hours

This noncredit course shows students how to acquire active, productive listening skills and put them to work in professional, social, and personal settings. Many managers and other employees spend most of their time listening to other people but often do it so poorly that the result is misunderstood instructions, misdirected projects, and erroneous actions, which oftentimes can be avoided by applying effective listening skills.

BUSAD 615 Noncredit**Quality Customer Service****Lecture:** 18 contact hours

This noncredit course offers practical information and techniques to create excellent service to diverse customers. Emphasis will be on the many facets of customer service and how to address each facet successfully.

BUSAD 620 Noncredit**Creating a Business Plan****Lecture:** 24 contact hours

In this noncredit course, students evaluate the many aspects and potential hurdles of the business and build the Business Plan, one step at a time. This practical, hands-on approach encourages students to immerse themselves in the vision and planning aspects of a business. Focusing on the most critical components of the Business Plan, and enables students to uncover hidden risks and assess a business from a marketing, management, and financial vantage point.

BUSAD 621 Noncredit**Strategic Marketing for Entrepreneurs****Lecture:** 24 contact hours

This noncredit course provides an overview of successful marketing strategies for small start-up businesses. Students will learn to examine and analyze consumer behavior, identify target market segments, price for profitability, and select promotional tactics. The course emphasizes the integration of these marketing functions into an effective marketing plan.

BUSAD 622 Noncredit**Funding and Financing for Entrepreneurs****Lecture:** 24 contact hours

This noncredit course will provide a practical application of basic financial management principles that apply to entrepreneurs. Emphasis is placed on developing useful financial information used in small businesses and business plans. Specifically, this will be accomplished by providing the tools necessary to maintain proper financial records to make budgetary decisions related to cash and financing needs, pricing of products or services, the payment of taxes and loans, and determining profitability to help students become successful entrepreneurs.

BUSAD 623 Noncredit**Legal Issues for Entrepreneurs****Lecture:** 24 contact hours

This noncredit course provides students interested in entrepreneurship with an understanding of the common legal issues encountered from the perspective of the business owner. It reviews legal structures, intellectual property, employment law, contracts, government regulation, and personal and real property. Students will apply the concepts learned to select their business structure, learn contract law, properly navigate government regulations, and understand legal parameters related to the management of human resources.

BUSAD 624 Noncredit**Accounting for Entrepreneurs****Lecture:** 24 contact hours

This noncredit course is an introductory study of the basic accounting required to manage the financial documentation related to running a small business. Emphasis is placed on the practical application of recording, summarizing, and reporting business transactions for internal purposes as well as for completing federal, state, and local reporting requirements.

BUSAD 625 Noncredit**Leadership and Management for Entrepreneurs****Lecture:** 24 contact hours

This noncredit course explores the leadership and management issues entrepreneurs face as they create and establish successful new ventures. It reviews the key managerial roles of planning, organizing, staffing, leading and controlling and their application in entrepreneurial settings. Further, the course addresses self-management for the entrepreneur and how an entrepreneur can manage their own time and maintain a proper work-life balance.

Business Administration Associate of Arts Degree

The Business Administration Associate of Arts degree helps students start or advance careers in the business field. By enrolling in this degree program, students will develop skills required to plan, organize, make effective decisions, communicate, and lead complex organizations. For those already working in the business field, but lack the education to advance their career, obtaining an associate of arts degree in Business Administration can help move to the next level.

Two of the greatest benefits of a career in business administration are the flexibility and choice of industries that offer employment. Business Administration graduates can work in fields such as Human Resources, Marketing, Pre-law, Small Business, International Management, Sales, Accounting, Banking Finance, Management, and Import/Export.

Code	Title	Units
Required Courses:		
ACCT 200	Financial Accounting	4
ACCT 201	Managerial Accounting	4
ECON 208	Business and Economic Statistics	4
or MATH 108	Introduction to Probability and Statistics	
or MATH 108H	Introduction to Probability and Statistics - Honors	
BUSAD 100	Introduction to Business	3
BUSAD 103	Marketing Principles	3
BUSAD 210	Business Law	3
CIT 101	Introduction to Computer Literacy	3
ECON 200	Principles of Macroeconomics	3
or ECON 200H	Principles of Macroeconomics - Honors	
ECON 201	Principles of Microeconomics	3
or ECON 201H	Principles of Microeconomics - Honors	
Total Units		30

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate mastery of accounting procedures and practices.
- Evaluate the global economy and its impact on the U.S economy.
- Demonstrate an understanding of and familiarity with the world of business and its related terminology.
- Analyze theories, principles, and policies of the United States economic system.
- Critically assess the relationship between the individual, business, and the global economy.
- Apply the methods of effective business communication.
- Describe the legal aspects of business operation.
- Consider the ethical and social responsibility issues affecting the current business environment.

Business Administration 2.0 Associate in Science for Transfer Degree

The Associate in Science for Transfer (AS-T) in Business Administration 2.0 is designed to provide students with the common core of lower division courses required to transfer and pursue a baccalaureate degree in Business Administration. This includes business degrees with options such as accounting, finance, human resources management, international business, management, operations management, and marketing.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Business Administration 2.0 degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Business Administration should consult with a counselor regarding the transfer process and lower division requirements.

Major Total		28
Total Units that may be Double-Counted		9
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		2-4
Total Units		60

Note: CSUSB requires CIT 101 for their program.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify and explain accounting procedures and practices.
- Evaluate the global economy and its impact on the U.S economy.
- Recognize the world of business and its related terminology.
- Analyze theories, principles, and policies of the United States economic system.
- Critically assess the relationship between the individual, business, and the global economy.
- Apply the methods of effective business communication.
- Describe the legal aspects of business operation.
- Consider the ethical and social responsibility issues affecting the current business environment.

Business Administration Certificate of Achievement

This certificate is designed to prepare students for entry-level work in the business field by providing the fundamentals of business organization and management as well as in marketing and business law.

Code	Title	Units
Required Courses:		
ACCT 010	Bookkeeping	3-4
or ACCT 200	Financial Accounting	
BUSAD 050	Business Math	3
BUSAD 100	Introduction to Business	3
BUSAD 103	Marketing Principles	3
BUSAD 108	Personal Finance, Investments and Estate Planning	3
BUSAD 127	Business Communication	3
CIT 101	Introduction to Computer Literacy	3
COMMST 100	Elements of Public Speaking	3
or COMMST 100H	Elements of Public Speaking - Honors	
Total Units		24-25

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Understand the general nature structure, resources and operations of business organizations.
- Demonstrate the ability to explain an organization's basic accounting, finance, management, marketing and legal functions.
- Express business ideas and information effectively in both oral and written forms.

Business Workplace Essential Skills Certificate of Completion

Upon completion of this program, students can use the skills learned in this certificate potentially to advance in their current career fields, in areas such as business law, business operations, government, human resources, information management, international business, marketing, nonprofit administration and personal finance. Employment opportunities include working in fields related to retail, customer service, marketing, sales, management, and small business. The skills taught in these classes are soft skills which have been identified from our advisory board, local employers, and the Bureau of Labor Statistics as valuable and desirable.

Code	Title	Units
Required Courses:		
BUSAD 611	Skills for Leaders/Managers	0
BUSAD 612	Time Management Skills	0
BUSAD 613	Dealing With Difficult People	0
BUSAD 614	Listening Skills	0
BUSAD 615	Quality Customer Service	0
Total Hours		80-90

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify practices that can assist in enhancing diversity and inclusion.
- Prepare best practices for organizing their work, schedule, and life.

- c. Identify and implement strategies for preventing and dealing with different types of difficult behavior.
- d. Explain the role of problem solving in customer service and its importance.
- e. Describe a range of listening skills that they can use on the job and in their personal life.
- f. Communicate effectively and collaborate with others.

- h. Explain how the dynamic workplace requires the need for continuous learning and acquisition of new skills.

Career Essentials for the Business World Certificate of Completion

This noncredit certificate teaches students how to be effective and productive in their job search strategy in the business career fields. Students learn to locate employment, how to research companies, how to write a resume, proper interviewing techniques, and how to utilize social media for online access to professional opportunities and networking. It helps to focus on personal skills, professional behaviors, and tools to help students succeed in any business career and learn soft and hard skills applicable to many occupations and empower students to thrive professionally. This program provides you with the necessary tools and techniques to enter the workforce and develop employability skills. Topics include - career research and planning, self-assessment, effective job searches, writing resumes and cover letters, job applications, developing reference lists, interviewing techniques, appropriate workplace behaviors/culture/etiquette, hard & soft skills, diversity in the workplace, effective communication skills, and fundamental academic skills.

Code	Title	Units
Required Courses:		
BUSAD 600	Empowering Yourself in Pursuit of a Career in the Business World	0
BUSAD 601	Essential Writing Skills for Employment in the Business World	0
BUSAD 602	Interview Skills for the Business World	0
BUSAD 603	Understanding the Hidden Job Market in the Business World	0
BUSAD 604	Starting Work and Staying Employed in the Business World	0
Total Hours		96-108

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Describe the techniques needed to improve career readiness and to secure a job in the business world.
- b. Define the job search process.
- c. Recognize the qualities, skills, and abilities needed when applying for jobs within the business world.
- d. Create a professional resume, cover letter, and other resources needed for a successful job search.
- e. Describe how to communicate and work cooperatively with individuals in the workplace.
- f. Develop the desired employment skills such as working on a team, problem solving and organizational skills.
- g. Give examples of the benefits of diversity, equity, and inclusion in the workplace.

Entrepreneurship - General Certificate of Achievement

The Entrepreneurship - General certificate provides students with an understanding of small business planning, financial management, and integrated business topics on entrepreneurship and small business management. Upon completion of this program students will be able to examine small business marketing opportunities, identify innovative small business strategies, evaluate financial management decisions, and address the challenges and opportunities specific to small business management and entrepreneurship.

Code	Title	Units
Required Courses:		
BUSAD 050	Business Math	3
BUSAD 103	Marketing Principles	3
BUSAD 105	Small Business Management/Entrepreneurship	3
BUSAD 106	Principles of Selling	3
BUSAD 110	Human Resource Management	3
BUSAD 120	Business Management/Leadership	3
Total Units		18

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Design and develop a comprehensive business plan to start a small business.
- b. Design and develop a comprehensive small business marketing plan by using appropriate marketing strategies.
- c. Compile and prepare accurate financial information for tax compliance and informed business decisions.

Entrepreneurship - Real Estate Certificate of Achievement

This certificate is designed for students who are interested in studying to become their own real estate broker, real estate manager or work in the field of property management. The certificate program provides students with an overview of the different areas of the real estate market and will help guide the student to be an independent broker/agent, to run your own real estate practice, or property management company.

Code	Title	Units
Required Courses:		
BUSAD 103	Marketing Principles	3
BUSAD 105	Small Business Management/Entrepreneurship	3
BUSAD 106	Principles of Selling	3
REALST 062	Real Estate Practice	3
REALST 063	Real Estate Loan Processing Fundamentals	3
REALST 100	Real Estate Principles	3
Total Units		18

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create and start new ventures within their selected field of real estate.
- Know how to manage and grow new ventures.
- Demonstrate knowledge of current information, theories and models, and techniques and practices in all of the major business disciplines including the general areas of Accounting and Finance, Information Technologies, Management, Marketing, and Quantitative Analysis.

Entrepreneurship - Tax Certificate of Achievement

This certificate is designed for students who are interested in studying taxation for their own professional practice or a venture in family business as well as for those who are interested in developing tax skills, creative thinking and innovative approaches as a career builder in working for small or large corporations. The certificate program provides students with an overview of the different areas of taxation and provides them with the skills and knowledge they need to identify and resolve many tax issues.

Code	Title	Units
Required Courses:		
ACCT 010	Bookkeeping	3
ACCT 030	Federal and State Individual Income Taxation	4
ACCT 047	Computerized Accounting	3
ACCT 090	Payroll Accounting	3
BUSAD 103	Marketing Principles	3
BUSAD 105	Small Business Management/Entrepreneurship	3
BUSAD 106	Principles of Selling	3
Total Units		22

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze and problem solve within their tax preparation/bookkeeping venture.
- Create and start new ventures associated to tax preparation.
- Manage and grow their tax preparation/bookkeeping venture.
- Demonstrate knowledge of current information, theories and models, and techniques and practices in all of the major business disciplines including the general areas of Accounting and Finance, Information Technologies, Management, Marketing, and Quantitative Analysis.

Leadership Certificate of Achievement

The certificate in Leadership provides students with a foundation and understanding of basic business philosophies, skills and techniques that are required to become productively employed in assisting in the management of a business enterprise. This program is designed for students who wish to prepare for a career in the administration of modern organizations. It surveys the functional operations of business organizations, giving special consideration to the management of human resources, law, ethics, marketing, accounting practices, and economics.

Code	Title	Units
Required Courses:		
ACCT 200	Financial Accounting	4
BUSAD 110	Human Resource Management	3
BUSAD 120	Business Management/Leadership	3
BUSAD 127	Business Communication	3
BUSAD 151	Human Relations	3
BUSAD 210	Business Law	3
CIT 101	Introduction to Computer Literacy	3
Total Units		22

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Gain an understanding of current management/leadership practices and problems related to human behavior in organizations. They will understand the theories related to actual business practices and diagnose the organizational context and its critical importance. Analysis and discussions will encompass planning, organizing, controlling, decision making, communication, motivation, leadership, human resource development, information systems, and social responsibility.
- Develop a comprehensive set of practical skills and tools to rely on through leadership practice. Such skills and tools include time management, meeting management and agenda setting, group dynamics and team building.

- c. Communicate effectively (utilizing written and spoken word, non-verbal language, electronic tools, and listening skills) in order to develop relationships, manage conflicts, and work across differences.
- d. Develop an understanding of change processes, and be able to think critically about obstacles to change.
- e. Understand how ethics, morals, and values relate to their leadership dilemmas.
- f. Develop a range of leadership skills and abilities such as effectively leading change, resolving conflict and motivating others.

Practical Entrepreneurship Certificate of Completion

Thinking about starting your own business, but don't know where to start? Entrepreneurship has become a fast-growing field of study as many individuals contemplate starting a new venture or establishing their own business, especially during these turbulent economic times. The Practical Entrepreneurship Certificate prepares students to start, run, and manage a new or existing business and addresses basic issues potential entrepreneur's encounter. This certificate identifies methods for developing an individual's business idea(s), its feasibility, the process of starting a business, how to acquire necessary resources, and the key parts of a business plan (development and execution). Students will develop an understanding of legal issues, marketing, financing, entrepreneurial resources, and complex tasks faced by individuals engaged in entrepreneurial activities.

Code	Title	Units
Required Courses:		
BUSAD 620	Creating a Business Plan	0
BUSAD 621	Strategic Marketing for Entrepreneurs	0
BUSAD 622	Funding and Financing for Entrepreneurs	0
BUSAD 623	Legal Issues for Entrepreneurs	0
BUSAD 624	Accounting for Entrepreneurs	0
BUSAD 625	Leadership and Management for Entrepreneurs	0
Total Hours		132-144

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Explain the business legal structures and the laws and regulations for start-up businesses.
- b. Apply basic marketing techniques to develop simple promotion, pricing, and distribution plans, and to identify markets.
- c. Describe the accounting principles and techniques essential for managing the operations of a small business.
- d. Create and effectively pitch a business plan to prospective lenders and investors.
- e. Identify and apply the key managerial roles of planning, organizing, staffing, leading, and controlling applications in entrepreneurial settings.

Retail Management Certificate of Achievement

This certificate is designed to prepare students for entry-level work in the retail management field. Beginning as a clerk or cashier, the student can advance to assistant manager, manager, and upper management. There is no required sequence of courses, but it is recommended that students structure their schedule to move through three general levels of training and experiences. In the foundational courses the students gain exposure to foundational courses in writing, speaking, math applications, and computer literacy. The intermediate course offerings cover specific business and management content. Lastly, the advanced course offerings include the retail specific courses and human relations topics.

Code	Title	Units
Foundational Courses:		
BUSAD 050	Business Math	3
BUSAD 127	Business Communication	3
CIT 101	Introduction to Computer Literacy	3
Intermediate Courses:		
BUSAD 103	Marketing Principles	3
BUSAD 120	Business Management/Leadership	3
Advanced Courses:		
BUSAD 110	Human Resource Management	3
BUSAD 112	Principles of Retailing	3
BUSAD 151	Human Relations	3
Total Units		24

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Interpret and use oral instructions to complete assigned tasks; speak clearly and produce written documents for a diverse group of customers, coworkers and managers utilizing current business terminology
- b. Employ workforce readiness skills, including problem solving, organizational planning and time management
- c. Use an understanding of basic business principles and organizational priorities to make decisions about work being performed
- d. Understand the retail cycle and its implementation, which includes customer analysis, sourcing and product design, product development, merchandising and display

Chemistry

The Chemistry program is designed to meet the diverse needs of students served by the community college:

- Students majoring in chemistry or related sciences,
- Students majoring in one of the health sciences, and
- Students fulfilling the general education science requirement.

Courses in the Chemistry Department are taught with a strong emphasis on the laboratory. In the advanced classes, students receive hands-on experience with a wide variety of instruments. Students planning to transfer to a four-year institution and major in chemistry or biochemistry should consult with a counselor regarding the transfer process and lower division requirements because additional courses may be required at some institutions.

Contact Information

Division: Science (PS - 148)

Division Phone Number: (909) 384-8645

Faculty Chair: Carol Jones (carjones@sbccd.edu), Ph.D.

Counselor Liaisons: Elizabeth Banuelos (ebanuelos@sbccd.edu), M.S. and Erica Begg (ebegg@sbccd.edu), M.S.

STEM Counselors: Daniele Smith-Morton (dasmith@sbccd.edu), Ed.D. and Abena Weber (awahab@sbccd.edu), Ed.D.

-
- Chemistry Associate in Science for Transfer Degree (p. 152)
 - Chemistry Associate of Science Degree (p. 151)

CHEM 101 4 Units

Introductory Chemistry

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Introductory Chemistry involves the study of the material makeup of our world and its relationship to life, the natural environment, and our lived experiences. General scientific principles including scientific observation and measurement are also introduced. This course is designed to prepare students for careers in nursing, medicine, engineering and other science and allied health professions.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: CHEM 101

CHEM 104 4 Units

Introduction to Organic Chemistry and Biochemistry

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite: CHEM 101

This course is an introduction to the bonding, naming, structure, and chemical and biomolecular properties for different classes of organic compounds and biomolecules, with a focus on their cellular, medicinal and industrial importance.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: CHEM 102

CHEM 105 5 Units

Introduction to General, Organic and Biochemistry

Lecture: 54 contact hours

Lab: 108 contact hours

Advisory: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course provides a foundation for the concepts of general, organic, and biochemistry for students who wish to pursue allied health fields such as nursing. Some of the areas studied include the physical and chemical properties of common elements and compounds, the SI system, measurements and conversions, atomic structure, the periodic table, chemical equations and calculations, gases, solutions, electrolytes as well as an introduction to the bonding, naming, structure, and chemical and biological properties for different classes of organic compounds and biomolecules, with a focus on their cellular, medicinal, and commercial importance.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: CHEM 102

CHEM 150 5 Units

General Chemistry I

Lecture: 54 contact hours

Lab: 108 contact hours

Prerequisite: CHEM 101 or CHEM 105

Corequisite: MATH 102 or placement into MATH 102 based on the SBVC Guided-Self Placement process.

General Chemistry I is first-semester college-level chemistry with an emphasis on the mole concept, thermochemistry, atomic and molecular structure, the relationships of intramolecular and intermolecular forces to chemical and physical properties, the periodic table, organic chemistry, and solids, liquids and gases.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: CHEM 110/120S

CHEM 151 5 Units

General Chemistry II

Lecture: 54 contact hours

Lab: 108 contact hours

Prerequisite: CHEM 150 and MATH 102 or MATH 151 or placement into MATH 250 based on the SBVC Guided-Self Placement process.

General Chemistry II is the second half of a two-part sequence in chemistry with an emphasis on thermodynamics, chemical equilibrium, chemical kinetics, nuclear and electrochemistry. This course prepares students for future courses and careers in chemistry, physics, biology, health sciences, and the earth sciences.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: CHEM 120S

CHEM 205 5 Units**Quantitative Chemical Analysis****Lecture:** 54 contact hours**Lab:** 108 contact hours**Prerequisite:** CHEM 151

This course explores the principles, calculations, and applications of volumetric, gravimetric, and instrumental analysis as well as provides practical experience in standardizing reagents and determining the composition of various mixtures pertaining to the chemical laboratory setting. It is designed for second year Chemistry and Biology majors and students pursuing professional careers.

Associate Degree Applicable**Transfers to both UC/CSU****CHEM 212 5 Units****Organic Chemistry I****Lecture:** 54 contact hours**Lab:** 108 contact hours**Prerequisite/Corequisite:** CHEM 151

This course examines the properties, synthesis, and reactions of organic compounds, those that contain carbon, which includes many important modern materials, such as plastic and pharmaceuticals. It also provides the foundational background to later learn about the chemistry of biological systems.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** CHEM 150/160S**CHEM 213 5 Units****Organic Chemistry II****Lecture:** 54 contact hours**Lab:** 108 contact hours**Prerequisite:** CHEM 212

The second semester of organic chemistry continues the study of carbon compounds including aliphatic, aromatic and heterocyclic series, theoretical concepts, instrumentation, mechanisms, synthesis and functional groups. Laboratory includes preparation and study of properties, and extensive identification of organic compounds.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** CHEM 160S

Chemistry Associate of Science Degree

Students planning to transfer to a four-year institution and major in chemistry or biochemistry should consult with a counselor regarding the transfer process and lower division requirements because additional courses may be required at some institutions.

To graduate with a specialization in Chemistry, students must complete the following required courses plus the general breadth requirements for the Associate's Degree. The A.S. in Chemistry is designed to prepare students who wish to pursue a Bachelor's Degree from a four-year institution. At the four-year institution, students may choose to specialize in one particular aspect of chemistry, such as Environmental Chemistry, Organic Chemistry, Atmospheric Chemistry, or Physical Chemistry.

Code	Title	Units
Required Courses:		
CHEM 150	General Chemistry I	5
CHEM 151	General Chemistry II	5
CHEM 212	Organic Chemistry I	5
CHEM 213	Organic Chemistry II	5
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
Total Units		28

Code	Title	Units
Recommended Courses: ¹		
CHEM 205	Quantitative Chemical Analysis	5
PHYSIC 202	Physics I	4
	or PHYSIC 151 General Physics for the Life Sciences I	
PHYSIC 203	Physics II	4
	or PHYSIC 152 General Physics for the Life Sciences II	

¹ These courses are typically prerequisites for third year chemistry majors. Students are encouraged to complete the recommended courses to prevent the postponement of continued coursework in this major.

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate proficiency on chemistry topics from national American Chemical Society (ACS) exams. Achieve a score that is one-half of one standard deviation below the national average (or higher) on the General Chemistry or Organic Chemistry versions, administered in CHEM 151 and CHEM 213, respectively.

- b. Demonstrate skill in standard laboratory techniques commonly acquired in lower division coursework.

Chemistry Associate in Science for Transfer Degree

The Associate in Science for Transfer (AS-T) in Chemistry is intended for students who plan to transfer and complete a Bachelor's degree in Chemistry, or a similar major at a CSU campus. It serves the diverse needs of students who wish to obtain a broad and in-depth understanding of the field. The Chemistry Department offers comprehensive and integrative studies in each of the introductory courses in Chemistry. This AS-T in Chemistry is designed to prepare students who wish to pursue a Bachelor's Degree from a four-year institution. At the four-year institution, students may choose to specialize in one particular aspect of chemistry, such as Environmental Chemistry, Organic Chemistry, Atmospheric Chemistry, or Physical Chemistry. The objective of this degree is to delineate a successful career path for community college students entering the Chemistry program and to provide opportunities to explore the Chemistry major.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a Chemistry AS-T degree, students must meet the following requirements:

- Completion of the following major requirements with grades of "C" (or "P") or better;
- Completion of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- Certified completion of the Intersegmental General Education Transfer Curriculum (IGETC-CSU) for STEM which requires a minimum of 31-33 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Chemistry should consult with a STEM counselor or general counselor regarding the transfer process and lower division requirements. Completion of IGETC-CSU for STEM is required in addition to the major requirements.

Code	Title	Units
Required Courses:		
CHEM 150	General Chemistry I	5
CHEM 151	General Chemistry II	5
CHEM 212	Organic Chemistry I	5
CHEM 213	Organic Chemistry II	5
PHYSIC 202	Physics I	4
PHYSIC 203	Physics II	4
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
Code Title Units		
Major Total		36
Total Units That May Be Double Counted		7

General Education (IGETC for STEM) Units ¹	31-33
Elective (CSU Transferable) Units	0
Total Units	60

¹ This AS-T presumes completion of IGETC for STEM or CSU-GE Breadth for STEM, allowing for completion of 6 units of non-STEM GE work after transfer.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate proficiency on chemistry topics from national American Chemical Society (ACS) exams. Achieve a score that is one-half of one standard deviation below the national average (or higher) on the General Chemistry or Organic Chemistry versions, administered in CHEM 151 and CHEM 213, respectively.
- Demonstrate skill in standard laboratory techniques commonly acquired in lower division coursework.

Child Development

The Child Development Department has both an academic and vocational orientation. The academic program leads students along a path toward an Associate of Arts degree that articulates with higher education and transfers into continued study suitable for a baccalaureate degree. Students planning to transfer to a four-year institution and major in child development or a related field should consult with a counselor regarding the transfer process and lower division requirements.

The vocational program, which interfaces with the academic program, prepares students for immediate employment. Certificates offered by the Child Development Department prepare students for work and to qualify in Child Development Permits through the California Commission on Teaching Credentialing and to work with specific age groups: Infant and School Age. The Family Child Care Provider Certificate provides a curriculum to prepare students to establish quality family childcare centers in their homes.

General Education Courses and Electives

The Child Development Department advises scheduling an appointment with a counselor to create an education plan to include the general breadth requirements and elective units.

Contact Information

Division: Social Sciences, Human Development, Kinesiology and Health (NH - 345)

Division Phone Number: (909) 384-8603

CD 061 3 Units

Activities for School-Age Children

Lecture: 54 contact hours

Advisory: READ 100

This course is a survey of programs and activity planning for school-age children, including both before-and after-school activities for groups and individuals. Inclusive and culturally responsive teaching practices in school age programs are emphasized.

Associate Degree Applicable

CD 075 3 Units

Family Child Care Practices

Lecture: 54 contact hours

Advisory: READ 100

This course is designed to meet the specific needs of the family child care provider. The emphasis is on learning licensing regulations, good business practices, age appropriate curriculum, healthy environments, positive guidance, and basic child development. Other topics include creating partnerships with parents, maintaining health and safety and working with children from diverse backgrounds including children with special needs and disabilities.

Associate Degree Applicable

CD 100 3 Units

Introduction to Child Development

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H or READ 100

This course is an introduction to and overview of the field of child development, designed to familiarize students with the broad aspects of the profession, philosophies, theories and principles of caring for children in a variety of settings.

Associate Degree Applicable

Transfers to CSU only

CD 105 3 Units

Child Growth and Development

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H or READ 100

This course examines the progression of development in the physical, cognitive, social and emotional domains and identifies developmental milestones for children from conception through adolescence. There is an emphasis on interactions between biological processes and environmental factors. Students observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: CDEV 100

CD 105H 3 Units**Child Growth and Development - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course examines the progression of development in the physical, cognitive, social and emotional domains and identifies developmental milestones for children from conception through adolescence. There is an emphasis on interactions between biological processes and environmental factors. Students observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** CDEV 100**CD 108 3 Units****Early Childhood Development****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course covers the development of children from two years to eight years old. Specifically, this course explores prominent theories related to early childhood development, typical and atypical development of children from two to eight years, contextual influences, and methods of studying the development of young children.

Associate Degree Applicable**Transfers to both UC/CSU****CD 109 3 Units****Childhood Stress and Trauma****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course provides a comprehensive overview of theories, concepts and issues related to childhood stress and trauma. Emphasis is on the short-term and long-term effects that stress and trauma have on the physical, cognitive, language, social and emotional stages of a child's development. Students are introduced to child behavior patterns and potential responses to stress and trauma. Students examine research and innovative methods that support a child's coping skills and healing process. This course is designed to help early childhood practitioners and parents understand how children react and adapt to stress and trauma and to learn strategies to support and care for children.

Associate Degree Applicable**Transfers to both UC/CSU****CD 111 3 Units****Observation and Assessment in Child Development****Lecture:** 54 contact hours**Prerequisite/Corequisite:** CD 105 or CD 105H**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course covers the appropriate use of a variety of assessment and observation strategies to document young children's development and learning. The use of findings to inform and plan learning environments and experiences are emphasized. Recording strategies, rating systems, portfolios, and multiple assessment tools are discussed, along with respectful strategies for collaboration with diverse families and professionals. This course requires a minimum of 15 hours observing children.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ECE 200**CD 113 3 Units****Principles and Practices of Teaching Young Children****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course examines the historical and theoretical perspectives of developmentally appropriate practices in early care and education for children from birth through age eight. Typical roles and expectations of early childhood educators are explored. Professional ethics, career pathways and professional standards are identified. Students learn best practices for developmentally and culturally appropriate learning environments, curriculum, and effective pedagogy for young children, including how play contributes to children's learning, growth and development.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ECE 120**CD 114 3 Units****Introduction to Curriculum****Lecture:** 54 contact hours**Prerequisite:** CD 105 or CD 105H**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course presents an overview of developmentally appropriate curriculum and environments for children from birth through eight. Students use knowledge of children's development, theories of learning and development, culturally respectful practices and examples from various models of developmentally appropriate practice, to plan environments and curriculum in all content areas to support children's development and learning integrated throughout the indoor and outdoor settings.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ECE 130**CD 115 3 Units****Health, Safety and Nutrition****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course covers an introduction to the laws, regulations, standards, policies, procedures and best practices related to health, safety, and nutrition in care and education settings for children from birth through middle childhood. Content in this course includes the teacher's role in prevention strategies, nutrition and meal planning, integrating health, safety and nutrition experiences into daily routines, and overall risk management. Respectful culturally responsive collaboration with families, staff and health professionals is included.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ECE 220**CD 126 3 Units****Child, Family, and the Community****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course examines the processes of socialization, focusing on the interrelationships of family, school, and community. Multiple societal contexts are examined. The course explores the role of the collaboration between family, community and schools in supporting children's development, from birth through adolescence.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** CDEV 110

CD 127 3 Units**Guidance of Children****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course presents a developmental approach to the guidance and discipline of children. Effective guidance theories and methods are presented for teachers and professionals working with children, including children with special needs. Effective communication methods for early childhood educators working with children and their parents will be emphasized.

Associate Degree Applicable**Transfers to CSU only****CD 130 3 Units****Creative Music and Movement for Children****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course explores the importance of music and movement in the development of children ages two through eight. Because children's physical and motor maturation influences all other aspects of development this course focuses on planning for motor skill progression through creative and teacher-guided movement. There is equal emphasis on developmentally appropriate musical activities and on rhythmic experiences with musical instruments and creative props.

Associate Degree Applicable**Transfers to CSU only****CD 133 3 Units****Creative Science and Math Activities for Children****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course focuses on planning and implementing creative and developmentally appropriate science and math activities for young children. Content includes: life science, physical science, and earth science; creation of scientific environment in the classroom; scientific concepts and the science process skills (observing, comparing, measuring, classifying and predicting); the basic math concepts (classifying, ordering, seriation, patterning, number sense, simple reasoning and counting); and how to create a math environment.

Associate Degree Applicable**Transfers to CSU only****CD 134 3 Units****Language, Listening and Literature for Children****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course emphasizes the process of language acquisition in children and techniques and experiences which promote language development and listening skills. It includes the examination of children's literature; teaching strategies for reading picture books to children; presenting poetry; flannel board activities; puppetry and storytelling in the classroom for children ages two through eight.

Associate Degree Applicable**Transfers to CSU only****CD 136 3 Units****Creative Art Experiences for Children****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course focuses on establishing an environment for young children that cultivates and nourishes creativity and their aesthetic sense. It includes the principles of creative development; instructional strategies; materials, tools and equipment in an art program; and developmentally appropriate activities and experiences which underscore the emotional, social, physical, and cognitive needs of children from two through eight years of age.

Associate Degree Applicable**Transfers to CSU only****CD 137 3 Units****Play and Materials for Children****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course introduces the theories and pedagogies of play and inquiry based learning and development. A focus of the course is on how play, inquiry, pedagogy, assessment and planning are purposefully and holistically integrated across a range of learning contexts. Child centered approaches are examined with a focus on using environments and resources to plan and support learning and development.

Associate Degree Applicable**Transfers to CSU only****CD 138 3 Units****Teaching in a Diverse Society****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course is an examination of the historical and current perspectives on diversity and inclusion and the impact of systemic societal influences on children's development, learning and school experiences. Strategies for developmentally, culturally and linguistically appropriate anti-bias curriculum are explored, as well as approaches to promote inclusive and anti-racist classroom communities. The course includes self-reflection on the influence of a teacher's own culture and life experiences on teaching and interactions with children and families.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ECE 230**CD 160 3 Units****Middle Childhood Development****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

In this course students examine the processes of child development during the middle childhood years from 6 to 12 years. This course is designed to prepare students with a thorough understanding of how school-age children change as they develop and to also give students an appreciation for the diverse sources of influence on development. This course includes the study of developmental theories and the practical implications of those theories. Students will be introduced to broad substantive areas related to learning and teaching. (Formerly CD 060)

Associate Degree Applicable**Transfers to both UC/CSU**

CD 185 3 Units**Infant/Toddler Growth and Development****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course explores the physical, social-emotional, cognitive, and language development of children from birth to age three. It fulfills the California licensing requirements for infant center personnel and includes infant/toddler interactions and curriculum.

Associate Degree Applicable**Transfers to CSU only****CD 186 3 Units****Infant and Toddler Curriculum****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course is a survey of program and curriculum planning for infants and toddlers child care and education settings, including early intervention and inclusive programs, emphasizing curriculum and principles and practices of quality care and developmentally appropriate practices specific to infants, toddlers and two-year-old children, birth to three years.

Associate Degree Applicable**Transfers to CSU only****CD 205 4 Units****Child Development Practicum / Field Experience****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** CD 105 or CD 105H and CD 113 and CD 114 and CD 126**Advisory:** ENGL 101 or ENGL 101H or READ 100

Students learn teaching skills through the demonstration of developmentally appropriate early childhood program planning and teaching competencies under the supervision of ECE/CD faculty and other qualified early education professionals. Students utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement, and evaluate approaches, strategies, and techniques that promote development and learning. This course also includes exploration of career pathways, professional development, and teacher responsibilities.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ECE 210**CD 215 4 Units****Early Intervention and Inclusion Internship****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** CD 105 or CD 105H and CD 244**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course provides a supervised internship as an assistant in an early intervention or inclusion setting with children from birth through eight years. It explores the unique development and guidance of infants, toddlers and young children with disabilities and other special needs. Adaptation of curriculum, natural environments, identification and assessment are discussed.

Associate Degree Applicable**Transfers to CSU only****CD 244 3 Units****Children with Special Needs****Lecture:** 54 contact hours**Prerequisite:** CD 105 or CD 105H**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course introduces the physical, social, emotional and intellectual characteristics of children with disabilities and other special needs. It covers teaching strategies that are sensitive to children with special needs and their families, as well as the legal requirements of educating children with disabilities or other special needs.

Associate Degree Applicable**Transfers to CSU only****CD 245 3 Units****Early Intervention and Inclusion****Lecture:** 54 contact hours**Prerequisite:** CD 105 or CD 105H and CD 244**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course focuses on theories, research and practical teaching strategies in early intervention and inclusion and early childhood special education. Students learn intervention techniques and strategies to work with children with disabilities and other special needs.

Associate Degree Applicable**Transfers to CSU only****CD 270 3 Units****Adult Supervision and Mentoring in Early Care and Education****Lecture:** 54 contact hours**Prerequisite:** CD 105 or CD 105H**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course presents methods and principles for supervising student teachers, volunteers, staff, and other adults in early care and education settings. The roles and development of early childhood professionals as mentors and leaders is emphasized.

Associate Degree Applicable**Transfers to CSU only****CD 271 3 Units****Administration I: Programs in Early Childhood Education****Lecture:** 54 contact hours**Prerequisite:** CD 105 or CD 105H and CD 126**Advisory:** ENGL 101 or ENGL 101H or READ 100

This course is an introduction to the administration of early childhood programs. It covers program types, budget, management, regulations, laws, development and implementation of policies and procedures. This course also examines the administrative tools, philosophies, and techniques needed to organize, open, and operate an early care and education program.

Associate Degree Applicable**Transfers to CSU only****CD 272 3 Units****Administration II: Personnel and Leadership in Early Childhood Education****Lecture:** 54 contact hours**Prerequisite:** CD 105 or CD 105H and CD 126**Advisory:** CD 271 and ENGL 101 or ENGL 101H or READ 100

This course provides effective strategies for personnel management and leadership in early care and education settings. It includes legal and ethical responsibilities, supervision techniques, professional development, and reflective practices for a diverse and inclusive early care and education program.

Associate Degree Applicable**Transfers to CSU only**

CD 601 Noncredit**Parent-Child Interaction****Lecture:** 54 contact hours

This noncredit course includes general concepts, goals and strategies of parenting through the life span in varying life circumstances and diverse family types. Establishing and maintaining close emotional relationships through bonding, attachment, and effective communication techniques with children at all developmental stages is emphasized. Effective guidance skills, shaping and modifying children's behavior are explored. (Formerly CD 101)

Child and Adolescent Development Associate in Arts for Transfer Degree

The Associate in Arts in Child and Adolescent Development for Transfer is designed to provide the lower division major courses to transfer to a California State University and earn a bachelor's degree in Child and Adolescent Development, Child Development, Human Development or a related field of study at a California State University (CSU). Course offerings are drawn from psychology, anthropology, sociology, child development and biology. The lower division course work examines research and best practices for positive outcomes for children from conception through adolescence. This interdisciplinary program of study is intended for students who aspire to careers in developmental research, public policy, social work, school psychology, education and similar fields working with children and adolescents. This degree is designed for students who wish to eventually work in fields with youth and adolescents from 9-18 years old and not for students wishing to teach in early childhood education.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn this Child and Adolescent Development AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- Completion of a minimum of 60 CSU transferrable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement, as part of CSU-GE or IGETC before transferring to a CSU.

Students planning on transferring to a four-year institution and major in Early Childhood Education should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses:		
CD 105	Child Growth and Development	3
or CD 105H	Child Growth and Development - Honors	
PSYCH 100	General Psychology	3
or PSYCH 100H	General Psychology - Honors	
PSYCH 105	Statistics for the Behavioral Sciences	4

or MATH 108	Introduction to Probability and Statistics	
or MATH 108H	Introduction to Probability and Statistics - Honors	
or ECON 208	Business and Economic Statistics	

List A - Three courses:

ANTHRO 102	Cultural Anthropology	3
or ANTHRO 102	Cultural Anthropology - Honors	
BIOL 100	General Biology	4
CD 126	Child, Family, and the Community	3
SOC 100	Introduction to Sociology	3
or SOC 100H	Introduction to Sociology - Honors	
SOC 130	Family Sociology	3

or SOC 141H	Race and Ethnic Relations - Honors	
or ETHS 141	Race and Ethnic Relations	
or ETHS 141H	Race and Ethnic Relations - Honors	
PSYCH 111	Developmental Psychology: Lifespan	3

Two courses maximum from the following:

CD 111	Observation and Assessment in Child Development	3
CD 138	Teaching in a Diverse Society	3
CD 160	Middle Childhood Development	3

Code	Title	Units
Major Total		19
Total Units that may be Double-Counted		12-15
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		16-17
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze theories and research related to the psychological, physical, and cognitive development of children and adolescents.
- Identify, describe and analyze sociological and cultural influences on the development of children and adolescents.
- Identify, describe and analyze biological and environmental factors that influence human development from conception through adolescence.
- Analyze, describe and use inclusive, equitable, antibias and antiracist teaching practices and family interactions for working with children and families.

Child Development - Associate Teacher Certificate of Achievement

The Associate Teacher Certificate is designed to be the first step toward obtaining entry-level employment in the field of Early Childhood Education in a preschool or child care setting. The Associate Teacher Certificate requires 19 CD units which includes four units of practicum/ supervised experience with young children.

This Certificate meets the unit and course requirements towards the California Title 5 requirements for the Child Development Associate Teacher Permit. Applications may be obtained through the California Commission on Teacher Credentialing Office or the Child Development Training Consortium (CDTC). After students take CD 205, more days of experience are needed to meet the 50 days of experience requirement for the CD Associate Teacher Permit.

Code	Title	Units
Required Courses:		
CD 105	Child Growth and Development	3
or CD 105H	Child Growth and Development - Honors	
CD 113	Principles and Practices of Teaching Young Children	3
CD 114	Introduction to Curriculum	3
CD 126	Child, Family, and the Community	3
One Course from the Following:		
CD 109	Childhood Stress and Trauma	3
CD 127	Guidance of Children	3
Required Course for Experience Working with Children		
CD 205	Child Development Practicum / Field Experience	4
Total Units		19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Develop a personal philosophy that reflects an understanding of: a) typical and atypical child development in all developmental domains, b) developmentally appropriate practices in CD programs c) ethical standards and professional behaviors when working with children and families and d) indicators of high quality early childhood programs.
- Design and communicate the processes and activities that support developmentally appropriate play and learning for children.
- Identify and explain the resources that promote supportive relationships and partnerships between programs, teachers, families and their communities.
- Develop positive guidance and interaction strategies that support young children's learning and self-confidence.
- Create developmentally appropriate curriculum plans.
- Describe, analyze and use respectful inclusive, equitable, antibias and antiracist teaching practices and family interactions in early childhood environments.

Child Development - Early Intervention and Inclusion Associate of Arts Degree

This degree prepares individuals to work as early childhood paraprofessionals with expertise in special education and early intervention. The Child Development courses meet the State's competencies for early childhood intervention/early childhood special education paraprofessionals. To graduate with a specialization in Child Development-Early Childhood Intervention and Inclusion, students must complete the following required courses plus the general breadth requirements for the Associate Degree (minimum 60 semester units).

Code	Title	Units
Required Courses:		
CD 105	Child Growth and Development	3
or CD 105H	Child Growth and Development - Honors	
CD 111	Observation and Assessment in Child Development	3
CD 126	Child, Family, and the Community	3
CD 127	Guidance of Children	3
CD 185	Infant/Toddler Growth and Development	3
CD 186	Infant and Toddler Curriculum	3
CD 244	Children with Special Needs	3
CD 245	Early Intervention and Inclusion	3
Required Courses for Experience Working with Children: (8 units)		
CD 215	Early Intervention and Inclusion Internship	4
CD 205	Child Development Practicum / Field Experience	4
Total Units		32

Code	Title	Units
Recommended Course:		
CD 109	Childhood Stress and Trauma	3

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Differentiate characteristics of typical and atypical development and identify developmental milestones in all domains.
- Identify and use appropriate inclusion strategies and create adaptations with children with a variety of disabilities and special needs in early childhood settings.
- Develop, create, and modify curriculum and individualized education plans to work with children with special needs and disabilities.
- Recognize and apply laws and regulations related to working with children and families with disabilities and special needs.

- e. Identify and assess resources for children and families with special needs and disabilities and advocate for the needs of all children and families.
- f. Write and speak clearly to communicate with other professionals, parents and colleagues.
- g. Analyze, describe and use inclusive, equitable, antibias and antiracist teaching practices and family interactions for working with children and families.

Child Development - Early Intervention and Inclusion Certificate of Achievement

The Early Intervention and Inclusion Certificate prepares individuals to work as early childhood paraprofessionals with expertise in special education and early intervention. The program's perspective is culturally sensitive and family-focused which emphasizes the value of individual differences in young children. This certificate meets the State's competencies for early childhood intervention/early childhood special education paraprofessionals.

This Certificate meets California Title 5 requirements for the Child Development Associate Teacher Permit. Upon completion of all the courses contact the California Commission on Teacher Credentialing Office for an application.

Code	Title	Units

Total Units		32

Code	Title	Units
Recommended Course:		
CD 109	Childhood Stress and Trauma	3

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Identify and use appropriate inclusion strategies and create adaptations with children with a variety of disabilities and special needs in early childhood settings.

- b. Develop, create, and modify curriculum and individualized education plans to work with children with special needs and disabilities.
- c. Recognize and apply laws and regulations related to working with children and families with disabilities and special needs.
- d. Find and assess resources for children and families with special needs and disabilities and advocate for the needs of all children and families.
- e. Describe, analyze and use respectful inclusive, equitable, antibias and antiracist teaching practices and family interactions in early childhood environments.

Child Development - Family Child Care Provider Certificate of Achievement

The Family Child Care Provider Certificate prepares students for working in family child care or home child care programs.

This Certificate meets the unit and course requirements towards the California Title 5 requirements for the Child Development Associate Teacher Permit. Applications may be obtained through the California Commission on Teacher Credentialing Office or the Child Development Training Consortium (CDTC). Students must gain experience in 50 days, 3 hours per day in a licensed facility with children ages birth to 5 years.

Code	Title	Units
Required Courses:		
CD 075	Family Child Care Practices	3
CD 105	Child Growth and Development	3
or CD 105H	Child Growth and Development - Honors	
CD 113	Principles and Practices of Teaching Young Children	3
CD 114	Introduction to Curriculum	3
CD 115	Health, Safety and Nutrition	3
CD 126	Child, Family, and the Community	3
One Course from the Following:		
CD 061	Activities for School-Age Children	3
CD 108	Early Childhood Development	3
CD 109	Childhood Stress and Trauma	3
CD 186	Infant and Toddler Curriculum	3
Total Units		21

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Assess and apply licensing regulations, requirements, policies and procedures necessary to run a quality family child care business.
- b. Develop a comprehensive business plan, record keeping system, and contract and policy statements necessary to a family child care business.
- c. Create a developmentally appropriate, safe and healthy environment and curriculum with activities for children at a variety of ages and stages in a family child care home.

- d. Develop methods to strengthen partnerships with families and obtain community resources for family and children in family child care homes.
- e. Describe, analyze and use inclusive, equitable, antibias and antiracist teaching practices and family interactions in family childcare environments.

- f. Describe, analyze and use respectful inclusive, equitable, antibias and antiracist teaching practices and family interactions in early childhood environments.

Child Development - Infant and Toddler Certificate of Achievement

The Infant/Toddler Certificate is designed to be the first step toward obtaining entry-level employment specializing in infant/toddler care. Students will be prepared to work with infants/toddlers (0-36 months) enabling the student to assist a teacher in a public infant/toddler program or teach infants/toddlers in a private child care setting. The Infant/Toddler Certificate requires 25 CD units, which includes four units of CD Practicum/Field Work experience with infants/toddlers.

Code	Title	Units
Required Courses:		
CD 105	Child Growth and Development	3
or CD 105H	Child Growth and Development - Honors	
CD 111	Observation and Assessment in Child Development	3
CD 126	Child, Family, and the Community	3
CD 127	Guidance of Children	3
CD 185	Infant/Toddler Growth and Development	3
CD 186	Infant and Toddler Curriculum	3
CD 244	Children with Special Needs	3
Experience Working with Children from Ages Birth-24 Months: ¹		
CD 205	Child Development Practicum / Field Experience	4
Total Units		25

¹ *Students must complete CD 185 prior to completing CD 205 to qualify for the practicum hours with Infants and Toddlers.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Identify and assess patterns of typical and atypical development for infants and toddlers.
- b. Observe and assess components of infant and toddler environments and compare with high quality components, health and safety & licensing regulations, foundations and guidelines.
- c. Observe and assess development of infants and toddlers and plan and create individual curriculum to meet the unique needs of each child.
- d. Develop strategies to form partnerships with parents and identify local resources for families of infants and toddlers.
- e. Create a developmentally appropriate philosophy for working with infants and toddlers in groups based on best practices and current research.

Child Development - Master Teacher Certificate of Achievement

The Master Teacher Certificate is designed to prepare students to supervise, mentor and assist other teachers and aides in a preschool or child care and education setting. The Master Teacher Certificate requires 37 CD units which includes six specialization units and 4 units of CD Practicum/ Field Work experience with children preschool-12 years of age plus a minimum of 16 general education units. General Education units need to come from the each of the following categories and meet Valley College GE requirements: English, Social and Behavioral Sciences, Humanities and Math or Science.

This Certificate meets the course and unit requirement for the Master Teacher Permit through the California Commission on Teacher Credentialing. Please note that students must also meet the experience requirement of 350 days of 3+ hours per day within 4 years.

Experience Working with Children:

CD 205	Child Development Practicum / Field Experience	4
--------	--	---

General Education – The courses below are recommended by the Child Development to fulfill the GE requirements for this Certificate and to meet the GE requirements for the CD Permit. Students must complete a minimum of 16 units or one to two courses in each of the four general education areas in order to obtain a Master Teacher Permit through the California State Commission on Teacher Credentialing.

Arts and Humanities: (1-2 courses)

Complete one to two courses below or any course listed under Category III on the SBVC General Education Pattern.

ASL 109	American Sign Language I	4
ART 103	Art Appreciation	3
MUS 100	Music Appreciation	3

Social Sciences (1-2 courses)

Complete PSYCH 100 or PSYCH 100H or any course listed under Category II on the SBVC General Education Pattern. Note: one course must be in a subject other than Child Development (CD).¹

PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	

Math or Science (1 course)

Complete one course below or any course listed under Category I on the SBVC General Education Pattern.

BIOL 100	General Biology	4
GEOG 110	Physical Geography	3
PSYCH 105	Statistics for the Behavioral Sciences	4
	or ECON 208 Business and Economic Statistics	
	or MATH 108 Introduction to Probability and Statistics	
	or MATH 108H Introduction to Probability and Statistics - Honors	

English or Language Arts: (1 course)

ENGL 101	College Composition	4
	or ENGL 101H College Composition - Honors	
COMMST 100	Elements of Public Speaking	3
	or COMMST 100H Elements of Public Speaking - Honors	

Total Units **49**

¹ Students may choose one to two courses in this Social Sciences category as needed to reach 16 General Education units.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program**Program Learning Outcomes**

At the completion of this program, students will be able to:

- Develop an integrated personal philosophy into classroom practices that reflects an understanding of typical child development, health safety and nutrition, developmentally, culturally and linguistically appropriate practices, ethical and professional practices and high quality standards.
- Use the observation, planning and implementation cycle to create, implement and evaluate environments, individualized curriculum and

activities that support developmentally, culturally and linguistically appropriate, inclusive, play and learning for children.

- Develop strategies to respect the diversity of children and families and then empower families, and use resources that promote supportive relationships and partnerships between programs, teachers, families and their communities.
- Analyze and apply effective positive guidance and interaction strategies that support young children's learning, self-confidence and identity.
- Develop a specialization in Child Development using 6 units of a content area in a specific area.
- Identify and analyze the stages of adult development and learning, and implement strategies to mentor adults who are learning to work with children.
- Analyze, describe and use inclusive, equitable, antibias and antiracist teaching practices and family interactions for working with children and families.

Child Development - School Age Certificate of Achievement

The School-Age Certificate is designed to be the first step toward entry level employment specializing in the care of children from 6-12 years. It prepares students for working in before and after-school programs or child care facilities that serve older children.

This Certificate meets the course and unit requirements for the Child Development Associate Teacher Permit with a School-Age Emphasis and the Child Development Associate Teacher Permit through the California Commission on Teacher Credentialing. Applications can be obtained through the California Commission on Teacher Credentialing Office. Students must complete fifty days, 3 hours per day to meet the 50 days of experience requirement for the CD School-Age Associate Teacher Permit.

Code	Title	Units
Required Courses:		
CD 160	Middle Childhood Development	3
CD 061	Activities for School-Age Children	3
CD 105	Child Growth and Development	3
	or CD 105H Child Growth and Development - Honors	
CD 113	Principles and Practices of Teaching Young Children	3
CD 114	Introduction to Curriculum	3
CD 126	Child, Family, and the Community	3
CD 127	Guidance of Children	3
CD 138	Teaching in a Diverse Society	3
Total Units		24

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program**Program Learning Outcomes**

At the completion of this program, students will be able to:

- Observe and assess the development of school-age children to understand typical and atypical development and learning and to create appropriate environments and curriculum.
- Create developmentally appropriate curriculum and written activity plans for school-age children using all developmental domains, multiple intelligences, and a variety of learning modalities.
- Develop a school-age before and after school program philosophy based good practice, health and safety, state regulations, and the developmental needs of school age children.
- Describe, analyze and use inclusive, equitable, antibias and antiracist teaching practices and family interactions in school-age environments.

Child Development - Site Supervisor Certificate of Achievement

The Site Supervisor Certificate is designed to prepare students with the knowledge and skills necessary to be qualified as a preschool or childcare center site supervisor.

Students completing a Site Supervisor Certificate meet the academic requirements for the CD Site Supervisor Permit. Please note that the field experience requirement for the Site Supervisor Permit requires 350 days of 3+ hours per day within four years including at least 100 days of supervising adults. With this Certificate, and a CD Site Supervisor Permit, students qualify to be Child Development Center Directors in private Title 22 Programs as long as they also have two years of teaching experience in a licensed center.

Code	Title	Units
Required Courses:		
CD 105	Child Growth and Development	3
or CD 105H	Child Growth and Development - Honors	
CD 111	Observation and Assessment in Child Development	3
CD 113	Principles and Practices of Teaching Young Children	3
CD 114	Introduction to Curriculum	3
CD 115	Health, Safety and Nutrition	3

	or ENGL 101H College Composition - Honors	
Mathematics		
PSYCH 105	Statistics for the Behavioral Sciences	4
	or ECON 208 Business and Economic Statistics	
	or MATH 108 Introduction to Probability and Statistics	
	or MATH 108H Introduction to Probability and Statistics - Honors	
Note: Students may be eligible for the Child Development AA Degree if they complete one additional course in each of the following categories: Category III, Category VI.		
Total Units		60-64

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Develop an integrated personal philosophy into classroom practices that reflects an understanding of typical child development, health, safety and nutrition, developmentally, culturally and linguistically appropriate practices and high quality standards.

- b. Use the observation, planning and implementation cycle to create, implement and evaluate environments, individualized curriculum and activities that support developmentally, culturally and linguistically appropriate, inclusive, play and learning for children.
- c. Develop strategies to respect the diversity of children and families and then empower families, and use resources that promote supportive relationships and partnerships between programs, teachers, families and their communities.
- d. Analyze and apply effective positive guidance and interaction strategies that support young children's learning, self-confidence and identity.
- e. Identify and analyze the stages of adult development and learning, and implement strategies to mentor adults who are learning to work with children.
- f. Examine, analyze and apply administration skills related to various types of early care and education programs.
- g. Analyze, describe and use inclusive, equitable, antibias and antiracist teaching practices and family interactions for working with children and families.

Child Development - Teacher Certificate of Achievement

The Teacher Certificate is designed for individuals working with children in a preschool or child care setting. The certificate focuses on developing age-appropriate curriculum for the classroom and observation/assessment of children. The Teacher Certificate requires 31 CD units which includes 4 units of CD Practicum/ Field Work with young children plus 16 general education units as specified.

This Certificate meets the course and unit requirement for the Teacher Permit through the California Commission on Teacher Credentialing. Please note that students must also meet the experience requirements of 175 days of 3+ hours per day within 4 years.

Code	Title	Units

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Develop an integrated personal philosophy into classroom practices that reflects an understanding of typical and atypical child development, healthy, safe and nutritious practices, developmentally, culturally and linguistically appropriate practices and ethical standards and professional behaviors when working with children and families.

- b. Use observation, planning and implementation cycle to create, implement and evaluate environments, individualized curriculum and activities that support developmentally, culturally and linguistically appropriate, inclusive, play and learning for children.
- c. Develop and communicate the strategies used to respect the diversity of children and families and then empower families, and use resources that promote supportive relationships and partnerships between programs, teachers, families and their communities.
- d. Analyze and apply effective positive guidance and interaction strategies that support young children's learning, self-confidence and identity.
- e. Create and write comprehensive developmentally appropriate curriculum plans in a variety of curriculum areas.
- f. Analyze, describe and use inclusive, equitable, antibias and antiracist teaching practices and family interactions for working with children and families.

Child Development Associate of Arts Degree

The Child Development Associate of Arts Degree contains the eight core courses needed for transfer and the necessary course work to be a qualified early childhood educator. To graduate with a specialization in Child Development, students must complete the following required courses plus the general breadth requirements for the Associate Degree (minimum 60 semester units).

Students completing the degree will qualify for the unit and course requirements necessary to apply for the California State Child Development Teacher Permit and the Child Development - Teacher Certificate.

Code	Title	Units
Required Courses:		
CD 105	Child Growth and Development	3
or CD 105H	Child Growth and Development - Honors	
CD 111	Observation and Assessment in Child Development	3
CD 113	Principles and Practices of Teaching Young Children	3
CD 114	Introduction to Curriculum	3
CD 115	Health, Safety and Nutrition	3
CD 126	Child, Family, and the Community	3
CD 138	Teaching in a Diverse Society	3
Two curriculum courses from the following:		
CD 130	Creative Music and Movement for Children	3
CD 133	Creative Science and Math Activities for Children	3
CD 134	Language, Listening and Literature for Children	3
CD 136	Creative Art Experiences for Children	3
CD 137	Play and Materials for Children	3
One course from the following:		
CD 100	Introduction to Child Development	3
CD 108	Early Childhood Development	3
CD 109	Childhood Stress and Trauma	3
CD 127	Guidance of Children	3
CD 185	Infant/Toddler Growth and Development	3
CD 186	Infant and Toddler Curriculum	3

CD 244	Children with Special Needs	3
Required Course for Supervised Field Experience with Children		
CD 205	Child Development Practicum / Field Experience	4
Total Units		34

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Develop a personal philosophy into classroom practices that integrates an understanding of: a) typical and atypical child development in all developmental domains, b) healthy, safe and nutritious practices in CD programs, c) developmentally, culturally and linguistically appropriate practices in CD programs d) ethical standards and professional behaviors when working with children and families and e) indicators of high quality early childhood programs.
- b. Use observation, planning and implementation cycle to create, implement and evaluate environments, individualized curriculum and activities that support developmentally, culturally and linguistically appropriate, inclusive, play and learning for children.
- c. Analyze and Apply strategies to respect the diversity of children and families and then empower families, and use resources that promote supportive relationships and partnerships between programs, teachers, families and their communities.
- d. Apply effective positive guidance and interaction strategies that support young children's learning, self-confidence and identity.
- e. Analyze, describe and use inclusive, equitable, antibias and antiracist teaching practices and family interactions for working with children and families.

Early Childhood Education Associate in Science for Transfer Degree

The Associate in Science in Early Childhood Education for Transfer is designed to provide the lower division major courses to transfer to a California State University and earn a Bachelor's degree in Child Development, Human Development or Early Childhood Education. This program focuses on the theories and developmentally appropriate inclusive practices for educating children from birth to age eight. Study in the major includes coverage of child development and socialization, observation and assessment, curriculum development, culturally and linguistically appropriate teaching, as well as excellent health, safety, and nutrition practices in early care and education. This degree prepares students for teaching in early care and education settings as well as transfer.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these

degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn this Early Childhood Education AS-T degree, students must meet the following requirements:

- completion of the following major requirements with grades of "C" (or "P");
- Completion of a minimum of 60 CSU transferrable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning on transferring to a four-year institution and major in Early Childhood Education should consult with a counselor regarding the transfer process and lower division requirements.

Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Integrate understanding of the needs, the characteristics and multiple influences on development of children birth to age eight as related to high quality care and education of young children.
- b. Design, implement and evaluate environments and activities that support positive, developmental play and learning outcomes for all young children.
- c. Analyze and apply effective guidance and interaction strategies that support all children's social learning, identity and self-confidence.
- d. Develop strategies that promote partnerships between programs, teachers, families and their communities.
- e. Analyze and apply ethical standards and professional behaviors that demonstrate understanding and knowledge, deepening the commitment to the Early Care and Education profession.
- f. Analyze, describe and use inclusive, equitable, antibias and antiracist teaching practices and family interactions for working with children and families.

Communication Studies

Courses offered by the Department of Communication Studies are designed to foster practical communication skills. The emphasis is the development of the skills and techniques essential for effective public and interpersonal communication - a prerequisite for both occupational and personal success. Students planning to transfer to a four-year institution and major in Communication Studies should consult with a counselor regarding the transfer process and lower division requirements.

C-ID: COMM 130

COMMST 125 3 Units

Critical Thinking Through Argumentation and Debate

Lecture: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H

Advisory: COMMST 100 or COMMST 100H

This course is designed to provide an oral approach to critical thinking skills which includes individual and group debates. It also provides instruction in language, argument structure, types of reasoning, evaluation of evidence, fallacies in reasoning, and case development strategies.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: COMM 120

COMMST 135 3 Units**Mass Media and Society****Lecture:** 54 contact hours**Advisory:** READ 015 or eligibility for ENGL 101 or ENGL 101H as determined by the SBVC assessment process.

This course explores the history, effects, and role of the mass media in the U.S. The major forms of mass communication are studied (television, radio, film, newspapers and magazines). There is also a focus on critical analysis of media messages, effects of media on individual and society, and theories of communication. Students move beyond being consumers of media to analysts of media.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** JOUR 100**COMMST 140 3 Units****Small Group Communication****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided-Self Placement process.

This course explores discussion principles, communication skills, conflict management, participation practices, and leadership within small groups in a variety of contexts. Group formation, verbal and non-verbal communication, listening, and decision-making procedures are also examined. Emphasis is on group participation, group discussion, and group projects/presentations.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** COMM 140**COMMST 174 3 Units****Intercultural Communication****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English based on the SBVC Guided-Self Placement process.

This course focuses on the communication behaviors and values common to all cultures and ethnic groups and on the differences that insulate and divide people. Students will examine influences on the communication process, including aspects such as stereotyping, perception, prejudice, values and expectations. Students will learn to overcome the communication problems that can result when members of other cultures communicate by evaluating their own intercultural communication patterns and learning skills to increase their effectiveness. Students will also acquire a greater appreciation for others.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** COMM 150**COMMST 176 3 Units****Gender Differences in Communication****Lecture:** 54 contact hours**Advisory:** READ 015 or eligibility for ENGL 101 or ENGL 101H as determined through the SBVC assessment process.

This course explores the gender differences evident in communication. Students will examine the theories concerning gender differences, issues of gender in a variety of contexts (families, relationships, the workplace, the media, school), and the differences in the communication patterns resulting from gender.

Associate Degree Applicable**Transfers to both UC/CSU**

Communication Studies 2.0 Associate in Arts for Transfer Degree

The Associate in Arts for Transfer (AA-T) in Communication Studies 2.0 encourages students to examine and evaluate human communication across and within various contexts for the purpose of increasing communication competence. Communication studies courses foster practical communication skills. The emphasis is the development of the skills and techniques essential for effective public, interpersonal, and small group communication.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn a Communication Studies 2.0 AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P")
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Communication Studies 2.0 should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses:		
COMMST 100	Elements of Public Speaking	3
	or COMMST 10 Elements of Public Speaking - Honors	
COMMST 111	Interpersonal Communication	3
	or COMMST 111 Interpersonal Communication - Honors	
List A - Three courses from the following:		6
COMMST 125	Critical Thinking Through Argumentation and Debate	3
COMMST 140	Small Group Communication	3
COMMST 174	Intercultural Communication	3
COMMST 135	Mass Media and Society	3
ENGL 102	Intermediate Composition and Critical Thinking	4
	or ENGL 102H Intermediate Composition and Critical Thinking - Honors	
List B - One course from the following (or any course not used from List A):		6-7
ANTHRO 102	Cultural Anthropology	3
	or ANTHRO 102H Cultural Anthropology - Honors	
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
SOC 100	Introduction to Sociology	3
	or SOC 100H Introduction to Sociology - Honors	
ENGL 151	Freshman Composition and Literature	3

or ENGL 151H	Freshman Composition and Literature - Honors	
COMMST 176	Gender Differences in Communication	3

Code	Title	Units
Major Total		18-19
Total Units that may be Double Counted		12-15
General Education (CSU-GE or IGETC) Units		37-39
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate an understanding of the various forms of human communication evaluated by written or oral assessments.
- Assess situations and identify the appropriate communication skills to utilize according to the context they are in, which will be evaluated by written or objective assessments.

Computer Information Technology

The Computer Information Technology (CIT) Department provides a program of study for students who are preparing for employment in Information Technology or are preparing to transfer to a 4-year institution in Information Technology/Information Systems. The CIT Department offers a complete introduction to computers and software, specific training in selected software packages, and advanced courses dealing with networks, specialized programming techniques, and management of Information Technology.

Contact Information

Division: Mathematics, Business, and Computer Technology (B - 127)

Division Phone Number: (909) 384-8520

Department Chair: Reginald Metu (rmetu@sbccd.edu), Ed.D.

Counselor Liaisons: Deana Kelly-Silagay (dsilagay@sbccd.edu), M.A. and Armando Garcia (argarcia@sbccd.edu), M.S.C.

- Administrative Assistant Certificate of Achievement (p. 173)
- Amazon Web Services (AWS) Cloud Computing Certificate of Achievement (p. 173)
- Android Application Security Support Specialist Certificate of Achievement (p. 174)
- Cisco Certified Network Associate Certificate of Career Preparation (p. 174)
- CIT - Management Information Systems Associate of Science Degree (p. 174)
- CIT - Management Information Systems Certificate of Achievement (p. 175)
- CIT - Office Technology Associate of Arts Degree (p. 175)
- Computer Network Support Specialist Certificate of Achievement (p. 175)
- Computer Support Specialist Certificate of Achievement (p. 176)
- Digital Forensics Certificate of Achievement (p. 176)
- Information Security and Cyber Defense Certificate of Achievement (p. 177)
- Information Systems and Technology Associate of Science Degree (p. 177)
- iOS Application Security Support Specialist Certificate of Achievement (p. 178)
- Medical Coding and Billing Certificate of Achievement (p. 178)
- Office Technology Fundamentals Certificate of Completion (p. 179)
- Web Application Security Support Specialist Certificate of Achievement (p. 179)

CIT 010 3 Units**Beginning Keyboarding and Word Processing****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course covers the fundamentals of keyboarding including operation of a standard keyboard by touch. It includes instruction and practice in formatting a variety of personal and business documents, such as letters, reports, and tables. The use of speed and accuracy drills designed to develop a keyboarding speed of 30 words per minute for five minutes will be utilized. This is a combined Part I and Part II course students can complete in one semester.

Associate Degree Applicable**CIT 013 3 Units****Intermediate Keyboarding****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 010

This course provides instruction in touch control of the computer keyboard, and is designed to develop a keyboarding speed of 45 net words per minute for five minutes. In addition, students receive instruction in the preparation of basic business documents using word processing software.

Associate Degree Applicable**CIT 021 4 Units****Word Processing: Comprehensive Microsoft Word****Lecture:** 72 contact hours**Advisory:** CIT 010 or CIT 100

This course focuses on the production of professional quality documents using Microsoft Word comprehensive features: creating office documents, set up tabs and margins, set text in columns or tables, apply graphic elements, perform mail merge, sorting, numbering, bullets, symbols, prepare multiple page documents, using headers and footers, quick parts, themes and styles, references, forms, table of content, indexing, macros, and preparing students for Microsoft Certified Application Specialist exam.

Associate Degree Applicable**CIT 031 3 Units****Business English****Lecture:** 54 contact hours

This course is a review of basic grammar, punctuation, capitalization, vocabulary, and spelling. Emphasis is placed on grammar and vocabulary building for effective business communications.

Associate Degree Applicable**CIT 045 3 Units****Medical Insurance Billing and Coding****Lecture:** 54 contact hours**Prerequisite:** CIT 010 and CIT 144

This course covers ICD/CPT coding, insurance terminology, computerized billing, claims management, and the Health Insurance Portability and Accountability Act (HIPAA).

Associate Degree Applicable**CIT 048 3 Units****Medical Office Procedures****Lecture:** 54 contact hours**Prerequisite:** CIT 010 and CIT 144

The course covers law and ethics, data entry, appointment scheduling, and billing procedures using computer software to provide real life medical office scenarios.

Associate Degree Applicable**CIT 050 3 Units****Medical Records and Health Information****Lecture:** 54 contact hours**Prerequisite:** CIT 010 and CIT 144

This course prepares students for entry-level positions in medical records. Topics covered include the unique aspects of file management including transfer, release, storage, retrieval, and destruction of records and files. Information includes the latest computer technologies, electronic medical records and electronic health records to access, manage and share protected health information. An introduction to electronic billing, coding, medical ethics, confidentiality, and the laws that govern privacy are also a part of this course.

Associate Degree Applicable**CIT 051 3 Units****Introduction to Electronic Health Records****Lecture:** 54 contact hours**Prerequisite:** CIT 048

This course introduces the health information technology (HIT) utilized in electronic health records (EHR) systems and fiscal management. Students will obtain hands-on experience through integrated practice management software to obtain a comprehensive picture of health information technology. There is an emphasis on quality assurance, legal, and ethical practices of documenting the clinical and administrative tasks that take place for a total patient encounter.

Associate Degree Applicable**CIT 088 3 Units****Introduction to Android Security****Lecture:** 36 contact hours**Lab:** 54 contact hours

This is an introductory course in Android security. The course covers why it is critical to build security into Android apps in all phases of the system design lifecycle. The course will also cover improved programming processes to promote safety, as well as how to provide countermeasures for the numerous threats to which Android application and its users are exposed using software and hardware tools available in the industry.

Associate Degree Applicable**CIT 089 3 Units****Introduction to iOS Application Security****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course focuses on the iOS (Internetwork Operating System) platform and application security. This course is for beginners interested in understanding the iOS Security. How to analyze applications on this platform using a variety of cutting-edge tools and techniques will be covered.

Associate Degree Applicable**CIT 090 3 Units****Introduction to Web Security****Lecture:** 36 contact hours**Lab:** 54 contact hours

This introductory course in web security targets students and other computer professionals who have some networking and administrative skills in Windows-based networks. Students will become familiar with other operating systems, such as OS X, Unix, or Linux. This course will help participants who want to further a career in Information Technology by acquiring an elementary knowledge of security topics. The course further helps students as they prepare for the CompTIA Security+ Certification examination.

Associate Degree Applicable

CIT 091 3 Units**Introduction to Networks (CCNA - Cisco Networking Academy)****Lecture:** 36 contact hours**Lab:** 54 contact hours

This first course in a three-course CCNA series introduces architectures, models, protocols, and networking elements – functions needed to support the operations and priorities of Fortune 500 companies to small innovative retailers. Students will have the chance to build simple local area networks (LANs). Developing a working knowledge of IP addressing schemes, foundational network security, students will be able to perform basic configurations for routers and switches. After completing all three CCNA courses, students are ready to take the CCNA Certification.

Associate Degree Applicable**CIT 092 3 Units****Switching, Routing, and Wireless Essentials CCNA (Cisco Networking Academy)****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 091

This course is the second course in a three-course sequence preparing students to take the Cisco Certified Network Associate certification examination and prepares students to take the Cisco Certified Entry Networking Technician certification exam. This course teaches comprehensive networking concepts and skills from network applications to the protocols and services provided to those applications by the lower layers of the network.

Associate Degree Applicable**CIT 093 3 Units****Enterprise Networking, Security, and Automation CCNA (Cisco Networking Academy)****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 092

This course provides students with classroom and laboratory experience in configuring, managing, and troubleshooting routers and switches in large and complex IPv4 and IPv6 networks. In depth experience configuring, managing, and troubleshooting complex protocols such as OSPF, EIGRP, STP, and VTP.

Associate Degree Applicable**CIT 098 1-4 Units****Computer Information Technology Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**CIT 099 3 Units****Cisco Certified Network Associate Security****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 091 and CIT 092

This course prepares students for entry-level security specialist careers by developing in-depth understanding of network security principles and the tools and device configurations necessary to create and maintain a secure network. The course includes hands-on activities with networking equipment.

Associate Degree Applicable**CIT 100 3 Units****Introduction to Personal Computers****Lecture:** 54 contact hours

A survey course for the use of software tools such as word processing, spreadsheets, graphics, presentation and database using Microsoft Office.

Associate Degree Applicable**Transfers to CSU only****CIT 101 3 Units****Introduction to Computer Literacy****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** CIT 010 or CIT 031

This course is an introduction to fundamental Information Technology / Information Systems concepts and Information Security. The course includes practical exercises with spreadsheet, database, and Internet applications.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** BUS 140/ITIS120**CIT 102 3 Units****Advanced Computer Literacy****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 101

This course covers the complex fundamentals of hardware computer concepts and software applications. It provides the skills needed to create advanced word processing documents, spreadsheets, databases, and presentations.

Associate Degree Applicable**Transfers to CSU only****CIT 103 4 Units****Amazon Web Services (AWS) Academy: Cloud Foundations****Lecture:** 45 contact hours**Lab:** 81 contact hours

The Amazon Web Services (AWS) Academy Cloud Foundations course is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support.

Associate Degree Applicable**Transfers to CSU only****CIT 104 4 Units****Amazon Web Services (AWS) Academy: Introduction to the Cloud****Lecture:** 45 contact hours**Lab:** 81 contact hours

The Amazon Web Services (AWS) Academy: Introduction to Cloud explores cloud computing. In this course, students explore cloud computing services, applications, and use cases. Students dive deeply into cloud computing best practices and learn how cloud computing helps users develop a global infrastructure to support use cases at scale while also developing and inventing innovative technologies. This course provides students with classroom instruction that introduces cloud computing skills and accelerates students toward the next steps in their educational journey. The seven core practices of computer science describe the behaviors and ways of thinking that computationally literate students use to fully engage in today's data-rich and interconnected world.

Associate Degree Applicable**Transfers to CSU only**

CIT 110 4 Units**Information and Communications Technology Essentials****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level ICT professionals. The fundamentals of computer hardware and software as well as advanced concepts such as security, networking, and the responsibilities of an ICT professional will be introduced. Preparation for CompTIA's A+ certification exam.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ITIS 110**CIT 114 3 Units****Spreadsheets: Excel****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** CIT 100 or CIT 101

In this course, students will learn how to create workbooks using Microsoft Excel, which integrates spreadsheet analysis, information management, and graphics. Content includes the design and use of worksheets, data entry, formulas, functions, and graph creation. Students will also learn how to professionally format worksheets, use Excel functions in different applications, use Excel financial functions and data tables, and understand the concept of data management in Excel.

Associate Degree Applicable**Transfers to CSU only****CIT 116 3 Units****Database Management: Access****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** CIT 100 or CIT 101

This is a comprehensive course in the development and maintenance of a database. It provides a working knowledge of designing a database that includes: setting field properties, storing, retrieving, printing, and indexing records, creating informational and technical queries, developing customized forms and reports, establishing different types of relationships, and integrating Access with the Web. The course emphasis is on developing a practical ability to use a database in a Windows environment with full graphical user interface functionality.

Associate Degree Applicable**Transfers to CSU only****CIT 118 3 Units****Microsoft PowerPoint****Lecture:** 36 contact hours**Lab:** 54 contact hours

This is a comprehensive-level course in Microsoft PowerPoint. This course is designed for students to create effective and compelling presentations. Instructions include developing and customizing presentations by using charts, clip art, pictures, presentation templates, WordArt, and information and graphics from Word, Excel, and Access.

Associate Degree Applicable**Transfers to CSU only****CIT 127 3 Units****Introduction to Computer Forensics****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 101

This course will introduce basic tools, techniques, and procedures for collecting, capturing, and preserving digital evidence that can be admitted and used in computer forensics processes. Topics include securing and analyzing a computer system and network system, evaluating suspect data and files, and composing reports based on investigative findings.

Associate Degree Applicable**Transfers to CSU only****CIT 128 3 Units****Introduction to Linux OS****Lecture:** 36 contact hours**Lab:** 54 contact hours

This is an introductory course to the LINUX Operating System and basic Linux Operating System environment and commands. This course will cover file system navigation, Graphic User Interfaces (GUI) such as GNOME and KDE, file permissions, the Linux text editors, command shells, and basic network commands. This course is mapped to LINUX LPI Level 1 guidelines.

Associate Degree Applicable**Transfers to CSU only****CIT 140 3 Units****Introduction to Systems Analysis and Design****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 101

The course presents a systematic methodology for analyzing a business problem or opportunity, determining what role, if any, computer-based technologies can play in addressing the business need, articulating business requirements for the technology solution, specifying alternative approaches to acquiring the technology capabilities needed to address the business requirements, and specifying the requirements for the information systems solution in particular, in-house development, development from third-party providers, or purchased commercial-off-the-shelf packages.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ITIS 140**CIT 144 3 Units****Medical Terminology****Lecture:** 54 contact hours

The course includes the origin, usage, spelling, pronunciation, and meaning of terminology used to describe the structures of the human body, as well as therapeutic and diagnostic procedures. It is a course for students who are interested in pursuing health occupations such as medical office occupations, nursing, radiological technology, and respiratory care.

Associate Degree Applicable**Transfers to CSU only**

CIT 155 3 Units**Systems and Network Administration****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 110

This course will provide a student with the knowledge and skills required to build, maintain, troubleshoot and support server hardware and software technologies. The student will be able to identify environmental issues; understand and comply with disaster recovery and physical / software security procedures; become familiar with industry terminology and concepts; understand server roles / specializations and interaction within the overall computing environment.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ITIS 155**CIT 160 3 Units****Introduction to Information Systems Security****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 232

An introduction to the fundamental principles and topics of Information Technology Security and Risk Management at the organizational level. It addresses hardware, software, processes, communications, applications, and policies and procedures with respect to organizational Cybersecurity and Risk Management.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ITIS 160**CIT 215 3 Units****Database Management Systems****Lecture:** 54 contact hours**Prerequisite:** CIT 116

This course focuses on the concepts of relational databases including database management systems, database design fundamentals and Structured Query Language (SQL).

Associate Degree Applicable**Transfers to CSU only****C-ID:** ITIS 150**CIT 222 1-3 Units****Independent Study in Computer Information Technology****DIR:** 54 contact hours

Limitation on Enrollment: Enrollment is limited to those who meet independent study criteria. Prior to registration a contract must be prepared. See instructor for details.

Assigned projects involving research and analysis of selected topics or directed study for students who are interested in furthering their knowledge of information technology on an independent study basis. For each unit earned, students are required to devote three hours per week throughout the semester.

Associate Degree Applicable**Transfers to CSU only****CIT 232 3 Units****Computer Network Fundamentals****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CIT 101

This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP (Internet Protocol) addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for further study of computer networks. It uses the OSI (Open Systems Interconnection) and TCP (Transmission Control Protocol) layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. It provides preparation for the CompTIA Network+ certification exam.

Associate Degree Applicable**Transfers to CSU only****C-ID:** ITIS 150**CIT 601 Noncredit****Introduction to Basic Computer Skills****Lecture:** 8 contact hours**Lab:** 16 contact hours

This course provides basic computer skills. Topics include basic knowledge of computer hardware, computer software, computer terminology, working with Windows, using the Internet, and creating basic business documents using Microsoft Word. This course is recommended for individuals who have little or no computer skills as well as those who wish to seek an entry-level position as an office clerk.

CIT 602 Noncredit**Microsoft Word Fundamentals****Lecture:** 8 contact hours**Lab:** 16 contact hours

This course provides a basic working knowledge of Microsoft Word for office workers. Topics include basic document, paragraph, and document formatting, working with clip art, lists, columns and tables. This course is recommended for individuals who wish to seek an entry-level position as an office clerk.

CIT 603 Noncredit**Microsoft Excel Fundamentals****Lecture:** 8 contact hours**Lab:** 16 contact hours

This course provides a basic working knowledge of Microsoft Excel for office workers. Topics include creating and editing worksheets, formatting worksheets, printing worksheets, using simple tables and graphs, basic formulas and fundamental Excel functions. This course is recommended for individuals who wish to seek an entry-level position as an office clerk.

CIT 604 Noncredit**Microsoft Powerpoint Fundamentals****Lecture:** 8 contact hours**Lab:** 16 contact hours

This course provides a basic working knowledge of Microsoft PowerPoint for office workers. Topics include creating presentations, managing PowerPoint slides, slide text and graphics, and displaying a presentation. This course is recommended for individuals who wish to seek an entry-level position as an office clerk.

CIT 605 Noncredit**Microsoft Outlook Fundamentals****Lecture:** 8 contact hours**Lab:** 16 contact hours

This course provides a basic working knowledge of Microsoft Outlook for office workers. Topics include Outlook contacts, Outlook email, and Outlook calendar. This course is recommended for individuals who wish to seek an entry-level position as an office clerk.

CIT 606 Noncredit**Computer Proficiency Lab****Lab:** 18 contact hours

This noncredit course provides students who need extra help or extra lab time to develop proficiency with computer technology with an on-campus resource.

CIT 619 Noncredit**Computer Graphics****Lecture:** 54 contact hours

This noncredit course is an introduction to graphic design using graphic software to create professional-looking documents. (Formerly CIT 026)

CIT 620 Noncredit**Internet****Lecture:** 18 contact hours**Lab:** 54 contact hours**Advisory:** CIT 105

This noncredit course provides the basics of the Internet using current technology browser software. The course includes the effective use of web search portals, online collaboration software, and implications of security, privacy and ethical usage. (Formerly CIT 120)

Administrative Assistant Certificate of Achievement

The Administrative Assistant Certificate is designed to prepare students for employment in today's modern office. Students will learn computer skills in Microsoft Office Applications and writing skills that are needed for successful business communication. Student will learn computer skills through hands-on practice and various business project simulations.

Code	Title	Units
Required Courses:		
CIT 013	Intermediate Keyboarding	3
CIT 021	Word Processing: Comprehensive Microsoft Word	4
CIT 031	Business English	3
CIT 100	Introduction to Personal Computers	3
or CIT 101	Introduction to Computer Literacy	
CIT 114	Spreadsheets: Excel	3
CIT 116	Database Management: Access	3
CIT 118	Microsoft PowerPoint	3
Total Units		22

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Use advanced Word Processing features for business applications.
- Type 60 words per minute.
- Use PC-based database management system.

Amazon Web Services (AWS) Cloud Computing Certificate of Achievement

AWS Academy Cloud Foundations is intended for students who seek an overall understanding of cloud computing concepts, independent of specific technical roles. It provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support.

Code	Title	Units
Required Courses:		
CIT 103	Amazon Web Services (AWS) Academy: Cloud Foundations	4
CIT 104	Amazon Web Services (AWS) Academy: Introduction to the Cloud	4
CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	3
CIT 092	Switching, Routing, and Wireless Essentials CCNA (Cisco Networking Academy)	3
CS 102	Introduction to Python Programming	3
CIT 128	Introduction to Linux OS	3
CS 150	Web Programming with PHP	4
CS 215	Programming with Java	4
Total Units		28

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Develop skills to design infrastructure as a service (IaaS) solutions by provisioning computing, establishing virtual private networks, managing databases and storage within a secure online platform.
- Analyze performance metrics of a cloud environment to respond to information and computer technology workloads and economically optimize services.
- Collaborate in a team designing business solutions working on various projects.
- Employ best security practices within the AWS environment.

Android Application Security Support Specialist Certificate of Achievement

This certificate provides a comprehensive overview of Android Application Security. Students will understand Android devices and how to secure them. Upon completion of this certificate, students will be prepared for entry-level work in Information Technology.

Code	Title	Units
Required Courses:		
CIT 088	Introduction to Android Security	3
CIT 101	Introduction to Computer Literacy	3
CIT 110	Information and Communications Technology Essentials	3-4
or CIT 128	Introduction to Linux OS	
CIT 160	Introduction to Information Systems Security	3
CIT 232	Computer Network Fundamentals	3
or CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	
CS 076	Android App Development	3
Total Units		18-19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Gain entry-level job skills using Android devices and securing such devices.

Cisco Certified Network Associate Certificate of Career Preparation

This certificate is designed to prepare students to take the Cisco Certified Network Associate certification examination. This course of study prepares students for entry level employment in the computer networking field. The certificate is part of the Cisco Networking Academy program and all instruction is provided by Cisco Certified Academy Instructors using Cisco certified curriculum.

Code	Title	Units
Required Courses:		
CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	3
CIT 092	Switching, Routing, and Wireless Essentials CCNA (Cisco Networking Academy)	3
CIT 093	Enterprise Networking, Security, and Automation CCNA (Cisco Networking Academy)	3
Total Units		9

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Design a small office/home office (SOHO) network.
- Attach networking components to a Local Area Network (LAN) & Wide Area Network (WAN) network using standard cables and connectors.
- Construct routers to operate in a SOHO environment including proper password policies and basic security.
- Construct SOHO LAN network equipment including support for virtual LANs (VLANs).
- Construct SOHO equipment for connection to a WAN.

CIT - Management Information Systems Associate of Science Degree

The Management Information Systems Associates of Science degree prepares students to work with Computerized Information Systems that involve substantial use of databases and servers. Students with this degree are prepared for employment related to computer systems, networks, databases, or information security. To graduate with a specialization in CIT Management Information Systems, students must complete all requirements for this degree plus the general breadth requirements. (minimum total = 60 units)

Code	Title	Units
Required Courses:		
BUSAD 127	Business Communication	3
CIT 101	Introduction to Computer Literacy	3
CIT 102	Advanced Computer Literacy	3
CIT 114	Spreadsheets: Excel	3
CIT 116	Database Management: Access	3
CIT 160	Introduction to Information Systems Security	3
CIT 215	Database Management Systems	3
CIT 232	Computer Network Fundamentals	3
Total Units		24

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Use the Internet to find business and information technology (IT) information necessary to solve a business need, discerning authoritative from non-authoritative information sources and the bias of the information source.
- Understand basic Personal Computer (PC) system hardware and software architecture and their capabilities.

- c. Analyze a business IT need, identify different components required to solve the problem, and create a solution that uses an appropriate combination of commercial software applications.
- d. Transfer to a feeder 4-year university and complete a bachelor's degree in MIS.
- e. Compete and gain entry level position in field of management information systems.

CIT - Management Information Systems Certificate of Achievement

The Management Information Systems Certificate offers a complete introduction to computers, specific training in selected software packages, advanced courses dealing with programming, Databases, and networks.

Code	Title	Units
Required Courses:		
CIT 031	Business English	3
CIT 101	Introduction to Computer Literacy	3
CIT 114	Spreadsheets: Excel	3
CIT 116	Database Management: Access	3
CIT 215	Database Management Systems	3
CIT 232	Computer Network Fundamentals	3
CS 120	Introduction to Visual Basic.NET	4
CIT 021 or CIT 102	Word Processing: Comprehensive Microsoft Word Advanced Computer Literacy	3-4
Total Units		25-26

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Solve a business need, discerning between authoritative and non-authoritative information sources, and the bias of the information source.
- b. Describe the Personal Computer (PC) system's hardware and software architecture.
- c. Use the PC operating system and features of common Office applications, such as a spreadsheet and database management system.
- d. Analyze a business Information Technology (IT) need, identify different components required to solve the problem, and create a solution that uses an appropriate combination of commercial software applications.
- e. Recognize computer and network security threats and common approaches to preventing security compromises.
- f. Use Structured Query Language (SQL) to retrieve the records required by a business report and the structure of a relational database.
- g. Outline computer network solutions to a business problem.
- h. Prepare written reports and documentation on a giving system.

CIT - Office Technology Associate of Arts Degree

To graduate with a degree in Office Technology, students must complete the following required courses plus the general breadth requirements for the Associate Degree (total = 60 units). This degree is designed to prepare students for entry-level positions such as general clerk, information clerk, receptionist, and administrative secretary.

Code	Title	Units
Required Courses:		
CIT 013	Intermediate Keyboarding	3
CIT 021	Word Processing: Comprehensive Microsoft Word	4
CIT 100 or CIT 101	Introduction to Personal Computers Introduction to Computer Literacy	3
CIT 102	Advanced Computer Literacy	3
CIT 114	Spreadsheets: Excel	3
CIT 116	Database Management: Access	3
CIT 118	Microsoft PowerPoint	3
Total Units		22

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Operate the PC operating system and common office applications such as a spreadsheet and database management system.
- b. Understand the hardware and software architecture of a contemporary Personal Computer system.
- c. Type at 60 words per minutes.
- d. Recognize computer and network security threats and common approaches to preventing security compromises.
- e. Follow procedures and guidelines for efficient and effective business office operations.
- f. Create a resume and employment application letter.
- g. Prepare written reports and memos.

Computer Network Support Specialist Certificate of Achievement

This course of study prepares students for entry-level employment in the computer networking field. The courses also prepare students to take multiple industry recognized certifications from Cisco Systems, including the CCENT, CCNA, and CCNA Security. Students will also be prepared to take the A+ certification examination from CompTIA and the MTA examination from Microsoft. Most of the courses in this Certificate are part of the Cisco Networking Academy Program.

Code	Title	Units
Required Courses:		
CIT 101	Introduction to Computer Literacy	3
CIT 110	Information and Communications Technology Essentials	4
CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	3
CIT 092	Switching, Routing, and Wireless Essentials CCNA (Cisco Networking Academy)	3
CIT 093	Enterprise Networking, Security, and Automation CCNA (Cisco Networking Academy)	3
CIT 099	Cisco Certified Network Associate Security	3
Total Units		19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Set up computer networks for various student networking competitions such as Cisco Net Riders and Western Regional Collegiate Cyber Defense Competition (WRCCDC).
- Recognize and utilize concept of subnetting in any given network.
- Formulate and recognize proper topology when designing a new Network.
- Construct and secure Local Area Network (LAN) with a password.
- Construct and secure Wide Area Network (WAN) with a password.
- Design and produce industrial security policy documentation.

Computer Support Specialist Certificate of Achievement

The Computer Specialist Certificate is designed to provide students with skills in advanced computer technology pertaining to a wide variety of industry specific and government agency career paths.

Career Outlook: The rapid spread of computers and information technology has generated a need for highly trained workers proficient in various job functions. These jobs are categorized under the heading of Computer Specialist in the EDD Labor Market Information Occupational Projection Report. The Computer Specialist designation constitutes 97 percent of the Computer and Mathematical Occupations category. There are many career paths available mainly because employers' needs are so varied.

Code	Title	Units
Required Courses:		
CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	3
CIT 092	Switching, Routing, and Wireless Essentials CCNA (Cisco Networking Academy)	3
CIT 101	Introduction to Computer Literacy	3
CIT 110	Information and Communications Technology Essentials	4
CIT 160	Introduction to Information Systems Security	3
CIT 155	Systems and Network Administration	3

Code	Title	Units
or CIT 128	Introduction to Linux OS	
Total Units		19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Recognize computer hardware and software concepts and recognize appropriate hardware and software to address an identified; Develop competency with Internet searching technology.
- Apply Computer Information Technology analysis concepts by writing an analytical comparison of the various solutions discussing relative merits in terms of effectiveness of solution, ease of implementation.
- Explain security implications in each organization and prepare a security policy document.
- Explain which ethical judgement option is the most ethical.
- Develop a computerized solution to a problem that uses different applications within the suite.
- Utilize automation capabilities of the suite to create an integrated query using Structured Query Language (SQL) to retrieve information.
- Identify the various components of computer network technology and describe their basic function within the context of the network.

Digital Forensics Certificate of Achievement

This certificate consists of 18 units that will prepare students with the knowledge required for analyzing, investigating, and writing reports pertaining to basic digital forensics. This certificate will help to prepare students for entry-level work in the digital forensics field.

Code	Title	Units
Required Courses:		
CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	3
CIT 101	Introduction to Computer Literacy	3
CIT 127	Introduction to Computer Forensics	3
CIT 128	Introduction to Linux OS	3
CIT 155	Systems and Network Administration	3
CIT 160	Introduction to Information Systems Security	3
Total Units		18

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Utilize proper investigative procedures relative to the individual, corporate, and criminal rights, responsibilities, and law.
- Utilize basic methods and techniques of forensic investigation.
- Use forensic software to secure and analyze various digital media at a basic level.

- d. Access, document and evaluate hidden data files.
- e. Use basic investigative techniques for various operating systems.
- f. Create and present legal reports and analysis of forensic investigation results.
- g. Recognize proper workflow and control.

Information Security and Cyber Defense Certificate of Achievement

A comprehensive introduction to the principles of Information Assurance, Information Systems Security, and Cyber Defense. Program content and outcomes are aligned with industry certifications and the recommendations of the National Security Administration/US Department of Homeland Security. Includes practical experiences with the application of Information Assurance principles to Systems and Network Administration.

Code	Title	Units
Required Courses:		
CIT 101	Introduction to Computer Literacy	3
CIT 110	Information and Communications Technology Essentials	4
CIT 155	Systems and Network Administration	3
CIT 160	Introduction to Information Systems Security	3
CIT 232	Computer Network Fundamentals	3
Computer Programming - One course from the following:		
CS 120	Introduction to Visual Basic.NET	4
CIT 215	Database Management Systems	3
Statistics - One course from the following:		
ECON 208	Business and Economic Statistics	4
	or MATH 108 Introduction to Probability and Statistics	
	or MATH 108H Introduction to Probability and Statistics - Honors	
Total Units		23-24

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Attain Industry recognized certification(s) such as EC Council Certified Ethical Hacker, Cisco Certified Network Associate - Security, or CompTIA Security+.
- b. Participate in a Student Cyber Security Competition such as Collegiate.
- c. Cyber Defense Competition, or National Cyber League.
- d. Complete a Cyber Security related internship experience.
- e. Obtain employment part-time or full-time in a Cyber Security related field.

Information Systems and Technology Associate of Science Degree

To graduate with a specialization in Information Systems and Technology students must complete the following required courses plus the general breadth requirements for the Associate Degree (minimum 60 semester units). The A.S. Degree in Information Systems and Technology is designed to prepare students who wish to pursue a bachelor's degree from a four-year institution.

Code	Title	Units
Required Courses:		
ECON 208	Business and Economic Statistics	4
	or MATH 108 Introduction to Probability and Statistics	
	or MATH 108H Introduction to Probability and Statistics - Honors	
BUSAD 210	Business Law	3
CIT 101	Introduction to Computer Literacy	3
CIT 116	Database Management: Access	3
CIT 140	Introduction to Systems Analysis and Design	3
CIT 160	Introduction to Information Systems Security	3
CIT 215	Database Management Systems	3
CIT 232	Computer Network Fundamentals	3
CS 120	Introduction to Visual Basic.NET	4
MATH 102	College Algebra	4
	or MATH 151 Precalculus	
Total Units		33

Code	Title	Units
Recommended Courses:		
CS 215	Programming with Java	4
CS 077	Introduction to C-Sharp	4

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcome

At the completion of this program, students will be able to:

- a. Demonstrate level of preparation appropriate for a program that is designed to serve as a transfer course to CSU San Bernardino (CSUSB) by being accepted as a transfer student at CSU San Bernardino with a major in Information Systems and Technology major at CSUSB.

iOS Application Security Support Specialist Certificate of Achievement

This is a comprehensive introduction to iOS Application Security. The certificate provides students with the knowledge required to understand Inter-network Operating System (iOS). Graduating students from this program will be prepared for entry level work in Information Technology.

Code	Title	Units
Required Courses:		
CIT 101	Introduction to Computer Literacy	3
CIT 110	Information and Communications Technology Essentials	3-4
or CIT 128	Introduction to Linux OS	
CIT 160	Introduction to Information Systems Security	3
CIT 232	Computer Network Fundamentals	3
or CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	
CIT 089	Introduction to iOS Application Security	3
CS 074	iOS App Development	3
Total Units		18-19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcome

At the completion of this program, students will be able to:

- Explain Inter-network Operating System (iOS) and how to protect them from hacks.
- Recognize and apply proper security measures to protect iOS devices.
- Utilize proper techniques in setting up iOS devices.
- Troubleshoot any iOS device and document findings.
- Recognize, and update any iOS device and apply software patches as needed.

Medical Coding and Billing Certificate of Achievement

This course of study prepares students for entry-level employment in the medical coding and billing field. The courses are geared towards the students' successful passing of the American Academy of Professional Coders National Certification Exam - Certified Professional Coder (CPC). During the course of study, students learn the basics of health care finance, office computer skills, anatomy and physiology, medical terminology, computerized health record, and other recommended elective courses needed to succeed in the field.

Code	Title	Units
Required Courses:		
BIOL 155	Introductory Anatomy and Physiology	4
CIT 010	Beginning Keyboarding and Word Processing	3
CIT 045	Medical Insurance Billing and Coding	3
CIT 048	Medical Office Procedures	3
CIT 051	Introduction to Electronic Health Records	3
CIT 100	Introduction to Personal Computers	3
CIT 144	Medical Terminology	3
Total Units		22

Code	Title	Units
Recommended Course:		
CIT 031	Business English	3

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate mastery of course work by ensuring the codes are applied correctly during the medical billing process, which includes abstracting the information from documentation, assigning the appropriate codes, and creating a claim to be paid by insurance carriers.
- Obtain employment as a Medical Coder/Biller or in an occupation where the application of knowledge and skills learned within this program are integral to routine duties of the occupation.
- Demonstrate competency with Coding Software Program by applying Coding and Billing Guidelines.

Office Technology Fundamentals Certificate of Completion

This noncredit certificate prepares individuals with limited computer experience to meet the IT challenges faced in the contemporary business office. Individuals who complete this certificate will have the technical skills to work as an entry-level clerk in a business office or begin a credit certificate program at a community college.

Code	Title	Units
Required Courses:		
CIT 601	Introduction to Basic Computer Skills	0
CIT 602	Microsoft Word Fundamentals	0
CIT 605	Microsoft Outlook Fundamentals	0
CIT 606	Computer Proficiency Lab	0
CIT 603	Microsoft Excel Fundamentals	0
or CIT 604	Microsoft Powerpoint Fundamentals	
Total Hours		108

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate mastery of course work by presenting a digital portfolio with representative work output from each of the courses in the program.
- Successfully complete one term as a credit student at an institution of higher education.
- Obtain employment as an office worker or in an occupation where the application of knowledge and skills learned within this program are integral to routine duties of the occupation.

Web Application Security Support Specialist Certificate of Achievement

This certificate will provide students with the knowledge required to understand web security, how to protect web resources and password administration management online. Upon completion of this certificate, students will be prepared for entry level work in Information Technology.

Code	Title	Units
Required Courses:		
CIT 101	Introduction to Computer Literacy	3
CIT 110	Information and Communications Technology Essentials	3-4
or CIT 128	Introduction to Linux OS	
CIT 160	Introduction to Information Systems Security	3
CIT 232	Computer Network Fundamentals	3
or CIT 091	Introduction to Networks (CCNA - Cisco Networking Academy)	
CIT 090	Introduction to Web Security	3
CS 075	Introduction to Web Development	3
Total Units		18-19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate fundamental cyber security skills.
- Use and apply various software in web security, protection of web resources, and password administration management online.

Computer Science

Courses offered by the Computer Science Department are interactive, featuring hands-on experience with contemporary computer hardware and software. The courses cover a range of computing topics with an emphasis on software development and fundamental computer science concepts. The Computer Science curriculum may culminate in either an Associate of Science degree or a certificate. The degree program prepares students to transfer to a four-year institution with a major in computer science or a related discipline. Students planning to transfer to a four-year institution and major in computer science should consult with a counselor regarding the transfer process and lower division requirements.

Contact Information

Division: Mathematics, Business, and Computer Technology (B - 127)

Division Phone Number: (909) 384-8520

Department Chair: Reginald Metu (rmetu@sbccd.edu), Ed.D.

Counselor Liaisons: Deana Kelly-Silagy (dsilagy@sbccd.edu), M.A. and Armando Garcia (argarcia@sbccd.edu), M.S.C.

-
- Computer Science Associate in Science for Transfer Degree (p. 182)
 - Computer Science Associate of Science Degree (p. 182)
 - Computer Science Certificate of Achievement (p. 183)

CS 074 3 Units

iOS App Development

Lecture: 18 contact hours

Lab: 108 contact hours

This course will cover the fundamentals of iPhone application development using the Objective-C, Swift, and the iPhone SDK (Software Development Kit). The theory and use of using and managing Xcode, 3D Game Development, Storyboard Builder, Audio /Animation /Data /Location, User Interface (UI) development, game and app design will be covered. Students will gain valuable experience using front end and back end development tools to complete production ready iPhone applications.

Associate Degree Applicable

CS 075 3 Units

Introduction to Web Development

Lecture: 18 contact hours

Lab: 108 contact hours

This course focuses on web development and addresses the essentials for skilled web developers who can create digital media, web, and mobile applications for modern desktop and portable devices. Students in this program are offered an in-depth, project-driven curriculum that provides a comprehensive study of HTML, CSS, JavaScript, Web Animation, Multimedia Creation. Students will learn to develop visually aesthetic, user friendly, and interactive web-based applications. Students will also gain valuable experience using front end and backend development tools like Adobe Dreamweaver, Adobe Animate, and Visual Studio. Students will also be exposed to the programming languages that cross over from web development to mobile device development. The synergy between the many web and mobile technologies will help each student build a foundation suitable for professional content.

Associate Degree Applicable

CS 076 3 Units

Android App Development

Lecture: 18 contact hours

Lab: 108 contact hours

This course will cover Android Developer Fundamentals and basic Android programming concepts and build a variety of apps, starting with Hello World and working their way up to apps for business solutions and game development. Creating assets for applications and utilities is also covered.

Associate Degree Applicable

CS 077 4 Units

Introduction to C-Sharp

Lecture: 54 contact hours

Lab: 54 contact hours

Advisory: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course is an introduction to C# (C Sharp) app development. C# is a sophisticated and type-safe object-oriented language that empowers developers to build a variety of secure and robust applications that run on the .NET Framework. Topics will include fundamental object-oriented programming concepts like loops, arrays, logic, debugging, database, using the C# languages in a game development environment, files, and game development.

Associate Degree Applicable

CS 098 1-4 Units

Computer Science Work Experience

WRKEX: 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable

CS 100 4 Units

Advanced C-Sharp Programming

Lecture: 54 contact hours

Lab: 54 contact hours

This course is the advanced C-Sharp course designed to further the learner's C-Sharp and programming knowledge beyond the Introductory level. Advanced programming using C-Sharp .NET is designed to emphasize software development, whether it is part of game development, web technologies, cloud computing technologies, Internet of Things (IoT), educational solutions, and innovative, original ideas conceived in the process of learning. Topics include object-oriented design, class(object) development, interfaces, design patterns, database access, and utilities.

Associate Degree Applicable

Transfers to both UC/CSU

CS 102 3 Units

Introduction to Python Programming

Lecture: 36 contact hours

Lab: 54 contact hours

Advisory: MATH 102 or MATH 108 or MATH 115

This course will cover the most common Python libraries as well as teach you programming best practices. We will explore different aspects of Python, including web, utility applications, machine learning, computer vision, IoT (Internet of Things), and data modeling applications. By the completion of the course, learners will complete a project using Python related to their major or area of interest.

Associate Degree Applicable

Transfers to both UC/CSU

CS 110 3 Units**Fundamentals of Computer Science****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course is an overview of the computer science discipline investigating the design and use of the computer devices, the art and science of problem solving and programming, the representation of data, human-computer interactions and ethical considerations, and information security principles. Also included is hands-on experience with command line and GUI operating systems; application of HTML, CSS, and scripts to web pages; and computer programming with an object-oriented language such as C++, Java, or C#.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** COMP 122**CS 120 4 Units****Introduction to Visual Basic.NET****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This is an introduction to the Visual Basic.NET programming language. Topics include problem solving, graphical user interface, program design, software tools, structured logic, object-oriented programming, graphics and animation, procedures, arrays, files, and programming projects.

Associate Degree Applicable**Transfers to both UC/CSU****CS 130 3 Units****Discrete Structures****Lecture:** 54 contact hours**Prerequisite:** CS 110 and MATH 102

This course surveys discrete structures used in computer science with an emphasis on applications. Topics covered include: functions, relations, and sets; basic logic; proof techniques; basics of counting; graphs and trees; and discrete probability.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** COMP 152**CS 150 4 Units****Web Programming with PHP****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course uses PHP (PHP: Hypertext Preprocessor) for programming introduction; as well as web server-side programming for web apps of dynamic websites and web services. It also introduces database-driven web infrastructure, using PHP to access database server and content management system for a full-fledged web app. Topics include PHP fundamentals, function, array, string, object-oriented paradigm, data store (database management system) introduction, content management system (CMS) introduction, PHP with data store, PHP with CMS, LAMP/WAMP stack introduction. Although not required, but some coding knowledge and experience in high-level programming language (such as C++) is strongly advised.

Associate Degree Applicable**Transfers to CSU only****CS 170 4 Units****Assembly Language****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** CS 110

This course focuses on the organization and behavior of computer systems at the assembly-language level. The mapping of high-level language statements and constructs to machine-level instructions and internal representation of common data types and simple structures is studied including the methods of numerical computation with assembly language constructs emphasizing common pitfalls associated with data representation and procedural errors encountered during the creation of machine language routines. This course includes hands on experience creating assembly language programs.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** COMP 142**CS 190 4 Units****Programming in C++****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** CS 110 and Eligibility for college level English based on the SBVC Guided-Self Placement process.

This course is an examination of intermediate object-oriented programming concepts and their application using the C++ language. Topics include programming control mechanisms; algorithm development; analysis of iterative and recursive solution complexity for various algorithms; templates and data structures; exception handling; object-oriented design and modeling; object-oriented programming in software engineering; pointers architecture.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** COMP 122**CS 215 4 Units****Programming with Java****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** CS 110

An introduction to Java. Topics include object-oriented design, multiple platform environment, program logic structures, graphical user interface, Java Applet, and recursion.

Associate Degree Applicable**Transfers to both UC/CSU****CS 220 4 Units****Advanced Visual Basic.Net Programming****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** CS 120

This course covers advanced programming using Visual Basic .NET with an emphasis on software development and maintenance. Topics include object-oriented design, multiple class modules, interface and linking, windows and Internet controls, and database access.

Associate Degree Applicable**Transfers to both UC/CSU**

CS 222 1-3 Units**Special Problems in Computer Science I**

DIR: 54 contact hours

Prerequisite: CS 110

Assigned problems involving computer laboratory work for selected students who are interested in furthering their knowledge of computer science on an independent study basis. Students are required to devote three contact hours per week to their project throughout the semester. Prior to registration, a contract must be prepared. See Instructor for details.

Associate Degree Applicable**Transfers to CSU only****CS 265 3 Units****Data Structures and Algorithms with C++****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** CS 130 and CS 190 and MATH 250**Corequisite:** CS 130 and MATH 250

This course is an introduction to algorithmic analysis and data structures. Topics include formal computing algorithms, algorithmic strategies, and basic algorithm analysis; canonical data structures; intermediate recursion; human-computer interaction; professionalism and ethical behavior; software information assurance, software engineering, and software reuse.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** COMP 132

Computer Science Associate of Science Degree

This degree is designed to provide students with the fundamentals of software engineering, information processing concepts, and programming to prepare them for entry-level positions as programmers for scientific and business applications.

Code	Title	Units
Required Courses:		
CIT 100	Introduction to Personal Computers	3
CS 077	Introduction to C-Sharp	4
CS 100	Advanced C-Sharp Programming	4
CS 102	Introduction to Python Programming	3
CS 110	Fundamentals of Computer Science	3
CS 120	Introduction to Visual Basic.NET	4
CS 220	Advanced Visual Basic.Net Programming	4
CS 190	Programming in C++	4
or CS 215	Programming with Java	
Total Units		29

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze a complex computing problem and apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical coding principles.
- Function effectively as a member or leader of a team engaged in activities.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.
- Collaborate with other team members to analyze and develop program logic specific to any assigned project.
- Develop computer literacy skills to conduct basic research, assess new ideas and information and be prepared for lifelong learning.

Computer Science Associate in Science for Transfer Degree

The field of Computer Science is the study of technology and computation which include methods by which data is accessed and manipulated. This includes representational computation, computer learning paradigms, code constructs, algorithmic modeling, and software development and testing. The SBVC Associate in Science for Transfer (AS-T) degree in Computer Science prepares students for transfer to four-year colleges and universities. Students opting for a degree in computer science will be prepared to take classes in systems analysis, mathematics, data structures, C++, C#, Python, along with a variety of developing code structures in the cloud or local technologies. After acquiring the skills in this field, students will be prepared to manage and adjust to new and emerging technologies worldwide.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Computer Science AS-T degree, students must meet the following requirements:

- completion of the following major requirements with grades of C or better;
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the Intersegmental General Education Transfer Curriculum (IGETC) for CSU only, which requires a minimum of 37 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Computer Science should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses:		
CS 110	Fundamentals of Computer Science	3
CS 130	Discrete Structures	3

CS 170	Assembly Language	4
CS 265	Data Structures and Algorithms with C++	3
MATH 250	Single Variable Calculus I	4

Code	Title	Units
Major Total		29-30
Total Units That May Be Double Counted		7-10
General Education (IGETC for CSU) Units ¹		37
Elective (CSU Transferable) Units		0-1
Total Units		60

¹ IGETC-CSU is the only approved General Education pattern for this degree.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Function effectively as a member of a team to accomplish common goals.
- Read, write, and interpret Microsoft technical information.
- Analyze a problem and create an algorithmic solution.
- Apply knowledge of Windows development.
- Design, implement, and evaluate secure computer-based system based on specifications.
- Think critically and apply the scientific method.
- Analyze the impact of computing on individuals, organizations, and society.
- Respect privacy and identify responsible conduct.
- Engage in research, assess new ideas and information and be prepared for lifelong learning.
- Exhibit professional, legal, and ethical behavior.

Computer Science Certificate of Achievement

This certificate is designed to provide students with the fundamentals of software engineering, information processing concepts, and programming to prepare them for entry-level positions as programmers for scientific and business applications.

Code	Title	Units
Required Courses:		
CIT 100	Introduction to Personal Computers	3
CS 077	Introduction to C-Sharp	4
CS 100	Advanced C-Sharp Programming	4
CS 102	Introduction to Python Programming	3
CS 110	Fundamentals of Computer Science	3
CS 120	Introduction to Visual Basic.NET	4
CS 220	Advanced Visual Basic.Net Programming	4
CS 190	Programming in C++	4
or CS 215	Programming with Java	
Total Units		29

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze a problem and create a logical solution to the problem.
- Apply knowledge of Windows development.
- Design, implement, and evaluate secure computer-based system based on specifications.
- Analyze the impact of computing on individuals, organizations, and society.

Culinary Arts and Hospitality Management

The Culinary Arts curriculum prepares students for careers in culinary arts, food services, and other hospitality career fields. Successful completion of one of the vocational certificates qualifies students for certification and membership in the American School Food Service Association. Students planning to transfer to a four-year institution and major in Culinary Arts should consult with a counselor regarding the transfer process and lower division requirements.

The Hospitality Management curriculum prepares students for careers in the Hospitality industry, including culinary arts, food services, and other hospitality career fields. Hospitality is the second largest employing industry in the state of California and the United States. Students planning to transfer to a four-year institution and major in Hospitality should consult with a counselor regarding the transfer process and lower division requirements.

Culinary Arts Courses

CULART 010 6 Units

Restaurant Service and Catering I

Lab: 324 contact hours

This course provides a supervised internship in the Culinary Arts Program's operational restaurant. The concentration will be on building basic preparation techniques, recipe standardization, time management, and preparing meals for customers.

Associate Degree Applicable

CULART 011 6 Units

Restaurant Service and Catering II

Lab: 324 contact hours

Prerequisite: CULART 010

This course provides a supervised internship in a student-run restaurant. The concentration will be building on the basic preparation techniques, recipe standardization, time management, and preparing meals for customers. The skills learned in this course will build on skills learned in Internship I.

Associate Degree Applicable

CULART 012 6 Units

Food Truck Restaurant and Catering Services

Lab: 324 contact hours

Prerequisite: CULART 010

This course provides a supervised internship in the culinary arts operational food truck restaurant. The concentration will be on building management and technical skills needed to manage or run a kitchen and caterings from a food truck.

Associate Degree Applicable

CULART 040 6 Units

Introduction to Baking

Lab: 324 contact hours

This basic baking course highlights baking techniques found in commercial kitchens with a focus on quick breads, cookies, pies, artisan breads and basic cakes.

Associate Degree Applicable

CULART 041 6 Units

Desserts and Pastries

Lab: 324 contact hours

Prerequisite: CULART 040

This course highlights baking techniques found in commercial kitchens with a focus on cakes and decorating, artisan breads, and complex pastry.

Associate Degree Applicable

CULART 042 6 Units

Cake Decorating

Lab: 324 contact hours

Prerequisite: CULART 041

This class will provide the experience the student needs to become competent in cake decorating. This class will cover royal icing, butter icing, fondant, mirror glaze, fillings and ganache.

Associate Degree Applicable

CULART 043 6 Units

Advanced Desserts and Pastry/Chocolate/Sugar

Lab: 324 contact hours

Prerequisite: CULART 041

This course highlights baking techniques found in commercial kitchens with a focus on cakes and decorating, artisan breads, sugar work, chocolate work and complex pastry.

Associate Degree Applicable

CULART 044 3 Units

Introduction to Baking Skills, Ingredients, and Technology

Lecture: 54 contact hours

This course examines the basic baking skills needed in order to work within the Food Service Industry. This course will include how to scale, the ingredient list and how to read a recipe, technology used in baking, the science behind baking and how and why baking works.

Associate Degree Applicable

CULART 050 3 Units**Healthy Cooking and Special Diets****Lecture:** 18 contact hours**Lab:** 108 contact hours

This hands-on cooking class is an overview of the important nutrition principles, beneficial foods, and cooking techniques that contribute to building better brain health. Students prepare anti-inflammatory and nutrient dense foods rich in healthy fats, herbs and spices, antioxidants, probiotics, fiber, vitamins and minerals to create a delicious meal preparation. The focus is on healthy eating, organic food, sustainability and special needs diets and cooking techniques.

Associate Degree Applicable**CULART 080 6 Units****Small Business and Catering Management****Lecture:** 36 contact hours**Lab:** 216 contact hours

This course covers catering and banquet techniques for serving 25 to 100 people. It includes developing a small business that will work with clients to develop an event, including customizing a menu and calculating staffing needs for preparation, cooking, transporting, setting up, serving and cleaning up. This course also caters to event planning. (Formerly CULART 180)

Associate Degree Applicable**CULART 098 1-4 Units****Culinary Arts Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**CULART 161 3 Units****Quantity Food Preparation****Lecture:** 18 contact hours**Lab:** 108 contact hours**Advisory:** HOSP 160

This course details the basic principles, standards, procedures, and techniques necessary to prepare food for quantity production.

Associate Degree Applicable**Transfers to CSU only****CULART 205 3 Units****Principles of Design and Presentation****Lab:** 162 contact hours

This course will explore the theory behind design and layout of platters, trays and plates for presentation. Students will learn presentation standards, matching and pairing of foods, and wines and sauces that make up presentation.

Associate Degree Applicable**Transfers to CSU only****CULART 225 3 Units****Sanitation and Safety****Lecture:** 54 contact hours

This course focuses on the sanitation and safety issues involved with handling food through the food service process. Topics include the prevention of food borne illnesses; responsibilities of the food service manager and employees; the characteristics of a food-safe facility; food safety guidelines; and Hazard Analysis and Critical Control Point (HACCP) system and Serve Safe.

Associate Degree Applicable**Transfers to CSU only****C-ID:** HOSP 110**CULART 240 3 Units****Procurement, Purchasing and Selection****Lecture:** 54 contact hours

This course includes purchasing policies, specifications, procedures and controls and their implementation in the procurement of quantity foods, merchandise and supplies.

Associate Degree Applicable**Transfers to CSU only****CULART 250 3 Units****Wine, Beverage, and Food Pairing Concepts****Lecture:** 54 contact hours

This course explores customer psychology and trends in the bar and beverage industry. This course will also cover beer, spirits, serving styles, wine and beverage service, and food and wine pairing. A thorough study of major grape varieties, and world-wide appellations and growing climates.

Associate Degree Applicable**Transfers to CSU only****Hospitality Management Courses****HOSP 100 3 Units****Introduction to Hospitality and Customer Service****Lecture:** 54 contact hours

This course is an overview of the structure and financial performances of the food service and hospitality industry. It focuses on orientation to customer service, cultural/economic trends, and career opportunities in food service, tourism and hospitality. (Formerly CULART 101)

Associate Degree Applicable**Transfers to CSU only****C-ID:** HOSP 100**HOSP 120 3 Units****Hospitality Cost Control****Lecture:** 54 contact hours**Advisory:** ACCT 200

This course delves into the management side of the hospitality industry and how to control the various costs involved in the industry such as labor, food, logistics, overhead, and how to keep the cost of doing business within the industry reasonable. (Formerly CULART 275)

Associate Degree Applicable**Transfers to CSU only****C-ID:** HOSP 120

HOSP 130 3 Units**Hospitality Food and Beverage Management****Lecture:** 54 contact hours

This course will immerse the student in food and beverage management. Techniques and procedures of management are explored and developed as they relate to commercial and institutional food and beverage facilities such as hotels, casinos, schools, and prisons. (Formerly CULART 280)

Associate Degree Applicable**Transfers to CSU only****C-ID:** HOSP 130**HOSP 140 3 Units****Introduction to Hotel Management****Lecture:** 54 contact hours

This course introduces the operating systems and components of a hotel/resort facility, which includes front office, housekeeping, food and beverage, sales, and marketing, accounting, property maintenance, human/resource management and information systems.

Associate Degree Applicable**Transfers to CSU only****HOSP 160 3 Units****Culinary Production and Kitchen Operations****Lecture:** 18 contact hours**Lab:** 108 contact hours

This course will expose the student to a variety of production methods within the hospitality industry, with an emphasis on kitchen production, soups, sauces, stocks, equipment in a commercial kitchen, menu development, and cooking techniques used in a commercial kitchen. (Formerly CULART 160)

Associate Degree Applicable**Transfers to CSU only****C-ID:** HOSP160/NUTR120

Baking Business Certificate of Achievement

This certificate helps to prepare students for the dynamic world of owning or managing a business in the baking industry. Students will learn about menu development, communication, food safety, and entrepreneurial skills, and will learn how to manage a diverse workforce.

Code	Title	Units
Required Courses:		
BUSAD 110	Human Resource Management	3

HOSP 120	Hospitality Cost Control	3
Total Units		36

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a training plan to appropriately acclimate staff to state and local sanitation and safety guidelines.
- Discuss the proper way to handle staffing issues in a commercial bakery.
- Plan a functional dessert bar including flow and plating concepts.
- Plan an event for 100 people including total costs charged to the customer.

Baking Certificate of Achievement

The baking certificate will give students the fundamental knowledge and skills to prepare to become a baker or pastry cook. Students will create hearth and specialty breads, desserts, pastry, patisserie, and confections. Skills developed will be in menu planning, plating, communication, entrepreneurial and management skills, food safety, and cost control.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Establish and maintain safety and sanitation procedures.
- Prepare standardized recipes using a variety of cooking, baking and pastry techniques, as well as appropriate equipment and tools.
- Produce various baked goods and a variety of international and classic pastries and deserts using basic as well as advanced techniques which meet industry standards.
- Design, produce, assemble and decorate display and wedding cakes using various finishing methods which meet industry quality standards.

Hospitality Management Associate in Science for Transfer Degree

Hospitality is the study of servicing and satisfying guests within hotels, restaurants, private clubs, managed food service, event planning, tourism related businesses, and travel providers. The students will be trained in principles of supervision, marketing, purchasing, cost control, customer service, basic food service and catering, business and accounting in relationship to the hospitality and tourism industry. The courses within this program are designed to provide students with applicable skills useful in a vast range of occupations.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Hospitality Management AS-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Hospitality Management should consult with a counselor regarding the transfer process and lower division requirements.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Manage your own restaurant or manage a hospitality establishment for someone.
- Identify local governance laws, rules and procedures regarding hospitality establishments.
- Describe the relationship of human/social need for hospitality services.
- Apply concepts learned in class to create a marketing concept for any hospitality establishment.
- Create a HACCP plan for any food service establishment.

Hospitality/Culinary Arts Associate of Arts Degree

The Hospitality/Culinary Arts Associate of Arts Degree is designed to prepare students for fast-growing industry that includes commercial restaurants, institutions, health care facilities, school food services, and related food service industries at the middle management level. Skills gained from this certificate include basic to advanced techniques in food preparation, middle-management implementation, and entrepreneurship skills. Students will also be prepared to build and manage diverse teams. To graduate with a specialization in Hospitality/Culinary Arts, students must complete all requirements for the certificate plus the general breadth requirements for the Associate Degree (minimum total = 60 units)

Code	Title	Units
Required Courses:

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate how to use a knife and the basic knife cuts.
- Calculate food costs as it applies to menus by pricing a menu as part of the final in this course.
- Explain optimal quantity, and the price and standard specifications of ordering.
- Recall the top five problems that the restaurant industry encounters.
- Recall how to derive the "Break-even Point" of a restaurant.
- Define and recall the purchasing function.
- Recall the seven areas of a HACCP plan.
- Be prepared to transfer a core curriculum to an accredited, four-year college or university with junior class standing in Culinary Arts or a related major.

Hospitality/Culinary Arts Certificate of Achievement

The Hospitality/Culinary Arts Certificate is designed to prepare students for fast-growing industry that includes commercial restaurants, institutions, health care facilities, school food services, and related food service industries at the middle management level. Skills gained from this certificate include basic to advanced techniques in food preparation, middle-management implementation, and entrepreneurship skills.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate to the instructor during the final exam how to use a knife and the basic knife cuts.
- Demonstrate how to calculate food costs as it applies to menus by pricing a menu as part of the final in this course.
- Demonstrate that they understand optimal quantity, price and standard specifications of ordering by completing a class project that showcases each component of purchasing.
- Demonstrate to the instructor by recalling the top five problems that the restaurant industry encounters on a final exam.
- Recall on a written exam how to derive the 'Break-even Point' of a restaurant.
- Define and recall on a written exam the purchasing function.
- Recall the seven areas of a HACCP plan.

Professional Baking and Management Associate of Arts Degree

Students who receive their degree in baking will gain the skills and knowledge in baking and pastry arts. Students will create hearth and specialty breads, desserts, pastry, patisserie, and confections. Skills developed will be in menu development, communication, food safety, and cost control. Students will also take management courses and will learn how to manage a diverse workforce. To graduate with a specialization in Professional Baking and Management, students must complete all requirements for the certificate plus the general breadth requirements for the Associate Degree (minimum total = 60 units)

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a HACCAP Plan for a Bake Shop following local regulatory procedures.
- Recite how to convert recipes when more or less servings need to be prepared.
- Create a dessert menu for 100 people using a variety of ethnic desserts.
- Describe cost control concepts that are used in the commercial food service industry.
- Explain how to plate desserts using the principles of plating.

Restaurant Service Certificate of Achievement

The Restaurant Service Certificate is designed for students interested working the front of the house in commercial restaurants, institutions, health care facilities, school food services, and other related food service industries. Students will learn team dynamics and how to work with diverse groups.

DANCE 100 3 Units

Dance History and Appreciation

Lecture: 54 contact hours

This course is a comprehensive survey of dance from ancient times to the 21st century. Emphasis is placed on historical perspectives revealing dance as an emerging art form. The course curriculum also surveys the roles of dance in relation to religion, culture, politics, and social attitudes, as well as its relation to other art forms. (Formerly DANCE 200)

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 101A 2 Units

Beginning Modern Dance

Lab: 108 contact hours

This course focuses on the inner impulse of modern dance and draws upon the movement vocabularies of classical, post-modern, and contemporary styles. A strong emphasis is placed on the acquisition of beginning modern dance movement vocabulary, dynamic alignment, and suppleness, flexibility, rhythmically, musicality, endurance and balance.

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 101B 2 Units

Beginning/Intermediate Modern Dance

Lab: 108 contact hours

Prerequisite: DANCE 101A

This beginning/intermediate level of Modern Dance utilizes the basic knowledge of beginning modern dance techniques to increase the movement vocabularies of classical, post-modern, and contemporary styles. Students will utilize a higher level of codified modern dance terminology and combinations, which are essential to move forward in modern dance.

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 102A 2 Units

Intermediate Modern Dance

Lab: 108 contact hours

This course offers an intermediate study of modern dance techniques. It will include movement vocabularies of Graham, Horton, Cunningham, Limon and the post modern and contemporary styles of today. Emphasis is on expanding and deepening the dancer's technical and expressive skills through more complicated techniques, combinations and improvisations. Concert and performance is required.

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 102B 2 Units

Intermediate/Advanced Modern Dance

Lab: 108 contact hours

Prerequisite: DANCE 102A

This course explores further the development of modern dance skills, techniques and vocabulary developed in beginning through intermediate modern dance. An in-depth emphasis is placed on increased flexibility and endurance, clarity of technique, rhythm, time, form and energy through choreographic and improvisational exercises and combinations. Concert attendance and performance is required.

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 103A 2 Units

Beginning Ballet

Lab: 108 contact hours

This course is an introduction to basic ballet technique emphasizing ballet etiquette, terminology, placement, and alignment, warm-up and injury prevention; body conditioning principles as they relate to ballet technique, flexibility and strengthening exercises, basic barre, basic center floor, and traveling combination exercises.

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 103B 2 Units

Beginning/Intermediate Ballet

Lab: 108 contact hours

Prerequisite: DANCE 103A

This course will utilize the knowledge learned in Beginning Ballet to become more proficient in ballet technique by using higher level codified ballet terminology, utilizing placement, alignment, expanding and more complex warm-up technique, basic barre, basic center technique, increasing flexibility, furthering strengthening exercises and more complex traveling combination exercises as it relates to this level of ballet, while reviewing cumulative ballet technique for higher levels of ballet.

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 105A 2 Units

Beginning Jazz Dance

Lab: 108 contact hours

This course is an introduction to the beginning techniques of Jazz Dance with a focus on movement vocabulary, placement, centering, balance, alignment, strength, flexibility, and across the floor progressions.

Associate Degree Applicable

Transfers to both UC/CSU

DANCE 105B 2 Units**Beginning/Intermediate Jazz Dance****Lab:** 108 contact hours**Prerequisite:** DANCE 105A

This course is a continuation and advancement of beginning level techniques with an additional introduction of intermediate techniques. These techniques collectively enable the student to demonstrate an increased ability to execute proper placement, alignment, balance, strength, flexibility, and across the floor progressions of dance movement.

Associate Degree Applicable**Transfers to both UC/CSU****DANCE 106A 2 Units****Intermediate Jazz Dance****Lab:** 108 contact hours**Prerequisite:** DANCE 105B

This course provides a continuing study of jazz dance techniques at the intermediate level including the styles and techniques of Jack Cole, Jerome Robbins, Frank Hatchett, Bob Fosse, Katherine Dunham, and more. Focus is given to the development of the dancer's technical and expressive skills, as well as historical and theoretical understandings of jazz technique for film, television, and stage. Public performance is required for this class.

Associate Degree Applicable**Transfers to both UC/CSU****DANCE 106B 2 Units****Intermediate/Advanced Jazz Dance****Lab:** 108 contact hours**Prerequisite:** DANCE 106A

This course provides a continuing study of jazz dance techniques at the intermediate level with an additional introduction of advanced techniques. Study of the styles and techniques of famous artists such as Debbie Allen, Gus Giordano, Michael Bennet, Mia Michaels and more are covered in this class. Contemporary and commercial jazz dance forms are also covered along with historical and theoretical understandings of jazz dance techniques related to the dancer's expressive skills. Public performance is required for this class.

Associate Degree Applicable**Transfers to both UC/CSU****DANCE 107X2 2 Units****Beginning Tap Dance****Lab:** 108 contact hours

This is a basic course of instruction in the art of tap dancing. Topics include physical strengthening, rhythmic awareness, execution of basic tap-dancing steps, floor exercises, vocabulary for theatrical presentation of tap choreography, audience awareness and basic acting skills. This course may be taken two times.

Associate Degree Applicable**Transfers to both UC/CSU****DANCE 114X4 4 Units****Dance Rehearsal and Performance****Lab:** 216 contact hours

Limitation on Enrollment: Enrollment in this class is contingent upon an audition for a current dance production.

This course provides instruction and supervision of rehearsal and performance in various dance productions. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****DANCE 206X4 4 Units****Dance Production****Lab:** 216 contact hours

This course provides instruction and analysis of all aspects of dance production including organizing a dance production; publicity and marketing; budget; theatrical and dance lighting; set design; costumes and makeup; and instruction in elements of physical theater, such as stage terminology, stage directions, and roles of theatre personnel. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU**

Economics

Economics is the study of how people and societies produce various commodities and distribute them for consumption, now or in the future, among various persons and groups in society. As a descriptive, academic discipline, it is concerned with accurate portrayals of national economics as well as those of regions, firms, and individuals. As an analytic discipline, its tools are used to order, modify, and describe economic activity. Training in economics, supplemented by course work in other disciplines, provide excellent preparations for particular careers in industry, government, and many professions including management, law, education, public administration or consulting. The study of economics also provides useful intellectual training for individuals who may be uncertain about their future careers. Students planning to transfer to a four-year institution and major in economics or related fields should consult with a counselor regarding the transfer process and lower division requirements.

-
- Economics Associate in Arts for Transfer Degree (p. 192)

ECON 100 3 Units**Introduction to Economics****Lecture:** 54 contact hours

This course is an entry-level, general education course which introduces and surveys basic macroeconomic, microeconomic, and personal finance principles. This course emphasizes the causes and consequences of the business cycle on output, employment, and prices as well as, basic supply and demand analysis across different market structures. Analysis further includes the role of the government in the macro-economy and the micro-economy.

Associate Degree Applicable**Transfers to both UC/CSU**

ECON 200 3 Units**Principles of Macroeconomics****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course provides an introduction to macroeconomic theory and the role of fiscal and monetary policies in economics with special emphasis on national economic problems, aggregate measures of economic activity, macroeconomic equilibrium, financial institutions, economic growth, the business cycle and international economics.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ECON 202**ECON 200H 3 Units****Principles of Macroeconomics - Honors****Lecture:** 54 contact hours**Prerequisite:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course provides an introduction to macroeconomic theory and the role of fiscal and monetary policies in economics with special emphasis on national economic problems, aggregate measures of economic activity, macroeconomic equilibrium, economic growth, the business cycle, financial institutions and international economics. This course is intended for students in the Honors Program but is open to all students who desire more challenging coursework.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ECON 202**ECON 201 3 Units****Principles of Microeconomics****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course provides an introduction to microeconomic theory, including economic development, international economics, and comparative economic systems with special emphasis on microeconomic problems such as the provisioning of public goods and environmental regulations.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ECON 201**ECON 201H 3 Units****Principles of Microeconomics - Honors****Lecture:** 54 contact hours**Prerequisite:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course provides an introduction to microeconomic theory, including economic development, international economics, and comparative economic systems with special emphasis on microeconomic problems such as the provisioning of public goods and environmental regulations. This course is intended for students in the Honors Program but is open to all students who desire more challenging coursework.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ECON 201**ECON 208 4 Units****Business and Economic Statistics****Lecture:** 72 contact hours**Prerequisite:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course is a study of statistical methods commonly used in business and economics including measures of central tendency; measures of dispersion and skewness; probability concepts and distributions; statistical inferences; parametric and non-parametric hypothesis testing; index numbers time series analysis; simple regression, and correlation analysis.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 110

Economics Associate in Arts for Transfer Degree

The Economics program focuses on the systematic study of the production, conservation and allocation of resources in conditions of scarcity, together with the organizational frameworks related to these processes. Economics is truly all around us, present in almost every aspect of our lives from the perspective that every human activity involves choice between alternatives (i.e., trade-offs) and the use of some scarce resource.

Studying the subject gives students a general understanding of the world and its inner workings. Students learn everything from what determines the price of goods and services to why the average standards of living vary so widely within and between countries. An economics major is very versatile and provides excellent preparation for law school. Economics majors can find positions with the government, in all areas of business decision-making, in positions associated with technology or finance, and more.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Economics AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. , History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Economics should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses:		
ECON 200	Principles of Macroeconomics	3
or ECON 200H	Principles of Macroeconomics - Honors	
ECON 201	Principles of Microeconomics	3

POLIT 150	Introduction to Public Policy	3
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
SOC 100	Introduction to Sociology	3
	or SOC 100H Introduction to Sociology - Honors	

Code	Title	Units
Major Total		20-23
Total Units That May Be Double Counted		9
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		7-12
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Explain, graph, and analyze key macroeconomic and microeconomic models by applying the concept of market equilibrium.
- Identify data sources, describe appropriate empirical tools, and perform research on data they retrieve from original surveys, or official and industry sources.

- Evaluate economic issues and public policy by using economic models or data analysis while identifying underlying assumptions of the model(s) and limitations.
- Communicate economic ideas by means of written essays or reports which demonstrate the ability to formulate informed opinions on economic policy issues and recognize the validity of opposing viewpoints.

Education, Reading and Literacy

The Education, Reading and Literacy Department at San Bernardino Valley College maintains a commitment to instructional innovations, and inter-divisional collaboration, that supports its mission to provide a diverse community of learners with a variety of effective instructional experiences, which strengthens reading comprehension, critical thinking, and study strategies. These skills are essential in the preparation of students who will transfer to four-year universities, enter the workforce by earning applied degrees and certificates, and to improve the quality of life in San Bernardino, the Inland Empire, and beyond.

Sequence of Reading Courses

Student placement within the sequence is dependent on the results of the SBVC Guided-Self Placement Results. Contact a counselor for details.

Code	Title	Units
READ 615	Preparation for College Reading ¹	0
READ 015	Preparation for College Reading ²	4
READ 100	College Academic Reading ³	3
READ 102	Critical Reading as Critical Thinking ⁴	3

¹ 11th Grade High School English Grade > D

² 11th Grade High School English Grade > C
(Recommended for students who want to continue developing proficiency in reading).

³ 11th Grade High School English Grade > B

⁴ Course satisfies CSU, General Education-Breadth Requirements: A3, "Critical Thinking"

-
- Elementary Teacher Education Associate in Arts for Transfer Degree (p. 195)

EDUC 200 3 Units

Introduction to Elementary Education

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course introduces students to the concepts and issues related to teaching diverse learners in contemporary public schools (K-12). Topics include historical and philosophical foundations of the American education system, teaching as a profession and career, contemporary education issues, California Content Standards and framework, and teacher performance standards. In addition to class time, 45-hours of structured fieldwork are required at an approved public school elementary classroom with a certified classroom teacher and students that represent California's diverse population. Proof of a negative TB test and fingerprint clearance are required for classroom observations.

Associate Degree Applicable

Transfers to CSU only

READ 015 4 Units

Preparation for College Reading

Lecture: 72 contact hours

Have you seen the movies IT or Doctor Sleep? They are based on Stephen King novels. How about The Hate U Give, Crazy Rich Asians, or Jurassic Park? These movies were also book-to-movie adaptations. If you're a fan of movies, read the books that inspired them! This course is designed to foster improvement in reading comprehension and vocabulary. Coursework includes reading texts from various genres and other assignments, while preparing students for college reading success across the disciplines. This course may also be offered for noncredit as READ 615.

Associate Degree Applicable

READ 100 3 Units

College Academic Reading

Lecture: 54 contact hours

This course is designed to improve reading and learning processes, reading comprehension, and critical thinking strategies as applied to all stages of academic reading. Emphasis will be on the integration and synthesis of academic text.

Associate Degree Applicable

Transfers to CSU only

READ 102 3 Units

Critical Reading as Critical Thinking

Lecture: 54 contact hours

Advisory: READ 100

This course explores the relationship of critical reading and critical thinking with an emphasis on the development of critical thinking skills and the application in the interpretation, analysis, criticism, and advocacy of ideas encountered in academic reading.

Associate Degree Applicable

Transfers to CSU only

READ 103 3 Units

Reading and Literacy for Lifelong Learning

Lecture: 54 contact hours

Advisory: READ 100

This course focuses on providing students with reading and information literacy strategies for college completion and lifelong success. These skills include identifying, evaluating, and applying practical reading and learning techniques utilizing social, physical, and psychological resources and tools.

Associate Degree Applicable

Transfers to CSU only

READ 104 3 Units**Critical Reading, Thinking and Literacy****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course explores the relationship between critical reading and literacy to critical thinking. Instruction is provided in the strategies necessary for college reading application in interpretation, analysis, criticism, and advocacy of ideas encountered in academic non-fiction texts across disciplines. Emphasis on reading texts which explore contemporary issues, including cultural diversity, equity, and anti-racism.

Associate Degree Applicable**Transfers to both UC/CSU****READ 615 Noncredit****Preparation for College Reading****Lecture:** 72 contact hours

Have you seen the movies IT or Doctor Sleep? They are based on Stephen King novels. How about The Hate U Give, Crazy Rich Asians, or Jurassic Park? These movies were also book-to-movie adaptations. If you're a fan of movies, read the books that inspired them! This noncredit course is designed to foster improvement in reading comprehension and vocabulary. Coursework includes reading texts from various genres and other assignments, while preparing students for college reading success across the disciplines. This course may also be offered for credit, as READ 015.

Elementary Teacher Education Associate in Arts for Transfer Degree

The AA-T, Elementary Teacher Education, prepares students for elementary school teaching careers, grades K-5. Our preliminary degree provides students with interdisciplinary subject matter expertise as required for seamless transfer to a four-year university's bachelor's degree completion program in Liberal Studies and fulfills its lower-division requirements. Its introductory education course emphasizes equitable, culturally responsive pedagogy and teacher performance expectations, including professional teaching standards. In addition, students complete early fieldwork placements in our community, which allows future educators to observe active teaching and learning in today's diverse classrooms. These authentic, contextualized learning opportunities are intentionally designed for undergraduate students interested in public service, through teaching careers in elementary schools, grades K-5.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Elementary Teacher Education AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Elementary Teacher Education should consult with a counselor regarding the transfer process and lower division requirements.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Defend an educational position, view, or theory.
- b. Develop an educational philosophy.
- c. Summarize practical knowledge of the teaching profession.

Electricity, Electronics, and Technical Calculations

The Electricity/Electronics curriculum is designed to provide entry-level job training in this broad and expanding field. These classes lead to trainee positions in maintenance, installation, field service, networking, and apprenticeship in the area of specialization. Students who seek a Certificate or an Associate of Science Degree in the fields below will complete a series of Electronics Technology courses common to electricity, communications, and computers and then complete the appropriate area of specialization:

- a. Electronics Technology,
- b. Communication Engineering Technology,
- c. Computer Engineering Technology,
- d. Electric Power Technology, or
- e. Avionics Technology,

A certificate is also available in the General Electrician Certification Program.

Students planning to transfer to a four-year institution and major in electronics should consult with a counselor regarding the transfer process and lower division requirements.

Contact Information

Division: Applied Technology, Transportation, and Culinary Arts (T - 108)

Division Phone Number: (909) 384-4451

Faculty Chair: Tarif (Terry) Halabi (thalabi@sbccd.edu), M.S.E.E.

Counselor Liaisons: Debbie Orozco (dorozco@sbccd.edu), M.A. and Patricia Jones (pjones@sbccd.edu), M.A.

Students working for a degree or certificate in Electricity/ Electronics must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select. The programs offered will prepare student with the fundamentals of electronics technology by offering courses common to electricity, communications and computers, and power technology. This preparation can be for transfer to the university or for further study in areas of communications, computers, electricity, and aircraft electronics. It can also prepare students for entry-level positions in electronics maintenance, installation, field service, networking, and apprenticeship in the field of electronics technology. Students should have normal color vision, and hand/eye coordination.

- Green Technician Certificate of Career Preparation (p. 206)
- Industrial Automation Certificate of Achievement (p. 207)
- Smart Systems Automation Technology Certificate of Completion (p. 207)
- Zero Net Energy Certificate of Achievement (p. 207)

ELEC 021 3 Units

Blueprint Reading for Building Energy Systems

Lecture: 54 contact hours

Advisory: TECALC 087

This course is a study of basic information for reading blueprints and construction drawings. It is designed for those who must assimilate information found in working drawings and specifications.

Associate Degree Applicable

ELEC 050 4 Units

Zero Net Energy Building Science

Lecture: 72 contact hours

Zero Net Energy (ZNE) Building Science includes an overview of many progressive measures that improve the energy performance of buildings. Studies focus on architectural design of building, construction methodology, green HVAC systems, renewable energy systems and the terminology used in the ZNE Industry. A survey of projects, policies and programs driving ZNE performance in residential and non-residential buildings will be studied.

Associate Degree Applicable

ELEC 091 3 Units

Fundamentals of Solar Energy

Lecture: 54 contact hours

This course is designed for students interested in a career in the solar industry. The fundamental principles and functions of the photovoltaic industry will be introduced along with the planning, installation and maintenance of all necessary components for a photovoltaic system. The transmission and distribution of electric power will be reviewed, and basic concepts of electricity, identification, functions and operations of components will be surveyed. At the end of this course, students will be prepared to complete industry certification examinations.

Associate Degree Applicable

ELEC 101 3 Units

Supply Chain Technology

Lecture: 36 contact hours

Lab: 54 contact hours

Prerequisite: ELECTR 110 and ELECTR 111

This course is an industrial technology overview covering the basic knowledge and skills needed for supply chain technicians to successfully work in automated factories, warehouses, and distribution centers. Introduction to the troubleshooting and maintenance of complex electromechanical systems is a major focus of this class.

Associate Degree Applicable

Transfers to CSU only

ELEC 215C 4 Units**Electrical Control of Hydraulic-Pneumatic Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 115 and ELECTR 116

This course introduces hydraulic/pneumatic fundamentals, principle of electrical control of hydraulic/pneumatic systems, electrical concepts of ladder diagrams, functional systems of electrical/hydraulic/pneumatic sequencing of actuators, industrial applications, industrial-type hydroelectric and electro pneumatic circuits, and troubleshooting electrically controlled hydraulic/pneumatic systems.

Associate Degree Applicable**Transfers to CSU only****ELEC 216C 4 Units****Introduction to Industrial Electricity****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 110 and ELECTR 111

This course covers the study of electrical power transmission, the National Electrical Code, electrical blueprints, residential and commercial wiring.

Associate Degree Applicable**Transfers to CSU only****ELEC 217C 4 Units****Industrial Electricity****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 115 and ELECTR 116

This course covers the study of DC motors, single and polyphase AC motors, and the necessary controls and measuring equipment used for industrial circuit protection and switching equipment.

Associate Degree Applicable**Transfers to CSU only****ELEC 218C 4 Units****Controlling Industrial Electricity****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 115 and ELECTR 116

This course covers the study of DC, AC, and polyphase motor operation, mechanical and programmable machine controls, relays and programmable logic controllers (PLCs), ladder logic diagrams and the communication network linking the programmer, the controller, the laptop computer and the machine.

Associate Degree Applicable**Transfers to CSU only****ELEC 219C 4 Units****Industrial Electronic Systems Controls II****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELEC 218C

This course examines system application of industrial electronic systems (PLC) including industrial production and processes, automation, and programmable motor controllers. Emphasis is on programmable logic controllers.

Associate Degree Applicable**Transfers to CSU only****ELEC 606 Noncredit****Programmable Logic Controller (PLC)****Lecture:** 54 contact hours

The purpose of this noncredit electronics technology course is to align with the growing portion of the electronic companies that can employ workers with specific skills/knowledge and specialize in the field of control systems.

ELEC 607 Noncredit**Preparation for Journeyman Electrician Exam****Lecture:** 54 contact hours

The purpose of this noncredit electrical technology course is to allow a growing population of electrical workers understand specific sections of the National Electrical Code (NEC). The course includes the expected knowledge of the service, load calculations, grounding and overcurrent protection for conductors, motors, and transformers.

ELEC 608 Noncredit**Wireless Communications****Lecture:** 54 contact hours

The purpose of this noncredit electronics technology course is to align with the growing portion of the electronic companies that can employ workers with specific skills, knowledge and specialize in the field of wireless communications.

ELEC 609 Noncredit**Antennas and Wave Propagation****Lecture:** 27 contact hours

The purpose of this noncredit electronics technology course is to align with the growing portion of the electronic companies that can employ workers with specific skills, knowledge and specialize in the field of antennas and wave propagation.

ELEC 621 Noncredit**Blueprint Reading for Building Energy Systems****Lecture:** 54 contact hours

This noncredit course is a study of basic information for reading blueprints and construction drawings. It is designed for those who must assimilate information found in working drawings and specifications.

ELEC 650 Noncredit**Zero Net Energy Building Science****Lecture:** 72 contact hours

Zero Net Energy (ZNE) Building Science noncredit course includes an overview of many progressive measures that improve the energy performance of buildings. Studies focus on architectural design of building, construction methodology, green HVAC systems, renewable energy systems and the terminology used in the ZNE Industry. A survey of projects, policies and programs driving ZNE performance in residential and non-residential buildings will be studied.

ELECTR 098 1-4 Units**Electronics Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable

ELECTR 110 3 Units**Direct Current Circuit Analysis****Lecture:** 54 contact hours**Corequisite:** ELECTR 111

This is a comprehensive course in direct current circuit analysis including Ohm's law, series and parallel circuit analysis, voltage and current dividers, DC meters, Kirchhoff's laws, magnetic circuits, and network theorems.

Associate Degree Applicable**Transfers to both UC/CSU****ELECTR 111 1 Unit****Direct Current Circuit Laboratory****Lab:** 54 contact hours**Corequisite:** ELECTR 110

This course is the laboratory complement to ELECTR 110 including experiments reinforcing the theory of electricity and the necessary technical skills.

Associate Degree Applicable**Transfers to both UC/CSU****ELECTR 115 3 Units****Alternating Current Circuit Analysis****Lecture:** 54 contact hours**Prerequisite:** ELECTR 110 and ELECTR 111**Corequisite:** ELECTR 116

This course is an in-depth analysis of alternating current circuits to include AC generation and transformation, inductance and inductive circuits, capacitance and capacitive circuits, time constants, rectangular and polar notation, AC circuit analysis, resonance, and filters.

Associate Degree Applicable**Transfers to both UC/CSU****ELECTR 116 1 Unit****Alternating Current Circuit Laboratory****Lab:** 54 contact hours**Prerequisite:** ELECTR 110 and ELECTR 111**Corequisite:** ELECTR 115

This course is the laboratory complement to ELECTR 115 including skill training in reading and interpreting measurements on an oscilloscope, using QT boards, function generators, and other test equipment.

Associate Degree Applicable**Transfers to both UC/CSU****ELECTR 155 3 Units****Electronic Drawing and Assembly****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 110

This course covers electronic schematic capture, simulation, export to printed circuit board design, layout, and auto-routing software. It includes basic Computer Aided Design (CAD) drafting, block diagrams, library component templates, and printed circuit board (PCB) design, fabrication, and assembly, using through-hole and surface-mount technology and devices (SMT and SMD).

Associate Degree Applicable**Transfers to CSU only****ELECTR 220C 3 Units****FCC Rules and Regulations****Lecture:** 54 contact hours

This course is a review of the requirements and questions for the General Radiotelephone Operator's License offered by the Federal Communications Commission.

Associate Degree Applicable**Transfers to CSU only****ELECTR 230 3 Units****Semiconductor Devices****Lecture:** 54 contact hours**Prerequisite:** ELECTR 110

This course is a study of semiconductor devices including the chemistry and physics of the structure of the atom and the operation of semiconductor devices based on energy level analysis.

Associate Degree Applicable**Transfers to CSU only****ELECTR 235 4 Units****Solid State Circuit Analysis****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 230

This course covers an analysis of discrete solid-state circuits and their design including diodes, circuit configurations, amplifiers and amplification, biasing techniques, feedback principles, FETs, photo devices, and evaluation of designed circuits.

Associate Degree Applicable**Transfers to CSU only****ELECTR 250C 4 Units****Radio Transmitters, Receivers and Antennas****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 115 and ELECTR 116

In this course, students explore topics of electronic communications, such as the electromagnetic frequency spectrum, frequency bands, analog and digital modulation, digital data, antennas, transmission lines and loads, government services and fiber optics. Exercises include diagramming modern transmitter and receiver components, plotting impedances, and making line and load conversions.

Associate Degree Applicable**Transfers to CSU only****ELECTR 255C 4 Units****Telephone and Data Networking****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 115 and ELECTR 116

This course includes telephone topology with emphasis on the Open System Interconnection (OSI) model, telephony color code, tools, patch panels, phone wiring and installation, voice and data block wiring, installation, and programming/ troubleshooting a digital key system and network.

Associate Degree Applicable**Transfers to CSU only****ELECTR 257C 4 Units****Navigation and Communication Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 250C

This course covers the bench test, installation and ramp test of transmitter and receiver systems and their operating principles. Systems include Auto Direction Finder, Very High Frequency Omnidirectional Range, LORAN-C, Omega, INS, DME, ILS, VHF communication, HF communication, FM transceivers and transponder.

Associate Degree Applicable**Transfers to CSU only**

ELECTR 265 4 Units**Digital Logic Design****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course covers combinational logic utilizing Boolean algebra and the binary numbering system. Topics include Karnaugh maps, truth tables, coding, switching circuits, converters, logic circuit elements, timers, digital-to-analog and analog-to-digital conversions, decoders, multiplexers, demultiplexers, and displays.

Associate Degree Applicable**Transfers to CSU only****ELECTR 266 4 Units****Microprocessor Technology with Assembly Language****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 265

This course covers the fundamental principles of microprocessors and microcontrollers. The architecture of the 8051 series microcontroller is highlighted along with its' operation and applications in embedded systems. Students make use of assembly language and C language to interface with both analog and digital circuitry. Software simulation tools and microcontroller trainer boards are used in lab exercises and a final project.

Associate Degree Applicable**Transfers to CSU only****ELECTR 270 4 Units****Linear Integrated Circuit Analysis****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 115 and ELECTR 116

This course is a review of bipolar transistor fundamentals and differential amplifiers with emphasis on inner connections and circuit designs using integrated circuit operational amplifiers, phase-lock loops, and current differentiating amplifiers. Includes breadboarding and evaluation of various types of active linear and pulse circuits involving operational amplifiers and phase-lock loops.

Associate Degree Applicable**Transfers to CSU only****ELECTR 280C 4 Units****Computer Operation and Maintenance****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 266

This course provides a working knowledge of the principles and analysis techniques applicable to computer operations and maintenance. It includes the theory and experience necessary to understand and analyze computer circuitry as needed for entry-level work in the computer and electronics industry.

Associate Degree Applicable**Transfers to CSU only****ELECTR 290C 4 Units****Industrial Computers and Robotics Maintenance****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** ELECTR 266

This course is a comprehensive study of computers and robots used in industry. Including diagnostics and programming for controlling robots, machines and medical equipment.

Associate Degree Applicable**Transfers to CSU only****ELECTR 600 Noncredit****Preparation for DC Circuit Certification****Lecture:** 54 contact hours

This noncredit electronics technology course prepares students with the specific skills and knowledge in the field of Direct Current (DC) processes and circuits. This course prepares students to take the DC Basics Certification Exam with the Electronics Technicians Association (ETA).

ELECTR 601 Noncredit**Preparation for AC Basics Certification****Lecture:** 54 contact hours

This noncredit electronics technology course prepares students with the specific skills and knowledge in the field of AC circuits. This course prepares students to take the AC Basics Certification Exam with the Electronics Technicians Association (ETA).

ELECTR 602 Noncredit**Preparation for Analog Electronics Certification****Lecture:** 108 contact hours

This noncredit electronics technology course prepares students with the specific skills and knowledge in the field of analog processes and circuits. This course prepares students to take the Analog Electronics Certification Exam with Electronics Technicians Association (ETA).

ELECTR 603 Noncredit**Preparation for Digital Basics Certification****Lecture:** 54 contact hours

This noncredit electronics technology course prepares students with the specific skills and knowledge in the field of digital processes and circuits. This course prepares students to take the Digital Basics Certification Exam with the Electronics Technicians Association (ETA).

ELECTR 604 Noncredit**Preparation for Comprehensive Electronics Certification****Lecture:** 54 contact hours

This noncredit electronics technology course prepares students with the specific skills and knowledge in the field of comprehensive knowledge of motors, generators, control circuits, circuit protection, and power distribution. This course prepares students to take the Comprehensive Electronics Certification with the Electronics Technicians Association (ETA).

ELECTR 620 Noncredit**Introduction to Computer Networking****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit electronics technology course prepares students to take the ETA (Electronics Technicians Association International) STS-CN industry certification. The course covers wire and wireless local area network basics, Internet/VoIP services and security, hardware and software installation, and cabling distribution.

ELECTR 621 Noncredit**Security, Alarm, and Surveillance Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit electronics technology course prepares students to take the ETA (Electronics Technicians Association International) STS-SS industry certification. The course covers closed-circuit television (CCTV) system, security and fire alarm system, Voice-over-Internet Protocol (VoIP), security cameras, smart locks, and smart access control.

ELECTR 622 Noncredit**Smart Environmental Controls****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit electronics technology course prepares students to take the ETA (Electronics Technicians Association International) STS-EC industry certification. The course covers smart lighting, smart thermostats, smart plugs and switches, smart HVAC, and carbon monoxide and smoke detectors, and other miscellaneous smart devices.

ELECTR 623 Noncredit**Audio-Visual Entertainment Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course prepares students to take the ETA (Electronics Technicians Association International) STS-AV industry certification. The course covers smart televisions and projectors, HD, UHD, LED, and OLED television technologies, wireless smart speakers, Wi-Fi screencasting, audio and HD cabling, amplifiers and receivers, surround sound speaker systems and connectors, rackmounts, and other accessories.

TECALC 087 4 Units**Technical Calculations****Lecture:** 72 contact hours

This course covers practical use and applications of technical calculations most commonly utilized in the trades and industry. Topics include electrical measurements, temperature, volume, weight, and positioning including the number line, working with dedicated formula, applied problems, geometric principles, graphs, right triangles, coordinate systems, and scientific and engineering notation. Concepts, techniques, and applications of arithmetic and elementary algebra emphasizing applications to practical problems. Interactive and traditional problem-solving methods. Class interactive group exercises applying mathematical techniques to various applications and real-world problems. A course in mathematical problems is frequently used by students enrolled in the trades and industrial and engineering programs. Problems are drawn from the industrial field.

Associate Degree Applicable

Avionics Technology Associate of Science Degree

To graduate with a specialization in Avionics Technology, students must complete all requirements for the certificate with a grade of C or better plus the general breadth requirements for the Associate Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
TECALC 087	Technical Calculations	4
ELECTR 110	Direct Current Circuit Analysis	3
ELECTR 111	Direct Current Circuit Laboratory	1
ELECTR 115	Alternating Current Circuit Analysis	3
ELECTR 116	Alternating Current Circuit Laboratory	1
ELECTR 155	Electronic Drawing and Assembly	3
ELECTR 230	Semiconductor Devices	3
ELECTR 235	Solid State Circuit Analysis	4
ELECTR 265	Digital Logic Design	4
ELECTR 266	Microprocessor Technology with Assembly Language	4
ELECTR 270	Linear Integrated Circuit Analysis	4

AERO 021	Aviation Fundamentals ¹	3
AERO 040	Instrument Ground School	4
ELECTR 220C	FCC Rules and Regulations	3
ELECTR 250C	Radio Transmitters, Receivers and Antennas	4
ELECTR 257C	Navigation and Communication Systems	4
Total Units		52

¹ AERO 052 & AERO 053 can be substituted for AERO 021 & AERO 040

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Be prepared to transfer a core curriculum to an accredited, 4-year college or university with junior class standing in electronics technology or a related major.
- Select and operate electronic test equipment during troubleshooting and repair operations, with an emphasis on safety in use and accuracy in results.
- Analyze, interpret, and trace digital logic diagrams used in signal tracing of complex navigational and airborne communications circuits.
- Effectively communicate with and advise customers and co-workers, both written and orally, regarding the progress of and decisions made concerning test and repair procedures.
- Sit for industry/Federal-style examinations on the theory and procedures of avionics technology.

Avionics Technology Certificate of Achievement

This certificate is designed to provide students with the fundamentals of electronics technology as it applies to avionics. The curriculum prepares students for entry-level positions in aircraft electricity, maintenance, installation, field service, networking, and apprenticeship in the field of avionics technology.

Code	Title	Units

INSPEC 014	Advanced Construction Inspection: National Electrical Code (NEC)	3
KIN 231	First Aid and CPR	3
TECALC 087	Technical Calculations	4
INSPEC 029	Community Relations for Building Personnel	3
Total Units		46

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Be eligible to sit for California State General Electrician Certification examination on the theory and procedures of electrical technology.
- Select and operate electronic test equipment during troubleshooting and repair operations, with an emphasis on safety in use and accuracy in results.
- Select the proper section of the National Electrical Code and electrical blueprints, to properly inspect, and estimate the costs associated with for residential and commercial wiring.
- Analyze, interpret, and trace digital logic diagrams used in signal tracing of complex digital circuits.
- Effectively communicate with and advise customers and co-workers, both written and orally, regarding the progress of and decisions made concerning test and repair procedures.

Green Technician Certificate of Career Preparation

This program is designed to provide students with fundamentals of renewable energy systems and related sustainability concepts that will prepare them for entry level jobs. DC and AC electrical theory, solar power systems design, installation and maintenance issues, along with OSHA construction safety are covered. Entry-Level certification into the Solar Photovoltaic Industry.

Code	Title	Units
Required Courses:		
ELECTR 110	Direct Current Circuit Analysis	3
ELECTR 111	Direct Current Circuit Laboratory	1
ELECTR 115	Alternating Current Circuit Analysis	3
ELECTR 116	Alternating Current Circuit Laboratory	1
ELEC 091	Fundamentals of Solar Energy	3
OSHA 030	Federal OSHA Outreach: Construction Industry Safety	2
Total Units		13

Program Learning Outcomes

At the completion of this program, students will be able to:

- Sit for industry/Federal-style examinations on the theory and procedures of Solar Technology, such as NABCEP.
- Use quantitative measurement of electrical circuit parameters utilized in Solar photovoltaic systems design and implementation; assemble and test, both direct current (DC), and alternating current (AC), series, parallel, and combination series parallel circuits.
- Effectively communicate with and advise customers and co-workers, both written and orally, regarding the design and installation of Solar systems based on field parameters.
- Select and operate electronic test equipment during troubleshooting and repair operations, with an emphasis on safety in use and accuracy in results.
- Analyze, interpret, and blueprints and diagrams used in the Solar system installation field.

Industrial Automation Certificate of Achievement

Students will be prepared for high paying careers in the many existing and future automated manufacturing plants, smart warehouses, and high technology distribution and material handling centers, usually located near major railroad hubs, airports, and interstate freeways. Nearly every product in the supply chain is processed through a complex network of automated material handling, transportation, and logistics centers. This certificate program focuses on the electronic technology, including the Mechatronics responsible for monitoring, controlling, and actuating automated processes involved with all phases of material processing, packaging, and handling systems. Students will be equipped with technical information on mechanical, electrical, analog and digital electronics, Programmable Logic Controllers (PLCs), Programmable Automation Controllers (PACs), Supervisory Control and Data Acquisition (SCADA) systems, fluid power systems, computer hardware and software, networking, interfacing, robotics, sensors and actuators typically used in automated equipment.

Code	Title	Units

ELEC 218C	Controlling Industrial Electricity	4
ELEC 219C	Industrial Electronic Systems Controls II	4
ELECTR 265	Digital Logic Design	4
Total Units		33

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create Radio Frequency identification (RFID) and optical bar-code reading and communication systems.
- Use PLCs, VFDs, and HMIs in the design, configuration and control of conveyor belt systems for the supply chain industry.
- Compose written documents on occupation safety and health in general industry, demonstrating a high level of competency.
- Use quantitative measurement of electrical circuit parameters; assemble and test, both direct current (DC), and alternating current (AC), series, parallel, and combination series parallel circuits.
- Deliver formal presentations as required by technicians working the field of supply chain technology, on a variety of subjects, to a wide range of audiences.

Smart Systems Automation Technology Certificate of Completion

This noncredit certificate is designed to provide students with the fundamentals of smart devices as they apply to smart systems automation technology. The curriculum prepares students for entry-level positions in computer networking, security and surveillance, audio-video entertainment systems, and environmental controls.

Code	Title	Units
Required Courses:		
ELECTR 620	Introduction to Computer Networking	0
ELECTR 621	Security, Alarm, and Surveillance Systems	0
ELECTR 622	Smart Environmental Controls	0
ELECTR 623	Audio-Visual Entertainment Systems	0
Total Hours		384-432

Program Learning Outcomes

At the completion of this program, students will be able to:

- Select and operate electronic test equipment during troubleshooting and repair operations, with emphasis on safety in use and accuracy in results.
- Analyze, interpret, and trace wiring or schematic diagrams used in installing and troubleshooting smart devices connected to the Internet of Things (IoT).
- Effectively communicate with and advise customers and co-workers, both written and orally, regarding the progress of and decisions made concerning test and repair procedures.
- Sit for industry/federal-style examinations on the theory and procedures of smart systems automation technology.

Zero Net Energy Certificate of Achievement

The Zero Net Energy (ZNE) Certificate is designed to offer the students a broad overview into the energy conservation industry and includes cross-disciplinary courses in Energy Systems, Heating Ventilation and Air Conditioning, Architecture, Computer Information Systems, and Building Inspection Technology. Completion of the ZNE Certificate is especially beneficial for support staff currently working in the energy sector, such as an Energy Auditor, Energy Consultant, ZNE Technician, Green HVAC Technician, Facility Management, Construction Management and Solar Residential Technician.

Code	Title	Units
Required Courses:		
CIT 101	Introduction to Computer Literacy	3
ELEC 050	Zero Net Energy Building Science	4
ELEC 021	Blueprint Reading for Building Energy Systems	3
INSPEC 017	California State Energy Regulations for Residential Buildings	3
TECALC 087	Technical Calculations	4
WKEXP 099	General Work Experience	1-4
Total Units		18-21

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Apply critical thinking skills to execute daily duties in their area of employment.
- b. Display the skills and aptitude necessary to pass (Industry Recognized Credentials) certification exams in their field.
- c. Exhibit effective written, oral communication and interpersonal skills.

Engineering

Engineers are employed in research, development, design, construction, manufacturing and operations of technical projects related to almost all aspects of modern life, including the environment, communications, transportation, food production, medicine and health, space exploration, housing and energy. Students planning to transfer to a four-year university and major in Engineering should consult with a counselor regarding the transfer process and lower division requirements.

Contact Information

Division: Science (PS - 148)

Division Phone Number: (909) 384-8645

ENGR 100 1 Unit

Engineering Career Exploration

Lecture: 18 contact hours

Advisory: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course introduces students to the major fields of specialization within engineering and engineering technology professions. This course gives students a broad understanding of various career opportunities and the specialized demands and rewards of each field.

Associate Degree Applicable

Transfers to both UC/CSU

ENGR 265 3 Units

Engineering Mechanics - Statics

Lecture: 54 contact hours

Prerequisite: PHYSIC 202

This is a foundation course in many branches of engineering. Some of the topics covered are two and three dimensional equilibrium of particles and rigid bodies, analysis of frames, machines, trusses, non-coplanar force systems, and the principles of friction.

Associate Degree Applicable

Transfers to both UC/CSU

English

The English Department offers courses in composition, literature, journalism, creative writing, and English as a second language. These courses are designed to help students develop skills in reading perceptively, thinking critically, and writing effectively. The Writing Center, located in Liberal Arts (LA) 201, offers supplemental support to assist students in developing these skills. In order to be placed into the proper level of composition class, all new students are required to complete a guided self-placement and meet with a counselor prior to enrollment. The guided self-placement assists students by helping them to identify their skill level in English, develop an educational plan, and choose appropriate classes. Students planning to transfer to a four-year institution and major in English should consult with a counselor regarding the transfer process and lower division requirements.

ENGL 015 4 Units

Preparation for College Writing

Lecture: 72 contact hours

This is a writing course designed to prepare students for writing at the college level. The primary focus is on the development of the paragraph and short essay. The course includes a review of grammar, sentence structure, and punctuation.

ENGL 086 1 Unit

Strategies for College Composition

Lecture: 18 contact hours

Corequisite: ENGL 101|Placement may be required for this course.

This course provides support for English 101, including strategies for college level reading, writing and critical thinking. This course is taken as pass/no pass only.

Associate Degree Applicable

ENGL 087 2 Units

Fundamentals for College Composition

Lecture: 36 contact hours

Corequisite: ENGL 101|Placement may be required for this course.

This course provides intensive support for English 101, including fundamentals for successful college level reading, writing and critical thinking. This course is offered as pass/no pass only.

Associate Degree Applicable

ENGL 101 4 Units

College Composition

Lecture: 72 contact hours

Prerequisite: Eligibility for college level English based on the SBVC Guided Self-Placement process.

Corequisite: Students who require supplemental support to succeed in ENGL 101 may be required to take ENGL 086 or ENGL 087 depending on assessment.

This is a writing course emphasizing expository and argumentative essays, which helps students develop the writing skills necessary for success in college-level courses across the disciplines. It also includes instruction in library research and preparation of documented research papers. The course acknowledges the diverse identities of students through a variety of multicultural readings and student writing.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: ENGL 100

ENGL 101H 4 Units**College Composition - Honors****Lecture:** 72 contact hours**Prerequisite:** Eligibility for college level English based on the SBVC Guided Self-Placement process.

This is a writing course emphasizing expository and argumentative essays, which helps students develop the writing skills necessary for success in college-level courses across the disciplines. It also includes instruction in library research and preparation of documented research papers. The course acknowledges the diverse identities of students through a variety of multicultural readings and student writing. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 100**ENGL 102 4 Units****Intermediate Composition and Critical Thinking****Lecture:** 72 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course provides further work in argumentative and critical writing, critical thinking, analysis of non-fiction texts (and a work of literature), research and documentation.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 105**ENGL 102H 4 Units****Intermediate Composition and Critical Thinking - Honors****Lecture:** 72 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course provides further work in argumentative and critical writing, critical thinking, analysis of non-fiction texts (and at least 2 works of literature), research and documentation. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 105**ENGL 122 3 Units****Journalism Production: Introduction****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course provides an introduction to gathering, synthesizing/organizing and writing news in journalistic style across multiple platforms resulting in the production of the campus student newsmagazine. Topics include the role of the journalist and related legal and ethical issues. Students will report and write based on their original interviews and research to produce news content. Experiences may include covering speeches, meetings and other campus events, writing under deadline, and use of AP Style.

Associate Degree Applicable**Transfers to CSU only****C-ID:** JOUR 130**ENGL 123 3 Units****Journalism Production: Intermediate****Lecture:** 54 contact hours**Prerequisite:** ENGL 122

This course provides further instruction on gathering, synthesizing/organizing and writing news in journalistic style across multiple platforms resulting in the production of the campus newspaper as well as development of editorial leadership skills. Topics include the role of the journalist and related legal and ethical issues. Students will report and write based on their original interviews and research to produce news content. Experiences may include covering speeches, meetings and other campus events, writing under deadline, and use of AP Style.

Associate Degree Applicable**Transfers to CSU only****ENGL 125 3 Units****Literary Magazine Production****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course covers the theory and practice of producing a literary magazine including instruction on all relevant aspects of editing, design and layout. Students in this class are responsible for production of the college literary magazine.

Associate Degree Applicable**Transfers to CSU only****ENGL 140 3 Units****Exploring the World of Science Fiction****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a survey of science fiction genre from the late 19th Century to the present. Students read, analyze, and discuss major themes, genres (short story, novels, drama, and poetry), media (radio, film, tv, internet), and the function of science fiction as a literary form that reflects human concern for solving or escaping problems in an increasingly technological culture and age.

Associate Degree Applicable**Transfers to both UC/CSU****ENGL 141 3 Units****Mystery and Detective Fiction****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course will introduce the student to mystery and detective fiction as a literary genre and as popular literature, exploring literary elements such as plot, sub-plot, suspense, setting, back story, procedural clues, hook, twist, ethical concerns of investigative methods, and civic life. Discussions of various styles and themes will engage students in critical thinking applied to historical era, multicultural contexts, and gender roles in mystery writing.

Associate Degree Applicable**Transfers to both UC/CSU****ENGL 151 3 Units****Freshman Composition and Literature****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course includes the study of representative works of fiction, poetry, and drama, including an understanding of their cultural, historical and aesthetic contexts, as well as an emphasis on the fundamental principles of literacy criticism and interpretation, including student writing based on critical reading.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 120

ENGL 151H 3 Units**Freshman Composition and Literature - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course includes the study of representative works of fiction, poetry, and drama, including an understanding of their cultural, historical and aesthetic contexts, as well as an emphasis on the fundamental principles of literacy criticism and interpretation, including student writing based on critical reading. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 120**ENGL 153 3 Units****Literature and Film****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course studies literature that has been adapted into film. Students will read short stories, novels, and plays; view the film(s) adapted from each literary work; and write critical and analytic essays about the literature, the films, and their interplay.

Associate Degree Applicable**Transfers to both UC/CSU****ENGL 161 3 Units****Women Writers****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a survey of poetry and prose written by prominent women writers that explores historical and contemporary issues in women's lives.

Associate Degree Applicable**Transfers to both UC/CSU****ENGL 163 3 Units****Chicana/o Literature****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a survey of Chicana/o literature, including novels, drama, poetry, and essays. The course explores concepts of Chicana/o identity, race and racism, and how these themes characterize Chicana/o culture and literary expression. It also examines important social, cultural, and political movements that have influenced and continue to shape the Chicana/o community. (This course is also offered as ETHS 163)

Associate Degree Applicable**Transfers to both UC/CSU****ENGL 165 3 Units****African-American Literature****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a comprehensive examination of African American literature, including prose, poetry, and fiction, from the early oral tradition to present. The course also explores concepts of race, racism, and ethnicity that are manifest in African American literature, and will examine identity as it relates to finding national identity, losing a given, forced identity and acceptance of identity that is foreign to personal history. (This course is also offered as ETHS 165)

Associate Degree Applicable**Transfers to both UC/CSU****ENGL 175 3 Units****The Literature and Religion of the Bible****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course covers The English Bible as literature and as religion including an examination of the types of literature found in the Bible, the historical and religious context in which the literature was developed and an extensive reading of the two testaments. This course is also offered as RELIG 175.

Associate Degree Applicable**Transfers to both UC/CSU****ENGL 224 1 Unit****Independent Study in English: Production****DIR:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

Students with previous course work in English may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of the production of work in print or other text-based media. This independent study would be appropriate for students wanting further work and practice in print publication (print newspaper, magazine or journal production, etc.) or publication for the web (web-based magazine, newspaper, or journal). Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only****ENGL 232 3 Units****Creative Writing****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This is an introductory course in creative writing, with an emphasis in poetry and fiction. Students will learn and practice creative writing by producing their own work in the genres studied, studying and analyzing the work of established and peer writers, and participating in the workshop method.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 200**ENGL 260 3 Units****American Literature to Mid 19th Century****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course introduces students to American Literary traditions. The course traces the beginnings of the earliest American literary voices up through 1865.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 130**ENGL 261 3 Units****American Literature from 1865 to Present****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course introduces students to American Literary traditions. The course traces American authors from 1865 to present.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 135

ENGL 270 3 Units**English Literature: Middle Ages to 18th Century****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course surveys English literature to the last quarter of the 18th Century including coverage of all significant literary types in the development of English literature from the Middle Ages to the late 18th century.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 160**ENGL 270H 3 Units****English Literature: Middle Ages to 18th Century - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course surveys English literature to the last quarter of the 18th Century including coverage of all significant literary types in the development of English literature from the Middle Ages to the late 18th century. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 160**ENGL 271 3 Units****English Literature: 18th Century to Present****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course surveys English literature from the late 18th Century to the present including coverage of all significant literary types.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 165**ENGL 271H 3 Units****English Literature: 18th Century to Present - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course surveys English literature from the late 18th Century to the present including coverage of all significant literary types. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** ENGL 165**ENGL 611 Noncredit****Basic Grammar and Usage Review****Lecture:** 18 contact hours

This noncredit course covers a review of basic English grammar and common errors in grammar and usage. (Formerly ENGL 911)

ENGL 615 Noncredit**Preparation for College Writing****Lecture:** 72 contact hours

This is a noncredit writing course designed to prepare students for writing at the college level. The primary focus is on the development of the paragraph and short essay. The course includes a review of grammar, sentence structure, and punctuation.

ENGL 686 Noncredit**Strategies for College Composition****Lecture:** 18 contact hours**Corequisite:** ENGL 101|Placement may be required for this course.

This noncredit course provides support for English 101, including strategies for college level reading, writing and critical thinking. Multicultural readings and writing assignments will help to connect students to their own lived experiences. This course is taken as pass/no pass only. (Formerly ENGL 086)

ENGL 687 Noncredit**Fundamentals for College Composition****Lecture:** 36 contact hours**Corequisite:** ENGL 101|Placement may be required for this course.

This noncredit course provides intensive support for English 101, including fundamentals for successful college level reading, writing and critical thinking. Reading and writing assignments will focus on students' lived experiences as they connect to the course content. This course is offered as pass/no pass only. (Formerly ENGL 087)

English Associate in Arts for Transfer Degree

English is the study and production of writing in English, especially literature. The elements and structures of fiction, poetry, drama and the essay are studied. The ethnic, cultural, social, economic and historical foundations of literary works are analyzed as well as their influences on the creation and reception of those works. Finally, there is a strong emphasis in writing for a variety of purposes, audiences, and effects. The study of English prepares a student for further study in Literature, Creative Writing, Journalism and other closely related fields. In addition, the skills and abilities cultivated by the study of English are excellent preparation for any field which requires wide literacy and solid writing ability, including teaching/education, advertising, law, public relations, and work in the media.

Students planning to transfer to a four-year institution and major in English (or associated disciplines such as Comparative Literature, Journalism or Creative Writing) should consult with a counselor regarding the transfer process and lower division requirements because additional courses may be required at some institutions or they may require you to take specific courses. In addition, the department recommends that students take at least 2 semesters of a foreign language as many 4-year institutions have foreign language requirements for their BA in English.

Completion of CSU GE-Breadth or IGETC for CSU is required in addition to the major requirements listed below.

To earn this AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P")
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education Breadth requirements (CSU GE), which requires a minimum of 39 units. Completing courses prior to transfer that satisfy the U.S. History, Constitution and American Ideals requirement as part of CSU GE is highly recommended.

Students planning to transfer to a four-year institution and major in English should consult with a counselor regarding the transfer process and lower division requirements.

Elective (CSU Transferable) Units		8-13
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Write clear, organized, well-supported prose for a number of purposes and audiences, including research essays that demonstrate mastery of the conventions of MLA citation format.
- Identify the elements of fiction, poetry, drama and the essay analyze and evaluate their employment in a wide range of literary works.
- Appreciate the ethnic, cultural, social economic and historical foundation of literary works and understand and evaluate their influences on the writing and reception of those works.

English as a Second Language (ESL)

Courses in English as a second language are designed for individuals learning English as a foreign language. The various courses cover writing, conversation, spelling and vocabulary in the English language.

Sequence of ESL Courses at SBVC

Both San Bernardino Valley College and San Bernardino Adult School use CASAS to assess programs approximately every 70 instructional hours. Students move through the noncredit curriculum based on assessment and instructor recommendation. Please contact a counselor for additional information.

- ESL Integrated Skills - Beginning Certificate of Competency (p. 216)

ESL 601 Noncredit

ESL Integrated Skills - Introduction to Basic English Literacy

Lecture: 72 contact hours

This noncredit course is designed to introduce low-beginning English language learners to basic English letter-sound correspondence, vocabulary, and sentence patterns. Students will start using English to speak about themselves, their families, and their community. In addition, students will learn to read and complete simple forms. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 602 Noncredit

ESL Integrated Skills - English for Home and School

Lecture: 72 contact hours

Advisory: ESL 601 or eligibility as determined by the SBVC assessment process or by advisement.

This noncredit course is designed to prepare low-beginning English language learners with vocabulary and sentence structure to communicate in social and academic settings. Students will learn to give and respond to directions, as well as to speak about home, classroom routines, and community life by using a variety of sentence patterns. In addition, students will learn basic note-taking skills. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 603 Noncredit

ESL Integrated Skills - English for Work and Leisure

Lecture: 72 contact hours

Advisory: ESL 602 or eligibility as determined by the SBVC assessment process or by advisement.

This noncredit course is designed to prepare intermediate-beginning English language learners to use a variety of English structures and vocabulary for work and leisure. Students will learn appropriate linguistic behaviors with regards to the setting and time of the occasion being discussed. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 604 Noncredit

ESL Integrated Skills - English for Work and Education

Lecture: 72 contact hours

Advisory: ESL 603 or eligibility as determined by the SBVC assessment process or by advisement.

This noncredit course is designed to prepare high-beginning English language learners to use Standard English for job interviews, and in conversations at work and in educational settings. Students will begin learning aspects of composition. In addition, students will learn effective note-taking skills. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 607 Noncredit

Basic Conversational English

Lecture: 54 contact hours

This noncredit course is designed to increase the skills of English language learners in basic conversation, listening and pronunciation of the English language. This course is taught through total English immersion while acknowledging students' cultural experiences. (Formerly ESL 907)

ESL 610 Noncredit

Workforce Preparation for English Language Learners - Language and Customs of the American Workplace

Lecture: 54 contact hours

This noncredit course is designed to introduce English language learners to the customs and practices of the American workplace through workplace vocabulary and the development of communication skills. In addition, students will be introduced to specific workplace challenges and learn specific ways to understand and respond to directions, understand employee/employer expectations, and develop conversation skills within those contexts. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 611 Noncredit**Workforce Preparation for English Language Learners - Applying for Employment****Lecture:** 54 contact hours**Advisory:** ESL 931

This noncredit course is designed to provide English language learners with the interpretive skills they will need to seek out and apply for employment. Students will learn to how to interpret language posted on job announcements, resumes and cover letters, and the job application. In addition, students will strengthen oral communication skills needed for the job interview. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 612 Noncredit**Workforce Language Preparation for Entry Level Positions in the Food Service Industry****Lecture:** 54 contact hours**Advisory:** ESL 931

This noncredit course is designed to help English language learners to gain the English language skills that they will use in entry level positions in the food service industry. Students will learn how to communicate in speaking, and they will learn skills to improve their listening comprehension, reading abilities, and basic writing skills for the food service workplace. Students will also become familiar with the American customs and professional expectations, types of language, and expressions to be able to converse with others in a variety of situations in the food service industry. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 613 Noncredit**Workforce Language Preparation for Entry Level Positions in the Retail Industry****Lecture:** 54 contact hours**Advisory:** ESL 931

This noncredit course is designed to help English language learners to gain the English language skills that they will use in entry level positions in the retail industry. Students will learn how to communicate in speaking, and they will learn skills to improve their listening comprehension, reading abilities, and basic writing skills for the retail workplace. Students will also become familiar with the American customs and professional expectations, types of language, and expressions to be able to converse with others in a variety of situations in the retail industry. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 620 Noncredit**English Pronunciation****Lecture:** 54 contact hours

This noncredit course is designed to help English language learners to improve their pronunciation skills in English. The class will focus on Standard English pronunciation, word stress, intonation differentiation, and vocabulary building. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 630 Noncredit**Composition Based ESL Level 1 - Beginning****Lecture:** 72 contact hours**Advisory:** ESL 604 or eligibility as determined by the SBVC assessment process.

This noncredit course is the first of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences and paragraphs, including a study of grammar, punctuation and usage. The grammatical emphasis of this course will be on simple present and past tenses. It also has some emphasis on pronunciation, listening and speaking. This course is taught through total English immersion while acknowledging students' cultural experiences. This course may also be offered for credit as ESL 930.

ESL 631 Noncredit**Composition Based ESL Level 2 - Beginning****Lecture:** 72 contact hours**Prerequisite:** ESL 630 or ESL 930 or eligibility as determined by the SBVC assessment process.

This noncredit course is the second of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences and paragraphs, including a review of grammar, punctuation and usage. The grammatical emphasis of this course will be on present and past progressive tenses, and modal usage. It also has some emphasis on pronunciation, listening and speaking. This course is taught through total English immersion while acknowledging students' cultural experiences. This course may also be offered for credit as ESL 931.

ESL 640 Noncredit**Composition Based ESL Level 3 - Intermediate****Lecture:** 72 contact hours**Prerequisite:** ESL 631 or ESL 931 or eligibility as determined by the SBVC assessment process.

This noncredit course is the third of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences and paragraphs, including a review of grammar, punctuation and usage. The grammatical emphasis of this course will be on the present perfect, past perfect, and present perfect progressive tenses. This course is taught through total English immersion while acknowledging students' cultural experiences. This course may also be offered for credit as ESL 940.

ESL 641 Noncredit**Composition Based ESL Level 4 - Advanced****Lecture:** 72 contact hours**Prerequisite:** ESL 640 or ESL 940 or eligibility as determined by the SBVC assessment process.

This noncredit course is the last of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences, paragraphs and essays, including a review of grammar, punctuation and usage. This course is taught through total English immersion while acknowledging students' cultural experiences. This course may also be offered for credit as ESL 941.

ESL 650 Noncredit**Citizenship Preparation - Part 1: Basic English Listening, Speaking, Reading, and Writing****Lecture:** 72 contact hours**Advisory:** ESL 604 or eligibility as determined by the SBVC assessment process or by advisement.

This noncredit course is designed to prepare prospective candidates for the English portion of the U.S. citizenship process. Students will learn skills to improve their basic listening, speaking, reading, and writing abilities through practice and drills. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 651 Noncredit**Citizenship Preparation - Part 2: Civic Principles and Fundamentals of U.S. History****Lecture:** 72 contact hours**Advisory:** ESL 940 or eligibility as determined by the SBVC assessment process or by advisement.

This noncredit course is designed to prepare prospective candidates for the civics portion of the U.S. citizenship process. Students will learn the rights and responsibilities of being a U.S. citizen, in addition to learning how to complete all required immigration forms and practicing the USCIS Citizenship Test by becoming familiar with U.S. history. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 930 4 Units**Composition Based ESL Level 1 - Beginning****Lecture:** 72 contact hours**Advisory:** ESL 604 or eligibility as determined by the SBVC assessment process.

This is the first of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences and paragraphs, including a study of grammar, punctuation and usage. The grammatical emphasis of this course will be on simple present and past tenses. It also has some emphasis on pronunciation, listening and speaking. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 931 4 Units**Composition Based ESL Level 2 - Beginning****Lecture:** 72 contact hours**Prerequisite:** ESL 930 or ESL 630 or eligibility as determined through the SBVC assessment process.

This is the second of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences and paragraphs, including a review of grammar, punctuation and usage. The grammatical emphasis of this course will be on present and past progressive tenses, and modal usage. It also has some emphasis on pronunciation, listening and speaking. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 940 4 Units**Composition Based ESL Level 3 - Intermediate****Lecture:** 72 contact hours**Prerequisite:** ESL 931 or ESL 631 or eligibility as determined through the SBVC assessment process.

This is the third of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences and paragraphs, including a review of grammar, punctuation and usage. The grammatical emphasis of this course will be on the present perfect, past perfect, and present perfect progressive tenses. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL 941 4 Units**Composition Based ESL Level 4 - Advanced****Lecture:** 72 contact hours**Prerequisite:** ESL 940 or ESL 640 or eligibility as determined through the SBVC assessment process.

This is the last of a four-course sequence designed to give English language learners a comprehensive understanding of English composition. The focus of this course is on creating effective sentences, paragraphs and essays, including a review of grammar, punctuation and usage. This course is taught through total English immersion while acknowledging students' cultural experiences.

ESL Integrated Skills - Beginning Certificate of Competency

This noncredit program is designed to prepare beginning English language learners with the fundamental speaking, listening, reading and writing skills of the English language. This program will also prepare students with the necessary skills to be successful in the composition-based ESL (English as a second language) courses.

Code	Title	Units
Required Courses:		
ESL 601	ESL Integrated Skills - Introduction to Basic English Literacy	0
ESL 602	ESL Integrated Skills - English for Home and School	0
ESL 603	ESL Integrated Skills - English for Work and Leisure	0
ESL 604	ESL Integrated Skills - English for Work and Education	0
Total Hours		256-288

Program Learning Outcome

At the completion of this program, students will be able to:

- Develop and demonstrate a progressive cumulation of skills in reading, listening, speaking and writing in the English language in various real-world situations that are necessary to advance to the composition-based ESL courses.
- Recognize and anticipate cultural bias through collaborative activities that foster English language acquisition.

Environmental Science

The goals of the Environmental Science program are to:

- Meet the needs of students who are majoring in one of the diverse fields encompassed by environmental science, and;
- Provide options for students fulfilling general education science requirements.

Awareness of the issues of environmental quality is increasingly important in business, industry, and government. The growing human population and increasing consumption of resources are creating unprecedented pressures on our planetary life support systems. Environmental science majors need to complete an interdisciplinary set of core requirements that provide a basic understanding of the physical, biological, and social sciences and the relevance of these sciences to environmental processes and issues.

In addition, the coursework will prepare students for related baccalaureate majors, including: biology, chemistry, engineering, geography (including emphasis in geographic information systems (GIS)), geology, mathematics, oceanography, and physics. For non-majors, the program's goal is to educate students to make better-informed choices about key environmental and health issues.

- Environmental Science Associate of Science Degree (p. 217)

ENVSCI 100 3 Units

Introduction to Environmental Science

Lecture: 54 contact hours

Advisory: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course is an introduction to environmental issues from a scientific perspective. It focuses on physical, chemical, and biological processes within the Earth system, the interaction between humans and these processes, environmental racism and environmental justice, and the role of science in finding sustainable, culturally appropriate solutions.

Associate Degree Applicable

Transfers to both UC/CSU

Environmental Science Associate of Science Degree

The goals of the Environmental Science program are to: 1) meet the needs of students who are majoring in one of the diverse fields encompassed by environmental science, and 2) provide options for students fulfilling general education science requirements.

Awareness of the issues of environmental quality, environmental racism, and environmental justice are increasingly important in business, industry, and government. The growing human population and increasing consumption of resources are creating unprecedented pressures on our planetary life support systems. Within the human population, socioeconomically and politically disenfranchised communities oftentimes suffer the consequences of polluted environments when compared with more advantaged communities. This is one of the many aspects of structural racism. This degree helps students to understand how environmental racism, environmental justice, and multiculturalism are vital components of the environmental landscape.

Environmental Science Majors need to complete an interdisciplinary set of core requirements that provide a basic understanding of the physical, biological, and social sciences and the relevance of these sciences to environmental processes and issues. In addition, the coursework will prepare students for related baccalaureate majors, including biology, chemistry, engineering, geography, geographic information systems (GIS), geology, mathematics, oceanography, and physics. For non-majors, the program's goal is to educate students to make better-informed choices about key environmental, health, and justice issues.

Students planning to transfer to a four-year institution and major in Environmental Science should consult with a counselor regarding the transfer process and institution-specific lower-division requirements. In upper division and graduate studies, students majoring in environmental science usually specialize in areas such as environmental toxicology, public health, environmental law, education, environmental economics, soil and water science, restoration ecology, environmental landscaping, environmental management, urban planning, and related careers.

To graduate with a specialization in Environmental Science, students must complete the following required courses plus the general breadth requirements for the Associate Degree (total = 60 units).

Code	Title	Units
Required Courses:		
ENVSCI 100	Introduction to Environmental Science	3
BIOL 205	Cell and Molecular Biology	4
BIOL 206	Organismal Biology	4
CHEM 150	General Chemistry I	5
CHEM 151	General Chemistry II	5
ECON 201	Principles of Microeconomics	3
	or ECON 201H Principles of Microeconomics - Honors	
	or POLIT 100 American Politics	
	or POLIT 100H American Politics - Honors	
GEOG 110	Physical Geography	3
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
One of the following:		1-3
GEOG 111	Physical Geography Laboratory	1

or GEOG 111H	Physical Geography Laboratory - Honors	
GEOL 101	Introduction to Physical Geology	3
GEOL 111	Introduction to Physical Geology Laboratory	1
One of the following Physics course sequences:		8-12
PHYSIC 151 & PHYSIC 152	General Physics for the Life Sciences I and General Physics for the Life Sciences II	8
PHYSIC 202 & PHYSIC 203 & PHYSIC 204	Physics I and Physics II and Physics III	12
Two courses from the following:		6-10
BIOL 104	Human Ecology	3
BIOL 207	Evolutionary Ecology	4
CHEM 205	Quantitative Chemical Analysis	5
CHEM 212	Organic Chemistry I	5
CHEM 213	Organic Chemistry II	5
GEOG 130	Introduction to Geographic Information Systems (GIS)	3
or GIS 130	Introduction to Geographic Information Systems (GIS)	
MATH 108	Introduction to Probability and Statistics	4
or MATH 108H	Introduction to Probability and Statistics - Honors	
MATH 266	Ordinary Differential Equations	4
Total Units		50-63

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze the interaction between natural and social systems and subsequent impacts on sustainable development, environmental policies, environmental justice, and racial justice.
- Synthesize the fundamentals of sociology, biology, chemistry, Earth sciences, mathematics, physics, and other social and natural sciences within a framework of human-environment interactions with an emphasis on racial equity and social justice.
- Critically interpret and assess environmental news and trends, including green technologies and career opportunities, national and international environmental policies, resource exploitation and conservation, global climate change, sustainable development, and human health within the context of racial equity and social justice.

Environmental Science Associate in Science for Transfer Degree

The goals of the Environmental Science program are to:

- Meet the needs of students who are majoring in one of the diverse fields encompassed by environmental science, and

- Provide options for students fulfilling general education science requirements.

Awareness of the issues of environmental quality and environmental justice are increasingly important in business, industry, and government.

The growing human population and increasing consumption of resources are creating unprecedented pressures on our planetary life support systems. Within the human population, socioeconomically and politically disenfranchised communities oftentimes suffer the consequences of polluted environments when compared with more advantaged communities. This uneven, inequitable environmental landscape is viewed through the lenses of environmental racism, environmental justice, and multiculturalism.

Environmental Science Majors need to complete an interdisciplinary set of core requirements that provide a basic understanding of the physical, biological, and social sciences and the relevance of these sciences to environmental processes and issues. In addition, the coursework will prepare students for related baccalaureate majors, including: biology, chemistry, engineering, geography (including emphasis in geographic information systems (GIS)), geology, mathematics, oceanography, and physics. For non-majors, the program's goal is to educate students to make better-informed choices about key environmental and health issues.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Environmental Science AS-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) for STEM or Intersegmental General Education Transfer Curriculum (IGETC-CSU) for STEM, which requires a minimum of 31-33 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Environmental Science should consult with a counselor regarding the transfer process and lower division requirements.

- Synthesize the fundamentals of sociology, biology, chemistry, Earth sciences, mathematics, physics, and other social and natural sciences within a framework of human-environment interactions with an emphasis on racial equity and social justice.
- Critically interpret and assess environmental news and trends, including green technologies and career opportunities, national and international environmental policies, resource exploitation and conservation, global climate change, sustainable development, and human health within the context of racial equity and social justice.

Ethnic Studies

Ethnic Studies is an interdisciplinary and comparative study of race and ethnicity from the perspective of four historically defined racialized core groups: Native Americans, African Americans, Asian Americans, and Latina and Latino Americans. Ethnic Studies includes the following disciplines: African American Studies, Native American Studies, Chicana and Latinx Studies, and Asian American Studies

- Social Justice Studies: Ethnic Studies Associate in Arts for Transfer Degree (p. 221)

ETHS 100 3 Units

Introduction to Ethnic Studies

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This inter-disciplinary course explores the ways that ethnicity, race, and racism shape the experiences of people of color in the United States. Introduces students to both historical and current inequalities founded upon the social construction of race, class, and gender. Addresses how different means of resistance and social movements by various groups worked in the hopes of achieving social justice.

Associate Degree Applicable

Transfers to both UC/CSU

ETHS 103 3 Units

Ethnicity and Identity in Media

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course explores the impact of identity on film as an art form and cultural artifact by confronting ideologies of race, class, gender, and sexual orientation as they are reflected in cinematic representation. American film is used as the primary lens through which to view how social, political, and cultural values have been formulated over the last century. Students analyze major films, figures, character types, and narrative strategies to evaluate the relationship between film and identity. (This course is also offered as FTVM 103)

Associate Degree Applicable

Transfers to both UC/CSU

ETHS 104 3 Units**Latina/o/x Studies****Lecture:** 54 contact hours

This course offers an overview of the experiences and contributions of Latina/o/x communities in the United States. Students will examine the impact of colonization, immigration, and forced displacement on these communities, as well as the formation of cultural identity and resistance movements. Throughout the course, students will analyze the intersections of race, ethnicity, class, gender, sexuality, and other forms of oppression that shape the experiences of Latino/a and Chicano/a communities. They will critically examine issues such as education, labor, health, immigration, and representation in media and politics.

Associate Degree Applicable**Transfers to both UC/CSU****ETHS 105 3 Units****Introduction to Asian American Studies****Lecture:** 54 contact hours

The course will cover the diverse histories and experiences of Asian Americans, including their migration patterns, experiences of discrimination, and contributions to American society. Students will learn about the social, political, and economic contexts that have shaped the experiences of Asian Americans in the United States, including colonialism, immigration policy, and racial and ethnic hierarchies. The course will also examine the intersections of race, gender, class, and sexuality in shaping the experiences of Asian Americans, as well as the cultural expressions of Asian American communities, including literature, film, music, and art. Throughout the course, students will engage in critical thinking and analysis of issues such as identity formation, community building, activism, and social justice.

Associate Degree Applicable**Transfers to both UC/CSU****ETHS 106 3 Units****Introduction to Black Studies****Lecture:** 54 contact hours

This course provides an overview of the interdisciplinary field of Black Studies, examining the experiences, cultures, histories, and contributions of people of African descent in the United States and worldwide. The course will explore key concepts, themes, and debates in Black Studies, including race, racism, colonialism, diaspora, identity, power, resistance, and social justice. Topics covered include the transatlantic slave trade, colonialism and decolonization, Pan-Africanism, Black Nationalism, Civil Rights and Black Power movements, African American literature and art, Hip Hop culture, and contemporary issues affecting people of African descent. Throughout the course, students will engage in critical thinking and analysis of issues such as identity formation, community building, activism, and social justice.

Associate Degree Applicable**Transfers to both UC/CSU****ETHS 107 3 Units****Native American Experiences in U.S. History****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a history of Native Americans in the region of the current day United States from the time preceding European colonialism to the present. The course content will be presented from a Native American perspective, emphasizing colonialism, removal, assimilation, termination, and self determination. (This course is also offered as HIST 107)

Associate Degree Applicable**Transfers to both UC/CSU****ETHS 107H 3 Units****Native American Experiences in U.S. History - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a history of Native Americans in the region of the current day United States from the time preceding European colonialism to the present. The course content will be presented from a Native American perspective, emphasizing colonialism, removal, assimilation, termination, and self determination. This course is intended for students in the Honors Program, but is open to all students who desire more challenging work. (This course is also offered as HIST 107H)

Associate Degree Applicable**Transfers to both UC/CSU****ETHS 108 3 Units****Introduction to Native American Studies****Lecture:** 54 contact hours

This course provides an introduction to the field of Native American Studies. It emphasizes the agency, struggles, and social justice efforts of Native Americans in the United States. Topics covered include Native cultural and intellectual traditions; racialization and intersectionality; antiracism and decolonization; and the relationship between Western scientific practices and Native American experiences. (This course is also offered as ANTHRO 108)

Associate Degree Applicable**Transfers to both UC/CSU****ETHS 141 3 Units****Race and Ethnic Relations****Lecture:** 54 contact hours

This course is a sociological and interdisciplinary examination of racial and ethnic groups in American society. Topics include historical and contemporary events and practices that have institutionalized racism including the social struggles of the four racialized core groups, with a focus on introductory concepts of ethnic studies, intersectionality, and anti-racist approaches toward social justice and equity. (This course is also offered as SOC 141)

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SOCI 150**ETHS 141H 3 Units****Race and Ethnic Relations - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a sociological and interdisciplinary examination of racial and ethnic groups in American society. Topics include historical and contemporary events and practices that have institutionalized racism including the social struggles of the four racialized core groups, with a focus on introductory concepts of ethnic studies, intersectionality, and anti-racist approaches toward social justice and equity. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work. (This course is also offered as SOC 141H)

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SOCI 150

ETHS 163 3 Units Chicana/o Literature

Lecture: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H

This course is a survey of Chicana/o literature, including novels, drama, poetry, and essays. The course explores concepts of Chicana/o identity, race and racism, and how these themes characterize Chicana/o culture and literary expression. It also examines important social, cultural, and political movements that have influenced and continue to shape the Chicana/o community. (This course is also offered as ENGL 163)

Associate Degree Applicable

Transfers to both UC/CSU

ETHS 165 3 Units African-American Literature

Lecture: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H

This course is a comprehensive examination of African American literature, including prose, poetry, and fiction, from the early oral tradition to present. The course also explores concepts of race, racism, and ethnicity that are manifest in African American literature, and will examine identity as it relates to finding national identity, losing a given, forced identity and acceptance of identity that is foreign to personal history. (This course is also offered as ENGL 165)

Associate Degree Applicable

Transfers to both UC/CSU

The approved Ethnic Studies courses that meet the General Education requirement for the SBVC Associate Degree (Category VI), CSU GE-Breadth (Area F) and IGETC (Area 7) include the following:

Code	Title	Units
ETHS 100	Introduction to Ethnic Studies	3
ETHS 103 or FTVM 103	Ethnicity and Identity in Media	3
ETHS 107 or HIST 107	Native American Experiences in U.S. History	3
ETHS 107H or HIST 107H	Native American Experiences in U.S. History - Honors	3
ETHS 108 or ANTHRO 108	Introduction to Native American Studies	3
ETHS 141 or SOC 141H	Race and Ethnic Relations	3
ETHS 141H or SOC 141H	Race and Ethnic Relations - Honors	3
ETHS 163 or ENGL 163	Chicana/o Literature	3
ETHS 165 or ETHS 165	African-American Literature	3

Social Justice Studies: Ethnic Studies Associate in Arts for Transfer Degree

The Associate in Arts for Transfer in Social Justice Studies: Ethnic Studies is a transfer degree that prepares students who are interested in pursuing a Bachelor's degree in Ethnic Studies. Students could move on to study majors that may include the following: African American Studies, American Indian Studies, Asian American Studies, Chicano/Chicana Studies, Ethnic Studies, and/or Latin American Studies. Ethnic Studies is an inter-disciplinary study that explores the ways that ethnicity, race, and racism shape the experiences of Black, Indigenous, and people of color in the United States. This discipline draws from the perspectives of other fields, such as Sociology, Anthropology, History, Education, Music, Art, and Literature to offer courses that present a diversity of topics.

This discipline celebrates the uniqueness of each experience, as well as addresses the larger power dynamic which has been maintained as a barrier to social change. These courses identify the "place" where various peoples have come from and the challenges they have faced when told to stay "in their place." By engaging in topics such as racism and racialization, heteronormativity, ethno-centrism, and white supremacy, students will develop critical thinking skills to challenge these issues in a diverse world. This degree is designed to inspire students to take an active role in bettering our community with the goal of social, economic, legal, and political equality.

Students with a degree in Ethnic Studies move on to become teachers, social workers, professors, lawyers, politicians, community organizers and activists, union organizers, public policy and health officials, and to become critical workers for non-profit and profit organizations.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn this Social Justice: Ethnic Studies AA-T degree, students must:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Social Justice Studies should consult with a counselor regarding the transfer process and lower division requirements.

ANTHRO 125	Language and Culture	3

Area 4 - Quantitative Reasoning and Research Methods:

MATH 108	Introduction to Probability and Statistics	4
or MATH 108H	Introduction to Probability and Statistics - Honors	
or PSYCH 105	Statistics for the Behavioral Sciences	
or PSYCH 201	Research Methods for the Behavioral Sciences	

Area 5 - Major Preparation:

SOC 100	Introduction to Sociology	3
or SOC 100H	Introduction to Sociology - Honors	

Code	Title	Units
Major Total		18-19
Total Units that may be Double-Counted		12
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		15-16
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Critically evaluate the impact of the intersectionality of race, ethnicity, class, gender, and sexuality in American society.
- Analyze the impact that Eurocentrism, ethno-centrism, racialization, and white supremacy has had and continues to have on Native Americans, Asian Americans, African Americans, and Chicano/a and Latinx communities.
- Assess the success and identify barriers to resistance movements, self-determination, and traditional cultural movements within non-white communities in the United States.
- Develop strategies and employ plans for empowering people to pursue social justice for all groups that are unfairly oppressed in our current society.

Film, Television, and Media

The Film, Television, and Media department offers a comprehensive instructional program in cinema, broadcasting, and streaming. The department provides a wide range of technologies for our students such as 6K camera systems, multiple track field audio, professional software such as Pro-Tools and DaVinci Resolve, access to a state-of-the-art Television and Radio Studio via KVCR, and we still teach Film on Film with our two film cameras a 35mm and a Super 16mm. The department boasts a wide variety of academic paths to follow, which include multiple 2-year degrees with transfer options and professional development certificates geared towards specific areas of film and broadcast, such as production, postproduction, and audio.

Through the Institute of Media Arts (<https://www.valleycollege.edu/academics/pathways/acd/film-television-media/institute-media-arts/>), students can take advantage of career development services such as portfolio development, resume writing, networking skills, and internships through our partnerships across southern California. These partnerships offer both unpaid and paid internship opportunities. Our most prominent partner is right on our campus, KVCR Television and Radio.

Many of our students transfer onto a variety of top-notch four-year film and media institutions such as UCLA, UC Berkley, USC, CSUN, Cal State Long Beach, and Cal State Los Angeles.

FTVM 098 1-4 Units

Media Arts Work Experience

WRKEX: 300 contact hours

Prerequisite: FTVM 114 and FTVM 130

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable

FTVM 101 3 Units

Introduction to Electronic Media

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course introduces the history, structure, function, economics, content, and evolution of cinema, broadcast, and emerging media, including traditional and mature formats. The social, political, regulatory, ethical, and occupational impact of electronic media are also studied.

Associate Degree Applicable

Transfers to both UC/CSU

FTVM 102 3 Units

Introduction to Film and Media Aesthetics

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course introduces the close analysis of film and television and examines the broad questions of form and content, aesthetics and meaning, and history and culture. The course also explores the diverse possibilities presented by the cinematic art form through an examination of a wide variety of productions, national cinemas, and film movements. The topics include modes of production, narrative and non-narrative forms, visual design, editing, sound, genre, ideology and critical analysis.

Associate Degree Applicable

Transfers to both UC/CSU

FTVM 103 3 Units

Ethnicity and Identity in Media

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course explores the impact of identity on film as an art form and cultural artifact by confronting ideologies of race, class, gender, and sexual orientation as they are reflected in cinematic representation. American film is used as the primary lens through which to view how social, political, and cultural values have been formulated over the last century. Students analyze major films, figures, character types, and narrative strategies to evaluate the relationship between film and identity. (This course is also offered as ETHS 103)

Associate Degree Applicable

Transfers to both UC/CSU

FTVM 110 3 Units

Audio Performance

Lecture: 36 contact hours

Lab: 54 contact hours

This course will give instruction and practice in performing and announcing. Topics include interpretation of copy, news casting, music continuity, interviewing, and the operation of audio equipment while performing. Students will practice commercial material and improvisational announcing.

Associate Degree Applicable

Transfers to CSU only

FTVM 111 3 Units**Studio Audio Production****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course serves as an introduction to the theory and practice of broadcast audio production for podcasting, digital recording applications, and radio. Students will learn the fundamentals of sound design and aesthetics, microphone use, digital audio workstations, and digital recording equipment. Students gain hands on experience recording, editing, mixing, and mastering audio. Upon completion, students will have basic knowledge of applied audio concepts, production workflow, equipment functions, and audio editing software.

Associate Degree Applicable**Transfers to CSU only****FTVM 112 3 Units****Film Audio Production****Lecture:** 36 contact hours**Lab:** 54 contact hours

This audio production course provides specialized training in digital audio work as it pertains to field audio production. This includes recording live events, field audio dialogue, and sound effects for use in all forms of media content. Topics include the use of audio post-production techniques and the skills necessary to compete in the entertainment, communications, and multimedia industries.

Associate Degree Applicable**Transfers to CSU only****FTVM 114 3 Units****Editing I****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course focuses on the fundamental techniques, skills, and theories of editing as well as the technical requirements for assembling a digital video project. Through a series of hands-on projects, students will put traditional theories of picture and sound editing into practice. The course will also cover the history of nonlinear editing and provide an overview of the post-production process.

Associate Degree Applicable**Transfers to CSU only****FTVM 120 3 Units****Introduction to Screen, Media, and Broadcast Writing****Lecture:** 54 contact hours

This course is designed to teach the student the basic tools of scriptwriting for film, television, broadcast, and new media, focusing on the aesthetic and commercial demands of each.

Associate Degree Applicable**Transfers to CSU only****FTVM 121 3 Units****Intermediate Screen, Media, and Broadcast Writing****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H and FTVM 120

This course is designed to provide intermediate level training in skills required to create scripts for film, television or electronic media. Techniques of scriptwriting and marketing are explored. An emphasis on proper formatting, technical, conceptual, and stylistic issues and techniques of scriptwriting and marketing are explored.

Associate Degree Applicable**Transfers to CSU only****FTVM 122 3 Units****Acting and Directing for Television and Film****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course provides instruction and practice in acting and directing for television and film, including voice, character development, and creating a visual style.

Associate Degree Applicable**Transfers to both UC/CSU****FTVM 130 3 Units****Film and TV Production Basics****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is designed for students who are interested in transforming a narrative concept into a practical production. By viewing, discussing, planning, and developing stories. Film, television, and media students will learn skills necessary to produce a film or video in a TV Studio and location environment. Topics include studio signal flow, directing, theory and operation of camera and audio equipment, switcher operation, fundamentals of lighting, graphics, video control and video recording and real-time video production.

Associate Degree Applicable**Transfers to both UC/CSU****FTVM 131 3 Units****Cinematography****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

In this hands-on course, students will delve into the art and craft of cinematography: the methods and techniques by which motion picture photography and lighting help give a film meaning and aesthetic purpose. Through lectures, demonstrations and exercises in a supervised classroom environment, students will learn to operate state-of-the-art digital and electronic equipment while applying the fundamental principles of lighting, composition, exposure, focus, lens selection, and camera dynamics into purposeful visual storytelling.

Associate Degree Applicable**Transfers to both UC/CSU****FTVM 132 3 Units****Video Production****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H and FTVM 130

Have you ever wondered how music videos and commercials are created? These productions use techniques of single camera operations. This course introduces the theories, terminologies, and operations of video production. The topics include composition, single-camera operation, portable field lighting, video recorder, audio recording and control, and editing. The aesthetic theories and fundamentals of scripting, producing, and directing for broadcast commercial or video to be used in other multimedia platforms. Students will plan and execute pre-production, production, and post-production working as a cohesive production crew.

Associate Degree Applicable**Transfers to both UC/CSU**

FTVM 133 3 Units**Broadcast News****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

In this course students will report, write, and produce video stories ranging from the four-minute BBC-style story to the 90-second US broadcast news variety to 30-second social media spots. Students will apply reporting techniques to the audio-visual medium, to tell news, feature, and investigative stories effectively. The combined stories will become a weekly news show to be broadcast on KVCR. Students will explore ethical issues applicable to video journalism and learn to interview for video, shoot sequences and write for the short news format. Students will pitch and be assigned news, feature, and deep dive/investigative stories. In addition, students will receive additional support in camera skills, voice tracking, graphics production. Students will produce a newscast, each taking on a different role as producers and reporters.

Associate Degree Applicable**Transfers to CSU only****FTVM 134 3 Units****Sports Broadcasting****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course teaches the fundamentals of Sports Broadcasting. Students will take the lead on writing and preparing broadcasts and building presentation/ performance skills in the broadcast of local sports on for broadcast on both TV and radio on the campus broadcast station KVCR. The sports to be broadcast include local college, high school sports and specialized events known for the region. Students will also perform as sportscasters on news programs on KVCR. Students will interview local athletes, write and produce feature material for broadcast. The contributions of minorities and women in sports will be highlighted.

Associate Degree Applicable**Transfers to CSU only****FTVM 198 3 Units****Media Practicum****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** FTVM 130

This course includes practical experience in design/layout, visual, online, multimedia journalism, emerging technologies, and leadership/ management. This intermediate student media practicum includes lab hours that regularly produce news, feature non-fiction product, or documentary with a journalism emphasis by and for students and distributed to a campus or community audience. Some assignments may include a variety of student media across multiple platforms, including print, broadcast, and online. Content must be student produced with student leadership emphasis.

Associate Degree Applicable**Transfers to CSU only****FTVM 213 3 Units****Radio and Podcast Operations****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** FTVM 110 or FTVM 111

This course offers an emphasis on individual and group production of short and long-form broadcasts for a variety of audio projects. Projects include podcasts, promotional spots, features, music programming, and news; as well as project development, management and implementation. All student projects are eligible to air on KVCR, YouTube, and program managed podcast station.

Associate Degree Applicable**Transfers to CSU only****FTVM 215 3 Units****Editing II****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** FTVM 114

This advanced level course provides students with the skills and technologies to edit both fiction and documentary films as well as other forms of visual media. Students will learn on industry level software systems and equipment.

Associate Degree Applicable**Transfers to CSU only****FTVM 216 3 Units****Color Correction for Film and Media****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** FTVM 114

This hands-on course will familiarize students with color grading and finishing software. This course will begin with the basics of color balancing and correction. Students will move on to the fine points of secondary grading, including scene matching, using vignettes to isolate and track regions, creating advanced color effects and looks, skin tone adjustments, adjusting the composition and framing of a shot.

Associate Degree Applicable**Transfers to both UC/CSU****FTVM 222 1-3 Units****Independent Study in Film, Television, and Media****DIR:** 54 contact hours

Students with previous course work in FTVM may pitch various projects to further develop their portfolios. This can include films, broadcast or streaming shows, or podcast series. This independent study is for students who are interested in furthering their knowledge of FTVM. Prior to registration, a written contract must be prepared. See instructor for details.

Associate Degree Applicable**Transfers to CSU only**

FTVM 233 3 Units**TV Studio Production****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** FTVM 130

This is an in-depth course that encourages collaboration between students, and provides them with powerful feedback from peers, faculty, and industry professionals. Students have access to a unique opportunity to create original programming in the KVCR Studio. Along with exploring advanced television production techniques and management, the course is an intensive session which provides our students with the chance to explore areas such as writing, lighting, set design, performance and show running. It's a great opportunity to add to their portfolio and showcase their talents.

Associate Degree Applicable**Transfers to CSU only****FTVM 234 3 Units****Short Film Production****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** FTVM 130 or FTVM 131 and FTVM 122

In this course, the techniques of digital short filmmaking and of critical appreciation, while emphasizing students' personal and creative expression. Topics will include the theory and practice of visualization, the grammar of cinematic storytelling, the aesthetics of various film movements, camera technique, lighting, sound recording, directing, and other fundamentals related to learning the craft of digital filmmaking. Students will work collaboratively to complete a short film by the end of the semester.

Associate Degree Applicable**Transfers to CSU only****FTVM 235 3 Units****Cinema Production****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** FTVM 130 and FTVM 122

This course focuses on techniques of cinema and motion picture production using theoretical and critical rubrics, allowing the student to gain proficiency in producing, directing, cinematography, production design, sound recording, grip/electric, and editing as applied in feature films and films made for television and Internet. Students will develop skills and work as a team while learning the roles and responsibilities of various facets of the filmmaking process during pre-production, production, and post-production. Working with previously original scripts written by students, students learn skills that include the visualization of the screenplay, script breakdown, preparation of shot lists, direction of actors, and the staging of action for the camera.

Associate Degree Applicable**Transfers to CSU only****FTVM 601 Noncredit****Steadicam Operation****Lab:** 18 contact hours

This noncredit course will provide instruction on the use of the Steadicam. Steadicam is now a commonly used tool within the film and television industry that requires training and practice in order to produce good results. More than just a stabilizer, as a shooting system it is able to provide an individual style to the production often greatly desired by producers and directors. Additionally, complex moving scenes can not only be quicker to shoot, but also more dramatic by adding pace and dimension to the shot.

FTVM 602 Noncredit**Producing 101****Lecture:** 6 contact hours**Lab:** 14 contact hours

In this noncredit course students will learn the multiple facets of creative producing for all levels of media, including streaming, cinema, and broadcast. Topics covered include story development, casting, scheduling with professional level scheduling software, pre-production planning, location scouting, production paperwork and forms, and understanding the day to day logistics of producing for broadcast and cinema.

FTVM 603 Noncredit**Film Cinematography****Lecture:** 10 contact hours**Lab:** 18 contact hours

In this noncredit course developed in collaboration with Kodak Film, students will learn the basics of cinematography utilizing motion picture film stock. The class covers various film types, motion picture film cameras, and why in this age of digital the film approach is the best choice for a given project.

Audio Broadcasting Certificate of Achievement

The Audio Broadcasting certificate program will enable students to gain valuable skills and creative techniques in the highly competitive and challenging world of audio broadcasting forms of over the air signals, podcasting stations, and other forms of over-the-top distribution channels. The course offerings are designed to provide a general overview of the broadcasting industries and their inter-relationships, while also concentrating on specific job skills.

Code	Title	Units
Required Courses:		
FTVM 110	Audio Performance	3
FTVM 111	Studio Audio Production	3
FTVM 112	Film Audio Production	3
FTVM 213	Radio and Podcast Operations	3
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a portfolio of work to demonstrate entry-level skills.
- Write a resume for entry level employment in media, television, or film production.
- Modify and edit film and media content for distribution.
- Produce content to be streamed for podcasts or broadcast radio.
- Qualify for entry-level work in media, television, or film production.

Audio Production Associate of Arts Degree

The Associates Degree in Audio Production is an immersive program which provides students with the chance to explore the essential functions of audio production. Students will earn their degree while learning industry level hardware and software systems. The students will gain knowledge of

the technical while forming their creative voice. This is done through focusing on sound design and audio production techniques.

Code	Title	Units
Required Courses:		
FTVM 130	Film and TV Production Basics	3
FTVM 111	Studio Audio Production	3
FTVM 112	Film Audio Production	3
FTVM 110	Audio Performance	3
Four courses from the following:		
FTVM 213	Radio and Podcast Operations	3
FTVM 114	Editing I	3
FTVM 233	TV Studio Production	3
MUS 123	Electronic Music I	3
THART 131	Sound for Stage and Screen	3
Work Experience - Complete a minimum of three units from the following:		
FTVM 098	Media Arts Work Experience	1-4
or FTVM 198	Media Practicum	
Electives - Two courses from the following:		
FTVM 234	Short Film Production	3
FTVM 235	Cinema Production	3
FTVM 122	Acting and Directing for Television and Film	3
FTVM 132	Video Production	3
FTVM 133	Broadcast News	3
FTVM 134	Sports Broadcasting	3
Total Units		30-31

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a portfolio of work to demonstrate audio production skills.
- Create an audio performance for a variety situations ranging from broadcast to voice over production of film, televisions, and audio.
- Write short news or information scripts for broadcast.
- Produce, engineer, and edit and short radio program.

Film Associate of Arts Degree

The Associate of Arts Degree in Film offers students specified professional paths in direction, camera operation, post-production, and story development. The first half of the program provides an overview of all facets of filmmaking. During the student's last half of the program, they will specialize in the area of their choice. In all areas of specialization, students are exposed to a significant amount of practical work experience on film sets.

Code	Title	Units
Required Courses:		
FTVM 112	Film Audio Production	3
FTVM 114	Editing I	3
FTVM 130	Film and TV Production Basics	3
or FTVM 131	Cinematography	
FTVM 120	Introduction to Screen, Media, and Broadcast Writing	3
or FTVM 121	Intermediate Screen, Media, and Broadcast Writing	
Work Experience - Complete a minimum of three units from the following:		
FTVM 098	Media Arts Work Experience	1-4
or FTVM 198	Media Practicum	
One Pathway from the following:		
Directing Pathway - Take Five Courses:		
THART 120	Acting Fundamentals I	3
FTVM 122	Acting and Directing for Television and Film	3
FTVM 132	Video Production	3
THART 136	Introduction to Theatre Design	3
FTVM 234	Short Film Production	3
FTVM 235	Cinema Production	3
Story Development Pathway - Take Four Courses:		
THART 105	Script Analysis	3
FTVM 120	Introduction to Screen, Media, and Broadcast Writing	3
or FTVM 121	Intermediate Screen, Media, and Broadcast Writing	
FTVM 122	Acting and Directing for Television and Film	3
THART 166	Improvisational Acting	3
FTVM 110	Audio Performance	3
FTVM 111	Studio Audio Production	3
FTVM 132	Video Production	3
Story Development Electives - Take Two Courses:		
FTVM 234	Short Film Production	3
FTVM 235	Cinema Production	3
FTVM 114	Editing I	3
FTVM 215	Editing II	3
FTVM 216	Color Correction for Film and Media	3
Post-Production Pathway - Take Four Courses:		
FTVM 111	Studio Audio Production	3
FTVM 215	Editing II	3
FTVM 216	Color Correction for Film and Media	3
ART 145	Introduction to Digital Applications for Graphic Design	3
ART 280	Beginning 3D Digital Animation and Visualization	3
Post-Production Electives - Take Two Courses:		
FTVM 234	Short Film Production	3
FTVM 235	Cinema Production	3
FTVM 110	Audio Performance	3
FTVM 120	Introduction to Screen, Media, and Broadcast Writing	3
FTVM 122	Acting and Directing for Television and Film	3
Camera Operation Pathway - Take Four Courses:		
FTVM 131	Cinematography	3

FTVM 234	Short Film Production	3
FTVM 235	Cinema Production	3
FTVM 122	Acting and Directing for Television and Film	3
ART 161	Digital Photography	3
ART 124A	Beginning Drawing	3
Camera Operation Electives - Take Two Courses:		
FTVM 234	Short Film Production	3
FTVM 235	Cinema Production	3
FTVM 114	Editing I	3
FTVM 215	Editing II	3
FTVM 122	Acting and Directing for Television and Film	3
Total Units		33-37

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate an understanding of the basics of film production.
- Apply knowledge gained in courses to the development of a professional portfolio.
- Show an aptitude in a specific area of the film industry, either direction, story development, post-production, or camera operation.
- Demonstrate the skills associated with creative collaboration.

Film, Television, and Electronic Media Associate in Science for Transfer Degree

The Film, Television and Media department provides a comprehensive instructional program in radio and television broadcasting, digital film production, and digital audio and video production for use in broadcasting, cablecasting, multimedia, film production, and Internet applications.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a Film, Television, and Electronic Media AS-T degree, students must complete the following Associate Degree for Transfer requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and

- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Students planning to transfer to a baccalaureate institution and major in Film, Television, and Electronic Media should consult with a counselor regarding the transfer process and lower division requirements.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Explain the history of radio, television, or film.
- Apply production principles to the basic operation of the audio console and radio station equipment.
- Write a script with an appropriate story line or purpose.
- Perform on camera or voice over.
- Demonstrate technical ability of film and audio skills.
- Demonstrate management skills.
- Qualify for transfer to a four-year institution.

Historical Documentary Production Certificate of Achievement

This certificate prepares students for entry-level work in documentary film and news production with an emphasis on historical perspectives and how those relate to documentary filmmaking. Students will research topics pertaining to equity and inclusion and create documentary media content that can be aired on KVCR - TV (PBS).

Code	Title	Units
Required Courses:		
FTVM 114	Editing I	3
FTVM 130 or FTVM 132	Film and TV Production Basics Video Production	3
FTVM 198	Media Practicum	3
Two Courses from the Following:		
HIST 107 or HIST 107H or ETHS 107 or ETHS 107H	Native American Experiences in U.S. History Native American Experiences in U.S. History - Honors Native American Experiences in U.S. History Native American Experiences in U.S. History - Honors	3
HIST 137	Experiences of Racial and Ethnic Groups in U.S. History	3
HIST 138	The African American Experience in U.S. History to 1877	3
HIST 139	The African American Experience in U.S. History From 1877	3
HIST 140 or HIST 140H	Chicano Experiences in U.S. History Chicano Experiences in U.S. History - Honors	3
HIST 142	Experiences of Asian Americans in U.S. History	3
Total Units		15

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Present a clear synopsis of the history of film and media in correlation with historical research.
- Apply historical knowledge about black, indigenous, people of color to story and production skills for documentary film making.
- Write a script with an appropriate story line or purpose (e.g. interview script).
- Create film and media content that highlights systemic racism in the culture and society.
- Demonstrate technical ability.
- Produce portfolio content that illustrates knowledge of non-fiction story telling.

Media Development Certificate of Achievement

This certificate is designed to prepare students for career paths in story development and production planning for film, tv, and media. The emphasis is in writing and production planning.

Code	Title	Units
Required Courses:		
FTVM 102	Introduction to Film and Media Aesthetics	3
FTVM 120	Introduction to Screen, Media, and Broadcast Writing	3
FTVM 121	Intermediate Screen, Media, and Broadcast Writing	3
FTVM 122 or FTVM 130	Acting and Directing for Television and Film Film and TV Production Basics	3
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create an online portfolio of work to demonstrate entry-level skills.
- Write a resume for entry level employment in media, television, or film development.
- Write scripts for all forms of media content.
- Produce a concept pitch for a media project.
- Qualify for entry-level work in media, television, or film development.

Post-Production Certificate of Achievement

The Post-Production certificate is designed to prepare students for career paths in the post-production of film, TV, and electronic media. This certificate covers areas of audio engineering, audio recording, video editing, effects, and color correction.

Code	Title	Units
Required Courses:		
FTVM 111	Studio Audio Production	3
FTVM 114	Editing I	3
FTVM 213	Radio and Podcast Operations	3
FTVM 215	Editing II	3

FTVM 216	Color Correction for Film and Media	3
Total Units		15

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a portfolio of work to demonstrate entry-level skills.
- Write a resume and complete an online portfolio for entry level employment in media, television, or film production.
- Produce film and media projects for a variety of distribution platforms.
- Develop content utilizing professional level post-production applications.
- Describe how to fix and correct footage film for television and media projects.

Production Certificate of Achievement

The Production Certificate is designed to prepare students for career paths in film, tv, and media production. It emphasizes production of short narrative, documentary, and long form media content. Note: Students who wish to pursue the Associates in Media Production the department advises students to take FTVM 102.

Code	Title	Units
Required Courses:		
FTVM 130	Film and TV Production Basics	3
FTVM 122	Acting and Directing for Television and Film	3
FTVM 131	Cinematography	3
FTVM 233	TV Studio Production	3
or FTVM 234	Short Film Production	
or FTVM 235	Cinema Production	
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Qualify for entry-level work in media, television, or film production.
- Have an online portfolio of work to demonstrate entry-level skills.
- Write a resume for entry level employment in media, television, or film production.
- Modify and edit film and media content for distribution.

Social Media Field Production Certificate of Achievement

The Social Media Field Production Certificate is designed to better understand how field video production will enhance social media outreach. Utilizing field production basics such as interviews, livestreaming, and commercial production; students will gain an understanding for the

appropriate tools. Students will learn engaging video strategies to expand social media audiences.

Code	Title	Units
Required Courses:		
FTVM 102	Introduction to Film and Media Aesthetics	3
FTVM 121	Intermediate Screen, Media, and Broadcast Writing	3
FTVM 132	Video Production	3
FTVM 215	Editing II	3
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create an online portfolio of work to demonstrate entry-level skills.
- Write a resume for entry-level employment in media, television, or film development.
- Produce short video content that meets the standards of broadcast and social media outlets.
- Produce multiple packages of video content for social media and broadcast platforms.
- Qualify for entry-level work in public relations and internal communications where video is required.

Social Media Narrative Production Certificate of Achievement

The Social Media Narrative Production Certificate is an in-depth look at how to harness audio and video story telling for social media platforms. Some of these strategies consist of short form documentary and narrative content creation. This certificate helps you to define video production for social media marketing, including defining your audience, finding your voice, content creation, and tracking.

Code	Title	Units
Required Courses:		
FTVM 111	Studio Audio Production	3
FTVM 112	Film Audio Production	3
FTVM 215	Editing II	3
FTVM 233	TV Studio Production	3
FTVM 198	Media Practicum	3
Total Units		15

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a portfolio of work to demonstrate entry-level skills.
- Write a resume for entry level employment in media, television, or film development.
- Produce short video content that meets the standards of broadcast and social media outlets.

- d. Design multiple packages of video and audio content for social media and broadcast platforms.
- e. Qualify for entry-level work in public relations and internal communications where video is required.

Social Media Studio Production Certificate of Achievement

The Social Media Studio Production Certification will help students shape the conversation around brand, utilizing basic video studio production skills. Students in this program will learn the fundamentals of videos production. These fundamentals are essential in social media video production.

Code	Title	Units
Required Courses:		
FTVM 101	Introduction to Electronic Media	3
FTVM 114	Editing I	3
FTVM 120	Introduction to Screen, Media, and Broadcast Writing	3
FTVM 130	Film and TV Production Basics	3
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Have an online portfolio of work to demonstrate entry-level skills.
- Write a resume for entry level employment in media, television, or film development.
- Produce short video content that meets the standards of broadcast and social media outlets.
- Produce a package of video content for at least one project.
- Qualify for entry-level work in public relations and internal communications where video is required.

Television Associate of Arts Degree

The Associate in Art degree in Television is designed to prepare students for career paths in the television and streaming industries in a variety of areas, including serialized narrative and documentary, remote and studio production, writing, preproduction, and editing. Students will learn the basics of television production within the first half of the program then choose between an emphasis in either unscripted or scripted content for television and streaming.

Code	Title	Units
Required Courses:		
FTVM 130	Film and TV Production Basics	3
FTVM 114	Editing I	3
FTVM 111	Studio Audio Production	3
FTVM 233	TV Studio Production	3
Work Experience - Complete a minimum of three units from the following:		
FTVM 098	Media Arts Work Experience	1-4
or FTVM 198	Media Practicum	

One Pathway from the following:

Unscripted Pathway - Take four courses:

FTVM 198	Media Practicum	3
FTVM 133	Broadcast News	3
FTVM 134	Sports Broadcasting	3
FTVM 215	Editing II	3
FTVM 216	Color Correction for Film and Media	3

Unscripted Electives - Two courses:

FTVM 234	Short Film Production	3
FTVM 235	Cinema Production	3
FTVM 114	Editing I	3
FTVM 215	Editing II	3
FTVM 216	Color Correction for Film and Media	3

Scripted Pathway - Take four courses:

FTVM 120	Introduction to Screen, Media, and Broadcast Writing	3
FTVM 121	Intermediate Screen, Media, and Broadcast Writing	3
FTVM 122	Acting and Directing for Television and Film	3
FTVM 234	Short Film Production	3
FTVM 131	Cinematography	3
FTVM 235	Cinema Production	3
Total Units		27-33

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a portfolio of work to demonstrate professional level skills.
- Create a portfolio from projects developed and produced in the department.
- Develop stories for appropriate career pathways in television and streaming these include both scripted and unscripted projects.
- Produce, direct, and edit a production that meets technical guidelines for broadcast on television or streaming.

Video Broadcasting Certificate of Achievement

The Video Broadcasting Certificate program will enable students to gain valuable skills and creative techniques in the highly competitive and challenging world of Television broadcasting forms of over the air signals, streaming platforms, and other forms of over the top distribution channels. The course offerings are designed to provide a general overview of the broadcasting industries and their inter-relationships, while also concentrating on specific job skills.

Code	Title	Units
Required Courses:		
FTVM 114	Editing I	3
FTVM 130	Film and TV Production Basics	3
FTVM 133	Broadcast News	3
FTVM 134	Sports Broadcasting	3
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a portfolio of work to demonstrate entry-level skills.
- Write a resume for entry-level employment in media, television, or film production.
- Modify and edit film and media content for distribution.
- Qualify for entry-level work in media, television, or film production.

Foods and Nutrition

The Food and Nutrition curriculum prepares students for careers in the following areas but is not limited to the Food Service industry, Hospitals, Retirement Homes, Spas, Rehabilitation Centers, and Schools. Students planning to transfer to a four-year institution and major in Hospitality should consult with a counselor regarding the transfer process and lower-division requirements. Please see Culinary Arts for more courses in this major.

Division: Applied Technology, Transportation, and Culinary Arts (T - 108)

Division Phone Number: (909) 384-4451

Faculty Chair: Stacy Meyer (smeyer@sbccd.edu), M.A.

Counselor Liaisons: Debbie Orozco (dorozco@sbccd.edu), M.A. and Patricia Jones (pjones@sbccd.edu), M.A.

-
- Dietetic Aide Certificate of Achievement (p. 233)
 - Dietetic Service Supervisor Certificate of Achievement (p. 233)
 - Nutrition and Dietetics Associate in Science for Transfer Degree (p. 233)

FN 060 4 Units

Modified Diets

Lecture: 72 contact hours

Prerequisite: FN 162

This course concentrates on the principles of therapeutic nutrition in order to provide modified diets for individuals with a variety of health conditions. The focus is on the rationale for dietary adequacy and how modifications improve a person's well-being.

Associate Degree Applicable

FN 064 3 Units

Nutrition Management

Lecture: 54 contact hours

The focus of this course is on the food service and nutrition management in a health care facility. It includes the development of policies, protocols and procedures for organizing, staffing and training, as well as the promotion of sound financial planning and a cost control system.

Associate Degree Applicable

FN 066 3 Units

Nutrition Care

Lecture: 54 contact hours

Prerequisite: FN 060

This course integrates the academic content and principles of nutrition, diet and menu development with the application of nutrition care, diet evaluation, diet education and dietetic practice.

Associate Degree Applicable

FN 098 1-4 Units**Food and Nutrition Work Experience**

WRKEX: 300 contact hours

This course involves supervised training, in the form of on-the-job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. Students work 5-20 hours per week to earn units using the following formula: For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**FN 162 3 Units****Introduction to Food and Nutrition**

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course introduces the scientific concepts of nutrition related to the function of nutrients in the basic life processes. Emphasis is on individual nutrition needs for health promotion and disease prevention, food sources of nutrients, current nutritional issues and diet analysis.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: NUTR 110

Dietetic Aide Certificate of Achievement

This program is designed to prepare students for entry-level employment in a designated unit or department in health care, community care, school food service, retirement center, or health and community directed programs of nutrition services. These services are often geared towards people with advanced dietary healthcare needs.

Code	Title	Units
Required Courses:		
CULART 225	Sanitation and Safety	3
CULART 240	Procurement, Purchasing and Selection	3
FN 060	Modified Diets	4
FN 162	Introduction to Food and Nutrition	3
HOSP 160	Culinary Production and Kitchen Operations	3
Total Units		16

Code	Title	Units
Recommended Course:		
FN 098	Food and Nutrition Work Experience	1-4

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program**Program Learning Outcomes**

At the completion of this program, students will be able to:

- Create and design a menu for modified diets.
- Prepare and serve food for modified diets.
- Interpret and implement directions from dietitians in the provision of food service and nutritional programs.

Dietetic Service Supervisor Certificate of Achievement

This program is designed for students to interested in the dynamic field of food and nutrition. Students will receive education and training for entry-level management positions in a food service department within a health care facility, community care, retirement center, or school food service organizations. Supervisors write menus, design diets, teach classes to food service personnel and give instruction on individual diets.

Code	Title	Units
Required Courses:

FN 064	Nutrition Management	3
FN 066	Nutrition Care	3
FN 162	Introduction to Food and Nutrition	3
HOSP 160	Culinary Production and Kitchen Operations	3
Total Units		28

Code	Title	Units
Recommended Course:		
FN 098	Food and Nutrition Work Experience	1-4

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program**Program Learning Outcomes**

At the completion of this program, students will be able to:

- Explain hiring practices as it applies to the kitchen area.
- Provide nutrition services for schools, training camps, food-service companies, sports/fitness centers and restaurants.
- Supervise the production, prepare menus, and conduct training for food service personnel.
- Meet the California Department of Health Licensing Requirements for Dietetic Service Supervisor (DSS).

Nutrition and Dietetics Associate in Science for Transfer Degree

Nutrition and Dietetics is an interdisciplinary science that studies factors that affect our food choices, the chemical and physiological processes involved in processing and delivering the chemical components of those foods to the body. Students will focus their studies in nutritional science including chemistry and physiology as well as institutional nutrition, community nutrition, food production, management of foodservice operations. The courses within this program are designed to provide students with applicable skills useful in a vast range of occupations.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these

degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Nutrition and Dietetics AS-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Nutrition and Dietetics should consult with a counselor regarding the transfer, process and lower division requirements.

Total Units That May Be Double Counted		10-16
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		3-10
Total Units		60

¹ Credit will only be awarded for one of the following courses/sequence: BIOL 250 and BIOL 251 OR BIOL 260 OR BIOL 261.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Outline the overall nutritional needs of children and adults and develop comprehensive food plans to ensure nutritional needs are being met.
- Recognize the sources and functions of macronutrients and micronutrients.
- Compare canned/packaged food products using the information on the Nutrition Facts Panel, ingredient list, and Daily Values.
- Analyze a three-day dietary intake by food groups and/or by nutrients using Recommended Daily Allowances (RDA) and write recommendations based on the data gleaned from the analysis.

Geographic Information Systems (GIS)

Geographic Information Systems (GIS) is used within the following economic sectors and organizations:

- Business (e.g. banking, logistics, real estate, marketing, and more),
- Government (e.g. local, state, national, military, emergency services, law enforcement, transportation, and more),
- Education and Science (e.g. research, libraries, k-12 education, higher education, and more),
- Environment and Conservation (e.g. ecology, parks, pollution monitoring, and more),
- Natural Resources (e.g. agriculture, forestry, mining, non-renewable resources, renewable resources, and more), and
- Utilities (e.g. electricity, natural gas, telecommunications, water, wastewater, and more).

GIS 098 1-4 Units

GIS Work Experience

WRKEX: 300 contact hours

Prerequisite/Corequisite: GIS 135

This course involves supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable

GIS 100 3 Units

Map Interpretation and Geospatial Analysis

Lecture: 36 contact hours

Lab: 54 contact hours

Advisory: ECON 208 or MATH 108 or MATH 108H or PSYCH 105 and ENGL 101 or ENGL 101H

Have you ever wondered how the traffic map works on your phone? Do you enjoy exploring maps and satellite images online? This class is an introduction to maps, images and geospatial techniques and technologies. The technologies covered in this course include map and aerial photograph interpretation, tabular data, spatial statistics, cartography, Global Positioning Systems (GPS), automated and web-based mapping, remote sensing, and Geographic Information Systems (GIS), all of which aid in data collection, analysis and presentation. Theories, methods, and ethics within GIS, GPS, remote sensing, cartography, and field work play a central role in this course. This course also highlights how GIS and geospatial analytical tools can address longstanding issues related to economic, environmental, political, racial, and social justice. (This course is also offered as GEOG 100).

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: GEOG 150

GIS 130 3 Units

Introduction to Geographic Information Systems (GIS)

Lecture: 36 contact hours

Lab: 54 contact hours

Advisory: ECON 208 or MATH 108 or MATH 108H or PSYCH 105 and ENGL 101 or ENGL 101H

How do corporations know where to locate retail stores and restaurants? How do epidemiologists know how to confront epidemics, pandemics, and related disease outbreaks? How does your utility provider know the location of power outages and water leaks? How do demographers create maps based on ethnicity, socioeconomic status, age, gender, religious affiliation, and other population characteristics? The answers to these questions and more are found within Geographic Information Systems (GIS). This course provides an introduction to the fundamentals of Geographic Information Systems (GIS), including the history of automated mapping. It includes a brief introduction to basic cartographic principles, including map scales, coordinate systems and map projections. GIS hardware and software are implemented, as are various applications of GIS technology used in environmental science, business and government. Using automatic mapping software like ArcGIS Online, ArcGIS Pro, ArcMap, and Story Maps, you will create maps that address a variety of local to global issues. (This course is also offered as GEOG 130)

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: GEOG 155

GIS 133 3 Units**GIS Cartography and Base Map Development****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** GEOG 130 or GIS 130

We interact with maps all the time, in the news, on your mobile device, and elsewhere. Accurate, well produced maps are vital for public consumption. Maps are powerful tools in the spatial representation of historically marginalized and underrepresented groups. This course introduces the nature of cartography, standard cartographic conventions, and graphic symbology. Map projections, scale, types of thematic maps, and map accuracy are reviewed. Current industry standard techniques used in GIS base map development are employed, including production and presentation techniques of professional quality maps.

Associate Degree Applicable**Transfers to both UC/CSU****GIS 134 3 Units****Data Acquisition and Management****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** GEOG 130 or GIS 130

There are myriad methods to collect, administer, and display spatial data. Cloud computing, Artificial Intelligence (AI), social media, drone and satellite platforms, and traditional on the ground field work all contribute to GIS data. This course addresses the interpretation and understanding of a variety of data formats available in GIS. It introduces the fundamental concepts of primary GIS data creation, and discusses quantitative techniques for collection, classification, and management of geographical data.

Associate Degree Applicable**Transfers to CSU only****GIS 135 3 Units****Spatial Analysis with GIS****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** GEOG 130 or GIS 130

Cloud computing, artificial intelligence (AI), web GIS, and automated mapping are becoming increasingly important within spatial analysis. This course is an introduction to spatial analysis with fundamental concepts and analytical procedures used to simplify complex spatial modeling. Specific methods covered include spatial queries, buffering, overlay, interpolation, network analysis, surface analysis, and spatial autocorrelation. Spatial analysis tools and services have the capacity to highlight and address long-standing issues of economic, environmental, racial, and social justice, as well as environmental sustainability.

Associate Degree Applicable**Transfers to CSU only****GIS 137 3 Units****GIS Advanced Applications****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** GIS 135

This course provides hands-on training in advanced applications of GIS using ArcGIS Online, ArcGIS Pro, ArcGIS Developer, and ArcGIS Enterprise. It includes Application Programming Interface (API), Visual Basic Applications (VBA), JavaScript, and Python scripting for customizing ArcGIS. It includes an introduction to ArcGIS Server, Web Map Service (WMS), ArcGIS WebApp Builder, and building maps and models for publishing to the web. Students will build web applications with GIS capabilities using Application Service Provider (ASP) and application programming interface (API) tools.

Associate Degree Applicable**Transfers to CSU only****GIS 222 1-3 Units****Independent Study in Geographic Information Systems****DIR:** 54 contact hours**Prerequisite:** GEOG 130 or GIS 130

Students with previous course work in GIS may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of GIS. Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only**

Geographic Information Systems Certificate of Achievement

An increasing number of job sectors require mapping and spatial competency, including architecture, environmental science, finance, healthcare, marketing, policing, transportation, urban planning, and utilities. This certificate is designed to prepare students for entry-level employment in Geographic Information Systems (GIS) and automated mapping technology, utilizing satellites, aerial photography, drones, and web-based data. Advanced courses within this certificate equip students with the skills necessary to publish sophisticated web-based maps and create code to customize GIS applications.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate the skills necessary to become an entry-level GIS technician, including spatial data acquisition, spatial data processing, and publishing web-based maps.
- Employ ArcGIS Field Maps, ArcGIS Survey123, ArcGIS QuickCapture, ArcGIS Workforce, and ArcGIS Navigator applications, as well as public-domain datasets to create web-based map.
- Create and organize a tabular database and associated metadata through entry of textual and numerical information.
- Collect and integrate raster data layers, including remotely sensed imagery, and vector data layers, including points, lines, and polygons.
- GIS map analysis, including descriptive spatial statistics, inferential spatial statistics, and spatial autocorrelation.
- Demonstrate how GIS can visualize and address longstanding issues related to economic, environmental, racial, and social justice, as well as environmental sustainability.

Geography

The environmental and spatial science of geography examines both physical and cultural landscapes across the Earth. As a spatial science, physical and cultural location and patterns on Earth's surface are central to the study of geography. It includes the study of all forces of nature and the consequences of those forces, with an emphasis on human-environment interactions.

Specifically, geography integrates multiple natural and social sciences and includes: the nature and interactions of the atmosphere and the land, plants and animals, the Earth's waters, weather, climate, the Earth's dynamic surface, landforms and soil, and the way people have inhabited and altered the Earth by creating various forms of agriculture, language, religion, and cities.

Courses in geography fulfill the science and social sciences requirement for the associate degree, prepare the students for majoring in geography at a four-year institution, and supplement other studies for students interested in careers in environmental studies, education, engineering, urban planning, and architecture. Students planning to transfer to a four-year institution as a geography major should consult with a counselor regarding the transfer process and lower division requirements.

Map Interpretation and Geospatial Analysis

Lecture: 36 contact hours

Lab: 54 contact hours

Advisory: ECON 208 or MATH 108 or MATH 108H or PSYCH 105 and ENGL 101 or ENGL 101H

Have you ever wondered how the traffic map works on your phone? Do you enjoy exploring maps and satellite images online? This class is an introduction to maps, images and geospatial techniques and technologies. The technologies covered in this course include map and aerial photograph interpretation, tabular data, spatial statistics, cartography, Global Positioning Systems (GPS), automated and web-based mapping, remote sensing, and Geographic Information Systems (GIS), all of which aid in data collection, analysis and presentation. Theories, methods, and ethics within GIS, GPS, remote sensing, cartography, and field work play a central role in this course. This course also highlights how GIS and geospatial analytical tools can address longstanding issues related to economic, environmental, political, racial, and social justice. (This course is also offered as GIS 100).

Transfers to both UC/CSU

C-ID: GEOG 150

GEOG 102 3 Units

Cultural Geography

Lecture: 54 contact hours

Advisory: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Are you fascinated with the enormous diversity of culture, language, religion, economics, politics, urbanization, agriculture, and ethnicity around the world? Have you ever wondered how this developed? Are you concerned about human rights, social justice, climate change, and access to clean drinking water, healthcare, education, and resources? Using the tools of geography, this course will help you to understand how humans interact each other and how humans interact with the environment.

C-ID: GEOG 120

GEOG 106 3 Units

Geographic Perspectives on the Environment

Lecture: 54 contact hours

Advisory: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Within the early decades of the 21st century, the enormous impact of humans on the natural environment is clear. This course provides an introductory study of the latest geographic perspectives of critical environmental issues occurring within and across local, regional, national, and global scales. It creates an awareness of the geography of human-environment relationships, in particular how nature and natural resources are defined, contested, distributed, and consumed. Emphasis is on social, political, cultural, psychological, and economic evaluation of natural resources and associated resource management.

Associate Degree Applicable

Transfers to both UC/CSU

GEOG 110 3 Units**Physical Geography****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

You may have noticed that Earth's atmosphere, life forms, water resources, and landforms vary considerably from one place to another. This class helps you to understand how and why these variations occur, how the environment impacts us humans, and how we humans impact the environment. People from different backgrounds experience environmental impacts differently, so environmental justice is interwoven throughout this course. GEOG 111/GEOG 111H is strongly recommended for students who desire to transfer to CSU/UC. It is recommended that students complete GEOG 111/GEOG 111H within three years of completing GEOG 110.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOG 110**GEOG 111 1 Unit****Physical Geography Laboratory****Lab:** 54 contact hours**Prerequisite/Corequisite:** GEOG 110

In this laboratory companion for the GEOG 110 physical geography lecture course, you will use hands-on, in-class and field-based experiences to better understand and appreciate how and why Earth's atmosphere, life forms, water resources, and landforms vary considerably from one place to another. Because we humans are part of the physical environment, it is important to understand how people from different backgrounds impact the environment and experience environmental impacts differently. This course is recommended for students concurrently enrolled in GEOG 110 or who have successfully completed the course within the last three years. Students should be prepared to participate in one or more off-campus field exercises.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOG 111**GEOG 111H 1 Unit****Physical Geography Laboratory - Honors****Lab:** 54 contact hours**Prerequisite/Corequisite:** GEOG 110

In this laboratory companion for the GEOG 110 physical geography lecture course, you will use hands-on, in-class and field-based experiences to better understand and appreciate how and why Earth's atmosphere, life forms, water resources, and landforms vary considerably from one place to another. Because we humans are part of the physical environment, it is important to understand how people from different backgrounds impact the environment and experience environmental impacts differently. This course is recommended for students concurrently enrolled in GEOG 110 or who have successfully completed the course within the last three years. Students should be prepared to participate in one or more off-campus field exercises. This course is intended for students in the Honors Program but is open to all students who desire more challenging coursework.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOG 111**GEOG 114 4 Units****Weather and Climate****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Do you monitor the daily weather? Are you intrigued by severe weather events like tornadoes, tropical cyclones, blizzards, and flooding rain? This course covers Earth's atmospheric phenomena, with special reference to causes and regional distribution of weather and climate, both past and present. Topics include atmospheric structure and composition, solar radiation and energy balances, temperature, seasonal changes, atmospheric moisture, clouds and fog, precipitation, air pressure, winds, air masses and fronts, cyclones, weather forecasting, climate, and climate change. Emphasis will be given to current environmental topics, including natural and anthropogenic global climate change, air pollution, and environmental justice.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOG 130**GEOG 118 3 Units****California Geography****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

California is an incredibly diverse state. Its cultural, ethnic, socioeconomic, urban, and rural landscapes comprise an endlessly complex and fascinating tapestry. If it were an independent country, its economy would be the fifth-largest in the world. While the California Dream looms large, skyrocketing housing costs, socioeconomic and racial injustice, pervasive drought, and a year-round fire season are making this dream unattainable for many. This course provides a thematic approach to the state's issues, processes, and topics relevant to geography including climate, landforms, natural vegetation, water resources, cultural landscape, ethnic diversity, urban and agricultural regions, and the economy. This course explores the physical, and human landscapes that have evolved as a result of the human-environment interface.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOG 140**GEOG 120 3 Units****World Regional Geography****Lecture:** 54 contact hours**Advisory:** Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Every day, we learn about new and ongoing migration, refugee, environmental, economic, health, and geopolitical crises and conflicts happening somewhere in the world. Therefore, it is important to understand the complex and fascinating spatial interrelationships among our world regions. This course provides an introduction to world regional geography, emphasizing the nature of major cultural regions of the world. Through a comprehensive regional analysis, students will learn social structures, religions, languages, political systems, economics, environmental relationships, transportation networks, population dynamics, and urban development across the globe.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOG 125

GEOG 130 3 Units

Introduction to Geographic Information Systems (GIS)

Lecture: 36 contact hours

Lab: 54 contact hours

Advisory: ECON 208 or MATH 108 or MATH 108H or PSYCH 105 and ENGL 101 or ENGL 101H

How do corporations know where to locate retail stores and restaurants? How do epidemiologists know how to confront epidemics, pandemics, and related disease outbreaks? How does your utility provider know the location of power outages and water leaks? How do demographers create maps based on ethnicity, socioeconomic status, age, gender, religious affiliation, and other population characteristics? The answers to these questions and more are found within Geographic Information Systems (GIS). This course provides an introduction to the fundamentals of Geographic Information Systems (GIS), including the history of automated mapping. It includes a brief introduction to basic cartographic principles, including map scales, coordinate systems and map projections. GIS hardware and software are implemented, as are various applications of GIS technology used in environmental science, business and government. Using automatic mapping software like ArcGIS Online, ArcGIS Pro, ArcMap, and Story Maps, you will create maps that address a variety of local to global issues. (This course is also offered as GIS 130)

Independent Study in Geography

DIR: 54 contact hours

Students with previous course work in Geography may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Geography. Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable

Transfers to CSU only

Geography Associate in Arts for Transfer Degree

This Associate in Arts degree in Geography for Transfer (AA-T) provides a path to students who wish to transfer to a CSU campus in Geography, and it serves the diverse needs of students who wish to obtain a broad and an in-depth understanding of the field. Additionally, this degree allows students to examine the environmental and spatial science of geography, including physical and cultural landscapes across the Earth. Courses in Geography prepare students interested in careers in environmental studies, environmental and social justice, education, engineering, urban planning, politics, law, and architecture.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Geography AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and

- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Anthropology should consult with a counselor regarding the transfer process and lower division requirements.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate expertise in modern cartographic principles, including map interpretation and web applications.
- Integrate fundamentals of sociology, biology, chemistry, physics, geology, and other social and natural sciences within a spatial network of human-environment interactions.
- As knowledgeable consumers of information, apply geographic tools, frameworks, and methods to address human and environmental issues at a variety of geographic scales.
- As citizen scientists, evaluate issues of economic, environmental, racial, and social justice in a variety of geographic settings and scales.

Geography Associate of Science Degree

The Associate of Science Degree in Geography provides a transfer path to four-year baccalaureate degrees, and it serves the diverse needs of students who wish to obtain a broad and an in-depth understanding of the field. Additionally, this degree allows students to examine the environmental and spatial science of geography, including physical and cultural landscapes across the Earth. Courses in Geography prepare students interested in careers in environmental studies, environmental and social justice, education, engineering, urban planning, politics, law, and architecture.

The environmental and spatial science of geography examines physical and human landscapes across the Earth. As a spatial science, physical and human location and patterns on Earth's surface are central to the study of geography. It includes the study of all forces of nature and the consequences of those forces, with an emphasis on human-environment interactions.

Geography integrates multiple physical and social sciences and includes: the nature and interactions of the atmosphere and the land, plants and animals, the Earth's waters, weather, climate, the Earth's dynamic surface, landforms and soil, and the way people have inhabited and altered the Earth by creating various forms of agriculture, language, religion, and cities.

Students planning to transfer to a four-year institution as a geography major should consult with a counselor regarding the transfer process and lower division requirements.

To graduate with a specialization in Geography, students must complete the following required courses plus the general breadth requirements for the Associate Degree (total = 60 units).

Code	Title	Units
Required Courses:

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate expertise in modern cartographic principles, including map interpretation and web applications.
- Integrate fundamentals of sociology, biology, chemistry, physics, geology, and other social and natural sciences within a spatial network of human-environment interactions.
- As knowledgeable consumers of information, apply geographic tools, frameworks, and methods to address human and environmental issues at a variety of geographic scales.
- As citizen scientists, evaluate issues of economic, environmental, racial, and social justice in a variety of geographic settings and scales.

Geology

The Geology Department offers courses, which examine the earth's history, structure, and economic resources. These courses meet the student's need for:

- Planning to transfer to a four-year institution and prepare for a career in geology or related fields,
- Fulfilling the undergraduate general education science requirement, and
- Better understanding the planet on which we live.

Students planning to transfer to a four-year institution and major in geology should consult with a counselor regarding the transfer process and lower division requirements.

GEOL 101 3 Units

Introduction to Physical Geology

Lecture: 54 contact hours

Advisory: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Earth is an amazing place, and for millennia cultures and civilizations have attempted to explain the various topics that relate to our understanding of our blue planet. From the various minerals, rocks, and resources found on it that power our cellphones and televisions to the dramatic features, such as mountains, volcanoes, canyons etc. that shape our landscape. From the consequential natural disasters such as earthquakes that we in California and people around the world deal with on an annual basis to the disproportionate effects of global climate change. In this course we build a fundamental understanding of these topics (and many more) by emphasizing the overarching Theory of Plate Tectonics, the processes that created the continents and the ocean basins, and the internal and external processes that change the landscape and impact the planet in a variety of ways we seek to put ourselves in the context of our planet.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: GEOL 100

GEOL 111 1 Unit**Introduction to Physical Geology Laboratory****Lab:** 54 contact hours**Prerequisite/Corequisite:** GEOL 101

This course is a hands-on introduction to the study of the Earth, with an emphasis on the materials that make up the Earth. Students will participate in one or more field trips. This course is recommended for students concurrently enrolled in GEOL 101 or who have successfully completed GEOL 101 within the last two years.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOL 100L**GEOL 112 4 Units****Historical Geology****Lecture:** 54 contact hours**Lab:** 54 contact hours

Advisory: GEOL 101 and GEOL 111 and eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course reviews the geologic history of the Earth. Specific topics include the planet's origin and chronological processes that produce major continental and oceanic features, plate tectonics, stratigraphy, interpretation of Earth history from rock and fossil records, and the evolutionary development of plant and animal life. Students should anticipate participating in one or more field trips.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOL 111**GEOL 122 3 Units****Environmental Geology****Lecture:** 54 contact hours**Advisory:** GEOL 101 or GEOG 110

This course introduces the relationships among geologic processes, natural resources, and the needs of society. Topics include natural hazards such as earthquakes, landslides, and mudflows; mineral and energy resources; and the particular problems associated with urbanization, resource use, and pollution. Students should anticipate participating in one or more field trips.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOL 130**GEOL 140 3 Units****Earth Science****Lecture:** 54 contact hours

An introduction to the essentials of Earth Science including the geosphere, atmosphere, hydrosphere, and solar system. This course focuses on the interactions between physical and chemical systems of the Earth such as the tectonic cycle, rock cycle, hydrologic cycle, weather, and climate.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOL 120**GEOL 141 1 Unit****Earth Science Laboratory****Lab:** 54 contact hours**Prerequisite/Corequisite:** GEOL 140

In this laboratory component of the GEOL 140 Earth Science lecture course, you will use hands-on, field-based, and in-class experiences to better understand and appreciate the geosphere, atmosphere, hydrosphere, and solar system. This course focuses on the physical and chemical systems of the Earth such as the tectonic cycle, rock cycle, hydrologic cycle, weather, and climate. This course is recommended for students concurrently enrolled in GEOL 140 or who have successfully completed the course within the last three years. Students should be prepared to participate in one or more off-campus field exercises.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOL 120L**GEOL 170 1 Unit****Geological History of the Great Basin Province****Lecture:** 9 contact hours**Lab:** 27 contact hours

Advisory: GEOL 101 or GEOG 110 or GEOL 112 and eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

Students will discuss and observe the physical and historical geology of the Great Basin Province of the United States, with special emphasis on the geology of Death Valley National Park. Coursework will involve a series of lectures leading to a three to four day field trip through the Great Basin in and around Death Valley. Students must attend the field trip for the successful completion of the course. The field trips will emphasize the geological features and anthropological history of the Great Basin Province.

Associate Degree Applicable**Transfers to CSU only****GEOL 222 1-3 Units****Independent Study in Geology****DIR:** 54 contact hours**Prerequisite:** GEOL 101

Students with previous course work in Geology may work on assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Geology. Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only****GEOL 250 3 Units****Geology of California****Lecture:** 54 contact hours

Advisory: GEOL 101 or GEOG 110 and eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course introduces students to the physical and historical geology of California, emphasizing the distinctive geologic features of each of California's twelve geomorphic provinces. Students should anticipate participating in one or more field trips.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** GEOL 200

GEOL 251 3 Units**Geology of the National Parks and Monuments****Lecture:** 54 contact hours**Advisory:** GEOL 101 or GEOG 110 or GEOL 111 or GEOG 111 or GEOG 111H and eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course comprises a study of the geology of selected national parks, monuments, seashores, recreational areas, and other public sites of geologic interest within the United States and its territories. There is an emphasis on the geologic processes that formed these notable sites. Students should anticipate participating in one or more field trips.

Associate Degree Applicable**Transfers to both UC/CSU****GEOL 260 3 Units****Introduction to Field Geology****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** GEOL 101 or GEOL 112**Advisory:** GIS 130 or GEOG 130

This course emphasizes demonstration, discussion, and practice of field investigations of geologic environments. Activities include describing, mapping, and identifying geologic phenomena using traditional and cutting-edge field survey methods. As this is a hands-on course, students will spend time in the field.

Associate Degree Applicable**Transfers to both UC/CSU****GEOL 270 1 Unit****Geology of the Eastern Sierra Nevada****Lecture:** 9 contact hours**Lab:** 27 contact hours**Advisory:** GEOL 101 or GEOL 112 or GEOG 110 and eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This course provides a lecture discussion and field observation of the physical and historical geology of the Eastern Sierra Nevada Province. It includes a three to four day field trip along the boundary between the Sierra Nevada and Basin and Range Provinces. A three to four day field trip demonstrates volcanic, glacial, and other geologic or economic processes. This field trip is required for the successful completion of the course.

Associate Degree Applicable**Transfers to CSU only**

Geology Associate in Science for Transfer Degree

The Associate of Geology for Transfer (AS-T) in Geology is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn this Geology AS-T degree students must meet the following requirements:

- completion of the following major requirements with grades of C or better;
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and

- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Geology should consult with a counselor regarding the transfer process and lower division requirements.

General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		0-3
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Have an understanding of the significance of Plate Tectonics in the overall picture of geologic processes.
- Appreciate the magnitude of geologic time in explaining how the earth has changed over the course of geologic history.
- Recognize important rock-forming minerals; both as mineral samples and as they appear in common rocks.
- Identify the 3 major rock types (Igneous, Sedimentary, and Metamorphic) in field exposures.
- Recognize major land form features and explain what geologic processes were involved in their formation.
- Be prepared to transfer to an accredited 4-year degree granting institution and compete effectively against 'native' students in the same field of study.

Global Studies

In the Global Studies program, students engage a critical, interdisciplinary approach to examine large-scale and interconnected issues facing our world. Drawing on the fields of geography, history, anthropology, economics, and politics, this program helps students develop understanding about global-local relations, the development of global ideas and actors, international challenges, global inequality, and global responsibility. The AA-T in Global Studies is designed for students planning to transfer into majors such as Global Studies, Global Politics, International Relations, International Studies, and Comparative Government. Majoring in Global Studies prepares students to work in the areas of international business, international law, government, sustainability, public health, development for social justice, education, and research, although Global Studies majors may apply their knowledge and skills in a vast range of fields.

GLST 101 3 Units

Introduction to Global Studies

Lecture: 54 contact hours

This course is an introduction to the interdisciplinary field of Global Studies, examining the history of globalization, and economic, political, social, cultural, and ecological processes related to globalization.

Associate Degree Applicable

Transfers to both UC/CSU

GLST 102 3 Units

Global Issues

Lecture: 54 contact hours

Advisory: GLST 101

This course examines the origins, current status, and future trends of major transnational issues confronting the global community. Topics may include population trends, economic development and inequality, basic human needs and human rights, international conflict and security, competition over resources, movements for independence and social justice, environmental issues, and violence. This course focuses on global governance and collective global responsibility.

Associate Degree Applicable

Transfers to both UC/CSU

Global Studies Associate in Arts for Transfer Degree

In the Global Studies program, students engage a critical, interdisciplinary approach to examine large-scale and interconnected issues facing

our world. Drawing on the fields of geography, history, anthropology, economics, and politics, this program helps students develop understanding about global-local relations, the development of global ideas and actors, international challenges, global inequality, and global responsibility. The AA-T in Global Studies is designed for students planning to transfer into majors such as Global Studies, Global Politics, International Relations, International Studies, and Comparative Government. Majoring in Global Studies prepares students to work in the areas of international business, international law, government, sustainability, public health, development for social justice, education, and research, although Global Studies majors may apply their knowledge and skills in a vast range of fields.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Global Studies AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Global Studies should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses:		
GLST 101	Introduction to Global Studies	3
GLST 102	Global Issues	3
List A - Five courses from at least four areas below: (15 units)		
Area 1 - Culture and Society:		
ANTHRO 102	Cultural Anthropology	3
	or ANTHRO 102 Cultural Anthropology - Honors	
HIST 170	World History to 1500	3
HIST 171	World History Since 1500	3
Area 2 - Geography:		
GEOG 102	Cultural Geography	3
GEOG 110	Physical Geography	3
GEOG 120	World Regional Geography	3
GEOG 130	Introduction to Geographic Information Systems (GIS)	3
	or GIS 130 Introduction to Geographic Information Systems (GIS)	
Area 3 - Economics:		
ECON 200	Principles of Macroeconomics	3
	or ECON 200H Principles of Macroeconomics - Honors	
ECON 201	Principles of Microeconomics	3
	or ECON 201H Principles of Microeconomics - Honors	
Area 4 - Politics:		

POLIT 140	Introduction to Comparative Politics	3
POLIT 141	Introduction to World Politics	3
	or POLIT 141H Introduction to World Politics - Honors	
Area 5 - Humanities:		
RELIG 101	Introduction to World Religions	3
SPAN 103	College Spanish III	4
	or SPAN 103H College Spanish III - Honors	
SPAN 104	College Spanish IV	4
SPAN 157	Spanish for Heritage Speakers I	4
SPAN 158	Spanish for Heritage Speakers II	4
Code	Title	Units
Major Total		21
Total Units that may be Double-Counted		12
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		12-14
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Develop an understanding of key concepts in the field of Global Studies and of key processes of globalization related to culture, economics, geography, politics, and history.
- Analyze the interconnectedness of issues facing humans around the world and evaluate global responses.

Heating, Ventilation, Air Conditioning and Refrigeration (HVAC/R)

The Heating, Ventilation, Air Conditioning and Refrigeration Department prepares students for employment in the field of heating, ventilation, air conditioning and refrigeration. The employment opportunities in this field are expected to increase during the next decade due to the need to increase energy efficiencies of this equipment and incorporating building automation network and programming. Air conditioning in offices, stores, hospitals, schools and other non-residential buildings has become commonplace. Refrigeration is also necessary for the production, storage, and marketing of food and other perishables.

HVAC/R 001 4 Units

HVAC/R Fundamentals

Lecture: 54 contact hours

Lab: 54 contact hours

This course covers basic principles of refrigeration, refrigerants, refrigeration components and tools; repair and testing of refrigeration units; and basic brazing and soldering.

Associate Degree Applicable

HVAC/R 002 4 Units

Domestic Mechanical Refrigeration

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite: HVAC/R 001

This course covers principles of refrigeration compression systems, operations and controls, refrigeration and freezer construction, piping and parts layout. Included in the lab work is troubleshooting and servicing domestic refrigeration units.

Associate Degree Applicable

HVAC/R 003 4 Units**Commercial Mechanical Refrigeration****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HVAC/R 001

This course covers theory of compressor construction and operation, principles of all types of refrigerant controls and multi-stage control devices pertaining to commercial and industrial refrigeration including practical lab work.

Associate Degree Applicable**HVAC/R 004 4 Units****Electrical Fundamentals for HVAC/R****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course covers fundamentals of direct and alternating current circuits, test equipment, most common electric motors, wiring and control devices used in modern refrigeration equipment including practical lab work with electrical refrigeration trainers and projects.

Associate Degree Applicable**HVAC/R 005 4 Units****Commercial Electric for HVAC/R****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HVAC/R 001 and HVAC/R 004

This course covers solid state control systems with emphasis on schematic reading and electrical troubleshooting pertaining to refrigeration equipment including practical lab work with electrical refrigeration trainers and projects.

Associate Degree Applicable**HVAC/R 006 4 Units****HVAC/R Air Distribution Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HVAC/R 001

This course covers theory of multiple-stage systems and multiple-control devices with emphasis on condensing and evaporation equipment, heavy duty piping layout, forced-air heating, ventilation, and air conditioning including lab work with refrigeration trainers and projects.

Associate Degree Applicable**HVAC/R 007 3 Units****Welding for HVAC/R****Lecture:** 18 contact hours**Lab:** 108 contact hours

This course covers intensive training in soldering, brazing and welding techniques on copper tubing, steel and dissimilar metals using oxyacetylene and special gas torches as practiced in the refrigeration, HVAC industry including blueprint reading and fabrication.

Associate Degree Applicable**HVAC/R 050C 3 Units****Compressors, Condensers and Cooling Towers****Lecture:** 54 contact hours

This course provides comprehensive instruction on three major components of refrigeration and air conditioning systems, compressors, condensers, and cooling towers. Students gain knowledge of reciprocating, rotary, screw, centrifugal, and scroll compressors, as well as classifications of compressors (open, semi-hermetic, and hermetic). Air condensers, water-cooled condensers, evaporative condensers and cooling towers, and water treatment are also covered.

Associate Degree Applicable**HVAC/R 051C 3 Units****Heating Fundamentals****Lecture:** 54 contact hours

This is one of three courses of a three-semester national training course offered by the Refrigeration Service Engineers Society (RSES) and the North American Technician Excellence (NATE) and is a comprehensive study of compressors, condensers, and accessories. This course is designed to help certify journeymen-level refrigeration technicians and keep their knowledge current.

Associate Degree Applicable**HVAC/R 052C 3 Units****Heating Transfer & Distribution****Lecture:** 54 contact hours

This course introduces the basic principles of heat transfer, radiation, conduction, and convection are explained in detail, along with estimating heat loads for residential structures and the principles of air distribution. Included are lessons related to fans and blowers and instruction on fan laws, fan classifications, centrifugal fans, and fan efficiency.

Associate Degree Applicable**HVAC/R 055C 3 Units****Gas Heating****Lecture:** 54 contact hours

This course explores the concepts of heating with gas. Included in the course are lessons related to combustion chemistry, heating fuels, burners and accessories, burners and components (including natural gas-burning and LP gas-equipment), start-up and combustion efficiency testing, gas burner controls, ignition systems for infrared heaters, gas heating equipment maintenance, troubleshooting, and condensing furnaces.

Associate Degree Applicable**HVAC/R 056C 3 Units****Hot Water Heating****Lecture:** 54 contact hours

This course offers instruction in the principles and theories of hot water heating. Students will learn about hot water boilers and controls, heat transfer units, centrifugal pumps, air controls, hot water specialties, piping methods, pressure drop calculations, zoning, primary/secondary pumping, radiant heating systems, temperature controls, troubleshooting system components, and analysis of system problems.

Associate Degree Applicable**HVAC/R 057C 3 Units****Tools, Controls, and Troubleshooting****Lecture:** 54 contact hours

This course is one of a three-semester national training course offered by the Refrigeration Service Engineers Society (RSES) and the North American Technician Excellence (NATE). It is a comprehensive study of the tools of the trade and control diagnostics with testing instruments. This course is designed to help students seeking journeymen-level certification as refrigeration technicians and keep abreast of current technology.

Associate Degree Applicable**HVAC/R 060C 3 Units****Troubleshooting Refrigeration and A/C Electricity 4****Lecture:** 54 contact hours

This is a one semester course that includes the first of a three-term course offered by the Refrigeration Service Engineers Society (RSES) and is a comprehensive study of troubleshooting HVAC/R electrical circuits. This course is designed to help certify journeymen-level refrigeration technicians and keep their knowledge current.

Associate Degree Applicable

HVAC/R 061C 3 Units**Troubleshooting Refrigeration and A/C Electricity 5****Lecture:** 54 contact hours

This is a one semester course that includes the second of a three-term course offered by the Refrigeration Service Engineers Society (RSES) and is a comprehensive study of troubleshooting HVAC/R electrical circuits. This course is designed to help certify journeymen-level refrigeration technicians and keep their knowledge current.

Associate Degree Applicable**HVAC/R 062C 4 Units****RSES Electricity and Electricity Lab for HVAC/R Technicians****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HVAC/R 060C and HVAC/R 061C

This is a one semester course offered by the Refrigeration Service Engineers Society that includes a hands on lab with emphasis on electrical safety, the fundamentals of electricity, series and parallel circuits, A/C current, magnetism and transformers, relays, contactors, starters, motors and capacitors, compressors, circuit protection devices, and thermostats. Also included are lessons on reading schematics and troubleshooting gas furnaces and split-systems. This course is designed to help certify journeymen-level refrigeration technicians and keep their knowledge current.

Associate Degree Applicable**HVAC/R 065C 3 Units****RSES Technical Institute Heat Pump Training Course Volume I****Lecture:** 54 contact hours

This is a one-semester course that includes the first of two heat pump classes offered by the Refrigeration Service Engineers Society and is a comprehensive introduction to heat pump theory, fundamentals, and includes water-source heat pumps. Students will also study heat pump compressors, flow controls and accessories; heat pump electrical systems and components, thermostats; air-to-air heat pump defrost; supplemental electric heat; fossil fuel backup heat and heat pump piping. Additional subjects include heat pump performance criteria; checks; and procedures. This course is designed to help certify journeymen-level refrigeration technicians and keep their knowledge current.

Associate Degree Applicable**HVAC/R 066C 3 Units****RSES Technical Institute Heat Pump Training Course Volume II****Lecture:** 54 contact hours

This is a one-semester course that includes the second of two heat pump classes offered by the Refrigeration Service Engineers Society, and is an advanced class for heat pump troubleshooting, and includes water-source heat pumps, and water source heat pumps for special applications. Students will study both standard and high-efficiency air-to-air heat pump electrical and refrigerant-side troubleshooting, (both heating, and cooling). Students will also do heat pump load calculations, indoor air distribution, duct design with emphasis on diagnosing airflow problems. Customer relations will also be addressed. This course is designed to help certify journeymen-level refrigeration technicians, and keep their knowledge current.

Associate Degree Applicable**HVAC/R 067C 3 Units****RSES Technical Institute Training Manual 3 Volume I****Lecture:** 54 contact hours

This is the first term class of the two-term Training Manual 3 classes offered by the Refrigeration Service Engineers Society and is a comprehensive introduction to heat pump theory, including water-source heat pumps. Students will also study fans and blowers, economizers, computer room environmental controls, air filtration and distribution, cooling towers, and water treatment. Additional subjects include evaporative condensers, heat transfer coils, and closed-circuit water coolers. These courses are designed to help certify journeymen-level refrigeration technicians and keep their knowledge current.

Associate Degree Applicable**HVAC/R 068C 3 Units****RSES Technical Institute Training Manual 3 Volume II****Lecture:** 54 contact hours

This is the second term class of the two-term Training Manual 3 classes offered by the Refrigeration Service Engineers Society and is a comprehensive introduction to heat pump theory, including water-source heat pumps. Students will also study fans and blowers, economizers, computer room environmental controls, air filtration and distribution, cooling towers, and water treatment. Additional subjects include, evaporative condensers, heat transfer coils, and closed-circuit water coolers. These courses are designed to help certify journeymen-level refrigeration technicians and keep their knowledge current.

Associate Degree Applicable**HVAC/R 098 1-4 Units****Refrigeration Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**HVAC/R 601 Noncredit****HVAC/R Fundamentals****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course covers basic principles of refrigeration, refrigerants, refrigeration components and tools; repair and testing of refrigeration units; and basic brazing and soldering.

Heating, Ventilation, Air Conditioning and Refrigeration Associate of Science Degree

To graduate with a specialization in Heating, Ventilation, Air Conditioning and Refrigeration, students must complete all requirements for the certificate with a grade of C or better plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
HVAC/R 001	HVAC/R Fundamentals	4
HVAC/R 002	Domestic Mechanical Refrigeration	4
HVAC/R 003	Commercial Mechanical Refrigeration	4
HVAC/R 004	Electrical Fundamentals for HVAC/R	4

HVAC/R 005	Commercial Electric for HVAC/R	4
HVAC/R 006	HVAC/R Air Distribution Systems	4
HVAC/R 007	Welding for HVAC/R	3
MATH 102	College Algebra	4
	or TECALC 087 Technical Calculations	

Environmental Protection Agency (EPA) Universal Certification (608)¹

Total Units 31

¹ Students must present a copy of their Environmental Protection Agency (EPA) Universal Certification (608) to the Admissions and Records Office.

Code	Title	Units
------	-------	-------

Recommended Course:

Students are encouraged to take this course to augment their knowledge of air conditioning and heating:

AUTO 056	Automotive Heating and Air Conditioning	4
----------	---	---

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Select and operate the required test equipment and during troubleshooting and repair operations, with an emphasis on safety in use and accuracy in results.
- Analyze, interpret, and trace signal flow diagrams used in signal tracing of complex wiring circuits.
- Effectively communicate with and advise customers and co-workers, both written and orally, regarding the progress of and decisions made concerning test and repair procedures.
- Pass the practice RSES and NATE exam on the theory and procedures of the HVAC/R technology.

Heating, Ventilation, Air Conditioning and Refrigeration Certificate of Achievement

This certificate is designed to prepare students with the necessary knowledge and skills to obtain entry-level employment in the field of heating, ventilation, air conditioning and refrigeration, installing, maintaining, and repairing such systems.

Code	Title	Units

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Select and operate the required test equipment and during troubleshooting and repair operations, with an emphasis on safety in use and accuracy in results.
- Analyze, interpret, and trace signal flow diagrams used in signal tracing of complex wiring circuits.
- Effectively communicate with and advise customers and co-workers, both written and orally, regarding the progress of and decisions made concerning test and repair procedures.
- Pass the practice RSES and NATE exam on the theory and procedures of the HVAC/R technology.

Refrigeration Service Engineer Society (HVAC) Certificate of Achievement

This certificate is designed to prepare students for advanced level of employment. These training courses are aligned with the North American Technician Excellence (NATE) industry organization. Technicians who successfully complete one or more of these courses may receive credit toward renewing their NATE certification.

Code	Title	Units
------	-------	-------

Required Courses:

HVAC/R 050C	Compressors, Condensers and Cooling Towers	3
HVAC/R 051C	Heating Fundamentals	3
HVAC/R 052C	Heating Transfer & Distribution	3
HVAC/R 055C	Gas Heating	3
HVAC/R 056C	Hot Water Heating	3
HVAC/R 057C	Tools, Controls, and Troubleshooting	3
HVAC/R 060C	Troubleshooting Refrigeration and A/C Electricity 4	3

HVAC/R 068C	RSES Technical Institute Training Manual 3 Volume II	3
Total Units		40

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Distinguish between electrical systems, components and circuits by successful interpretation of schematics and diagrams.
- Compare and categorize operation and components of typical refrigeration, heating and humidifying system.
- Distinguish between and demonstrate the ability to correctly use different HVAC/R trade tools and meters.
- Demonstrate safe work practices and use required personal protective equipment.
- Design, build, troubleshoot and service HVAC/R equipment.

Heavy/Medium Duty Truck Technology

The Heavy/Medium Duty Truck Technology program offers students high technology training and skills that may be utilized for immediate employment after certificate completion. Students will receive training in various subjects including brake and suspension, computer-controlled engines, emphasis in electrical and heavy-duty maintenance. Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

HMDT 021 4 Units

Heavy-Duty Truck Engines

Lecture: 54 contact hours

Lab: 54 contact hours

This course covers theory and practical shop work in the repair, operation, and maintenance of heavy-duty industrial truck engines and fuel injection systems including general troubleshooting and diagnostic testing. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable

HMDT 022 4 Units

Heavy-Duty Truck Brakes

Lecture: 54 contact hours

Lab: 54 contact hours

This course covers theory and practical shop work in the construction, operation, and repair of heavy-duty truck brake systems and components including principles of hydraulic and pneumatic brake systems, anti-lock, and computer controlled braking systems used in today's modern heavy-duty trucks and busses.

Associate Degree Applicable

HMDT 023 4 Units**Heavy-Duty Truck Suspension and Steering****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course covers theory and practical shop work in the construction, operation, and repair of heavy-duty truck suspension and steering components including principles of hydraulic and pneumatic steering and suspension systems.

Associate Degree Applicable**HMDT 024 4 Units****Advanced Heavy-Duty Truck Engines****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HMDT 021

This course is an advanced engine rebuilds class that covers theory and practical shop work in the repair, operation, and maintenance of various heavy-duty truck engines. Topics include general troubleshooting and diagnostic testing of engine components and systems found in most engines from a variety of engine manufacturers. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

Associate Degree Applicable**HMDT 026 4 Units****Computer Controlled Truck Engines****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HMDT 064 or AUTO 064

This course covers theory and practical shop work in the repair, operation, and maintenance of computer controlled truck engines. Topics include general troubleshooting and diagnostics using assorted electronic and computerized test equipment on operable computer controlled diesel engines.

Associate Degree Applicable**HMDT 028 4 Units****Heavy-Duty Truck Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HMDT 064 or AUTO 064

This course covers theory and practical shop work in maintenance, air conditioning, Antilock Brake System (ABS), computers, and operations of the heavy-duty truck and bus systems. Course is designed to provide students the needed skills and knowledge to perform advanced level labor tasks in the heavy-duty truck and bus service industry.

Associate Degree Applicable**HMDT 034 4 Units****Heavy/Medium Duty Truck Alternative Fuels****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course provides theory and hands-on experience in the operation, service, inspection, and maintenance of compressed natural gas (CNG) vehicle systems. This course prepares students for the ASE Alternate Fuels Test (F-1).

Associate Degree Applicable**HMDT 035 2 Units****Heavy-Duty Vehicle Automatic Transmissions****Lecture:** 27 contact hours**Lab:** 27 contact hours

This course provides theory and hands-on experience with heavy- and medium-duty automatic transmission operation, construction, service and overhaul procedures.

Associate Degree Applicable**HMDT 040 3 Units****Commercial Driver's License (CDL) DMV Exam Preparation****Lecture:** 54 contact hours**Corequisite:** HMDT 041**Advisory:** HMDT 026 and HMDT 028 and HMDT 035

This class trains student on the fundamentals of driving a Class 8 trucks. Successful completion of this course prepares students to take the written portion of the Commercial Driver's License Class A or B Department of Motor Vehicles (DMV) exam. Topics include diversity and inclusion in trucking, required training on basic vehicle instruments and controls, basic operation of a vehicle, vehicle inspection, hours of service, handling cargo, fatigue awareness, vehicle maintenance and violations, and trip planning.

Associate Degree Applicable**HMDT 041 1 Unit****Commercial Driver's License (CDL) Training Lab****Lab:** 54 contact hours**Prerequisite/Corequisite:** HMDT 040**Advisory:** HMDT 026 and HMDT 028 and HMDT 035

This class prepares students to take the DMV exam. Using a truck simulator, students receive training in truck and trailer backing, parking, docking, and road training needed to drive a Class 8 truck.

Associate Degree Applicable**HMDT 042 2 Units****Zero Emission Heavy Duty Truck****Lecture:** 18 contact hours**Lab:** 54 contact hours

The Zero Emission Heavy-Duty Truck course is to provide students with training in servicing and maintaining battery-electric and hydrogen-fueled vehicles.

Associate Degree Applicable**HMDT 064 4 Units****Auto/Truck Electrical Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours

This course covers basic electrical theory, use of meters, test equipment, wiring diagrams, diagnosis and repair/replacement of major electrical components of automobiles and trucks. Emphasis is placed on diagnosis of starting systems, charging systems, and electrical circuits such as lights and batteries. (This course is also offered as AUTO 064)

Associate Degree Applicable**HMDT 098 1-4 Units****Heavy/Medium Duty Truck Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**HMDT 621 Noncredit****Heavy-Duty Truck Engines****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course covers theory and practical shop work in the repair, operation, and maintenance of heavy-duty industrial truck engines and fuel injection systems including general troubleshooting and diagnostic testing. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

HMDT 622 Noncredit**Heavy-Duty Truck Brakes****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course covers theory and practical shop work in the construction, operation, and repair of heavy-duty truck brake systems and components including principles of hydraulic and pneumatic brake systems, anti-lock, and computer controlled braking systems used in today's modern heavy-duty diesel trucks and busses.

HMDT 623 Noncredit**Heavy-Duty Truck Suspension and Steering****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course covers theory and practical shop work in the construction, operation, and repair of heavy-duty truck suspension and steering components including principles of hydraulic and pneumatic steering and suspension systems.

HMDT 624 Noncredit**Advanced Heavy-Duty Truck Engines****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HMDT 621

This noncredit course is an advanced engine rebuilds class that covers theory and practical shop work in the repair, operation, and maintenance of various heavy-duty truck engines. Topics include general troubleshooting and diagnostic testing of engine components and systems found in most engines from a variety of engine manufacturers. This course may be used in preparation for the Automotive Service Excellence (ASE) National Test.

HMDT 626 Noncredit**Computer Controlled Truck Engines****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HMDT 664

This noncredit course covers theory and practical shop work in the repair, operation, and maintenance of computer controlled truck engines. Topics include general troubleshooting and diagnostics using assorted electronic and computerized test equipment on operable computer controlled diesel engines.

HMDT 628 Noncredit**Heavy-Duty Truck Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** HMDT 664

This noncredit course covers theory and practical shop work in maintenance, air conditioning, Antilock Brake System (ABS), computers, and operations of the heavy-duty truck and bus systems. Course is designed to provide students the needed skills and knowledge to perform advanced level labor tasks in the heavy-duty truck and bus service industry.

HMDT 634 Noncredit**Heavy/Medium Duty Truck Alternative Fuels****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course provides theory and hands-on experience in the operation, service, inspection, and maintenance of compressed natural gas (CNG) vehicle systems. This course prepares students for the ASE Alternate Fuels Test (F-1).

HMDT 635 Noncredit**Heavy-Duty Vehicle Automatic Transmissions****Lecture:** 27 contact hours**Lab:** 27 contact hours

This noncredit course provides theory and hands-on experience with heavy - and medium - duty automatic transmission operation, construction, service and overhaul procedures.

HMDT 640 Noncredit**Commercial Driver's License (CDL) DMV Exam Preparation****Lecture:** 54 contact hours**Advisory:** HMDT 626 and HMDT 628 and HMDT 635

This noncredit class trains students on the fundamentals of driving a Class 8 truck. Successful completion of this course prepares students to take the written portion of the Commercial Driver's License Class A or B Department of Motor Vehicles (DMV) exam. Topics include diversity and inclusion in trucking, required training on basic vehicle instruments and controls, basic operation of a vehicle, vehicle inspection, hours of service, handling cargo, fatigue awareness, vehicle maintenance and violations, and trip planning. This course may also be offered for credit as HMDT 040.

HMDT 641 Noncredit**Commercial Driver's License (CDL) Training Lab****Lab:** 54 contact hours**Prerequisite/Corequisite:** HMDT 640**Advisory:** HMDT 626 and HMDT 628 and HMDT 635

This noncredit class prepares students to take the DMV exam. Using a truck simulator, students receive training in truck and trailer backing, parking, docking, and road training needed to drive a Class 8 truck. This course may also be offered for credit as HMDT 041.

HMDT 664 Noncredit**Auto/Truck Electrical Systems****Lecture:** 54 contact hours**Lab:** 54 contact hours

This noncredit course covers basic electrical theory, use of meters, test equipment, wiring diagrams, diagnosis and repair/replacement of major electrical components of automobiles and trucks. Emphasis is placed on diagnosis of starting systems, charging systems, and electrical circuits such as lights and batteries.

Commercial Driver's License (CDL) Orientation and Training Certificate of Achievement

This certificate is designed to provide students with the fundamentals and responsibilities involved with a Class A license, as it applies to the industry. It prepares students for what is expected with the everyday maintenance, field service, and networking within the industry and covers intrastate and interstate requirements of truck driving. Students will be prepared to take the DMV written test and practice driving a Class A truck with the use of truck simulators.

Code	Title	Units
Required Courses:		
HMDT 026	Computer Controlled Truck Engines	4
HMDT 028	Heavy-Duty Truck Systems	4
HMDT 035	Heavy-Duty Vehicle Automatic Transmissions	2
HMDT 040	Commercial Driver's License (CDL) DMV Exam Preparation	3

HMDT 041	Commercial Driver's License (CDL) Training Lab	1
Total Units		14

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Complete maintenance service logs and service documents.
- Read maps.
- Explain the details that go into planning a trip.
- Prepare a drivers inspection report detecting preventive maintenance problems.
- Apply hooking and unhooking trailers practices.
- Perform all necessary adjustments, demonstrate sequential steps taken in inspection and maintenance heavy-duty truck brake systems, fuel systems, transmission maintenance and inspection and log material in a manner consistent with industry standards.
- Recognize the types of fuel and the fuel system and tune-up problems using various electronic test equipment.
- Perform routine servicing of heavy-duty vehicles by evaluating equipment conditions and successfully and safely removing and replacing tires and other equipment in a manner consistent with industry practices and safety standards.

Heavy/Medium Duty Truck Technology Certificate of Achievement

This certificate is designed to prepare students for entry-level positions for the repair and maintenance of heavy and medium duty engines in trucks, locomotives, heavy vehicles, and mobile heavy-duty equipment.

Code	Title	Units
Required Courses:		
HMDT 021	Heavy-Duty Truck Engines	4
HMDT 022	Heavy-Duty Truck Brakes	4
HMDT 023	Heavy-Duty Truck Suspension and Steering	4
HMDT 024	Advanced Heavy-Duty Truck Engines	4
HMDT 026	Computer Controlled Truck Engines	4
HMDT 028	Heavy-Duty Truck Systems	4
HMDT 064	Auto/Truck Electrical Systems	4
or AUTO 064	Auto/Truck Electrical Systems	
Total Units		28

Code	Title	Units
Recommended Course:		
HMDT 098	Heavy/Medium Duty Truck Work Experience	1-4

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Diagnose and repair malfunctions in electrical systems and components
- Disassemble, inspect and repair parts, which are reusable in a manner consistent with accepted trade practices and assemble a diesel engine in accordance with manufacturer instructions and specifications
- Perform all necessary adjustments, demonstrate sequential steps taken in diagnosing heavy-duty truck brake systems and remove and replace components in a manner consistent with industry standards
- Diagnose heavy-duty truck suspension and steering systems and remove and replace components in a manner consistent with industry standards
- Diagnose the fuel system and tune-up problems using various electronic test equipment. Remove and replace components in a manner consistent with industry standards
- Perform routine servicing of heavy-duty vehicles by evaluating equipment conditions and successfully and safely removing and replacing tires and other equipment in a manner consistent with industry practices and safety standards
- Troubleshoot a truck electrical system failure, diagnose the cause and correctly repair that failure in accordance with accepted industry standards

Heavy/Medium Duty Clean Vehicle Technology Associate of Science Degree

The Heavy/Medium Duty Clean Vehicle Technology A.S. degree is designed to provide students with the fundamentals of alternative fuel and electric vehicle technology as it applies to the industry. The curriculum prepares students for entry-level positions in Heavy-Duty Truck and electrical maintenance, field service, and networking, in the field of Hybrid/Alternative fuel to include electrical power technology.

Code	Title	Units
Required Courses:		
AUTO 010	Introduction to Hybrid and Electric Vehicle Technology	4
ELECTR 110	Direct Current Circuit Analysis	3
ELECTR 111	Direct Current Circuit Laboratory	1
ELECTR 115	Alternating Current Circuit Analysis	3
ELECTR 116	Alternating Current Circuit Laboratory	1
TECALC 087	Technical Calculations	4
HMDT 034	Heavy/Medium Duty Truck Alternative Fuels	4
HMDT 042	Zero Emission Heavy Duty Truck	2
Total Units		22

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze, diagnose, and repair malfunctions in electrical systems and components of alternative fuel systems.
- Inspect, disassemble, and repair parts, which are reusable in a manner consistent with accepted trade practices.
- Inspect and assemble a truck engine and/or a Direct Current (DC) or Alternating Current (AC) electric motor in accordance with manufacturer instructions and specifications.
- Analyze and perform routine servicing of heavy-duty vehicles by evaluating equipment conditions successfully in a manner consistent with industry practices and safety standards.
- Inspect and troubleshoot an electrical system failure, diagnose the cause and correctly repair that failure in accordance with accepted industry standards.

Heavy/Medium Duty Clean Vehicle Technology Certificate of Achievement

This Heavy/Medium Duty Clean Vehicle Technology certificate is designed to provide students with the fundamentals of alternative fuel and electric vehicle technology as it applies to industrial. The curriculum prepares students for entry-level positions in Heavy-Duty Truck and electrical maintenance, field service, and networking, in the field of Hybrid/Alternative fuel to include electrical power technology.

Code	Title	Units
Required Courses:		
AUTO 010	Introduction to Hybrid and Electric Vehicle Technology	4

HMDT 034	Heavy/Medium Duty Truck Alternative Fuels	4
Total Units		22

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze, diagnose, and repair malfunctions in electrical systems and components of alternative fuel systems.
- Inspect, disassemble, and repair parts, which are reusable in a manner consistent with accepted trade practices.
- Inspect and assemble a truck engine and/or a Direct Current (DC) or Alternating Current (AC) electric motor in accordance with manufacturer instructions and specifications.

- Analyze and perform routine servicing of heavy-duty vehicles by evaluating equipment conditions successfully in a manner consistent with industry practices and safety standards.
- Inspect and troubleshoot an electrical system failure, diagnose the cause and correctly repair that failure in accordance with accepted industry standards.

Heavy/Medium Duty Truck Engine and Fuel Injection Technology Certificate of Achievement

The Heavy/Medium Duty Engine and Fuel Injection Technology Certificate of Achievement provides students with cutting-edge training and practical skills for immediate job opportunities. It encompasses training in repairing, operating, and maintaining heavy-duty industrial engines and computer-controlled engines. The curriculum also includes fundamental electrical theory, meter usage, testing equipment, wiring diagrams, troubleshooting, and diagnostic testing. The certificate may also be used in preparation for the Automotive Service Excellence (ASE) National Test.

Code	Title	Units
Required Courses:		
HMDT 021	Heavy-Duty Truck Engines	4
HMDT 024	Advanced Heavy-Duty Truck Engines	4
HMDT 028	Heavy-Duty Truck Systems	4
HMDT 034	Heavy/Medium Duty Truck Alternative Fuels	4
HMDT 064	Auto/Truck Electrical Systems	4
Total Units		20

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Inspect, diagnose, and repair heavy-duty industrial truck engines, computer-controlled truck engines, and alternative fuel truck engines.
- Analyze and identify basic electrical theories, using of meters and other test equipment.
- Analyze and perform routine servicing of heavy-duty vehicle engines by evaluating equipment conditions.

Heavy/Medium Duty Truck Engine and Fuel Injection Technology Certificate of Completion

The Heavy/Medium Duty Truck Engine and Fuel Injection Technology noncredit certificate offers students high technology training and skills that may be utilized for immediate employment after certification completion. Students will receive training in various subjects including repair, operation and maintenance of heavy-duty industrial diesel engines and computer controlled diesel engines. The certificate will also cover basic electrical theory, use of meters, test equipment, and wiring diagrams. The certificate

also covers general troubleshooting and diagnostic testing. The certificate may also be used in preparation for the Automotive Service Excellence (ASE) National Test.

Code	Title	Units
Required Courses:		
HMDT 621	Heavy-Duty Truck Engines	0
HMDT 624	Advanced Heavy-Duty Truck Engines	0
HMDT 628	Heavy-Duty Truck Systems	0
HMDT 634	Heavy/Medium Duty Truck Alternative Fuels	0
HMDT 664	Auto/Truck Electrical Systems	0
Total Hours		480-540

Program Learning Outcomes

At the completion of this program, students will be able to:

- Diagnose, repair, operation and maintenance of heavy-duty industrial diesel engines and computer controlled diesel engines and alternative fuel (CNG).
- Have the understanding and knowledge to cover basic electrical theory, use of meters, test equipment, and wiring diagrams.
- Prepare to take the the Automotive Service Excellence (ASE) National Test.
- Perform routine servicing of heavy-duty vehicle engines by evaluating equipment conditions and successfully in a manner consistent with industry practices and safety standards.

Heavy/Medium Duty Truck Technology Associate of Science Degree

The Heavy/Medium Duty Truck Technology degree prepares the students to seek employment in maintenance and repair of heavy/medium duty trucks at beginning level and can move to advanced level after some experience.

Code	Title	Units

HMDT 098	Heavy/Medium Duty Truck Work Experience	1-4
WELD 010	Introduction to Welding	2

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Diagnose and repair malfunctions in electrical systems and components.
- Disassemble, inspect and repair parts, which are reusable in a manner consistent with accepted trade practices and assemble a diesel engine in accordance with manufacturer instructions and specifications.
- Perform all necessary adjustments, demonstrate sequential steps taken in diagnosing heavy-duty truck brake systems and remove and replace components in a manner consistent with industry standards.
- Diagnose heavy-duty truck suspension and steering systems and remove and replace components in a manner consistent with industry standards.
- Diagnose the fuel system and tune-up problems using various electronic test equipment's and remove and replace components in a manner consistent with industry standards.
- Perform routine servicing of heavy-duty vehicles by evaluating tire and other equipment conditions and successfully and safely removing and replacing tires and other equipment in a manner consistent with industry practices and safety standards.
- Troubleshoot a truck electrical system failure, diagnose the cause and correctly repair that failure in accordance with accepted industry standards.
- Be prepared to transfer a core curriculum to an accredited, four-year college or university with junior class standing.

History

Courses in the History Department explore the past in a variety of ways. Through a critical evaluation of the causes and significance of events in the past, students of history learn about the individuals, ideas, actions, and events that have shaped our present. History teaches students to think critically and to communicate their ideas in a more sophisticated fashion. It promotes an understanding of cultures and societies from the past while it helps students consider their own identities in the world of today. While the study of history is valuable in its own right, it also serves as a useful preparation for careers in law, public service, journalism, business, medicine, and education.

Students planning to transfer to a four-year institution and major in history should consult with a counselor regarding the transfer process and lower division requirements. History department courses may meet both Social Science and Humanities general education requirements at UC, CSU, and private colleges and universities.

Courses for CSU General Education Requirement: U.S. History and American Ideals

Students transferring to CSU institutions will need to meet the United States History and American Ideals requirement. While this is not part of CSU-GE Certification, students can be complete this requirement prior to transfer by completing one of the courses below. Contact a counselor for additional information.

- History Associate in Arts for Transfer Degree (p. 258)

HIST 100 3 Units

United States History to 1877

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course provides a general survey of United States history with an emphasis on political, economic, social, and cultural developments from the pre-Colonial period through the Civil War and Reconstruction period.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: HIST 130

HIST 100H 3 Units

United States History to 1877 - Honors

Lecture: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H

This course provides a general survey of United States history, including the use of selected primary texts, with an emphasis on political, economic, social, and cultural developments from the pre-Colonial period through the Civil War and Reconstruction period. This course is intended for students in the Honors Program but is open to all students who desire more challenging work.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: HIST 130

HIST 101 3 Units

United States History: 1865 to Present

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course covers a general survey of United States history with an emphasis on social, political, cultural and economic developments from the Reconstruction period to present times.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: HIST 140

HIST 101H 3 Units

United States History: 1865 to Present - Honors

Lecture: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H

This course covers a general survey of United States history, including the use of selected primary texts, with an emphasis on social, political, cultural and economic developments from the Reconstruction period to present times. This course is intended for students in the Honors Program but is open to all students who desire more challenging work.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: HIST 140

HIST 107 3 Units

Native American Experiences in U.S. History

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course is a history of Native Americans in the region of the current day United States from the time preceding European colonialism to the present. The course content will be presented from a Native American perspective, emphasizing colonialism, removal, assimilation, termination, and self-determination. (This course is also offered at ETHS 107)

Associate Degree Applicable

Transfers to both UC/CSU

HIST 107H 3 Units**Native American Experiences in U.S. History - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a history of Native Americans in the region of the current day United States from the time preceding European colonialism to the present. The course content will be presented from a Native American perspective, emphasizing colonialism, removal, assimilation, termination, and self-determination. This course is intended for students in the Honors Program, but is open to all students who desire more challenging work. (This course is also offered as ETHS 107H)

Associate Degree Applicable**Transfers to both UC/CSU****HIST 137 3 Units****Experiences of Racial and Ethnic Groups in U.S. History****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to United States history focusing on the experiences of racial and ethnic groups that spans from the early colonial period to present times. This course presents a comparative approach to understanding various racial and ethnic groups and their experiences through major social, political, economic, and cultural events in United States history.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SJS 110**HIST 138 3 Units****The African American Experience in U.S. History to 1877****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

As a general survey of the African-American experience in United States history to 1877, this course will analyze and detail the creation and development of African-American culture. This course examines key historical events and movements, such as the Atlantic slave trade, colonial and antebellum slavery, slave resistance, and the socio-economic conditions of free Blacks in the United States.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 139 3 Units****The African American Experience in U.S. History From 1877****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course will emphasize the various social, political, and economic forces that have shaped the African American experience from Reconstruction to the current time period. Topics include the post Reconstruction South, the Great Migration, the Harlem Renaissance, the Civil Rights Movement, the conservative backlash, and the trials and triumphs of the 21st century.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 140 3 Units****Chicano Experiences in U.S. History****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a history of Chicanos in the region of the current day United States from the time preceding European colonialism to the present. The course content will be presented from a Chicano perspective, emphasizing colonialism, assimilation, discrimination, patterns of racist policies, cultural affirmation, and resistance.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 140H 3 Units****Chicano Experiences in U.S. History - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a history of Chicanos in the region of the current day United States from the time preceding European colonialism to the present. The course content will be presented from a Chicano perspective, emphasizing colonialism, assimilation, discrimination, patterns of racist policies, cultural affirmation, and resistance. This course is intended for students working in the Honors Program, but is open to all students who desire more challenging work.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 142 3 Units****Experiences of Asian Americans in U.S. History****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course provides a survey of United States history from the Asian American perspective, with an emphasis on the 1840s to the 21st century. The course content will be presented from an Asian American perspective, emphasizing the various waves of Asian migration, labor exploitation, anti-immigrant movements, racist governmental policies, and the Model Minority status.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 145 3 Units****History of California****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course surveys the rich heritage of California from its earliest inhabitants and Spanish/Mexican settlements to the present. An emphasis will be placed on the impact of the ethnic and cultural diversity of California along with the importance of geography and immigration. Other topics will include political, economic, and social development of the region from the early 19th century to the present.

Associate Degree Applicable**Transfers to both UC/CSU**

HIST 145H 3 Units**History of California - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course surveys the rich heritage of California from its earliest inhabitants and Spanish/Mexican settlements to the present. An emphasis will be placed on the impact of the ethnic and cultural diversity of California along with the importance of geography and immigration. Other topics will include political, economic, and social development of the region from the early 19th century to the present. This course is intended for students in the Honors Program, but is open to all students who desire more challenging work.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 150 3 Units****Introduction to Latin American History****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course studies the historical heritage of Latin America from its Indian, European and African origins to present. Course material is presented in chronological order with themes ranging from social, political, and cultural developments, to poverty, international conflicts, and race relations.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 170 3 Units****World History to 1500****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course covers the development of human societies from their origins to 1500. Particular emphasis placed on a comparative approach between the world's major civilizations, including an examination of social structure and daily life, evolution of complex political systems, cultural values and economic developments.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** HIST 150**HIST 171 3 Units****World History Since 1500****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a survey of world history from 1500 to present. There is a comparative approach to the study of specific themes including political, social, and economic change, as well as religious and cultural development.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** HIST 160**HIST 176 3 Units****Comparative History of Genocide and War Crimes****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course teaches the comparative history of genocide and war crimes during the 20th and 21st centuries. Students will study the phenomenon in a cross-cultural framework and will learn about the various socio-cultural and political organizations that have combatted genocide and rendered it a criminal act under international law.

Associate Degree Applicable**Transfers to both UC/CSU****HIST 185 3 Units****Women in United States History****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course provides a general survey of the role of women in United States history, with an emphasis on relevant political, economic, and social factors. There will be an emphasis on how women challenged traditional roles and expectations, as well as their vast contributions to war efforts, reform movements, and the fight for social justice.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SJS 120

History Associate in Arts for Transfer Degree

Historians critically evaluate the causes and significance of events in the past to better understand the individuals, ideas, actions, and events that have shaped our present. The work of historians promotes a better understanding of cultures and societies from the past. While the study of history is valuable in its own right, it also serves as a useful preparation for careers in law, archival work, public service, education, journalism, and business.

This history degree includes foundational coursework in United States History and World History, with additional coursework in specialized history courses and/or introductory social science courses. Students will be prepared to successfully complete upper division coursework in history, and related disciplines, having completed this history degree. Students should consult with a counselor to determine whether this degree is the best option for their transfer goals.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn this History AA-T degree, students must:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in History should consult with a counselor regarding the transfer process and lower division requirements.

Total Units That May Be Double Counted		12-15
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		15-20
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify and explain the historical significance of key events or movements.
- Critically evaluate and interpret key themes in social, cultural, political, and/or economic movements.
- Applying primary and secondary sources in research.
- Analyze competing historical interpretations.

Human Services

The department of Human Services offers several options for students wanting to enter the helping professions. The department is considered interdisciplinary, offering CTE certificates only for those who are entering the workforce in specific entry level positions, a Human Services AA degree for those who are preparing to transfer for careers requiring a BA or Masters level degree, or a combination of both a certificate and degree.

The Alcohol and Drug Certificate is accredited by California Alcohol and Drug Educators, CAADE, an organization that accredits college program curriculum to align with state standards. This certificate is also recognized by the Department of Health Care Services, DHCS, as the first of 3 steps in acquiring state certification.

The 3 steps for Alcohol and Drug Certification in the state of California as outlined in title 9 of the counselor regulations by the DHCS are as follows:

- Complete a certification program and receive certificate, this includes registering with one of the state approved certification bodies, CAADE, CCAPP, or CADTP
- Complete the state exam given by the certification body
- Complete 2500-3000 hours of supervised, (by clinical counselor with an AOD certification, in a DHCS licensed facility

Upon enrolling in the certificate program, the department suggests meeting with the faculty chair or professional expert in the department of Human Services to understand the process of state certification and the jobs open for alcohol and drug counselors at every level of certification and / or degree.

HUMSV 098 1-4 Units

Human Services Work Experience Experience

WRKEX: 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

HUMSV 130 3 Units

Introduction to Addiction Studies: Drugs, Health, and Society

Lecture: 54 contact hours

Advisory: READ 100 and ENGL 101 or ENGL 101H

This course provides an exploration of the psychological, sociological, and physical causes and effects of substance use disorder. Also included are overviews of the biopsychosocial nature of addiction; the impact of addiction on children, families and society; contemporary treatment and prevention approaches; and the addiction counseling profession.

Associate Degree Applicable

Transfers to CSU only

C-ID: PHS 103

HUMSV 131 3 Units

Co-Occur Disorders

Lecture: 54 contact hours

Advisory: READ 100 and ENGL 101 or ENGL 101H

This course reviews the major concepts, definitions, and features of co-occurring mental health disorders associated with addiction. Skills in recognizing co-occurring disorders, referral and case management of clients, and appropriate scope of practice are emphasized. Common types of mental health issues associated with addiction, including mood, anxiety, and adjustment disorders, post-traumatic stress disorder, and unresolved issues of childhood abuse, are covered as well as an overview of appropriate treatment and management approaches.

Associate Degree Applicable

Transfers to CSU only

HUMSV 132 3 Units

Diverse Populations

Lecture: 54 contact hours

Advisory: READ 100 and ENGL 101 or ENGL 101H

This course explores the cultural impact of race, nationality, gender, sexual orientation, age, socio-economic status, and religion on substance use and access to treatment. The course will provide exposure to the fundamentals of cross-cultural counseling of individuals and families with substance use disorders, and common cultural barriers to traditional dependency counseling are examined.

Associate Degree Applicable

Transfers to CSU only

HUMSV 133 3 Units

Pharmacology

Lecture: 54 contact hours

Advisory: HUMSV 130

The biological impact of alcoholism and other drug dependencies, with an emphasis on the treatment and recovery processes, and the role of medical professionals as members of the recovery team are reviewed in this course.

Associate Degree Applicable

Transfers to CSU only

HUMSV 134 3 Units**Family Dynamics of Addiction****Lecture:** 54 contact hours**Advisory:** READ 100 and ENGL 101 or ENGL 101H

This course offers an overview of family dynamics associated with alcoholism and drug addiction; the impact of the diseases on family members; family oriented approaches to recovery; and the reintegration of the family into the community.

Associate Degree Applicable**Transfers to CSU only****HUMSV 135 3 Units****Prevention, Intervention and Recovery****Lecture:** 54 contact hours**Advisory:** READ 100 and ENGL 101 or ENGL 101H

This course provides a comprehensive overview of theories and strategies for the prevention of substance use disorders. Primary, secondary, and tertiary and evidence-based prevention models will be introduced and assessed. Prevention programs and activities appropriate for the community, school, parents and family, and work-sites will be covered. Strategies such as education, public policies, media/information dissemination, ethnic, cultural, and gender-specific approaches, environmental risk reduction, and alternatives will be presented and assessed for their application to different target populations.

Associate Degree Applicable**Transfers to CSU only****HUMSV 136 3 Units****Addiction Studies: Basic Counseling I****Lecture:** 54 contact hours**Prerequisite:** HUMSV 130 and HUMSV 179

This course is designed for students seeking a certificate in Addiction Studies. Included topics are the dynamics of the helping relationship, analysis and implications of common characteristics of substance dependent individuals, demonstration and practice of assessment, interviewing and referral techniques; and review of counseling skills and case management.

Associate Degree Applicable**Transfers to CSU only****HUMSV 137 3 Units****Addiction Studies: Group Counseling II****Lecture:** 54 contact hours**Prerequisite:** HUMSV 136 and HUMSV 230 and HUMSV 232

This course is designed for students seeking a certificate in Addiction Studies, and includes practical implications and experience in various recovery and crisis intervention modalities; investigation of and experience in group dynamics; analysis and interpretation of critical aspects of counseling; analysis of the role of significant others in the recovery process; discussion of current treatment interventions; and the process of case management and record keeping.

Associate Degree Applicable**Transfers to CSU only****HUMSV 140 3 Units****Case Management in Public Service****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

This course provides an overview of the history, theories, skills and knowledge of case management in public social service settings. Topics include organizational structure, funding streams, regulatory issues, job descriptions, skills, personal qualities, evaluation, assessment and referral, employment services, and career paths. It is designed for students entering into the field of case management in public service.

Associate Degree Applicable**Transfers to CSU only****HUMSV 147 3 Units****Career Specialist****Lecture:** 54 contact hours**Advisory:** READ 100 and ENGL 101 or ENGL 101H

This course provides an introduction to the field of career counseling including interviewing techniques, assessment tools, job opportunities and models for developing occupational options.

Associate Degree Applicable**Transfers to CSU only****HUMSV 167 3 Units****Crisis Intervention****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

The course examines the history and definitions of crisis intervention. Practical application of intervention theories and models, interviewing techniques, referral procedures, and assessment are explained and demonstrated. Analysis of types of crises such as suicide, substance abuse and violence in the workplace; common dangers; and coping methods will be presented. Professional issues including legal and ethical issues, confidentiality, cultural sensitivity and burn out are also covered.

Associate Degree Applicable**Transfers to CSU only****HUMSV 170 3 Units****Introduction to Social Work and Human Services****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

An introduction to the social work and human service professions and social welfare within American society. Study of the history of social work and human services, roles and responsibilities of the social worker and a human service practitioner, including professional code of ethics governing these professions, the principles of social work practice and theoretical perspectives of human services in response to social problems. To build an appreciation of diversity and an understanding of marginalized and under-privileged and under-served populations in our society.

Associate Degree Applicable**Transfers to CSU only****HUMSV 172 3 Units****Group and Family Dynamics****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

This course offers a comprehensive study of the dynamics operating in groups and families including the identification of healthy versus dysfunctional groups/families; methods of intervention in dysfunctional groups/families; and the techniques of facilitating treatment groups.

Associate Degree Applicable**Transfers to CSU only**

HUMSV 173 3 Units**Helping and Interpersonal Skills****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

This course offers a practical study of helping strategies and interpersonal skills. The focus is on the use of techniques to improve communication, better evaluate relationships, and resolve conflicts.

Associate Degree Applicable**Transfers to CSU only****HUMSV 179 3 Units****Law and Ethics****Lecture:** 54 contact hours**Advisory:** READ 100 and ENGL 101 or ENGL 101H

This course explores the legal, ethical, professional and personal issues involved in the treatment of substance use disorder. Emphasis is placed on professional responsibility and patient rights as well as issues of the work place and professional growth.

Associate Degree Applicable**Transfers to CSU only****HUMSV 195A 1 Unit****Social Work and Human Services Seminar I****Lecture:** 18 contact hours**Prerequisite:** HUMSV 170 and HUMSV 172 and HUMSV 173 and HUMSV 179**Corequisite:** HUMSV 198C

This course provides students participating in a supervised field experience in a community organization, agency, or institution with weekly class meetings that provide the academic element to the experiential course offering. Students will learn and identify applied strategies for crisis intervention, case analysis, and therapeutic interventions while giving them the opportunity to develop skills that will facilitate gaining employment in social work settings or human service fields.

Associate Degree Applicable**Transfers to CSU only****HUMSV 195B 1 Unit****Human Services: Intern Seminar II****Lecture:** 18 contact hours**Corequisite:** HUMSV 198C or HUMSV 198D or HUMSV 198F

This course provides an evaluation and application of applied strategies for crisis intervention, case analysis, and therapeutic interventions, and serves as a lecture-based foundation for student field work. STUDENTS MUST ALSO TAKE THE WORK EXPERIENCE CLASS THAT MATCHES THEIR CERTIFICATE GOAL (HUMSV 198 A-Z).

Associate Degree Applicable**Transfers to CSU only****HUMSV 198C 2 Units****Social Work and Human Services Fieldwork I****WRKEX:** 120 contact hours**Prerequisite:** HUMSV 170 and HUMSV 172 and HUMSV 173 and HUMSV 179**Corequisite:** HUMSV 195A

This course offers students supervised field experience in a community organization, agency, or institution, allowing the student to apply knowledge and learn new skills outside of the classroom environment. This course is designed to provide the student with an opportunity to observe, practice, and develop skills that would facilitate gaining employment in social work settings or human services fields.

Associate Degree Applicable**Transfers to CSU only****HUMSV 198D 2.5 Units****Human Services Fieldwork II****WRKEX:** 150 contact hours**Prerequisite:** HUMSV 198C**Corequisite:** HUMSV 195A or HUMSV 195B

This course provides supervised field work in the area of Human Services at specific agencies. Students work in their assigned agencies for approximately 10 hours per week.

Associate Degree Applicable**Transfers to CSU only****HUMSV 198F 2.5 Units****Case Management Fieldwork****WRKEX:** 150 contact hours**Prerequisite:** HUMSV 140 and HUMSV 167 and HUMSV 170 or HUMSV 173**Advisory:** HUMSV 195A or HUMSV 195B

Supervised field work in the area of case management at specific agencies is provided to students. Students work in their assigned agencies for approximately 10 hours per week.

Associate Degree Applicable**Transfers to CSU only****HUMSV 230 1 Unit****Addiction Studies: Internship Seminar I****Lecture:** 18 contact hours**Corequisite:** HUMSV 232

This course is an introduction to the duties and work objectives of counselors in addiction studies and related fields. Basic skills are developed through discussion and demonstration. This course serves as a lecture-based support for students in fieldwork.

Associate Degree Applicable**Transfers to CSU only****HUMSV 231 1 Unit****Addiction Studies: Internship Seminar II****Lecture:** 18 contact hours**Corequisite:** HUMSV 233

This course reviews job skills such as case management, assessment, and counseling. These skills are monitored and enhanced through class discussion and demonstration in this lecture-based foundation to the student field work.

Associate Degree Applicable**Transfers to CSU only****HUMSV 232 2.5 Units****Addiction Studies: Fieldwork I****WRKEX:** 150 contact hours**Corequisite:** HUMSV 230

This course provides supervised field work in the areas of orientation, screening, goal setting and evaluation, and the beginning techniques of alcohol and drug counseling at specific agencies. Students work in their assigned agencies for approximately 10 hours per week.

Associate Degree Applicable**Transfers to CSU only**

HUMSV 233 2.5 Units**Addiction Studies: Fieldwork II**

WRKEX: 150 contact hours

Corequisite: HUMSV 231

This course provides supervised field work in the areas of on the job skills such as treatment planning, intake and assessment and facilitation of groups in the field of alcohol and drug counseling at specific agencies. Students work in their assigned agencies for approximately 10 hours per week.

Associate Degree Applicable**Transfers to CSU only****HUMSV 281AXZ 1-3 Units****Selected Studies in Alcohol/Drug****Lecture:** 18 contact hours

This experimental course explores addictions in the areas of Human Services, Alcohol/Drug Counseling, Mental Health, Human Development, and Corrections. Suggested subjects include codependency, driving under the influence, co-occurring disorders, tobacco addiction, and assessment instruments, etc.

Associate Degree Applicable**Transfers to CSU only****HUMSV 601 Noncredit****Family Violence****Lecture:** 36 contact hours

This noncredit course provides a study of historical, psychological, sociological, and legal aspects of violence within the family system through the perspective of the helping professions with a sensitivity to ethnicity, gender, sexuality, and marginalized communities. This course will explore interventions, and referral of families experiencing violence.

Addiction Studies Certificate of Achievement

This certificate is designed to provide students with career preparation at the vocational certificate level in the field of substance abuse intervention and counseling for those preparing for careers in substance use disorder counseling or other related human or social services fields.

Code	Title	Units
Required Courses:		
HUMSV 130	Introduction to Addiction Studies: Drugs, Health, and Society	3
HUMSV 131	Co-Occur Disorders	3
HUMSV 132	Diverse Populations	3
HUMSV 133	Pharmacology	3
HUMSV 134	Family Dynamics of Addiction	3
HUMSV 135	Prevention, Intervention and Recovery	3
HUMSV 140	Case Management in Public Service	3
HUMSV 179	Law and Ethics	3
One course from the following:		
HUMSV 170	Introduction to Social Work and Human Services	3
ANTHRO 102	Cultural Anthropology	3
	or ANTHRO 102 Cultural Anthropology - Honors	
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
SOC 100	Introduction to Sociology	3
	or SOC 100H Introduction to Sociology - Honors	
Required Field Work Courses:		
Prior to field work courses, students must complete at a minimum: HUMSV 130, HUMSV 136, and HUMSV 179.		
HUMSV 136	Addiction Studies: Basic Counseling I	3
HUMSV 137	Addiction Studies: Group Counseling II	3
HUMSV 230	Addiction Studies: Internship Seminar I	1
HUMSV 231	Addiction Studies: Internship Seminar II	1
HUMSV 232	Addiction Studies: Fieldwork I	2.5
HUMSV 233	Addiction Studies: Fieldwork II	2.5
Total Units		40

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program**Program Learning Outcomes**

At the completion of this program, students will be able to:

- Identify the addiction field, theoretical models of treatment, evidenced based practices, clinical approaches, and ethical implications and professional responsibilities.
- Describe the knowledge, skills, attitudes and competency in working with the diverse populations, those meeting the criteria for substance use disorders, families and community prevention and intervention efforts which make up the field of Addiction Counseling, and other critical skills and issues involved in becoming a state certified substance use disorder counselor.

Case Management in the Public Sector Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in case management in public social services setting, including the fundamentals of organizational structure, funding, evaluation, assessment and referral, employment services, and career paths.

Code	Title	Units
Required Courses:		
HUMSV 140	Case Management in Public Service	3
HUMSV 167	Crisis Intervention	3
HUMSV 170	Introduction to Social Work and Human Services	3
HUMSV 173	Helping and Interpersonal Skills	3
Required Field Work Courses:		
HUMSV 170 must be completed prior to field work courses. Also, it is recommended that students complete two courses from: HUMSV 140, HUMSV 167, and HUMSV 173.		
HUMSV 195A	Social Work and Human Services Seminar I	1
	or HUMSV 195H Human Services: Intern Seminar II	
HUMSV 198F	Case Management Fieldwork	2.5
Required General Education Courses:		
CIT 100	Introduction to Personal Computers	3
COMMST 111	Interpersonal Communication	3
	or COMMST 11 Interpersonal Communication - Honors	
COMMST 174	Intercultural Communication	3
ENGL 101	College Composition	4
	or ENGL 101H College Composition - Honors	
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
Total Units		31.5

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate the applicable skill set for Case Management.
- Demonstrate their understanding of goals, functions and organizational contemporary human service fields, evaluated by written or objective assessments.
- Apply the ethical decision making steps to practical problems and practice learned ethical responsibilities in regard to special populations, scope of practice and the helping of those in human service fields, evaluated by written or objective assessments.

Human Services Associate of Arts Degree

To graduate with an Associate Degree with one of the following Human Services certificate specializations, (1) Addiction Studies, (2) Case Management in the Public Sector, or (3) Human Services, students must complete all of the requirements for the appropriate certificate with a grade of "C" or better plus the general breadth requirements for the Associate Degree (minimum total = 60 units).

Another option for students who want to graduate with an Associate Degree in Human Services, without one of the above certificate specializations, is to complete 18 units from the following required courses for the Human Services major plus the general education breadth requirements for the Associate Degree (minimum total=60 units).

Code	Title	Units
Required Courses:		
HUMSV 170	Introduction to Social Work and Human Services	3
HUMSV 172	Group and Family Dynamics	3
HUMSV 173	Helping and Interpersonal Skills	3
HUMSV 179	Law and Ethics	3
Two Courses from the Following:		
HUMSV 130	Introduction to Addiction Studies: Drugs, Health, and Society	3
HUMSV 131	Co-Occur Disorders	3
HUMSV 132	Diverse Populations	3
HUMSV 134	Family Dynamics of Addiction	3
HUMSV 135	Prevention, Intervention and Recovery	3
HUMSV 140	Case Management in Public Service	3
HUMSV 167	Crisis Intervention	3
Required Behavioral Foundation Course: (3 units)		
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
SOC 100	Introduction to Sociology	3
	or SOC 100H Introduction to Sociology - Honors	
Total Units		21

Students planning to transfer to a four-year institution and major in Human Services or a related field should consult with a counselor regarding the transfer process and lower division requirements.

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate an understanding of goals, functions and organizational contemporary human service fields, evaluated by written or objective assessments.
- Demonstrate the applicable skill set in Humans Services.
- Apply the ethical decision-making steps to practical problems and practice learned ethical responsibilities in regard to special populations, scope of practice and the helping of those in human service fields.

Human Services Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in human services with a knowledge of intervention methodologies at the individual, group, and community levels.

Code	Title	Units
Required Courses:		
HUMSV 167	Crisis Intervention	3
HUMSV 170	Introduction to Social Work and Human Services	3
HUMSV 172	Group and Family Dynamics	3
HUMSV 173	Helping and Interpersonal Skills	3
HUMSV 179	Law and Ethics	3
One course from the following:		
SOC 110	Social Problems	3
SOC 110H	Social Problems - Honors	3
SOC 141	Race and Ethnic Relations	3
SOC 141H	Race and Ethnic Relations - Honors	3
ETHS 141	Race and Ethnic Relations	3
ETHS 141H	Race and Ethnic Relations - Honors	3
Two courses from the following:		
HUMSV 130	Introduction to Addiction Studies: Drugs, Health, and Society	3
HUMSV 131	Co-Occur Disorders	3
HUMSV 132	Diverse Populations	3
HUMSV 134	Family Dynamics of Addiction	3
HUMSV 135	Prevention, Intervention and Recovery	3
HUMSV 140	Case Management in Public Service	3
HUMSV 147	Career Specialist	3
Required Field Work Courses:		
A minimum of four Human Services courses are required from: HUMSV 167, HUMSV 170, HUMSV 172, HUMSV 173, and HUMSV 179. ¹		
The following two courses are to be taken concurrently:		
HUMSV 195A	Social Work and Human Services Seminar I	1
HUMSV 198C	Social Work and Human Services Fieldwork I	2
The following two course are to be taken concurrently:		
HUMSV 195B	Human Services: Intern Seminar II	1
HUMSV 198D	Human Services Fieldwork II	2.5
One Course from the Following:		
ANTHRO 102	Cultural Anthropology	3
	or ANTHRO 102H Cultural Anthropology - Honors	
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	

SOC 100	Introduction to Sociology	3
	or SOC 100H Introduction to Sociology - Honors	
Total Units		33.5

¹ Courses must be completed with a grade of C or better prior to field work courses.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate the applicable skill set in Humans Services.
- Demonstrate their understanding of goals, functions and organizational contemporary human service fields, evaluated by written or objective assessments.
- Apply the ethical decision making steps to practical problems and practice learned ethical responsibilities in regard to special populations, scope of practice and the helping of those in human service fields, evaluated by written or objective assessments.

Social Work and Human Services Assistant Certificate of Achievement

The Social Work and Human Service Assistant certificate prepares students for entry-level paraprofessional work opportunities in community agencies and can also create a pathway for the Social Work and Human Service AA-T transfer degree to pursue a bachelor's degree in social work, human services, and counseling practices.

Students learn effective case management skills, helping and interpersonal skills, and a general understanding overview of theories, skills and job opportunities in the social work and human service industry. Students will also learn about social work and human service ethical codes, morals, and laws, and consider how ethics and values guide the decision-making process and service delivery. Students will identify the role of the helper in advocacy for social justice with respect to all ethnicities and cultural backgrounds, and how to deliver equitable services for all populations. Service-based learning opportunities with an apprenticeship placement, personal growth and professional development are provided.

Code	Title	Units
Required Courses:		
HUMSV 170	Introduction to Social Work and Human Services	3
HUMSV 173	Helping and Interpersonal Skills	3
HUMSV 140	Case Management in Public Service	3
HUMSV 195A	Social Work and Human Services Seminar I	1
HUMSV 198C	Social Work and Human Services Fieldwork I	2

One course from the following:		
SOC 141	Race and Ethnic Relations	3
	or SOC 141H Race and Ethnic Relations - Honors	
	or ETHS 141 Race and Ethnic Relations	

or ETHS 141H Race and Ethnic Relations - Honors

Total Units **16-19**

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify the goals, functions, organizational structures, evidenced-based practices, local governing laws, and ethical implications and responsibilities in the fields of Social Work and Human Services as assessed by written or objective assessments and on the job apprenticeship training.
- Analyze and apply the skills and attitudes needed in working with the diverse populations which make up the fields of Social Work and Human Services with special regard to equity, accessibility ethnicity, gender, age, home and food insecurities, substance and mental health disorders, and other cultural and religious diversity, as assessed by written or objective assessments.

Social Work and Human Services Associate in Arts for Transfer Degree

The Associates in Arts in Social Work and Human Services for Transfer degree (AA-T in Social Work and Human Services) is designed to prepare students for transfer into the CSU system to complete a baccalaureate degree in Social Work and Human Services or similar major. Social Work and Human Services is an applied behavioral science that specializes in the application of learned skills and methods for helping people from many different social backgrounds. Social Work and Human Services students are expected to think critically about human behavior, to apply the principles of the behavioral sciences, and to understand the role of values in diverse cultural settings.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Social Work and Human Services AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Social Work and Human Services should consult with a counselor regarding the transfer process and lower division requirements.

Total Units That May Be Double Counted		13-22
General Education (CSU-GE or IGETC) Units		37-39
Electives (CSU Transferable) Units		5-16
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Describe social work and human services, outlining the evolution of social welfare and human services in the U.S.
- Identify the legal, ethical, and professional responsibilities associated with social welfare delivery and explain the current service delivery system in which social work and human service clients' needs are met.
- Recognize and understand the systems of oppression and privilege using critical thinking skills to envision ways to collaborate, negotiate, and advocate with and within social welfare institutions and organizations.

Inspection Technology

Construction and building inspectors ensure that new construction, changes, or repairs comply with local and national building codes and ordinances, zoning regulations, and contract specifications. Construction and building inspectors examine buildings, highways and streets, sewer and water systems, dams, bridges, and other structures. They also inspect electrical; heating, ventilation, air conditioning, and refrigeration (HVAC/R); and plumbing systems.

Although no two inspections are alike, inspectors do an initial check during the first phase of construction and follow-up inspections throughout the construction project. When the project is finished, they do a final, comprehensive inspection. Inspectors work alone or as part of a team. Some inspectors may have to climb ladders or crawl in tight spaces. Most work full time during regular business hours. Concern for public safety and a desire to improve the quality of construction are expected to spur employment growth in the field.

INSPEC 011 3 Units

Fundamentals of Construction Inspection: Soils and Concrete

Lecture: 54 contact hours

This course provides a basic study of soils engineering, soils construction methods, soils identification, soils terminology, concrete and asphalt including cements, aggregates, admixtures, job and batch control, properties of concrete, finishing, curing, reinforcing and nomenclature for inspectors.

Associate Degree Applicable

INSPEC 012 3 Units

Fundamentals of Construction Inspection: Wood, Steel, Masonry

Lecture: 54 contact hours

This course is a basic study of structures, including wood, steel, and masonry construction, building occupancies, construction and separations, acoustics and sound control.

Associate Degree Applicable

INSPEC 013 3 Units

Advanced Construction Inspection: International Building Code (IBC)

Lecture: 54 contact hours

This course provides for inspectors a study of the International Building Code (IBC) including application, interpretation, and use of the code.

Associate Degree Applicable

INSPEC 014 3 Units

Advanced Construction Inspection: National Electrical Code (NEC)

Lecture: 54 contact hours

This course provides an understanding of the National Electrical Code and a study of its applications.

Associate Degree Applicable

INSPEC 015 3 Units

Advanced Construction Inspection: Uniform Plumbing Code (UPC)

Lecture: 54 contact hours

This course is a study, interpretation and application of the CA Plumbing Code (CPC).

Associate Degree Applicable

INSPEC 016 3 Units

Advanced Construction Inspection: Uniform Mechanical Code (UMC)

Lecture: 54 contact hours

This course is a study of the requirements for the design, construction, installation and maintenance of heating, ventilating, cooling, refrigeration systems, incinerators and other heat-producing appliances required by the CA Mechanical Code (CMC).

Associate Degree Applicable

INSPEC 017 3 Units

California State Energy Regulations for Residential Buildings

Lecture: 54 contact hours

This course is a study of the basic compliance requirements of the California Title 24 Energy Efficiency Standards for residential buildings and the 2016 CA Green Building Standards Code. It includes prescriptive and performance methods such as alternative packages and computer models.

Associate Degree Applicable

INSPEC 018 3 Units**California State Energy Regulations for Non-Residential Buildings****Lecture:** 54 contact hours

This course studies basic compliance with California Title 24 Energy Efficiency Standards for non-residential buildings and CA Green Building Standards Code. It includes prescriptive and performance methods such as alternative packages and computer models.

Associate Degree Applicable**INSPEC 026 3 Units****Non-Structural Plan Review****Lecture:** 54 contact hours

This course provides training in the application of the CA Codes to construction drawings, including legal requirements for non-structural plan review, local, State, and Federal laws applicable to construction drawings, and the use of plan reviews as a first step in performing consistent and thorough inspections.

Associate Degree Applicable**INSPEC 027 3 Units****Structural Plan Review****Lecture:** 54 contact hours

This is a basic study of simplified engineering that can be applied to both plan checking and field inspections.

Associate Degree Applicable**INSPEC 028 3 Units****California Residential Code****Lecture:** 54 contact hours

This course provides building and safety personnel with a study of the California Residential Code (CRC) including application, interpretation, and use of the code.

Associate Degree Applicable**INSPEC 029 3 Units****Community Relations for Building Personnel****Lecture:** 54 contact hours

This course covers the development of oral and written communication skills for code enforcement personnel and an introduction to community relations for civil service employees. Topics include the proper methods of dealing with different types of encounters that an inspector may have with do-it-yourself homeowners, contractors, developers, etc. and the legal aspects of code administration and enforcement.

Associate Degree Applicable**INSPEC 030 3 Units****Aspects of Building and Safety****Lecture:** 54 contact hours

This course prepares students for the basic administrative functions of building and safety including: Title 25, Disabled access, staff roles, permit and plan checking, building inspection, and code enforcement.

Associate Degree Applicable**INSPEC 098 1-4 Units****Inspection Technology Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**INSPEC 611 Noncredit****Fundamentals of Construction Inspection: Soils and Concrete****Lecture:** 54 contact hours

This noncredit course provides a basic study of soils engineering, soils construction methods, soils identification, soils terminology, concrete and asphalt including cements, aggregates, admixtures, job and batch control, properties of concrete, finishing, curing, reinforcing and nomenclature for inspectors.

INSPEC 612 Noncredit**Fundamentals of Construction Inspection: Wood, Steel, Masonry****Lecture:** 54 contact hours

This noncredit course is a basic study of structures, including wood, steel, and masonry construction, building occupancies, construction and separations, acoustics and sound control.

INSPEC 613 Noncredit**Advanced Construction Inspection: International Building Code (IBC)****Lecture:** 54 contact hours

This noncredit course provides for inspectors a study of the International Building Code (IBC) including application, interpretation, and use of the code.

INSPEC 614 Noncredit**Advanced Construction Inspection: National Electrical Code (NEC)****Lecture:** 54 contact hours

This noncredit course provides an understanding of the National Electrical Code and a study of its applications.

INSPEC 615 Noncredit**Advanced Construction Inspection: Uniform Plumbing Code (UPC)****Lecture:** 54 contact hours

This noncredit course is a study, interpretation and application of the CA Plumbing Code (CPC).

INSPEC 616 Noncredit**Advanced Construction Inspection: Uniform Mechanical Code (UMC)****Lecture:** 54 contact hours

This noncredit course is a study of the requirements for the design, construction, installation and maintenance of heating, ventilating, cooling, refrigeration systems, incinerators and other heat-producing appliances required by the CA Mechanical Code (CMC).

INSPEC 617 Noncredit**California State Energy Regulations for Residential Buildings****Lecture:** 54 contact hours

This noncredit course is a study of the basic compliance requirements of the California Title 24 Energy Efficiency Standards for residential buildings and the 2016 CA Green Building Standards Code. It includes prescriptive and performance methods such as alternative packages and computer models.

INSPEC 618 Noncredit**California State Energy Regulations For Non-Residential Buildings****Lecture:** 54 contact hours

This noncredit course studies basic compliance with California Title 24 Energy Efficiency Standards for non-residential buildings and CA Green Building Standards Code. It includes prescriptive and performance methods such as alternative packages and computer models.

INSPEC 626 Noncredit**Non-Structural Plan Review****Lecture:** 54 contact hours

This noncredit course provides training in the application of the CA Codes to construction drawings, including legal requirements for non-structural plan review, local, State, and Federal laws applicable to construction drawings, and the use of plan reviews as a first step in performing consistent and thorough inspections.

INSPEC 627 Noncredit**Structural Plan Review****Lecture:** 54 contact hours

This is a noncredit basic study of simplified engineering that can be applied to both plan checking and field inspections.

INSPEC 628 Noncredit**California Residential Code****Lecture:** 54 contact hours

This noncredit course provides building and safety personnel with a study of the California Residential Code (CRC) including application, interpretation, and use of the code.

INSPEC 629 Noncredit**Community Relations for Building Personnel****Lecture:** 54 contact hours

This noncredit course covers the development of oral and written communication skills for code enforcement personnel and an introduction to community relations for civil service employees. Topics include the proper methods of dealing with different types of encounters that an inspector may have with do-it-yourself homeowners, contractors, developers, etc. and the legal aspects of code administration and enforcement.

INSPEC 630 Noncredit**Aspects of Building and Safety****Lecture:** 54 contact hours

This noncredit course prepares students for the basic administrative functions of building and safety including: Title 25, Disabled access, staff roles, permit and plan checking, building inspection, and code enforcement.

Inspection Technology Associate of Science Degree

This degree is designed to prepare students for entry-level employment in construction inspection, International Code Council (ICC) certification examinations, and understanding of construction, alteration, or repair of buildings. Students will develop the skills to ensure compliance with building codes and ordinances, zoning regulations, and contract specifications. To graduate with a specialization in Inspection Technology, students must complete the following required courses for the certificate plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
INSPEC 011	Fundamentals of Construction Inspection: Soils and Concrete	3
INSPEC 012	Fundamentals of Construction Inspection: Wood, Steel, Masonry	3
INSPEC 013	Advanced Construction Inspection: International Building Code (IBC)	3
INSPEC 014	Advanced Construction Inspection: National Electrical Code (NEC)	3

INSPEC 015	Advanced Construction Inspection: Uniform Plumbing Code (UPC)	3
INSPEC 016	Advanced Construction Inspection: Uniform Mechanical Code (UMC)	3
INSPEC 017	California State Energy Regulations for Residential Buildings	3
INSPEC 018	California State Energy Regulations for Non-Residential Buildings	3
INSPEC 026	Non-Structural Plan Review	3
INSPEC 027	Structural Plan Review	3
INSPEC 028	California Residential Code	3
INSPEC 029	Community Relations for Building Personnel	3
INSPEC 030	Aspects of Building and Safety	3

Total Units **39**

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Examine construction methods to verify local and state requirements are met.
- Verify that construction (new, alteration, or repair) meets applicable building codes.
- Read and analyze construction plans to determine compliance with local and state requirements.
- Effectively and clearly communicate.
- Understand and apply the California and National Building Codes.

Inspection Technology Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in construction inspection, International Code Council (ICC) certification examinations, and understanding of construction, alteration, or repair of buildings. Students will develop the skills to ensure compliance with building codes and ordinances, zoning regulations, and contract specifications.

INSPEC 030	Aspects of Building and Safety	3			
Total Units		39			

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Examine construction methods to verify local and state requirements are met.
- Verify that construction (new, alteration, or repair) meets applicable building codes.
- Read and analyze construction plans to determine compliance with local and state requirements.
- Effectively and clearly communicate.
- Understand and apply the California and National Building Codes.

Inspection Technology Certificate of Completion

This noncredit certificate is designed to prepare students for entry-level employment in construction inspection, International Code Council (ICC) certification examinations, and understanding of construction, alteration, or repair of buildings. Students will develop the skills to ensure compliance with building codes and ordinances, zoning regulations, and contract specifications. Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Examine construction methods to verify local and state requirements are met.
- Verify that construction (new, alteration, or repair) meets applicable building codes.
- Read and analyze construction plans to determine compliance with local and state requirements.
- Effectively and clearly communicate.
- Understand and apply the California and National Building Codes.

Kinesiology and Health

Courses in the Kinesiology and Health Department are designed to increase students' skills in activities that produce physiological results and promote lifelong habits of fitness. Within this department, courses are grouped in two areas: Health Education and Kinesiology. Four-year graduates in Health Education and Kinesiology qualify for employment in private industry and recreational agencies and are prepared to seek teaching credentials in elementary or secondary education. Students planning to transfer to a four-year institution and major in kinesiology or related fields should consult with a counselor regarding the transfer process and lower division requirements.

 - Kinesiology Associate of Arts Degree (p. 284)
 - Public Health Science Associate in Science for Transfer Degree (p. 288)

HEALTH 098 1-4 Units

Public Health Work Experience

WRKEX: 300 contact hours

This course involves supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

HEALTH 100 3 Units

Introduction to Public Health

Lecture: 54 contact hours

This course introduces students to the purpose, history, organization, and outcomes of public health practice. It also explores the nation's major public health challenges and proposes various strategies to combat them. Topics include epidemiology, prevention and control of diseases, the analysis of the social determinants of health and strategies for eliminating disease and health disparities among minorities, community organization and health promotion programming, environmental health and safety, global health, and healthcare policy and management.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PHS 101

HEALTH 101 3 Units

Personal Health and Wellness

Lecture: 54 contact hours

Advisory: Eligibility for college level English based on the SBVC Guided-Self Placement process.

This course focuses on the exploration of major health issues and behaviors in the various dimensions of health. Emphasis is placed on individual responsibility for personal health and the promotion of informed, positive health behaviors. Topics include physical fitness components, nutrition, weight control, mental health, stress management, violence, substance abuse, disease prevention, aging, basic healthcare, and environmental hazards and safety.

Associate Degree Applicable

Transfers to both UC/CSU

HEALTH 103 3 Units

Introduction to Holistic Health

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course is an introduction to health and healing practices involving the integration of physical, mental, spiritual, and social resources. Students explore ancient disciplines of Ayurveda, Yoga, and Chinese Medicine, as well as modern Western health systems like Biofeedback, Swedish Massage, Reiki, Meditation, Guided Imagery, Herbalism, Humor and Music Therapy. Emphasis is placed on health promotion and prevention of disease, and how we become self-advocates in promoting our own well-being with the assistance of health care professionals.

Associate Degree Applicable

Transfers to both UC/CSU

HEALTH 104 3 Units

Women's Health

Lecture: 54 contact hours

This course analyzes the biological, psychological, and sociological aspects of women's health, with special emphasis on women cross-culturally. Topics focus on current trends in the prevention of chronic diseases and illnesses, the promotion of positive body image, and self-empowerment of women. Students will also explore the application of the lifespan of lifestyle changes to develop strategies to become self-advocates in promoting one's own well-being.

Associate Degree Applicable

Transfers to both UC/CSU

KIN 080 2 Units

Techniques of Weight Training

Lecture: 36 contact hours

This course is an introduction to teaching techniques in weight training. Topics include anatomy, physiology, training sequences, equipment options, safety factors, and contraindications.

Associate Degree Applicable

KIN 081 2 Units

Exercise and Fitness Assessment

Lecture: 36 contact hours

This course prepares students to assess and evaluate exercise and fitness parameters. Topics include the measurement and evaluation of cardiorespiratory endurance, muscular strength and endurance, flexibility, body fat, pulmonary function, and blood pressure. Emphasis is placed on determining the appropriate test, conducting the test, interpreting the results, and creating an exercise program.

Associate Degree Applicable

KIN 098 1-4 Units**Kinesiology Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**KIN 101 3 Units****Sports Psychology****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a study of the psychological effects on the motor performance of athletes across all levels of competition. This course includes such areas as goal setting, motivation, anxiety and stress, relaxation, sport imagery, relationships, eating disorders and drug abuse. (Formerly KIN 201)

Associate Degree Applicable**Transfers to both UC/CSU****KIN 104 3 Units****Exercise Nutrition****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course provides scientific information and the essential principles of a proper exercise and diet program needed to maintain healthy sports fitness and nutrition levels. Emphasis will be placed on athletic performance, exercise recovery, food quality, general health, energy transfer for exercise and the relationship between nutrition and exercise or athletic performance.

Associate Degree Applicable**Transfers to both UC/CSU****KIN 106 3 Units****Athletic Administration****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course will serve as an overview of the field of athletic administration. Time will be spent exploring the current state of sports participation, the responsibilities administrators have and challenges they encounter across all levels of sport.

Associate Degree Applicable**Transfers to CSU only****KIN 200 3 Units****Introduction to Kinesiology****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This introductory course provides an interdisciplinary approach to the study of human movement. It provides an overview of the importance of the sub-disciplines in kinesiology that will be discussed along with career opportunities in the areas of sports fitness industry, allied health (physical/occupational/recreational therapy), sport/fitness management, and teaching/coaching.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** KIN 100**KIN 202 3 Units****History of Physical Education and Sport in the United States****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is designed to explore the evolution of sport and physical activity. Topics include historical and philosophical influences from ancient societies through the present.

Associate Degree Applicable**Transfers to both UC/CSU****KIN 203 3 Units****Theory of Coaching****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course explores the issues and problems facing the coach today. Topics include the philosophies, theories and principles of developing and maintaining an athletic program. This course is designed for coaches at various levels from youth to high school varsity.

Associate Degree Applicable**Transfers to both UC/CSU****KIN 205 3 Units****Sports Management****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course will serve as an overview of the field of sports management. Time will be spent exploring the development of the industry, current state and future trends in the discipline through the lenses of amateur, professional and international sports.

Associate Degree Applicable**Transfers to CSU only****KIN 210 2 Units****Sports Officiating****Lecture:** 36 contact hours

This course is designed to provide instruction on the rules, techniques, and mechanics of officiating the sports of soccer, football, basketball, and baseball.

Associate Degree Applicable**Transfers to both UC/CSU****KIN 222 1-3 Units****Independent Study in Kinesiology****DIR:** 54 contact hours

Students with previous course work in Kinesiology/Physical Education may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Kinesiology/Physical Education. Prior to registration, a written contract must be prepared jointly by the instructor and the student. See instructor for details.

Associate Degree Applicable**Transfers to CSU only****KIN 231 3 Units****First Aid and CPR****Lecture:** 54 contact hours

This course provides instruction on emergency care and treatment of illnesses and injuries including training in cardiopulmonary resuscitation (CPR) and automated external defibrillation (AED). Students who successfully pass all CPR/AED and First Aid requirements will receive a CPR/AED and First Aid card.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** KIN 101

KIN 232 3 Units**Prevention and Care of Athletic Injuries****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** KIN 231

This is an introductory course in the recognition, assessment, management, care, and prevention of injuries occurring during physical activities. Basic taping techniques, as well as the proper selection and use of treatment modalities, are included.

Associate Degree Applicable**Transfers to both UC/CSU****KIN 236 3 Units****Stress Management and Wellness****Lecture:** 54 contact hours

This course covers stress with emphasis on the physiological, psychological, and sociological issues throughout the lifespan. Topics include: recognition and analysis of symptoms of stress, scientific studies, assessment tools, fitness programs, meditation, yoga, nutrition, weight control, and healthy habits that enhance health and well-being.

Associate Degree Applicable**Transfers to both UC/CSU****KIN 600 Noncredit****Helmet-Free Tackle Safety and Performance****Lecture:** 18 contact hours**Lab:** 36 contact hours

This noncredit course is designed to provide instruction on best practices, methods and techniques that identify and correct the physical mechanisms, antiquated tackling drills, and injurious terminology that lead to Crown first collisions in the act of making an American football tackle. This course develops a comprehensive understanding of the Helmet-Free-Tackle Training System, to eliminate helmet first collision and prevent potential self-inflicted concussion, head, neck, spinal cord, and catastrophic injury.

KIN 631 Noncredit**First Aid and CPR****Lecture:** 14 contact hours**Lab:** 8 contact hours

This noncredit course provides instruction on emergency care and treatment of illnesses and injuries, including training in cardiopulmonary resuscitation (CPR) and automated external defibrillation (AED). Students who successfully pass all CPR/AED and First Aid requirements will receive a CPR/AED and First Aid card.

KINA 186A 1 Unit**Adapted: Beginning Stretching and Stress Reduction****Lab:** 54 contact hours

This course is designed to teach students with disabilities how to improve range of motion for various muscles in the human body using beginning level stretching techniques. This course also teaches basic techniques for stress reduction. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 186B 1 Unit****Adapted: Intermediate Stretching and Stress Reduction****Lab:** 54 contact hours**Advisory:** KINA 186A

This course is designed to teach students with disabilities how to improve range of motion for various muscles in the human body using intermediate level stretching techniques. This course also teaches intermediate level techniques for stress reduction. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 186C 1 Unit****Adapted: Advanced Stretching and Stress Reduction****Lab:** 54 contact hours**Advisory:** KINA 186B

This course is designed to teach students with disabilities how to improve range of motion for various muscles in the human body using advanced stretching techniques. This course also teaches advanced techniques for stress reduction. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 187A 1 Unit****Adapted: Beginning Boxing for Fitness****Lab:** 54 contact hours

This course is designed to teach students with disabilities beginning level boxing skills and techniques. Boxing movements and drills will be utilized to help students improve cardiovascular conditioning, muscular endurance, balance, flexibility, and coordination. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 187B 1 Unit****Adapted: Intermediate Boxing for Fitness****Lab:** 54 contact hours**Advisory:** KINA 187A

This course is designed to teach students with disabilities intermediate level boxing skills and techniques. Boxing movements and drills will be utilized to help students improve cardiovascular conditioning, muscular endurance, balance, and coordination. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 187C 1 Unit****Adapted: Advanced Boxing for Fitness****Lab:** 54 contact hours**Advisory:** KINA 187B

This course is designed to teach students with disabilities advanced level boxing skills and techniques. Boxing movements and drills will be utilized to help students improve cardiovascular conditioning, muscular endurance, balance, and coordination. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU**

KINA 188A 1 Unit**Adapted: Beginning Fitness and Conditioning****Lab:** 54 contact hours

This course is designed to teach students with disabilities beginner level exercises to improve functional range of motion, muscular strength and cardiovascular endurance. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 188B 1 Unit****Adapted: Intermediate Fitness and Conditioning****Lab:** 54 contact hours**Advisory:** KINA 188A

This course is designed to teach students with disabilities intermediate level exercise techniques to improve range of motion, muscular strength and cardiovascular endurance. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 188C 1 Unit****Adapted: Advanced Fitness and Conditioning****Lab:** 54 contact hours**Advisory:** KINA 188B

This course is designed to teach students with disabilities advanced level exercises for maximizing range of motion, muscular strength and cardiovascular endurance. Designing and leading an exercise program is also taught. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 189A 1 Unit****Adapted: Beginning Resistance Training****Lab:** 54 contact hours

This course is designed for students with disabilities. This course provides instruction in beginning level physical activities to improve muscular strength and endurance. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 189B 1 Unit****Adapted: Intermediate Resistance Training****Lab:** 54 contact hours**Advisory:** KINA 189A

This course is designed for students with disabilities. This course provides instruction in intermediate level physical activities to improve muscular strength and endurance. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 189C 1 Unit****Adapted: Advanced Resistance Training****Lab:** 54 contact hours**Advisory:** KINA 189B

This course is designed for students with disabilities. This course provides instruction in advanced level physical activities to improve muscular strength and endurance. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 190A 1 Unit****Adapted: Beginning Level Self-Defense****Lab:** 54 contact hours

This course is designed to teach students with disabilities beginning level Krav Maga self-defense to help maintain or improve physical fitness and awareness. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 190B 1 Unit****Adapted: Intermediate Level Self-Defense****Lab:** 54 contact hours

This course is designed to teach students with disabilities, an intermediate level Krav Maga self-defense. To help maintain or improve physical fitness and awareness. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINA 190C 1 Unit****Adapted: Advanced Level Self-Defense****Lab:** 54 contact hours

This course is designed to teach students with disabilities, an advanced level Krav Maga self-defense. To help maintain or improve physical fitness and awareness. A completed adapted physical education participation form may be required prior to participation in this class.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 100A 1 Unit****Beginning Pilates Mat****Lab:** 54 contact hours

This course provides beginning level Pilates technique instruction in alignment and correctives including mat work that emphasizes beginning level exercises for improved body alignment, strength, flexibility, control, coordination and breathing.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 100B 1 Unit****Intermediate Pilates Mat****Lab:** 54 contact hours**Prerequisite:** KINF 100A

This course provides intermediate level Pilates technique instruction in alignment and correctives including mat work that emphasizes exercises for improved body alignment, strength, flexibility, control, coordination and breathing. In addition, breathing patterns and spinal alignment are taught to reduce injury and improve health.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 100C 1 Unit****Advanced Pilates Mat****Lab:** 54 contact hours**Prerequisite:** KINF 100B

This course provides advanced Pilates technique instruction in alignment and correctives including mat work, advanced yoga and strength training. In addition, review of technique will focus on continued improvement of strength and flexibility with minimal stress to the body.

Associate Degree Applicable**Transfers to both UC/CSU**

KINF 101A 1 Unit**Beginning Boxing for Fitness****Lab:** 54 contact hours

This course is designed to teach beginning level boxing skills and techniques. Boxing movements and drills will be utilized to help students improve cardiovascular conditioning, muscular endurance, balance, and coordination.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 101B 1 Unit****Intermediate Boxing for Fitness****Lab:** 54 contact hours**Advisory:** KINF 101A

This course is designed to teach intermediate level boxing skills and techniques. Boxing movements and drills will be utilized to help students improve cardiovascular conditioning, muscular endurance, balance, and coordination.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 101C 1 Unit****Advanced Boxing for Fitness****Lab:** 54 contact hours**Advisory:** KINF 101B

This course is designed to teach advanced level boxing skills and techniques. Boxing movements and drills will be utilized to help students improve cardiovascular conditioning, muscular endurance, balance, and coordination.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 102A 1 Unit****Beginning Spinning****Lab:** 54 contact hours

Beginning spinning is an indoor, group stationary cycling program that integrates music, camaraderie, and visualization in a complete body-mind exercise routine. The philosophy of being mentally and physically fit is the basis of spinning. Spinning emphasizes everyone's individual needs, regardless of athletic ability while being taught in a group atmosphere.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 102B 1 Unit****Intermediate Spinning****Lab:** 54 contact hours**Advisory:** KINF 102A

Intermediate spinning is an indoor, group stationary cycling program that integrates music, camaraderie, and visualization in a complete body-mind exercise routine. New techniques will be introduced with an emphasis on building an aerobic base, increasing anaerobic thresholds and sustainability.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 102C 1 Unit****Advanced Spinning****Lab:** 54 contact hours**Advisory:** KINF 102C

Advanced spinning is an indoor, group stationary cycling program that integrates music, camaraderie, and visualization in a complete body-mind exercise routine. Review of technique will focus on continued improvement of aerobic and anaerobic levels and increased sustainability. In addition, advanced core exercises and relaxation techniques will be utilized within the workouts.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 105A 1 Unit****Beginning Low Impact Aerobics****Lab:** 54 contact hours

This course is designed to teach basic fitness concepts and beginning level movement skills to enhance strength, flexibility, endurance, movement memory, balance, coordination, and cardiovascular fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 105B 1 Unit****Intermediate Low Impact Aerobics****Lab:** 54 contact hours**Advisory:** KINF 105A

This course is designed to teach intermediate level fitness concepts and movement skills to enhance strength, flexibility, endurance, movement memory, balance, coordination, and cardiovascular fitness. Students will also learn how to design a basic step aerobics program.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 105C 1 Unit****Advanced Low Impact Aerobics****Lab:** 54 contact hours**Advisory:** KINF 105B

This course is designed to teach advanced level fitness concepts and movement skills to enhance strength, flexibility, endurance, movement memory, balance, coordination, and cardiovascular fitness. Students will also learn how to design an intermediate level step aerobics program.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 108A 1 Unit****Beginning Weight Training****Lab:** 54 contact hours

The course is designed to teach beginning level students safe and proper technique for resistance exercises. Students will use free weights and universal machines to develop muscle strength and endurance. Students of all ability levels will receive individual instruction and personally tailored programs.

Associate Degree Applicable**Transfers to both UC/CSU**

KINF 108B 1 Unit**Intermediate Weight Training****Lab:** 54 contact hours**Advisory:** KINF 108A

The course is designed to teach safe and proper intermediate level techniques for resistance exercises, including multi-joint movements. Students will use free weights and universal machines to develop muscle strength and endurance. Students of all ability levels will receive individual instruction and create personally tailored programs.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 108C 1 Unit****Advanced Weight Training****Lab:** 54 contact hours**Advisory:** KINF 108B

The course is designed to teach safe and proper advanced level technique for resistance exercises. Students will use free weights, Olympic platforms, and universal machines to develop muscle strength and endurance through multi-joint and Olympic lift exercises. Students of all ability levels will receive individual instruction and create personally tailored programs.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 112A 1 Unit****Beginning Body Conditioning****Lab:** 54 contact hours

This course is designed to teach beginner level fitness concepts and movement skills to improve overall cardiovascular fitness, as well as muscular strength and endurance. Instruction will be modified to accommodate students of all fitness and skill levels.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 112B 1 Unit****Intermediate Body Conditioning****Lab:** 54 contact hours**Advisory:** KINF 112A

This course is designed to teach intermediate level fitness concepts and movement skills to improve overall cardiovascular fitness, as well as muscular strength and endurance.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 112C 1 Unit****Advanced Body Conditioning****Lab:** 54 contact hours**Advisory:** KINF 112B

This course is designed to teach advanced level fitness concepts and movement skills to improve overall cardiovascular fitness, as well as muscular strength and endurance.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 115A 1 Unit****Beginning HIIT****Lab:** 54 contact hours

This beginning-level High Intensity Interval Training (HIIT) course is designed for students to improve their overall health. Students will begin with short intervals of exercise and recovery, while introducing the knowledge of the five physical fitness components.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 115B 1 Unit****Intermediate HIIT****Lab:** 54 contact hours**Prerequisite:** KINF 115A

This intermediate level High Intensity Interval Training (HIIT) course is designed for students to participate in a comprehensive fitness program with an emphasis on increasing work-to-recovery ratio to improve overall health, gain strength and increase energy.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 115C 1 Unit****Advanced HIIT****Lab:** 54 contact hours**Prerequisite:** KINF 115B

This advanced-level High Intensity Interval Training (HIIT) course is designed for students to participate in a rigorous exercise program to increase cardiovascular endurance, muscle strength, agility, and coordination.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 127A 1 Unit****Beginning Walking for Fitness****Lab:** 54 contact hours

The course is designed to help improve cardiovascular endurance and overall fitness through walking. Beginning level training principles and proper technique will be taught to promote this lifelong activity.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 127B 1 Unit****Intermediate Walking for Fitness****Lab:** 54 contact hours**Advisory:** KINF 127A

The course is designed to help improve cardiovascular endurance and overall fitness through walking. Intermediate level training principles, technique and program design will be taught to promote this lifelong activity.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 127C 1 Unit****Advanced Walking for Fitness****Lab:** 54 contact hours**Advisory:** KINF 127B

The course is designed to help improve cardiovascular endurance and overall fitness through walking. Advanced level training principles, technique program design and injury prevention and care will be taught to promote this lifelong activity.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 132A 1 Unit****Beginning Distance Running****Lab:** 54 contact hours

In this course, students will learn beginner level skills, techniques, and strategies of distance running. Instruction will focus on improving the student's running efficiency, cardiovascular fitness, and distance running knowledge.

Associate Degree Applicable**Transfers to both UC/CSU**

KINF 132B 1 Unit**Intermediate Distance Running****Lab:** 54 contact hours**Advisory:** KINF 132A

In this course, students will learn intermediate level skills, techniques, and strategies of distance running. Instruction will focus on improving the student's running efficiency, cardiovascular fitness, running biomechanics and strategy development.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 132C 1 Unit****Advanced Distance Running****Lab:** 54 contact hours**Advisory:** KINF 132B

In this course, students will learn advanced level skills, techniques, and strategies of distance running. Instruction will focus on maximizing running efficiency, improving cardiovascular fitness, and practicing various race strategies.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 138A 1 Unit****Beginning Physical Fitness****Lab:** 54 contact hours

This course is a structured exercise class designed to help students participate in a beginning level exercise program including cardiovascular endurance, muscular strength and flexibility training. Instructor guided equipment orientation, fitness testing, and exercise technique are provided.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 138B 1 Unit****Intermediate Physical Fitness****Lab:** 54 contact hours**Advisory:** KINF 138A

The course is a structured exercise class designed to help intermediate level students develop and participate in a balanced exercise program including cardiovascular endurance, muscular strength and flexibility training. Instructor guided equipment orientation, fitness testing, exercise technique, and individualized programming are provided.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 138C 1 Unit****Advanced Physical Fitness****Lab:** 54 contact hours**Advisory:** KINF 138B

This course is a structured exercise class designed to help advanced level students develop a balanced exercise program including cardiovascular endurance, muscular strength and flexibility training. Instructor guided equipment orientation, fitness testing, exercise technique, and individualized programming are provided.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 142A 1 Unit****Beginning Conditioning for Sports****Lab:** 54 contact hours

This course is designed to teach beginning level students muscular strength and endurance exercises, flexibility and core training skills and cardiovascular fitness. It is geared toward improving skills for participation in sports.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 142B 1 Unit****Intermediate Conditioning for Sports****Lab:** 54 contact hours**Advisory:** KINF 142A

This course is designed to teach intermediate level students muscular strength and endurance exercises, flexibility and core training skills and cardiovascular fitness. It is geared toward improving skills for participation in sports.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 142C 1 Unit****Advanced Conditioning for Sports****Lab:** 54 contact hours**Advisory:** KINF 142B

This course is designed to teach advanced level students muscular strength and endurance exercises, flexibility and core training skills and cardiovascular fitness. It is geared toward improving skills for participation in sports.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 154A 1 Unit****Beginning Hiking for Fitness****Lab:** 54 contact hours

This beginning level course explores hiking as a lifelong fitness activity to promote cardiovascular health and general well-being. Techniques are suitable for individuals of all ages and fitness levels and various hiking routes on an off campus will be utilized.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 154B 1 Unit****Intermediate Hiking for Fitness****Lab:** 54 contact hours**Advisory:** KINF 154A

This course includes instruction in designing intermediate hiking programs for specific goals such as cardiovascular fitness, muscular endurance, core and leg strength. Using various hiking routes on and off campus, route planning, map reading, safety protocols, trail marking, and environmental considerations will be introduced.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 154C 1 Unit****Advanced Hiking for Fitness****Lab:** 54 contact hours**Advisory:** KINF 154B

This course includes instruction in designing advanced, faster paced hiking programs for specific goals such as cardiovascular fitness, muscular endurance, core, and leg strength. Various hikes on and off campus will be utilized. Progressive activities such as evening hikes, overnight hikes and backpacking will be introduced to further increase options for lifelong fitness activities.

Associate Degree Applicable**Transfers to both UC/CSU**

KINF 168A 1 Unit**Beginning Yoga****Lab:** 54 contact hours

This course is designed to introduce and practice beginning level Hatha Yoga. Improvement in balance, flexibility, muscle strength and endurance will be introduced. Meditation, breathing and relaxation techniques will be employed to assist in stress reduction.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 168B 1 Unit****Intermediate Yoga****Lab:** 54 contact hours**Advisory:** KINF 168A

This activity course is designed to teach the practice of intermediate level Hatha Yoga. Improvement in balance, flexibility, muscle strength and endurance will be emphasized. Meditation, breathing and relaxation techniques will be employed to assist in stress reduction.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 168C 1 Unit****Advanced Yoga****Lab:** 54 contact hours**Advisory:** KINF 168B

This activity course is designed to teach students advanced level Hatha Yoga as well as creating and leading a yoga flow sequence. Maximizing balance, flexibility, muscle strength and endurance will be emphasized. Meditation, breathing and relaxation techniques will be employed to assist in stress reduction.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 184A 1 Unit****Beginning Karate****Lab:** 54 contact hours

This course provides beginning level Karate technique instruction needed for the art of unarmed defense while also developing speed, grace of movement, self-confidence, poise, mental alertness, strength, endurance, and muscular control.

Associate Degree Applicable**Transfers to CSU only****KINF 184B 1 Unit****Intermediate Karate****Lab:** 54 contact hours

This course provides intermediate level Karate technique instruction needed for the art of unarmed defense while also increasing speed, grace of movement, self-confidence, poise, mental alertness, strength, endurance, and muscular control.

Associate Degree Applicable**Transfers to CSU only****KINF 184C 1 Unit****Advanced Karate****Lab:** 54 contact hours

This course provides advanced level Karate technique instruction needed for the art of unarmed self-defense while also mastering speed, grace of movement, self-confidence, poise, mental alertness, strength, endurance, and muscular control.

Associate Degree Applicable**Transfers to CSU only****KINF 190A 1 Unit****Beginning Tai Chi****Lab:** 54 contact hours

This course is designed to study and practice Tai Chi at the beginning level. The history, research, and benefits of Tai Chi will be examined, and the basic 12 forms of Tai Chi will be explored. The course will include individual and group instruction and practice.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 190B 1 Unit****Intermediate Tai Chi****Lab:** 54 contact hours**Advisory:** KINF 190A

This course is designed to study and practice Tai Chi at the intermediate level. The benefits of Tai Chi will be examined, and the basic 24 forms of Tai Chi will be explored. The course will include individual and group instruction and practice.

Associate Degree Applicable**Transfers to both UC/CSU****KINF 190C 1 Unit****Advanced Tai Chi****Lab:** 54 contact hours**Advisory:** KINF 190B

This course is designed to study and practice Tai Chi at the advanced level. The relationship between Tai Chi and well-being will be examined, and the basic 42 forms of Tai Chi will be explored. The course will include individual and group instruction and practice.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 100A 1 Unit****Beginning Baseball****Lab:** 54 contact hours

This course is designed to teach beginning level skills, techniques, strategies, etiquette, and rules of baseball.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 100B 1 Unit****Intermediate Baseball****Lab:** 54 contact hours**Advisory:** KINS 100A

This course is designed to teach intermediate level skills, techniques, strategies, etiquette, and rules of baseball.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 100C 1 Unit****Advanced Baseball****Lab:** 54 contact hours**Advisory:** KINS 100B

This course is designed to teach advanced level skills, techniques, strategies, etiquette, and rules of baseball.

Associate Degree Applicable**Transfers to both UC/CSU**

KINS 103A 1 Unit**Beginning Badminton****Lab:** 54 contact hours

This course will provide beginning level instruction in the skills, techniques, strategies, etiquette and rules of badminton. With the application of these techniques and practice, students will improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 103B 1 Unit****Intermediate Badminton****Lab:** 54 contact hours**Advisory:** KINS 103A

This course will provide instruction in the skills, techniques and strategies of badminton at the intermediate level of performance. With the application of these techniques and practice, students will improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 103C 1 Unit****Advanced Badminton****Lab:** 54 contact hours**Advisory:** KINS 103B

This course will provide instruction in the skills, techniques and strategies of badminton at an advanced level of performance. With the application of these techniques and practice, students will improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 104A 1 Unit****Beginning Basketball****Lab:** 54 contact hours

This course is designed to teach the skills, techniques, strategies, etiquette and rules of basketball at a beginning level of performance. Students may also improve their overall physical fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 104B 1 Unit****Intermediate Basketball****Lab:** 54 contact hours**Advisory:** KINS 104A

This course is designed to teach the skills, techniques, strategies, etiquette and rules of basketball at an intermediate level of performance. Students may also improve their overall physical fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 104C 1 Unit****Advanced Basketball****Lab:** 54 contact hours**Advisory:** KINS 104B

This course is designed to teach the skills, techniques, strategies, etiquette and rules of basketball at an advanced level of performance. Students may also improve their overall physical fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 107A 1 Unit****Beginning Ultimate Frisbee****Lab:** 54 contact hours

This course is designed to teach beginning level skills, strategies, and rules of Ultimate Frisbee. The offensive and defensive skills and strategies needed for team play, as well as the importance of sportsmanship, will be emphasized. Students will be taught in a group atmosphere and may improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 107B 1 Unit****Intermediate Ultimate Frisbee****Lab:** 54 contact hours

This course is designed to teach intermediate level skills, strategies, and rules of Ultimate Frisbee. The offensive and defensive skills and strategies needed for team play, as well as the importance of sportsmanship, will be emphasized. Students will be taught in a group atmosphere and may improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 107C 1 Unit****Advanced Ultimate Frisbee****Lab:** 54 contact hours

This course is designed to teach advanced level skills, strategies, and rules of Ultimate Frisbee. The offensive and defensive skills and strategies needed for team play, as well as the importance of sportsmanship, will be emphasized. Students will be taught in a group atmosphere and may improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 108A 1 Unit****Beginning Football****Lab:** 54 contact hours

This activity course is designed to introduce students to the skills, techniques, strategy, rules as well as ethics of football at the beginner level.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 108B 1 Unit****Intermediate Football****Lab:** 54 contact hours**Advisory:** KINS 108A

This activity course is designed to introduce students to the skills, techniques, strategy, rules as well as ethics of football at the intermediate level.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 108C 1 Unit****Advanced Football****Lab:** 54 contact hours**Advisory:** KINS 108B

This activity course is designed to introduce students to the skills, techniques, strategy, rules as well as ethics of football at the advanced level.

Associate Degree Applicable**Transfers to both UC/CSU**

KINS 110A 1 Unit**Beginning Futsal****Lab:** 54 contact hours

This course is designed to teach beginning level skills, strategies, and rules of futsal, as well as individual and team strategies for game play.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 110B 1 Unit****Intermediate Futsal****Lab:** 54 contact hours**Prerequisite:** KINS 110A

This course is designed to teach intermediate level skills and strategies of futsal, as well as individual and team strategies for game play. This course also introduces tactical strategies for each position as well as formations and styles of play.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 110C 1 Unit****Advanced Futsal****Lab:** 54 contact hours**Prerequisite:** KINS 110B

This course is designed to teach advanced level skills and strategies of futsal, as well as the mental skills needed for competitive play. Students will also analyze game tactics and evaluate strategies for strengthening personal and team performance.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 112A 1 Unit****Beginning Indoor Soccer****Lab:** 54 contact hours

This course is designed to teach beginning level rules, skills and techniques of indoor soccer, as well as individual and team strategies for game play.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 112B 1 Unit****Intermediate Indoor Soccer****Lab:** 54 contact hours**Corequisite:** KINS 112A

This course is designed to teach intermediate level skills and techniques of indoor soccer, as well as individual and team strategies for game play.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 112C 1 Unit****Advanced Indoor Soccer****Lab:** 54 contact hours**Prerequisite:** KINS 112B

This course is designed to teach advanced level skills and techniques of indoor soccer, as well as individual and team strategies for game play.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 116A 1 Unit****Beginning Soccer****Lab:** 54 contact hours

This course will provide beginning level instruction in the skills, techniques, strategies and rules of soccer. With the application of these techniques and practice, students may also improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 116B 1 Unit****Intermediate Soccer****Lab:** 54 contact hours**Advisory:** KINS 116A

This course will provide instruction in the skills, techniques and strategies of soccer at the intermediate level of performance. With the application of these techniques and practice, students may also improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 116C 1 Unit****Advanced Soccer****Lab:** 54 contact hours**Advisory:** KINS 116B

This course will provide instruction in the skills, techniques and strategies of soccer at the advanced level of performance. With the application of these techniques and practice, students may also improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 120A 1 Unit****Beginning Softball****Lab:** 54 contact hours

This course will provide instruction in the skills, techniques, strategies, etiquette and rules of softball at the beginner level of performance. With the application of these techniques and practice, students will improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 120B 1 Unit****Intermediate Softball****Lab:** 54 contact hours**Advisory:** KINS 120A

This course will provide instruction in the skills, techniques, strategies, etiquette and rules of softball at the intermediate level of performance. With the application of these techniques and practice, students will improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 120C 1 Unit****Advanced Softball****Lab:** 54 contact hours**Advisory:** KINS 120B

This course will provide instruction in the skills, techniques, strategies, etiquette and rules of softball at an advanced level of performance. With the application of these techniques and practice, students will improve their overall fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 124A 1 Unit****Beginning Volleyball****Lab:** 54 contact hours

This course is designed to teach the skills, techniques, strategies, etiquette and rules of volleyball at the beginning level of performance. Students may also improve their overall physical fitness.

Associate Degree Applicable**Transfers to both UC/CSU**

KINS 124B 1 Unit**Intermediate Volleyball****Lab:** 54 contact hours**Advisory:** KINS 124A

This course is designed to teach the skills, techniques, strategies, etiquette and rules of volleyball at an intermediate level of performance. Students may also improve their overall physical fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 124C 1 Unit****Advanced Volleyball****Lab:** 54 contact hours**Advisory:** KINS 124B

This course is designed to teach the skills, techniques, strategies, etiquette and rules of volleyball at an advanced level of performance. Students may also improve their overall physical fitness.

Associate Degree Applicable**Transfers to both UC/CSU****KINS 150A 1 Unit****Beginning Table Tennis****Lab:** 54 contact hours

This course is designed to teach beginning table tennis skills and techniques. Emphasis on basic skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally. (Formerly KINF 150A)

Associate Degree Applicable**Transfers to both UC/CSU****KINS 150B 1 Unit****Intermediate Table Tennis****Lab:** 54 contact hours**Advisory:** KINS 150A

This course is designed to teach intermediate table tennis skills and techniques. Emphasis on basic skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally. (Formerly KINF 150B)

Associate Degree Applicable**Transfers to both UC/CSU****KINS 150C 1 Unit****Advanced Table Tennis****Lab:** 54 contact hours**Advisory:** KINS 150B

This course is designed to teach advanced table tennis skills and techniques. Emphasis on basic skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally. (Formerly KINF 150C)

Associate Degree Applicable**Transfers to both UC/CSU****KINX 110AX3 3 Units****Intercollegiate Cross Country - Men****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Men's Intercollegiate Cross-Country team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate cross-country competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 110BX3 1 Unit****Intercollegiate Cross Country - Men Pre-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 110CX3 2 Units****Intercollegiate Cross Country - Men Off-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 111AX3 3 Units****Intercollegiate Cross Country - Women****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Women's Intercollegiate Cross-Country team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning, and teamwork required for intercollegiate cross-country competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 111BX3 1 Unit****Intercollegiate Cross Country Women Pre-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 111CX3 2 Units****Intercollegiate Cross Country - Women Off-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 112AX3 3 Units****Intercollegiate Football - Offense****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Intercollegiate Football team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate football competition.

Associate Degree Applicable**Transfers to both UC/CSU**

KINX 112BX3 1 Unit**Intercollegiate Football - Offense Pre-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 112CX3 2 Units****Intercollegiate Football - Offense Off-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 113AX3 3 Units****Intercollegiate Football - Defense****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Intercollegiate Football team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate football competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 113BX3 1 Unit****Intercollegiate Football - Defense Pre-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 113CX3 2 Units****Intercollegiate Football - Defense Off-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 114AX3 3 Units****Intercollegiate Soccer - Men****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Men's Intercollegiate Soccer team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate soccer competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 114BX3 1 Unit****Intercollegiate Soccer - Men Pre-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 114CX3 2 Units****Intercollegiate Soccer - Men Off-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 115AX3 3 Units****Intercollegiate Soccer - Women****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Women's Intercollegiate Soccer team. The course will provide instruction and training in skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate soccer competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 115BX3 1 Unit****Intercollegiate Soccer - Women Pre-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 115CX3 2 Units****Intercollegiate Soccer - Women Off-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 116AX3 3 Units****Intercollegiate Volleyball - Women****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Women's Intercollegiate Volleyball team. The course will provide instruction and training in the techniques, strategies, conditioning and teamwork required for intercollegiate volleyball competition.

Associate Degree Applicable**Transfers to both UC/CSU**

KINX 116BX3 1 Unit**Intercollegiate Volleyball - Women Pre-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 116CX3 2 Units****Intercollegiate Volleyball - Women Off-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 120AX3 1.5 Units****Intercollegiate Basketball - Men, Fall****Lab:** 81 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Men's Intercollegiate Basketball team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate basketball competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 120BX3 1.5 Units****Intercollegiate Basketball - Men, Spring****Lab:** 81 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout for KINX 120Ax3.

This course is intended for members of the Men's Intercollegiate Basketball team. The course is the second of the sequence that focuses on conference and postseason competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 120CX3 1.5-2 Units****Intercollegiate Basketball - Men Pre-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 120DX4 0.5-1 Units****Intercollegiate Basketball - Men Off-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 121AX3 1.5 Units****Intercollegiate Basketball - Women, Fall****Lab:** 81 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Women's Intercollegiate Basketball team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate basketball competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 121BX3 1.5 Units****Intercollegiate Basketball - Women, Spring****Lab:** 81 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout for KINX 121Ax3.

This course is intended for members of the Women's Intercollegiate Basketball team. The course is the second of the sequence that focuses on conference and postseason competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 121CX3 1.5-2 Units****Intercollegiate Basketball - Women Pre-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season athletics basketball training, which includes strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 121DX4 0.5-1 Units****Intercollegiate Basketball - Women Off-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season basketball skill development in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 130AX3 3 Units****Intercollegiate Baseball****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Intercollegiate Baseball Team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate baseball competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 130BX3 2 Units****Intercollegiate Baseball Pre-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU**

KINX 130CX3 1 Unit**Intercollegiate Baseball Off-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 131AX3 3 Units****Intercollegiate Softball****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Women's Intercollegiate Softball team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate softball competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 131BX3 2 Units****Intercollegiate Softball Pre-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 131CX3 1 Unit****Intercollegiate Softball Off-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 132AX3 3 Units****Intercollegiate Track and Field - Men****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Men's Intercollegiate Track and Field team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate track and field competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 132BX3 2 Units****Intercollegiate Track and Field - Men Pre-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 132CX3 1 Unit****Intercollegiate Track and Field - Men Off-Season Athletics****Lab:** 54 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for off-season sports conditioning in preparation for athletic participation. The course includes sport specific training with the purpose of developing areas of individual weaknesses.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 133AX3 3 Units****Intercollegiate Track and Field - Women****Lab:** 162 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is intended for members of the Women's Intercollegiate Track and Field team. The course will provide instruction and training in the skills, knowledge, techniques, strategies, conditioning and teamwork required for intercollegiate competition.

Associate Degree Applicable**Transfers to both UC/CSU****KINX 133BX3 2 Units****Intercollegiate Track and Field - Women Pre-Season Athletics****Lab:** 108 contact hours**Limitation on Enrollment:** Enrollment is based on a successful tryout.

This course is designed for pre-season intercollegiate athletics conditioning which includes: strength training, cardiovascular conditioning, drill techniques and game play in preparation for competition.

Associate Degree Applicable**Transfers to both UC/CSU**

Kinesiology Associate of Arts Degree

The Kinesiology Associate of Arts Degree provides students with an education in the core aspects of the Exercise of Science, Pedagogical, and Health and Human Performance. Lecture and laboratory course content offers a comprehensive understanding of the human body and wellness. This degree will prepare students to transfer to a 4-year institution, enter the workforce, and establish lifelong healthy and fit lifestyle habits.

Code	Title	Units
Required Courses:		
KIN 200	Introduction to Kinesiology	3
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
One Health Course from the Following:		
HEALTH 100	Introduction to Public Health	3
HEALTH 101	Personal Health and Wellness	3
HEALTH 103	Introduction to Holistic Health	3
HEALTH 104	Women's Health	3
One Biology Course Sequence:		8

BIOL 250 & BIOL 251	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8	KINS 100B	Intermediate Baseball	1
BIOL 260 & BIOL 261	Human Anatomy and Human Physiology	8	KINS 100C	Advanced Baseball	1
Kinesiology - Fitness: One Course from the Following: (1 unit minimum)			1		
KINF 100A	Beginning Pilates Mat	1	KINS 103A	Beginning Badminton	1
KINF 100B	Intermediate Pilates Mat	1	KINS 103B	Intermediate Badminton	1

KINX 131BX3	Intercollegiate Softball Pre-Season Athletics	2
KINX 131CX3	Intercollegiate Softball Off-Season Athletics	1
KINX 132AX3	Intercollegiate Track and Field - Men	3
KINX 132BX3	Intercollegiate Track and Field - Men Pre-Season Athletics	2
KINX 132CX3	Intercollegiate Track and Field - Men Off-Season Athletics	1
KINX 133AX3	Intercollegiate Track and Field - Women	3
KINX 133BX3	Intercollegiate Track and Field - Women Pre-Season Athletics	2
KINX 133CX3	Intercollegiate Track and Field - Women Off-Season Athletics	1
Electives - Two Courses:		
CHEM 101	Introductory Chemistry	4
FN 162	Introduction to Food and Nutrition	3
KIN 101	Sports Psychology	3
KIN 104	Exercise Nutrition	3
KIN 106	Athletic Administration	3
KIN 202	History of Physical Education and Sport in the United States	3
KIN 203	Theory of Coaching	3
KIN 205	Sports Management	3
KIN 231	First Aid and CPR	3
KIN 232	Prevention and Care of Athletic Injuries	3
KIN 236	Stress Management and Wellness	3
Total Units		25-28

Note: CHEM 101 or CHEM 105 are *required prerequisites* for BIOL 261.

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Create a personal philosophy and approach to integrating principles of Kinesiology.
- Use exercises to demonstrate knowledge of how the body functions and performs.
- Apply the study of kinesiology to prepare for the disciplines of pedagogy, exercise science, human health movement.

Kinesiology Associate in Arts for Transfer Degree

Kinesiology is the study of the principles of mechanics and anatomy in relation to human movement. The Kinesiology Associate in Arts Degree for Transfer (Kinesiology AA-T degree) provides students with an education in the core aspects of the Exercise of Science, Pedagogical, and Health and Human Performance. The Kinesiology AA-T degree prepares students for transfer to CSU campuses that offer bachelor's degrees in Kinesiology.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a Kinesiology AA-T degree, students must complete the following Associate Degree for Transfer requirements:

- completion of the following major requirements with grades of C (or "P");
- completion of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a baccalaureate institution and major in Kinesiology should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses:		
KIN 200	Introduction to Kinesiology	3
One Biology Course Sequence:		
		8

BIOL 250 & BIOL 251	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
BIOL 260 & BIOL 261	Human Anatomy and Human Physiology	8

Movement Based Courses - One course maximum from any three of the following categories: (3 units minimum)

Combative:

KINF 184A	Beginning Karate	1
KINF 184B	Intermediate Karate	1
KINF 184C	Advanced Karate	1
KINF 190A	Beginning Tai Chi	1
KINF 190B	Intermediate Tai Chi	1
KINF 190C	Advanced Tai Chi	1

Dance:

DANCE 101A	Beginning Modern Dance	2
DANCE 101B	Beginning/Intermediate Modern Dance	2
DANCE 102A	Intermediate Modern Dance	2
DANCE 102B	Intermediate/Advanced Modern Dance	2
DANCE 103A	Beginning Ballet	2
DANCE 103B	Beginning/Intermediate Ballet	2
DANCE 105A	Beginning Jazz Dance	2
DANCE 105B	Beginning/Intermediate Jazz Dance	2
DANCE 106A	Intermediate Jazz Dance	2
DANCE 106B	Intermediate/Advanced Jazz Dance	2
DANCE 107X2	Beginning Tap Dance	2

Fitness:

KINF 100A	Beginning Pilates Mat	1
KINF 100B	Intermediate Pilates Mat	1
KINF 100C	Advanced Pilates Mat	1
KINF 101A	Beginning Boxing for Fitness	1
KINF 101B	Intermediate Boxing for Fitness	1
KINF 105A	Beginning Low Impact Aerobics	1
KINF 105B	Intermediate Low Impact Aerobics	1
KINF 105C	Advanced Low Impact Aerobics	1
KINF 108A	Beginning Weight Training	1
KINF 108B	Intermediate Weight Training	1
KINF 108C	Advanced Weight Training	1
KINF 112A	Beginning Body Conditioning	1
KINF 112B	Intermediate Body Conditioning	1
KINF 115A	Beginning HIIT	1
KINF 115B	Intermediate HIIT	1
KINF 115C	Advanced HIIT	1
KINF 127A	Beginning Walking for Fitness	1
KINF 127B	Intermediate Walking for Fitness	1
KINF 132A	Beginning Distance Running	1
KINF 132B	Intermediate Distance Running	1
KINF 138A	Beginning Physical Fitness	1
KINF 138B	Intermediate Physical Fitness	1
KINF 138C	Advanced Physical Fitness	1
KINF 168A	Beginning Yoga	1
KINF 168B	Intermediate Yoga	1
KINF 168C	Advanced Yoga	1

Individual Sports:

KINS 103A	Beginning Badminton	1
KINS 103B	Intermediate Badminton	1
KINS 103C	Advanced Badminton	1
KINS 150A	Beginning Table Tennis	1
KINS 150B	Intermediate Table Tennis	1
KINS 150C	Advanced Table Tennis	1
Team Sports:		
KINS 104A	Beginning Basketball	1
KINS 104B	Intermediate Basketball	1
KINS 104C	Advanced Basketball	1
KINS 107A	Beginning Ultimate Frisbee	1
KINS 107B	Intermediate Ultimate Frisbee	1
KINS 107C	Advanced Ultimate Frisbee	1
KINS 116A	Beginning Soccer	1
KINS 116B	Intermediate Soccer	1
KINS 116C	Advanced Soccer	1
KINS 120A	Beginning Softball	1
KINS 120B	Intermediate Softball	1
KINS 120C	Advanced Softball	1
KINS 124A	Beginning Volleyball	1
KINS 124B	Intermediate Volleyball	1
KINS 124C	Advanced Volleyball	1

List A - Two courses from the following: (6 units minimum)

BIOL 100	General Biology	4
CHEM 104	Introduction to Organic Chemistry and Biochemistry	4
CHEM 105	Introduction to General, Organic and Biochemistry	5
CHEM 150	General Chemistry I	5
ECON 208	Business and Economic Statistics	4
	or MATH 108 Introduction to Probability and Statistics	
	or MATH 108H Introduction to Probability and Statistics - Honors	
	or PSYCH 105 Statistics for the Behavioral Sciences	
HEALTH 101	Personal Health and Wellness	3
KIN 231	First Aid and CPR	3
PHYSIC 151	General Physics for the Life Sciences I	4
PHYSIC 202	Physics I	4
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	

Code	Title	Units
Major Total		20-24
Total Units That May Be Double Counted		4-13
General Education (CSU GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		3-14
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply aerobic and anaerobic exercises for the proper form and alignment for a particular physical activity.
- Identify strategies, techniques, and standards in the field of Exercise of Science, Pedagogical, or Human Health Movement.
- Define health and skill related fitness components to promote an exercise program geared towards specific health, fitness, and wellness goals.
- Explain risk factors of communicable and hypokinetic diseases to make nutritional and necessary choices to fuel the body with nutrients for various degrees of activity and weight control.

Public Health Science Associate in Science for Transfer Degree

Public Health Science students will gain a deeper understanding of public health and its concentration areas. The Public Health Science Associate in Science for Transfer Degree (AS-T) provides students with an education in the core aspects to gain employment in Public and Private Health and Human service agencies, schools, corporations and non-profit and professional consulting organizations. The Public Health Science AS-T degree prepares students for transfer to CSU campuses that offer a bachelor's degree in Public Health Science.

To earn this AS-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Public Health Science should consult with a counselor regarding the transfer process and lower division requirements.

Elective (CSU Transferable) Units		2-4
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Describe the practical skills and knowledge base needed for employment, or other participation, in the field of Public Health Science and related fields.
- Identify cultural differences among populations and interact sensitively, effectively, and professionally with individuals of diverse backgrounds.
- Qualify for transfer to a four-year institution within the CSU system.

Learning Skills and Tutoring

The Learning Skills and Tutoring Department facilitates enrollment and provides support for on campus tutoring services. Research has shown that students who use tutoring services experience greater success in their college coursework. The Learning Skills and Tutoring coursework includes the supervised tutoring environment and the training for the student tutors.

Contact Information

Division: Academic Success and Learning Services (LIB - 123)

Division Phone Number: (909) 384-8649

Faculty Chairs: Celia Huston (chuston@sbccd.edu), Ph.D. and Maria Notarangelo (mnotarangelo@sbccd.edu), M.L.I.S.

Counselor Liaison: Rema Ghazaleh (rghazaleh@sbccd.edu), M.A.Ed., P.P.S.

LST 010 1 Unit

Tutor Training

Lecture: 9 contact hours

Lab: 27 contact hours

Advisory: Completion of any college-level course to be tutored with a grade of B or better is required.

This course presents techniques and strategies for effective academic peer tutoring in a community college setting. Emphasis is on tutoring, study skill techniques and practical skills to use in a variety of tutoring situations. Graded on pass/no pass basis only.

LST 606 Noncredit

Supervised Tutoring/Academic Instructional Support

Lab: 270 contact hours

Limitation on Enrollment: Students will be assigned to this course by a counselor or instructor or for supervised tutoring and learning assistance subject to regulations under Title 5 Section 58172 58164(c). Enrollment in at least one other course at San Bernardino Valley College and/or Crafton Hills College.

Students enrolled in this noncredit class receive assistance in understanding course-specific content in various content area classes. Activities may include, but are not limited to, supervised individual or group tutorial/instructional services, computer assisted instruction and testing. Enrollment in this class is limited to students who have been recommended by an instructor or counselor on the basis of an identified learning need.

LST 610 Noncredit

Tutor Training

Lecture: 9 contact hours

Lab: 27 contact hours

Advisory: Completion of any college-level course to be tutored with a grade of B or better.

This noncredit course presents techniques and strategies for effective academic tutoring and facilitation in a community college setting. Emphasis is on tutoring and facilitating, study skill techniques and practical skills to use in a variety of tutoring situations.

Liberal Arts

The Associate Degree in Liberal Arts is designed for students who wish a broad knowledge of liberal arts and sciences plus additional coursework in an "Area of Emphasis". An area of emphasis is ideal for students planning to transfer to the California State University (CSU) or University of California (UC). Students can satisfy required general education requirements, plus focus on transferable course work that relates to majors at CSU or UC. Students are advised to consult with a counselor for specific information regarding choice of major and transfer university. Students may obtain an Associate of Arts Degree in Liberal Arts by completing a minimum of 60 semester units as outlined below.

It is recommended that students complete either the IGETC or the CSU-GE for the general education pattern related to their educational goal. Students are also strongly advised to consult with a counselor relative to required courses for the selected option.

- Students must complete 18 units in one of the "Area of Emphasis" degrees listed below. A minimum of two courses from one discipline is required. (Note: Where appropriate, courses in the "Area of Emphasis" may also be counted for Associate Degree Option #1 or #2.)
- Courses that include a symbol X in the number such as MUS 141X2 indicate the course may be taken two times for credit. Students may apply each course with a symbol X only one time toward graduation requirements.
- Liberal Arts - Biological and Physical Sciences Associate of Arts Degree (p. 290)
- Liberal Arts - Humanities and Fine Arts Associate of Arts Degree (p. 291)
- Liberal Arts - Social and Behavioral Sciences Associate of Arts Degree (p. 293)

Liberal Arts - Biological and Physical Sciences Associate of Arts Degree

Biological and Physical Sciences

These courses emphasize the natural sciences, which examine the physical universe, its life forms, and natural phenomena. Courses in mathematics emphasize the development of mathematical and quantitative reasoning skills beyond the level of intermediate algebra. Students will be able to demonstrate an understanding of the methodologies of science as investigative tools. Students will also examine the influence that the acquisition of scientific knowledge has on the development of world civilization. Students must choose a minimum of 18 units, two courses from one discipline required.

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Utilize the degree to begin working in the field or transfer to an accredited four-year university as a junior in a Biological and/or Physical Science major.

Liberal Arts - Humanities and Fine Arts Associate of Arts Degree

Humanities and Fine Arts

These courses emphasize the study of cultural, literary, humanistic activities, and artistic expressions of human beings. Students will evaluate and interpret the ways in which people throughout the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students must also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments. Students must complete a minimum of 18 units, two courses from one discipline required.

Liberal Arts - Social and Behavioral Sciences Associate of Arts Degree

Social and Behavioral Sciences

These courses emphasize the perspective, concepts, theories, and methodologies of the disciplines typically found in the vast variety of disciplines that comprise study in the social and behavioral sciences. Topics and discussion to stimulate critical thinking about ways people have acted in response to their societies will allow students to evaluate how societies and social subgroups operate. Students must choose a minimum of 18 units, two courses from one discipline required.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Utilize the degree to begin working in the field or transfer to an accredited four-year university as a junior in a Social and Behavioral Science major.

Library Technology

Information literacy is an essential skill for students to excel in an era of unprecedented connectivity. Not only will it serve them in their academic pursuits, but our students will also enter the workforce better informed and prepared for the tumultuous information ecosystem that exists today. The Library Technology program exists to ensure that students develop these skills, as well as provide a solid foundation for the next generation of library paraprofessionals. The program offers a Library Technology certificate and associate of arts degree. Students with these credentials are eligible for work as school library specialists; library technicians, clerks, and pages; and library catalogers and billing specialists. The entire program can be completed online, with only one optional class (LIB 062) remaining in a hybrid format. The program serves a vital role in supplying the workforce for our local school, city, county, and academic library systems. All SBVC students are encouraged to take LIB 110, a transferable course that offers a broad introduction to information literacy, research, and critical evaluation of online information sources.

- Library Technology Associate of Arts Degree (p. 296)
- Library Technology Certificate of Achievement (p. 296)

LIB 062 1 Unit

Care and Repair of Library Materials

Lecture: 9 contact hours

Lab: 27 contact hours

This course provides the basic, hands-on techniques used in the binding, repair, and care of printed library materials.

Associate Degree Applicable

LIB 063 2 Units

Reader's Advisory

Lecture: 36 contact hours

Advisory: LIB 064 and READ 100

This course is an introductory study of reader's advisory work as performed in public, academic, and school libraries. It offers a practical study of popular literature and literary genres, interpersonal skills, and interview techniques needed to become successful in recommending specific titles and/or authors to library patrons based on parameters such as story elements, reading interests, age groups, and reading levels.

Associate Degree Applicable

LIB 064 2 Units**Introduction to Library Services****Lecture:** 36 contact hours**Advisory:** READ 100

This course is an introduction to the philosophy of library services and the history and types of libraries. The class covers the relationship of a library to the community it serves, especially in terms of typical library services and programs. Finally, the library in the online environment and the organizational structure of libraries are considered.

Associate Degree Applicable**LIB 065 2 Units****Public Services****Lecture:** 36 contact hours**Advisory:** READ 100

This course is an introduction to the public services provided by modern libraries. Topics include library customer service guidelines and skills; equity, diversity, and inclusion; organization, circulation, and materials; programs and series; and library safety.

Associate Degree Applicable**LIB 066 2 Units****Acquisitions****Lecture:** 36 contact hours**Advisory:** LIB 064 and READ 100

This course is an introduction to acquisitions practices in the modern library. Topics include needs assessment; collection management; selection of print and online resources; acquisitions processes; weeding/deselection of materials; ethics; preservation; legal and safety issues in libraries; and intellectual freedom.

Associate Degree Applicable**LIB 067 2 Units****Cataloging and Classification****Lecture:** 36 contact hours**Advisory:** LIB 064 and READ 100

This course is an introduction to descriptive and subject cataloging, copy cataloging, classification of materials using the Dewey Decimal and Library of Congress systems, preparation of MARC computer database records, and use of electronic bibliographic utilities.

Associate Degree Applicable**LIB 070 2 Units****Library Technology and Computer Services****Lecture:** 36 contact hours**Advisory:** LIB 064 and READ 100

This class is an introduction to the application and integration of automation systems and computers in libraries. Students will be exposed to a variety of computer applications, including online public access catalogs and automated circulation systems. This course provides an overview of a wide variety of computer services and issues within a library setting ranging from public access, social media, cyber security and emerging technologies.

Associate Degree Applicable**LIB 071 2 Units****Youth Services and Programs****Lecture:** 36 contact hours**Advisory:** READ 015

This course explores inclusive and age-appropriate library services and diverse programming for youth in public and school libraries.

Associate Degree Applicable**LIB 072 2 Units****School Library Media Centers****Lecture:** 36 contact hours**Advisory:** READ 100 and LIB 064

This course introduces students to the skills and competencies necessary to obtain an entry level position in an elementary or secondary school library media center.

Associate Degree Applicable**LIB 073 2 Units****Library Digital Archives and Resources****Lecture:** 36 contact hours**Advisory:** READ 015 and LIB 064

This course introduces archival theory and methods with a focus on digital media storage and preservation, including born-digital and digitized materials.

Associate Degree Applicable**LIB 098 1-4 Units****Library Technology Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**LIB 110 3 Units****Information Literacy and Research****Lecture:** 54 contact hours**Advisory:** READ 100

This is an introductory course covering the skills needed to effectively access library and online information sources, to critically evaluate the information retrieved, and to practice ethical behavior in regard to information technology.

Associate Degree Applicable**Transfers to both UC/CSU**

Library Technology Associate of Arts Degree

The Library Technology Degree equips students for professions in libraries or information management, encompassing modern technology and traditional print media. This curriculum is tailored to prepare individuals for roles as paraprofessionals in various library settings, including public, school, academic, or special libraries, as well as related industries.

Code	Title	Units
Required Courses:

Two courses from the following:		
LIB 062	Care and Repair of Library Materials	1
LIB 071	Youth Services and Programs	2
LIB 072	School Library Media Centers	2
LIB 073	Library Digital Archives and Resources	2
One Literature course from the following:		
ENGL 140	Exploring the World of Science Fiction	3
ENGL 141	Mystery and Detective Fiction	3
ENGL 153	Literature and Film	3
ENGL 161	Women Writers	3
ENGL 163	Chicana/o Literature	3
or ETHS 163	Chicana/o Literature	
ENGL 165	African-American Literature	3
or ETHS 165	African-American Literature	
ENGL 260	American Literature to Mid 19th Century	3
ENGL 261	American Literature from 1865 to Present	3
Total Units		21-22

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Utilize the correct technology and media for library services.
- Classify library materials in a variety of library environments such as schools, specialized, public and academic.
- Demonstrate the fundamentals of working with the public, and materials management.

- Describe the purposes, processes, and goals of the different departments within a library, including technical, public, and reference services.

Library Technology Certificate of Achievement

The Library Technology certificate trains students for careers in libraries or information management using print media as well as technology. The program is designed to prepare individuals for entry level employment in a public, school, academic, or special library or an information center.

Code	Title	Units
Required Courses:		
LIB 063	Reader's Advisory	2
LIB 064	Introduction to Library Services	2
LIB 065	Public Services	2
LIB 066	Acquisitions	2
LIB 067	Cataloging and Classification	2
LIB 070	Library Technology and Computer Services	2
LIB 098	Library Technology Work Experience ¹	1-4
LIB 110	Information Literacy and Research	3
One course from the following:		
LIB 062	Care and Repair of Library Materials	1
LIB 071	Youth Services and Programs	2
LIB 072	School Library Media Centers	2
LIB 073	Library Digital Archives and Resources	2
Total Units		17-21

¹ LIB 098 may be waived if the student has been employed in a library for at least one year at full-time (or equivalent). See Department Chair for additional information.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Utilize the correct technology and media for library services.
- Classify library materials in a variety of library environments such as schools, specialized, public and academic.
- Apply the fundamentals of public services and technical services.
- Describe the purposes, processes, and goals of the different departments within a library, including technical, public, and reference services.

Machinist Technology

The Machine Technology program offers a broad training that prepares individuals for entry-level employment in the machining industry. Through a combination of classroom study and assigned lab activities, students develop trade skills and become familiar with production methods and standards common to the industry. Within the lab setting, emphasis is on the practical application of skills. Students will learn to operate a variety of conventional machine tools and computer numerical control (CNC) machines, interpret industrial drawings/blueprints, and use precision measuring and inspection instruments. Good math, problem-solving, and computer skills are important.

Counselor Liaisons: Debbie Orozco (dorozco@sbccd.edu), M.A. and Patricia Jones (pjones@sbccd.edu), M.A.

- Basic Machine Operator Certificate of Career Preparation (p. 301)
- Computer Numerical Control: CAD/CAM Associate of Science Degree (p. 301)
- Computer Numerical Control: CAD/CAM Certificate of Achievement (p. 301)
- Computerized Numerical Control (CNC) Operator - Certificate of Achievement (p. 302)
- Industrial Maintenance Certificate of Achievement (p. 302)
- Machinist Standard Associate of Science Degree (p. 303)
- Machinist Standard Certificate of Achievement (p. 303)
- Manual Lathe and Milling Machine Operator Certificate of Achievement (p. 303)
- Tool & Die Associate of Science Degree (p. 303)
- Tool & Die Certificate of Achievement (p. 304)

MACH 010 1 Unit

Fundamentals of Industrial Maintenance

Lecture: 18 contact hours

This course covers orientation to the trade and tools of the trade for industrial maintenance mechanics.

Associate Degree Applicable

MACH 014 1 Unit

Craft Related Quantitative Skills

Lecture: 18 contact hours

This course is designed to give students the fundamental quantitative skills commonly used by industrial maintenance mechanics.

Associate Degree Applicable

MACH 016 1 Unit

Construction Print Reading

Lecture: 18 contact hours

This course is designed to give students the fundamental skills to read commonly used prints in construction by industrial maintenance mechanics.

Associate Degree Applicable

MACH 018 1.5 Units

Gaskets, Pumps, and Valves

Lecture: 27 contact hours

This course is designed to give students the fundamental skills in gaskets, packing, pumps, drivers, valves and lubrication used for industrial maintenance mechanics.

Associate Degree Applicable

MACH 020 1.5 Units

Material Handling, and Support Equipment

Lecture: 27 contact hours

This course is designed to give students the fundamental skills in material handling, hand rigging, mobile and support equipment used for industrial maintenance mechanics.

Associate Degree Applicable

MACH 021 3 Units

Machine Shop

Lecture: 18 contact hours

Lab: 108 contact hours

Advisory: MACH 090 and MACH 120

This course prepares students for entry into the machining industry. Students will explore career opportunities and requirements of a professional machinist. Content emphasizes beginning skills key to the success of working in the machining industry. Students study workplace safety and organization, job-related mathematics, basic blueprint information, basic measuring operations, benchwork skills, and the history of manufacturing.

Associate Degree Applicable

MACH 022 4 Units

Machine Shop II

Lecture: 18 contact hours

Lab: 162 contact hours

Advisory: MACH 021

This course includes machine shop practices for students with a machining background. Emphasis is placed on mathematical speeds and feed formulas, boring processes on mills and lathes, tool grinding, National Institute for Metalworking Skills (NIMS) Standards. At the completion of this course, students will have completed certain NIMS certification competencies.

Associate Degree Applicable

MACH 024 1 Unit

Introduction to Piping

Lecture: 18 contact hours

This course is designed to give students the fundamental skills necessary to work with various types of piping on the job site. The material covered in this course is copper and plastic piping and an introduction to ferrous metal piping practices.

Associate Degree Applicable

MACH 025 3 Units**General Machine Shop****Lecture:** 18 contact hours**Lab:** 108 contact hours

This introductory course instructs students in the basic set up and operating of the lathe, mill, saw, drill press, and grinder. Students will also learn safety, blueprint reading, measurement, shop math, tool grinding, and speed and feed calculations needed in machine shops.

Associate Degree Applicable**MACH 026 1 Unit****Valve Maintenance and Testing****Lecture:** 18 contact hours

This course is designed to give students the fundamental maintenance knowledge necessary to work with various types of valves and perform basic hydrostatic and pneumatic testing on the jobsite.

Associate Degree Applicable**MACH 028 1 Unit****Introduction to Bearings****Lecture:** 18 contact hours

This course is designed to give students the fundamental knowledge necessary to work with various types of bearings on the jobsite.

Associate Degree Applicable**MACH 029 1 Unit****Basic Layout for Industrial Maintenance****Lab:** 54 contact hours

This course is designed to give students the fundamental skills necessary to do basic on-the-job layout for machinery repair and installation.

Associate Degree Applicable**MACH 030 2 Units****Introduction to Steam Systems****Lecture:** 36 contact hours

This course is designed to give students the fundamental knowledge necessary to work with various types of steam systems commonly found on the jobsite.

Associate Degree Applicable**MACH 032 1 Unit****Distillation Towers and Vessels****Lecture:** 18 contact hours

This course is designed to give students the fundamental knowledge necessary to work with various types of distillation towers and vessels commonly found on the jobsite.

Associate Degree Applicable**MACH 034 1 Unit****Heaters and Cooling Towers****Lecture:** 18 contact hours

This course is designed to give students the fundamental knowledge necessary to work with various types of heaters, furnaces, heat exchangers, cooling towers and fin fans commonly found on the jobsite.

Associate Degree Applicable**MACH 040 3 Units****Intermediate Three-Dimensional Computer Modeling****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 075

This course covers intermediate concepts and development of three-dimensional solid modeling and solid assembly modeling using a Computer Aided Drafting (CAD) solid modeling program.

Associate Degree Applicable**MACH 041 4 Units****Advanced Mechanical Design Applications****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 075 and MACH 040

This course covers advanced modeling of machine parts in the various stages of manufacturing with required back-up items such as jigs, fixtures, weldments, tooling, molds and dies.

Associate Degree Applicable**MACH 042 3 Units****Mechanical Design and Drafting I****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 075

This course covers the production of engineering drawings with primary orthographic views, section views, detail views and auxiliary views. Students will also become familiar with detailing of drawing views including dimensions, notes/labels and drawing formats.

Associate Degree Applicable**MACH 043 4 Units****Mechanical Design and Drafting II****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 075 and MACH 042

This course covers advanced drawing techniques with a focus on mechanical applications. Advanced documentation/design practices including ASME Y14.5 tolerancing, symbol libraries, bills of material, and interface automation will be covered.

Associate Degree Applicable**MACH 050 1 Unit****Electrical Safety and Hand Bending****Lecture:** 18 contact hours

This course covers safety rules as applied to handling and working with electrical systems and circuits including methods and procedures used in cutting, bending, and reaming conduit.

Associate Degree Applicable**MACH 052 1 Unit****Fasteners and Electrical Theory****Lecture:** 18 contact hours

This course covers basic electrical theory and applications and installation procedures for various types of fasteners and anchors used in electrical systems and circuits.

Associate Degree Applicable**MACH 054 2 Units****National Electrical Code (NEC) and Electrical Test Equipment****Lecture:** 36 contact hours

The course covers the application of electrical test equipment, the National Electrical Code (NEC), and raceway-fittings and accessories.

Associate Degree Applicable**MACH 058 1 Unit****Electrical Print Reading and Wiring****Lecture:** 18 contact hours

This course covers the application of electrical print reading and the wiring of switches and receptacles used in residential, and commercial electricity.

Associate Degree Applicable

MACH 060 1 Unit**Electrical Performance Testing****Lab:** 54 contact hours**Prerequisite:** MACH 050 and MACH 052 and MACH 054 and MACH 058

In this course students will have the opportunity to demonstrate the skills learned in the classroom under the guidance of journeyman and/or qualified personnel on the jobsite.

Associate Degree Applicable**MACH 061 4 Units****Jig and Fixture Machining****Lecture:** 54 contact hours**Lab:** 54 contact hours**Advisory:** MACH 021 and MACH 090

This course includes the study of jig and fixture, design, and machining. Techniques to support conventional and computer numerical control (CNC) machining processes to improve manufacturing efficiency and productivity are explored.

Associate Degree Applicable**MACH 062 3 Units****Computer Numerical Control Wire Electric Discharge Machine Set Up and Operations****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 160

This course provides the student with instruction in the concepts and practices associated with the set up, operation, and programming of Computer Numerical Control (CNC) Wire Electrical Discharge Machines (EDM).

Associate Degree Applicable**MACH 070 3 Units****Computer Numerical Control Programming (CNC)****Lecture:** 18 contact hours**Lab:** 108 contact hours**Advisory:** TECALC 087 and MACH 090

This course focuses on basic numerical control programming and emphasizes math used for toolpath geometry, and the use of a computer CNC Software simulator for verifying toolpath geometry calculations.

Associate Degree Applicable**MACH 071 3 Units****Computer Numerical Control Programming II****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 070

This is an intermediate Computer Numerical Control (CNC) programming course which focuses on manual coding of various machine tool control languages. It includes programming concepts, and hands on manual programming to manufacture parts using Fanuc, Haas, and Mazak CNC machine tools.

Associate Degree Applicable**MACH 072 3 Units****Computer Aided Design and Manufacturing Programming I****Lecture:** 18 contact hours**Lab:** 108 contact hours

This course includes the study and use of Mastercam software with emphasis on drawing 2-D models, construction and part design basics related to 2-D models, and part programming for Computer Numerical Control (CNC) lathes and mills.

Associate Degree Applicable**MACH 073 3 Units****Computer Aided Design and Manufacturing Programming II****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 072

This course includes the study and use of Mastercam software, 3-D mill, solids, and lathe programming. Speeds, feeds, and tool path programming for generating G- code of complex surfaces are explored.

Associate Degree Applicable**MACH 074 3 Units****Computer Numerical Control (CNC) Machining Setup and Operation****Lecture:** 18 contact hours**Lab:** 108 contact hours

This is an introductory course designed to teach the fundamental skills related to the setup and operation of Computer Numerically Controlled (CNC) machine tools. Safety, tool selection, speeds and feeds, machine and controller functions, and calculation and input of offsets, are also included.

Associate Degree Applicable**MACH 075 3 Units****Computer Aided Design/Computer Aided Manufacturing Software****Lecture:** 18 contact hours**Lab:** 108 contact hours

This course is an introductory, hands-on instruction of Computer Aided Design/Computer Aided Manufacturing (CAD/CAM) theory and study using Solidworks and Mastercam software. Emphasis is placed on generating programs to prepare CNC machine programs for applications involving two or more axes of control.

Associate Degree Applicable**MACH 076 3 Units****Computer Numerical Control (CNC) Parts Programming and Machining****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 074

This course covers manual programming techniques, calculations, and program development for Computer Numerical Control (CNC) mills, machining centers, and lathes. Up to three axis of control will be discussed. Students will test part programs on Computer Numerical Control (CNC) machines during laboratory hours.

Associate Degree Applicable**MACH 077 3 Units****Advanced Computer Numerical Control (CNC) Machining****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 076

This course provides students with advanced instruction and practice in the concepts and practices associated with programming and set up of Computer Numerical Control (CNC) mills and lathes. Students will build upon prior experience with CNC machines to complete finished parts on Computer Numerical Control (CNC) mills and lathes having various control types. Students will run programs and practice set-up processes during lab time.

Associate Degree Applicable

MACH 078 3 Units**Multiple Axis Computer Numerical Control (CNC) Set-Up and Operation Machining****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** MACH 077

This course provides students with instruction associated with the programming and set up of Computer Numerical Control (CNC) mills with four and five axis of control. Students will build upon prior experience with Computer Numerical Control (CNC) machines to complete finished parts on Computer Numerical Control (CNC) mills with four and five axis of control. Students will run programs and practice set-up processes during the laboratory.

Associate Degree Applicable**MACH 090 3 Units****Mechanical Print Reading****Lecture:** 54 contact hours

This course covers basic drafting and print standards, fundamentals of shape description, fundamentals of size description and annotation, industrial drawing types, and specialized parts and prints. The course content focuses on interpreting and applying geometric dimensioning and tolerancing (GDT) in machining through math formulas, tolerancing systems, modifiers, symbols, datums, and tolerances of form, profile, orientation, run-out and location. Students examine and interpret the generation of a working drawing, and how they are developed as a team effort between design, drafting, manufacturing and quality control.

Associate Degree Applicable**MACH 091 2 Units****Geometric Dimensioning & Tolerancing****Lecture:** 36 contact hours**Prerequisite:** MACH 090

This course covers Geometric Dimensioning and Tolerancing interpretation and use of ANSI Y14.5M standards applied to prints regarding industry and government standards.

Associate Degree Applicable**MACH 098 1-4 Units****Machinist Technology Work Experience****WRKEX:** 300 contact hours

This course involves supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. Students work 5-20 hours per week to earn units using the following formula: For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. Students MUST be working for pay or volunteer before registering for a Work Experience class. NOTE: Only one section of Work Experience may be taken during a semester.

MACH 120 2 Units**Machine Shop Theory****Lecture:** 36 contact hours

This is a lecture course with instruction in the fundamentals of industrial processes and machines that are required of the machinist. Shop safety practices, job planning, feeds and speeds, layout tools, hand tools, bench work, and metal-cutting machines are covered.

Associate Degree Applicable**Transfers to CSU only****MACH 123 4 Units****Machine Shop III****Lecture:** 18 contact hours**Lab:** 162 contact hours**Advisory:** MACH 022

This course includes intermediate machine shop practices. Emphasis is placed on set up of machine tool accessories: steady rests, vises, rotary tables, indexers, and precision grinding accessories: precision vice, punch former, surface grinder radius dresser. At the completion of the course, students may qualify for National Institute for Metalworking Skills (NIMS).

Associate Degree Applicable**Transfers to CSU only****MACH 124 4 Units****Machine Shop IV****Lecture:** 18 contact hours**Lab:** 162 contact hours**Advisory:** MACH 123

This course includes advanced machine shop practices. Emphasis is placed on high precision with low tolerance manufacturing, advanced math applications, special tool grinding, part indexing, and carbide applications. At the completion of the course, students should have completed the National Institute for Metalworking Skills (NIMS) certification competency tests in Manual Milling and Grinding Skills I.

Associate Degree Applicable**Transfers to CSU only****MACH 129 2 Units****Manufacturing Processes****Lecture:** 36 contact hours**Advisory:** MACH 021

This course covers the basic manufacturing processes commonly used in the production of metal, plastic, wood, and composite parts. Emphasis is placed on forming, separating, fabricating, conditioning, and finishing processes related to each material. Process description, product/process characteristics are covered along with design and economic and environmental considerations. An overview of current automated manufacturing systems is presented.

Associate Degree Applicable**Transfers to CSU only****MACH 160 4 Units****Tool and Die****Lecture:** 18 contact hours**Lab:** 162 contact hours**Advisory:** MACH 075 and MACH 120 and MACH 123

This course includes the study and design of tool and die making processes; die cutting and forming; power presses dies for stamping and forming metal parts; and standards as outlined in the National Institute for Metalworking Skills (NIMS) standards.

Associate Degree Applicable**Transfers to CSU only****MACH 600 Noncredit****Conventional Machine Lab****Lab:** 54 contact hours

This noncredit laboratory course provides practice on machine shop equipment. Students will work on individual projects which they will retain for their use. Training received in this course develops an ability to visualize and perform various functions necessary in the machine trade.

MACH 601 Noncredit**Computer Numerical Control (CNC) Lab**

Lab: 9 contact hours

This noncredit laboratory course provides practice on CNC machine shop equipment. Students will work on individual projects which they will retain for their use. Training received in this course develops an ability to visualize and perform various functions necessary in the machine trade.

Basic Machine Operator Certificate of Career Preparation

The Basic Machine Operator certificate is designed to prepare students with basic entry-level machine operator skills, safety knowledge, theory, and quality control skills in manufacturing processes. Students obtaining this certificate will qualify for the first level certification in National Industry Metal Skills (NIMS).

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 075	Computer Aided Design/Computer Aided Manufacturing Software	3
MACH 090	Mechanical Print Reading	3
MACH 120	Machine Shop Theory	2
Total Units		11

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Prepare a part for NIMS bench and layout certification.
- Properly use hand grind cutting tools in machine tool cutting operations.
- Generate a 3-D assembly from a detailed illustration.
- Apply the formula for calculating feeds and speeds.
- Calibrate a micrometer.

Computer Numerical Control: CAD/CAM Associate of Science Degree

To graduate with a specialization in Computer Numerical Control: CAD/CAM, students must complete the following required courses for the certificate plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 022	Machine Shop II	4
MACH 090	Mechanical Print Reading	3
MACH 120	Machine Shop Theory	2
MACH 123	Machine Shop III	4
MACH 124	Machine Shop IV	4
Required Specialized Courses:		
MACH 070	Computer Numerical Control Programming (CNC)	3

MACH 071	Computer Numerical Control Programming II	3
MACH 072	Computer Aided Design and Manufacturing Programming I	3
MACH 073	Computer Aided Design and Manufacturing Programming II	3
MACH 074	Computer Numerical Control (CNC) Machining Setup and Operation	3
MACH 129	Manufacturing Processes	2
Total Units		37

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Accurately hold tolerances to a given print within a 1/64th for fractions and within .001" for NIMS decimals.
- Program a part print utilizing the Cartesian coordinate systems.
- Download files from computer disks to machine control.
- Generate a part model in SolidWorks from a detailed dimensioned illustration or a mechanical drawing.
- Demonstrate the use of a gage 2000 Browne & Sharpe coordinate measuring machine.

Computer Numerical Control: CAD/CAM Certificate of Achievement

The Computer Numerical Control: CAD/CAM certificate is designed to prepare students for entry-level employment as production machinists working with complex Computer Numerical Control (CNC) cutting machines.

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 022	Machine Shop II	4
MACH 090	Mechanical Print Reading	3
MACH 120	Machine Shop Theory	2
MACH 123	Machine Shop III	4
MACH 124	Machine Shop IV	4
TECALC 087	Technical Calculations	4
Required Specialized Courses:		
MACH 070	Computer Numerical Control Programming (CNC)	3
MACH 071	Computer Numerical Control Programming II	3
MACH 072	Computer Aided Design and Manufacturing Programming I	3
MACH 073	Computer Aided Design and Manufacturing Programming II	3

MACH 074	Computer Numerical Control (CNC) Machining Setup and Operation	3
MACH 129	Manufacturing Processes	2
Total Units		41

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Accurately hold tolerances to a given print within a 1/64th for fractions and within .001" for NIMS decimals.
- Program a part print utilizing the Cartesian coordinate systems.
- Download files from computer disks to machine control.
- Generate a part model in SolidWorks from a detailed dimensioned illustration or a mechanical drawing.
- Demonstrate the use of a gage 2000 Browne & Sharpe coordinate measuring machine.

Computerized Numerical Control (CNC) Operator - Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in Computer Aided Manufacturing (CAM) programming, set up, and operation of Computer Numerical Control (CNC) machine tools.

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 070	Computer Numerical Control Programming (CNC)	3
MACH 075	Computer Aided Design/Computer Aided Manufacturing Software	3
TECALC 087	Technical Calculations	4
MACH 090	Mechanical Print Reading	3
MACH 129	Manufacturing Processes	2
Total Units		18

Code	Title	Units
Recommended Courses:		
WELD 012	Oxy-Fuel Welding	2
OSHA 035	Federal OSHA Outreach: General Industry Safety	2
MACH 098	Machinist Technology Work Experience	1-4

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Categorize cutting tool geometry and cutting tool materials used in CNC machining.

- Reproduce toolpath processes used in 2D and 3D High Speed CNC machining operations.
- Implement acceptable procedures employed in CNC job planning, tooling, selection, and programming.
- Predict the appropriate CAM toolpath operations used in CNC machining.

Industrial Maintenance Certificate of Achievement

Industrial Maintenance certified trainees are needed in every industry that uses machinery, from automotive assembly plants to crane manufacturers. Technicians who successfully complete these courses may receive industrial maintenance certificate. Certified technicians will be able to demonstrate specialized skills and will have more opportunities for career advancement. Technicians who successfully complete some of the NCCER (National Center of Construction Education and Research) modules will receive credit toward this certificate and vice versa.

Code	Title	Units
Required Courses:		
MACH 010	Fundamentals of Industrial Maintenance	1
MACH 014	Craft Related Quantitative Skills	1
MACH 016	Construction Print Reading	1
MACH 018	Gaskets, Pumps, and Valves	1.5
MACH 020	Material Handling, and Support Equipment	1.5
MACH 024	Introduction to Piping	1
MACH 026	Valve Maintenance and Testing	1
MACH 028	Introduction to Bearings	1
MACH 029	Basic Layout for Industrial Maintenance	1
MACH 030	Introduction to Steam Systems	2
MACH 032	Distillation Towers and Vessels	1
MACH 034	Heaters and Cooling Towers	1
MACH 050	Electrical Safety and Hand Bending	1
MACH 052	Fasteners and Electrical Theory	1
MACH 054	National Electrical Code (NEC) and Electrical Test Equipment	2
MACH 058	Electrical Print Reading and Wiring	1
MACH 060	Electrical Performance Testing	1
WELD 012	Oxy-Fuel Welding	2
Total Units		22

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate the proper use and basic maintenance of selected industrial maintenance tools.
- Use layout tools for repairing or modifying machinery and sheet metal.
- Safely use test equipment to take measurements.

Machinist Standard Associate of Science Degree

The Machinist Standard A.S. degree is designed to prepare students for entry-level employment in manufacturing using advanced setup techniques on machine tools such as lathes, mills, and grinders to produce close tolerance precision parts

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 022	Machine Shop II	4
MACH 090	Mechanical Print Reading	3
MACH 091	Geometric Dimensioning & Tolerancing	2
MACH 120	Machine Shop Theory	2
MACH 123	Machine Shop III	4
MACH 124	Machine Shop IV	4
MACH 129	Manufacturing Processes	2
Total Units		24

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify numerous hand tools.
- Identify the different classifications and properties of ferrous and non-ferrous materials.
- Demonstrate the process of indicating a machine head to the table with an accuracy of .0005".
- Identify features in orthographic multi-views.

Machinist Standard Certificate of Achievement

The Machinist Standard certificate is designed to prepare students for entry-level employment in manufacturing using advanced setup techniques on machine tools such as lathes, mills, and grinders to produce close tolerance precision parts.

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 022	Machine Shop II	4
MACH 123	Machine Shop III	4
MACH 124	Machine Shop IV	4
MACH 120	Machine Shop Theory	2
MACH 090	Mechanical Print Reading	3

MACH 091	Geometric Dimensioning & Tolerancing	2
MACH 129	Manufacturing Processes	2
Total Units		24

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify numerous hand tools.
- Identify the different classifications and properties of ferrous and non-ferrous materials.
- Demonstrate the process of machine head to the table with an accuracy of .0005".
- Identify features in orthographic views.

Manual Lathe and Milling Machine Operator Certificate of Achievement

This certificate is designed to prepare students for entry-level employment in manufacturing using machine tools such as lathes and milling machines to produce precision metal parts.

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 022	Machine Shop II	4
MACH 075	Computer Aided Design/Computer Aided Manufacturing Software	3
TECALC 087	Technical Calculations	4
MACH 090	Mechanical Print Reading	3
MACH 098	Machinist Technology Work Experience	1-4
Total Units		18-21

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Articulate the operation and maintenance procedures used for machine tools.
- Duplicate current industrial computer aided-drawing practices.
- Illustrate the procedures for the set-up and operation of manual machining centers.

Tool & Die Associate of Science Degree

To graduate with a specialization in Tool and Die, students must complete the following required courses for the certificate plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 022	Machine Shop II	4
MACH 090	Mechanical Print Reading	3
MACH 120	Machine Shop Theory	2
MACH 123	Machine Shop III	4
MACH 124	Machine Shop IV	4
Required Specialized Courses:		
MACH 061	Jig and Fixture Machining	4
MACH 129	Manufacturing Processes	2
MACH 160	Tool and Die	4
Total Units		30

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate safety by passing NIMS and OSHA safety.
- Read and perform work according to blueprints or drawing sheets.
- Operate machinery to complete a task with precision and accuracy.

Tool & Die Certificate of Achievement

The Tool & Die certificate is designed to prepares students for entry-level employment in producing tools, dies, and special guiding and holding devices that enable machines to manufacture a variety of products used daily - from clothing to furniture to heavy equipment and parts for aircraft.

Code	Title	Units
Required Courses:		
MACH 021	Machine Shop	3
MACH 022	Machine Shop II	4
MACH 090	Mechanical Print Reading	3
MACH 120	Machine Shop Theory	2
MACH 123	Machine Shop III	4
MACH 124	Machine Shop IV	4
TECALC 087	Technical Calculations	4
Required Specialized Courses:		
MACH 061	Jig and Fixture Machining	4
MACH 129	Manufacturing Processes	2
MACH 160	Tool and Die	4
Total Units		34

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate safety by passing NIMS and OSHA safety.
- Read and perform work according to blueprints or drawing sheets.
- Operate machinery to complete a task with precision and accuracy.

Mathematics

The Mathematics Department offers coursework in all levels of mathematics from arithmetic through differential equations and linear algebra. Students seeking improvement in their basic mathematical skills and those desiring development of advanced mathematical methods can all find meaningful activities in the mathematics program. While there are job opportunities in pure mathematics, there are even more in education, business, engineering, and other technical fields that rely on mathematics. Students planning to transfer to a four-year institution and major in mathematics or a related field should consult with a counselor regarding the transfer process and lower division requirements.

Sequence of Mathematics Courses at SBVC

Students pursuing an AS-T in Mathematics or a STEM major are recommended to follow the STEM track sequence. Non-STEM majors should take a course in the non-STEM track, if required. Please contact a counselor to see what course is appropriate for your educational goals. Eligibility to enroll in a mathematics course is subject to the SBVC Self-Guided Placement. Please contact a counselor for details.

Code	Title	Units
STEM Track Courses:		
MATH 102	College Algebra ¹	4
MATH 103	Plane Trigonometry ¹	4
MATH 151	Precalculus	4
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5
MATH 265	Linear Algebra	4
MATH 266	Ordinary Differential Equations	4
Note: MATH 102 and MATH 103 can be taken simultaneously.		

Code	Title	Units
Non-STEM Track Classes:		
MATH 102	College Algebra ^{1,2}	4
MATH 103	Plane Trigonometry ^{1,2}	4
MATH 108	Introduction to Probability and Statistics ²	4
MATH 108H	Introduction to Probability and Statistics - Honors	4
MATH 115	Ideas of Mathematics ²	3
MATH 120	Mathematical Financial Planning	4
MATH 141	Business Calculus ^{1,2}	4

¹ Be advised, this course assumes a student has completed Intermediate Algebra or Algebra 2, or an equivalent such as Math III.

² Please contact a counselor to see if this course is appropriate to your educational goals.

Code	Title	Units
Support Courses		
MATH 602	Support for College Algebra	0
MATH 608	Support for Introductory Statistics	0
Note: MATH 602 and MATH 608 are taken simultaneously with MATH 102 and MATH 108; respectively.		

ALEKS Lab

This lab is located in PS - 131 and is for students enrolled in MATH 601, Independent Lab for Fundamental Mathematical Skills. Students interested in enrolling in this course must consult with a STEM counselor. <http://www.sbvstem.org/stem-counseling.php>

The benefits from the ALEKS lab include:

- Support for non-tradition/traditional students
- Acknowledge the level of strength and weakness in mathematics
- One-on-one tutoring in Mathematics

Contact Information

Division: Mathematics, Business, and Computer Technology (B - 127)

Division Phone Number: (909) 384-8520

Faculty Chair: Anthony Castro (acastro@sbccd.edu), M.S.

Counselor Liaisons: Deana Kelly-Silagay (dsilagay@sbccd.edu), M.A. and Armando Garcia (argarcia@sbccd.edu), M.S.C.

- Mathematics Associate in Science for Transfer Degree (p. 308)

MATH 102 4 Units

College Algebra

Lecture: 72 contact hours

Prerequisite: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course is designed for students with a strong foundation in algebra. It includes the study of polynomial rational functions and inequalities, exponential and logarithmic functions, conics, systems of nonlinear equations and inequalities, and an introduction to sequences, series, and the Binomial Theorem.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: MATH 150/151

MATH 103 4 Units

Plane Trigonometry

Lecture: 72 contact hours

Prerequisite: Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course provides a study of trigonometric functions, identities, trigonometric equations, periodicity, graphs of trigonometric functions, inverse trigonometric functions, solving right triangles, solving triangles using the Law of Cosines and Law of Sines, polar coordinates, and an introduction to vectors.

Associate Degree Applicable

Transfers to CSU only

C-ID: MATH 851

MATH 106 3 Units**Mathematical Concepts for Elementary School Teachers****Lecture:** 54 contact hours**Prerequisite:** Completion of intermediate algebra or appropriate college-level placement based on the SBVC Guided-Self Placement process.

This course focuses on the development of quantitative reasoning skills through in-depth, integrated exploration of topics in mathematics, including real number systems and subsystems. Emphasis on comprehension and analysis of mathematical concepts and applications of logical reasoning. This course is designed for future elementary school teachers.

Associate Degree Applicable**Transfers to both UC/CSU****MATH 108 4 Units****Introduction to Probability and Statistics****Lecture:** 72 contact hours**Prerequisite:** Completion of intermediate algebra or appropriate college-level placement based on the SBVC Guided-Self Placement process.

This course is an introduction to probability, descriptive and inferential statistics, with applications to the natural sciences, life science, health science, education, business, economics, and the behavioral sciences.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 110**MATH 108H 4 Units****Introduction to Probability and Statistics - Honors****Lecture:** 72 contact hours**Prerequisite:** Completion of intermediate algebra or appropriate college-level placement based on the SBVC Guided-Self Placement process.

This course is an introduction to probability, descriptive and inferential statistics, with applications to the natural sciences, life science, health science, education, business, economics, and the behavioral sciences. This course includes content and experiences appropriate for students wishing to earn honors credit. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****MATH 115 3 Units****Ideas of Mathematics****Lecture:** 54 contact hours**Prerequisite:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

This course includes sets, propositional logic, inductive reasoning and applications, mathematical patterns, counting methods, and finite probability spaces.

Associate Degree Applicable**Transfers to both UC/CSU****MATH 120 4 Units****Mathematical Financial Planning****Lecture:** 72 contact hours**Prerequisite:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

Learn the fundamentals of personal financial planning. This is a course designed to help students plan their financial life from student loans to retirement and investment strategies. Topics include credit management strategies, loan evaluation, buying and leasing automobiles, buying a house, investing and portfolios, insurance, taxes, and retirement planning. All topics developed through rigorous quantitative and mathematical applications in linear, algebraic, exponential, and logarithmic functions, sequences, series, and an introduction to portfolio risk analysis. Use of technology and financial calculators for financial planning.

Associate Degree Applicable**Transfers to both UC/CSU****MATH 141 4 Units****Business Calculus****Lecture:** 72 contact hours**Prerequisite:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.**Advisory:** MATH 102

This course is a study of calculus techniques with emphasis placed on concepts related to business and management solutions. Additional applications of derivatives and integrals of functions including polynomials, rational, exponential and logarithmic functions are studied.

Associate Degree Applicable**Transfers to both UC/CSU****MATH 151 4 Units****Precalculus****Lecture:** 72 contact hours**Prerequisite:** MATH 102 and MATH 103 or placement into MATH 151 based on the SBVC Guided-Self Placement process.

This course is designed for students preparing to take Calculus. It deepens students' understanding of algebra and trigonometry by building on topics from College Algebra and Plane Trigonometry, both of which are foundational for Calculus students. Topics include polynomials, rational, exponential, logarithmic, and trigonometric functions and their graphs, systems of linear and nonlinear equations and inequalities, partial fraction decomposition, parametric and polar equations, and an introduction to limits.

Associate Degree Applicable**Transfers to both UC/CSU****MATH 180 4 Units****Introduction to Data Science****Lecture:** 72 contact hours**Prerequisite:** Completion of intermediate algebra or appropriate college-level placement based on the SBVC Guided-Self Placement process.

Introductory course on data collection and management, data manipulation, data modeling, statistical inference, and statistical modeling with data. Students will gain experience using a computer programming language (e.g. Python, R, etc.) to carry out statistical analysis.

Associate Degree Applicable**Transfers to both UC/CSU**

MATH 222 1-3 Units**Independent Study in Mathematics****DIR:** 54 contact hours**Prerequisite:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.

Students with previous course work in mathematics may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of mathematics. Prior to registration, a written contract must be jointly prepared by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only****MATH 250 4 Units****Single Variable Calculus I****Lecture:** 72 contact hours**Prerequisite:** MATH 151 or placement into MATH 250 based on the SBVC Guided-Self Placement process.

This is a first course in calculus, including limits, continuity, derivatives of algebraic and transcendental functions, applications of derivatives, antiderivatives, the Fundamental Theorem of Calculus, definite integrals and their applications.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 211/900S**MATH 251 4 Units****Single Variable Calculus II****Lecture:** 72 contact hours**Prerequisite:** MATH 250 or placement into MATH 251 based on the SBVC Guided-Self Placement process.

This second course in calculus provides further application of definite integrals, differentiation and integration of transcendental functions, techniques of integration, L'Hopital's rule and improper integrals, infinite sequences and series, Taylor and power series, polar and parametric equations.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 221/900S**MATH 252 5 Units****Multivariable Calculus****Lecture:** 90 contact hours**Prerequisite:** MATH 251

This third course in calculus includes vectors, lines, and simple surfaces in three-dimensional space, some linear algebra topics, vector-valued functions, partial derivatives, multiple integrals, line integrals and Green's Theorem, surface integrals and the theorems of Gauss and Stokes.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 230**MATH 265 4 Units****Linear Algebra****Lecture:** 72 contact hours**Prerequisite:** MATH 250

This course develops the techniques and theory needed to solve and classify systems of linear equations. Techniques that are covered include row operations, Gaussian elimination, and the algebra of matrices. The course explores the properties of vectors in n dimensions, which leads to the notion of an abstract vector space. The theory of vector spaces and matrices are introduced, and the topics include inner products, norms, orthogonality, eigenvalues, eigenspaces, and linear transformations. Applications of linear algebra are included.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 250/910S**MATH 266 4 Units****Ordinary Differential Equations****Lecture:** 72 contact hours**Prerequisite:** MATH 251**Advisory:** MATH 252

The course is an introduction to ordinary differential equations including both quantitative and qualitative methods as well as applications from a variety of disciplines. Introduces the theoretical aspects of differential equations, including establishing when solution(s) exist, and techniques for obtaining solutions, including, series solutions, and singular points, Laplace transforms and linear systems.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 240/910S**MATH 601 Noncredit****Independent Lab for Fundamental Mathematical Skills****Lab:** 54 contact hours

This noncredit course is offered as a study or review of the fundamental concepts of arithmetic, prealgebra, beginning algebra, and intermediate algebra as appropriate based on individual student needs. The course is intended for students who need to refresh their math skills prior to taking a college level math course.

MATH 602 Noncredit**Support for College Algebra****Lab:** 54 contact hours**Corequisite:** MATH 102

This noncredit course is a review of the prerequisite skills essential for college algebra. This course includes a review of topics covered in elementary and intermediate algebra as appropriate, based on individual student needs. The course is intended for students who need to refresh their math skills while enrolled in a college algebra math course to be used for just in time remediation.

MATH 608 Noncredit**Support for Introductory Statistics****Lab:** 54 contact hours**Corequisite:** MATH 108

This noncredit course is a review of the prerequisite skills essential for statistics. This course includes a review of topics covered in arithmetic and algebra as appropriate, based on individual student needs. The course is intended for students who need to refresh their math skills while enrolled in an introductory statistics course to be used for just in time remediation.

MATH 650 Noncredit**Support for Calculus****Lab:** 54 contact hours**Corequisite:** MATH 250

This noncredit course is a review of the prerequisite skills essential for calculus. The course includes a review of topics covered in college algebra and trigonometry as appropriate, based on individual student needs. The course is intended for students who need to refresh their math skills while enrolled in a calculus course to be used for just in time remediation.

MATH 651 Noncredit**Support for Precalculus****Lab:** 36 contact hours**Corequisite:** MATH 151

This noncredit course is a review of the prerequisite skills essential for precalculus. This course includes a review of topics covered in elementary algebra, intermediate algebra, college algebra, and trigonometry as appropriate, based on individual student needs. The course is intended for students who need to refresh their math skills while enrolled in a precalculus math course to be used for just in time remediation.

Mathematics Associate in Science for Transfer Degree

Mathematics is one of the oldest sciences. Mathematicians usually work in two general areas of mathematics, theoretical or applied mathematics. Mathematicians expand mathematical knowledge, by discovering mathematical principles or expanding on known mathematical theory. Mathematicians develop models indirectly or directly to solve problems in other fields such as business, chemistry, biology, physics, engineering, statistics, computer science, and other sciences.

An AS-T degree in mathematics includes a general study of calculus, with additional study in linear algebra, differential equations, or computer science. The degree will prepare students to successfully complete additional study in mathematics at CSU.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn this Mathematics AS-T degree, students must meet the following requirements:

- completion of the following major requirements with grades of C (or "P");
- completion of a minimum of 60 CSU transferrable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning on transferring to a four-year institution and major in Mathematics should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
------	-------	-------

Required Courses:

MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5

Select 8 units from List A and B with at least 4 units from List A.**List A - One to two courses from the following:**

MATH 265	Linear Algebra	4
MATH 266	Ordinary Differential Equations	4

List B - One course from the following:

CS 190	Programming in C++	4
PHYSIC 202	Physics I	4
MATH 108	Introduction to Probability and Statistics	4
	or MATH 108H Introduction to Probability and Statistics - Honors	
	or ECON 208 Business and Economic Statistics	

Code	Title	Units
------	-------	-------

Major Total		21
Total Units That May Be Double Counted		3
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		3-5
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply mathematical rules to manipulate mathematical expressions.
- Differentiate between theoretical and applied mathematical concepts.
- Integrate mathematical concepts and principles to other science disciplines.
- Model a real world problem using a mathematical model.

Modern Languages

The Modern Languages Department offers beginning, intermediate and advanced courses in Arabic, American Sign Language (ASL), Chinese (Mandarin), French and Spanish. Arabic, Chinese, French and Spanish are among the top ten most spoken languages in the U.S. and American Sign Language is the native language used by the Deaf community in the U.S. and parts of Canada. The primary objective of the Modern Languages Department is to teach language and culture at a level allowing one to communicate and interact with the community appropriately. Instruction emphasizes communication and cultural competency. The study of language may assist individuals seeking employment within, or in support of, various linguistic communities. Areas of employment benefitting from language and cultural competency may include Nursing, Human Services, Education, Business and Sales, and more. Students transferring for a Modern Language B.A. should consult a counselor regarding course requirements.

American Sign Language (ASL)

American Sign Language is the natural language of the Deaf community and is the foundation of Deaf Culture. American Sign Language is used by an estimated 2,500,000 members of the Deaf community in North America. American Sign Language is identified as a legitimate language with its own linguistic properties and grammar. American Sign Language courses are designed to help students develop level-appropriate linguistic, communicative, and cultural competence. Comprehension and expressive

practice of American Sign Language occurs within culturally relevant contexts. San Bernardino Valley College offers first, second, third and fourth semester of American Sign Language courses, which are degree, CSU and UC applicable. For those seeking a career as an ASL interpreter, this coursework is the first step in transferring to an interpreter education program.

ASL 109 4 Units American Sign Language I

Lecture: 72 contact hours

In this course students develop communication skills in American Sign Language including the alphabet, basic vocabulary and grammar of ASL. Both receptive and expressive abilities are emphasized. Students review the characteristics of the deaf community and culture.

Associate Degree Applicable
Transfers to both UC/CSU

ASL 110 4 Units American Sign Language II

Lecture: 72 contact hours

Prerequisite: ASL 109

The course is second in a series of four ASL courses designed for the student to develop proficiency in ASL usage. Students continue to develop basic conversational skills with emphasis on expanding vocabulary and comprehension/production skills. There are four basic categories: cultural awareness, grammatical features, vocabulary development, and conversational skills.

Associate Degree Applicable
Transfers to both UC/CSU

ASL 111 4 Units American Sign Language III

Lecture: 72 contact hours

Prerequisite: ASL 110

Students continue to develop conversational skills in American Sign Language and expand their vocabulary and grammar of ASL. Students review primary issues in deaf culture and strengthen their understanding of deaf awareness. Emphasis is on idiomatic constructions as well as comprehension and production skills.

Associate Degree Applicable
Transfers to both UC/CSU

ASL 112 4 Units American Sign Language IV

Lecture: 72 contact hours

Prerequisite: ASL 111

This course is designed to help students acquire communicative competency in American Sign Language, both comprehension and production skills within the contexts of literature and storytelling. Emphasis is on cultural awareness, grammatical features, vocabulary development, and conversational skills.

Associate Degree Applicable
Transfers to both UC/CSU

ASL 120 3 Units**Introduction to Deaf Studies****Lecture:** 54 contact hours

This course explores and develops the awareness of the linguistic, social, educational, and cultural experiences/perspectives of the Deaf community and the deaf, hard of hearing, Deaf/Blind, and late deaf in North America. The cultural values, characteristics, and social dynamics will be introduced and explored. Topics will be examined from historical and current day constructs. The experience and dynamics of a d/Deaf individual in America as a minority group, and double/minority will be discussed and explored.

Associate Degree Applicable**Transfers to both UC/CSU****Arabic**

Modern Arabic is an official United Nations language that is used across 22 countries with over 300 million native speakers. From Tangier to Cairo, and Sudan to Syria, this sacred language is the key to understanding the cultural and historical diversity of the Arabic world. The objectives of Arabic courses are level-appropriate linguistic competence and increased awareness of Arabic culture. Courses in Arabic include the study of essentials of pronunciation including the Arabic alphabet, symbols and sounds, vocabulary, idioms, and grammatical structures along with an introduction to the key social issues and culture of Arabic-speaking people. SBVC offers a first and second semester of Arabic language courses, which are degree, CSU and UC applicable.

ARAB 101 5 Units**College Arabic I****Lecture:** 90 contact hours

This course includes the study of essentials of pronunciation including the Arabic alphabet, symbols and sounds, vocabulary, idioms, and grammatical structures along with an introduction to the key social issues and culture of Arabic-speaking people. This course corresponds to two years of high school study.

Associate Degree Applicable**Transfers to both UC/CSU****ARAB 102 5 Units****College Arabic II****Lecture:** 90 contact hours**Prerequisite:** ARAB 101

In this course students continue to develop the ability to converse, read and write in Arabic. The course includes the study of essentials of pronunciation, vocabulary, idioms, and grammatical structures along with an introduction to the key social issues and culture of Arabic speaking people.

Associate Degree Applicable**Transfers to both UC/CSU****Chinese**

Mandarin is one of the most widely spoken languages in the world currently spoken by nearly one-fifth of the world's population. Because of its influence in diplomacy, Chinese has become one of the most requested languages after Spanish. Given its universality, Mandarin is a useful language in a global society and economy. SBVC offers a first and second semester of Mandarin Chinese language courses. Courses are designed to help students develop communicative and cultural competence. Students practice listening, speaking, reading, and writing Chinese in culturally relevant contexts. SBVC offers a first and second semester of Chinese Mandarin language courses, which are degree, CSU and UC applicable.

CHIN 101 5 Units**College Mandarin Chinese I****Lecture:** 90 contact hours

In this course students develop four major linguistic skills: listening comprehension, speaking, reading and writing in Mandarin Chinese at the beginning level. The course includes the study of essentials of pronunciation, vocabulary and grammatical patterns along with an introduction to the Chinese history, culture, and the geography of the Chinese speaking world.

Associate Degree Applicable**Transfers to both UC/CSU****CHIN 102 5 Units****College Mandarin Chinese II****Lecture:** 90 contact hours**Prerequisite:** CHIN 101

In this course students will continue to develop four major linguistic skills: listening comprehension, speaking, reading and writing in Mandarin Chinese at the beginning/intermediate level. The course includes the study of essentials of pronunciation, vocabulary and grammatical patterns and expands upon the history, culture, and the geography of the Chinese speaking world.

Associate Degree Applicable**Transfers to both UC/CSU****French**

Modern French is spoken in 29 countries, covering five continents, an honor shared only with English. A language of philosophy, political revolution, and romance, it is the source of considerable pride for over 275 million native speakers. Because of its political and economic strengths, French is the third most widely used language on the Internet. The objectives of French courses are level-appropriate linguistic competence and increased awareness of Francophone culture. SBVC offers a first and second semester of French language courses, which are degree, CSU and UC applicable.

FRENCH 101 5 Units**College French I****Lecture:** 90 contact hours

In this course students develop the ability to converse, read and write in French. The course includes the study of essentials of pronunciation, vocabulary, idioms and grammatical structures along with an introduction to the culture of French-speaking peoples. This course corresponds to two years of high school study.

Associate Degree Applicable**Transfers to both UC/CSU****FRENCH 102 5 Units****College French II****Lecture:** 90 contact hours**Prerequisite:** FRENCH 101

This course provides students the opportunity to continue to develop conversational, reading and writing skills in French with special emphasis on past tense verbs, grammar, vocabulary expansion and cultural applications of the French language.

Associate Degree Applicable**Transfers to both UC/CSU****Spanish**

Spanish is the language of 560 million people around the world. It is a culturally rich and historically significant language, the use of which spans no less than 3 continents and 20+ countries. Spanish is the second most spoken language in the United States, and it is the dominant language in

many neighboring countries in the Western Hemisphere. The objectives of Spanish courses are level-appropriate linguistic competence and increased awareness of Hispanic culture. Classroom methods incorporate critical thinking and the direct oral approach. Assignments are based on lectures, reading, presentations and individual research. Activities may include homework, workbooks, journals, documentaries, movies, compositions, presentations, interviews, cultural discussions, etc.

The Spanish AA-T is a great first, or second major because fluency is a valuable skill in most professional fields. Advanced Spanish courses are divided into Spanish for Learners and Spanish for Heritage Speakers. Language courses are taken for personal or professional reasons, and/or to meet foreign language degree requirements including the SBVC AA-T degree for Spanish. All courses are transfer level and articulated with CSU/UC systems.

SPAN 101 5 Units

College Spanish I

Lecture: 90 contact hours

In this course students will develop the ability to converse, read, and write in Spanish at a basic level. The course includes the study of essentials of pronunciation, vocabulary, idioms and grammatical structures along with an introduction to the cultures of Spanish speaking countries. This course corresponds to the first two years of high school study.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: SPAN 100

SPAN 101H 5 Units

College Spanish I - Honors

Lecture: 90 contact hours

Advisory: ENGL 101 or ENGL 101H

In this course students will develop the ability to converse, read, and write in Spanish at a basic level. The course includes the study of essentials of pronunciation, vocabulary, idioms and grammatical structures along with an introduction to the cultures of Spanish speaking countries. This course corresponds to the first two years of high school study. This course is intended for students in the Honors Program, but it is open to all students who desire more challenging course work.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: SPAN 100

SPAN 102 5 Units

College Spanish II

Lecture: 90 contact hours

Prerequisite: SPAN 101 or SPAN 101H

In this course students continue to develop conversational, reading and writing skills in Spanish with emphasis on past tense verbs, grammar, vocabulary expansion and the culture of Spanish speaking countries.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: SPAN 110

SPAN 102H 5 Units

College Spanish II - Honors

Lecture: 90 contact hours

Prerequisite: SPAN 101 or SPAN 101H

In this course students continue to develop conversational, reading and writing skills in Spanish with emphasis on past tense verbs, grammar, vocabulary expansion and the culture of Spanish speaking countries. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: SPAN 110

SPAN 103 4 Units

College Spanish III

Lecture: 72 contact hours

Prerequisite: SPAN 102 or SPAN 102H

In this intermediate level course students develop complex conversational, reading and writing skills, with emphasis on the subjunctive and hypothetical situations. This course expands vocabulary in the Spanish language and awareness of Hispanic culture.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: SPAN 200

SPAN 103H 4 Units

College Spanish III - Honors

Lecture: 72 contact hours

Prerequisite: SPAN 102 or SPAN 102H

In this intermediate level course students develop complex conversational, reading and writing skills, with emphasis on the subjunctive and hypothetical situations. This course expands vocabulary in the Spanish language and awareness of Hispanic culture. This course is intended for students in the Honors Program but is open to all students who desire more challenging coursework.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: SPAN 200

SPAN 104 4 Units

College Spanish IV

Lecture: 72 contact hours

Prerequisite: SPAN 103 or SPAN 103H or SPAN 157

This course develops language skills through reading, discussion, analysis, and writing about culturally representative works from Spain and Latin America. Emphasis is on composition and literature as an expression of culture.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: SPAN 210

SPAN 157 4 Units**Spanish for Heritage Speakers I****Lecture:** 72 contact hours**Advisory:** SPAN 102 or SPAN 102H

This course is intended for students with native or near-native proficiency in spoken Spanish. Reading and writing standard literary Spanish is emphasized. Students will develop an increased understanding of academic vocabulary, grammar, orthography, and punctuation. Oral proficiency will also be strengthened. Analyzing and discussing topical, cultural and historically significant texts will allow students to increase cultural awareness of the Spanish-speaking world and to sharpen critical thinking skills. The course is conducted in Spanish.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SPAN 220**SPAN 158 4 Units****Spanish for Heritage Speakers II****Lecture:** 72 contact hours**Prerequisite:** SPAN 157

This course is designed for students who already communicate in Spanish and who want to develop and strengthen reading and writing skills with special emphasis on vocabulary expansion, through reading, discussion, and analysis of culturally representative works from Spain and Latin America. Emphasis is on correct usage of standard Spanish. Course is conducted primarily in Spanish, producing skills equivalent to Spanish 104.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SPAN 230

Spanish Associate in Arts for Transfer Degree

The Associate in Arts for Transfer (AA-T) degree in Spanish has a threefold purpose. It is designed to help students: increase proficiency in the language; understand the cultures of the Spanish-speaking world; and, meet the requirements for completion of the bachelor's degree in the CSU or UC systems. Students who complete the Spanish AA-T will have a solid foundation in reading, writing, speaking, and comprehending Spanish. Additionally, they will have developed a deeper awareness and understanding of the unique and diverse cultural milieu of Latin America and Spain. The skills acquired will help students prepare for a variety of careers in areas where a knowledge of Spanish is desirable, such as business, healthcare, journalism, education, communications, public safety, and more.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Spanish AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in Spanish should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses: ¹		
SPAN 101	College Spanish I	5
or SPAN 101H	College Spanish I - Honors	
SPAN 102	College Spanish II	5
or SPAN 102H	College Spanish II - Honors	
SPAN 103	College Spanish III	4

List A - One course from the following:		
ENGL 163	Chicana/o Literature	3
or ETHS 163	Chicana/o Literature	
HIST 140	Chicano Experiences in U.S. History	3
or HIST 140H	Chicano Experiences in U.S. History - Honors	
HIST 150	Introduction to Latin American History	3
Code		
Title		Units
Major Total		21
Total Units that may be Double-Counted		9
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		9-11
Total Units		60

¹ Note: If a student places out of any core course(s) and is not awarded units for that course, the student will need to take additional units from List A to compensate or complete the following approved course substitutions (ANTHRO 102, ANTHRO 102H, ANTHRO 125, COMMST 174, ETHS 141, ETHS 141H, GEOG 102, SOC 100, SOC 141, SOC 141H, SOC 145) to meet the 18-unit requirement for the major.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Communicate orally and in writing using academic, standard Spanish.
- Recognize and relate to the diverse Spanish speaking populations around the world.
- Read, analyze and interpret contextual readings and literature in Spanish.
- Investigate culturally diverse settings and determine the appropriate language register.
- Compare and contrast cultural and linguistic customs within the Spanish speaking population.

Music

The SBVC Music Department offers a comprehensive program of music study. The faculty and students in the department of music share a deep and abiding love for their art and a common desire to achieve excellence in it. The curriculum provides basic preparation for careers in music or further study and is designed to provide a balanced education in the many facets of musical experience. It is the goal of the music department to help students develop their own musical and intellectual potential to the highest possible level.

Students planning to transfer to a four-year institution and major or minor in Music should consult with a counselor regarding the transfer process and lower-division requirements, as well as reach out to the Faculty Chair.

Contact Information

Division: Arts and Humanities (NH - 223)

Division Phone Number: (909) 384-8633

Faculty Chairs: Melinda Fogle (mfogle@sbccd.edu), Ph.D. and Margaret Worsley (mworsley@sbccd.cc.ca.us), M.M.

Counselor Liaisons: Tahirah (Ty) Simpson (tsimpson@sbccd.edu), M.S.Ed., PPS and Michelle Tinoco (mtinoco@sbccd.edu), M.A.

MUS 100 3 Units

Music Appreciation

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course introduces students to music in western civilization and methods of music listening. Included in this course are guidelines for thoughtful music selection, basic musical forms, cross-cultural studies in music, music periods and styles, a discussion of patrons and audiences, careful consideration of the role of women in creating music, history of art music, popular music, world music, and jazz.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: MUS 100

MUS 100H 3 Units

Music Appreciation - Honors

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course introduces students to music in western civilization and methods of music listening. Included in this course are guidelines for thoughtful music selection, basic musical forms, cross-cultural studies in music, music periods and styles, a discussion of patrons and audiences, careful consideration of the role of women in creating music, history of art music, popular music, world music, and jazz. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable

Transfers to both UC/CSU

MUS 101 3 Units

Music Theory I: Fundamentals

Lecture: 54 contact hours

Corequisite: MUS 101L

Advisory: ENGL 101 or ENGL 101H

This course studies music terminology, elements of music (pitch, duration, intensity, and timbre), rhythmic analysis, major scales and their key signatures, chromatic scales, intervals, and solfeggio syllables. It is a course designed for the beginning student with a moderate interest in the structure of music. It is also designed for the music major and as such serves as the first in a four-part series of music theory courses.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: MUS 120

MUS 101L 1 Unit

Musicianship I

Lab: 54 contact hours

Corequisite: MUS 101

Specifically, this course applies the materials studied in Music Theory I through sight-singing (using solfeggio syllables), keyboard skills (the playing of scales and identification of pitches on the keyboard), recognition and performance of intervals, and some ear-training (melodic dictation). This course is the companion course to MUS 101.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: MUS 125

MUS 102 3 Units

Music Theory II: Scales and Modes

Lecture: 54 contact hours

Prerequisite: MUS 101 and MUS 101L

Corequisite: MUS 102L

This course is a foundational discussion of analytical and compositional techniques through a progressive study of the following: four-part chorale composition (in diatonic harmony) including secondary dominants and other applied chordal structures; basic introduction into contrapuntal writing (two part only), voice leading, additional non-harmonic tones and modulation to relative, parallel and distant keys. It is the second in a four-part series of music theory courses designed for the music major.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: MUS 130

MUS 102L 1 Unit

Musicianship II

Lab: 54 contact hours

Prerequisite: MUS 101 and MUS 101L

Corequisite: MUS 102

Advisory: MUS 134

This course continues to focus on the study of musicianship through its components. It explores dictation skills (the notation of aural impressions), the continued use of solfeggio syllables to discern pitches within a tonal framework, keyboard fundamentals, and is designed to elevate the student's level of dictation and musical analysis. It is the companion course to MUS 102.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: MUS 135

MUS 104 3 Units**History of Rock and Roll****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a chronological survey of rock music styles. Included in the course is a study of the origins and the development of Rock and Roll. The major performing artists, composers, lyricists, promoters and arrangers are all studied. A major aspect of the course is the emphasis on how Rock and Roll has impacted Western culture.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 105 3 Units****American Popular Music****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course traces the social history of America through a study of the eras of popular American music. By examining the various styles, the outstanding musicians and the leading composers exemplary of those styles, this class illustrates how the historical era impacts the music and how the music reflects the historical era. The course begins with a discussion of popular music examining the popular songs of the colonies and the schools of singing that developed. The discussion continues through the music of the Civil War and tracks popular music across the great westward expansion. It concludes with studies of Gospel, Blues, Jazz and ultimately Rock and Roll.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 106 3 Units****History of Jazz****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a chronological survey of Jazz forms, styles, and movements. Included in the course is a study of the origins and the development of Jazz. The major performing artists, composers, lyricists and arrangers are all studied. An emphasis is placed on the impact of Jazz on Rock and Roll and Pop Music. Another emphasis is placed on the impact of Classical Music on Jazz as well as the impact that Jazz has had in recent years on Classical Music.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 107 3 Units****Music Cultures of the World****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a survey of traditional and folk music of global continents and cultures. The course includes live and filmed performances, as well as introductions to various significant indigenous musical instruments. Students are introduced to instrumental and vocal techniques, musical structures, and performance contexts within selected cultures of the world. The impact and influence of global musical cultures on western music is a main focus in this course.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 108 3 Units****History of Hip Hop Music****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course presents the development of Hip hop as a musical style and cultural movement. Students will examine key figures in Hip hop, institutions, and social settings through readings, electronic media, videos, and live performance. Students will also investigate how Hip hop culture is not only a source of entertainment, but also a medium that analyzes and/or provides commentary regarding social, economic, political, and cultural issues dealing with identity, cultural genocide, misogyny, racism, classism, materialism, freedom of speech, and sexuality.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 117A 1 Unit****Elementary Acoustic Guitar****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a study of basic guitar emphasizing stringing, tuning and fingering. Students must provide their own acoustic guitar.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 117B 1 Unit****Intermediate Acoustic Guitar****Lab:** 54 contact hours**Prerequisite:** MUS 117A**Advisory:** ENGL 101 or ENGL 101H

This course is a study of intermediate guitar emphasizing stringing, tuning and fingering. The development of playing techniques and notation will also be studied. Students must provide their own acoustic guitar.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 117C 1 Unit****Intermediate/Advanced Acoustic Guitar****Lab:** 54 contact hours**Prerequisite:** MUS 117B**Advisory:** ENGL 101 or ENGL 101H

This course is a study of intermediate/advanced guitar emphasizing stringing, tuning and more complex fingering. The development of playing techniques, notation, reading guitar music and the playing of melodies will also be studied. Students must provide their own acoustic guitar.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 117D 1 Unit****Advanced Acoustic Guitar****Lab:** 54 contact hours**Prerequisite:** MUS 117C**Advisory:** ENGL 101 or ENGL 101H

This course is a study of advanced guitar with an emphasis on stringing, tuning and complex fingering. The development of playing techniques, notation, reading guitar music, playing melodies, chord construction, and accompaniment will also be studied. Students must provide their own acoustic guitar.

Associate Degree Applicable**Transfers to both UC/CSU**

MUS 121 3 Units**Music History and Literature - Middle Ages through Baroque****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course provides an overview of the historical development of music from the Middle Ages (1450) through the Baroque Period (1750). Emphasis is placed on appreciation of musical form, and the role of music in a multicultural society relative to historical events.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 105**MUS 121H 3 Units****Music History and Literature - Middle Ages through Baroque - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course provides an overview of the historical development of music from the Middle Ages (1450) through the Baroque Period (1750). Emphasis is placed on appreciation of musical form, and the role of music in a multicultural society relative to historical events. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 105**MUS 122 3 Units****Music History and Literature - Classic through Contemporary****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course provides an overview of the historical development of music from Classicism (1750) to the present. Emphasis is placed on appreciation of musical form, and the role of music in a multicultural society relative to political and artistic events.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 106**MUS 122H 3 Units****Music History and Literature - Classic through Contemporary - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course provides an overview of the historical development of music from Classicism (1750) to the present. Emphasis is placed on appreciation of musical form, and the role of music in a multicultural society relative to political and artistic events. This course is intended for students in the Honors Program, but is open to all students who desire more challenging course work.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 106**MUS 123 3 Units****Electronic Music I****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to computer-based music recording techniques using electronic and digital interfaces. Course topics include electronic sequencing software, notation software, basic digital audio, microphones, interfaces, and other hardware used in recording studios.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 124 3 Units****Electronic Music II****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** MUS 123**Advisory:** ENGL 101 or ENGL 101H

This course will cover advanced uses of sequencing software, notation software, digital audio, microphones, interfaces, and other hardware used in recording studios.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 130 3 Units****Elementary Voice****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction and progressive study of vocal techniques including muscular aspects and sound of producing properties of the vocal mechanism with emphasis on singing and vocal projection used in speech, drama, and standard vocal literature.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 131 3 Units****Intermediate Voice****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** MUS 130**Advisory:** ENGL 101 or ENGL 101H

This course is designed for the singer who has had formal vocal training and wishes to pursue additional training for a career in the vocal arts. Emphasis is on vocal technique, voice quality, expression, style, interpretation, stage presence, and multi-language diction.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 133 1 Unit****Elementary Piano****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course teaches practical keyboard facility that is applicable for the piano, organ, and electronic keyboard. It emphasizes sight reading, elementary improvisation, harmonization of folk and pop melodies, and leads to performance of simple piano selections.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 170**MUS 134 1 Unit****Intermediate Piano****Lab:** 54 contact hours**Prerequisite:** MUS 133**Advisory:** ENGL 101 or ENGL 101H

This course focuses on the improvement of keyboard facility and sight reading abilities, utilizing improvisation and harmonization skills through simplified arrangements and original composition. This course will be useful for those desiring to strengthen keyboard skills.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 171

MUS 135 1 Unit**Advanced Piano****Lab:** 54 contact hours**Prerequisite:** MUS 134 and MUS 102 and MUS 102L or an audition with the instructor.**Advisory:** ENGL 101 or ENGL 101H

This course focuses on the improvement of keyboard facility and sight-reading abilities. It advances improvisation and harmonization skills. It is primarily concerned with more advanced complex piano works by the master composers: Chopin, Beethoven, Mozart, Brahms and others.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 172**MUS 141X2 0.5 Units****Applied Music I****Lab:** 27 contact hours**Advisory:** ENGL 101 or ENGL 101H

Students receive credit for a minimum of one-half hour of weekly private instruction on a musical instrument or voice. Daily laboratory practice, concert and ensemble participation are required. The course is open to all students in the college, with enrollment priority given to music majors. An audition with the director is mandatory for participation in this course. Public performances are mandatory.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 160**MUS 150X4 1 Unit****Mixed Chorus****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course develops foundational techniques in such aspects of choral music as breathing, posture, tone production, enunciation and musicianship. This ensemble focuses on choral music from a variety of stylistic periods including classical, spiritual, folk and musical theatre. Neither experience nor an audition is necessary. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 152X4 1 Unit****Chamber Singers****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

In this course, students will study and perform a wide variety of outstanding music literature from all periods suitable to a chamber group, including classical genres and contemporary art music as well as musical theater and opera excerpts. An audition with the director is mandatory. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 153X4 1 Unit****Chamber Chorale****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This is a small (20) ensemble of singers, each with considerable solo and choral classical music experience. Students will train as both classical vocal soloists and choral musicians. Students will study intonation, sectional balance and choral blending. Repertoire will be entirely classical in nature, in multiple languages and composed specifically with a small intimate sound in mind. An audition with the director is mandatory. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 154X4 1 Unit****College Singers****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

In this course, students will study and perform a wide variety of outstanding music literature from all periods suitable to a large sized choral ensemble, including music from the Renaissance, Baroque, and Romantic eras. Neither experience nor an audition is necessary. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 156X4 1 Unit****Concert Choir****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

In the course, students will study and perform a wide variety of outstanding music literature from all periods suitable to a medium to large size chorale, including music of a classical nature from the Renaissance Period to the Twentieth Century. Neither experience nor an audition is necessary. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 158X4 1 Unit****Gospel Choir****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

Repertoire in the course focuses on the African-American gospel traditions. Historical analysis of the spirituals, as well as vocal and performing techniques are emphasized. An audition with the director is mandatory. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180

MUS 159X4 1 Unit**Theatrical Music Workshop****Lab:** 54 contact hours**Prerequisite:** MUS 130 or MUS 152X4 or MUS 154X4 or MUS 156X4

In this course, students study the art of stage movement as it is paired with acoustical song (singing without amplification). Repertoire for this class consists of Opera, Oratorio, Operetta and Operatics excerpts. Students study characterization and stage movement in both principal and chorus parts. Students participate in costuming, makeup and stagecraft. Students are strongly advised to have some classical vocal training prior to enrollment in this course. This course may be taken four times.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 162X4 1 Unit****Wind Ensemble****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is for the study, rehearsal, and public performance of musical literature, with an emphasis on the development of skills needed to perform within an ensemble and be emulated by future teachers. This group is the premier classical instrumental ensemble featuring wind, brass, and percussion instruments. An audition with the director is mandatory for participation in this ensemble. Public performances are mandatory.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 166X4 1 Unit****Concert Band****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is for the study, rehearsal, and public performance of musical literature, with an emphasis on the development of skills needed to both perform within an ensemble, and be emulated by future teachers. This group features wind, brass, and percussion instruments; and will rehearse and perform standard band literature. An audition with the director is mandatory for participation in this ensemble.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 180**MUS 167X4 1 Unit****Jazz Combo****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is for the study, rehearsal, and public performance of classic jazz small group repertoire. The group will feature 1-3 horns (saxophone, trumpet, trombone) and rhythm section selected through a mandatory audition process. Special emphasis is placed on learning tunes from recordings and playing improvised solos.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 168X4 1 Unit****Jazz Band****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is for the study, rehearsal, and public performance of music literature within the jazz big band idiom. The group will feature saxophone, trombone, trumpet, and rhythm sections selected through a mandatory audition process. Special emphasis is placed on the development of sight reading, jazz style and phrasing, and improvisation.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 170X2 1 Unit****Jazz Improvisation and Theory I****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course presents the beginning concepts of Jazz improvisation skills and Jazz theory. Emphasis is placed on swing, bebop, and blues. This course is open to instrumentalists and vocalists. An audition with the director is mandatory for participation in this ensemble.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 185**MUS 171X2 1 Unit****Jazz Improvisation and Theory II****Lab:** 54 contact hours**Prerequisite:** MUS 170x2**Advisory:** ENGL 101 or ENGL 101H

This course presents the intermediate to advanced concepts of Jazz improvisation skills and Jazz theory. This is an ensemble with emphasis placed on modal and pentatonic scales, hard bop style, and modern jazz. An audition with the director is mandatory for participation in this ensemble.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 185**MUS 180X4 1 Unit****Instrumental Chamber Music****Lab:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course covers the study and performance of instrumental chamber music literature. Students will be organized into various chamber music ensembles to prepare, perform, and record assigned literature. An audition with the director is mandatory for participation in this ensemble. (Formerly MUS 180)

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 185

MUS 201 3 Units**Music Theory III: Basic Harmony****Lecture:** 54 contact hours**Prerequisite:** MUS 102 and MUS 102L**Corequisite:** MUS 201L

This course represents a complete study of the diatonic harmonies from the 17th, 18th and 19th centuries. It includes a review of triad formations and the principles of voice-leading. Included in the course is a review study of seventh chords, secondary dominants, non-harmonic tones, realization of figured bass lines and rudimentary formal analysis. It also includes an introduction of augmented-sixth chords, secondary/applied chords, modulation to more remote keys, Neapolitan sixth chords and some chromatic harmony. An important part of this class is the analysis of chorales by J.S. Bach. This course is the third of a four-part series of theory courses and is primarily designed for the music major.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 140**MUS 201L 1 Unit****Musicianship III****Lab:** 54 contact hours**Prerequisite:** MUS 102 and MUS 102L**Corequisite:** MUS 201

This course emphasizes the further development of skills in sight-singing melodies of simple and compound meter, sight singing of multiple part compositions in both major and minor modes, phrases with an anacrusis and intervals beyond the third. The course includes the study of modulating melodies, two-part melodic dictation, the dictation of triads (in all positions) as well as diatonic seventh chords and simple chord progressions. The course will include the study of all existent triads from the major and minor scales and all church modes as they are performed at the keyboard. It is the companion course to MUS 201.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 145**MUS 202 3 Units****Music Theory IV: Harmony****Lecture:** 54 contact hours**Prerequisite:** MUS 201 and MUS 201L**Corequisite:** MUS 202L

The course is a conclusive study of diatonic harmonies, including further work with secondary dominant chord structures, and figured bass line realizations. It also includes an extensive study of ninth chords: complete, incomplete, and dominant ninth. A study of Neapolitan and augmented sixth chords, 9th, 11th, 13th chords as well as a study of 20th century techniques and Impressionism will be undertaken. The class will conclude its study of Bach chorales and other brief forms. This course is the fourth in a four-part series of theory courses designed for the music major and incorporates the concepts from MUS 201.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 150**MUS 202L 1 Unit****Musicianship IV****Lab:** 54 contact hours**Prerequisite:** MUS 201 and MUS 201L**Corequisite:** MUS 202

This course emphasizes further development of skills in sight-singing by the singing of modal melodies, melodies with non-diatonic tones and melodies containing larger intervals. The course includes dictation of melodies with non-diatonic tones as well as modal melodies. Further, dictation of secondary dominants, augmented and Neapolitan sixth chords and modulations to distantly-related keys are included. Rhythmic dictation with changing meters and mini and maxi triplets are studied. This course is the companion course to MUS 202.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 155**MUS 210 3 Units****Conducting****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** MUS 102 or MUS 102L

This course is an introduction to basic conducting techniques including the practice of basic beat patterns, score reading, and rehearsal techniques. It offers an opportunity to learn and apply the techniques needed for group direction and leadership. Also included are sessions in problem solving and decision making with regard to tempo, dynamics, instrumentation, blend, balance, rhythmic and pitch accuracy.

Associate Degree Applicable**Transfers to both UC/CSU****MUS 222 1-3 Units****Independent Study in Music****DIR:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

Students with previous course work in music may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of music. Prior to registration, a written contract must be prepared. See instructor for details.

Associate Degree Applicable**Transfers to CSU only****MUS 241X2 0.5 Units****Applied Music II****Lab:** 27 contact hours**Prerequisite:** MUS 141x2**Advisory:** ENGL 101 or ENGL 101H

Students receive credit for a minimum of one-half hour of weekly private instruction on a musical instrument or voice. Daily laboratory practice, concert and ensemble participation are required. The course is open to all students in the college, with enrollment priority given to music majors.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MUS 160

Music Associate of Arts Degree

To obtain the Associates Degree (AA) in Music, students participate in four semesters of music performance and music theory training. The AA in Music degree prepares students with a foundation that may be followed by advanced degrees in a variety of specialties including music education, music performance, commercial music/music industry, jazz studies, ethnomusicology, and other music-related fields.

MUS 133	Elementary Piano	1

MUS 170X2	Jazz Improvisation and Theory I	1
MUS 171X2	Jazz Improvisation and Theory II	1
MUS 180X4	Instrumental Chamber Music	1

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Compare musical styles by identifying musical differences of various forms and genres.
- Interpret and formulate fundamentals of music theory.
- Distinguish the social and cultural relevance of music by examining historical and cultural contributions.
- Demonstrate basic technical proficiency through performance of playing a musical instrument or lyrical singing.

Music Associate in Arts for Transfer Degree

The Associate of Arts for Transfer (AA-T) in Music develops a well-rounded musician. Students who pursue this degree will have guaranteed admission to a California State University (CSU) campus upon successful completion of the specified program requirements. This degree provides students with transfer preparation and pre-professional training. Students should consult with a counselor to determine whether this degree is the best option for their transfer goals.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a music AA-T degree, students must complete the following Associate Degree for Transfer requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a baccalaureate institution and major in Music should consult with a counselor regarding the transfer process and lower division requirements.

General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		1-8
Total Units		60

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Compare musical styles by identifying musical differences of various forms and genres.
- Interpret and formulate fundamentals of music theory.
- Distinguish the social and cultural relevance of music by examining historical and cultural contributions.
- Demonstrate basic technical proficiency through performance of playing a musical instrument or lyrical singing.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

Nursing

San Bernardino Valley College's Nursing Program, approved by the California Board of Registered Nursing, is a two-year program designed to prepare students to give direct nursing care to clients in various practice settings. The Associate of Science Degree in Nursing (ADN) prepares students as providers of care across the health/illness continuum and as members within the profession. SBVC's Nursing Program respects the individuality of the student and aims to provide a positive, innovative learning community that enables the development of critical thinking and problem solving skills so that students are equipped to deliver care to a culturally diverse population in a variety of healthcare settings. Upon successful completion the ADN, students are eligible to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).

Prerequisites for the Associate Degree in Nursing (ADN) Program

Accepted Students are admitted in the Fall and Spring semesters. Students must complete required prerequisites to apply. Students must also meet application requirements on the Application Page.

Prerequisite Courses - Required G.P.A.

General Education G.P.A.: 3.0

Science G.P.A.: 2.8

Prerequisites - Required General Education Courses:

The GE courses below must be completed with grade of C or higher and a minimum of a 3.0 G.P.A.:

Code	Title	Units
ENGL 101	College Composition	4
or ENGL 101H	College Composition - Honors	
COMMST 100	Elements of Public Speaking	3
or COMMST 10	Elements of Public Speaking - Honors	
or COMMST 11	Interpersonal Communication	
or COMMST 11	Interpersonal Communication - Honors	
MATH 108	Introduction to Probability and Statistics	4
or MATH 108H	Introduction to Probability and Statistics - Honors	

	or PSYCH 105	Statistics for the Behavioral Sciences	
PSYCH 100	General Psychology		3
	or PSYCH 100H	General Psychology - Honors	
SOC 100	Introduction to Sociology		3
	or SOC 100H	Introduction to Sociology - Honors	
	or ANTHRO 102	Cultural Anthropology	
	or ANTHRO 102H	Cultural Anthropology - Honors	
Arts/Humanities - Complete one to three units ¹			
Ethnic Studies - Complete three units maximum from the courses below:			
ETHS 100	Introduction to Ethnic Studies		
ETHS 103	Ethnicity and Identity in Media		
	or FTVM 103	Ethnicity and Identity in Media	
ETHS 107	Native American Experiences in U.S. History		
	or HIST 107	Native American Experiences in U.S. History	
ETHS 108	Introduction to Native American Studies		
	or ANTHRO 108	Introduction to Native American Studies	
ETHS 141	Race and Ethnic Relations		
	or ETHS 141	Race and Ethnic Relations - Honors	
	or SOC 141	Race and Ethnic Relations	
	or SOC 141H	Race and Ethnic Relations - Honors	
ETHS 163	Chicana/o Literature		
	or ENGL 163	Chicana/o Literature	
ETHS 165	African-American Literature		
	or ENGL 165	African-American Literature	

¹ See Associate Degree Graduation Requirements Area 3A (p. 53) for list of arts and humanities courses.

Prerequisites - Required Science Courses:

Science courses listed below must be completed with a grade of C or higher and a minimum G.P.A. of 2.8 in the four courses:

Code	Title	Units
Human Anatomy and Physiology		
Select one series from the following:		
BIOL 250 & BIOL 251	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
BIOL 260 & BIOL 261	Human Anatomy and Human Physiology	8
Microbiology		
BIOL 270	Microbiology	5

Note: Online sciences will not be accepted. BIOL 250 & BIOL 251 must be completed at the same regionally accredited institution.

Recommended Courses

Code	Title	Units
CIT 144	Medical Terminology	3
PHT 062	Pharmacology I	3
PHT 064	Pharmacy Calculations	3

Application to the Nursing Program

Applications to the nursing program may only be submitted when all program prerequisites have been completed and met GPA requirements.

Admission to the program is based on a multi-criteria points system. Applications must be received when application period is open, please visit the SBVC Nursing website (<https://www.valleycollege.edu/academic-career-programs/degrees-certificates/nursing/>) for updated information on when application period is open. Applications are available online during the application periods. Incomplete applications will not be accepted. The Test of Essential Academic Skills (TEAS) is by invitation only.

Overview of the Application Process:

Step One: Submit the following to the College Admissions and Records Office

- Official Transcripts: Students must have completed high school or equivalent (transcripts, G.E.D., or the California State High School Proficiency Exam). International Students must show high school equivalent through third party. The documents below must be submitted to Admissions and Records.
 - Evaluation of prior college credit - Official college transcripts from all colleges or universities attended except for SBVC Transcripts must be issued within the last 6 months and document that the program prerequisites have been completed.
- International transcripts must be evaluated for equivalency.
- High school completion or equivalent (transcript, G.E.D. or the California State High School Proficiency Exam).
- International students need their high school equivalency evaluated by outside agency

Step Two: Complete Program Prerequisite Courses and Meet G.P.A. Requirements

- Students must have completed the program prerequisites with the following G.P.A.: (See Prerequisite Page for additional information)
 - General Education G.P.A.: 3.0
 - Science G.P.A.: 2.8

Step Three: Electronically submit nursing program application during open application period.

Step Four: Upon Invitation from the ADN Program

- Complete TEAS Entrance Exam

Selection Process

- Round 1 selected applicants will be selected based on a multi-criteria selection process (point system).
- Round 2 selected applicants will be invited back to take the TEAS exam that will determine entry into the nursing program.
- Entrance to the nursing program is limited to students who have completed all prerequisites, met all G.P.A. requirements, taken the TEAS exam.

LVN to RN Career Ladder

The Nursing Program offers an LVN to RN Career Ladder allowing Licensed Vocational Nurses (LVN) to become Registered Nurses (RN) by completing the required prerequisites and nursing coursework.

The application, prerequisites, and scoring system are the same for the LVN to RN Career Ladder as SBVC's ADN Program. Prerequisites must be completed at the time of application. LVNs must be licensed and have one year's full-time LVN work experience. Applicants to the LVN to RN Career Ladder Program will be invited to take the TEAS. Accepted students will be given a series of challenge exams and may be placed in either

the first, second, or third semester of the nursing program, depending on exam results. Students are welcome to reapply if their application is denied and it is recommended that they meet with a counselor prior to re-application. Students applying on the point system for the LVN to RN Career Ladder Program will not be competing with the SBVC's ADN applicants. Instead, they will be considered for admission using a separate pool with LVN to RN students.

Requirements for LVN to RN Career Ladder

- a. Complete all program prerequisites. (Same as the ADN Program)
- b. One year's full-time work experience as an LVN
- c. Current California LVN license
- d. Employment verification with signature - letter verifying employment as an LVN
- e. Detailed Résumé summarizing work experience as an LVN (employer, type of patient care unit, month/year starting and ending dates)
- f. Upon admission to the ADN Program the LVN to RN candidate will:
 - i. Enroll in NURS 140 Vocational to Professional Nurse
 - ii. Be provided the opportunity to challenge the first and second semester nursing courses consisting of NURS 151, NURS 160, and NURS 161. A student's final placement into either first, second, or third semester of the nursing program will be dependent on passing the required challenge exams for first and second semester.

LVN 30-Unit Option (California Code Regs 1429) Preparation Requirements

(a) An applicant who is licensed in California as a vocational nurse is eligible to apply for licensure as a registered nurse if such applicant has successfully completed the courses prescribed below and meets all the other requirements set forth in section 2736 of the code. Such applicant shall submit evidence to the board, including a transcript, of successful completion of the requirements set forth in subsection (c) and of successful completion or challenge of courses in physiology and microbiology comparable to such courses required for licensure as a registered nurse.

(b) The school shall offer objective counseling of this option and evaluate each licensed vocational nurse applicant for admission to its registered nursing program on an individual basis. A school's determination of the prerequisite courses required of a licensed vocational nurse applicant shall be based on an analysis of each applicant's academic deficiencies, irrespective of the time such courses were taken.

(c) The additional education required of licensed vocational nurse applicants shall not exceed a maximum of thirty (30) semester or forty-five (45) quarter units. Courses required for vocational nurse licensure do not fulfill the additional education requirement. However, other courses comparable to those required for licensure as a registered nurse, as specified in section 1426, may fulfill the additional education requirement.

Nursing courses shall be taken in an approved nursing program and shall be beyond courses equivalent to the first year of professional nursing courses. The nursing content shall include nursing intervention in acute, preventive, remedial, supportive, rehabilitative, and teaching aspects of nursing. Theory and courses with concurrent clinical practice shall include advanced medical-surgical, mental health, psychiatric nursing, and geriatric nursing. The nursing content shall include the basic standards for competent performance prescribed in section 1443.5 of these regulations.

SBVC Nursing Department policy for the LVN 30 Unit Option

- The 30-Unit Option LVN (Licensed Vocational Nurse) to RN (Registered Nurse) program is available to individuals licensed as LVNs in California.
- Successful completion of prescribed courses provides eligibility to apply for licensure by examination as an RN in the State of California, however, completion does not meet the requirements for the Associate of Science Degree in Nursing (ADN).
- Students completing this program will not be a graduate of the college's nursing program and cannot receive the program's nursing pin.
- Students qualifying for admission to the 30 unit option are placed on a space available basis.

Note: Additionally, several states in the United States will not recognize persons completing this option as being an RN, even though they have successfully completed the NCLEX-RN examination. The licensure resulting from completion of this option cannot be changed later.

Challenge/Advanced Placement for Military Education and Experience

Please refer to the Military Challenge/Advanced Placement policy on the SBVC ADN Program (<https://www.valleycollege.edu/academics/pathways/hwa/nursing/>) website.

- Nursing Associate of Science Degree (p. 325)

NURS 140 2 Units

Vocational to Professional Nurse

Lecture: 18 contact hours

Lab: 54 contact hours

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This course prepares Licensed Vocational Nurses (LVN) to transition into the Registered Nursing (RN) program. This is a first-year course that focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient priorities, the implementation of nursing interventions, and evaluation of patient care for diverse adult patients. This course includes role transition content, nursing process, standards of practice, and critical thinking in nursing. In the degree option, challenge examinations covering first, and second semester medical-surgical and maternity nursing content will determine eligibility for placement in the program. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable

Transfers to CSU only

NURS 150 4 Units

Foundations of Nursing

Lecture: 36 contact hours

Lab: 108 contact hours

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This course focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient priorities, the implementation of nursing interventions, and the evaluation of patient care for diverse adults including older adults ages 65 and over by focusing on universal practices including physical assessment, safety, infection control, hygiene, body mechanics, activity/exercise, nutrition, pain management, cultural awareness, communication and documentation. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable

Transfers to CSU only

NURS 151 5 Units

Introduction to Medical Surgical Nursing

Lecture: 45 contact hours

Lab: 135 contact hours

Prerequisite: NURS 150

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This course is a first-year course that focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient priorities, the implementation of nursing interventions, and the evaluation of patient care for diverse adults including adults ages 65 and over, nursing care and administration of medication for patients with the basic healthcare needs in pulmonary, musculoskeletal, cardiovascular, neurological, immunological, gastrointestinal, genitourinary, and endocrine body systems, as well as patients undergoing general surgery and/or requiring wound care. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable

Transfers to CSU only

NURS 160 4 Units

Nursing Care of the Childbearing Family and Newborn

Lecture: 36 contact hours

Lab: 108 contact hours

Prerequisite: NURS 150 and NURS 151

Corequisite: NURS 161

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This course is a first-year nursing course that focuses on the nurse's role in the collection of assessment data, identifying the relevance of data collected, the analysis of patient priorities, the implementation of nursing interventions, and evaluation of patient care for childbearing families. Maternity nursing also focuses on the biophysical aspects of human reproduction, assessment and management of antepartum, postpartum, intrapartum, and newborn care and complications. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable

Transfers to CSU only

NURS 161 5 Units**Beginning Medical Surgical Nursing****Lecture:** 45 contact hours**Lab:** 135 contact hours**Prerequisite:** NURS 150 and NURS 151**Corequisite:** NURS 160

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This is first-year course that focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient priorities, the implementation of nursing interventions, and evaluation of patient care for diverse adult patients including adults ages 65 and over with selected healthcare needs in respiratory, cardiovascular, neurological, immunological, gastrointestinal, genitourinary, and endocrine body systems. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable**Transfers to CSU only****NURS 250 4 Units****Nursing Care of Children and their Families****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** NURS 160 and NURS 161**Corequisite:** NURS 251

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This is a second-year course that focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient priorities, the implementation of nursing interventions, and evaluation of patient care for diverse pediatric populations and their families. Pediatric nursing also focuses on a family-centered approach to the nursing care of infants and children. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable**Transfers to CSU only****NURS 251 5 Units****Intermediate Medical Surgical Nursing****Lecture:** 45 contact hours**Lab:** 135 contact hours**Prerequisite:** NURS 160 and NURS 161**Corequisite:** NURS 250

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This is a second-year course that focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient priorities, the implementation of nursing interventions, and evaluation of patient care for diverse adult patients including adults aged 65 and over with selected healthcare needs in neurological, gastrointestinal, respiratory, genitourinary, immunological, cardiovascular, and endocrine diseases. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable**Transfers to CSU only****NURS 260 4 Units****Psychiatric-Mental Health Nursing****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** NURS 250 and NURS 251**Corequisite:** NURS 261

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This course focuses on the nurse's role in the collection of assessment data, identifying the relevance of the data collected, the analysis of patient/client priorities, the implementation of nursing interventions, and evaluation of care for diverse patient population including children, adolescents, adults, and older adults with mental health disorders. Psychiatric nursing also focuses on neurobiological theories, risks and interventions for suicide, substance abuse, and other mental health disorders. Application of KSAs will occur in the hospital, on-campus skills laboratory, and simulation settings.

Associate Degree Applicable**Transfers to CSU only****NURS 261 5 Units****Complex Care and Leadership****Lecture:** 45 contact hours**Lab:** 135 contact hours**Corequisite:** NURS 260

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Nursing Program.

This is a second-year nursing course that builds upon previously learned knowledge, skills and attitudes while focusing on the application of the nursing process, discrimination of data, and identification of care priorities in order to manage complex needs of adults including adults ages 65 and over, critically ill or injured adults with single or multisystem failure. Complex Care and Leadership provides learning opportunities for leadership, community outreach, and disaster nursing. Correlated clinical experiences provide the senior student opportunities to assume nursing responsibilities in complex care areas and to function as part of an inter-professional team. Application of knowledge, skills, and attitudes (K-S-A) will occur in the hospital, on-campus skills laboratory, and simulation settings. The course also reviews graduate responsibilities for the National Council Licensure Examination (NCLEX) application and professional employment/licensure responsibilities.

Associate Degree Applicable**Transfers to CSU only**

Nursing Associate of Science Degree

This degree program is designed to prepare students to become Registered Nurses who provide nursing care to assist patients in attaining their maximum level of wellness. Graduates are eligible to apply for their Associate Degree in Nursing (ADN) and take the National Counsel Licensure Examination – RN (NCLEX-RN). The program is accredited by the California State Board of Registered Nursing and the Accreditation Commission for Education in Nursing (ACEN).

To graduate with an Associate of Science degree with a major in nursing, complete each of the following courses with a 78% or higher along with the general education breadth requirements. (The Prerequisites that are required)

Code	Title	Units
Required Courses:		
First Semester		
NURS 150	Foundations of Nursing	4
NURS 151	Introduction to Medical Surgical Nursing	5
Second Semester		
NURS 160	Nursing Care of the Childbearing Family and Newborn	4
NURS 161	Beginning Medical Surgical Nursing	5
Third Semester		
NURS 250	Nursing Care of Children and their Families	4
NURS 251	Intermediate Medical Surgical Nursing	5
Fourth Semester		
NURS 260	Psychiatric-Mental Health Nursing	4
NURS 261	Complex Care and Leadership	5
Total Units		36

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Perform safe quality patient centered care.
- Collaborate effectively with members of the inter-professional team, the patient, and the patient support persons.
- Model evidence-based practice to optimize patient outcomes.
- Implement clinical judgement in the plan of care.
- Demonstrate ethical leadership for the health care needs of our diverse communities.
- Integrate informatics and trends in technology to enhance team communication and the delivery of safe optimal care.

OSHA 030 2 Units

Federal OSHA Outreach: Construction Industry Safety

Lecture: 18 contact hours

Lab: 54 contact hours

Advisory: Federal OSHA requires each student be 18 years of age in order to qualify for an OSHA card.

This course provides training required by the Occupational Safety and Health Administration (OSHA) for the Federal Outreach Construction Industry, minimum 30-Hour training card. Lessons emphasize hazard identification, avoidance, control and prevention of illness, injury, or death.

Associate Degree Applicable

OSHA 035 2 Units

Federal OSHA Outreach: General Industry Safety

Lecture: 18 contact hours

Lab: 54 contact hours

Advisory: Federal OSHA requires each student be 18 years of age in order to qualify for an OSHA card.

This course provides outreach training and gives general industry workers information about rights, employer responsibilities, how to identify, abate, avoid and prevent job-related hazards on a job site. Lessons will emphasize hazard identification, avoidance, control and prevention of illness, injury, or death. Successful completion may qualify students for the Federal OSHA minimum 30-hour General Industry card.

Associate Degree Applicable

Oceanography

Oceanography courses introduce the marine environment, which comprises 71% of the earth's surface. The courses are designed for both science and non-science majors and are fundamental for students planning to major in oceanography. Students planning to transfer to a four-year institution and major in oceanography should consult with a counselor regarding the transfer process and lower division requirements.

OCEAN 101 3 Units

Elements of Oceanography

Lecture: 54 contact hours

Prerequisite/Corequisite: ENGL 101 or ENGL 101H

Advisory: MATH 102 or higher

This course explores the geological processes that created the ocean basins, chemistry of sea water, physical motions of the oceans, and the interrelationships of biological communities with their physical environments. Oceanographers and related scientists from traditionally underrepresented groups are featured throughout this course. Environmental issues and environmental justice movements associated with the world's oceans fundamentally inform this course. Geospatial analysis of world oceans, including Geographic Information Systems (GIS) and remote sensing, is an integral component of this course. It is recommended that transfer students also enroll in the companion OCEAN 111, Elements of Oceanography Laboratory.

Associate Degree Applicable

Transfers to both UC/CSU

OCEAN 111 1 Unit

Elements of Oceanography Laboratory

Lab: 54 contact hours

Prerequisite/Corequisite: OCEAN 101

This hands-on course introduces students to techniques of oceanography, including bathymetry, charts, and methods of studying the physical ocean environment. Oceanographers and related scientists from traditionally underrepresented groups are featured throughout this course. Environmental issue and environmental justice movements associated with the world's oceans fundamentally inform this course. This course is recommended for students concurrently enrolled in OCEAN 101 or who have successfully completed the course within the last three years.

Associate Degree Applicable

Transfers to both UC/CSU

Pharmacy Technology

The Pharmacy Technology Program is designed to prepare students for entry-level employment as a pharmacy technician, providing medications and other healthcare products to patients and consumers. Under the supervision of a Pharmacist, students learn to fill prescriptions, establish and maintain patient profiles, prepare insurance claim forms, take inventory, and stock medications. A background check may be required for clinical experience. The California Board of Pharmacy may deny the Pharmacy Technician license based on convictions substantially related to Pharmacy Technician practice.

Sequence of courses for the Pharmacy Technology Program

Code	Title	Units
1st Semester		
PHT 064	Pharmacy Calculations	3
PHT 060	Pharmacy System I	3
PHT 062	Pharmacology I	3
2nd Semester		
PHT 070	Pharmacy Systems II	3
PHT 071	Pharmacology II	3
PHT 072	Pharmacy Clinical Experience	5
PHT 074	Pharmacy Seminar	2

Contact Information

Department: Health and Life Sciences (HLS - 101)

Department Phone Number: (909) 384-4550

Faculty Chair: Doris Ontiveros (dchota@sbccd.edu), B.S., CPhT.

Counselor Liaisons: Elizabeth Banuelos (ebanuelos@sbccd.edu), M.S. and Erica Begg (ebegg@sbccd.edu), M.S.

-
- Pharmacy Technology Associate of Science Degree (p. 327)
 - Pharmacy Technology Certificate of Achievement (p. 328)

PHT 060 3 Units

Pharmacy System I

Lecture: 36 contact hours

Lab: 54 contact hours

This class introduces the student to the field of pharmacy, its history, environment, and processes. It emphasizes out-patient/community service pharmacy settings in issues of prescription processing, pharmacy business management, federal laws/regulation, protocol procedures, and pharmacy references/associations for assistance.

Associate Degree Applicable

PHT 062 3 Units**Pharmacology I****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** BIOL 205 or CHEM 101

This course introduces the basic pharmacology principles of pharmacokinetics and pharmacodynamics as it applies the therapeutic uses of medications being administered to the human body systems. The student will identify the medication's classifications, emphasizing basic indications, drug dosages, dosage forms, routes of administration, side effects, special directions of use, and drug interactions with other medications, foods, and/or nutrient supplements.

Associate Degree Applicable**PHT 064 3 Units****Pharmacy Calculations****Lecture:** 54 contact hours

In this course students apply mathematical skills to the calculation of medication dosages, intravenous solutions, and pharmacy operations.

Associate Degree Applicable**PHT 070 3 Units****Pharmacy Systems II****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** PHT 060 and PHT 062 and PHT 064

This course covers the application of advanced preparation, distribution and methods for dispensing medications within a institutional pharmacy setting. It emphasizes advanced concepts of medication order processing, non-sterile compounding, sterile compounding, pharmacy business management, data management, pharmacy safety, and pharmacy error prevention under the supervision of a pharmacist.

Associate Degree Applicable**PHT 071 3 Units****Pharmacology II****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** PHT 062

This course continues to apply the therapeutic uses of administered medications into the human anatomy and physiology by a drug's pharmacokinetics and pharmacodynamics. Emphasis is placed on but not limited to a medication's brand/generic name, mechanisms of action, dosage forms, routes of administration, directions of use, standard dosage schedules, indications, basic side effects, adverse effects, contraindications, precautions, drug interactions, and any special black box warnings. Added topics to the course includes medication adjustments for special populations and use of common antidotes for medications.

Associate Degree Applicable**PHT 072 5 Units****Pharmacy Clinical Experience****Lab:** 270 contact hours**Prerequisite:** PHT 060 and PHT 062 and PHT 064**Corequisite:** PHT 074

In this course, students study the application of prescription processing, inventory management and dispensing of medications in a pharmacy under the direct supervision of a pharmacist. It emphasizes use of a pharmacy database, customer service, communication and professional ethics. Students will complete a minimum of 240 experiential hours in a minimum of one site locations.

Associate Degree Applicable**PHT 074 2 Units****Pharmacy Seminar****Lecture:** 36 contact hours**Prerequisite:** PHT 060 and PHT 062 and PHT 064**Corequisite:** PHT 072

This course reviews the duties of a pharmacy technician in the out-patient/community and the in-patient/institutional setting in the areas of pharmacy management/administration, pharmacy federal laws/regulation, and pharmacology.

Associate Degree Applicable**PHT 601 Noncredit****Pharmacy Technician Licensure Exam Preparation****Lecture:** 18 contact hours

This noncredit course prepares students that have completed or are nearing completion of the Pharmacy Technology program for the state administered licensing examination for pharmacy technicians. This course is also recommended for students who desire refresher training. Topics include, but are not limited to: the duties of a pharmacy technician in the out-patient/community and the in-patient/institutional setting in the areas of pharmacy management/administration, pharmacy federal laws/regulation, and pharmacology. Also included are some basic test-taking techniques to increase proficiency on the state exam.

Pharmacy Technology Associate of Science Degree

To earn an Associate Degree with a specialization in Pharmacy Technology, students must complete the required courses plus the general breadth requirements (minimum total = 60 units).

Code	Title	Units
Required Courses:		
Complete the following courses with a grade of C or higher.		
PHT 060	Pharmacy System I	3
PHT 062	Pharmacology I	3
PHT 064	Pharmacy Calculations	3
PHT 070	Pharmacy Systems II	3
PHT 071	Pharmacology II	3
PHT 072	Pharmacy Clinical Experience	5
PHT 074	Pharmacy Seminar	2
One course from the following:		
BIOL 100	General Biology	4
BIOL 155	Introductory Anatomy and Physiology	4
BIOL 250	Human Anatomy and Physiology I	4
BIOL 260	Human Anatomy	4
CHEM 101	Introductory Chemistry	4
Total Units		26

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Prepare and distribute medicines to patients while working closely with pharmacists in hospitals, drug stores, and other medical settings.
- Examine prescription orders for accuracy and completeness.
- Use technology to maintain accurate patient records, prepare and package medicine, and process orders.
- Implement safety and cleanliness regulations, rules, and procedures.
- Demonstrate ethical leadership for the health care needs of our diverse communities.
- Solve sample questions aligning with the California State Board of Pharmacy licensure.

Pharmacy Technology Certificate of Achievement

This certificate is designed to prepare the student for entry-level employment as a pharmacy technician, assisting pharmacists to provide medication and other healthcare products to patients; receiving and verifying written prescriptions, requests for prescription refills from patients, or electronic prescriptions sent from doctors' offices; retrieving, counting, pouring, weighing, measuring, and sometimes mixing medications; and preparing containers and labels for medications. Technicians may also establish and maintain patient profiles, prepare insurance claim forms, and stock and take inventory of prescription and over-the-counter medications.

Code	Title	Units
Required Courses:		
Complete the following courses with a grade of C or better.		
PHT 060	Pharmacy System I	3
PHT 062	Pharmacology I	3
PHT 064	Pharmacy Calculations	3
PHT 070	Pharmacy Systems II	3
PHT 071	Pharmacology II	3
PHT 072	Pharmacy Clinical Experience	5
PHT 074	Pharmacy Seminar	2
One course from the following:		4
BIOL 100	General Biology	4
BIOL 155	Introductory Anatomy and Physiology	4
BIOL 250	Human Anatomy and Physiology I	4
BIOL 260	Human Anatomy	4
CHEM 101	Introductory Chemistry	4
Total Units		26

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Prepare and distribute medicines to patients while working closely with pharmacists in hospitals, drug stores, and other medical settings.
- Examine prescription orders for accuracy and completeness.
- Use technology to maintain accurate patient records, prepare and package medicine, and process orders.
- Implement safety and cleanliness regulations, rules, and procedures.
- Demonstrate ethical leadership for the health care needs of our diverse communities.
- Solve sample questions aligning with the PTCB-Pharmacy Technician Certification Board Exam.

Philosophy/Religious Studies

Whatever the vocational goal, students benefit from completing courses in philosophy and religious studies. Nearly everyone is concerned with the kinds of questions and experiences studied in philosophy and religion. Both fields of study are concerned with the nature of reality, truth and value, the human response to death and suffering, and those perennial human questions: Who am I? Why am I here? Where am I going?

Philosophy and religious studies courses require critical analysis, clarity, and understanding. These skills are achieved through careful and close reading of texts, images, and symbols as well as through descriptive and analytic writing. These are invaluable skills transferable to most vocations. Philosophy and religion courses require the study of diverse and often competing belief systems. This challenging and exciting endeavor can help us make sense of the events taking place in the world around us.

Students planning to transfer to a baccalaureate institution and major in philosophy or religious studies should consult a counselor regarding the transfer process and lower division requirements.

Contact Information

Division: Social Sciences, Human Development, Kinesiology and Health (NH - 345)

Division Phone Number: (909) 384-8603

Faculty Chair: Adam Pave (apave@sbccd.edu), Ph.D.

Counselor Liaisons: Frank Dunn (fdunn@sbccd.edu), M.P.A. and Andre Wooten (awooten@sbccd.edu), M.S.

- Philosophy Associate in Arts for Transfer Degree (p. 330)

PHIL 101 3 Units

Introduction to Philosophy

Lecture: 54 contact hours

Advisory: ENGL 101 or ENGL 101H

This course is a general introduction to the major problems and questions as pondered by philosophy's great thinkers. Attention is directed to both classic and modern philosophy and will include various voices from the history of philosophy as a basis for discussion of issues such as epistemology, metaphysics, ethics, and aesthetics.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PHIL 100

PHIL 101H 3 Units**Introduction to Philosophy - Honors****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a general introduction to the major problems and questions as pondered by philosophy's great thinkers. Attention is directed to both classic and modern philosophy and will include various voices from the history of philosophy as a basis for discussion of issues such as epistemology, metaphysics, ethics, and aesthetics. This course is intended for students in the Honors Program but is open to all students who desire more challenging coursework.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PHIL 100**PHIL 102 3 Units****Critical Thinking and Writing****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is an introduction to critical thinking focusing on argument and evidence and the ability to write coherent argumentative essays. Topics include recognition of the structures of reasoning in natural language, the evaluation of such reasoning (including informal fallacies), the uses and abuses of language, and an investigation of the rhetorical devices common in our culture. Students practice critical thinking by writing substantive arguments and essays.

Associate Degree Applicable**Transfers to both UC/CSU****PHIL 103 3 Units****Introduction to Logic: Argument and Evidence****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

Introduction to the techniques of critical thought, including language analysis, inductive and deductive logic, symbolic logic, and the development of the scientific method.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PHIL 110**PHIL 105 3 Units****Introduction to Ethics****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to ethics focusing on the analysis of the basic ideas and principles underlying moral conduct. Theories such as utilitarianism, deontology, virtue ethics, and many others will form the basis of the course. Specific ethical problems arising in disciplines such as business, health care, administration of justice, and politics, as well as specific ethical problems confronting individuals, will also be addressed in this course.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PHIL 120**PHIL 109 3 Units****Philosophy of Religion****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H and PHIL 101 or PHIL 101H

This course critically examines religion and religious belief from a rational and philosophical perspective. Central topics include the attributes and nature of God, arguments for theism and atheism, faith and reason, the problem of evil, religious pluralism, and the afterlife.

Associate Degree Applicable**Transfers to both UC/CSU****PHIL 112 3 Units****Philosophy in Literature****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course addresses ethical and metaphysical themes as presented in literature from the classical to the modern period. Philosophical problems such as freedom and determinism, the nature of virtue, the meaning of death, and the individual's relationship to the state and the structure of reality are explored through the encounter with novels, plays, short stories, and film.

Associate Degree Applicable**Transfers to both UC/CSU****PHIL 180 3 Units****Death and Dying****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a study of dying, death, and bereavement. Medical, ethical, legal, philosophical, and religious considerations will be explored. (This is also offered as RELIG 180)

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 100 3 Units****Introduction to Religious Studies****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introductory study of religion, with emphasis on religious experience, the origins and function of religion, and the various modes of religious expression. Necessarily broad in scope, this course will draw on Eastern, Western, ancient, and modern religious phenomena to help students understand various religious components, such as myth, ritual, scripture, art, doctrine, and mysticism.

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 100H 3 Units****Introduction to Religious Studies - Honors****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introductory study of religion, with emphasis on religious experience, the origins and function of religion, and the various modes of religious expression. Necessarily broad in scope, this course will draw on Eastern, Western, ancient, and modern religious phenomena to help students understand various religious components, such as myth, ritual, scripture, art, doctrine, and mysticism. This course is intended for students in the Honors Program but is open to all students who desire more challenging coursework.

Associate Degree Applicable**Transfers to both UC/CSU**

RELIG 101 3 Units**Introduction to World Religions****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to the major religious traditions of the world with an emphasis on the beliefs, practices, and histories of Buddhism, Christianity, Confucianism, Hinduism, Islam, Judaism, and Taoism.

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 115 3 Units****Magic, Witchcraft, Cults, and New Religious Movements****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

Through an examination of magic and witchcraft, the course introduces the study of the beliefs and practices, past and present, associated with new religious movements, sometimes referred to as cults. Topics examined include ritual, symbolism, altered states of consciousness and healing, as well as syncretism, change and the social roles of these beliefs and practices. The course also examines examples of various historical religious influences on new religious movements. (Formerly RELIG 110)

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 135 3 Units****Religion in America****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to the diverse expression of religion in the United States. Although limited by the history and geography of one country, the course necessarily draws from religions around the globe to help students understand how religion has grown and developed in the U.S. So, this course deals with a wide variety of expressions of religion, including the Puritans, slave religion, the religious reform movements, the Catholic, Protestant, Jewish, and Muslim communities, the African American religious experience, Eastern religions in America, and contemporary syncretistic religious movements.

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 150 3 Units****Introduction to Mythology****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to myth and its function in culture through an examination of creation stories, end-of-the world stories, hero stories, and trickster stories. Although focusing on the narrative expression of religion, this course necessarily draws from many traditions, including Native American, Greek, Roman, European, Islamic, Chinese, Hindu, and Japanese traditions of myth. In addition, this class will examine modern American myths.

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 175 3 Units****The Literature and Religion of the Bible****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course covers The English Bible as literature and as religion including an examination of the types of literature found in the Bible, the historical and religious context in which the literature was developed and an extensive reading of the two testaments. This course is also offered as ENGL 175. RELIG 175 is the transferable equivalent of ENGL 075. A student taking RELIG 175 may not earn credit for ENGL 075.

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 176 3 Units****Jesus and His Interpreters****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a study of images and interpretations of Jesus with three principle divisions: Jesus and the gospels or biblical tradition; Jesus and the historians, including the quest of historians and theologians for the Jesus of history; and Jesus and the arts (Jesus in art, music, film, and the literary arts, such as novels, poems, and plays.)

Associate Degree Applicable**Transfers to both UC/CSU****RELIG 180 3 Units****Death and Dying****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is a study of dying, death, and bereavement. Medical, ethical, legal, philosophical, and religious considerations will be explored. (This course is also offered as PHIL 180)

Associate Degree Applicable**Transfers to both UC/CSU**

Philosophy Associate in Arts for Transfer Degree

Strategically located within academic study, the discipline of philosophy offers students the opportunity to study diverse and competing worldviews. Through critical reading, thinking and writing, students will be challenged to acknowledge and respect diversity, promote equity, and seek opportunities of inclusion. Philosophy is concerned with perennial questions and is focused on reading carefully, thinking critically, understanding deeply, and imagining richly.

We will explore the nature of reality, truth and value, the human response to death and suffering, and ask big questions. For example: Who am I? Why am I here? What is truth? How do I know anything? What is good and what is evil? Philosophy courses require critical analysis, clarity, and understanding. These skills are achieved through careful and close reading of texts, images, and symbols, as well as through descriptive and analytic writing. You can expect the reward of an active, teachable, and inquisitive mind as well as a rich imagination.

The Associate in Arts for Transfer (AA-T) in Philosophy offers a challenging opportunity to explore how to learn and you will learn about your potential contributions within our world. This challenging and exciting endeavor can help us make sense of the events taking place in the world around us.

Most of all, by studying philosophy, you will learn about yourself. Studying philosophy provides students with invaluable skills transferable to nearly all vocations. The law states that students will have guaranteed admission

to a California State University (CSU) campus upon successful completion of the specified program requirements.

Students should consult with an academic counselor to determine whether this degree is the best option for their career and/or transfer goals.

To earn this AA-T degree, students must complete the following Associate Degree for Transfer requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Code	Title	Units
Required Courses:		
PHIL 103	Introduction to Logic: Argument and Evidence	3
PHIL 101	Introduction to Philosophy	3
or PHIL 101H	Introduction to Philosophy - Honors	
or PHIL 105	Introduction to Ethics	
List A - One course from the following (or any course not used in required courses):		
PHIL 102	Critical Thinking and Writing	3
ENGL 102	Intermediate Composition and Critical Thinking	4
or ENGL 102H	Intermediate Composition and Critical Thinking - Honors	
COMMST 125	Critical Thinking Through Argumentation and Debate	3
READ 102	Critical Reading as Critical Thinking	3
List B - Two courses from the following (or any course not used in List A):		
PHIL 109	Philosophy of Religion	3
RELIG 101	Introduction to World Religions	3
ENGL 175	The Literature and Religion of the Bible	3
or RELIG 175	The Literature and Religion of the Bible	
PHIL 180	Death and Dying	3
or RELIG 180	Death and Dying	
List C - One course from the following (or any course not selected from List A or List B):		
PHIL 112	Philosophy in Literature	3
RELIG 100	Introduction to Religious Studies	3
or RELIG 100H	Introduction to Religious Studies - Honors	
RELIG 115	Magic, Witchcraft, Cults, and New Religious Movements	3
RELIG 135	Religion in America	3
RELIG 150	Introduction to Mythology	3
RELIG 176	Jesus and His Interpreters	3

Major Total		18-19
Total Units That May Be Double Counted		9-12

General Education (CSU-GE or IGETC) Units	37-39
Elective (CSU Transferable) Units	11-17
Total Units	60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Identify and analyze the structure of arguments, including recognizing conclusions, premises, and inference indicators by writing a response to a particular writing prompt.
- Analyze and evaluate issues dealing with the tradition of philosophy, including but not limited to ethical, epistemological, metaphysical, and political philosophical issues, and/or the impact of Eastern traditions by using both descriptive and analytical writing.
- Apply the ideas and concepts in the tradition of philosophy to contemporary experience by writing a response to a particular writing prompt.

Physics

Physics is a fundamental science. It is concerned with finding and using the rules that govern everything—from the smallest pieces of the atom to the various collections of atoms—molecules, balls, planets, stars, and more—that compose the myriad contents of the universe. Students majoring in physics will be rewarded on a personal level with a deep understanding of the world around us. On a professional level, physicists find a variety of employment opportunities, which are relatively free of ethnic and gender bias, pay well, reward creativity, and are just plain fun.

Students planning to transfer to a four-year institution and major in physics should consult with a counselor regarding the transfer process and lower division requirements.

 - Physics Associate of Science Degree (p. 333)

PHYSIC 101 4 Units

Introductory Physics

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite: Eligibility for college level English and Mathematics based on the SBVC Guided-Self Placement process.

This introductory, algebra-based, physics course is an exploration of the physical principles ranging from classical mechanics to modern physics, which shape our lives. Students will be better equipped to make connections between the concepts of physics and their everyday world. This class includes a hands-on laboratory to bridge the connection between theory and everyday life. This course also explores the connections between physics and other fields of science, technology, and society.

Associate Degree Applicable

Transfers to both UC/CSU

PHYSIC 151 4 Units

General Physics for the Life Sciences I

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite: MATH 103 or eligibility for MATH 151 or higher based on the SBVC Guided-Self Placement process and eligibility for college level English based on the SBVC Guided-Self Placement process.

Advisory: PHYSIC 101

This is the first course in a two-semester physics sequence designed primarily for students in biology, pharmacology, pre-medicine, physical therapy, and allied health programs. Topics include mechanics, waves, fluids, and thermodynamics. The needed concepts of calculus will be developed and used where appropriate.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PHYS 105/100S

PHYSIC 152 4 Units

General Physics for the Life Sciences II

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite: PHYSIC 151

This is the second course in a two-semester physics sequence designed primarily for students in biology, pharmacology, pre-medicine, physical therapy, and allied health programs. Topics include electricity, magnetism, optics, and modern physics. The needed concepts of calculus will be developed and used where appropriate.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PHYS 110/100S

PHYSIC 202 4 Units

Physics I

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite: ENGL 101 or ENGL 101H and MATH 250 and PHYSIC 101

Corequisite: MATH 250. The department highly recommends completing MATH 250 prior to enrollment in PHYSIC 202.

This is a calculus based physics course covering mechanics and oscillations. This course is designed to satisfy the lower division physics requirement for majors in physics, engineering, astronomy, chemistry, geology, computer science and mathematics.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PHYS 205/200S

PHYSIC 203 4 Units

Physics II

Lecture: 54 contact hours

Lab: 54 contact hours

Prerequisite/Corequisite: MATH 251

Prerequisite: PHYSIC 202

This is a calculus based physics course covering electricity, magnetism, and waves. This course is designed to satisfy the lower division physics requirement for majors in physics, engineering, astronomy, chemistry, geology, computer science and mathematics.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PHYS 210/200S

PHYSIC 204 4 Units**Physics III****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite/Corequisite:** MATH 251**Prerequisite:** PHYSIC 202**Advisory:** MATH 252

This is a calculus based physics course covering thermodynamics, fluids, optics, and modern physics. This course is designed to satisfy the lower division physics requirement for majors in physics, engineering, astronomy, chemistry, geology, computer science and mathematics.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PHYS 215/200S**PHYSIC 210 4 Units****Modern Physics****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite:** PHYSIC 203 and PHYSIC 204 and PHYSIC 151 and PHYSIC 152 and MATH 251

This is a calculus-based physics course in modern physics. Topics include relativity, quantum mechanics, atoms, molecules, condensed matter, nuclear, and particle physics.

Associate Degree Applicable**Transfers to both UC/CSU****PHYSIC 222 1-3 Units****Independent Study in Physics****DIR:** 54 contact hours**Prerequisite:** PHYSIC 101**Advisory:** ENGL 101 or ENGL 101H

Students with previous course work in Physics may do assigned projects involving research and analysis of selected topics. The independent study is for students who are interested in furthering their knowledge of Physics. Prior to registration, a written contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only**

Physics Associate of Science Degree

To graduate with a specialization in Physics, students must complete the following required courses plus the general breadth requirements for the Associate Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
PHYSIC 202	Physics I	4
PHYSIC 203	Physics II	4
PHYSIC 204	Physics III	4
PHYSIC 210	Modern Physics	4
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5
Total Units		29

Code	Title	Units
Recommended Courses:		
CHEM 150	General Chemistry I	5
CHEM 151	General Chemistry II	5

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate general knowledge of physical concepts and principles appropriate for lower division courses in physics.
- Apply critical thinking skills and physical methods in solving problems appropriate for lower division physics courses.
- Demonstrate standard laboratory skills and techniques appropriate for lower division courses in physics, as well as communicate concepts and results through well-organized lab reports.

Physics Associate in Science for Transfer Degree

The Associate of Science for Transfer (AS-T) in Physics provides students with a deep understanding of the world around them. This degree provides students with transfer preparation and pre-professional training. The AS-T in Physics explores with finding and using the rules that govern everything—from the smallest pieces of the atom to the various collections of atoms—molecules, balls, planets, stars, and more—that compose the myriad contents of the universe. Students should consult with a counselor to determine whether this degree is the best option for their transfer goals.

The Associate in Art for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. In order to earn one of these degrees, students must complete 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that does accept the AA-T or AS-T will be required to complete no more than 60 units after transfer to earn a bachelor's degree (unless the major is a designated "high unit" major). This degree may not be the best option for students intending to transfer to a particular CSU campus or to a university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

To earn a Physics AS-T degree, students must complete the following Associate Degree for Transfer requirements:

- completion of the following major requirements with grades of C or better;
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and

- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a baccalaureate institution and major in Physics should consult with a counselor regarding the transfer process and lower division requirements.

Code	Title	Units
Required Courses:		
MATH 250	Single Variable Calculus I	4
MATH 251	Single Variable Calculus II	4
MATH 252	Multivariable Calculus	5
PHYSIC 202	Physics I	4
PHYSIC 203	Physics II	4
PHYSIC 204	Physics III	4
Code	Title	Units
Major Total		25
Total Units That May Be Double Counted		7
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		0-5
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate general knowledge of physical concepts and principles appropriate for lower division courses in physics.
- Apply critical thinking skills and physical methods in solving problems appropriate for lower division physics courses.
- Demonstrate standard laboratory skills and techniques appropriate for lower division courses in physics, as well as communicate concepts and results through well-organized lab reports.

Police Science

One of modern government's most challenging tasks is the enforcement of laws and the protection of lives and property while respecting constitutional individual rights. Carefully selected, highly trained and motivated peace officers are central in this task. The Basic Law Enforcement Academy is presented in both an intensive and extended format for students interested in becoming peace officers.

The state screening requirements for admission into the Basic Law Enforcement Academy are: A person must have a physical examination, Department of Justice/Federal Bureau of Investigation fingerprint check and clearance, a valid California driver's license with no restrictions (one exception is corrective lenses), and never have been convicted of a felony. Police Science classes are certified by the California Commission on Peace Officer Standards and Training.

- Basic Peace Officer Certificate of Achievement (p. 335)

POLICE 001 1.5 Units

Police Academy Preparation

Lecture: 36 contact hours

Lab: 8 contact hours

This course is designed to provide the student with the necessary information and guidance to meet the requirements for entry into and completion of the intensive or extended police academy. The course comprehensively covers personal leadership development skills as well as mental and physical preparation strategies fundamental to a successful police academy experience.

Associate Degree Applicable

POLICE 002 26 Units

Basic Law Enforcement Academy

Lecture: 325 contact hours

Lab: 444 contact hours

Corequisite: POLICE 100 and POLICE 101 and POLICE 102 and POLICE 103

Advisory: POLICE 001 and ENGL 101 or ENGL 101H

Limitation on Enrollment: Enrollment is limited to those students who meet state screening requirements as outlined in the Government Code California Penal Code and the Commission on Peace Officer Standards and Training Administrative Manual.

Basic training for new law enforcement officers. This course covers but is not limited to: leadership, professionalism and ethics, criminal justice system, juvenile law, patrol procedures, domestic violence, traffic enforcement, lifetime fitness, defensive tactics, first aid and CPR, and firearms.

Associate Degree Applicable

POLICE 003 11 Units**Basic Police Academy Qualification****Lecture:** 180 contact hours**Lab:** 54 contact hours**Prerequisite:** Completion of a POST-Approved Basic Academy Course

This course is in compliance with the Commission on Peace Officers Standards and Training (POST) requirements for requalification training. This course re-certifies students who graduated from a POST-approved basic police academy more than three years ago and have not obtained employment as a sworn police officer. This course also re-certifies students who have graduated from a POST-approved academy and have been previously employed as a peace officer, and are returning to employment as a police officer after a break of more than three years.

POLICE 100 3 Units**Criminal Law****Lecture:** 54 contact hours**Corequisite:** POLICE 002 and POLICE 101 and POLICE 102 and POLICE 103**Advisory:** ENGL 101 or ENGL 101H

Limitation on Enrollment: This course is limited to students who have successfully met state screening requirements: possession of a California driver's license without restrictions other than required eyeglasses or contact lenses and possession of a current letter of clearance issued by the California Department of Justice that certifies the right to be in possession of a firearm.

This course analyses property crimes, crimes against persons, crimes against children, child abuse reporting, sex crimes, crimes against the judicial system, weapons violations, relevant laws and court decisions and crimes against the public peace. This course will focus on the relationship between criminal law and the criminal justice system. Classification of crimes and their application to the criminal justice system will also be covered in the course.

Associate Degree Applicable**Transfers to CSU only****POLICE 101 3 Units****Procedure and Evidence****Lecture:** 54 contact hours**Corequisite:** POLICE 002 and POLICE 100 and POLICE 102 and POLICE 103**Advisory:** ENGL 101 or ENGL 101H

Limitation on Enrollment: Enrollment is limited to those students who meet the screening requirements as outlined in the Government Code California Penal Code and the Commission on Peace Officer Standards and Training Administrative Manual.

This course will address a peace officer's authority, liability and responsibility to make a lawful arrest, and current search and seizure laws. It includes the origin, development, philosophy, and constitutional basis of evidence; rules and procedures governing admissibility and judicial decisions interpreting individual rights.

Associate Degree Applicable**Transfers to CSU only****POLICE 102 3 Units****Community Policing****Lecture:** 54 contact hours**Corequisite:** POLICE 002 and POLICE 100 and POLICE 101 and POLICE 103**Advisory:** ENGL 101 or ENGL 101H

Limitation on Enrollment: Enrollment is limited to those students who meet the screening requirements as outlined in the Government Code California Penal Code and the Commission on Peace Officer Standards and Training Administrative Manual.

This course addresses the origin, concepts and philosophy of community policing, and victim awareness and the development of positive relationships with the public. It includes cultural diversity and discrimination.

Associate Degree Applicable**Transfers to CSU only****POLICE 103 3 Units****Introduction to Criminal Investigation****Lecture:** 54 contact hours**Corequisite:** POLICE 002 and POLICE 100 and POLICE 101 and POLICE 102**Advisory:** ENGL 101 or ENGL 101H

Limitation on Enrollment: Enrollment is limited to those students who meet screening requirements as outlined in the Government Code California Penal Code and the Commission on Peace Officer Standards and Training Administrative Manual.

This course will address the examination of crime, evidence and police procedures in investigating crime. This includes documenting, recording and preserving evidence found at crime scenes.

Associate Degree Applicable**Transfers to CSU only****POLICE 601 Noncredit****Mature Driving****Lecture:** 10 contact hours

This noncredit course is designed to update the driving skills of mature students. Curriculum for this course is provided by the State of California's Department of Motor Vehicles (DMV) to help older drivers become more defensive, more alert to their surroundings, and to familiarize them with new traffic laws. This course is intended for adults 55 and older, but is open to all students.

Basic Peace Officer Certificate of Achievement

The Basic Peace Officer certificate is designed for state certified entry-level positions in law enforcement agencies. Successful completion of this program and subsequent completion of the hiring agencies probationary period in a Peace Officers' Standards and Training (POST) certified agency qualifies the student for a California POST certificate. This program meets Penal Code §832 requirement of training as a peace officer in the state of California.

This program is offered in two formats: The Intensive Format (approximately 24 weeks) and the Extended Format (approximately 50 weeks). Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Code	Title	Units
Required Courses:		
POLICE 002	Basic Law Enforcement Academy	26
POLICE 100	Criminal Law	3

POLICE 101	Procedure and Evidence	3
POLICE 102	Community Policing	3
POLICE 103	Introduction to Criminal Investigation	3
Total Units		38

Code	Title	Units
Recommended Course:		
POLICE 001	Police Academy Preparation	1.5

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Apply to any law enforcement agency in the State of California as a peace officer.
- Apply knowledge and skills required in completing a Field Training Program (FTO).
- Apply understanding and skills essential in patrol procedures, firearms, administration of justice, defensive tactics, physical training, First Aid, cardiopulmonary resuscitation, traffic investigation, water safety, and driver training.
- Recognize the importance of community policing, cultural diversity, victim awareness, and the development of positive community relationships.
- Demonstrate the ability to identify and understand key crime prevention techniques; and to accurately read and recognize circumstances under which search and seizures can be conducted.
- Analyze the relationships between law enforcement, corrections, and courts.
- Identify and assess criminal law and the criminal justice system; and the origin, philosophy, concepts, and procedure of evidence; the judicial decisions and theories, degrees of evidence, individual rights, and case studies.
- Identify and evaluate the requirements for an Administration of Justice degree.

Political Science

The Political Science Department offers courses satisfying general education requirements for an Associate Degree and transfer requirements for the majors offered at colleges and universities. Our department offers courses to meet the California State University graduation requirement of U.S. Constitution and California State and local government, and may be certified for CSU GE-Breadth (POLIT 100). We also offer courses that provide service-learning opportunities for students seeking development of leadership skills through involvement in on-and off-campus community service (POLIT 138, POLIT 138H, POLIT 139, and POLIT 139H). For students interested in global affairs, we offer Comparative Politics (POLIT 140) and World Politics (POLIT 141 and POLIT 141H). We offer POLIT 110 and POLIT 110H for students interested in the development of Western political thought and philosophy.

A major in Political Science provides useful preparation for students interested in careers in politics, government (including the foreign service, the military and intelligence); teaching; public administration; public relations; law enforcement; the legal professions, and related fields. Students planning to transfer to a four-year institution and major in political science should consult with a counselor regarding the transfer process and lower-division requirements.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** POLS 140**POLIT 150 3 Units****Introduction to Public Policy****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course is an introduction to public policy. It introduces the basic concepts and processes underlying policy analysis, including application of these concepts to economic and budgetary policy, health care policy, welfare and social security policy, education policy, and environmental and energy policy, and social and cultural policies. It covers the actors involved in the policy process such as institutions, congress, the executive branch, and groups. It also addresses the theories involved in the policy process as well as the environment in which policy is made in the United States.

Associate Degree Applicable**Transfers to both UC/CSU****POLIT 170 3 Units****Introduction to the Politics of Race and Gender****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is an introduction to the politics of race and gender. Using intersectionality as a framework, the course offers an overview of the political representation, identity, status, and power of non-binary Women, Native Americans, African Americans, Latina/o Americans, and Asian Americans.

Associate Degree Applicable**Transfers to both UC/CSU****POLIT 173 3 Units****California Government****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

California is a uniquely diverse and dynamic state! This course introduces students to the history, politics, and government of California, paying particular attention to the nature of federalism, institutions of state government, direct democracy, the role of partisanship and demographic diversity, media and public opinion, parties and interest groups, campaigns and elections, and social movements in the Golden State. Special examination will be made to the realities of making public policy and its intersection with politics, interest groups, political parties and the media.

Associate Degree Applicable**Transfers to both UC/CSU****POLIT 222 1-3 Units****Independent Study in Political Science****DIR:** 162 contact hours

Students with previous course work in Political Science may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Political Science and related fields. Student work may include but not be limited to readings, research, projects, intern assignments and conferences. Prior to registration, a contract must be prepared jointly by the instructor and the student.

Associate Degree Applicable**Transfers to CSU only**

Political Science Associate in Arts for Transfer Degree

Political Science is the academic discipline that investigates the institutions and processes by which human societies are ruled. Political scientists use the techniques of empirical research and historical analysis, along with normative consideration of the ends of political action, to explore the outcomes of various governmental arrangements and alternatives. The study of political science will prepare students for careers in law, politics, governmental service, social science teaching, and journalism, as well as for active participation in the political system of the United States.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a Political Science AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in political science should consult with a counselor regarding the transfer process and lower division requirements.

Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate a comprehensive understanding of the domestic governmental institutions and political practices of the United States – at the national, state, and local levels – including their Constitutional bases; the special functions of the legislative, executive, and judicial branches and their associated bureaucratic and regulatory agencies; and the activities of leading participants in the political process including organized special interest groups, political parties, and grassroots activists.
- Demonstrate a keen awareness of the world beyond our national borders and know the principal players in world politics—state actors (countries) and non-state actors such as international governmental organizations (IGOs) and international non-governmental organizations (INGOs), and their respective role in creating world order; employ the principle of levels of analysis to explain a major development in world politics such as the outbreak of war or a complex foreign policy decision; understand the principal parameters around which to compare different political systems; have an understanding of how different historical and cultural forces end up creating different regimes—authoritarian regimes or democratic regimes; and have a general knowledge of the fundamental components of political economy—public goods, taxation, regulations, trade policies, employment, and money supply.
- Demonstrate an understanding of the practical skills needed for employment, or other participation, in governmental and political contexts.

Psychiatric Technology

This program is designed to prepare students to become Psychiatric Technicians who provide quality care to assist patients in attaining their maximum level of wellness. Graduates are eligible to take the state licensing examination. The program is accredited by:

California State Board of Vocational Nurses and Psychiatric Technicians
2535 Capitol Oaks Drive, Suite 205
Sacramento, CA 95833.

Students are admitted in the Fall and Spring semesters. Students must complete program prerequisites, support courses, required courses, and apply and be accepted to the program. To enroll in the program, students must pass a Livescan background check and meet the health requirements. California law allows for denial of the PT license based on any conviction or legal action related to PT practice.

Prerequisites for the Psychiatric Technology Program

- a. High school completion (official transcript or Diploma or G.E.D., AA Degree, BS Degree, or foreign graduate that has been evaluated by AERC (American Educational Research Corporation), or IERF (International Education Research Foundation), or World Education Services.

- b. Complete the following courses with a grade of C or higher:

Code	Title	Units
ENGL 101	College Composition	4
	or ENGL 101H College Composition - Honors	
PSYCH 100	General Psychology	3
	or PSYCH 100H General Psychology - Honors	
MATH 108	Introduction to Probability and Statistics	4
	or PSYCH 105 Statistics for the Behavioral Sciences	
Human Anatomy and Physiology - Select one series from the following:		
BIOL 155	Introductory Anatomy and Physiology ¹	4
BIOL 250 & BIOL 251	Human Anatomy and Physiology I and Human Anatomy and Physiology II	8
BIOL 260 & BIOL 261	Human Anatomy and Human Physiology	8

- c. Students have the option to enroll in PSYCH 110, PSYCH 111, or PSYCH 112 if PSYCH 100 or PSYCH 100H was completed more than 5 years ago.
- d. BIOL 155 and PSYCH 100 must be completed within 5 years of starting the program. Foreign transcripts must be evaluated for equivalency by an approved agency. See program Director/Department Chair.

¹ BIOL 155, BIOL 261 (<https://catalog.valleycollege.edu/search/?P=BIOL%20261>) (or BIOL 250 (<https://catalog.valleycollege.edu/search/?P=BIOL%20250>) & BIOL 251 (<https://catalog.valleycollege.edu/search/?P=BIOL%20251>)) must be taken within 5 years of application to the program; Fully online sciences will not be accepted. BIOL 250 (<https://catalog.valleycollege.edu/search/?P=BIOL%20250>) & BIOL 251 (<https://catalog.valleycollege.edu/search/?P=BIOL%20251>) must be completed at the same regionally accredited institution.

Application to the Psychiatric Technician

Applications to the Psychiatric Technician program may only be submitted when all program prerequisites have been completed. Applications must be submitted online via the link provided on the SBVC Psychiatric Technician webpage. The applications will be accepted March 1 – 15 for entry in the fall and September 1-15 for entry in the Spring. The application will not be accepted if falsification or inaccurate information is provided. Submit the following to Admission & Records prior to submitting the application:

- Official college transcripts from all colleges or universities attended except for SBVC or Crafton Hills College. Transcripts must be issued within the last 6 months and document that the program prerequisites have been completed. If transcripts are from a foreign country, they must be evaluated for equivalency - see Admission Clerk.
- High School completion document.

Acceptance Procedure

Effective Fall 2019 the Psychiatric Technology Program will select students through a point system. All prerequisites must be completed prior to applying, no exceptions. Once the application period has closed, the acceptance committee will review all completed applications. Students ranked with the highest points will then be selected for entry. Applicants will be notified via email and Canvas of their application status.

Introduction to Psychiatric Technology

Lecture: 225 contact hours

Lab: 351 contact hours

Limitation on Enrollment: Registration is limited to students who have completed program prerequisites and have been accepted into the Psychiatric Technology program.

This course is an introduction to psychiatric technology emphasizing basic therapeutic communication, pharmacology, growth and development, developmental disabilities, behavior modification, nutrition, and nursing care, including application of basic nursing skills to the care of clients with developmental disabilities.

Associate Degree Applicable

PSYTCH 085 12 Units**Psychiatric Technology: Nursing Science****Lecture:** 135 contact hours**Lab:** 243 contact hours**Prerequisite:** PSYTCH 084

Limitation on Enrollment: Registration is limited to students who have completed the program prerequisites and have been accepted into the Psychiatric Technology program.

This course is the study of basic nursing science concepts and skills with emphasis on nursing care for pediatric, adult and geriatric clients with medical and surgical disorders. Application of theory to the care of physically ill clients in acute and long-term care agencies.

Associate Degree Applicable**PSYTCH 086 19 Units****Introduction to Psychiatric Technology: Behavioral Science****Lecture:** 225 contact hours**Lab:** 351 contact hours**Prerequisite:** PSYTCH 084

Limitation on Enrollment: Registration is limited to students who have completed prerequisites and have been accepted into the Psychiatric Technology program.

This course is a study of psychiatric mental disorders with emphasis on causes, clinical manifestations, diagnosis, interventions and treatments. Included is the application of mental health theory to the basic nursing care of clients in acute, long-term care, and state mental health institutional settings.

Associate Degree Applicable**PSYTCH 601 Noncredit****Psychiatric Technician Licensure Exam Preparation****Lecture:** 18 contact hours

This noncredit course prepares students that have completed or are nearing completion of the psychiatric technology program for the state administered licensing examination for psychiatric technicians. This course is also recommended for students who desire refresher training. Topics include, but are not limited to, nursing science – theory and techniques, basic nursing, developmental disabilities, medications, psychiatric mental health nursing. Also included are some basic test-taking techniques to increase proficiency on the state exam.

Psychiatric Technology Associate of Science Degree

This degree program is designed to prepare students to become Psychiatric Technicians who provide quality care and assist patients in attaining their maximum level of wellness. Graduates are eligible to take the state licensing examination. The program is accredited by the California State Board of Vocational Nurses and Psychiatric Technicians, 2535 Capitol Oaks Drive, Suite 205, Sacramento, CA 95833.

Students are admitted in the Fall and Spring semesters. Students must complete program prerequisites, support courses, required courses, apply and be accepted to the program. To enroll in the program, students must pass a Livescan background check and meet the health requirements. California law allows for denial of the PT license based on any conviction or legal action related to PT practice.

Code	Title	Units

PSYTCH 085	Psychiatric Technology: Nursing Science	12
PSYTCH 086	Introduction to Psychiatric Technology: Behavioral Science	19
Total Units		65-69

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Use an online simulated Psychiatric Technology State Board Certification examination (BVNPT) to prepare for the BVNPT licensure exam.
- Safe and timely administration of medication, including injections.
- Calculate pharmacological dosages with 100% accuracy.
- Apply or interpret therapeutic communication when observing or interacting with patients.
- Develop and discuss case studies/care plans to prioritize patient care.

Psychiatric Technology Certificate of Achievement

This certificate is designed to prepare students for employment as a Psychiatric Technician, providing care and participating in the treatment of mentally and developmentally disabled clients. Learning activities are conducted on the college campus and a variety of community agencies.

The curriculum prepares students to take the California Psychiatric Technician license examination. The Psychiatric Technology program is

accredited by the California Board of Vocational Nursing and Psychiatric Technicians.

Students must complete program prerequisites, apply and be accepted into the Psychiatric Technology program. To enroll in the program, students must pass a background check and meet health requirements. The California Board of Vocational Nursing and Psychiatric Technicians may deny a license based on any conviction or action substantially related to Psychiatric Technician practice.

Psychology

Psychology is both a natural and a social science concerned with the study of human behavior, thoughts, and emotions. As such, it is a broad discipline, which involves both pure science and practical application of science to matters of daily living. Students planning to transfer to a four-year institution and major in psychology should consult with a counselor regarding the transfer process and lower division requirements.

- Psychology Associate in Arts for Transfer Degree (p. 344)

PSYCH 100 3 Units

General Psychology

Lecture: 54 contact hours

Advisory: READ 100

This course surveys the nature and scope of psychology as a science. The content focuses on the exploration of psychological theories, concepts, methods, and research findings in psychology. Topics include psychology research design, biological bases of behavior, perception, consciousness, cognition, learning, development, memory, personality, psychological disorders and therapeutic approaches, emotion, motivation, social psychology, and applied psychology.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PSY 110

PSYCH 100H 3 Units

General Psychology - Honors

Lecture: 54 contact hours

Advisory: READ 100 or placement into ENGL 101 or ENGL 101H based on the SBVC Guided-Self Placement Process.

This course surveys the nature and scope of psychology as a science. The content focuses on the exploration of psychological theories, concepts, methods, and research findings in psychology. Topics include psychology research design, biological bases of behavior, perception, consciousness, cognition, learning, development, memory, personality, psychological disorders and therapeutic approaches, emotion, motivation, social psychology, and applied psychology. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PSY 110

PSYCH 102 3 Units**Personal and Social Adjustment****Lecture:** 54 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H**Advisory:** READ 100

This course provides students with an applied focus on how psychology is used in everyday life and is related to other social sciences. This course examines a variety of psychological and theoretical perspectives and how these ideas are applied across a person's life taking into account the influence of factors such as culture, gender, ethnicity, historical cohort, and socio-economic status. A broad understanding of how scientists, clinicians, and practitioners study and apply psychology is emphasized.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PSY 115**PSYCH 105 4 Units****Statistics for the Behavioral Sciences****Lecture:** 72 contact hours**Prerequisite:** Eligibility for college level Mathematics based on the SBVC Guided-Self Placement process.**Advisory:** PSYCH 100 or PSYCH 100H

This class focuses on statistics as applied to the social sciences and includes such topics as measurement, frequency distributions, measures of central tendency, measures of variability, the normal distribution curve, correlation, sampling, statistical inference, hypothesis testing and an introduction to analysis of variance.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** MATH 110/SOC125**PSYCH 110 3 Units****Abnormal Psychology****Lecture:** 54 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H**Advisory:** READ 100

This course is an integrative survey of theory and research in abnormal behavior. The scientific study of psychopathology and atypical behaviors is explored. Abnormal behavior is investigated from a variety of perspectives including biological, psychological, and sociocultural approaches. Intervention and prevention strategies for psychological disorders are also introduced.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PSY 120**PSYCH 111 3 Units****Developmental Psychology: Lifespan****Lecture:** 54 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H**Advisory:** READ 100

This course is a survey of lifespan developmental psychology from conception through death, including biological and environmental influences. Theories and research on physical, cognitive, personality, and social development are examined, as well as attention to developmental disturbances and problems.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PSY 180**PSYCH 112 3 Units****Developmental Psychology: Child and Adolescent Psychology****Lecture:** 54 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H**Advisory:** READ 100

This course is a survey of the psychological growth of the normal individual from conception through adolescence with emphasis on stages of development. Particular emphasis is given to physical development, intellectual development, social and emotional development during the first two decades of life. Other topics include good and bad parenting styles and the potential problems encountered by children and adolescents.

Associate Degree Applicable**Transfers to both UC/CSU****PSYCH 118 3 Units****Human Sexual Behavior****Lecture:** 54 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H**Advisory:** READ 100

This course provides an overview of the field of human sexuality through examining human sexuality from psychological, biological, sociocultural, and historical perspectives. Current sex norms and aspects of interpersonal and individual sexual adjustment will be explored. Students will be encouraged to develop an awareness of their own sexual attitudes, values, and behaviors and to evaluate the consistency of their behaviors within their own moral frameworks.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PSY 130**PSYCH 119 3 Units****Multicultural Psychology****Lecture:** 54 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H**Advisory:** READ 100

This course examines cultural influences on human behavior such as development, mental health, social behavior, and social cognition in contexts ranging from everyday modes of functioning to family and work relationships. This course will examine a wide range of theories and research with respect to cultural influences on human behavior, cognitive processes, lifespan development, abnormal behavior, mental health, self-concept, emotion, motivation, learning, intelligence, perception, memory, and communication. This course provides students with a non-judgmental environment in which students will understand how culture influences human behavior which will assist them in interactions with people from diverse cultures.

Associate Degree Applicable**Transfers to both UC/CSU**

PSYCH 141 3 Units**Introduction to Biological Psychology****Lecture:** 54 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H**Advisory:** READ 100

This course will introduce the scientific study of the biological bases of behavior and the role of the scientific method in neuroscience. Topics will include basic neuroanatomy and neurophysiology, nervous system structure and functions, hormonal and neurochemical mechanisms, brain-behavior relationships underlying movement, sensation, perception, learning, memory, consciousness, emotion, regulatory processes, and psychological disorders. Historical scientific contributions and current research principles for studying brain-behavior relationships and mental processes will be addressed in this course. Ethical standards for human and animal research will be discussed in the context of both invasive and non-invasive experimental research.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PSY 150**PSYCH 201 4 Units****Research Methods for the Behavioral Sciences****Lecture:** 72 contact hours**Prerequisite:** PSYCH 100 or PSYCH 100H and ECON 208 or MATH 108 or MATH 108H or PSYCH 105**Advisory:** READ 100

This course is a survey of research design and research methods primarily used in psychology and the social sciences including experimental and non-experimental research methods. Students will conduct research, analyze data, and write research reports.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** PSY 200

Psychology Associate in Arts for Transfer Degree

Psychology is both a natural and a social science concerned with the study of human behavior, thoughts, and emotions. As such, it is a broad discipline which involves both pure science and practical application of science to matters of daily living. The Psychology Associate in Arts Degree for Transfer (Psychology AA-T degree) provides students with an education in the core aspects of Psychology which include research methods, statistics, biological influences on behavior and mental processes, and major theoretical perspectives in the discipline. The Psychology AA-T degree prepares students for transfer to CSU campuses that offer bachelor's degrees in psychology.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

To earn a Psychology AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P").
- completion of a minimum of 60 CSU transferable semester units with a grade point average of at least 2.0; and

- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC), which requires a minimum of 37-39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

It is also highly recommended that students complete ENGL 101/ENGL 101H or the equivalent before taking any Psychology courses beyond PSYCH 100/PSYCH 100H.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- a. Identify, compare, and critically evaluate theory- and research-based ideas in psychology.
- b. Analyze and evaluate psychological concepts.
- c. Apply psychological concepts to the analysis and evaluation of the consequences of personal behavioral choices.
- d. Identify, analyze, and apply concepts related to statistical information and techniques as well as research methods.

Real Estate

There are varieties of reasons why people study real estate. Some wish to become real estate agents, and some people study real estate to be better-informed consumers as they work with agents to buy or sell a personal residence. Still others study real estate as a way to acquire long-term investments that could generate rental income for their retirement years. Whatever the reason, this curriculum provides a strong basis for understanding the real estate market.

The Real Estate curriculum is designed to provide students with the preparation for pre-qualification for the real estate sales or brokers examinations.

REALST 062 3 Units

Real Estate Practice

Lecture: 54 contact hours

This course covers the practical techniques of operating a real estate business. Emphasis on daily activities of brokers and salesperson; introduction to appraising, exchanges, listings, advertising, financing, and marketing. Exchanges, specialized brokerage, property management, professional and public relations.

Associate Degree Applicable

REALST 063 3 Units

Real Estate Loan Processing Fundamentals

Lecture: 54 contact hours

Advisory: REALST 100

This course covers loan processing, specifically the mechanics of mortgage lending with emphasis on ethical practices.

Associate Degree Applicable

REALST 068 3 Units

Real Estate Appraisal: Residential

Lecture: 54 contact hours

Advisory: REALST 100

This course addresses the purpose of appraisals, appraisal process, and the different methods, approaches, and techniques used to determine the value of various types of property. Successful completion of this course meets elective qualification for salesperson or broker licensing approval.

Associate Degree Applicable

REALST 070 3 Units**Real Estate Finance****Lecture:** 54 contact hours**Advisory:** REALST 100

This course surveys the concepts, methods, and techniques of financing residential and non-residential real estate while also identifying and analyzing the various instruments used for such purposes. Instruction covers sources, characteristics, and parameters of mortgage capital; fixed, variable rate, and other alternative types of mortgages; government-assisted financing (such as VA, FHA, and SBA); the secondary mortgage market; mathematical analysis of finance transactions (amortization, loan constants, present and future value, compound interest, APR, capitalization rates, debt coverage, and other financial ratios and ways of determining yield); loan underwriting, processing, closing, and servicing; foreclosures and alternatives thereto (such as short sales) and related antideficiency law issues; guaranties; and leasehold financing; impact of how title is held and real estate tax effects; comparison of investment choices, both before and after taxes are factored in; plus syndication and other equity sharing issues. Successful completion of this course meets elective qualification for salesperson or broker licensing approval.

Associate Degree Applicable**REALST 074 3 Units****Legal Aspects of Real Estate****Lecture:** 54 contact hours**Advisory:** REALST 100

This course is an overview of California real property law and its influence on various aspects of the real estate industry. The course examines the legal issues surrounding real estate ownership and transfer, contracts, rights and duties of ownership, conveyance issues, mortgages and deeds of trust, easements, government control and powers, escrow and title insurance, zoning, landlord and tenant problems, real estate brokerage and agency relationships, and agency ethics. This course applies toward education requirement of California Broker's Examination.

Associate Degree Applicable**REALST 076 3 Units****Property Management****Lecture:** 54 contact hours**Advisory:** REALST 100

This course provides an overview of property management fundamentals for the real estate professional, individual owner, or real estate student. Property types covered include office, retail, industrial, condominium, and apartment buildings. Responsibilities of the property manager/owner will be studied, including tenant relations, landlord/tenant law, leasing/renting, human resources, office administration, insurance, financial statements/budgets, building maintenance, vendor services, and property management as a career. This course applies towards the educational requirements for the California State Broker's Examination.

Associate Degree Applicable**REALST 078 3 Units****Real Estate Economics****Lecture:** 54 contact hours**Advisory:** REALST 100

This course provides students with a basic understanding of economic factors that affect residential, commercial, industrial, rural and special purpose real estate. The focus is on financing and government policy; urban development and renewal; regulation of land use; business and real estate cycles and mortgage markets and their impact on real estate and investment opportunities. This course satisfies the California Department of Real Estate (DRE) requirement that students pass a college-level Real Estate Economics course prior to taking the Real Estate Broker License Exam. It can also count as the optional course that students must pass prior to taking the California Real Estate Salesperson License Exam.

Associate Degree Applicable**REALST 080 3 Units****Escrow Procedures****Lecture:** 54 contact hours

This course provides students with a real-life application of the steps in a real estate sale including completing and reviewing the California Association of Realtors (C.A.R.) Joint Purchase Agreement and Escrow Instructions, reviewing the Preliminary Report and solving title problems, learning lenders' closing requirements and the recording process, and balancing and figuring the settlement of the closing funds. Applies toward the State's elective educational requirements for the Real Estate Salesperson license and toward the requirements for the broker's examination.

Associate Degree Applicable**REALST 100 3 Units****Real Estate Principles****Lecture:** 54 contact hours**Advisory:** ENGL 101 or ENGL 101H

This course includes the fundamentals of real estate including the basic laws and principles of California real estate. This includes the background and terminology necessary for advanced study of real estate. The successful completion of this course meets qualifications for sales person or broker licensing exam.

Associate Degree Applicable**Transfers to CSU only****REALST 601 Noncredit****Real Estate Exam Preparation: CA Licensing****Lecture:** 18 contact hours

Advisory: Completion of REALST 100 and REALST 062 and one REALST elective course in order to meet the requirements to apply for the DRE Real Estate Salesperson License exam.

This noncredit course is designed to prepare the student for the State of California Department of Real Estate (DRE) licensing examination. In the course, many real estate topics are covered in examination format. The following topics will be covered: real and personal property acquisition, ownership, estates in real property, joint tenancies, partnerships, sales contracts, homesteads, deeds and taxes. methods of financing, real estate practices, and regulation of the real estate business.

Real Estate Associate of Arts Degree

To graduate with a specialization in Real Estate, students must complete the following required courses plus the general breadth requirements for the Associate Degree (total = 60 units).

Code	Title	Units
Required Courses:		
REALST 062	Real Estate Practice	3
REALST 068	Real Estate Appraisal: Residential	3
REALST 070	Real Estate Finance	3
REALST 074	Legal Aspects of Real Estate	3
REALST 076	Property Management	3
REALST 080	Escrow Procedures	3
REALST 100	Real Estate Principles	3

BUSAD 100	Introduction to Business	3
BUSAD 210	Business Law	3
BUSAD 050	Business Math	3
CIT 010	Beginning Keyboarding and Word Processing	3
REALST 063	Real Estate Loan Processing Fundamentals	3

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Critically analyze how real estate is acquired, held, used, regulated, taxed and transferred.
- Define the role and responsibilities of a real estate agent in California.
- Demonstrate an understanding of and familiarity in the world of real estate and its related terminology.
- Meet the requirements to sit for the California Real Estate License Exam.

Real Estate Certificate of Achievement

This certificate qualifies students for entry-level employment in title and escrow companies, mortgage companies, financial institutions, and related firms.

Total Units		18-19

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Be familiar with various Real Estate listing agreements, concepts, forms, terminology, procedures, contracts, National Association of Realtor's Code of Professional Responsibility.
- Read, interpret and discuss various principles of real estate.
- Discuss and describe the methods of appraising real property and how to evaluate single-family residences, investment property and commercial property.
- Discuss the effect of taxes on real estate including residential, income property, and investments, and understand telephone techniques, direct mail, and building clientele management of investment properties, methods for qualifying loans.
- Be prepared to set up a real estate business by understanding the process of licensing and starting your own company, know the selling process including various types of sales. Be familiar with government agencies involved in real estate.
- Analyze and know regulation, procedures of finance and economic factors such as understanding types of lenders, methods of qualifying loans, mortgage markets, Urban development, real estate cycles, and trends.
- Understand basic real estate mathematics.

- h. Understand the structure and scope of the escrow business and be able to outline the history of the real estate business.
- i. Be prepared for Department of Real Estate (DRE) licensing examination.

Sociology

Sociology is a social science involving the study of societies. Through analyses of society, its institutions, groups, processes, and social lives of people, sociologists attempt to understand and predict social interactions and change. Sociology prepares students for further study for careers in social work and counseling, social services, probation, corrections, law enforcement, research, public policy, law, education and other fields, which require an understanding of social life. The sociology program includes basic introductory courses in sociology, social problems, institutions, and social inequality. Students planning to transfer to a four-year institution and major in sociology should consult with a counselor regarding the transfer process and lower division requirements.

SOC 120 3 Units

Health and Social Justice

Lecture: 54 contact hours

Advisory: READ 100 or ENGL 101 or ENGL 101H

This course provides an introduction to the health inequities in the United States that stem from unequal living conditions. There is an emphasis on education, socioeconomic status, racism, and gender that shape the health and illness experience and outcomes, including health epidemics, policy development, organization and access to the healthcare system. Health advocacy and social justice will be theoretically demonstrated.

Associate Degree Applicable

Transfers to both UC/CSU

C-ID: PHS 102

SOC 130 3 Units**Family Sociology****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

This course is an examination of the family as a social institution. Topics include historical and contemporary trends, social stratification, intimacy and relationships, and social forces that influence the family.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SOCI 130**SOC 135 3 Units****Introduction to Crime****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

This course is a sociological examination of crime, criminality, and deviance in society with a focus on types of deviant and criminal behaviors, history, and patterns in the United States. Topics include sociological theories, definition and measurement of crime, cultural values and norms related to deviance, social inequality, criminal justice system, and the laws and methods used to control crime and deviance.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SOCI 160**SOC 141 3 Units****Race and Ethnic Relations****Lecture:** 54 contact hours

This course is a sociological and interdisciplinary examination of racial and ethnic groups in American society. Topics include historical and contemporary events and practices that have institutionalized racism including the social struggles of the four racialized core groups, with a focus on introductory concepts of ethnic studies, intersectionality, and anti-racist approaches toward social justice and equity. (This course is also offered as ETHS 141)

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SOCI 150**SOC 141H 3 Units****Race and Ethnic Relations - Honors****Lecture:** 54 contact hours**Prerequisite:** ENGL 101 or ENGL 101H

This course is a sociological and interdisciplinary examination of racial and ethnic groups in American society. Topics include historical and contemporary events and practices that have institutionalized racism including the social struggles of the four racialized core groups, with a focus on introductory concepts of ethnic studies, intersectionality, and anti-racist approaches toward social justice and equity. This course is intended for students in the Honors Program but is open to all students who desire more challenging course work. (This course is also offered as ETHS 141H)

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SOCI 150**SOC 145 3 Units****Sociology of Gender****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

This course is an examination of the social construction of gender, femininity, and masculinity in the United States. Topics include historical, cross-cultural, and societal forces and change that influence gender socialization, expectations, and practices with an emphasis on social institutions and some focus on global contemporary trends.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** SOCI 140**SOC 150 3 Units****Aging and the Life Course****Lecture:** 54 contact hours**Advisory:** READ 100 or ENGL 101 or ENGL 101H

This course is a sociological examination of aging and the life course with an emphasis on aging as a social process. Topics include demographic trends, historical, cross-cultural, political, and economic forces that influence the experience of aging on individuals and families throughout the lifespan, communities, and societies, with some focus on global patterns.

Associate Degree Applicable**Transfers to both UC/CSU**

Social Justice, Advocacy, and Community Associate of Arts Degree

The Associate of Arts Degree in Social Justice, Advocacy and Community is designed to provide students with a comprehensive understanding of the complex social, political and economic issues that contribute to social inequalities and injustices. Courses in this program will cover a range of topics, including the history and theories of social justice, the role of advocacy and activism in effecting change, and the principles and practices of community organizing. Graduates of this program will be well-equipped to pursue further education in related fields, or to enter the workforce in a variety of roles, such as community organizer, social worker, activist, policy analyst, or advocate. They will be prepared to make a positive impact in their communities and to contribute to the ongoing struggle for social justice and equity.

HIST 142	Experiences of Asian Americans in U.S. History	3
Health - One course from the following:		
HEALTH 100	Introduction to Public Health	3
HEALTH 101	Personal Health and Wellness	3
HEALTH 104	Women's Health	3
Self-Care - One course from the following:		
DANCE 105A	Beginning Jazz Dance	2
KINF 127A	Beginning Walking for Fitness	1
KINF 154A	Beginning Hiking for Fitness	1
MUS 150X4	Mixed Chorus	1
Total Units		40-41

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Analyze the historical and contemporary social, political, and economic factors that contribute to social inequalities and injustices and articulate strategies for change.
- Develop the critical thinking and problem-solving skills necessary to address issues of social justice and advocacy.
- Demonstrate an understanding of the principles and practices of community organizing, including the ability to work collaboratively with individuals and groups from diverse backgrounds, and to facilitate constructive dialogue and collective action around social justice issues.

Sociology Associate in Arts for Transfer Degree

Sociology is both a scientific and humanistic discipline. Sociologists examine the systems of social action including single social acts, social relationships, organizations, institutions, communities, and societies. Through analyses of society, its groups, institutions, and processes, sociologists attempt to understand and predict human behavior. The study of sociology prepares students for further study of and careers in social work, probation, corrections, human services, law enforcement, research, public policy, law and education.

The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major. To earn this Sociology AA-T degree, students must meet the following requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of 60 CSU transferable semester units with a grade point average of a least 2.0; and
- certified completion of the CSU General Education-Breadth (CSU-GE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSU-GE or IGETC before transferring to a CSU.

Students planning to transfer to a four-year institution and major in sociology should consult with a counselor regarding the transfer process and lower division requirements.

Completion of CSU GE-Breadth or IGETC for the UC or CSU is required in addition to the major requirements listed below.

Code	Title	Units
Required Courses:		
SOC 100	Introduction to Sociology	3
or SOC 100H	Introduction to Sociology - Honors	
SOC 110	Social Problems	3
or SOC 110H	Social Problems - Honors	
PSYCH 105	Statistics for the Behavioral Sciences	4
or MATH 108	Introduction to Probability and Statistics	
or MATH 108H	Introduction to Probability and Statistics - Honors	
or ECON 208	Business and Economic Statistics	

List A - Two courses from the following:

PSYCH 201	Research Methods for the Behavioral Sciences	4
SOC 130	Family Sociology	3
SOC 145	Sociology of Gender	3
SOC 141	Race and Ethnic Relations	3
or SOC 141H	Race and Ethnic Relations - Honors	
or ETHS 141	Race and Ethnic Relations	
or ETHS 141H	Race and Ethnic Relations - Honors	
SOC 135	Introduction to Crime	3

List B - One course from the following (or any course not used from List A):

SOC 150	Aging and the Life Course	3
SOC 120	Health and Social Justice	3

Code	Title	Units
Major Total		19-20
Total Units That May Be Double Counted		9-15
General Education (CSU-GE or IGETC) Units		37-39
Elective (CSU Transferable) Units		12-17
Total Units		60

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Demonstrate an understanding of the sociological perspective through the analysis of social life evaluated by written or objective assessments.
- Demonstrate an understanding of the major sociological perspectives through the analysis of social institutions evaluated by written or objective assessments.

Student Development

The Student Development (SDEV) curriculum includes courses for students with disabilities, UC Puenta Project, academic and career planning strategies, and information about academic strengths as well as support and success strategies. Courses are designed to help students succeed in college, develop good study habits, learn decision-making models and obtain in-depth information on the following - Associate and Associate-transfer degrees, certificates, transfer to universities, campus resources, and preparation for employment.

Counselor Liaisons: Andrea Hecht (ahecht@sbccd.edu), M.S. and Jamie Herrera (jherrera@sbccd.edu), M.S.

SDEV 001 1 Unit

Orientation to College

Lecture: 18 contact hours

This class introduces students to college culture, including academic policies and procedures. To assist in a smooth transition to college, students will identify college success strategies and campus resources that will support them in making a connection to the campus, a key component to success.

Associate Degree Applicable

SDEV 015 1 Unit

Puente: Strategies for College Success

Lecture: 18 contact hours

Corequisite: ENGL 101 and ENGL 087

This course assist students in identifying student support services in college, understand the college culture, and learn essential skills for first-generation Latinx student success. This course is paired with ENGL 101 Freshman Composition and ENGL 087 Fundamentals for College Composition.

Associate Degree Applicable

SDEV 102 3 Units

Pathways for College and Life Success

Lecture: 54 contact hours

Advisory: READ 100

This introductory course is designed for students seeking direction in setting academic and life goals. A bio-psycho-social perspective will be used to highlight the person-environment dynamics crucial to a well-rounded preparation for academic and life success. Major topics will include evaluation of personal interests, abilities and values, educational planning, goal setting, and academic success strategies.

Associate Degree Applicable

Transfers to both UC/CSU

SDEV 103 3 Units**Career Exploration and Life Planning****Lecture:** 54 contact hours**Advisory:** READ 100

This course is an in-depth study in career and life planning designed for students seeking direction in setting life, academic and career goals. A holistic perspective will be used to highlight the person-environment dynamics crucial to well-rounded preparation for a fulfilling career and life-span developmental achievements. Topics will include comprehensive career research, major choices, interviewing skills, cover letter and resume writing.

Associate Degree Applicable**Transfers to both UC/CSU****SDEV 103H 3 Units****Career Exploration and Life Planning - Honors****Lecture:** 54 contact hours**Prerequisite/Corequisite:** ENGL 101 or ENGL 101H

This course is an in-depth study in career and life planning designed for students seeking direction in setting life, academic and career goals. A holistic perspective will be used to highlight the person-environment dynamics crucial to well-rounded preparation for a fulfilling career and life-span developmental achievements. Topics will include comprehensive career research, extensive reading, major choices, interviewing skills, cover letter and resume writing. This course is intended for students in the Honors Program but is open to all students who desire more challenging work.

Associate Degree Applicable**Transfers to both UC/CSU****SDEV 900 0.5 Units****Assessment of Learning Disabilities****Lecture:** 9 contact hours

This course provides instruction in the history, general characteristics and legal definition of learning disabilities. Students' learning strengths and weaknesses and the determination of their eligibility for learning disability services will be determined through a comprehensive assessment. This course is designed for students with known or suspected learning disabilities. Graded on a pass/no pass basis only.

SDEV 905 1 Unit**Supportive Learning in Mathematics****Lab:** 54 contact hours

This course provides specialized instruction and tutoring in basic math skills to individuals and small groups. This course is primarily designed for students who have been certified with disabilities through diagnostic testing; however, all students are welcome to enroll. Support strategies to minimize the effects of the disability in the academic setting are presented to maximize students' effectiveness. Graded on a pass/no pass basis only.

SDEV 906 2 Units**Supportive Learning in Reading****Lab:** 108 contact hours

This multi-sensory phonics course provides specialized instruction and tutoring in grading and spelling to individuals and small groups. Although this course is designed for students with disabilities as certified through diagnostic testing, all students are welcome to enroll. Support strategies to minimize the effects of the disability in the academic setting are presented to maximize students' effectiveness. Graded on a pass/no pass basis only.

Theatre Arts

Theatre Arts is the study of human expression, which culminates in live performance. The play is the medium used to tell a story performed by actors. Theatre Arts includes the study of the literature and related disciplines and technologies required for performances. The Theatre Arts Department coordinates several student performances each year. Courses offered by the Theatre Arts Department emphasize individual creativity, personal interaction, and communication skills. Courses are designed to meet the needs of students fulfilling general education requirements and the needs of students who are pursuing theatre as a major. Students planning to transfer to a four-year institution and major in Theatre Arts or a related field should consult with a counselor regarding the transfer process and lower division requirements.

- Design and Technical Theatre Certificate of Achievement (p. 354)
 - Theatre Arts Associate in Arts for Transfer Degree (p. 354)

THART 098 1-4 Units**Theatre Arts Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. Students work 5-20 hours per week to earn units using the following formula: For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses.

THART 100 3 Units**Introduction to the Theatre****Lecture:** 54 contact hours

This course focuses on the relationship of theatre to various cultures throughout history, and on the contributions of significant individual artists. This course introduces students to elements of the production process including playwriting, acting, directing, design, and criticism. Students will also survey different periods, styles, and genres of theatre through play reading, discussion, films, and viewing and critiquing live theatre, including required attendance of theatre productions.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 111

THART 105 3 Units**Script Analysis****Lecture:** 54 contact hours

This course covers the principles, theories, and techniques of play script analysis for theatre production. Various scripts are analyzed representing different historical and cultural perspectives.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 114**THART 110 3 Units****Voice and Diction for Actors****Lecture:** 54 contact hours

This course provides techniques of voice production for the actor. Theory and practice in developing vocal skills for performance such as relaxation, breathing, pitch, rate, articulation, volume, quality, characterization, and the use of dialects are included.

Associate Degree Applicable**Transfers to both UC/CSU****THART 114X4 4 Units****Rehearsal and Performance****Lab:** 216 contact hours

This course provides supervised rehearsal and performance of a college musical and/or play production. It focuses on all aspects of theatre presentation, acting, and production.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 191**THART 120 3 Units****Acting Fundamentals I****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course provides an introduction to basic acting theory and technique. Students will develop performance skills, including relaxation, interpretation of text, memorization, stage movement, and vocal production.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 151**THART 121 3 Units****Acting Fundamentals II****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** THART 120

This course follows THART 120 and provides further exploration of acting theory and technique. Emphasis is placed on the development of character through script analysis and the performance of monologues and scenes.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 152**THART 131 3 Units****Sound for Stage and Screen****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course is an introductory course in the equipment and techniques used in theatrical and studio sound design, utilizing hands-on and computer training methods.

Associate Degree Applicable**Transfers to both UC/CSU****THART 132 3 Units****Lighting Design Fundamentals****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course involves the study and execution of stage lighting with emphasis on equipment, control, color and their relationship to design.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 173**THART 135 3 Units****Directing Fundamentals****Lecture:** 36 contact hours**Lab:** 54 contact hours**Advisory:** THART 120

This course provides an introduction to the theory, process and development of directorial skills for the stage.

Associate Degree Applicable**Transfers to both UC/CSU****THART 136 3 Units****Introduction to Theatre Design****Lecture:** 54 contact hours

This course offers a survey of scenery, lighting, sound, costumes, makeup, properties, theatrical equipment, and construction techniques. Information is applicable to all theatrical applications.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 172**THART 139 3 Units****Fundamentals of Costume Design****Lecture:** 36 contact hours**Lab:** 54 contact hours

Students will study costume history, design, and basic construction techniques as an introduction to basic theatrical costuming. Fabrics and their various uses will be investigated.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 174**THART 147 3 Units****Theatre Movement****Lecture:** 36 contact hours**Lab:** 54 contact hours

This course is an introduction to the theory and fundamentals of stage movement. Students will develop physical awareness, range, and clarity. The course guides student work on physical characterization for modern and period-style plays.

Associate Degree Applicable**Transfers to both UC/CSU****THART 160X4 3 Units****Technical Theatre in Production****Lab:** 162 contact hours

Students will gain practical experience in the application of production responsibilities in any of the following: stage management, house management, construction, scenery, properties, costume, lighting, sound, and running crews.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 192

THART 165 3 Units**Stage Makeup****Lecture:** 18 contact hours**Lab:** 108 contact hours

This course is an introduction to the theory, design, and application of makeup for the stage.

Associate Degree Applicable**Transfers to both UC/CSU****C-ID:** THTR 175**THART 166 3 Units****Improvisational Acting****Lecture:** 36 contact hours**Lab:** 54 contact hours

This is a course of instruction in the art of improvisational acting to include theatrical presentation, history of the form, dramatic structure, elements of comedy, audition and rehearsal techniques, collaboration with other performers, and interaction with the audience.

Associate Degree Applicable**Transfers to both UC/CSU****THART 167 3 Units****Advanced Improvisational Acting****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** THART 166

This course follows THART 166 and provides further exploration in the art of advanced improvisational acting. Emphasis is placed on characterization, audience interaction, and the performance of long form improvisation.

Associate Degree Applicable**Transfers to both UC/CSU****THART 222 1-3 Units****Independent Study in Theatre****DIR:** 54 contact hours

Students with previous coursework in theatre may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of theatre. Prior to registration, a written contract must be prepared jointly by the instructor and the student. See instructor for details.

Associate Degree Applicable**Transfers to CSU only****THART 295AXZ 0.5-3 Units****Special Topics in Theatre****Lab:** 162 contact hours

This course will cover current and relevant topics in the field of Theatre Arts. Possible topics include Musical Theatre or New Plays Workshop, Experimental Theatre, Stage Combat, Children's Theatre, Playwriting, Puppetry, The Business of Acting, and Performance Studies.

Associate Degree Applicable**Transfers to CSU only**

Design and Technical Theatre Certificate of Achievement

The Design and Technical Theatre Certificate is designed to prepare students for occupational competency as a theatre technician, designer, or manager in educational, community, and resident theatre venues, as well as theme parks, television, and motion picture studios. Theatre technicians may work on set construction, theatrical carpentry, scenery, sound, lighting, costumes, makeup, props, and special effects.

Code	Title	Units
Required Courses:		
THART 100	Introduction to the Theatre	3
THART 120	Acting Fundamentals I	3
THART 132	Lighting Design Fundamentals	3
THART 136	Introduction to Theatre Design	3
THART 139	Fundamentals of Costume Design	3

THART 165	Stage Makeup	3
Total Units		21

Code	Title	Units
Recommended Courses:		
THART 131	Sound for Stage and Screen	3
THART 135	Directing Fundamentals	3

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Define and distinguish between commonly used theatrical terms applied to design and the technical elements of theatre production.
- Demonstrate and use basic skills in creating and organizing a design project from concept to execution.
- Demonstrate proficiency in the skills required for a technical theatre crew.
- Analyze a play script to create a costume design concept.
- Use makeup to interpret an author's characterization.
- Identify, define, and describe terminology commonly associated with theatrical lighting design and execution.

Theatre Arts Associate in Arts for Transfer Degree

The Associate of Arts for Transfer (AA-T) in Theatre Arts develops a well-rounded theatre artist. This degree provides students with transfer preparation and pre-professional training. The AA-T in Theatre Arts emphasizes the hands-on, collaborative experience of theatrical production, building students' skills in performance and technical theatre. Students should consult with a counselor to determine whether this degree is the best option for their transfer goals.

To earn this AA-T degree, students must complete the following Associate Degree for Transfer requirements:

- completion of the following major requirements with a minimum grade of "C" (or "P");
- completion of 60 CSU transferable semester units with a grade point average of at least 2.0; and
- certified completion of the CSU General Education-Breadth (CSUGE) or Intersegmental General Education Transfer Curriculum (IGETC) for CSU, which requires a minimum of 39 units.

It is highly recommended that students complete courses that satisfy the U.S. History, Constitution, and American Ideals requirement as part of CSUGE or IGETC before transferring to a CSU.

Students planning to transfer to a baccalaureate institution and major in Theatre should consult with a counselor regarding the transfer process and lower division requirements.

See Section on Degree, Certificate, and Transfer Information for additional information on the Associate Degrees for Transfer.

To earn an SBVC Associate Degree for Transfer (AA-T or AS-T) students must complete one of the following general education patterns:

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Assess the historical, social, artistic, and philosophical relevance of theatre.
- Evaluate and analyze a script for rehearsal and performance.
- Demonstrate basic skills and apply a basic craft of acting in performance.
- Analyze a script to create a design concept.
- Create a design from a design concept.

Vocational Education

These noncredit workforce readiness courses and certificates are designed to prepare students to be successful in the workforce. Additionally, they are intended as a pathway to credit courses and certificates for students who have not previously considered college an option. Students enrolling in SBVC's Vocational Education courses will develop skills needed to find and keep a job while gaining confidence in their ability to learn in a college environment.

VOCED 600 Noncredit Introduction to the Workplace

Lecture: 18 contact hours

This noncredit course is designed to provide students with the skills to identify and develop tools for success in the workplace. The topics covered include, but are not limited to, career-discovery, job market analysis, workplace skills, workplace law, workplace and personal finances, and time management.

VOCED 601 Noncredit Customer Service in the Workplace

Lecture: 18 contact hours

This noncredit course is designed to provide students with the customer service skills required to interact with customers or clients in the workplace. The topics covered include understanding customer needs, listening to customers, and telephone customer service.

VOCED 602 Noncredit Job Search Strategies

Lecture: 9 contact hours

This noncredit course is designed to provide prospective employees with a support system that will assist them in preparation for the workforce. The topics covered but are not limited to planning their job search, utilizing outside resources, the hidden job market, and job market research. After completing this course, the student has an option to continue their education or become gainfully employed.

VOCED 603 Noncredit Positive Strategies for the New Employee

Lecture: 9 contact hours

This noncredit course is designed to provide students with the knowledge to increase their level of customer services and colleague relations. The topics covered will include new employee skills, workplace culture, continuing education, and work-life balance.

VOCED 631 Noncredit**Fundamentals of Business English****Lecture:** 36 contact hours

This noncredit course is a review of effective business communication in the workplace. Emphasis is placed on basic grammar, punctuation, capitalization, vocabulary, and spelling in common business documents.

Job Readiness Skills Certificate of Completion

This noncredit Job Readiness Skills Certificate prepares students to enter the workforce through career exploration, resume development, and interview skills. The certificate includes training for the newly employed including time management, reading paychecks, office etiquette, and customer service skills.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Use proper, effective communication with employers, co-workers, and customers.
- Develop an effective resume that matches a job description.
- Prepare for an employment interview, including developing responses, describing experience, and dressing for success.
- Deliver excellent customer service.

Workforce Literacy Skills Certificate of Completion

This noncredit certificate is designed to prepare students for entry into the work force by; researching careers, developing a resume and learning interview skills.

Code	Title	Units
Required Courses:		
CIT 601	Introduction to Basic Computer Skills	0
MATH 601	Independent Lab for Fundamental Mathematical Skills	0
VOCED 600	Introduction to the Workplace	0
VOCED 601	Customer Service in the Workplace	0
VOCED 602	Job Search Strategies	0
VOCED 603	Positive Strategies for the New Employee	0
VOCED 631	Fundamentals of Business English	0
Total Hours		194-297

Program Learning Outcomes

At the completion of this program, students will be able to:

- Use proper, effective communication with employers, co-workers, and customers.
- Develop an effective resume that matches a job description.
- Prepare for an employment interview, including developing responses, describing experience, and dressing for success.
- Deliver excellent customer service.

Water Supply Technology

The Water Supply Technology Program is designed to serve students who are employed or interested in employment in water/wastewater occupations. The program provides technical classes in water distribution, water treatment, wastewater collection, and wastewater treatment. The courses prepare students to upgrade their skills and/or prepare them for licensing examinations and certifications from the California Department of Public Health, the California State Water Resource Control Board, the American Water Works Association, and the California Water Environment Association.

The certificate programs are designed to prepare students for entry-level jobs in water treatment, water distribution, and wastewater reclamation industries. The associate of science degree graduates often work in city, county, or state agencies in positions such as plant operator, engineering technician, surface water manager, environmental laboratory coordinator, and industrial pre-treatment coordinator.

- Basic Waterworks Certificate of Completion (p. 360)
- Wastewater Technology Certificate of Completion (p. 360)
- Water Supply Technology Certificate of Achievement (p. 360)
- Water Technology Associate of Science Degree (p. 361)
- Water Use Specialist Certificate of Completion (p. 362)

WST 031 3 Units

Water Use Efficiency Practitioner I

Lecture: 54 contact hours

This introductory water conservation course is designed for students interested in working as a water use efficiency practitioner. It includes the expected range of knowledge required for the American Water Works Association (AWWA) Water Use Efficiency Practitioner I Certificate.

Associate Degree Applicable

WST 034 3 Units**Introduction to Water Resource Management****Lecture:** 54 contact hours

This course explores the history and development of California water resources. In addition, the course covers the impact of environmental and economic water usage as well as water quality, water pollution and water resource regulations affecting our public drinking water. The basics of watershed management, water supply availability, ground and surface water hydrology as well as alternative sources of water such as the use of water conservation methods will be covered.

Associate Degree Applicable**WST 036 3 Units****Water Utility Management****Lecture:** 54 contact hours**Prerequisite/Corequisite:** WST 092 or WST 062 or WST 072 or WST 082**Advisory:** ENGL 101 or ENGL 101H

This course is designed for students interested in managing water and/or wastewater utilities. Topics will include personnel management, organizational management, financial management, training, problem-solving/decision-making, regulatory compliance, health and safety programs, community relations, personal and professional skills.

Associate Degree Applicable**WST 037 3 Units****Environmental Laws and Regulations****Lecture:** 54 contact hours

This course is designed to provide a comprehensive overview of federal, state, and local laws and regulations relating to environmental protection and pollution prevention. The course explores the roles of politics, economics, science, and health, in setting regulatory policies that are designed to safeguard and protect water resources. As a part of this course environmental monitoring standards, regulatory agencies, inter-agency relationships and jurisdictions are explored.

Associate Degree Applicable**WST 038 3 Units****Geographic Information Systems (GIS) in Water Resources****Lecture:** 54 contact hours

The introductory course will provide students with a deeper understanding of geography from a water utility perspective, instruction on the basics of Geographic Information Systems (GIS), and introduce them to the core principles of how the knowledge may be applied to water resource management. GIS is used to solve real world water problems including infrastructure placement and maintenance, the difficulties associated with sourcing water, moving water, and treating water as well as the impacts of these on human populations and the natural world.

Associate Degree Applicable**WST 045 3 Units****Backflow Prevention Devices****Lecture:** 45 contact hours**Lab:** 27 contact hours

This course provides instruction in theory, testing, and maintenance of backflow prevention assemblies. It prepares journeyman plumbers and utility operators to take the American Water Work Association Backflow Prevention Certification test.

Associate Degree Applicable**WST 048 3 Units****Cross-Connection Control****Lecture:** 54 contact hours**Prerequisite/Corequisite:** WST 045

This course is a study of the administrative and technical procedures required to establish a cross-connection control program, including a review of applicable local, state and federal regulations. The course includes the identification and study of backflow devices required to mitigate hazards of actual or potential connections between a potable water supply and any source of contamination. It also prepares students to become certified as cross-connection control program specialists.

Associate Degree Applicable**WST 052 3 Units****Water Technology Math****Lecture:** 54 contact hours

This vocational math course is recommended for students who are currently enrolled in water technology course(s). The course includes an application of math to solve problems commonly encountered in water technology.

Associate Degree Applicable**WST 053 3 Units****Wastewater Technology Math****Lecture:** 54 contact hours

This vocational math course is recommended for students who are currently enrolled in wastewater treatment course(s). The course includes math required to solve problems commonly encountered in the primary, secondary, and tertiary treatment of wastewater.

Associate Degree Applicable**WST 061 3 Units****Water Distribution I****Lecture:** 54 contact hours**Advisory:** WST 052

This introductory course is designed for students interested in the field of water distribution. It covers the configuration, operation and maintenance of a water distribution system, and includes the Expected Range of Knowledge (ERK) required for the State Water Resource Control Board (SWRCB) water distribution certification tests at D1 and D2 levels. Successful completion of this course fulfills the requirements for specialized training covering fundamentals of water supply principles required to apply for the SWRCB D2 certification test.

Associate Degree Applicable**WST 062 3 Units****Water Distribution II****Lecture:** 54 contact hours**Prerequisite:** WST 061

This advanced level course prepares students for journeyman level system operations in the field of water distribution. The course covers the Expected Range of Knowledge (ERK) required for the California State Water Resources Control Board (SWRCB) examination at the Water Distribution Operator IV (D4) and Water Distribution Operator V (D5) levels. Successful completion of this course also fulfills the requirements for specialized training covering fundamentals of water supply principles required to apply for SWRCB Water Treatment Operator III (T3) and Water Distribution Operator IV (D4) examinations.

Associate Degree Applicable

WST 071 3 Units**Water Treatment I****Lecture:** 54 contact hours**Advisory:** WST 052

This introductory course is designed for students interested in the field of water treatment. It includes processes required to treat source water into potable water and includes the Expected Range of Knowledge (ERK) required to pass the California State Water Resource Control Board (SWRCB) examination at the Water Treatment Operator I (T1) and Water Treatment Operator I (T2) level. Successful completion of this course fulfills the requirements for the specialized training covering drinking water treatment required to apply for SWRCB T2 certification test.

Associate Degree Applicable**WST 072 3 Units****Water Treatment II****Lecture:** 54 contact hours**Prerequisite:** WST 071

This advanced level course prepares students for journeyman level plant operations in the field of water treatment. The course covers the Expected Range of Knowledge (ERK) required to pass the State Water Resources Control Board (SWRCB) examination at Water Treatment Operator III (T3) and Water treatment Operator IV (T4) level. Successful completion of this course fulfills the requirements for specialized training covering fundamentals of water supply principles required to apply for SWRCB Water Treatment Operator III (T3) and Water Distribution Operator III (D3) examinations.

Associate Degree Applicable**WST 075 4 Units****Water/Wastewater Chemistry and Analysis****Lecture:** 54 contact hours**Lab:** 54 contact hours**Prerequisite/Corequisite:** WST 071 or WST 091

This course introduces students to the physical and chemical properties of substances commonly used in the treatment of water/wastewater and the role of laboratory analysis in the treatment processes. The course includes procedures and techniques used by plant operators in physical, chemical, and bacteriological examination of water/wastewater.

Associate Degree Applicable**WST 081 3 Units****Wastewater Collection I****Lecture:** 54 contact hours**Advisory:** WST 053

This course is designed to train operators in the practical aspects of operating and maintaining wastewater collector systems, emphasizing safe practices and procedures. The course focuses on the knowledge, skills, and abilities required to perform the essential duties of an entry level collection system maintenance technologist and prepares students to take the California Water Environment Association (CWEA) Collection System Certification exam at the Grade I level.

Associate Degree Applicable**WST 082 3 Units****Wastewater Collection II****Lecture:** 54 contact hours**Prerequisite:** WST 081

This course is designed to provide an in-depth understanding of the operation and maintenance of wastewater collector systems. The course focuses on the knowledge, skills, and abilities required to perform the essential duties of a skilled or journey level collection system maintenance technologist and prepares students to take the California Water Environment Association (CWEA) Collection System Certification exam at Grade II.

Associate Degree Applicable**WST 086 3 Units****Electrical Instrumentation for Water and Wastewater Operations****Lecture:** 54 contact hours**Advisory:** WST 061 and WST 071 and WST 091

This is an introductory course in electrical instrumentation. The focus of this course will be on how electrical instrumentation is used in the water/wastewater industry. The course will cover basic electronic, electrical, and control systems used for pressure, temperature, level, and flow measurements needed for process control. Electrical safety, process and instrumentation diagrams, and other instrumentation for automation and process control will be discussed.

Associate Degree Applicable**WST 091 3 Units****Wastewater Treatment I****Lecture:** 54 contact hours**Advisory:** WST 053

An introduction to wastewater treatment, students will explore the scope, limits, and methods of wastewater treatment processes through readings, discussions, analysis, and laboratory study. This course is designed for individuals seeking employment or already employed in the wastewater field. It covers the wastewater operator's job-related knowledge identified by the SWRCB examination developers as essential for a minimally competent Grade I or Grade II Wastewater Treatment Plant Operator.

Associate Degree Applicable**WST 092 3 Units****Wastewater Treatment II****Lecture:** 54 contact hours**Prerequisite:** WST 091**Advisory:** WST 053

This is an advanced course in wastewater treatment. Students will explore the scope, limits, and methods of secondary and advanced treatment, solids handling, disinfection, and the reclamation of wastewater, through readings, discussions, analysis, and laboratory study. This course is designed for individuals seeking employment or already employed in the wastewater field. It covers the wastewater operator's job-related knowledge identified by the California State Water Resources Control Board examination developers as essential for a minimally competent Wastewater Treatment Plant Operator Grade III or above.

Associate Degree Applicable

WST 098 1-4 Units**Water Supply Technology Work Experience**

WRKEX: 300 contact hours

Prerequisite: WST 061 or WST 071 or WST 081 or WST 091

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**WST 601 Noncredit****Test Review for Water Distribution D1**

Lecture: 9 contact hours

This non-credit course is designed to familiarize students with the expected Range of Knowledge (ROK) required to pass the State Water Resources Control Board (SWRCB) Distribution Operator test at level D1. The review topics include distribution system operations, disinfection, related mathematics and safety. The course may also be used to earn continuing education units required to renew the certificate.

WST 602 Noncredit**Test Review for Water Distribution D2**

Lecture: 9 contact hours

This non-credit course is designed to familiarize students with the expected Range of Knowledge (ROK) required to pass the State Water Resources Control Board (SWRCB) Distribution Operator test at level D2. The review topics include distribution system operations, disinfection, related mathematics and safety. The course may also be used to earn continuing education units required to renew the certificate.

WST 603 Noncredit**Test Review for Water Distribution Operations D3**

Lecture: 8 contact hours

This non-credit course is a review of the expected Range of Knowledge (ROK) required to obtain the State Water Resources Control Board (SWRCB) Distribution Operator certification at the Distribution Operator III level. The review topics include distribution system operations, disinfection, related mathematics, and safety.

WST 611 Noncredit**Test Review for Water Treatment T1**

Lecture: 9 contact hours

This course is a review of the expected Range of Knowledge (ROK) required to obtain the California State Water Resources Control Board (SWRCB) Water Treatment Operator License at level T1. The review topics include conventional treatment techniques, flocculation, sedimentation, filtration, system pressures, and related math.

WST 612 Noncredit**Test Review for Water Treatment T2**

Lecture: 8 contact hours

This noncredit course is a review of the expected Range of Knowledge (ROK) required to obtain the State Water Resources Control Board (SWRCB) Water Treatment Operator II certification. The review topics include conventional treatment techniques, source water supply and storage, water quality regulation and related math.

WST 625 Noncredit**Test Review for Wastewater Treatment Plant Operations Grades One and Two**

Lecture: 8 contact hours

This noncredit course is a review of the expected knowledge for a minimally competent Wastewater Treatment Plant Operator as determined by State Water Resources Control Board (SWRCB) treatment operator certification at the Grades I and II level. The review topics include wastewater treatment operations, disinfection, related mathematics, and safety.

WST 626 Noncredit**Test Review for Wastewater Treatment Plant Operations Grades Three, Four and Five**

Lecture: 8 contact hours

This noncredit course is a review of the expected knowledge for a minimally competent Wastewater Treatment Plant Operator as determined by State Water Resources Control Board (SWRCB) treatment operator certification at the Grades III, IV and V level. The review topics include wastewater treatment operations, administration, process control, regulations, disinfection, related mathematics, and safety.

WST 629 Noncredit**Introduction to Water Supply Technology**

Lecture: 8 contact hours

This noncredit course introduces students to entry-level training in water conservation, treatment, supply, delivery, and waste collection systems. The goal of this course is to offer students better defined opportunities for career selection in the field of water technology. Regulations-licensing and the certification process will be discussed as a part of this course.

WST 631 Noncredit**Introduction to Water Use Efficiency**

Lecture: 36 contact hours

This noncredit water conservation course is designed for students interested in working as a water use efficiency practitioner. It includes the expected range of knowledge required for the American Water Works Association (AWWA) Water Use Efficiency Practitioner I Certificate.

WST 652 Noncredit**Basic Waterworks Math Test Preparation**

Lecture: 36 contact hours

This noncredit course prepares students for the quantitative and algebraic questions typically encountered on water distribution and water treatment operations licensing examinations. This course is also recommended for students currently enrolled in water technology course(s) who desire refresher training in the applied math skills that are unique to water operations. Topics include, but are not limited to, unit conversion, volume, velocity, flow rates, chemical dosages, percent strength, and dilution calculations. Also included are some basic test-taking techniques to increase proficiency on the state exam.

WST 653 Noncredit**Wastewater Technology Math Test Preparation**

Lecture: 36 contact hours

This noncredit course prepares students for the quantitative and algebraic questions typically encountered on wastewater collections and wastewater treatment operations licensing examinations. This course is also recommended for students currently enrolled in water technology course(s) who desire refresher training in the applied math skills that are unique to wastewater collections and treatment operations. Topics include, but are not limited to, unit conversion, volume, velocity, flow rates, chemical dosages, process control, and solids handling. Also included are some basic test-taking techniques to increase proficiency on the state exam.

WST 661 Noncredit**Introduction to Water Distribution****Lecture:** 36 contact hours

This noncredit course is designed for students interested in the field of water distribution. It covers the configuration, operation and maintenance of a water distribution system, and includes the Expected Range of Knowledge (ERK) required for the State Water Resource Control Board (SWRCB) water distribution certification tests at D1 and D2 levels. Successful completion of this course fulfills the requirements for specialized training covering fundamentals of water supply principles required to apply for the SWRCB D2 certification test.

WST 671 Noncredit**Introduction to Water Treatment****Lecture:** 36 contact hours

This noncredit course is designed for students interested in the field of water treatment. It includes processes required to treat source water into potable water and includes the Expected Range of Knowledge (ERK) required to pass the California State Water Resource Control Board (SWRCB) water treatment certification test at T1 level. Successful completion of this course fulfills the requirements for the specialized training covering drinking water treatment required to apply for SWRCB T2 certification test.

WST 681 Noncredit**Introduction to Wastewater Collections****Lecture:** 36 contact hours

This noncredit course is designed to train operators in the practical aspects of operating and maintaining wastewater collector systems, emphasizing safe practices and procedures. The course focuses on the knowledge, skills, and abilities required to perform the essential duties of an entry level collection system maintenance technologist and prepares students to take the California Water Environment Association (CWEA) Collection System Certification exam at Grade I.

WST 691 Noncredit**Introduction to Wastewater Treatment****Lecture:** 36 contact hours

This is an introductory course in wastewater treatment. This noncredit course covers material included in the State Water Resources Control Board (SWRCB) grade I certification exam.

Basic Waterworks Certificate of Completion

This noncredit Basic Waterworks Certificate is designed to prepare students with the necessary knowledge and skills to obtain entry-level employment in the water supply, delivery, and treatment operations. Note: The Basic Waterworks Certificate is not equivalent to the "Certificate of Competency" issued by the California State Water Resources Control Board in Water Distribution or Water Treatment.

Code	Title	Units
Required Courses:		
CIT 601	Introduction to Basic Computer Skills	0
VOCED 631	Fundamentals of Business English	0
WST 601	Test Review for Water Distribution D1	0
WST 611	Test Review for Water Treatment T1	0
WST 629	Introduction to Water Supply Technology	0
WST 652	Basic Waterworks Math Test Preparation	0
WST 661	Introduction to Water Distribution	0

WST 671	Introduction to Water Treatment	0
Total Hours		156-216

Program Learning Outcomes

At the completion of this program, students will be able to:

- Have knowledge of fundamental aspects of water resource management, conservation, distribution, treatment, collection, recycle, and disposal operations.
- Perform tasks in connection with the operation, control, and maintenance of water and sanitation systems.
- Demonstrate effective oral and written communication skills and apply these tools in a regulatory context (i.e. the public health protection).

Wastewater Technology Certificate of Completion

The noncredit Wastewater Technology Certificate is designed to prepare students with the necessary knowledge and skills to obtain entry-level employment in wastewater collections, treatment, and recycle operations. Note: The Wastewater Technology Certificate is not equivalent to the "Certificate of Competency" issued by the California Water Environment Association (CWEA) in wastewater collection system operations or the "Certificate of Competency" issued by the State Water Resources Control Board (SWRCB) in Wastewater Treatment. The Cooperative Work Experience course, WST 098, is highly recommended for students not currently employed in the field.

Code	Title	Units
Required Courses:		
CIT 601	Introduction to Basic Computer Skills	0
VOCED 631	Fundamentals of Business English	0
WST 629	Introduction to Water Supply Technology	0
WST 625	Test Review for Wastewater Treatment Plant Operations Grades One and Two	0
WST 653	Wastewater Technology Math Test Preparation	0
WST 681	Introduction to Wastewater Collections	0
WST 691	Introduction to Wastewater Treatment	0
Total Hours		164-195

Program Learning Outcomes

At the completion of this program, students will be able to:

- Have knowledge of fundamental aspects of water resource management, conservation, distribution, treatment, collection, recycle, and disposal operations.
- Perform tasks in connection with the operation, control, and maintenance of water and sanitation systems.
- Demonstrate effective oral and written communication skills and apply these tools in a regulatory context (i.e. the public health protection).

Water Supply Technology Certificate of Achievement

The Water Supply Technology Certificate is designed to prepare students with the necessary knowledge and skills to obtain entry-level employment in the water supply, delivery, and treatment operations. [The Water Supply Technology Certificate should not be confused with certification issued by

the State Water Resources Control Board, California Water Environment Association (CWEA), or the American Water Works Association (AWWA). Certification by the State of California requires the qualified individual to: 1) pass an examination administered by the State Water Resources Control Board, California Water Environment Association (CWEA), or American Water Works Association (AWWA); 2) meet the experience and/or educational minimum requirements; 3) and, submit a certification application with the applicable fee.

Code	Title	Units
Required Courses:		
CIT 031	Business English	3
WST 075	Water/Wastewater Chemistry and Analysis	4
WST 052	Water Technology Math	3
or WST 053	Wastewater Technology Math	
Six courses from the following:		
WST 031	Water Use Efficiency Practitioner I	3
WST 034	Introduction to Water Resource Management	3
WST 037	Environmental Laws and Regulations	3
WST 038	Geographic Information Systems (GIS) in Water Resources	3
WST 045	Backflow Prevention Devices	3
WST 048	Cross-Connection Control	3
WST 061	Water Distribution I	3
WST 062	Water Distribution II	3
WST 071	Water Treatment I	3
WST 072	Water Treatment II	3
WST 081	Wastewater Collection I	3
WST 082	Wastewater Collection II	3
WST 086	Electrical Instrumentation for Water and Wastewater Operations	3
WST 091	Wastewater Treatment I	3
WST 092	Wastewater Treatment II	3
Total Units		28

Code	Title	Units
Recommended Courses:		
CIT 101	Introduction to Computer Literacy	3
WST 098	Water Supply Technology Work Experience	1-4

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Have knowledge of fundamental aspects of water resource management, conservation, distribution, treatment, collection, recycle, and disposal operations.
- Perform tasks in connection with the operation, control, and maintenance of water and sanitation systems.
- Demonstrate effective oral and written communication skills and apply these tools in a regulatory context (i.e. public health protection).

Water Technology Associate of Science Degree

The Water Supply Technology Program is designed to serve students who are employed or interested in employment in water/wastewater occupations. The program provides technical classes in water distribution, water treatment, wastewater collection, and wastewater treatment. The courses prepare students to upgrade their skills and/or prepare them for certification examinations from the California State Water Resource Control Board, the American Water Works Association, and the California Water Environment Association. The certificate program is designed to prepare students for entry level jobs in water treatment, water distribution, and wastewater reclamation industries. The associate of science degree graduates often work in city, county, or state agencies in positions such as plant operator, engineering technician, surface water manager, environmental laboratory coordinator, and industrial pre-treatment coordinator.

To graduate with a specialization in Water Technology, students must complete the following required courses in addition to the general breadth requirements for Associate of Science degree (total = 60 units).

Code	Title	Units
Required Courses:		
WST 034	Introduction to Water Resource Management	3
WST 037	Environmental Laws and Regulations	3
WST 075	Water/Wastewater Chemistry and Analysis	4
Five courses from the following:		
WST 031	Water Use Efficiency Practitioner I	3
WST 036	Water Utility Management	3
WST 038	Geographic Information Systems (GIS) in Water Resources	3
WST 045	Backflow Prevention Devices	3
WST 048	Cross-Connection Control	3
WST 061	Water Distribution I	3
WST 062	Water Distribution II	3
WST 071	Water Treatment I	3
WST 072	Water Treatment II	3
WST 081	Wastewater Collection I	3
WST 082	Wastewater Collection II	3
WST 086	Electrical Instrumentation for Water and Wastewater Operations	3
WST 091	Wastewater Treatment I	3
WST 092	Wastewater Treatment II	3
Total Units		25

Code	Title	Units
Recommended Courses:		
CIT 101	Introduction to Computer Literacy	3
WST 098	Water Supply Technology Work Experience	1-4

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Have knowledge of fundamental aspects of water resource management, conservation, distribution, treatment, collection, recycle, and disposal operations.
- Perform tasks in connection with the operation, control, and maintenance of water and sanitation systems.
- Utilize analytical skills as decision-making tools in the evaluation of unit water processes as well as overall utility performance.
- Demonstrate effective oral and written communication skills and apply these tools in a regulatory context (i.e. public health protection).
- Have knowledge of relevant equipment, policies, procedures and strategies to promote effective local, state, or national security operations in water resource management.

Water Use Specialist Certificate of Completion

This noncredit Water Use Specialist Certificate is designed to prepare students with the necessary knowledge and skills to obtain entry-level employment as a water use efficiency practitioner. Note: The Water Use Specialist Certificate is not equivalent to the certification issued by the American Water Works Association (AWWA) in water use efficiency.

Code	Title	Units
Required Courses:		
CIT 601	Introduction to Basic Computer Skills	0
VOCED 631	Fundamentals of Business English	0
WST 629	Introduction to Water Supply Technology	0
WST 631	Introduction to Water Use Efficiency	0
WST 652	Basic Waterworks Math Test Preparation	0
Total Hours		124-143

Program Learning Outcomes

At the completion of this program, students will be able to:

- Have knowledge of fundamental aspects of water resource management, conservation, distribution, treatment, collection, recycle, and disposal operations.
- Perform tasks in connection with the operation, control, and maintenance of water and sanitation systems.
- Demonstrate effective oral and written communication skills and apply these tools in a regulatory context (i.e. the public health protection).

Welding Technology

The Welding Technology program prepares students for employment in welding occupations and occupations where welding is required. Our program provides students with an understanding of the welding industry's requirements for employment and helps them to acquire entry-level job skills. Hands-on experience is emphasized in addition to a strong background in theory. Courses are held in well-equipped welding labs. Upon successful completion of the program, students will be able to demonstrate industry accepted welding and fabrication skills including, but not limited to: SMAW, FCAW, GMAW, GTAW, OAW and OFC in all positions with a variety of metals and alloys. Students are given opportunities to test and achieve certifications in welding that are included in the courses at no additional cost to enrolled students. The program also offers classes to prepare students to become Certified Welding Inspectors and L.A. City Certified Welders.

WELD 010 2 Units

Introduction to Welding

Lecture: 18 contact hours

Lab: 54 contact hours

This is an introductory course for students in any field that utilizes welding processes. Emphasis will be on Welding Safety, Thermal cutting, Gas Metal Arc Welding, and Shielded Metal Arc Welding in flat and horizontal positions.

Associate Degree Applicable

WELD 012 2 Units

Oxy-Fuel Welding

Lecture: 18 contact hours

Lab: 54 contact hours

This course provides entry-level training in oxy-acetylene welding, oxy-fuel cutting and oxy-fuel brazing.

Associate Degree Applicable

WELD 015 3 Units**Gas Tungsten Arc Welding - Beginning****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** WELD 012

This is an introductory course in the Gas Tungsten Arc Welding (GTAW) or Tungsten Inert Gas (TIG) welding process. Welding safety, equipment, and joint construction on mild steel are stressed.

Associate Degree Applicable**WELD 016 4 Units****Gas Tungsten Arc Welding - Intermediate****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 015

This is an intermediate level course in the Gas Tungsten Arc Welding (GTAW) process that focuses on carbon steel, stainless steel, and aluminum. Welding safety, equipment, basic welding-joint design, expansion, contraction, and residual stress in welding of metals are also covered.

Associate Degree Applicable**WELD 017 3 Units****Gas Tungsten Arc Welding - Advanced****Lab:** 162 contact hours**Prerequisite:** WELD 016

This is an advanced course in GTAW that introduces basic theory and application of pipe welding. Pipe weld-joint design, pre-weld fit up, basic metallurgy, weld symbols, and related codes and standards are emphasized. This course develops gas tungsten arc welding skills on pipe in 1G, 2G, 5G, and 6G as well as welding safety, equipment, basic welding-joint design, expansion, contraction, and residual stress in welding of metals.

Associate Degree Applicable**WELD 027 3 Units****Inspection of Welds: Destructive Testing****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** WELD 010 or WELD 012

Advisory: TECALC 087 and READ 015 or eligibility for READ 100 as determined by the SBVC assessment process.

This course covers basic metallurgy and destructive tests commonly used to determine the physical properties of a weld. Destructive tests include: bend tests, nick break tests, tensile tests, hardness tests, fatigue tests, and impact tests.

Associate Degree Applicable**WELD 028 3 Units****Inspection of Welds: Non-Destructive Examination****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** WELD 010 or WELD 012

Advisory: TECALC 087 and READ 015 or eligibility for READ 100 as determined by the SBVC assessment process.

This course covers non-destructive examination techniques used to determine the soundness of welds and their fitness for service. It includes visual examination, dye penetrant testing, magnetic particle testing, and ultrasonic testing.

Associate Degree Applicable**WELD 045 3 Units****Shielded Metal Arc Welding - Beginning****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite/Corequisite:** WELD 010

This is an introductory course in the Shielded Metal Arc Welding (SMAW) process often referred to as stick welding or arc welding. Welding safety, equipment and joint construction on mild steel are stressed.

Associate Degree Applicable**WELD 046 4 Units****Shielded Metal Arc Welding - Intermediate****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 045

This is an intermediate course in the Shielded Metal Arc Welding (SMAW) process. Vertical and overhead groove welds and the lab portion of the structural weld certification for the City of Los Angeles are stressed.

Associate Degree Applicable**WELD 047 3 Units****Preparation for Shielded Metal Arc Welding (SMAW) Pipe****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** WELD 046

Advisory: READ 015 or eligibility for READ 100 as determined by the SBVC assessment process.

This is an advanced course in the Shielded Metal Arc Welding (SMAW) process that prepares students for pipe welding. Emphasis will be on open root groove welds in all positions. Root passes will be welded with E6010 and fill/covers with E7018.

Associate Degree Applicable**WELD 048 4 Units****Shielded Metal Arc Welding (SMAW) - Pipe****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 047**Advisory:** TECALC 087

This is an advanced course covering Shielded Metal Arc Welding (SMAW) on pipe. American Welding Society (AWS) and American Petroleum Institute (API) standards will be covered. Focus will be on 5G and 6G welding positions.

Associate Degree Applicable**WELD 055 4 Units****Rigging****Lecture:** 54 contact hours**Lab:** 54 contact hours

The course is a comprehensive study of material handling and rigging.

Associate Degree Applicable**WELD 060 4 Units****Fabrication and Layout - Beginning****Lecture:** 36 contact hours**Lab:** 108 contact hours**Prerequisite:** WELD 010

This course is designed to provide the training needed to read blueprints, create shop drawings, and fabricate and assemble parts.

Associate Degree Applicable

WELD 061 3 Units**Layout Fitter II****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** WELD 060

This course is designed to provide the intermediate to advanced welding student with the skills needed by craftsmen in the fabrication industry. Topics include properties of structural steel; fitting up; plate and pipe.

Associate Degree Applicable**WELD 065 4 Units****Welding Inspection Visual - AWS-CWI****Lecture:** 72 contact hours

Advisory: WELD 028 and READ 015 or eligibility for READ 100 as determined by the SBVC assessment process.

This course is designed to prepare students for the Certified Welding Inspector (CWI) examination offered by the American Welding Society (AWS). Focus is placed on visual inspection, terms and definitions, welding symbols, welding processes, welding procedures, code specifications, materials and their limitations, weld testing, record keeping, report preparations, certifications, and responsibilities of a CWI.

Associate Degree Applicable**WELD 066 3 Units****Preparation for Los Angeles City Welding Certification - Structural (AWS D1.1)****Lecture:** 54 contact hours**Prerequisite:** WELD 045**Corequisite:** WELD 046

Advisory: READ 015 or eligibility for READ 100 as determined by the SBVC assessment process.

This course prepares students for the written Structural Steel examination offered by the City of Los Angeles Department of Building and Safety (LADBS) with a focus on the American Welding Society (AWS) D1.1 structural welding code.

Associate Degree Applicable**WELD 067 2 Units****Structural Steel Special Inspection (ICC)****Lecture:** 36 contact hours

Advisory: WELD 060 and READ 015 or eligibility for READ 100 as determined by the SBVC assessment process.

This course is designed to prepare students for the structural steel special inspection examinations offered by the International Code Council (ICC). Topics include a review of the technical aspects on inspection and quality control in the area of structural steel, welding preparation, materials applications, plan reading, related codes, and report writing.

Associate Degree Applicable**WELD 068 3 Units****Preparation for Los Angeles City Welder Certification - Reinforced Steel and Light Gauge Steel****Lecture:** 36 contact hours**Lab:** 54 contact hours**Prerequisite:** WELD 066

This class prepares students for the City of Los Angeles Department of Building and Safety (LADBS) Reinforced Steel and Light Gauge Steel written and performance qualification examinations with emphasis on the American Welding Society (AWS) D1.3 and AWS D1.4 Welding Codes.

Associate Degree Applicable**WELD 077 3 Units****Introduction to Continuous Wire Welding****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** WELD 010

This course covers techniques and methods of Gas Metal Arc Welding (GMAW) and Flux-cored Arc Welding (FCAW) in all positions and on various thicknesses of mild steel. Fulfills American Welding Society SENSE Level 1 – Entry Welder Certification Modules 5: Gas Metal Arc Welding (GMAW-S, GMAW Spray Transfer) and 6: Flux Cored Arc Welding (FCAW-G/GM, FCAW-S).

Associate Degree Applicable**WELD 080 3 Units****Gas Metal Arc Welding - Beginning****Lecture:** 18 contact hours**Lab:** 108 contact hours**Prerequisite:** WELD 010

This course introduces techniques and methods of Gas Metal Arc Welding (GMAW-S, GMAW Spray Transfer) in all positions and on various thicknesses of mild steel.

Associate Degree Applicable**WELD 081 4 Units****Gas Metal Arc Welding - Intermediate****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 080

This is the study of intermediate techniques and methods of Gas Metal Arc Welding (GMAW) and Metal-Cored Arc Welding (MCAW) in all positions and on various thicknesses of mild steel and aluminum.

Associate Degree Applicable**WELD 082 3 Units****Gas Metal Arc Welding - Advanced****Lab:** 162 contact hours**Prerequisite:** WELD 081

This is an advanced course in Gas Metal Arc Welding (GMAW) that introduces basic theory and application of pipe welding. Pipe weld-joint design, pre-weld fit up, basic metallurgy, weld symbols, and related codes and standards are emphasized. The course develops Gas Metal Arc Welding (GMAW) skills on pipe in 1G, 2G, 5G, and 6G as well as welding safety, equipment, basic welding-joint design, expansion, contraction, and residual stress in welding of metals.

Associate Degree Applicable**WELD 090 4 Units****Flux Cored Arc Welding - Gas Shielded****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 010

This course introduces techniques and methods of Flux Cored Arc Welding-Gas shielded (FCAW-G) in all positions and on various thicknesses of carbon steel.

Associate Degree Applicable

WELD 091 4 Units**Flux Cored Arc Welding - Self Shielded****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 010**Advisory:** WELD 090

This course introduces techniques and methods of Flux Cored Arc Welding-Self shielded (FCAW-S) in all positions and on various thicknesses of carbon steel.

Associate Degree Applicable**WELD 092 3 Units****Flux Cored Arc Welding - Advanced****Lab:** 162 contact hours**Prerequisite:** WELD 090 or WELD 091

This is an advanced course in Flux Cored Arc Welding (FCAW) that introduces basic theory and application of pipe welding. Pipe weld-joint design, pre-weld fit up, basic metallurgy, weld symbols, and related codes and standards are emphasized. The course develops Flux Cored Arc Welding skills on pipe in 1G, 2G, 5G, and 6G as well as welding safety, equipment, basic welding-joint design, expansion, contraction, and residual stress in welding of metals.

Associate Degree Applicable**WELD 098 1-4 Units****Welding Work Experience****WRKEX:** 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable**WELD 099 1-3 Units****Independent Study in Welding Technology****DIR:** 18 contact hours

Students with previous course work in Welding Technology may do assigned projects involving research and analysis of selected topics. This independent study is for students who are interested in furthering their knowledge of Welding Technology. Prior to registration, a written contract must be prepared jointly by the instructor and the student. See instructor for details.

Associate Degree Applicable**WELD 645 Noncredit****Shielded Metal Arc Welding - Beginning****Lecture:** 18 contact hours**Lab:** 108 contact hours

This is a noncredit introductory course in the Shielded Metal Arc Welding (SMAW) process often referred to as stick welding or arc welding. Welding safety, equipment and joint construction on mild steel are stressed.

WELD 646 Noncredit**Shielded Metal Arc Welding - Intermediate****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 645

This is an intermediate noncredit course in the Shielded Metal Arc Welding (SMAW) process. Vertical and overhead groove welds and the lab portion of the structural weld certification for the City of Los Angeles are stressed.

WELD 660 Noncredit**Fabrication and Layout - Beginning****Lecture:** 36 contact hours**Lab:** 108 contact hours

This noncredit course is designed to provide the training needed to read blueprints, create shop drawings, and fabricate and assemble parts.

WELD 666 Noncredit**Preparation for Los Angeles City Welding Certification - Structural (AWS D1.1)****Lecture:** 54 contact hours

This noncredit course prepares students for the written Structural Steel examination offered by the City of Los Angeles Department of Building and Safety (LADBS) with a focus on the American Welding Society (AWS) D1.1 structural welding code.

WELD 680 Noncredit**Gas Metal Arc Welding - Beginning****Lecture:** 18 contact hours**Lab:** 108 contact hours

This noncredit course introduces techniques and methods of Gas Metal Arc Welding (GMAW-S, GMAW Spray Transfer) in all positions and on various thicknesses of mild steel.

WELD 681 Noncredit**Gas Metal Arc Welding - Intermediate****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 680

This noncredit course is the study of intermediate techniques and methods of Gas Metal Arc Welding (GMAW) and Metal-Cored Arc Welding (MCAW) in all positions and on various thicknesses of mild steel and aluminum.

WELD 690 Noncredit**Flux Cored Arc Welding - Gas Shielded****Lecture:** 18 contact hours**Lab:** 162 contact hours

This noncredit course introduces techniques and methods of Flux Cored Arc Welding- Gas shielded (FCAW-G) in all positions and on various thicknesses of carbon steel.

WELD 691 Noncredit**Flux Cored Arc Welding - Self Shielded****Lecture:** 18 contact hours**Lab:** 162 contact hours**Prerequisite:** WELD 690

This noncredit course introduces techniques and methods of Flux Cored Arc Welding- Self shielded (FCAW-S) in all positions and on various thicknesses of carbon steel.

Flux Cored Arc Welding (FCAW) Certificate of Achievement

This certificate is designed to provide students with training in Flux Cored Arc Welding (FCAW-G and FCAW-S). This is the semi-automatic welding process often used to replace Shielded Metal Arc Welding (SMAW) in many industrial applications. Industry certifications are stressed.

Code	Title	Units
Required Courses:		
WELD 010	Introduction to Welding	2
WELD 090	Flux Cored Arc Welding - Gas Shielded	4
WELD 091	Flux Cored Arc Welding - Self Shielded	4

WELD 092	Flux Cored Arc Welding - Advanced	3
Total Units		13

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the safety precautions for working in a welding lab and demonstrate an awareness of the importance of safety in welding.
- Use tools related to the welding industries.
- Read and interpret prints and shop drawings to produce quality welds.
- Read and understand Welder Procedure Specification to produce quality welds.
- Fabricate and layout parts that meet quality standard.
- Pass a Welder Performance Qualification Test that meets the standard of acceptability to pass a National Standard.

Gas Metal Arc Welding (GMAW) Certificate of Achievement

This certificate is designed to provide students with training in Gas Metal Arc Welding (GMAW). Metals will include Steel and Aluminum. Industry Certifications for both plate and pipe will be stressed.

Code	Title	Units
Required Courses:		
WELD 010	Introduction to Welding	2
WELD 080	Gas Metal Arc Welding - Beginning	3
WELD 081	Gas Metal Arc Welding - Intermediate	4
WELD 082	Gas Metal Arc Welding - Advanced	3
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the safety precautions for working in a welding lab and demonstrate an awareness of the importance of safety in welding.
- Use tools related to the welding industries.
- Read and interpret prints and shop drawings to produce quality welds.
- Read and understand Welder Procedure Specification to produce quality welds.
- Fabricate and layout parts that meet quality standard.
- Pass a Welder Performance Qualification Test that meets the standard of acceptability to pass a National Standard.

Gas Tungsten Arc Welding (GTAW) Certificate of Achievement

This certificate is designed to provide students with training in Gas Tungsten Arc Welding (GTAW). GTAW is commonly known as TIG (Tungsten Inert Gas Welding). Students will work with Steel, Stainless Steel and Aluminum in both plate and pipe applications. Industry Certifications are stressed.

Code	Title	Units
Required Courses:		
WELD 012	Oxy-Fuel Welding	2
WELD 015	Gas Tungsten Arc Welding - Beginning	3
WELD 016	Gas Tungsten Arc Welding - Intermediate	4
WELD 017	Gas Tungsten Arc Welding - Advanced	3
Total Units		12

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the safety precautions for working in a welding lab and demonstrate an awareness of the importance of safety in welding.
- Use tools related to the welding industries.
- Read and interpret prints and shop drawings to produce quality welds.
- Read and understand Welder Procedure Specification to produce quality welds.
- Fabricate and layout parts that meet quality standard.
- Pass a Welder Performance Qualification Test that meets the standard of acceptability to pass a National Standard.

Pipe Welding Certificate of Achievement

This certificate will give students an introduction into pipe welding with all of the four major welding processes used in the industry. These include SMAW, GMAW, FCAW-G, FCAW-S, and GTAW.

Code	Title	Units
Required Courses:		
WELD 017	Gas Tungsten Arc Welding - Advanced	3
WELD 047	Preparation for Shielded Metal Arc Welding (SMAW) Pipe	3
WELD 048	Shielded Metal Arc Welding (SMAW) - Pipe	4
WELD 082	Gas Metal Arc Welding - Advanced	3
WELD 092	Flux Cored Arc Welding - Advanced	3
Total Units		16

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the safety precautions for working in a welding lab and demonstrate an awareness of the importance of safety in welding.
- Use tools related to the welding industries.
- Read and interpret prints and shop drawings to produce quality welds.
- Read and understand Welder Procedure Specification to produce quality welds.
- Fabricate and layout parts that meet quality standards.
- Pass a Welder Performance Qualification Test that meets the standard of acceptability to a National Standard.

Shielded Metal Arc Welding (SMAW) Certificate of Achievement

This certificate is designed to train students in the use of Shielded Metal Arc Welding (SMAW) often known as Arc or Stick Welding. Electrode identification, welding symbols, and joint design are stressed. Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Students must complete **all** the **required courses** plus pass the SMAW Welding Certification either through the City of San Bernardino or Los Angeles. The practical welding certification test for both cities is administered by SBVC Welding Department.

Code	Title	Units
Required Courses:		
WELD 012	Oxy-Fuel Welding	2
WELD 045	Shielded Metal Arc Welding - Beginning	3
WELD 046	Shielded Metal Arc Welding - Intermediate	4
WELD 066	Preparation for Los Angeles City Welding Welding Certification - Structural (AWS D1.1)	3
Total Units		12

Students completing all course work but not finishing the SMAW Certification may proceed to the next certificate. In order to be awarded the certificate, both course work and certification must be completed.

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the safety precautions for working in a welding lab and demonstrate an awareness of the importance of safety in welding.
- Read and understand Welding Procedure Specifications to produce quality welds.
- Pass a Welder Performance Qualification Test with the SMAW process that meets the standard of acceptability for the City of Los Angeles Department of Building and Safety.

Welding Inspection Technology Certificate of Achievement

This certificate is designed to prepare students for the American Welding Society (AWS) and/or International Code Council (ICC) Welding Inspector examinations.

Code	Title	Units
Required Courses:		
WELD 010	Introduction to Welding	2
WELD 027	Inspection of Welds: Destructive Testing	3
WELD 028	Inspection of Welds: Non-Destructive Examination	3
WELD 045	Shielded Metal Arc Welding - Beginning	3
WELD 060	Fabrication and Layout - Beginning	4
WELD 065	Welding Inspection Visual - AWS-CWI	4
WELD 067	Structural Steel Special Inspection (ICC)	2
Total Units		21

Students working for certificates must have a basic knowledge of arithmetic, reading and writing in order to learn and work in the occupations they select.

This is a Gainful Employment Program

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the general breadth of knowledge required to pass the AWS certified welding inspector (CWI) examination.
- Show an understanding of the general breadth of knowledge required to pass the ICC welding inspector examination.
- Perform visual inspection of welds to AWS standards.

Welding Job Readiness Certificate of Completion

This noncredit certificate is designed to complement the credit degree and certificates in the welding technology program by providing continuing education and practice for anyone in the welding industry. Focus is on Industry recognized welding certifications with the Shielded Metal Arc Welding (SMAW), Flux Cored Arc Welding (FCAW) and Gas Metal Arc Welding (GMAW) processes.

Code	Title	Units
Required Courses:		
WELD 645	Shielded Metal Arc Welding - Beginning	0
WELD 646	Shielded Metal Arc Welding - Intermediate	0
WELD 660	Fabrication and Layout - Beginning	0
WELD 666	Preparation for Los Angeles City Welding Certification - Structural (AWS D1.1)	0
WELD 680	Gas Metal Arc Welding - Beginning	0
WELD 681	Gas Metal Arc Welding - Intermediate	0
WELD 690	Flux Cored Arc Welding - Gas Shielded	0
WELD 691	Flux Cored Arc Welding - Self Shielded	0
Total Hours		1040-1170

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the safety precautions for working in a welding lab and demonstrate an awareness of the importance of safety in welding.
- Use tools related to the welding industries.
- Read and interpret prints and shop drawings to produce quality welds.
- Read and understand Welding Procedure Specifications to produce quality welds.
- Pass a Welder Performance Qualification Test that meets the standard of acceptability to a National Standard.

Welding Technology Associate of Science Degree

This degree is designed to provide students with an understanding of the terminology, concepts, procedures and skills used in the welding field to equip them with the fundamental skills necessary for entry- and intermediate-level employment as a combination welder. To graduate with a specialization in Welding Technology, students must complete the following required courses for the certificate plus the general breadth requirements for the Associate of Science Degree (minimum total = 60 units).

Code	Title	Units
Required Courses:		
WELD 010	Introduction to Welding	2
WELD 012	Oxy-Fuel Welding	2
WELD 015	Gas Tungsten Arc Welding - Beginning	3
WELD 016	Gas Tungsten Arc Welding - Intermediate	4
WELD 027	Inspection of Welds: Destructive Testing	3
or WELD 028	Inspection of Welds: Non-Destructive Examination	
WELD 045	Shielded Metal Arc Welding - Beginning	3
WELD 046	Shielded Metal Arc Welding - Intermediate	4
WELD 060	Fabrication and Layout - Beginning	4
WELD 066	Preparation for Los Angeles City Welding Welding Certification - Structural (AWS D1.1)	3
WELD 080	Gas Metal Arc Welding - Beginning	3
WELD 081	Gas Metal Arc Welding - Intermediate	4
WELD 090	Flux Cored Arc Welding - Gas Shielded	4
WELD 091	Flux Cored Arc Welding - Self Shielded	4
TECALC 087	Technical Calculations	4
Total Units		47

To earn an SBVC Associate Degree students must complete one of the following general education patterns:

SBVC GE requirements (<https://www.valleycollege.edu/student-services/counseling/graduation-requirements/>)

CSU GE requirements (<https://www.valleycollege.edu/student-services/counseling/csuge/>)

IGETC requirements (<https://www.valleycollege.edu/student-services/counseling/igetc/>)

Program Learning Outcomes

At the completion of this program, students will be able to:

- Show an understanding of the safety precautions for working in a welding lab and demonstrate an awareness of the importance of safety in welding.
- Use tools related to the welding industries.
- Read and interpret prints and shop drawings to produce quality welds.
- Read and understand Welding Procedure Specifications to produce quality welds.
- Fabricate and layout parts that meet quality standards.
- Determine the causes of a weld failure using the knowledge and skills developed in destructive testing and correctly develop a new welding procedure that meets AWS code requirements for structural steel.
- Perform visual inspection on weld specimens along with dye penetrant, magnetic particle and ultrasonic examination. Students must also be able to write a clear and concise reports describing what type of weld discontinuity and reference it to a specific welding code.
- Pass a Welder Performance Qualification Test that meets the standard of acceptability to a National Standard.

Welding Technology Certificate of Achievement

This certificate is designed to provide students with an understanding of the terminology, concepts, procedures and skills used in the welding field to equip them with the fundamental skills necessary for entry- and intermediate-level employment as a combination welder.

WKEXP 099 1-4 Units

General Work Experience

WRKEX: 300 contact hours

Supervised training, in the form of on the job employment that will enhance the student's knowledge in the selected field of study. The student's major and job must match. For paid work, 75 hours = 1 unit; for volunteer work, 60 hours = 1 unit. Students may earn a total of 16 units toward graduation in Work Experience 098 courses. See department for specific guidelines.

Associate Degree Applicable

Work Experience Occupational Cooperative Work Experience

Work experience education credit can be earned in each of the occupational disciplines. (See appropriate program area under course number 098 or 198 for specific information.)

Cooperative Work Experience

The concept of issuing college credit for work experience is based on the premise that a student with well-defined job-oriented objectives will find his/her work an educational experience. To be effective it must be approached cooperatively and with enthusiasm by the student, the employer, and the college coordinator. The student will gain college credit, a new appreciation of the responsibilities he/she has to his/her employer, greater awareness and improved job skills.

There are two classifications of Cooperative Work Experience Education at San Bernardino Valley College.

- In *Occupational Cooperative Work Experience*, students may earn four units per semester for a maximum of sixteen units.
- In *General Cooperative Work Experience* students may earn three units per semester with a maximum of six allowable during their college career; and they need not be enrolled in a related course. Seventy-five hours of paid work experience (or 60 hours volunteer work) equal one unit of college credit.

San Bernardino Valley College offers two formats for Cooperative Work Experience:

- In *Parallel Format*, students take a Cooperative Work Experience class concurrently with other college courses.
- In *Alternate Format* students alternate between taking a Cooperative Work Experience class one semester and other college courses the previous and/or following semesters.

Units earned through Work Experience do not apply toward units in a major unless such courses are specifically required for a degree in that department. However, course credit earned through work experience can apply as elective units in any associate degree. Refer to the specific department section of this catalog for a list of specific courses required for

Dean - Research, Planning, Institutional Effectiveness with Grants Oversight

Ed.D. - California State University, San Bernardino
 M.Ed. - University of North Carolina, Chapel Hill
 B.A. - University of North Carolina, Chapel Hill

Quach, Patty

Dean - Academic Success and Learning Services

Ed.D. - Capella University
 M.Ed. - University of La Verne
 B.A. - California Polytechnic University, Pomona

Rodriguez, Maria Del Carmen

Dean - Student Equity and Success

M.A. - California State University, San Bernardino
 B.A. - California State University, San Bernardino

Rogers Jr., Kirk D.

Dean - Social Sciences, Human Development, Kinesiology and Health

Ph.D. - University of California, San Diego
 Ed.S. - University of Georgia
 M.A. - Georgia State University
 B.A. - University of Georgia

Rosas, Olivia

Interim Vice President - Student Services

Ed.D. - California State University, San Bernardino
 M.A. - California State University, San Bernardino
 B.A. - University of California, Riverside

Rubio, David

Director - Athletics

M.A. - Azusa Pacific University
 B.A. - California State University, San Bernardino

Sifuentes, Aldo

Director - Campus Technology Services

M.A. - California State University, San Bernardino
 B.A. - University of California, Santa Barbara

Thomas, Vanessa

Dean - Applied Technology, Transportation, and Culinary Arts

Ed.D. - California State University, San Bernardino
 M.B.A. - University of Phoenix
 B.A. - University of Oregon

Thompson, Brian

Director - Secondary Educational Partnerships

M.B.A. - California State University, San Bernardino
 B.A. - Virginia Tech

Trejo, Samuel

Director - Financial Aid

M.B.A. - California State University, San Bernardino
 B.A. - California State University, San Bernardino
 A.A. - Chaffey Community College

Valle, Denise

Associate Dean - Health Sciences

Director - Nursing

M.S.N. Ed. - West Coast University
 M.H.A. - West Coast University
 B.S.N. - West Coast University
 A.D.N. - Chaffey College

Zazueta, Sergio

Director - Facilities, Maintenance and Operations

M.B.A. - University of Phoenix

B.S. - University of Phoenix

Administrative Emeriti

Bancroft, John Assistant Dean, Student Development

Jensen, Arthur M. President

Pszczola, Lorraine A. Administrative Dean, Student Affairs

Russell, Lionel H. Director of Counseling

Singer, Donald L. President

Faculty

The dates in parentheses indicate the year of appointment to the San Bernardino Community College District

Ababat, Anthony (2016)

Associate Professor - Electricity/Electronics

B.S. - Cebu Institute of Technology University

Addington, Samuel (2022)

Assistant Professor - Computer Information Technology and Computer Science

M.S. - Western Governors University

B.S. - Colorado State University - Global Campus

Adler, Dawn (1997)

Associate Professor - Kinesiology & Health

M.S. - University of Utah

B.S. - University of Utah

Akers, Elaine (2004)

Coordinator, Professor - Student Health Services

D.N.P. - Case Western Reserve University

M.S.N. - San Jose State University

B.S.N. - University of the State of New York

A.D.N. - Mt. Hood Community College

Al-Husseini, Maha (2001)

Associate Professor - Computer Information Technology

M.A. - Central Michigan University

B.A. - Kuwait University

Allen, Tammy (2015)

Professor - Education, Reading and Literacy

Ed.D. - University of Southern California

M.S. - California State University, Fullerton

B.S. - Azusa Pacific University

Alvarez, Vicente (2009)

Associate Professor - Mathematics

Ph.D. - University of California, Riverside

M.S. - University of California, Riverside

B.S. - University of California, Riverside

Andersen, Leif (2021)

Assistant Professor - Physics

D.Phil. - University of Oxford

M.S. - California State University, Los Angeles

B.S. - University of California, Santa Barbara

Anemelu, Victoria (2006)

Professor - Mathematics

Ph.D. - University of Nigeria

M.Ed. - University of Nigeria
B.Sc. - University of Nigeria

Arnold, Anita (2022)

Assistant Professor - Nursing

M.S.N.Ed. - Western Governors University
B.S.N. - Western Governors University
A.D.N. - Victor Valley College

Assumma, Michael J. (2002)

Associate Professor - Business Administration

M.B.A. - California State University, San Bernardino
B.S. - California Polytechnic University, Pomona

Avelar, Amy (2009)

Associate Professor - Chemistry

Ph.D. - University of California, Riverside
M.S. - University of California, Riverside
B.S. - University of California, Riverside
A.A. - San Bernardino Valley College

Aycock, Monique (2023)

Counselor, Assistant Professor, Learning Disability Specialist - Student Accessibility Services (SAS)

M.A. - California State University, San Bernardino
B.A. - California State University, San Bernardino
A.A. - San Bernardino Valley College

Banola, Erwin (John) (2009)

Associate Professor - Kinesiology & Health

M.S. - California State University, Northridge
B.A. - California State University, Northridge
A.S. - Pierce College

Banuelos, Elizabeth (2016)

Counselor, Associate Professor - Counseling Center, Puente Co-Coordinator

M.S. - University of Redlands
B.A. - University of California, Riverside
A.A. - San Bernardino Valley College

Barnett, Kellie (2004)

Professor - Child Development

M.S. - University of La Verne
B.S. - California State University, San Diego

Batalo, Mandi (2006)

Professor - Art

Ed.D. - Fielding Graduate University
M.A. - California Polytechnic University, Pomona
B.A. - California State University, San Bernardino

Bautista, Rui Hayashi (2024)

Assistant Professor - Mathematics

M.S. - California Polytechnic University, Pomona
B.S. - California Polytechnic University, Pomona
A.A. - Riverside City College

Beebe, Yvonne (1999)

Professor - Mathematics

M.S. - University of California, Riverside
B.S. - University of California, Riverside

Begg, Erica (2020)

Counselor, Assistant Professor - General Counseling

M.S. - University of La Verne

B.A. - University of California, Riverside

Berry II, Thomas W. (2021)

Assistant Professor - Communication Studies

M.F.A. - Mississippi University for Women
M.A. - Regent University
M.S. - California State University, Fullerton
M.A. - California State University, San Bernardino
B.A. - California State University, San Bernardino

Bjerke, Jennifer (2016)

Professor - Geography and GIS

M.A. - Rutgers, the State University of New Jersey
B.S. - California State Polytechnic University, Pomona
A.A. - College of the Sequoias

Blacksher, Anthony (2016)

Associate Professor - Sociology & Ethnic Studies

Ph.D. - Claremont Graduate University
M.A. - California State University, San Marcos
B.A. - California State University, San Marcos

Bouzidi, Djemoui (2022)

Assistant Professor - Physics

Ph.D. - University of California, San Diego
M.S. - University of California, San Diego
B.S. - Université de Constantine, Algeria

Brewer, Quincy (2007)

Associate Professor, Head Coach - Men's Basketball - Kinesiology & Health

M.A. - University of Phoenix
M.A. - Azusa Pacific University
B.A. - Arizona State University

Brown, Robert D. (2006)

Professor - English

Ed.D. - Azusa Pacific University
M.A. - Pepperdine University
B.A. - University of Redlands

Buffong, Keynasia (2016)

Coordinator, Associate Professor - Transfer and Career Services

M.S.W. - California State University, San Bernardino
B.A. - California State University, San Bernardino
B.A. - California State University, San Bernardino
A.A. - Riverside City College

Burnham, Lorrie (2011)

Associate Professor - Biology

M.S. - California Polytechnic University, Pomona
B.S. - California State University, San Bernardino
A.A. - San Bernardino Valley College

Burns-Peters, Davena (2014)

Professor - Modern Languages (American Sign Language)

B.V.E. - California State University, San Bernardino
A.S. - Riverside City College
A.A. - Loma Linda University

Cacho, Bryce (2017)

Associate Professor - Welding Technology

M.A. - California State University San Bernardino

B.S. - California State University San Bernardino
A.S. - Victor Valley Community College

Caldwell-Betties, Melita (2012)

Associate Professor - Water Supply Technology
M.P.A. - California State University, San Bernardino
B.S. - University of Redlands

Carter, Yancie (2015)

Matriculation Coordinator, Counselor, Associate Professor - General Counseling
Ed.D. - La Sierra University
M.A. - Argosy University
B.A. - Roosevelt University
A.A. - Southeastern College

Castro, Anthony (2015)

Professor - Mathematics
M.S. - University of California, Riverside

Che, Yon (2004)

Associate Professor - Modern Languages (Spanish)
M.A. - University of California, Los Angeles
B.A. - University of California, Los Angeles

Chou, Jesse (2019)

Associate Professor - Computer Science
M.S. - University of Massachusetts
B.A. - University of Massachusetts

Cisneros, Maribel (2016)

Counselor, Associate Professor - EOPS/CARE
M.A. - University of Redlands
B.A. - University of California, Riverside
A.A. - Riverside City College

Colbert, Timothy (2023)

Assistant Professor - Art
M.F.A. - Academy of Art University
B.A. - California State University, San Bernardino

Copeland, Mary (2007)

Professor - English
M.F.A. - University of California, Riverside
B.A. - California State University, San Bernardino
A.A. - Riverside City College
A.S. - Riverside City College

Cruz, Alexander (2019)

Associate Professor - Automotive Technology
B.A. - Universidad del Sagrado Corazón

Cuny, Lucas (2018)

Associate Professor - Film, TV, and Media
M.F.A. - California State University, Fullerton
B.A. - Columbia College-Hollywood
B.S. - California State University, Dominguez Hills

Damgen, Carol (2021)

Assistant Professor - Communication Studies
M.F.A. - University of California, Riverside
M.A. - California State University, San Bernardino
M.A. - California State University, San Bernardino
B.A. - California State University, San Bernardino

Demsky, Jeffrey (2011)

Associate Professor - Political Science
Ph.D. - University of Florida
M.A. - American University
B.A. - S.U.N.Y, Albany

Du Bois-Eastman, Kim (2014)

Associate Professor - Psychiatric Technology
M.S.N. - Loma Linda University, Loma Linda
C.N.S. - Loma Linda University, Loma Linda
B.S.N. - California State University, Dominguez Hills
B.S. - University of Redlands
A.D.N. - Saddleback College

Dunn, Frank (1999)

Counselor, Associate Professor - General Counseling
M.P.A. - University of La Verne
M.A. - University of Redlands

Estrada, Laura (2018)

College Nurse, Associate Professor - Student Health Services
M.P.H. - Still University
A.T. - Still University
B.S.N. - Azusa Pacific University
R.N. - Mount St. Mary's College
P.H.N. - Azusa Pacific University

Ferri-Milligan, Paula (1999)

Professor - English
Ed.D. - California State University, Fullerton
M.A. - California State University, San Bernardino
B.A. - California State University, San Bernardino

Fogle, Melinda (2012)

Professor - Theatre Arts
Ph.D. - Bowling Green State University
M.A. - University of Kentucky
B.F.A. - Miami University

Foscolos, Espree (2021)

Assistant Professor - Nursing
D.N.P. - California Baptist University
M.S.N. - Western Governors University
B.S.N. - Western Governors University
A.D.N. - San Bernardino Valley College

Fozouni, Daihim (2014)

Professor - English
M.A. - California State University, San Bernardino
B.A. - California State University, San Bernardino

García, Armando A. (2020)

Counselor, Assistant Professor - General Counseling
M.S.C. - California State University, Long Beach
G.C.C.C. - California State University, Long Beach
B.A. - California State University, Dominguez Hills
B.A. - California State University, Dominguez Hills
A.A. - Long Beach City College

García, Jamie (2022)

Assistant Professor - Communication Studies
M.A. - California State University, Los Angeles

Ghazaleh, Rema (2021)

Counselor, Assistant Professor - International Student Program

M.A.Ed., P.P.S. - Azusa Pacific University
 B.A. - California State University, San Bernardino
 A.S. - Chaffey College

Gilbert, Jeremiah (2005)**Professor - Mathematics**

Ph.D. - Capella University
 M.A. - University of California, Riverside
 B.A. - California State University, San Bernardino

Giles, Keenan (2015)**Counselor, Associate Professor - EOPS/CARE**

M.S. - San Diego State University
 B.S. - San Diego State University

Gomez, Edward (1998)**Associate Professor - History**

M.A. - University of California, Riverside
 B.A. - California State University, Los Angeles
 A.A. - Los Angeles City College

Gomez, Fernando (2021)**Assistant Professor - Biology**

Ph.D. - University of California, Los Angeles
 B.A. - University of California, Los Angeles

Gonzales, Pedro (2020)**Counselor, Assistant Professor - Adult Education Program**

M.A. - University of Redlands
 B.A. - California Polytechnic University, Pomona

Gonzalez, Francisco (2023)**Assistant Professor - Aeronautics**

M.Ed. - California Baptist University
 B.S. - California Baptist University

Graham, Danielle (2019)**Associate Professor - Psychology**

Ph.D. - University of Stirling, Scotland
 M.S. - University of Stirling, Scotland
 B.A. - University of California, Riverside

Gregory, Leslie (2004)**Counselor, Associate Professor - CalWORKS**

M.A. - Point Loma Nazarene University
 B.A. - California State University, San Bernardino

Halabi, Tarif H. (2013)**Associate Professor - Electricity/Electronics**

M.S. - California State University, Fullerton
 B.S. - California State University, Los Angeles

Hamdy, Rania (2013)**Coordinator, Professor - Professional and Organizational Development**

M.A. - California State University, San Bernardino
 B.A. - California State University, San Bernardino
 A.A. - San Bernardino Valley College

Hassanzadah, Ali (2019)**Associate Professor - Mathematics**

M.A. - California State University, San Bernardino
 B.A. - California State University, San Bernardino

Hassanzadah, Mehgan (2023)**Assistant Professor - Biology**

PharmD. - Touro University California
 M.S. - University of California, Riverside
 B.S. - University of California, Riverside

Hauge, Kristin (2008)**Associate Professor, Head Coach - Women's Soccer - Kinesiology & Health**

M.A. - Azusa Pacific University
 B.S. - California State Polytechnic University, Pomona
 A.A. - Pasadena City College

Hecht, Andrea (2016)**Counselor, Associate Professor - General Counseling**

M.S. - University of La Verne
 B.A. - California State University, San Bernardino

Heibel, Todd (2004)**Professor - Geography**

Ph.D. - Pennsylvania State University, University Park
 M.A. - University of Missouri, Columbia
 B.S. - University of Missouri, Columbia

Henkle, Lisa (2016)**Professor - Political Science**

D.P.A. - University of La Verne
 M.A. - Arizona State University
 M.P.A. - California Baptist University
 B.S.A. - California Baptist University

Herrera, Jamie (2013)**Counselor, Associate Professor - General Counseling**

M.S. - University of La Verne
 B.S. - California State University, San Bernardino
 A.S. - Chaffey College

Hill, June (1995)**Professor - Nursing**

M.N. - University of California, Los Angeles
 M.S.G. - University of La Verne

Hind, Brittany (2020)**Counselor, Assistant Professor - EOPS/CARE**

M.A. - San Diego State University
 B.A. - California State University, Northridge
 A.A. - San Diego Miramar College

Hinrichs, Sr., Guy (2000)**Associate Professor - Automotive Technology**

B.S. - Southern Illinois University
 A.A. - Crafton Hills College

Holder, Patricia (2008)**Associate Professor, Head Coach - Women's Volleyball - Kinesiology & Health**

M.A. - Azusa Pacific University
 B.S. - San Diego Christian College
 Fitness Specialist - San Diego City College

Huston, Celia J. (1998)**Librarian, Professor - Library and Learning Support Services**

Ph.D. - Capella University
 M.L.S. - California State University, San Jose
 B.A. - California State Polytechnic University, Pomona

Israeil, Abier (2005)

Associate Professor - Mathematics

Ph.D. - Capella University
 M.A. - California State University, San Bernardino
 B.A. - California State University, San Bernardino

Jackson, Michelle (2021)**Assistant Professor - Psychiatric Technology**

B.S. - Grand Canyon University
 L.P.T. - Mt. San Antonio College

Jakpor, Riase (2013)**Professor - Political Science**

Ph.D. - University of Michigan, Ann Arbor
 M.B.A. - University of California, Riverside
 M.A. - University of Michigan, Ann Arbor
 B.A. - University of Michigan, Ann Arbor

Jaramillo, Richard (1999)**Associate Professor - Automotive Technology**

A.A. - Cerritos College

Jefferson, Kimberly D. (2008)**Associate Professor - Education, Reading and Literacy**

M.A. - Arizona State University
 M.A. - California State University, San Bernardino
 M.A. - Pepperdine University
 B.A. - University of Southern California
 A.A. - Compton College

Jimenez, Nicole (2017)**Counselor, Assistant Professor - Nursing**

M.S. - California State University, San Bernardino
 B.A. - Whittier College

Johnson, Dominique (2019)**Counselor, Assistant Professor - First Year Experience (FYE)**

M.A., P.P.S. - University of Redlands
 B.A. - Fisk University

Johnson, Kimberly (2016)**Counselor, Assistant Professor - Middle College Program**

M.A. - University of Redlands
 B.A. - University of La Verne

Jones, Carol (2016)**Associate Professor - Chemistry**

Ph.D. - University of California, Riverside
 M.S. - University of California, Riverside
 B.S. - University of California, Riverside

Jones, Edward (EJ) (2006)**Professor - English**

M.F.A. - University of California, Riverside
 M.A., B.A. - University of California, Riverside

Jones, Patricia (2007)**Counselor, Associate Professor - General Counseling**

M.A. - California State University, San Bernardino
 B.A. - California State University, San Bernardino

Joshua, Judy (2016)**Associate Professor - English**

Ph.D. - University of California, Irvine
 M.A. - California State University, Los Angeles

B.S. - University of California, Berkeley

Kanawati, Moustafa (2007)**Associate Professor - Mathematics**

M.S. - Southern Illinois University at Edwardsville
 B.A. - Saint Louis University

Kappattil, Reshmi (2021)**Assistant Professor & Faculty Co-Chair - Nursing**

D.N.P. - Grand Canyon University

Kelly-Silagy, Deana (2016)**Veteran Counselor, Associate Professor - Counseling/Veteran Resource Center**

M.A. - University of Redlands
 B.A. - California State University, San Bernardino
 A.A. - San Bernardino Valley College

King, Melissa (2013)**Professor - Anthropology and Global Studies**

Ph.D. - University of California, Riverside
 M.A. - University of California, Riverside
 M.A. - Fuller Theological Seminary
 B.A. - University of Alabama at Birmingham

Knight, Denise (1995)**Professor - Child Development**

M.A. - Pacific Oaks College
 B.A. - Pacific Oaks College
 A.A. - Monterey Peninsula College

Lambrou, Nicole (2022)**Assistant Professor - Architecture**

Ph.D. - University of California, Los Angeles
 M.Arch. - Yale University
 B.A. - Binghamton University

Larivee, Elizabeth (Beth) (2019)**Counselor, Associate Professor - Student Accessibility Services**

M.A. - Wheaton College
 B.A. - Wheaton College

Lawler, Kenneth (2013)**Associate Professor - Kinesiology & Health**

B.S. - Excelsior College
 A.A. - Excelsior College

Lechuga, Thomas (2021)**Assistant Professor - Biology**

Ph.D. - University of California, Irvine
 B.S. - University of Redlands

Lee, Chongui Keith (1998)**Associate Professor - Mathematics**

Ed.D. - California State University, Fullerton
 M.S. - Claremont Graduate University
 M.S. - California State University, Long Beach
 B.S. - University of California, Los Angeles

Lee, Dirkson (2006)**Professor - English/ESL**

Ed.D. - California State University, Fullerton
 M.A. - California State University, San Bernardino
 B.A. - University of California, Riverside

Lee, Steven (2016)**Associate Professor - Accounting**

M.B.A. - California State University, San Bernardino

Lee, Yvette (1999)**Professor - English**

M.A. - Andrews University

B.A. - University of Colorado at Boulder

Lemieux, Jessy (2015)**Associate Professor - Chemistry**

Ph.D. - University of California, Riverside

M.S. - University of California, Riverside

B.S. - University of California, Riverside

Lillard, Sheri (2007)**Professor - Chemistry**

Ph.D. - Iowa State University

B.S. - San Diego State University

López, Alma Guadalupe (2012)**Professor - English, Puente Co-Coordinator**

M.A. - University of California, Riverside

B.A. - University of California, Santa Cruz

A.A. - San Bernardino Valley College

López, Leonard (2001)**Associate Professor - Philosophy/Religious Studies**

J.D. - Stanford University

M.A. - California State University, Los Angeles

B.A. - University of California, Los Angeles

Lopez, Maria (2018)**Counselor, Assistant Professor - Adult Education, Noncredit, and ESL Program.**

M.S., P.P.S. - University of La Verne

B.S. - University of California, Riverside

A.A. - Rio Hondo College

Luke, Sr., Craig (2015)**Counselor, Associate Professor - First Year Experience (FYE)**

Ph.D. - Universidad Central De Nicaragua

Ph.D. - Bethel Christian College, Riverside

M.A. - California State University, San Bernardino

B.A. - California State University, San Bernardino

Luna, Evelyn (2016)**Counselor, Assistant Professor - First Year Experience (FYE)**

M.A. - University of Redlands

B.S. - California State University, Fullerton

A.A. - Mt. San Antonio College

Martin, David (2018)**Associate Professor - Mathematics**

Ph.D. - University of California, Merced

M.A. - California State University, Fresno

B.S. - University of California, Davis

Martin, Micah (2016)**Associate Professor - Modern Languages**

M.A. - Indiana State University

B.A. - University of California, Santa Barbara

Matavao, Ulavale (2023)**Counselor, Assistant Professor - First Year Experience, Valley Bound Commitment, D.E.E.P**

M.S. - California State University, San Bernardino

B.S. - Florida International University

A.A. - Mt. San Antonio College

Mattson, Susan (2011)**Professor - Communication Studies**

M.A. - California State University, San Bernardino

B.A. - California State University, San Bernardino

Mayo, Ana V. (2022)**Assistant Professor - Chemistry**

Ph.D. - Miami University

M.A. - University of Phoenix

B.S. - Arizona State University

Melancon, Berchman K. (2013)**Professor - Diesel Technology**

A.S. - Riverside City College

Metu, Reginald (2002)**Professor - Computer Information Technology**

Ed.D. - Alliant International University, San Diego

M.A. - California State Polytechnic University, Pomona

B.S. - California State Polytechnic University, Pomona

Meyer, Stacy (2005)**Associate Professor - Culinary Arts**

M.A. - University of Redlands

B.S. - University of Redlands

A.O.S. - Culinary Institute of America

Milligan, Joshua (2016)**Associate Professor - Welding Technology**

A.S. - San Bernardino Valley College

Mills, Amy (2022)**Assistant Professor - English**

M.A. - California State University, Fullerton

B.A. - California State University, Fullerton

Moeung, Botra (2016)**Transfer Counselor, Associate Professor - Transfer and Career Services**

Ed.D. - La Sierra University

M.S. - California Baptist University

B.S. - University of California, Riverside

A.A. - Riverside City College

Moneymaker, Melinda (2009)**Associate Professor - Human Services**

B.A. - California State University, San Bernardino

B.A. - California State University, San Bernardino

A.A. - San Bernardino Valley College

Moore, Sandra (1990)**Professor - Psychology**

Ph.D. - University of California, Santa Cruz

M.S. - University of California, Santa Cruz

B.A. - Northwestern University

Murillo, Joan (2011)**Associate Professor - Biology**

M.S. - California State University, Fullerton

B.S. - University of Wisconsin, Stevens Point

Murphy, Joel (2015)

Associate Professor - English

Ed.D. - Nova Southeastern University

M.A. - Eastern Michigan University

B.A. - Reed College

B.A. - Portland State University

Navarro, Jesus (2023)

Assistant Professor - Nursing

M.S.N. - Azusa Pacific University

B.S.N. - California State University, Fullerton

Nader, Gergis (2022)

Assistant Professor - Art

Ph.D. - Helwan University, Cairo

M.S. - Helwan University, Cairo

B.S. - Helwan University, Cairo

Nelson, Brandy (2016)

Associate Professor - Human Services

M.B.A. - University of Phoenix

B.A. - California State University, San Bernardino

Notarangelo, Joseph (2006)

Professor - English

M.A. - California State University, San Bernardino

B.A. - University of California, Los Angeles

Notarangelo, Maria (2019)

Librarian, Associate Professor - Library and Learning Support Services

M.L.I.S. - California State University, San Jose

M.A. - California State University, San Bernardino

B.A. - University of California, Santa Cruz

Ontiveros, Doris (2023)

Assistant Professor - Pharmacy Technology

B.S. - La Sierra University

Orozco, Debbie (2015)

Counselor, Associate Professor - General Counseling

M.A. - University of Redlands

B.A. - California State University, San Bernardino

A.A. - San Bernardino Valley College

Ortiz, Miguel (2016)

Associate Professor - Machinist Technology

A.S. - San Bernardino Valley College

Parker, Garry (2022)

Assistant Professor - Water Supply Technology

M.B.A. - Webster University

M.A.P.S. - Azusa Pacific University

B.A. - Webster University

B.S. - Horizon College

Pave, Adam (2017)

Associate Professor - Philosophy/Religious Studies

Ph.D. - Claremont Graduate University

M.A. - Claremont Graduate University

M.A. - University of Hawaii

M.A. - West Chester University

Perez, Ebony (2024)

Assistant Professor - Mathematics

M.A. - Rice University

M.A. - California State University, San Bernardino

B.A. - California State University, San Bernardino

Pires, Romana (2007)

Professor - Sociology

M.A. - California State University, Fullerton

M.S. - California State University, Fullerton

B.A. - California State University, Long Beach

Qader, Amanda (2024)

Assistant Professor - Mathematics

M.A. - California State University, Fullerton

B.A. - California State University, Fullerton

Rascon, Mary (2022)

Assistant Professor - Nursing

M.S. - University of Phoenix

Recinos, Jose (2004)

Associate Professor - Modern Languages (Spanish)

Ph.D. - University of California, Davis

B.A. - University of California, Davis

Romero, Melissa (2023)

Assistant Professor - Biology

M.S. - California State University, Los Angeles

B.S. - California State University, Fullerton

Robles, Matthew (2016)

Associate Professor - Geology

M.S. - University of California, Riverside

B.S. - California State University, San Bernardino

A.A. - College of the Desert

Rosales, David (2007)

Associate Professor - Art

M.F.A. - Claremont Graduate University

B.F.A. - The San Francisco Art Institute

Sacdalan, Alvin (2019)

Associate Professor - Mathematics

M.A. - California State University, San Bernardino

B.A. - California State University, San Bernardino

Sanchez, Irene (2023)

Assistant Professor - Ethnic Studies

Ph.D. - University of Washington

M.Ed. - University of Washington

B.A. - University of California, Santa Cruz

A.A. - Riverside City College

Shea, Edward (2021)

Assistant Professor - English

M.F.A. - California State University, Long Beach

B.A. - California State University, San Bernardino

Simpson, Tahirah (2014)

Counselor, Associate Professor - General Counseling

M.S. - National University

B.A. - California State University, San Bernardino

A.A. - San Bernardino Valley College

Slusser, Michael (2002)

Associate Professor - English

M.A. - University of Toronto
 M.F.A. - Eastern Washington University
 B.A. - University of California, Riverside

Smalls, Hayley (2022)**Assistant Professor - Biology**

M.S. - Washington State University
 B.S. - Washington State University

Smith-Morton, Daniele (2012)**Counselor, Associate Professor - STEM/Umoja-Tumaini**

Ed.D. - La Sierra University
 M.F.T. - Hope International University
 B.A. - Hope International University

Sobhanian, Soha (2016)**Associate Professor - Biology**

Ph.D. - Curtin University, Perth
 M.S. - California State University, Fullerton
 B.S. - California State University, Fullerton

Sogomonian, Nori (1994)**Professor - Modern Languages (Spanish)**

Ed.D. - California State University, San Bernardino
 M.A. - University of California, Los Angeles
 B.A. - University of California, Los Angeles

Stalbert, Malik (2016)**Associate Professor - Computer Information Technology and Computer Science**

Ph.D. - Capella University
 M.S. - University of West Georgia
 B.S. - American InterContinental University
 A.A. - San Bernardino Valley College

Strong, Teri (1994)**Professor - Mathematics**

Ph.D. - Capella University

Tasaka, Bethany (2017)**Associate Professor - Mathematics**

M.A. - California State University, San Bernardino
 B.A. - California State University, San Bernardino

Taylor, Rutina (2023)**Counselor, Assistant Professor - Umoja-Tumaini**

M.A. - California State University, Dominguez Hills
 B.A. - California State University, Dominguez Hills

Tinoco, Michelle (2017)**Counselor, Associate Professor - General Counseling**

M.A. - University of Redlands
 B.A. - California State University, San Bernardino
 A.A. - San Bernardino Valley College

Tolstova, Anna (2014)**Associate Professor - Physics**

M.S. - Byelorussian State University, Belarus

Torres, Christina (2016)**Associate Professor - Kinesiology & Health**

M.A. - Azusa Pacific University
 B.A. - California State University, Northridge

Torrez, Michael (2007)**Associate Professor - Chemistry**

M.S. - California Polytechnic University, Pomona
 B.S. - California Polytechnic University, Pomona

Underwood, Bruce (2016)**Associate Professor - Business Administration**

M.B.A. - California Coast University
 B.S. - California Coast University

Valdez, Maria (2016)**Associate Professor - Psychiatric Technology**

M.A. - National University
 B.S. - University of Phoenix
 L.V.N. - Beaumont Adult School
 P.T. - San Bernardino Valley College
 A.A. - San Bernardino Valley College

Vasquez, Tatiana (2009)**Professor - Biology**

M.S. - University of North Carolina, Chapel Hill
 B.S. - University of California, Riverside

Vogel, Angela M. (2021)**Assistant Professor - Nursing**

M.S.N.Ed. - Colorado Technical University
 B.S.N. - Grand Canyon University
 A.D.N. - Riverside City College

Vu, Tammy (2020)**Counselor, Assistant Professor - First Year Experience (FYE)**

Ed.D. - Trident University International
 M.S. - National University
 B.S. - California State University, Fullerton

Wang, Wei-Chung (2022)**Assistant Professor, Economics**

Ph.D. - University of California, Irvine
 M.A. - University of California, Irvine
 B.A. - Shih Hsin University (Taipei, Taiwan)

Weaver, Teresa (2015)**Associate Professor - Psychiatric Technology**

M.S.N., PMHNP - Loma Linda University Medical Center
 B.S.N. - University of Phoenix
 A.D.N. - Victor Valley College

Weber, Abena (2015)**Counselor, Associate Professor - STEM, ALEKS Lab Coordinator**

Ed.D. - University of Wisconsin, LaCrosse
 M.S. - Loyola University, Maryland
 M.S. - Drexel University
 B.S. - Morgan State University

Wilkins, Janice (2015)**Articulation Officer/Counselor, Associate Professor - General Counseling**

M.S. - University of La Verne
 B.A. - California State University, Long Beach

Williams, Mark (1985)**Professor - Automotive Collision Repair**

A.S. - Chaffey College

Woodland, Sydnee (2024)**Assistant Professor - Accounting**

M.S.T. - Golden Gate University
 B.A. - California State University, San Bernardino

Wooten, André (2005)

Athletic Counselor, Associate Professor - The Huddle: Student Athletic Academic Center

M.S. - University of New Mexico
 B.A. - University of New Mexico
 A.A. - Cerritos College

Zarate, Rangel Velez (2021)

Assistant Professor - English

M.A. - California State University, San Bernardino
 B.S. - California State University, San Bernardino

Adjunct Faculty

In addition to the regular full-time contract faculty, San Bernardino Valley College has quality adjunct faculty in each division who come from industry, business and other educational institutions to provide a faculty with many talents to support diversified and exemplary programs demanded and expected of a community college.

Faculty / Professor Emeriti

Faculty/Professor Emeritus is a recognition bestowed by the Academic Senate to recognize our retiring academic colleagues for their service to the college, students, and peers; as well as an acknowledgment that their service will not be forgotten after they leave the college.

Adams, Kathryn - Child Development
Aguilar-Kitibutr, Ailsa - Counseling
Alblinger, Diane - English
Alexander, Horace - English
Anderson, Diana J. - English
Anderson, Willard - Accounting
Andriese, Jacob (Jack) - Music
Ashton, Judith - English
Atzet, Raymond - Architecture
Avila, Diana - Mathematics
Bastedo, David - Biology
Battle, Eileen F. - Nursing
Berry, Anita - Nursing
Berry, John W. - Art
Bruno, Frank - Psychology
Burningham, Robert - Communications
Burson, Thurmon - Career Center
Busselle, Carlos (Buzz) - Electronics
Chamberlain, Thomas K. - English
Clarke, William - Machine Trades
Cook, Carol - Biology
Cunningham, William E. - Astronomy
Dahlgren, Ingrid - Physical Education
Danley, Jay - Communication Studies
Diers, Cleon - Mathematics
Drewes, Glenn - Biology
Dulgeroff, James "JD" - Economics
Dusick, Diane - Radio, Television, and Film
Evans-Perry, Ginny - Library
Ferri-Milligan, Paula - English
Flanders, Jacqueline - Physical Education
Free, Sheela - English
Gamboa, Darlene - Biology
Gates, Dorothy L. - Sociology
Gomez, Laura - Counseling
Gordon, Esther H. - Child Development
Green, Jan - Health Services
Grutsis, Paul - Economics
Harmeyer, Arthur R. - Physics
Harvey, Robert A. - Biology/Botany
Hearn, Lily G. - English
Hunt, Sharon I. - Office Information Systems
Hunter, Diane - English
Ikeda, Mark - Biology
Jacobsen, Patricia - Reading
James, Henry A. - Computer Science
Kondor, Albert - Anthropology/German
Korzillius, Lillian L. - Family/Consumer Science
Lamore, Joel - English
Lanto, Enid G. - Library
Lardy, Leonard A. - English
Lawrence, David - Humanities
Lewis, Bennett H. - Data Processing
Lewis, John E. - Microbiology
Lopez, Frank - Aeronautics

Lysak, Michael - Physics
Malottke, Erna - Secretarial
Marquis, Jeanne - Counseling
Martin, Juliann - Child Development
Martin, Livio C. - Aeronautics
Mason, Dorothy M. - Nursing
Maul, Terry - Psychology
Mazzei, Gene - Physical Education
McKie, Bill - English
Mestas, Marie - Library and Learning Support Services
Michaelis, Kenneth - Biology
Mitchell, Jack - English
Moreno, Dolores - English
Neuhaus, Clemens - English
Newlee, Anne Georgie - Physical Education
Nunez, Ida - Nursing
Okamura, Judy - Chemistry
Olsen, John (Jack) - Anatomy/Physiology
Olson, John - Biology
Paszkievicz, Robert - Psychiatric Technology
Perez, Edward - English
Peterson, Frank P. - Administration of Justice
Purkart, Susan A. - Reading/Study Skill
Rippy, Robert H. - English
Roberts, J. Lynn - Automotive
Runyon, Cynthia - Physical Education
Sandlin, Stephen - Geography
Scantlin, Dorothy - Nursing
Schall, Donald - Business Administration
Schmidt, Roger - Philosophy/Religious Studies
Scott, Tom - Physical Education
Scully, Madeline "Matie" Manning - Music
Segovia, Eloise M. - Counseling
Sherman, Sylvia J. - History
Shimoff, Susan - Family/Consumer Science
Shodahl, Susan A. - Psychology
Smedley, Ron - Physical Education
Smith, Bob - Physical Education
Smith, David - Mathematics
Smith, Joyce - Counseling
Smith, Loren E. - History
Smith, Princie D. - Psychiatric Technology
Stafford, Robert - Mathematics
Stanfill, Peg - Counselor
Staude, Laurie - English
Stoddard, Wayne - Physical Science
Sturgeon, Rita - Mathematics
Szumski, Edward J. - Electronics
Thrasher, Marvin E. - Psychology
Tilton, Julie - English
Wall, Patti - Library
Whisler, Louise - Mathematics
Williams, Bruce G. - Automotive
Williams, Susan - Art
Wilson, Robert - Physics/Astronomy
Wright, Melvin L. - Business Administration/Business Math
Young, James E. - History/Religious Studies
Zaharopoulos, George - Political Science
Zepeda, Juan - Counseling
Zoumbos, Nickolas - Accounting

2024-2025 ACADEMIC CALENDAR

The 2024-2025 Academic Calendar (<https://sbccd.edu/academic-calendars/>) has information on start and end dates, holidays, and final exams.

Fall 2024 Semester

Date	Event
08/06/2024	Flex Day
08/07/2024 - 08/09/2024	Faculty In-Service Days
08/12/2024	Instruction Begins - First Day of Fall Semester
09/02/2024	Labor Day
09/07/2024	Fall Census Day
11/11/2024	Veterans Day
11/25/2024 - 11/27/2024	Fall Break
11/28/2024 - 11/30/2024	Thanksgiving
12/11/2024 - 12/17/2024	Final Exams
12/17/2024	Fall Semester Ends
12/23/2024 - 01/01/2025	Campus Closed
12/24/2024	Fall Semester Grades Due

Spring 2025 Semester

Date	Event
01/14/2025	Flex Day
01/15/2025 - 01/17/2025	Faculty In-Service Days
01/20/2025	Martin Luther King Day
01/21/2025	Instruction Begins - First Day of Spring Semester
02/14/2025	Lincoln's Birthday
02/17/2025	Spring Census Day
02/17/2025	Washington's Birthday
03/17/2025 - 03/22/2025	Spring Break
05/16/2025 - 05/22/2025	Final Exams
05/22/2025	Spring Semester Ends
05/23/2025	Commencement
05/26/2025	Memorial Day
05/30/2025	Spring Grades Due
06/19/2025	Juneteenth
